Oh... hello. Um, my name is Ray.

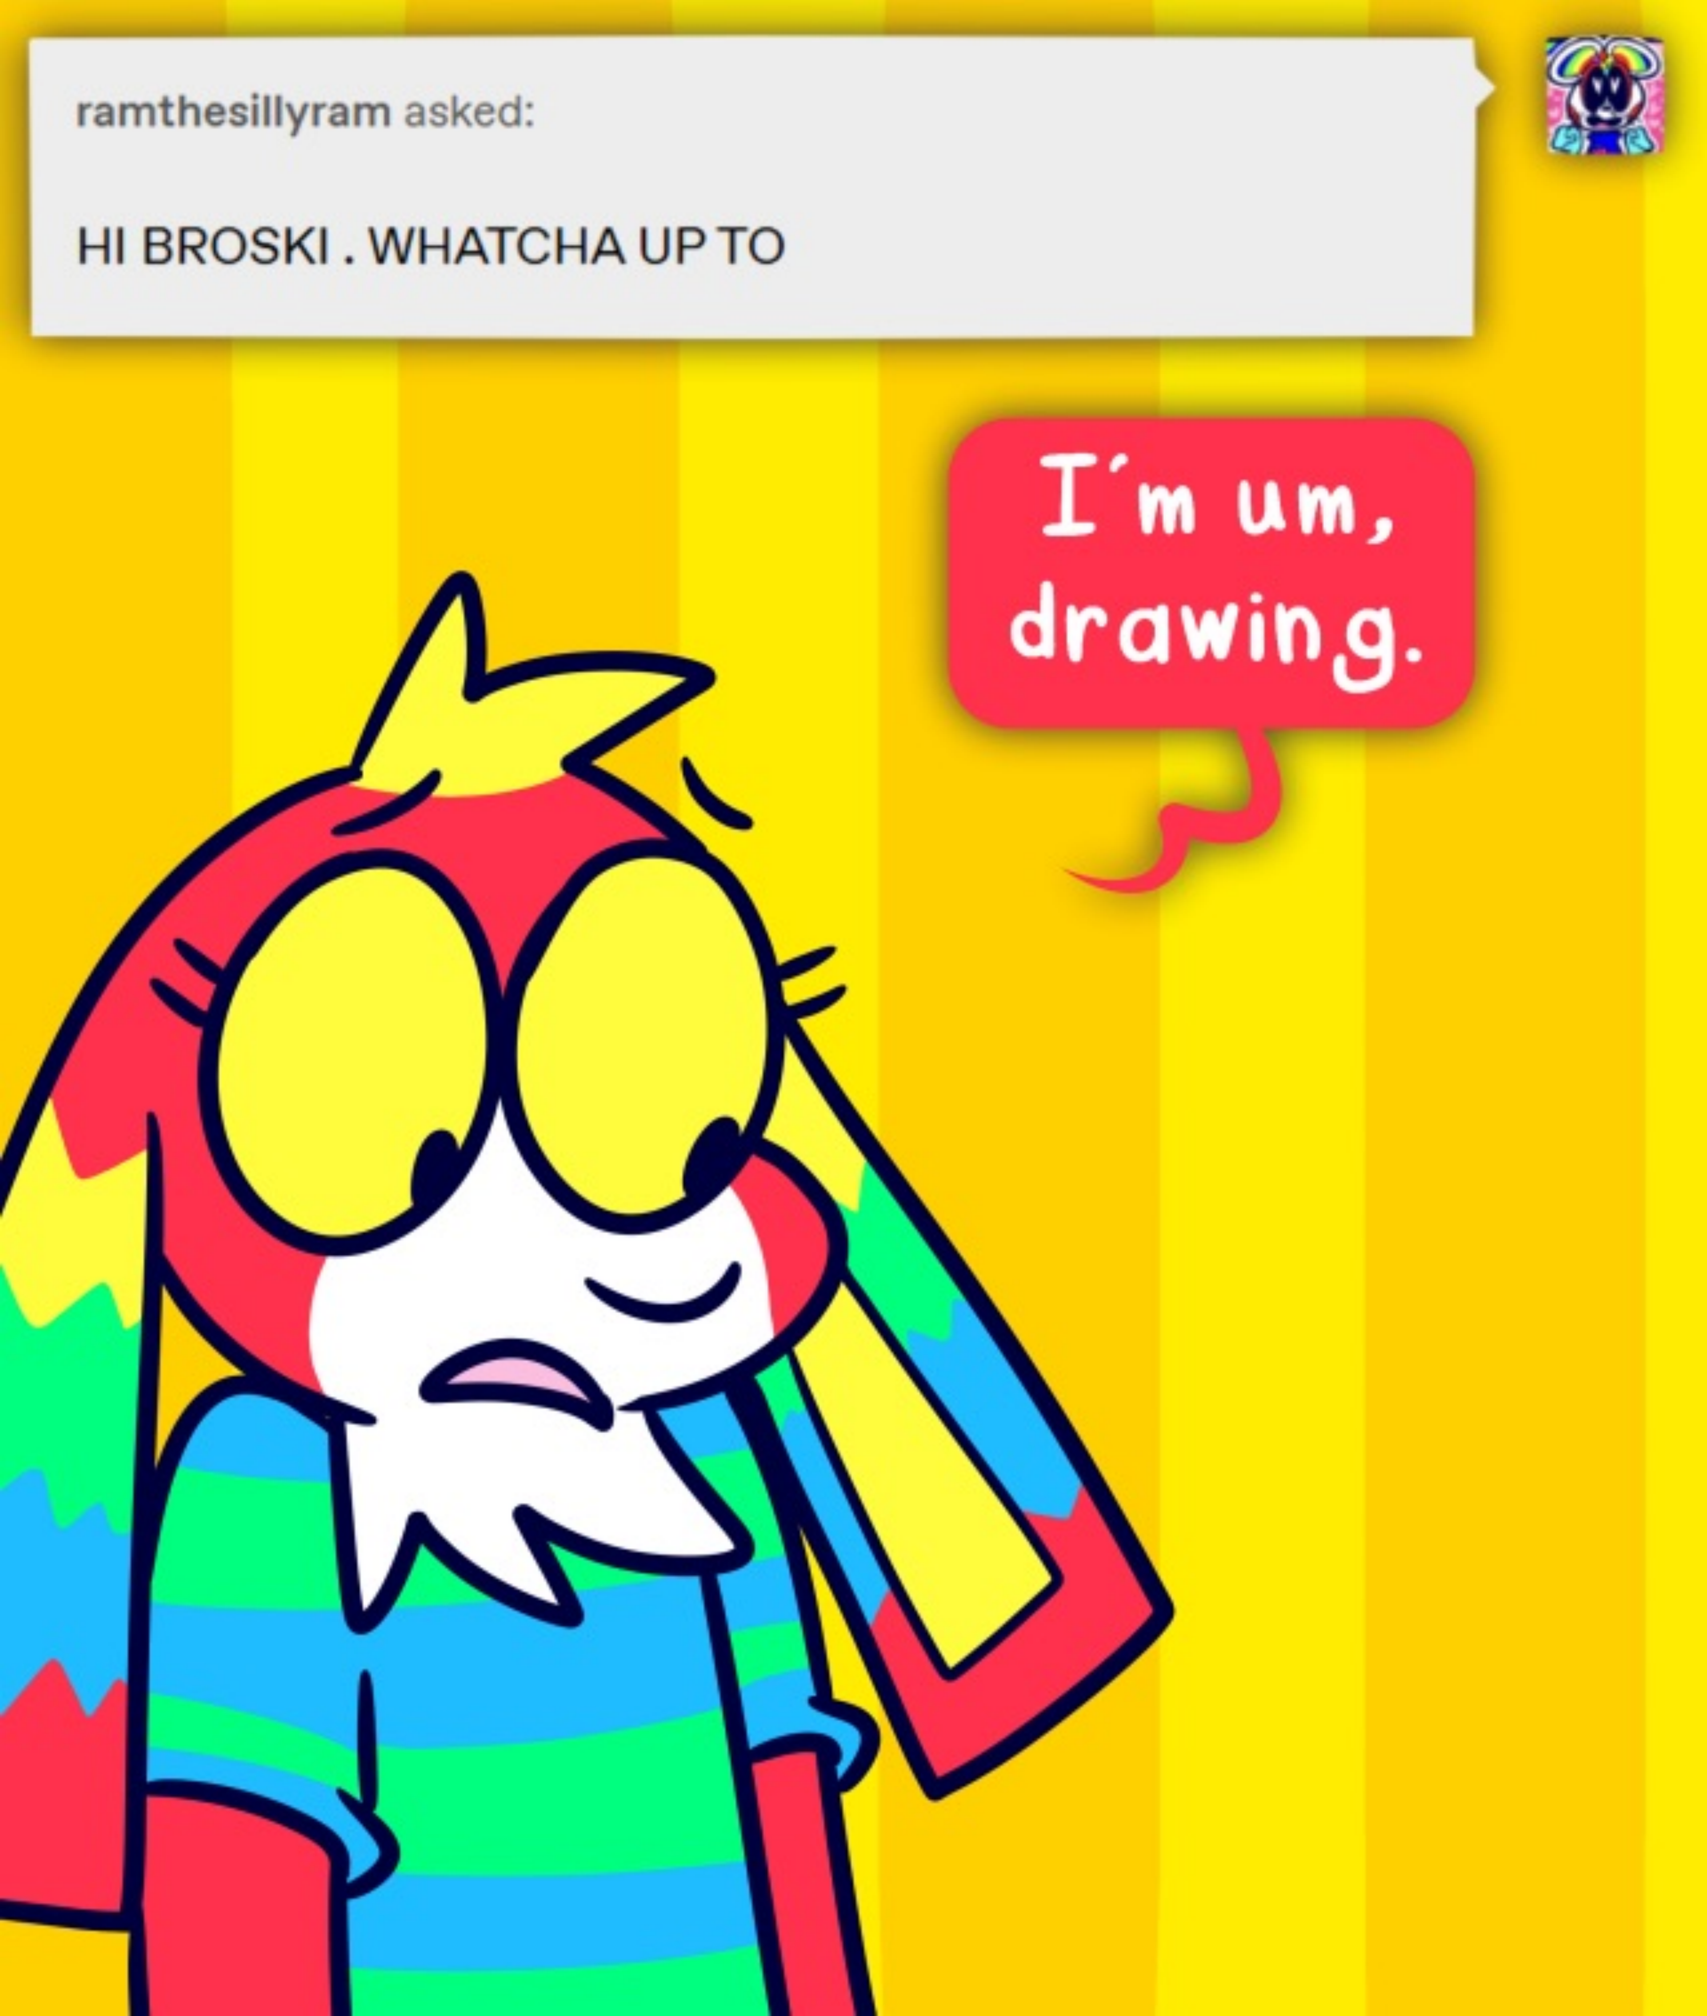
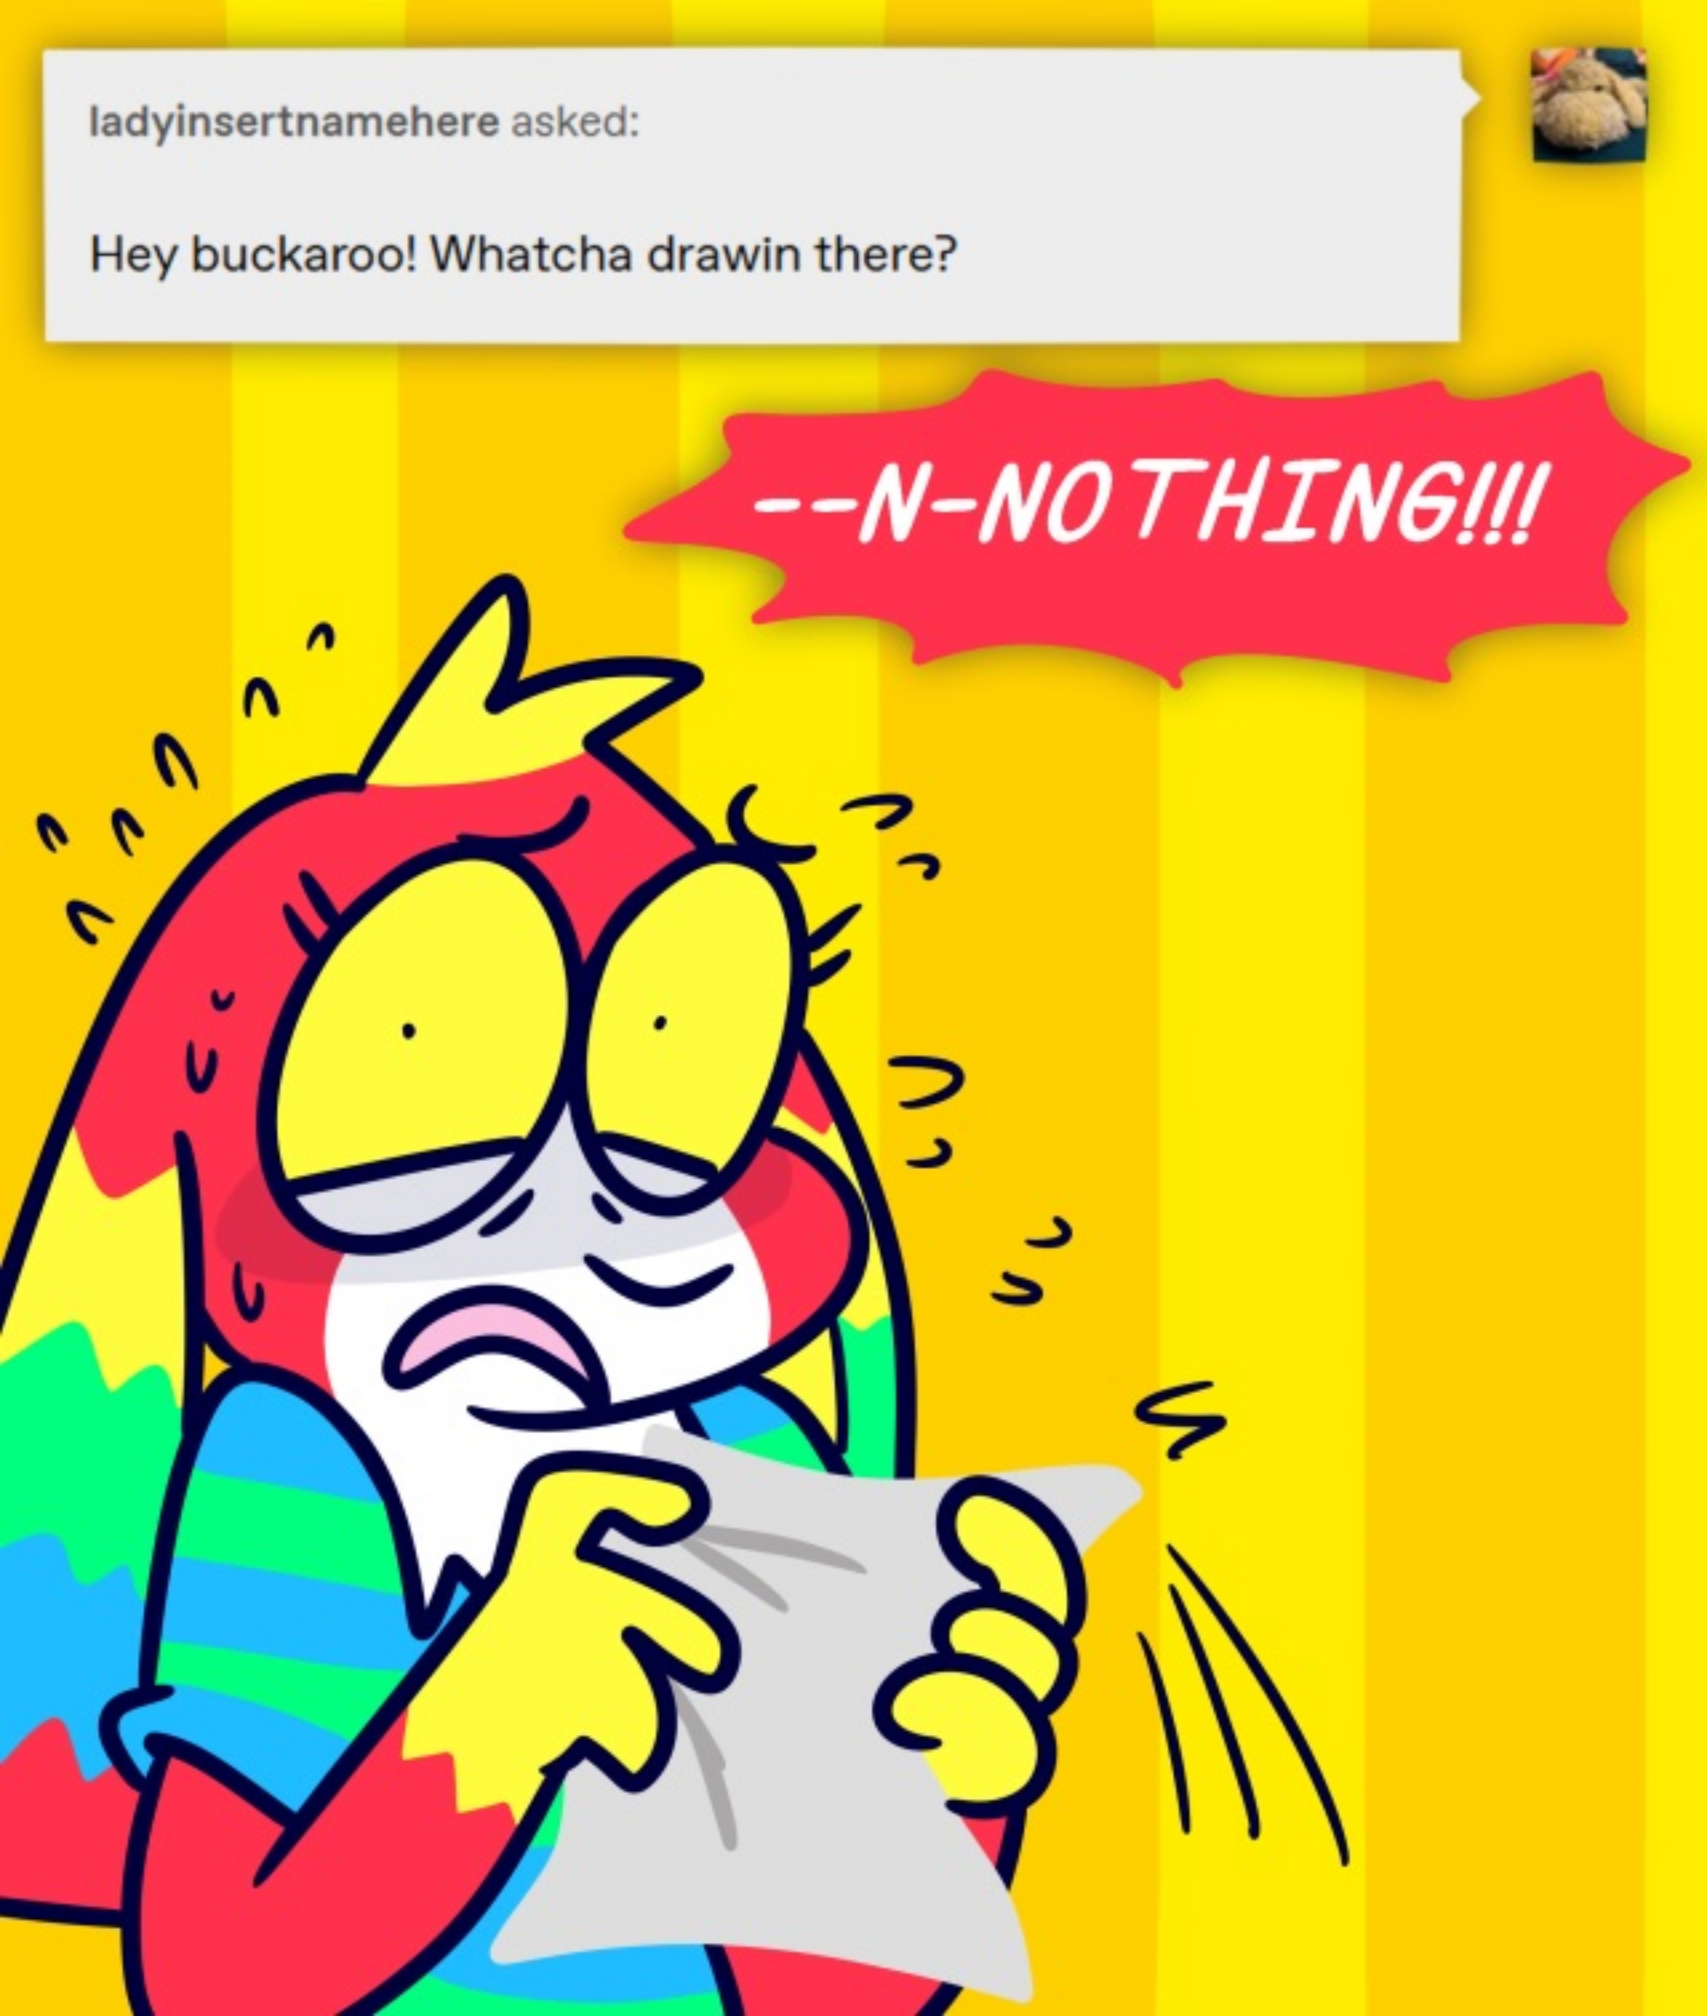
Local Toy Borse



ramthesillyram asked:

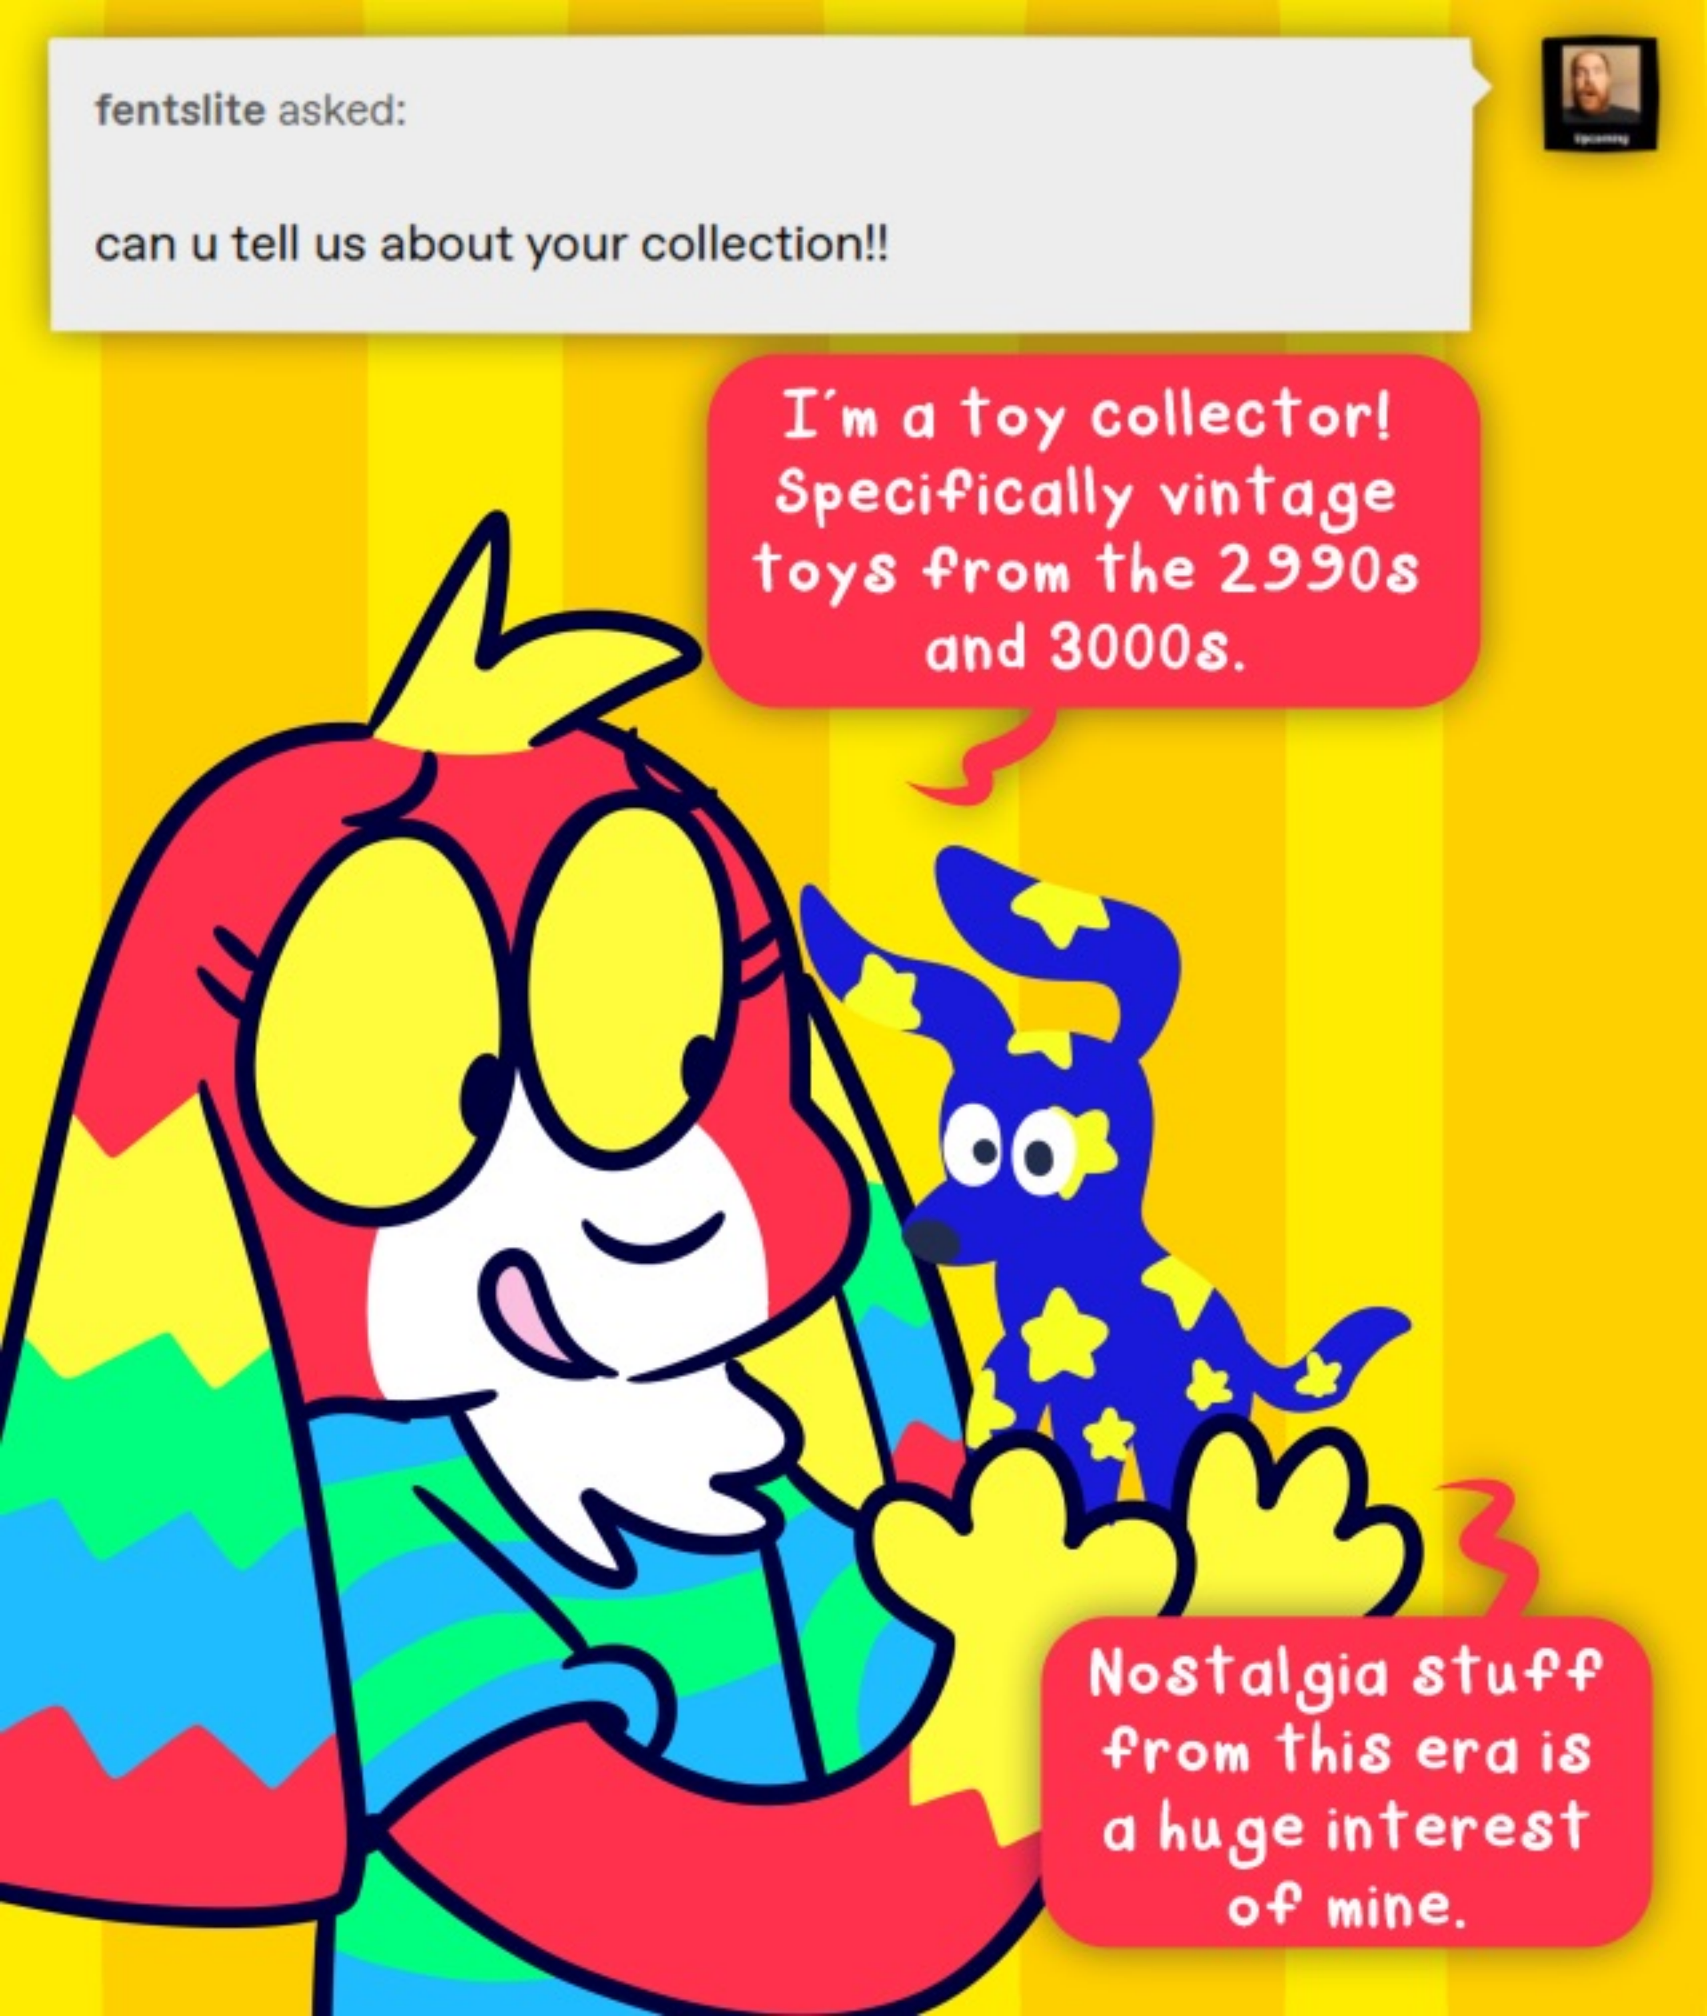
HI BROSKI . WHATCHA UP TO

I´m um, drawing.



ladyinsertnamehere asked:

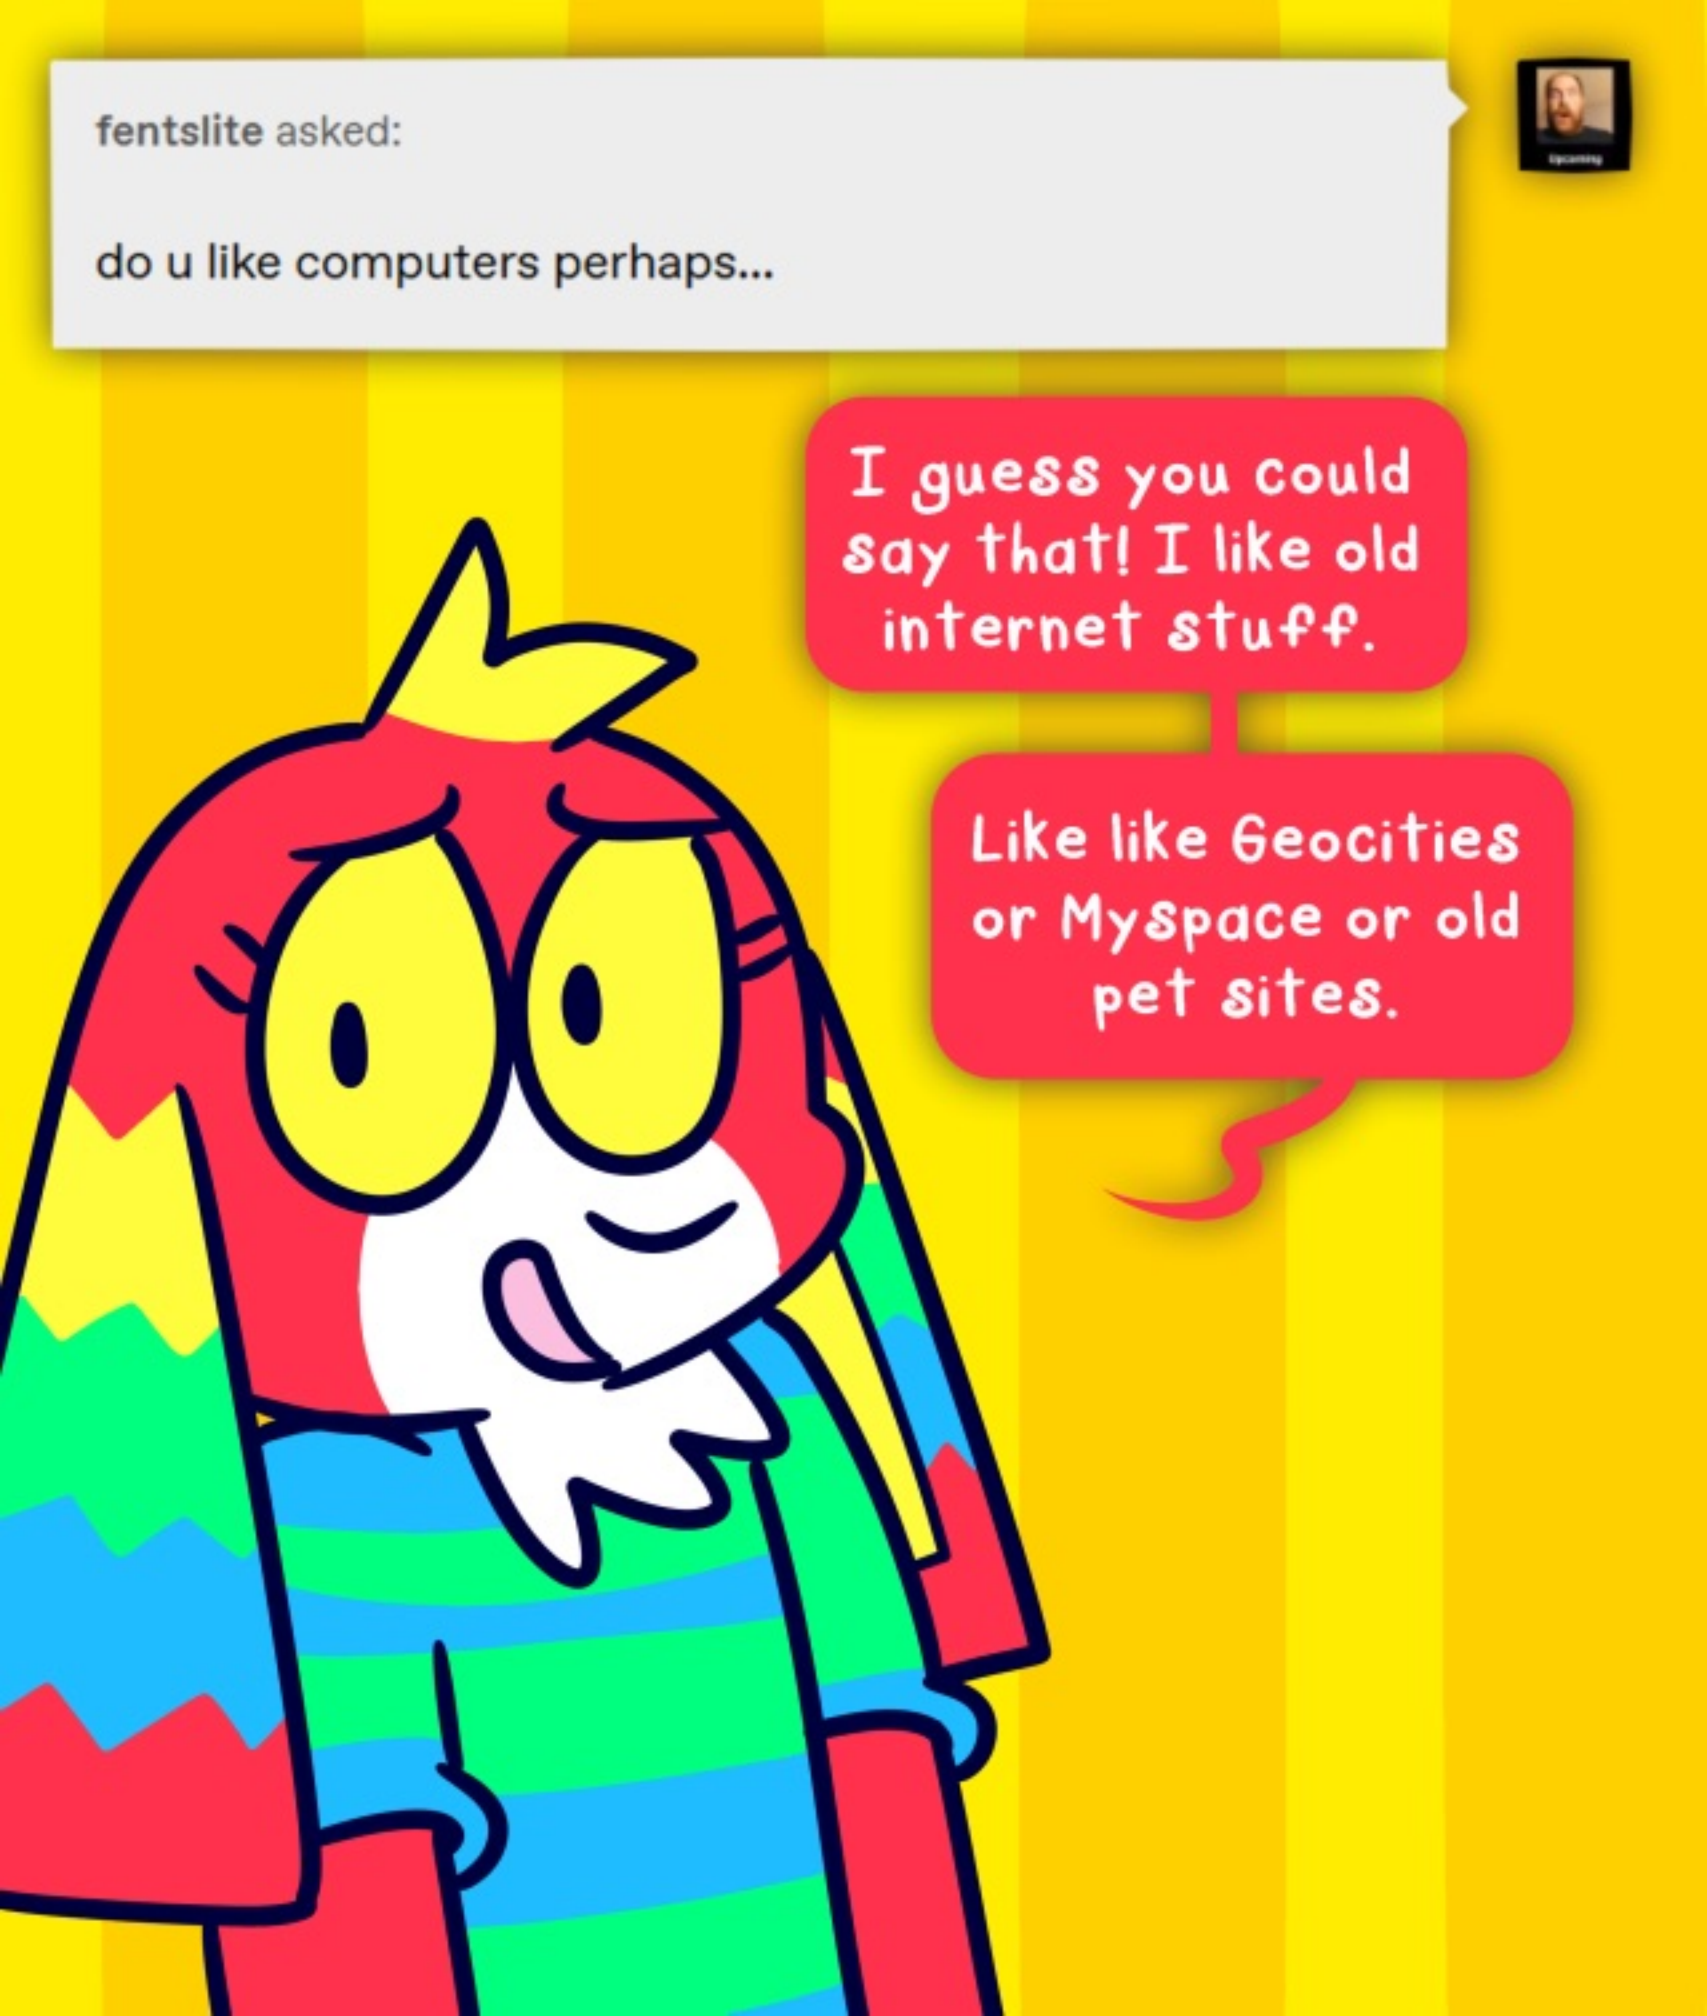
Hey buckaroo! Whatcha drawin there?



fentslite asked:

can u tell us about your collection!!

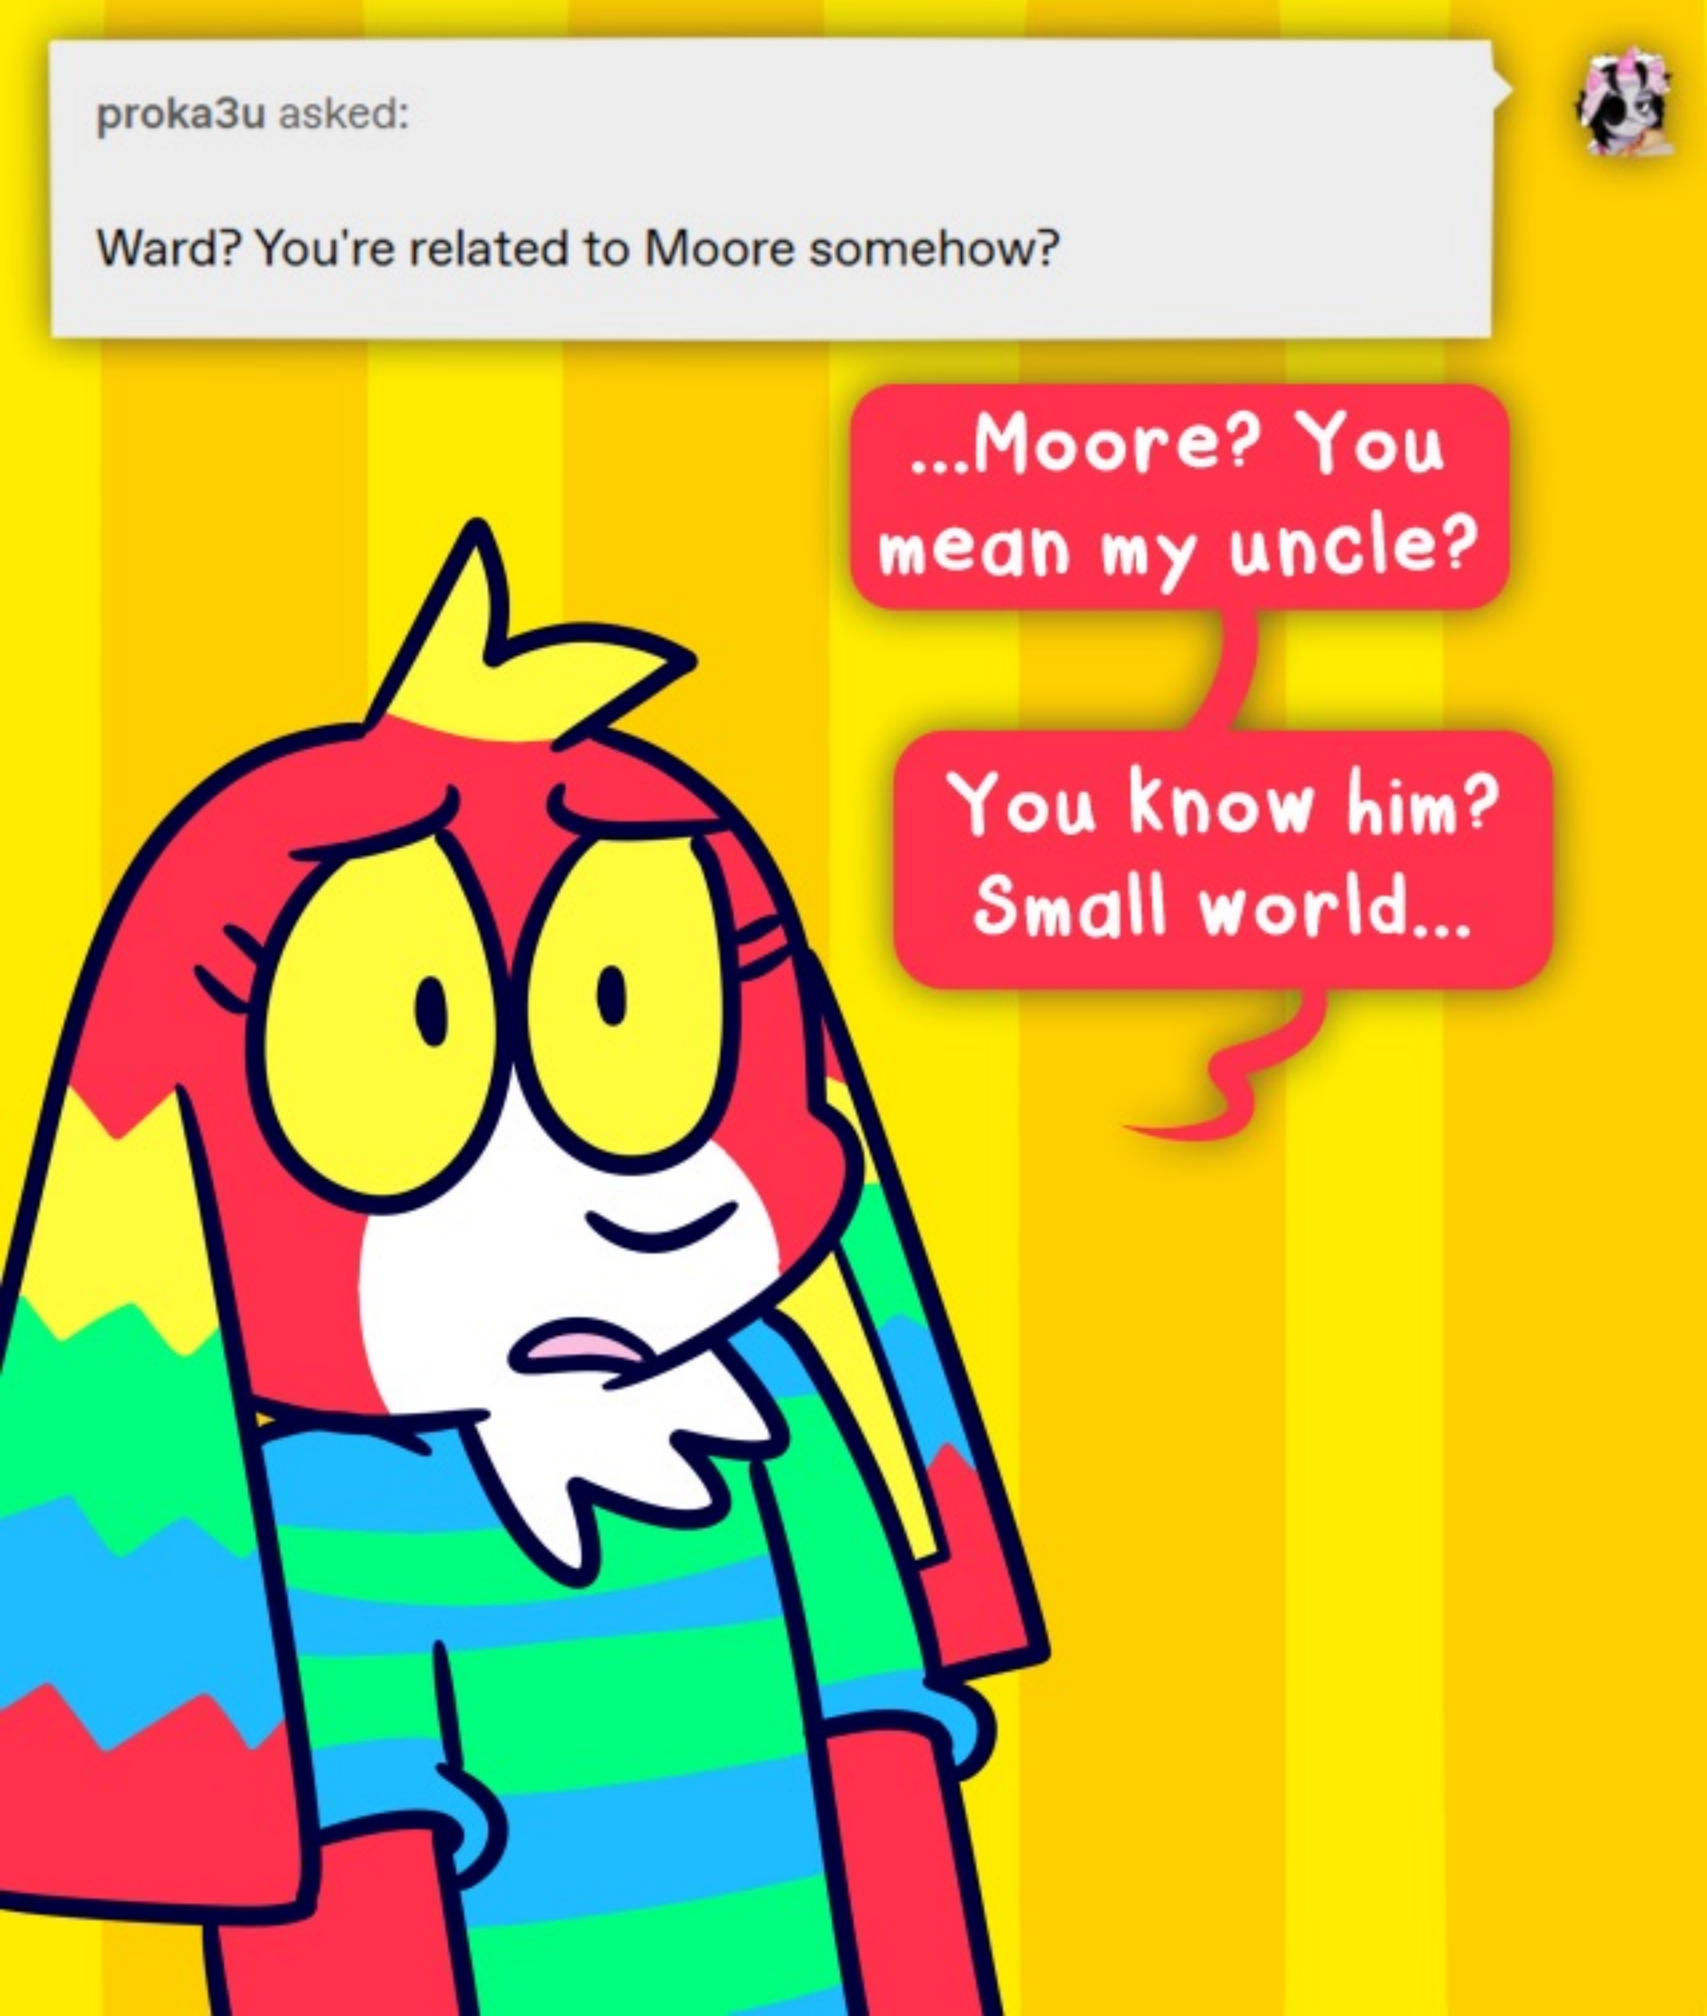
I'm a toy collector! Specifically vintage toys from the 2990s and 3000s.
Nostalgia stuff from this era is a huge interest of mine.



fentslite asked:

do u like computers perhaps...

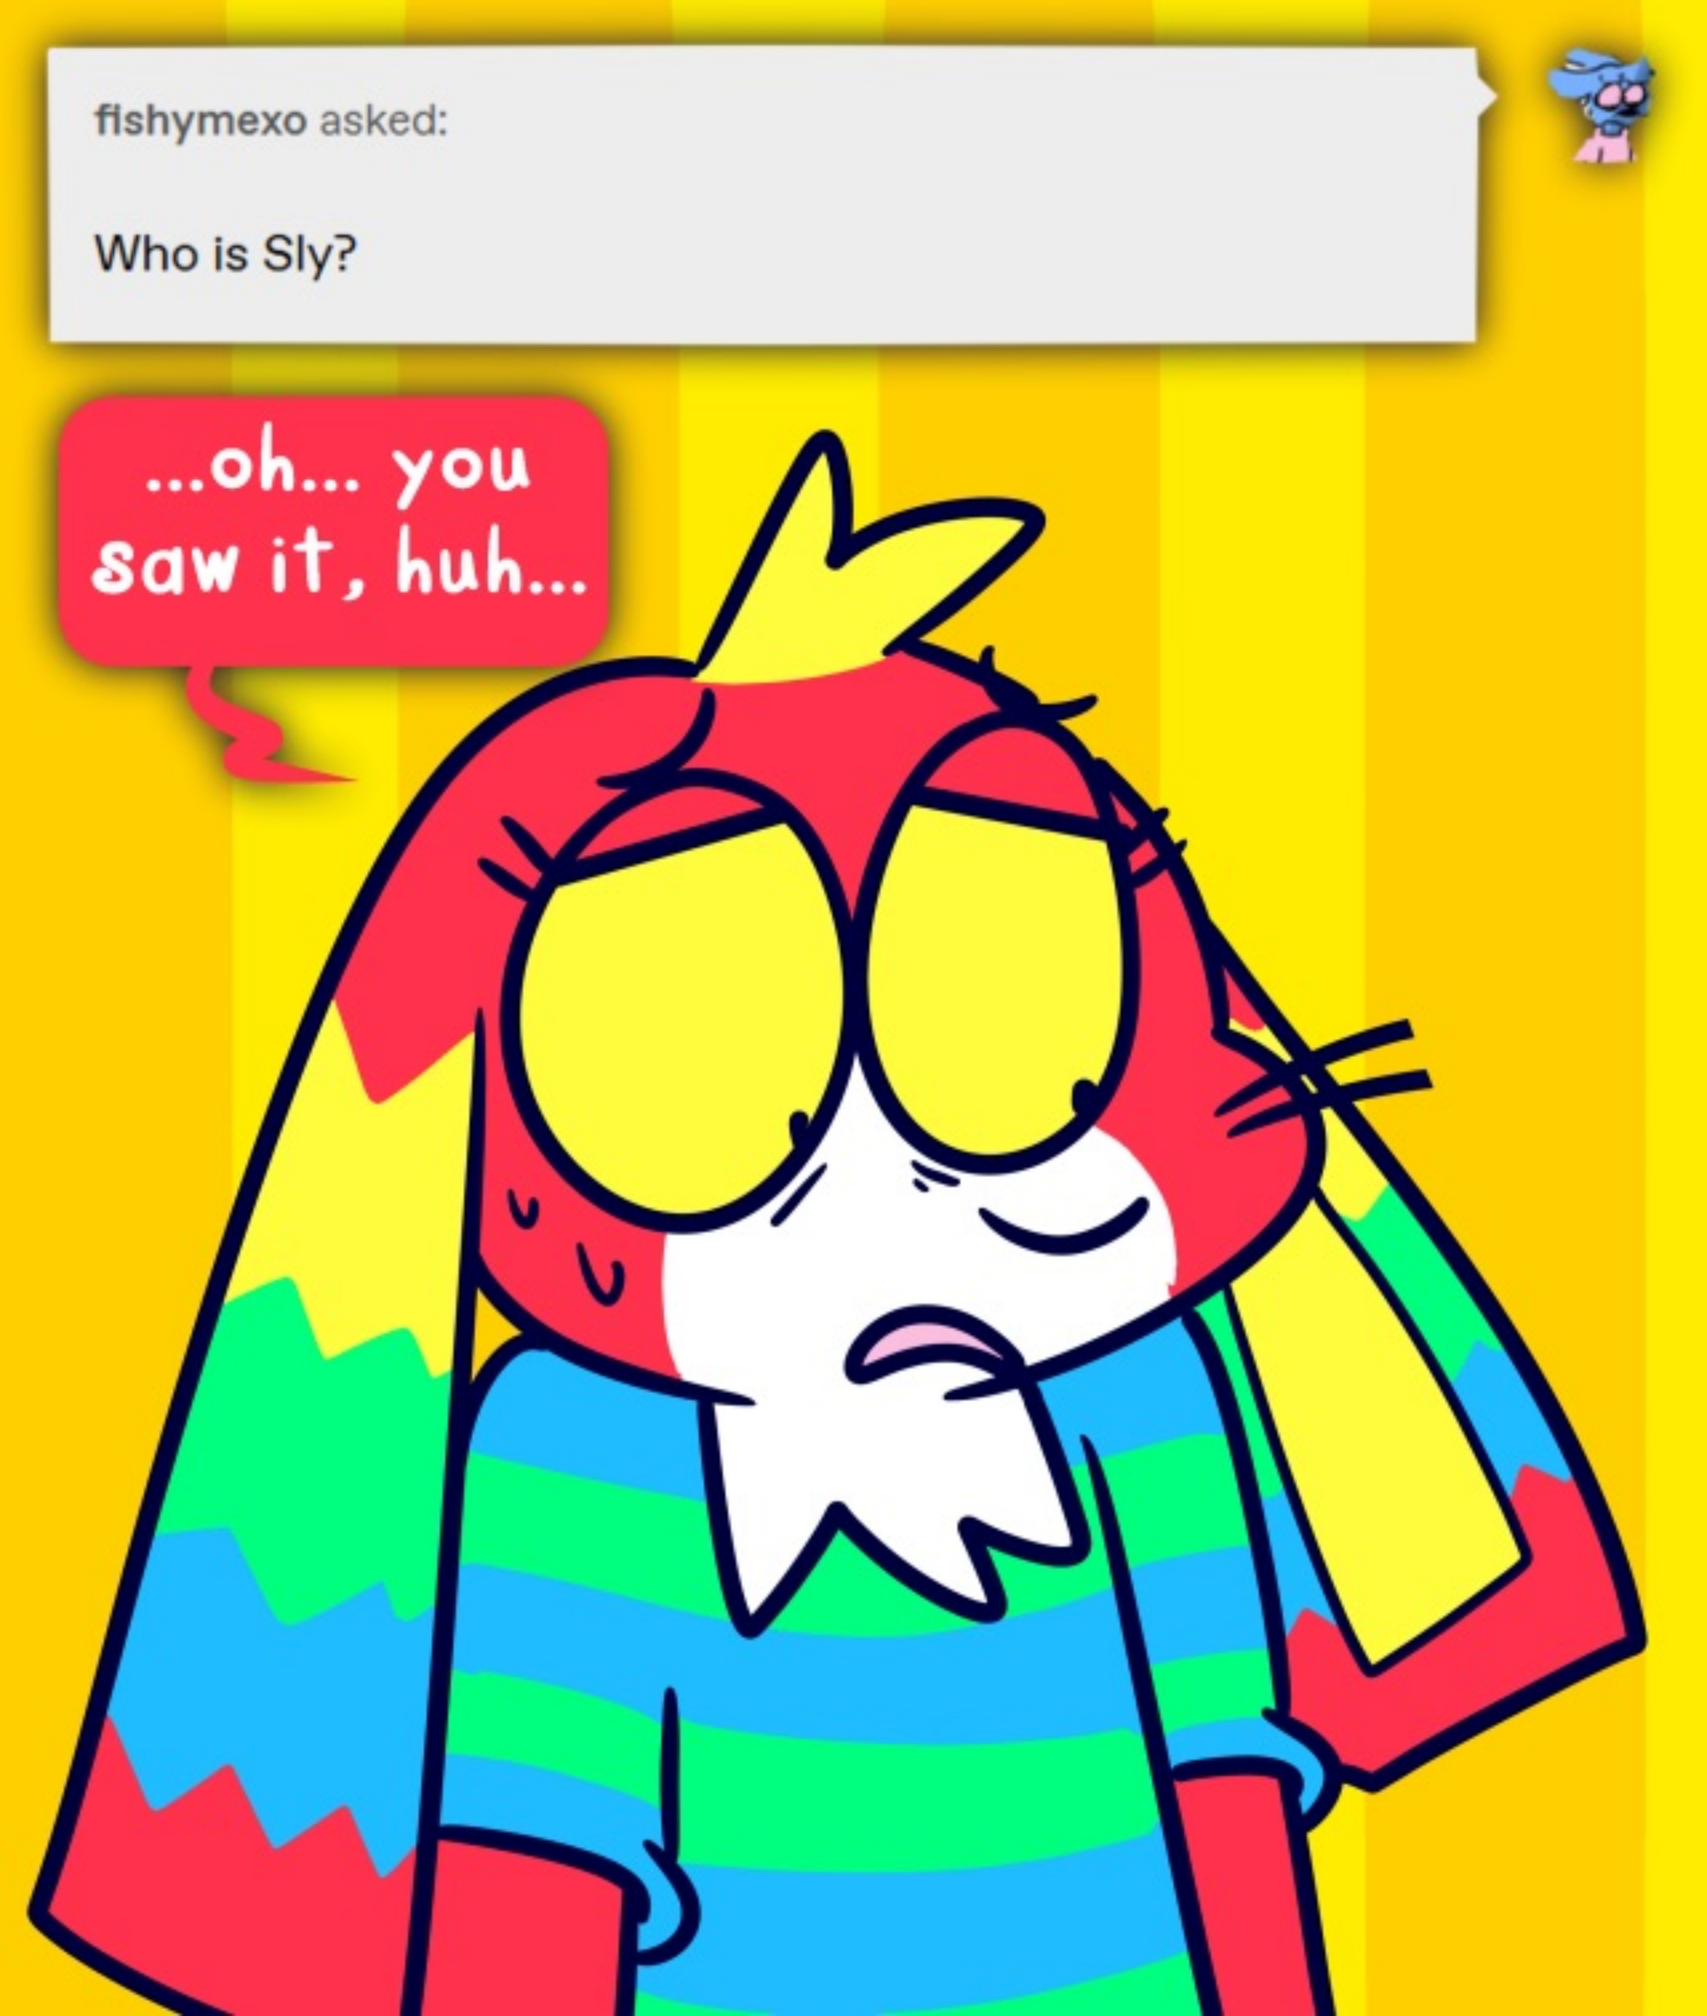
I guess you could say that! I like old internet stuff.
Like like Geocities or Myspace or old pet sites.



proka3u asked:

Ward? You're related to Moore somehow?

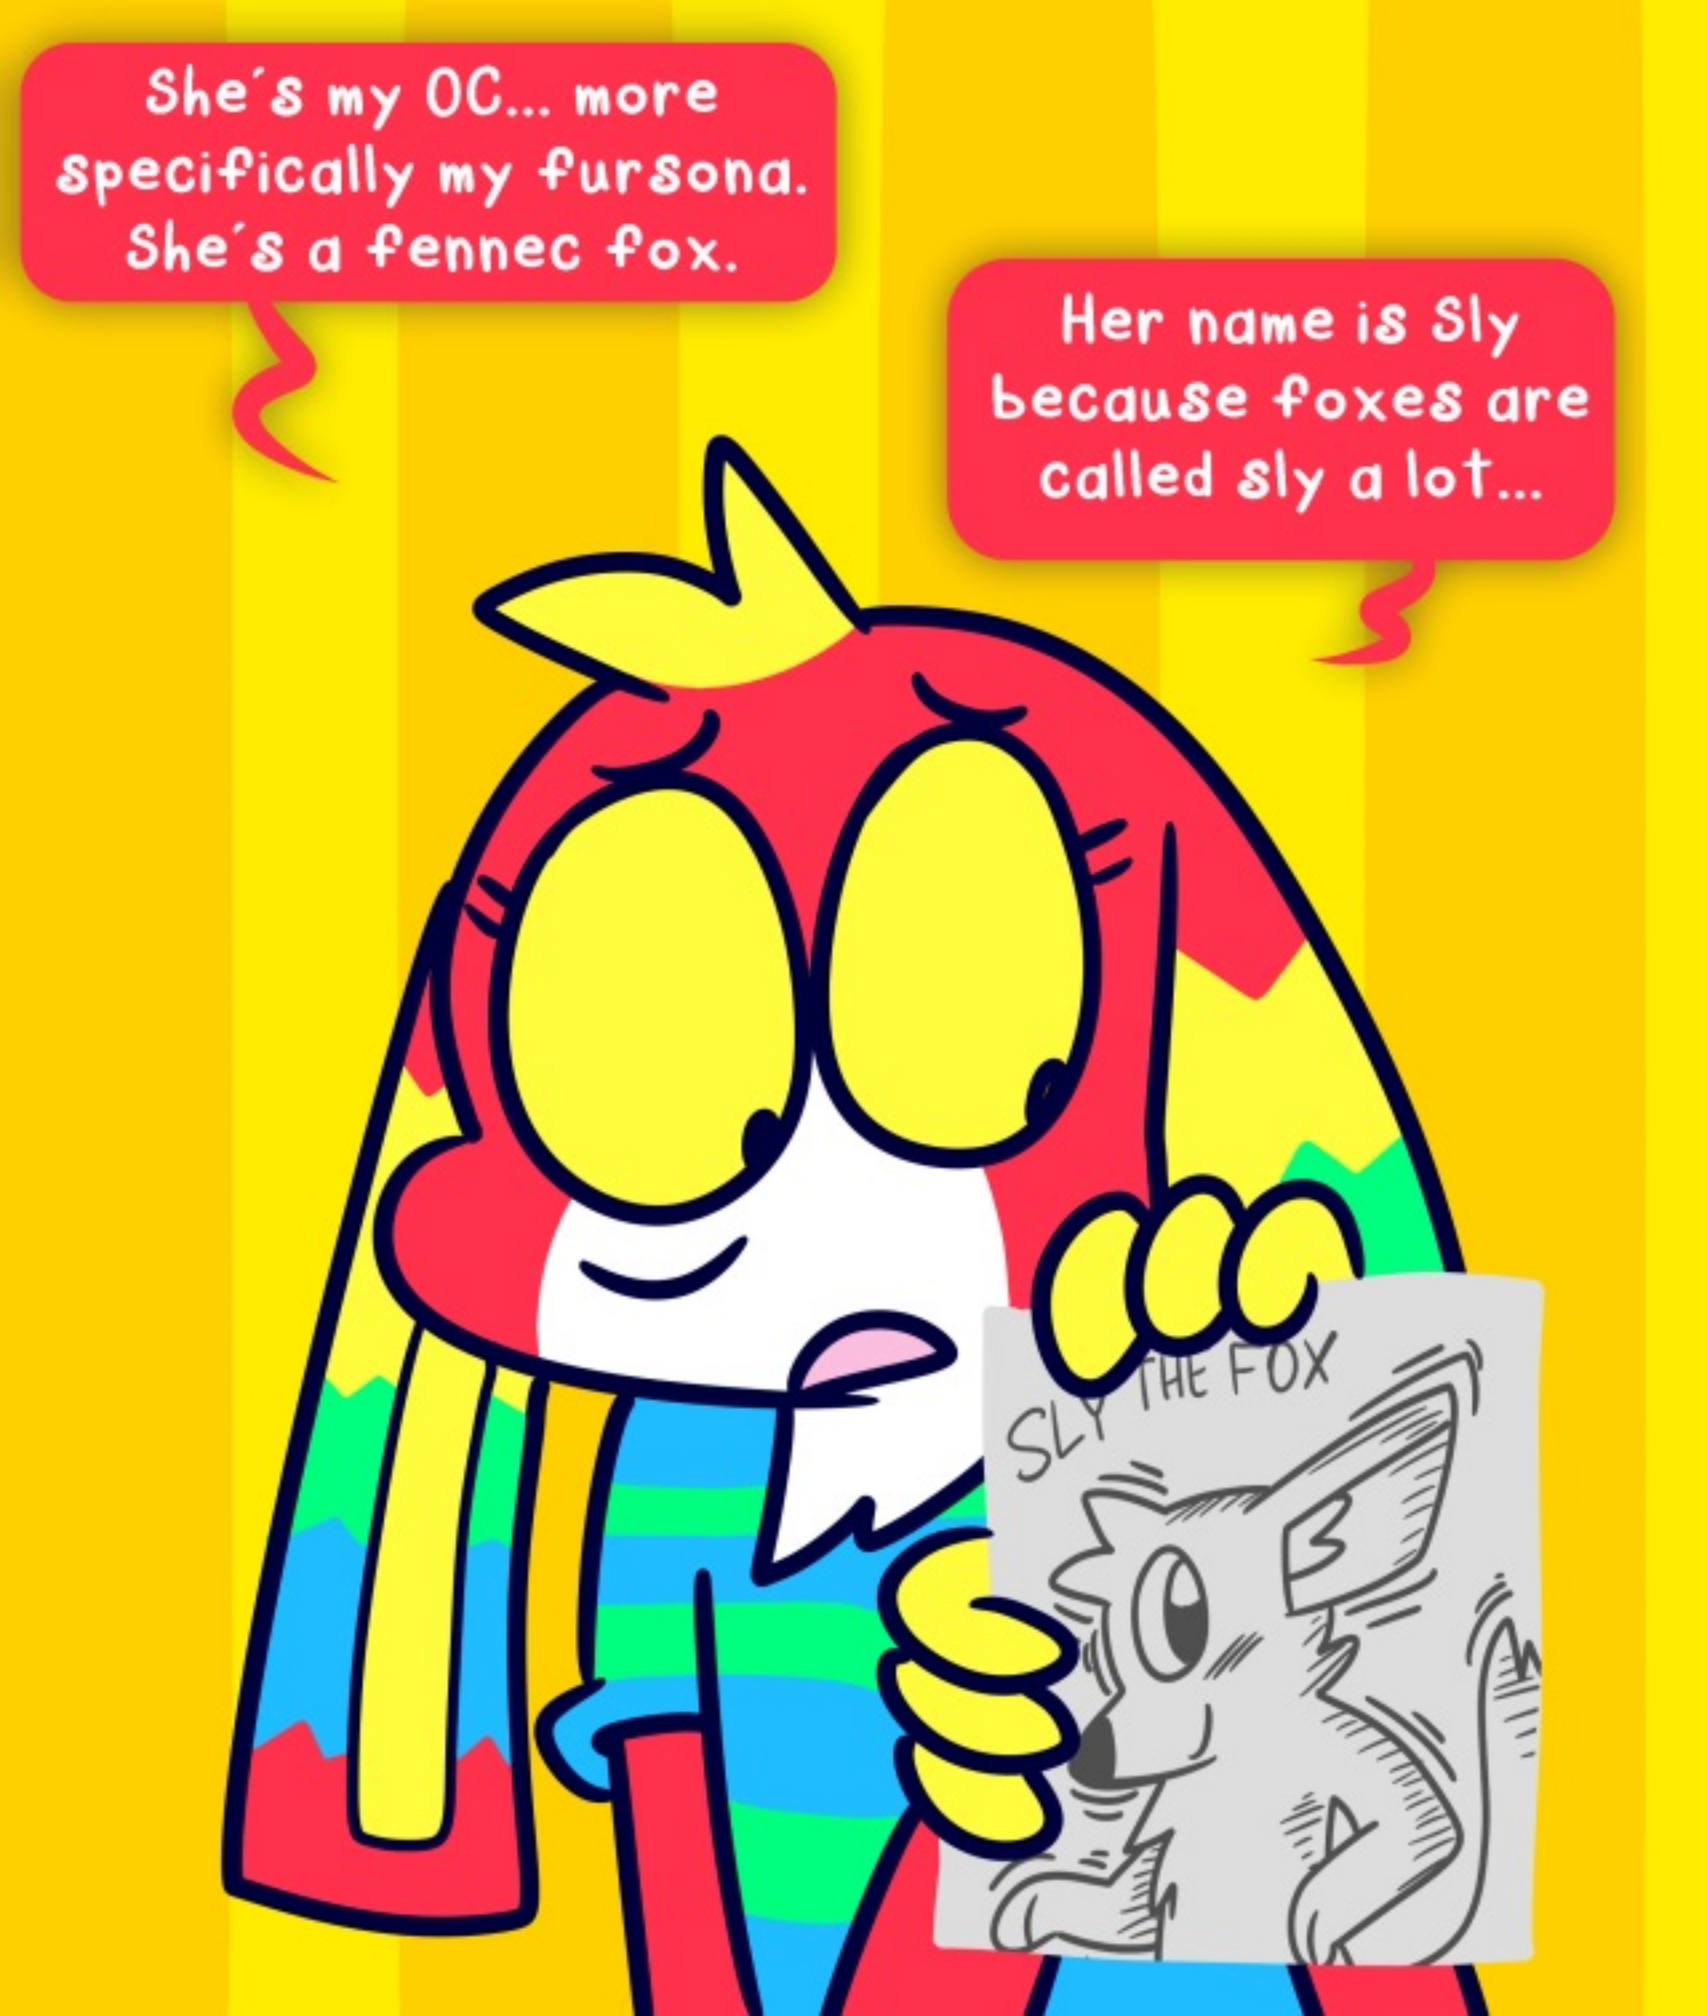
...Moore? You mean my uncle?
You know him? Small world...



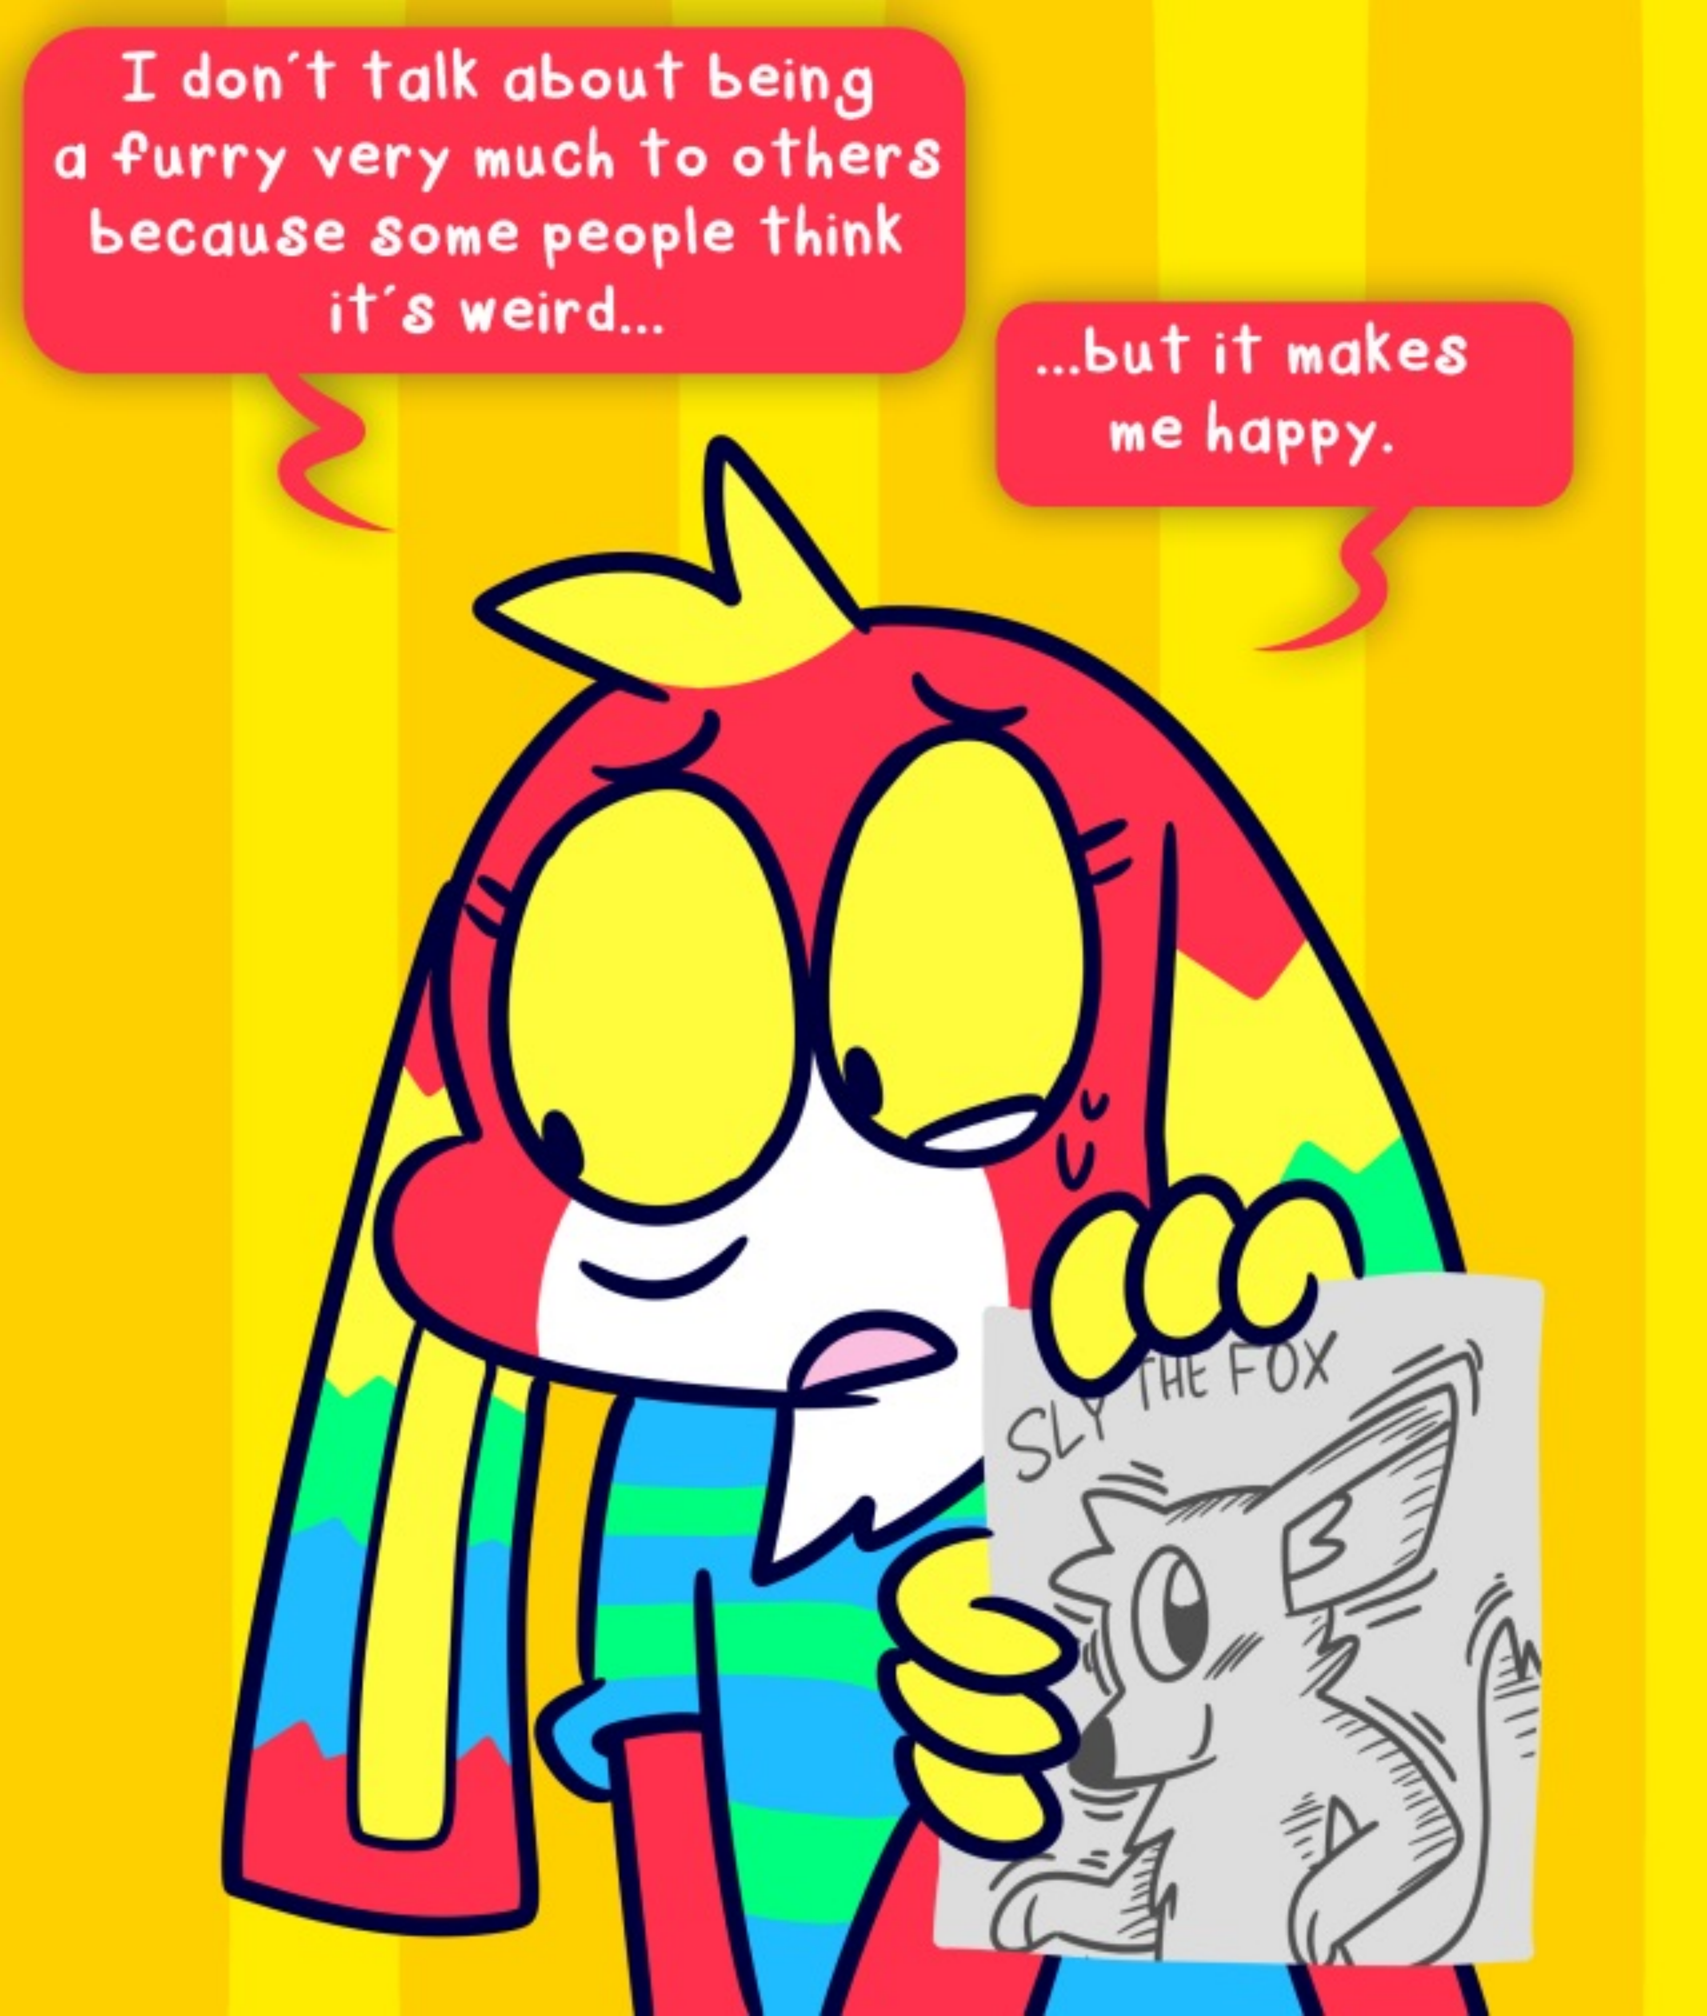
fishymexo asked:

Who is Sly?

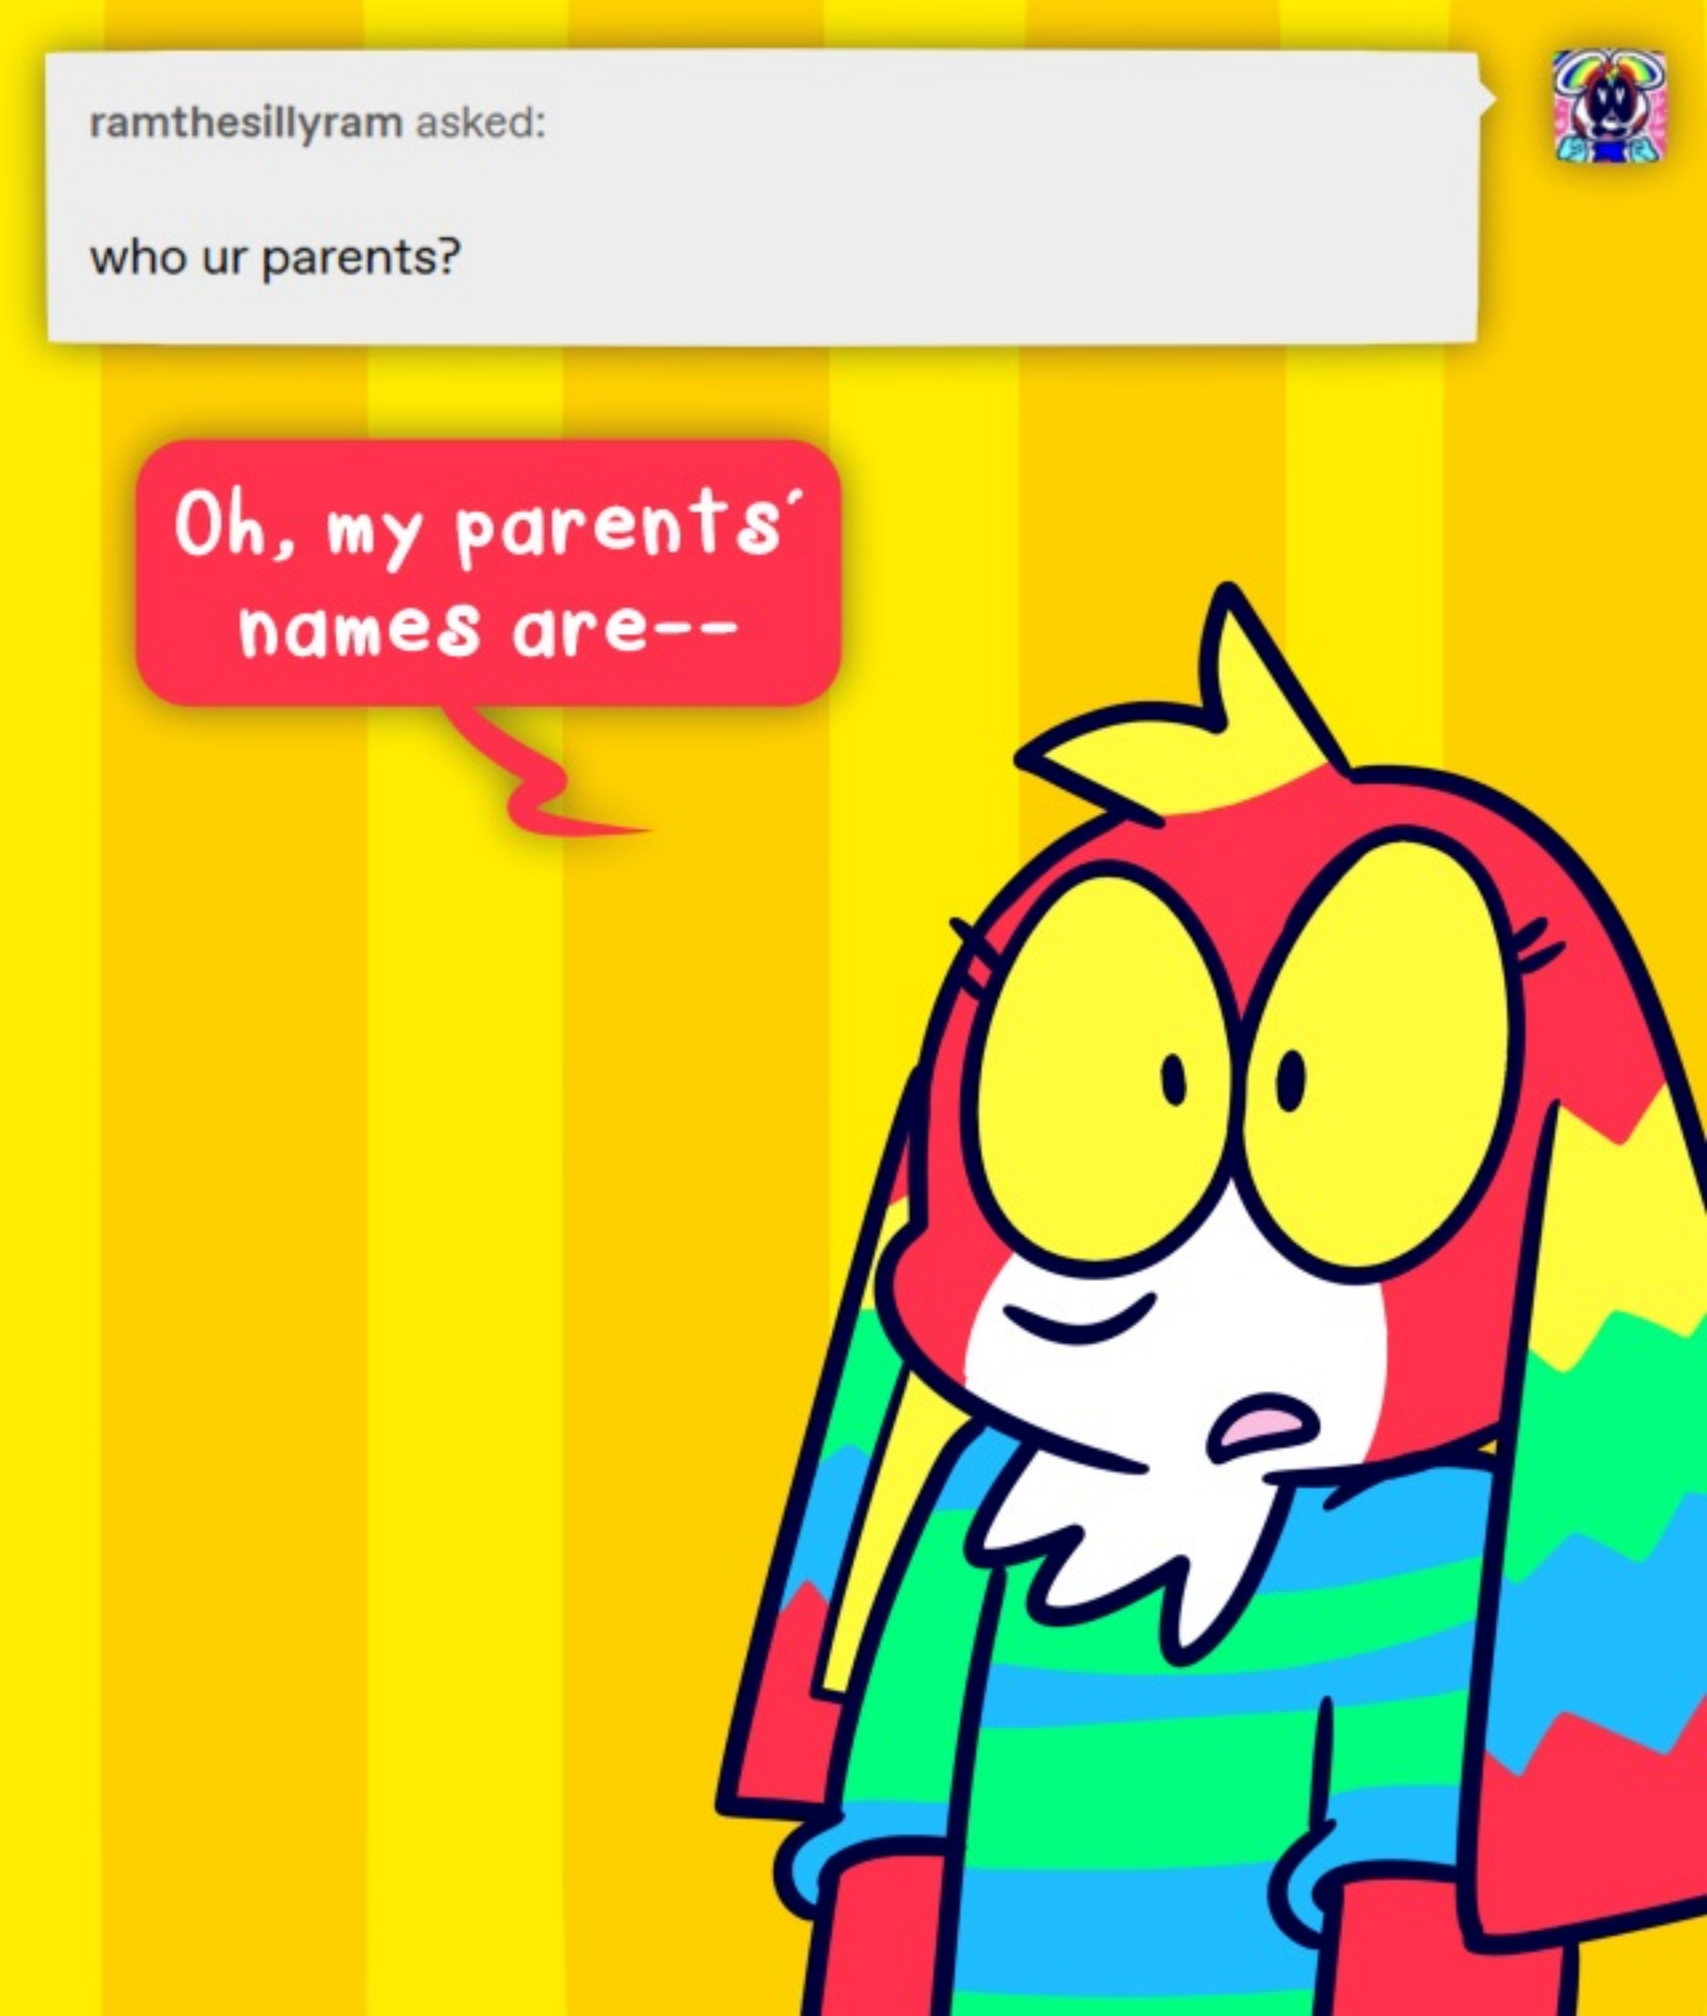
...oh... you saw it, huh...



She´s my OC... more specifically my fursona. She´s a fennec fox.
Her name is Sly because foxes are called sly a lot...
SLY THE FOX



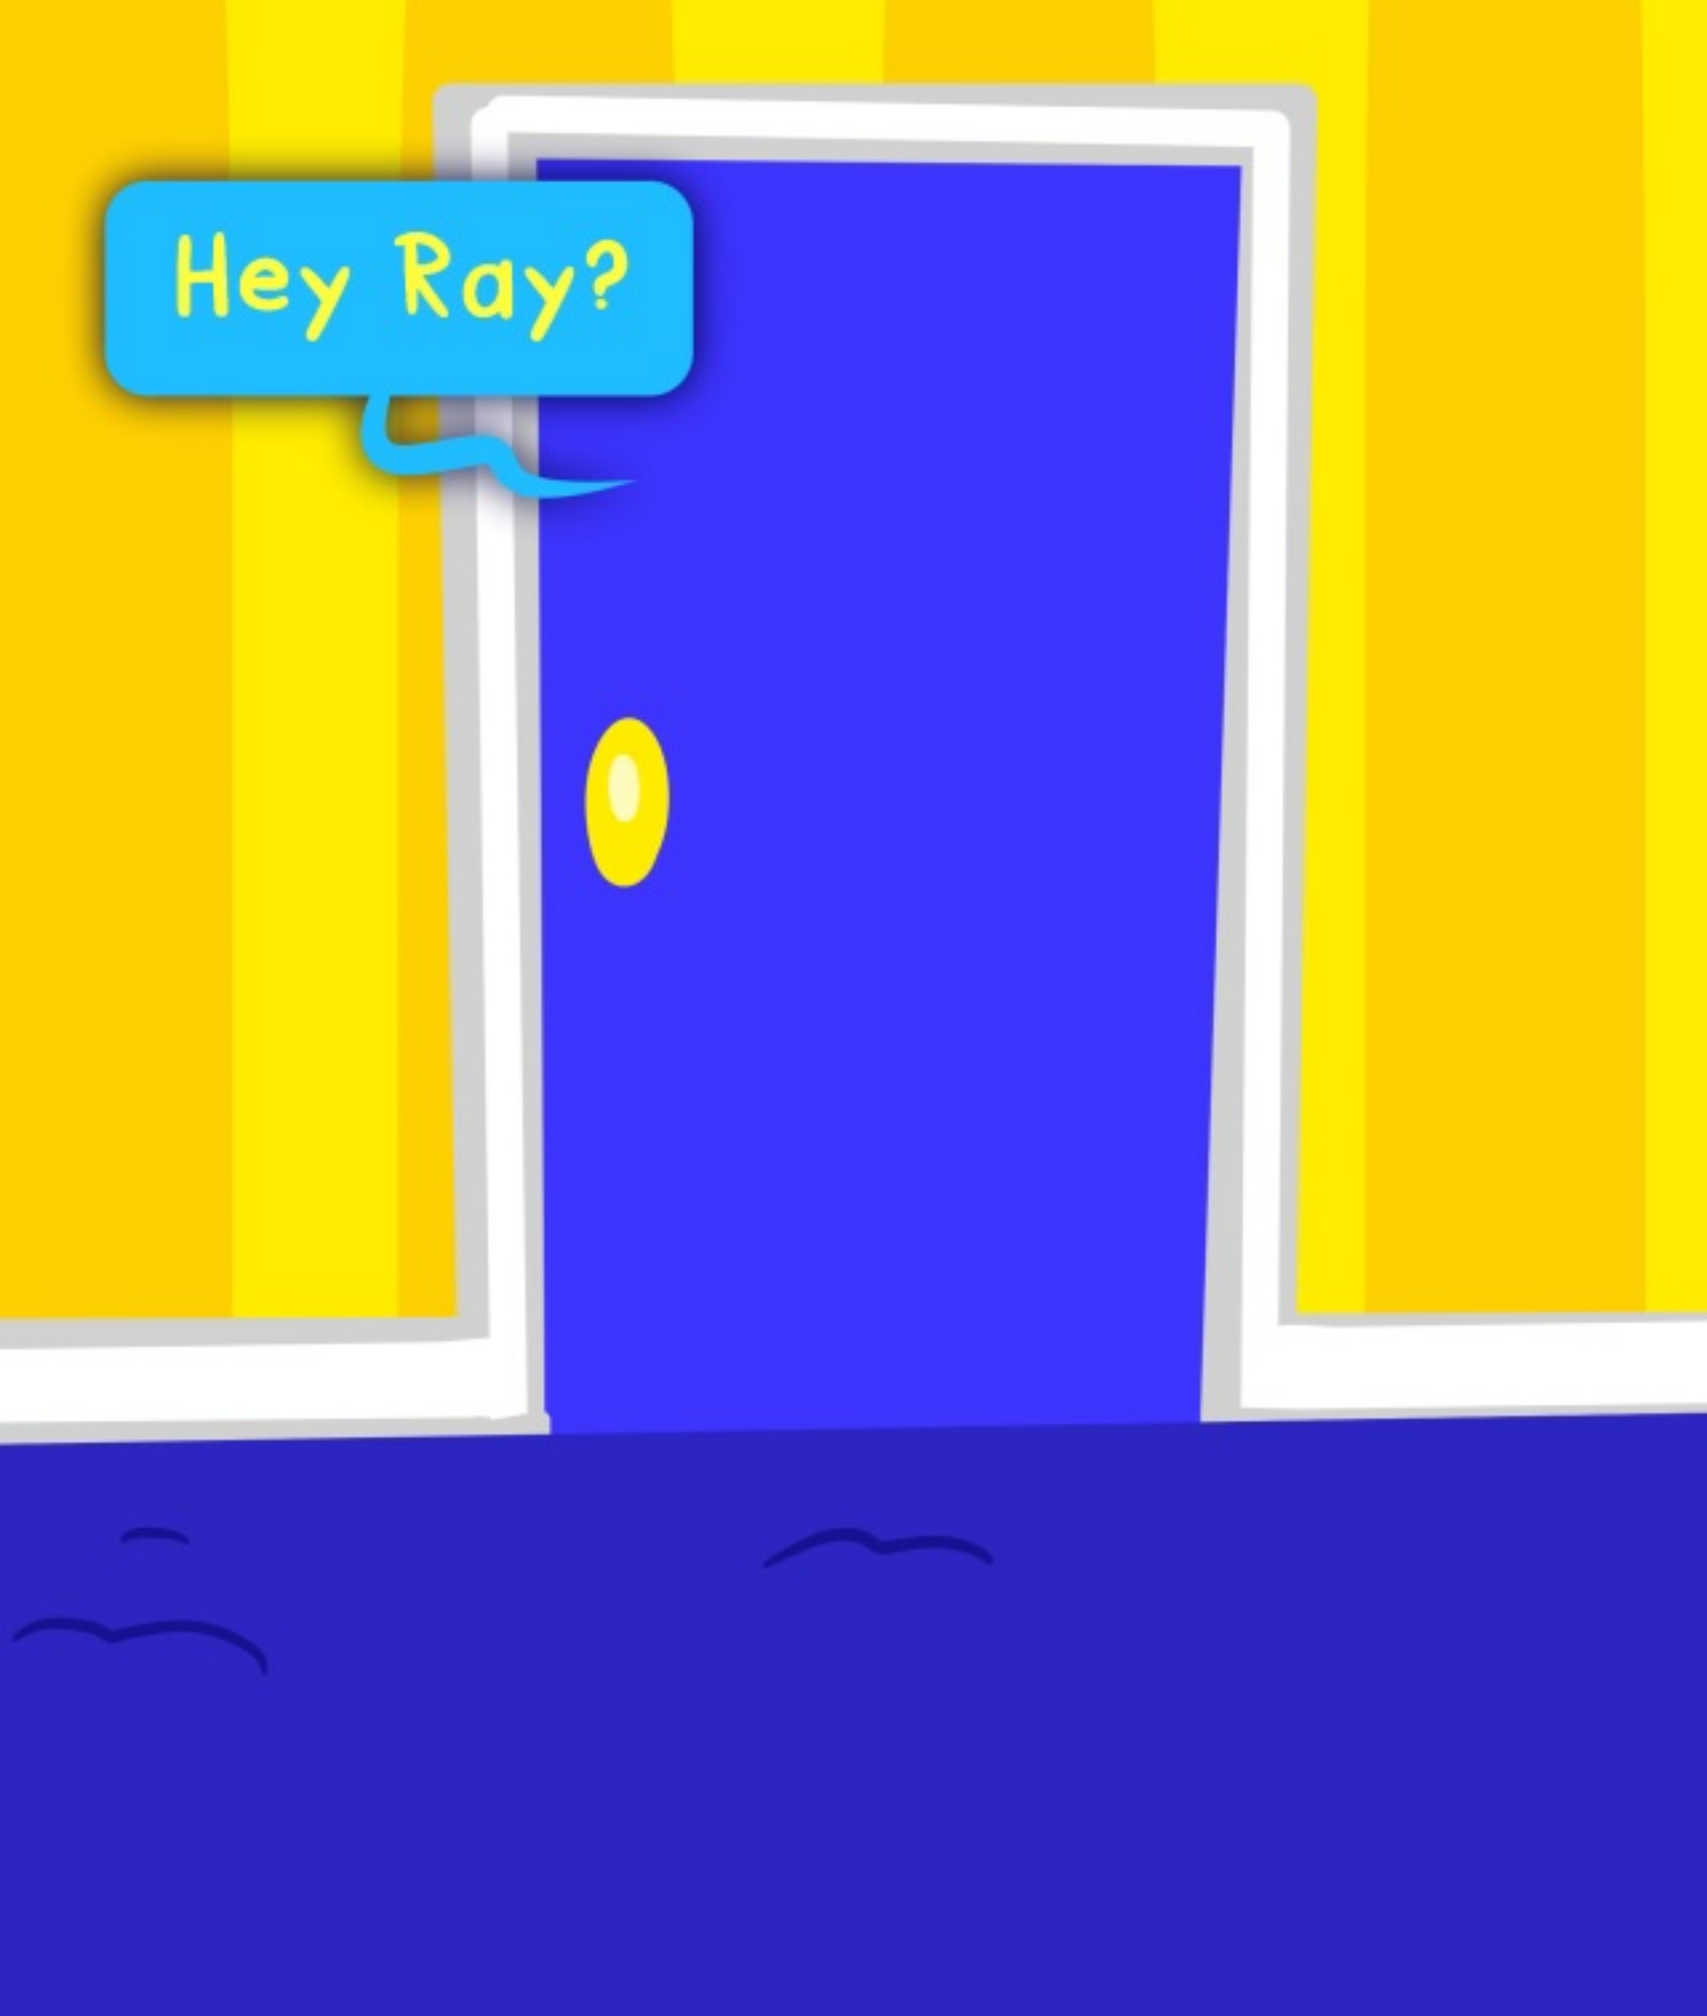
I don't talk about being a furry very much to others because some people think it's weird...
...but it makes me happy.
SLY THE FOX



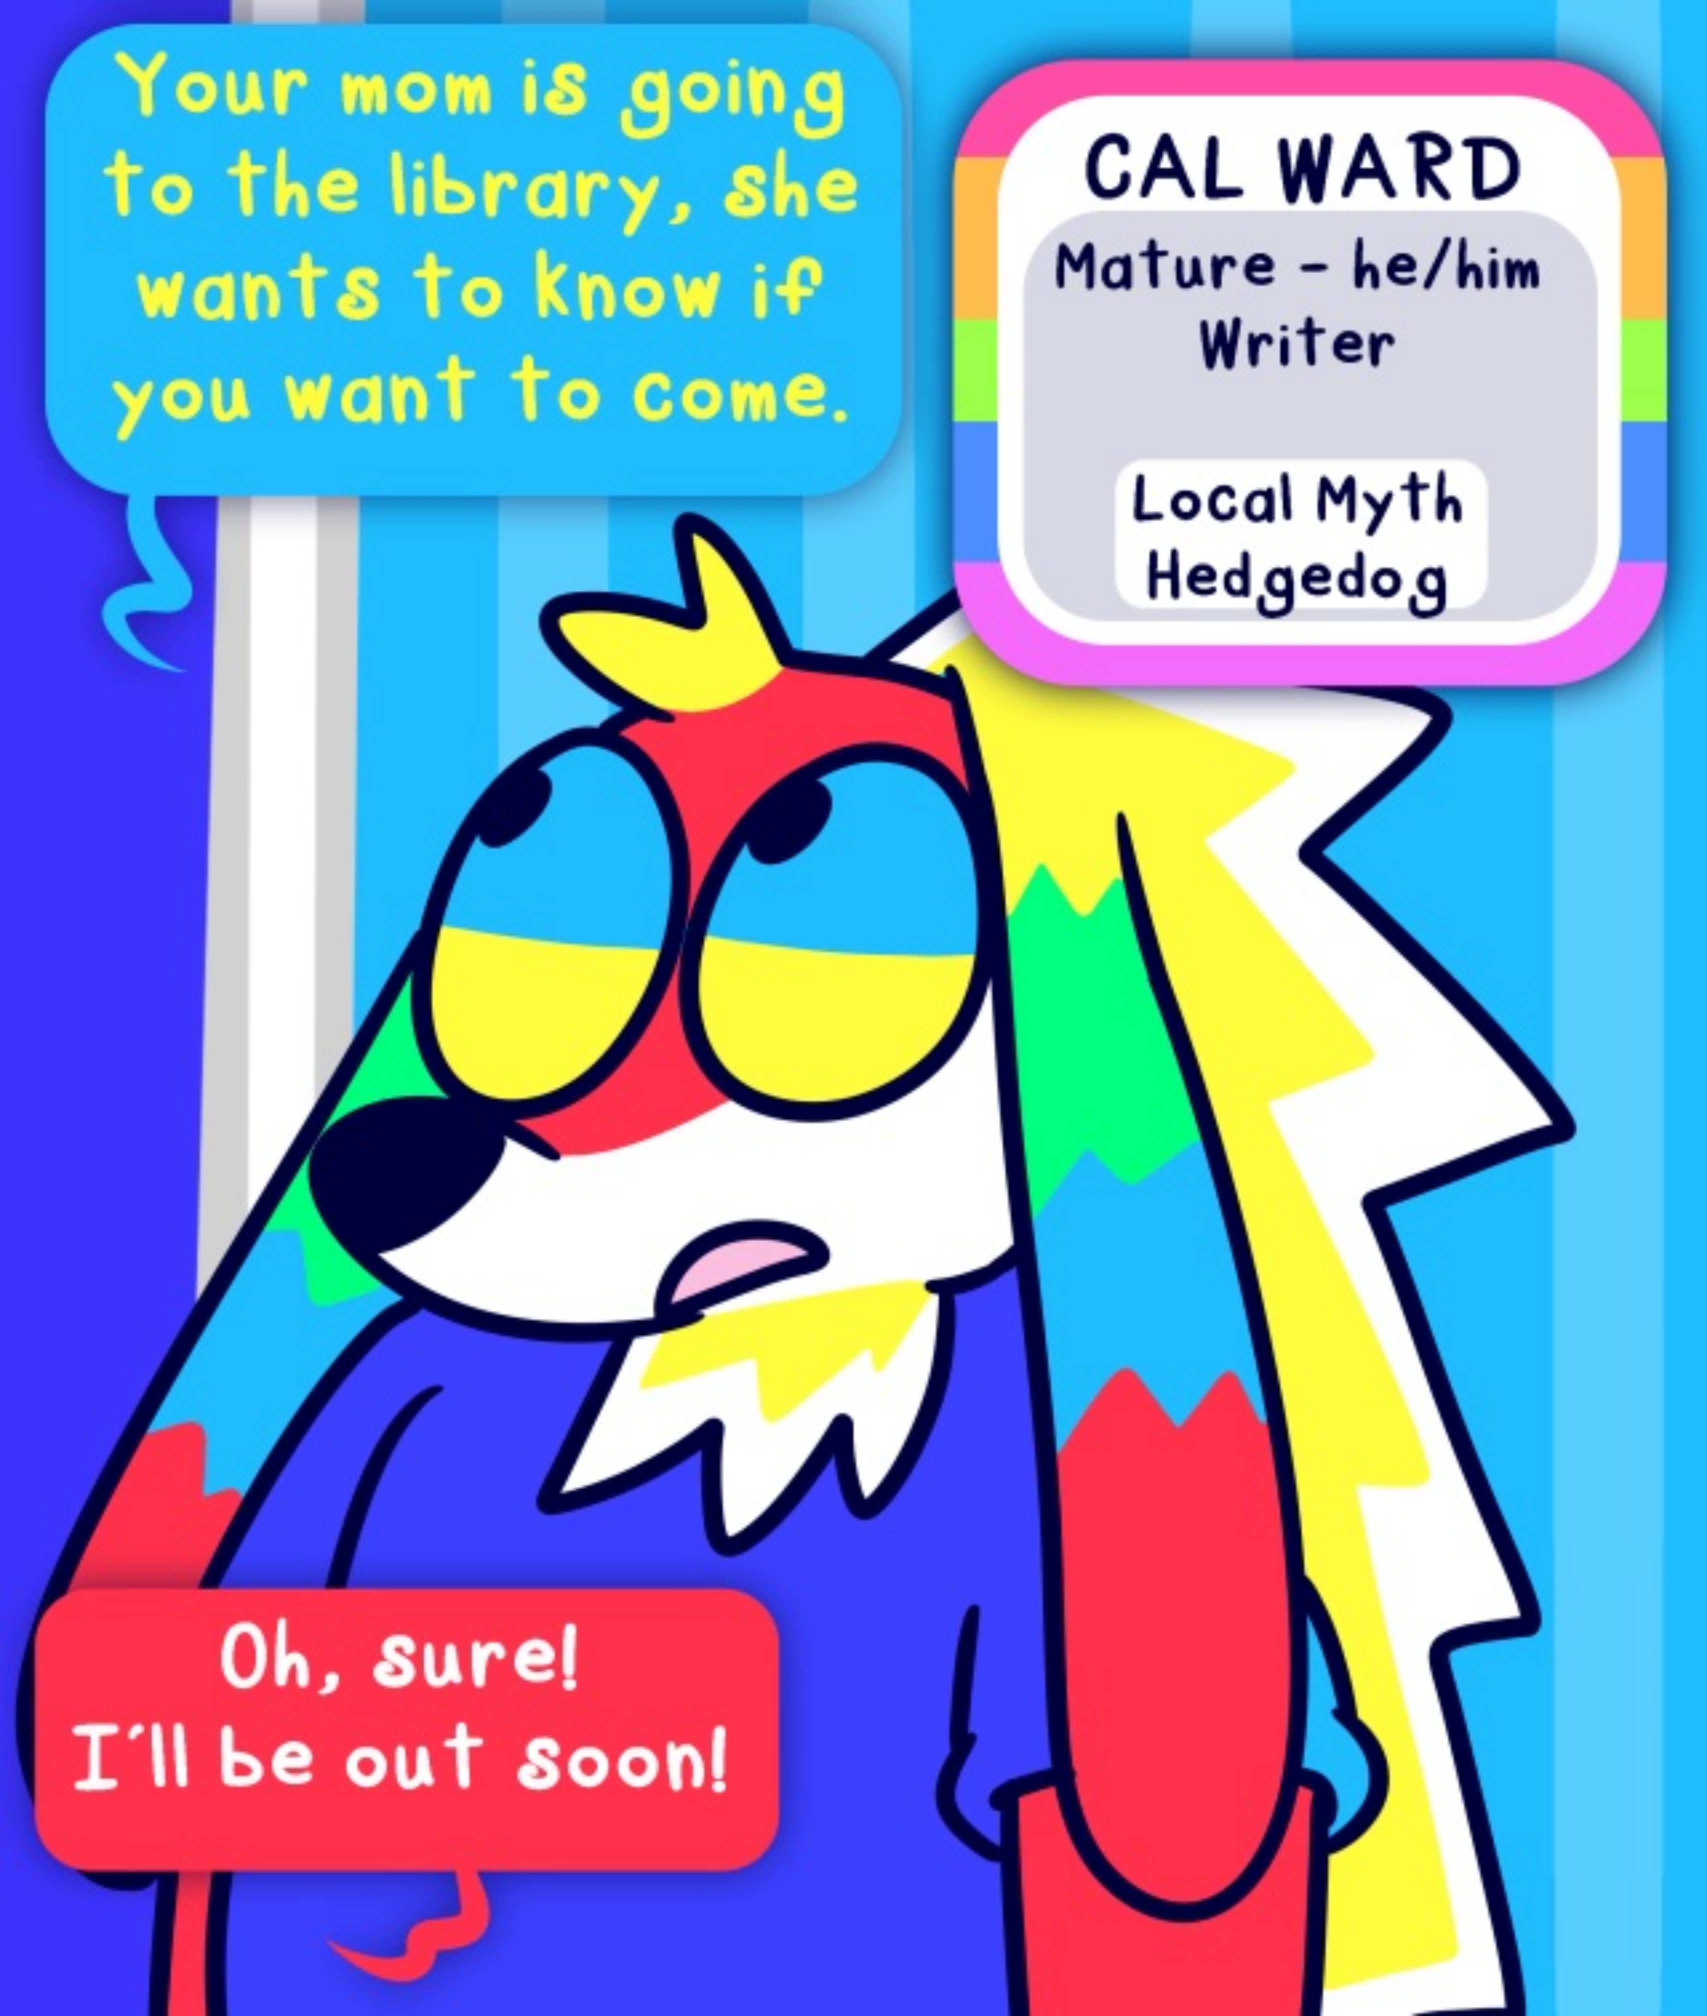
ramthesillyram asked:

who ur parents?

Oh, my parents' names are--



Hey Ray?



Your mom is going to the library, she wants to know if you want to come.
CAL WARD

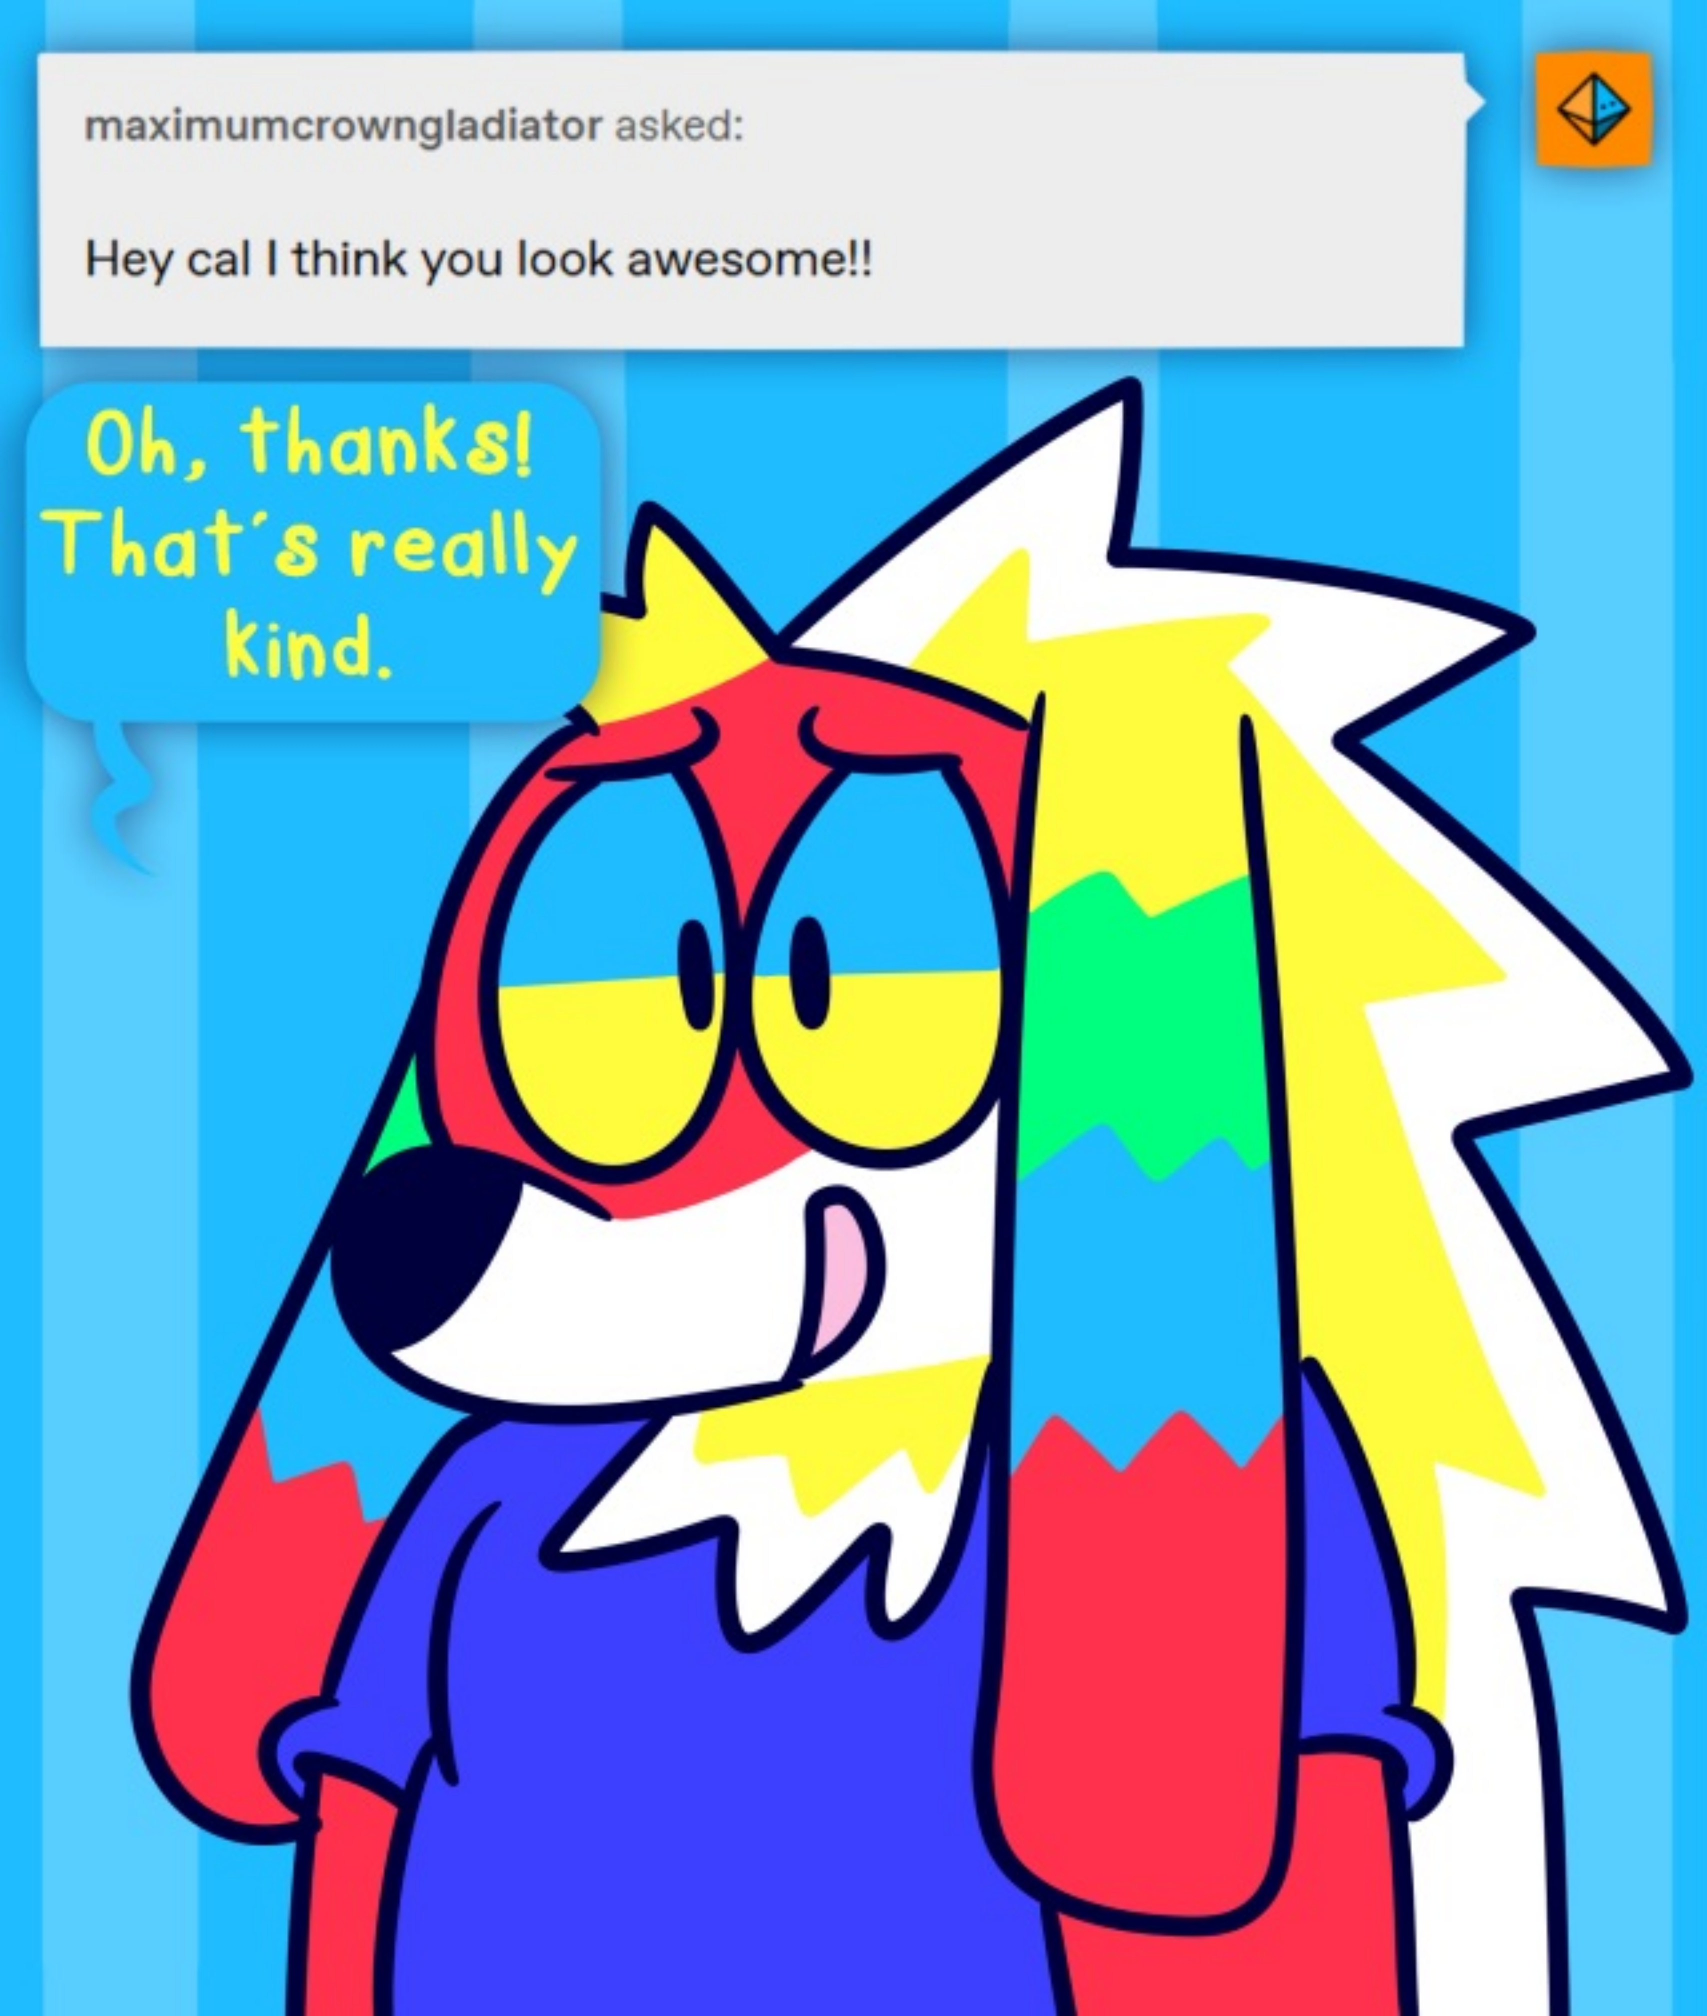
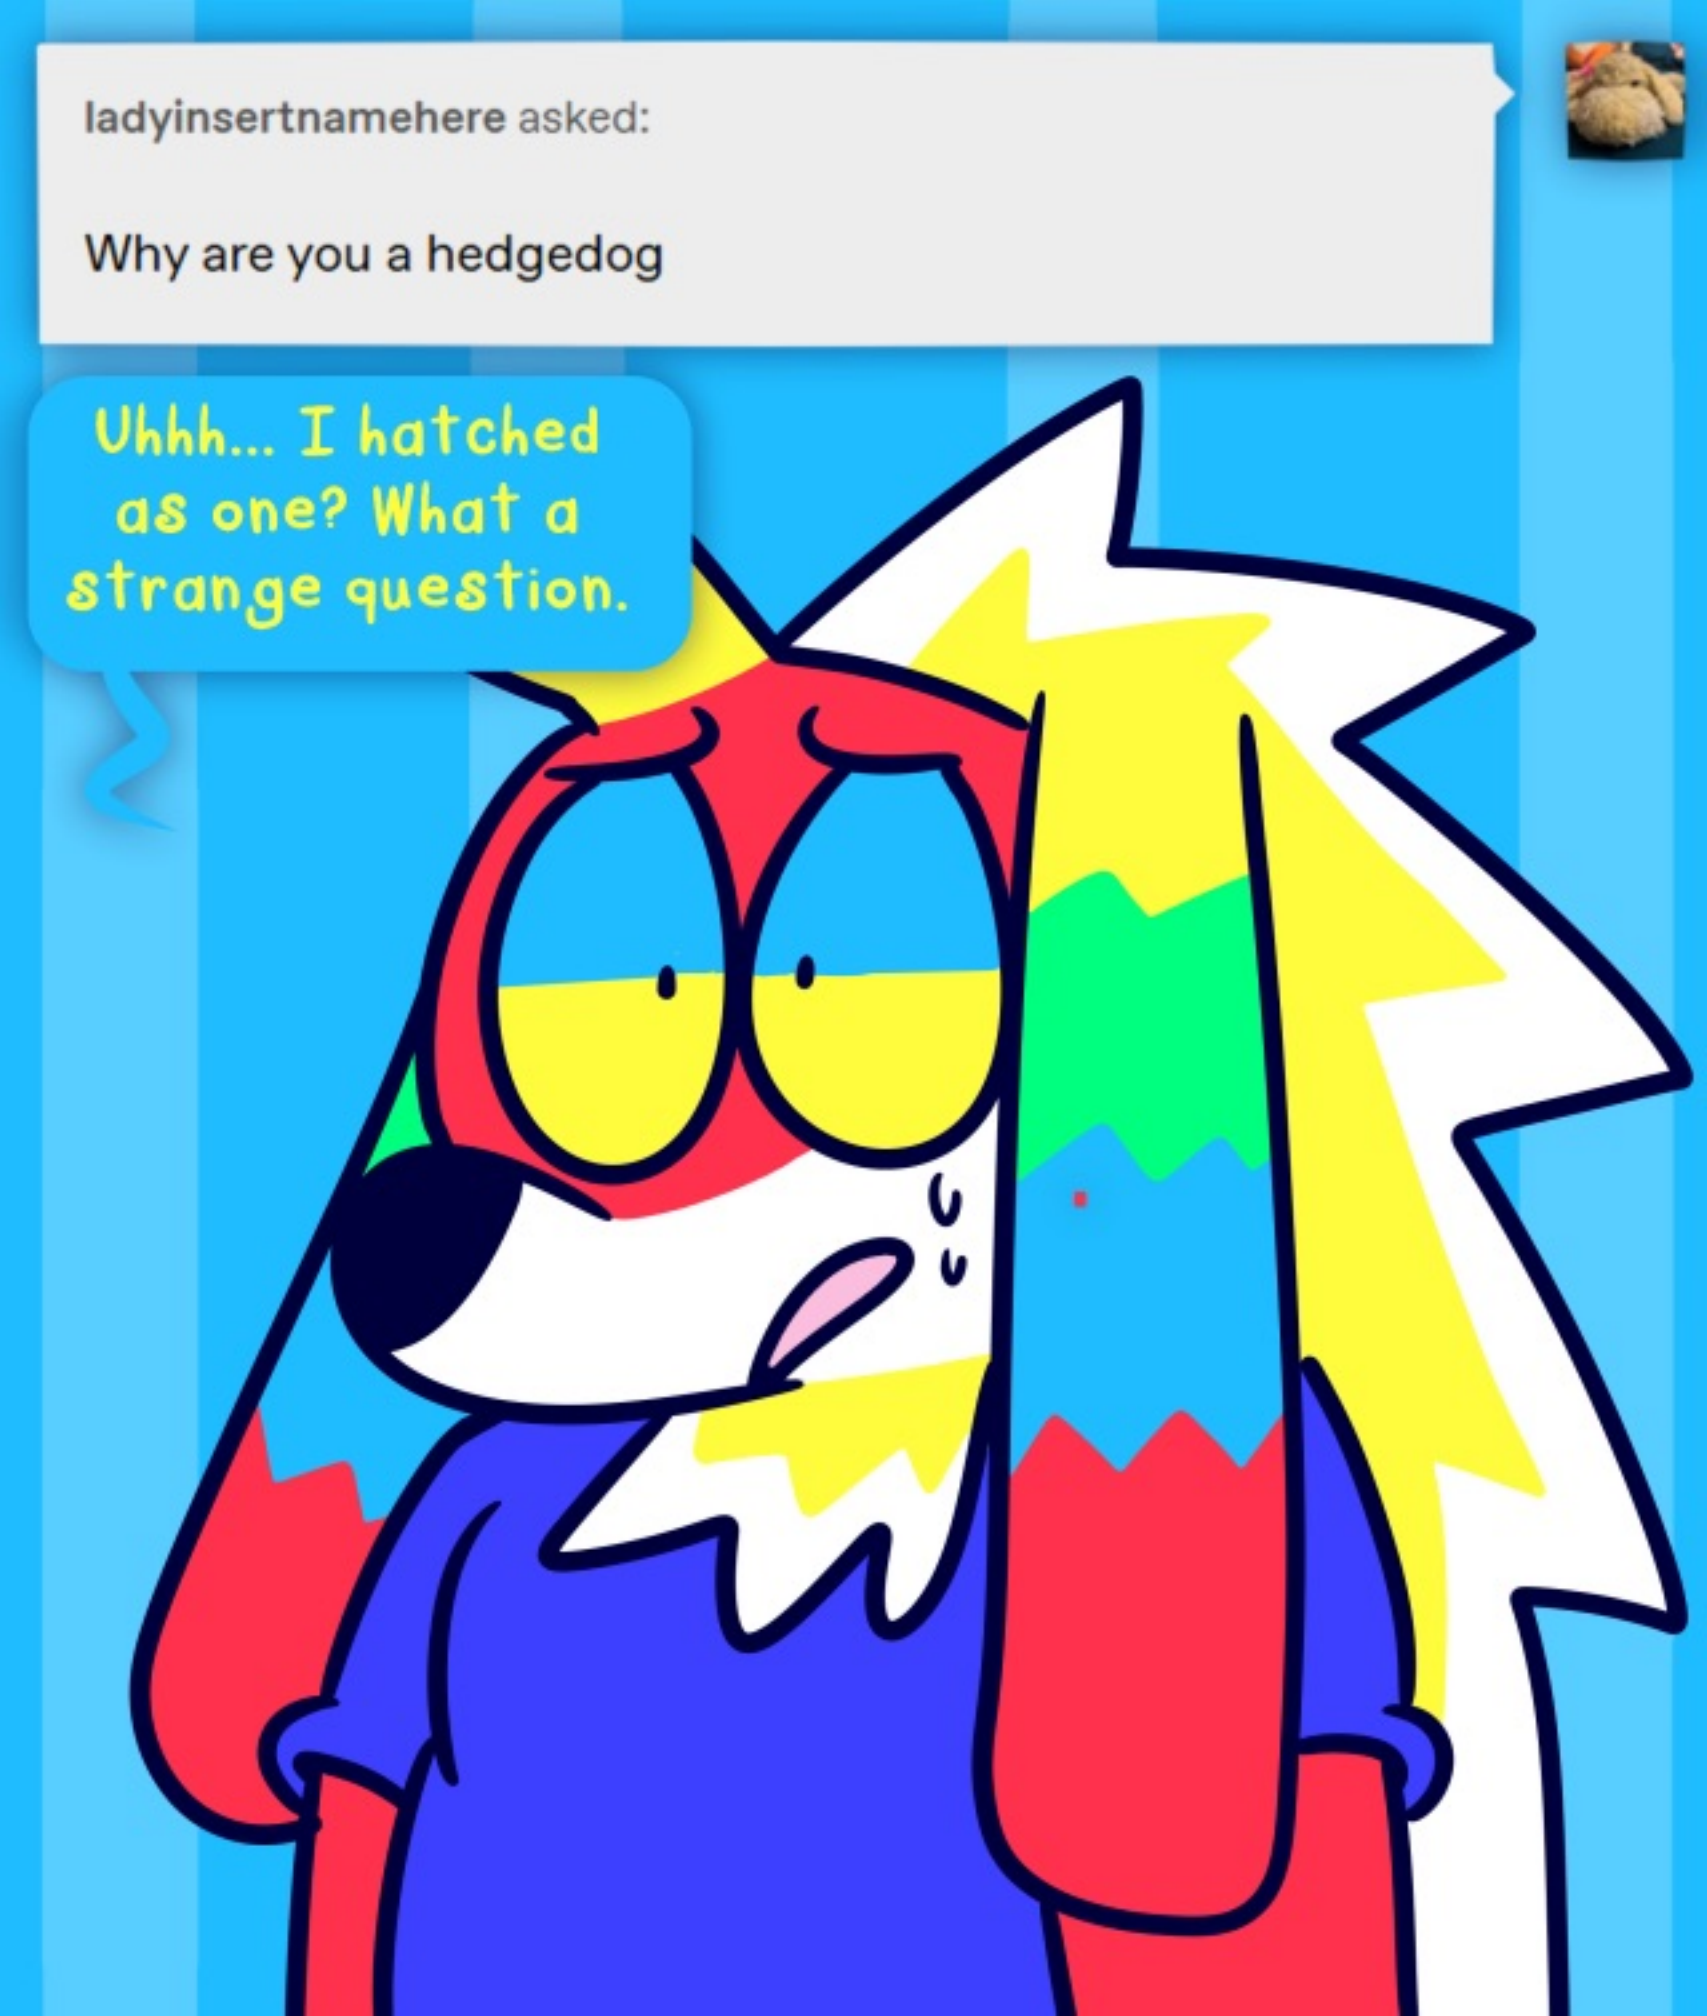
Hedgedog
Oh, sure!
I'll be out soon!



maximumcrowngladiator asked:

Hey cal I think you look awesome!!

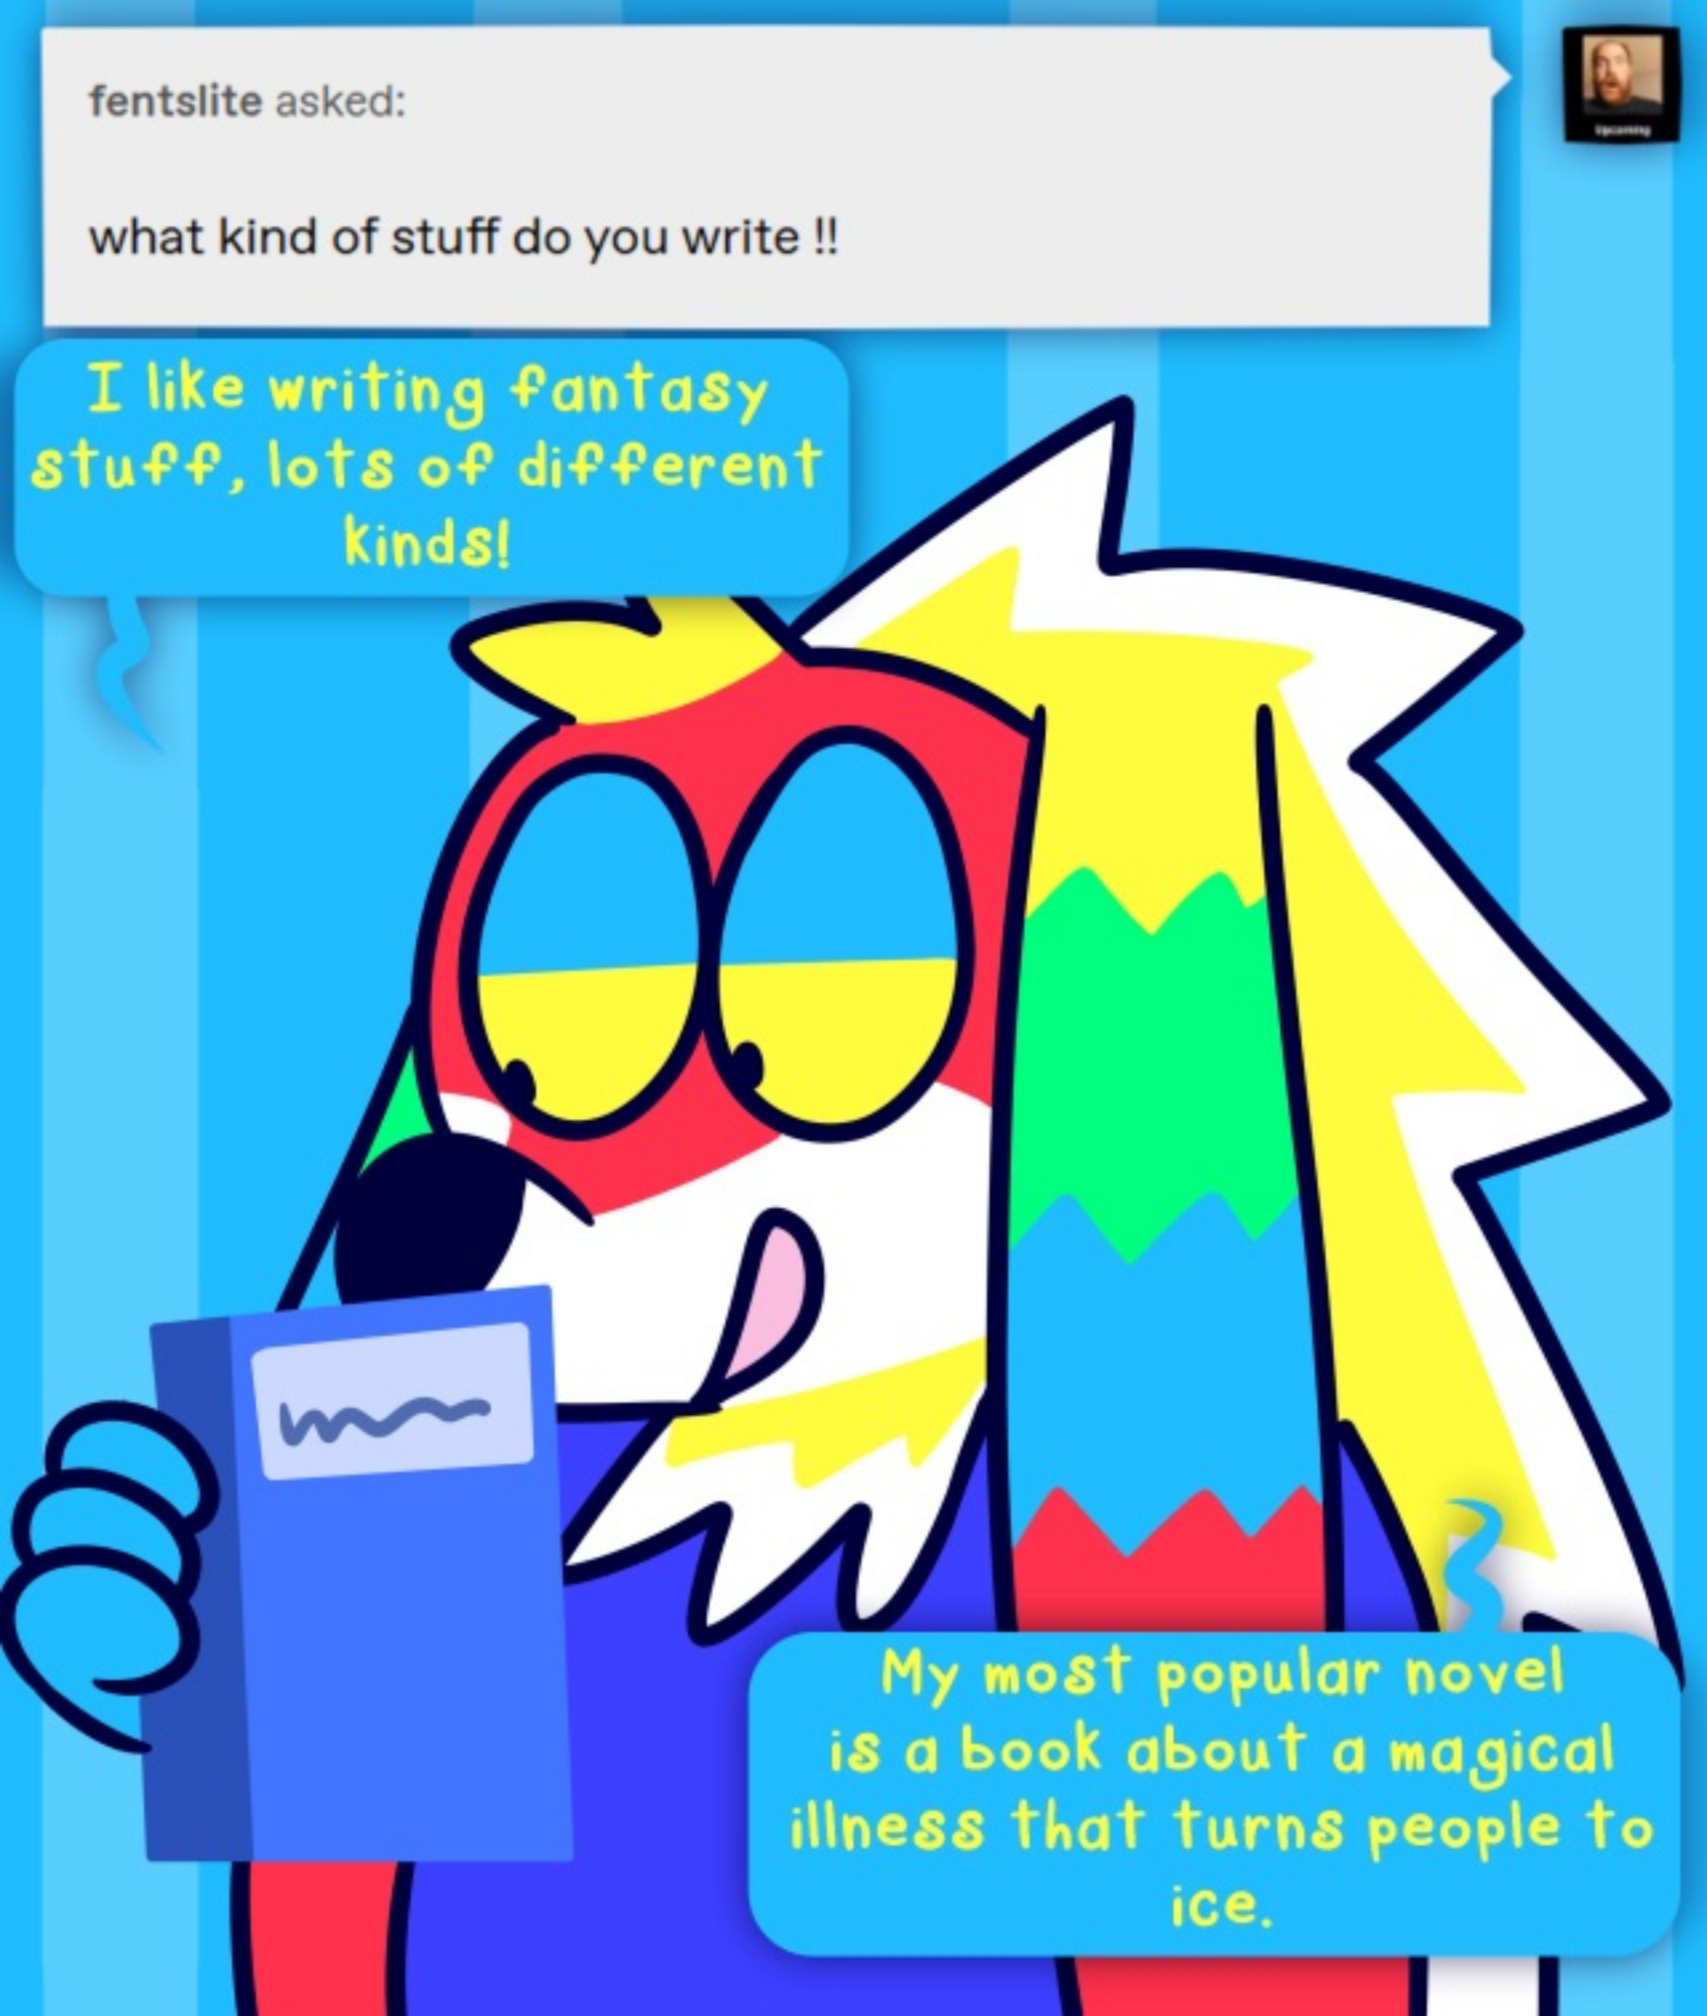
Oh, thanks! That's really kind.



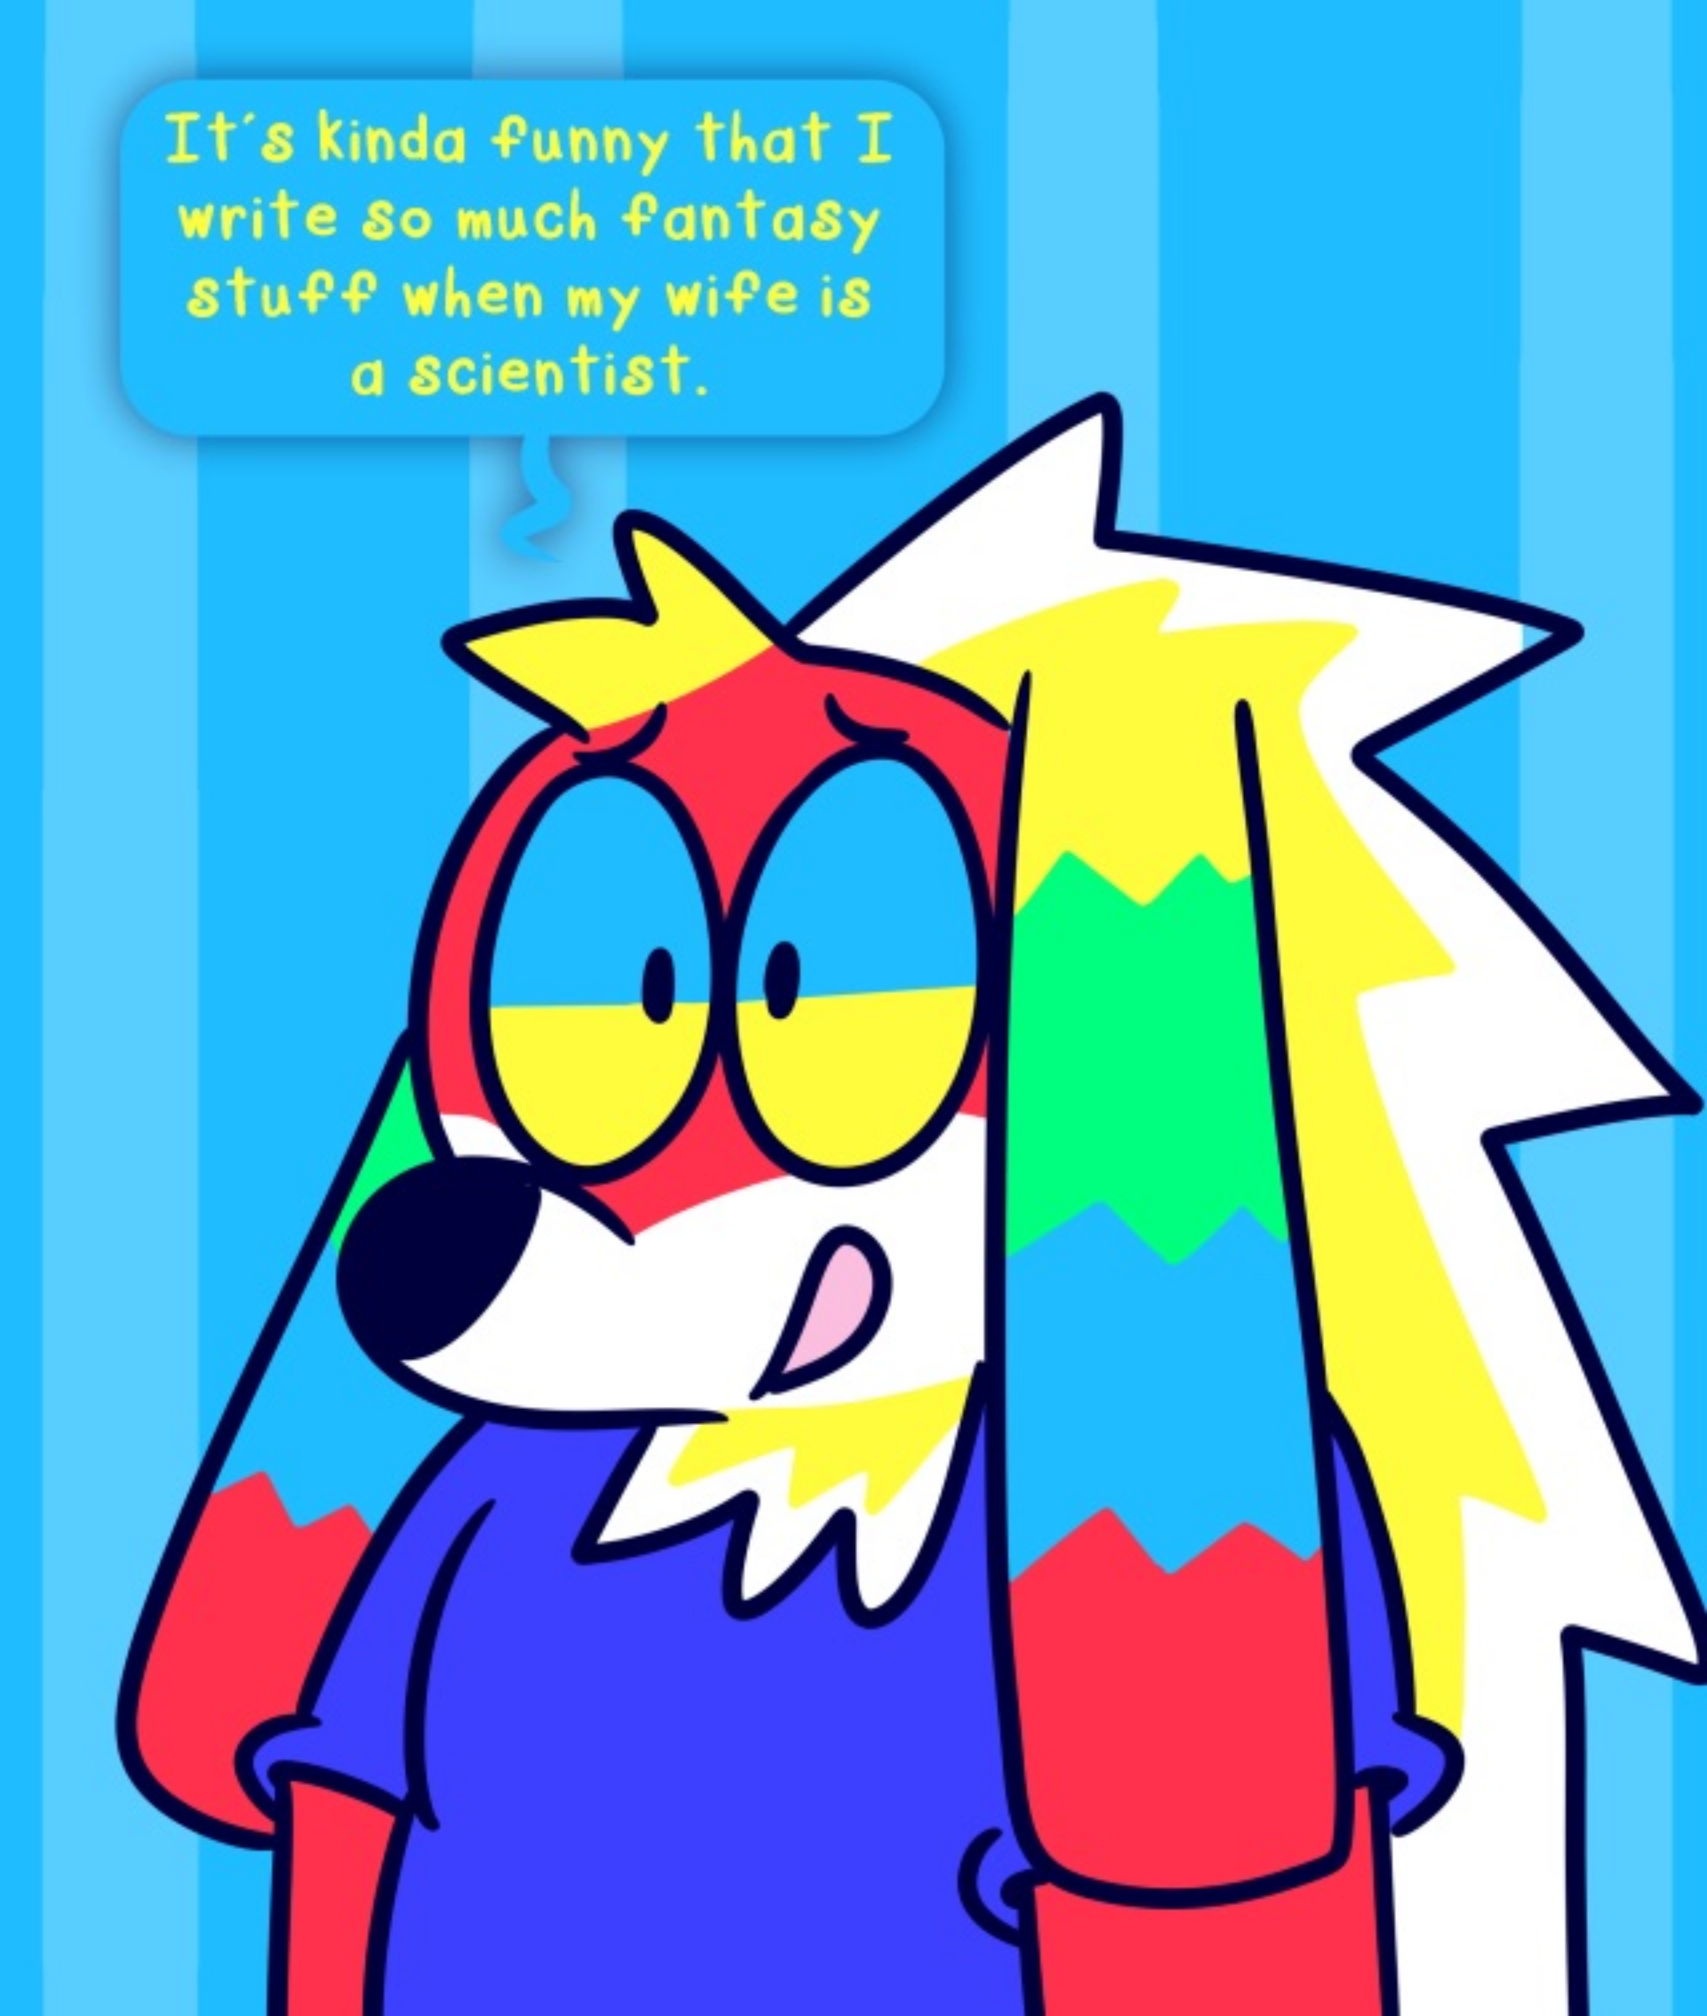
ladyinsertnamehere asked:

Why are you a hedgedog

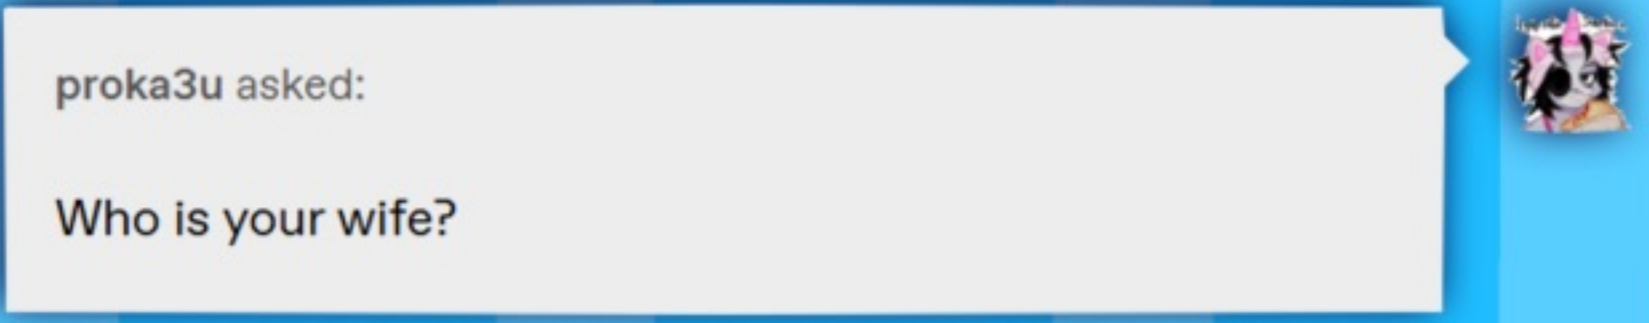
Uhhh... I hatched as one? What a strange question.



fentslite asked:
what kind of stuff do you write !!
I like writing fantasy stuff, lots of different kinds!
My most popular novel is a book about a magical illness that turns people to ice.

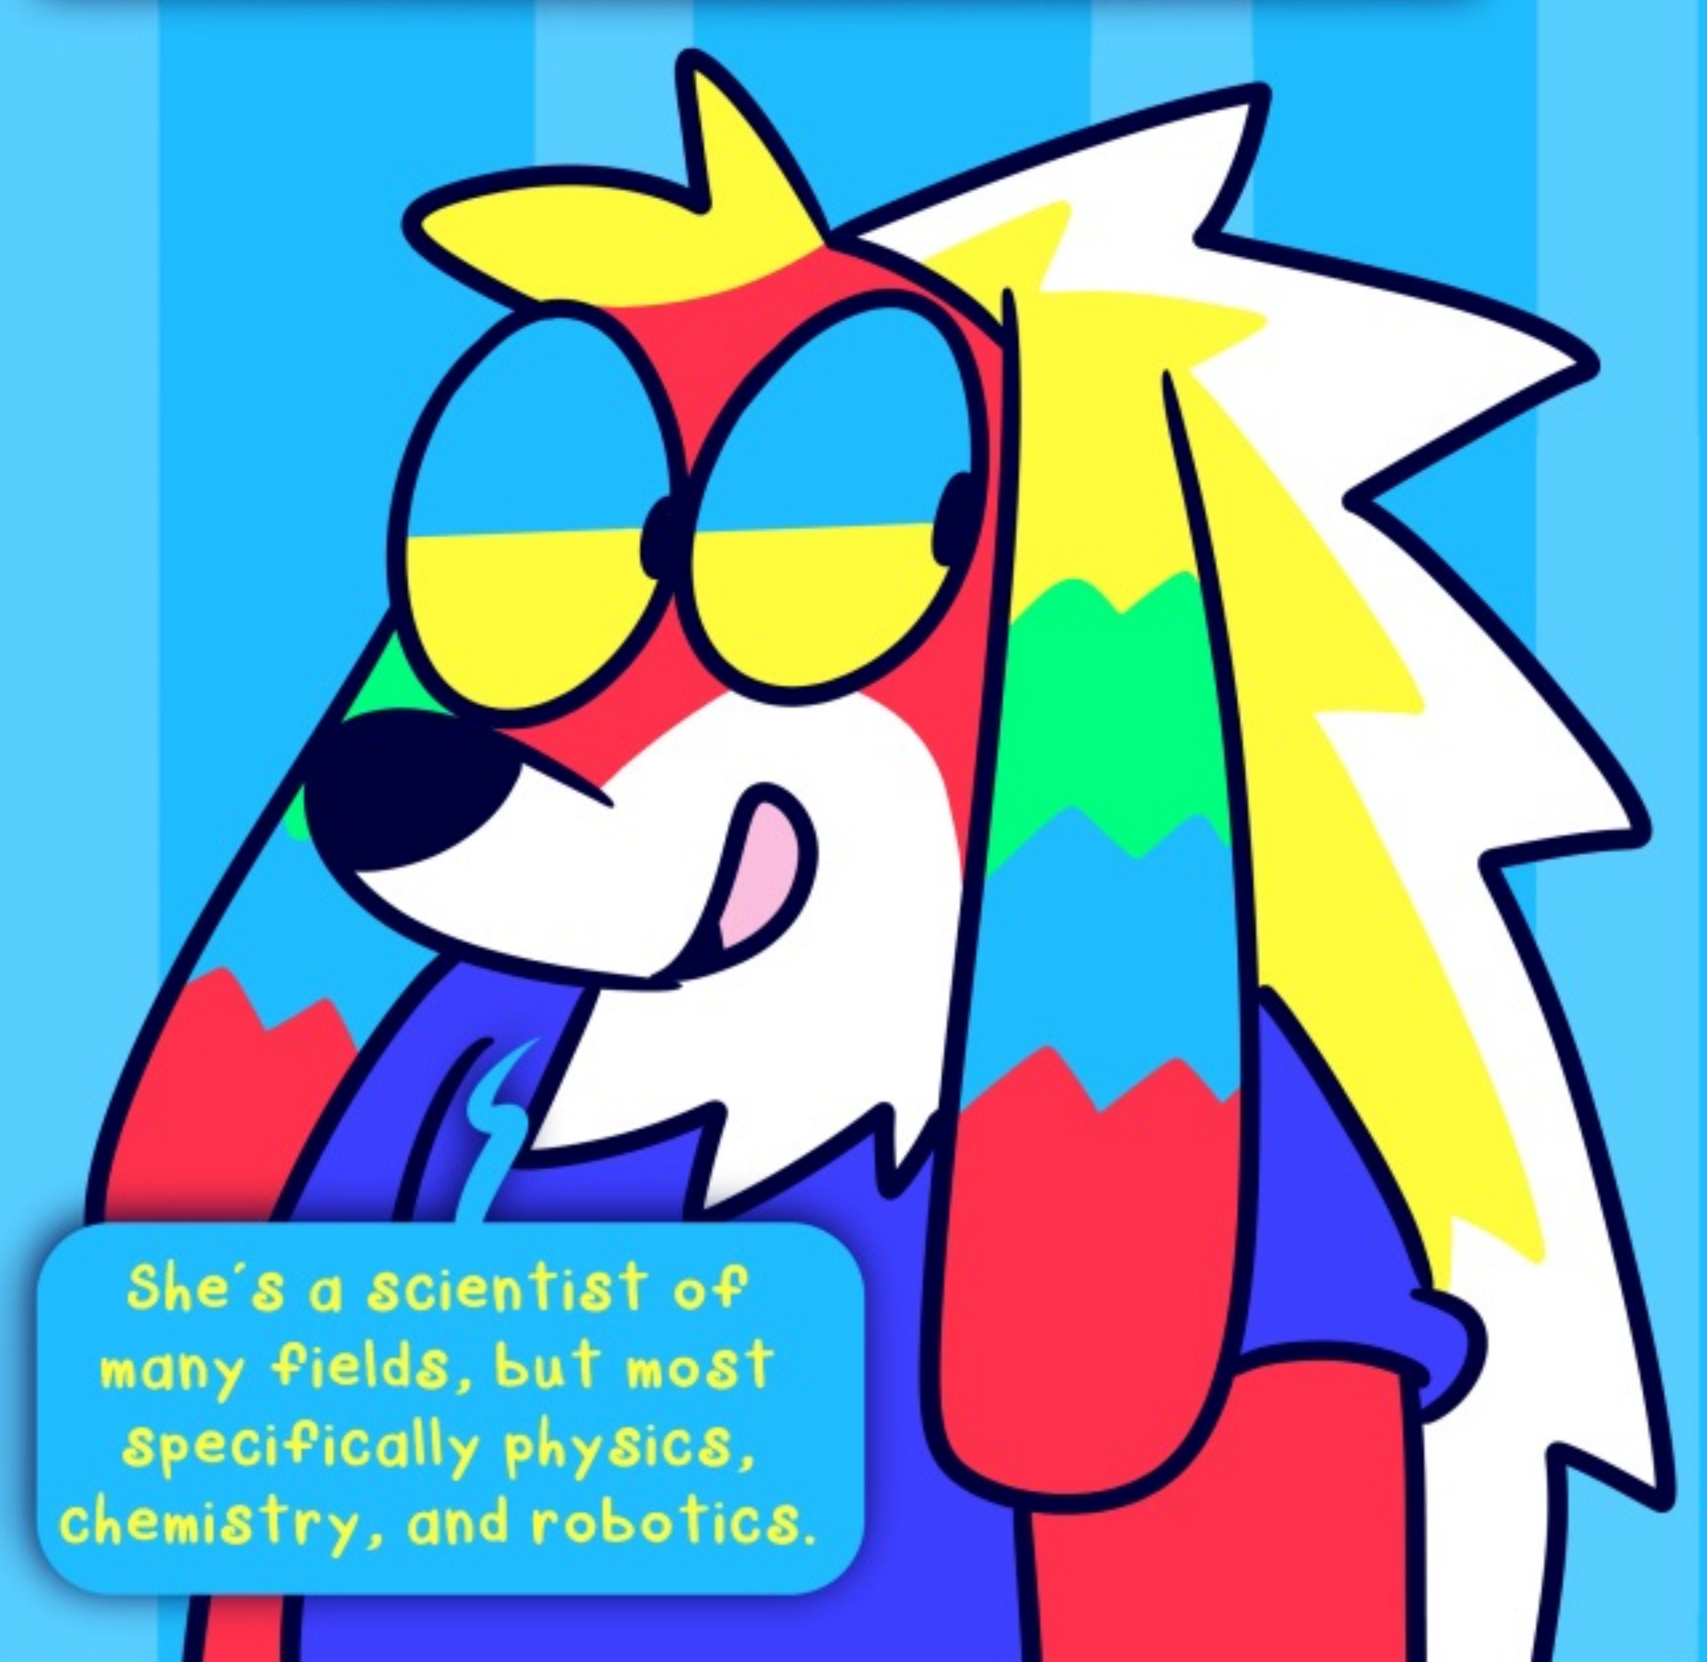


It's kinda funny that I write so much fantasy stuff when my wife is a scientist.

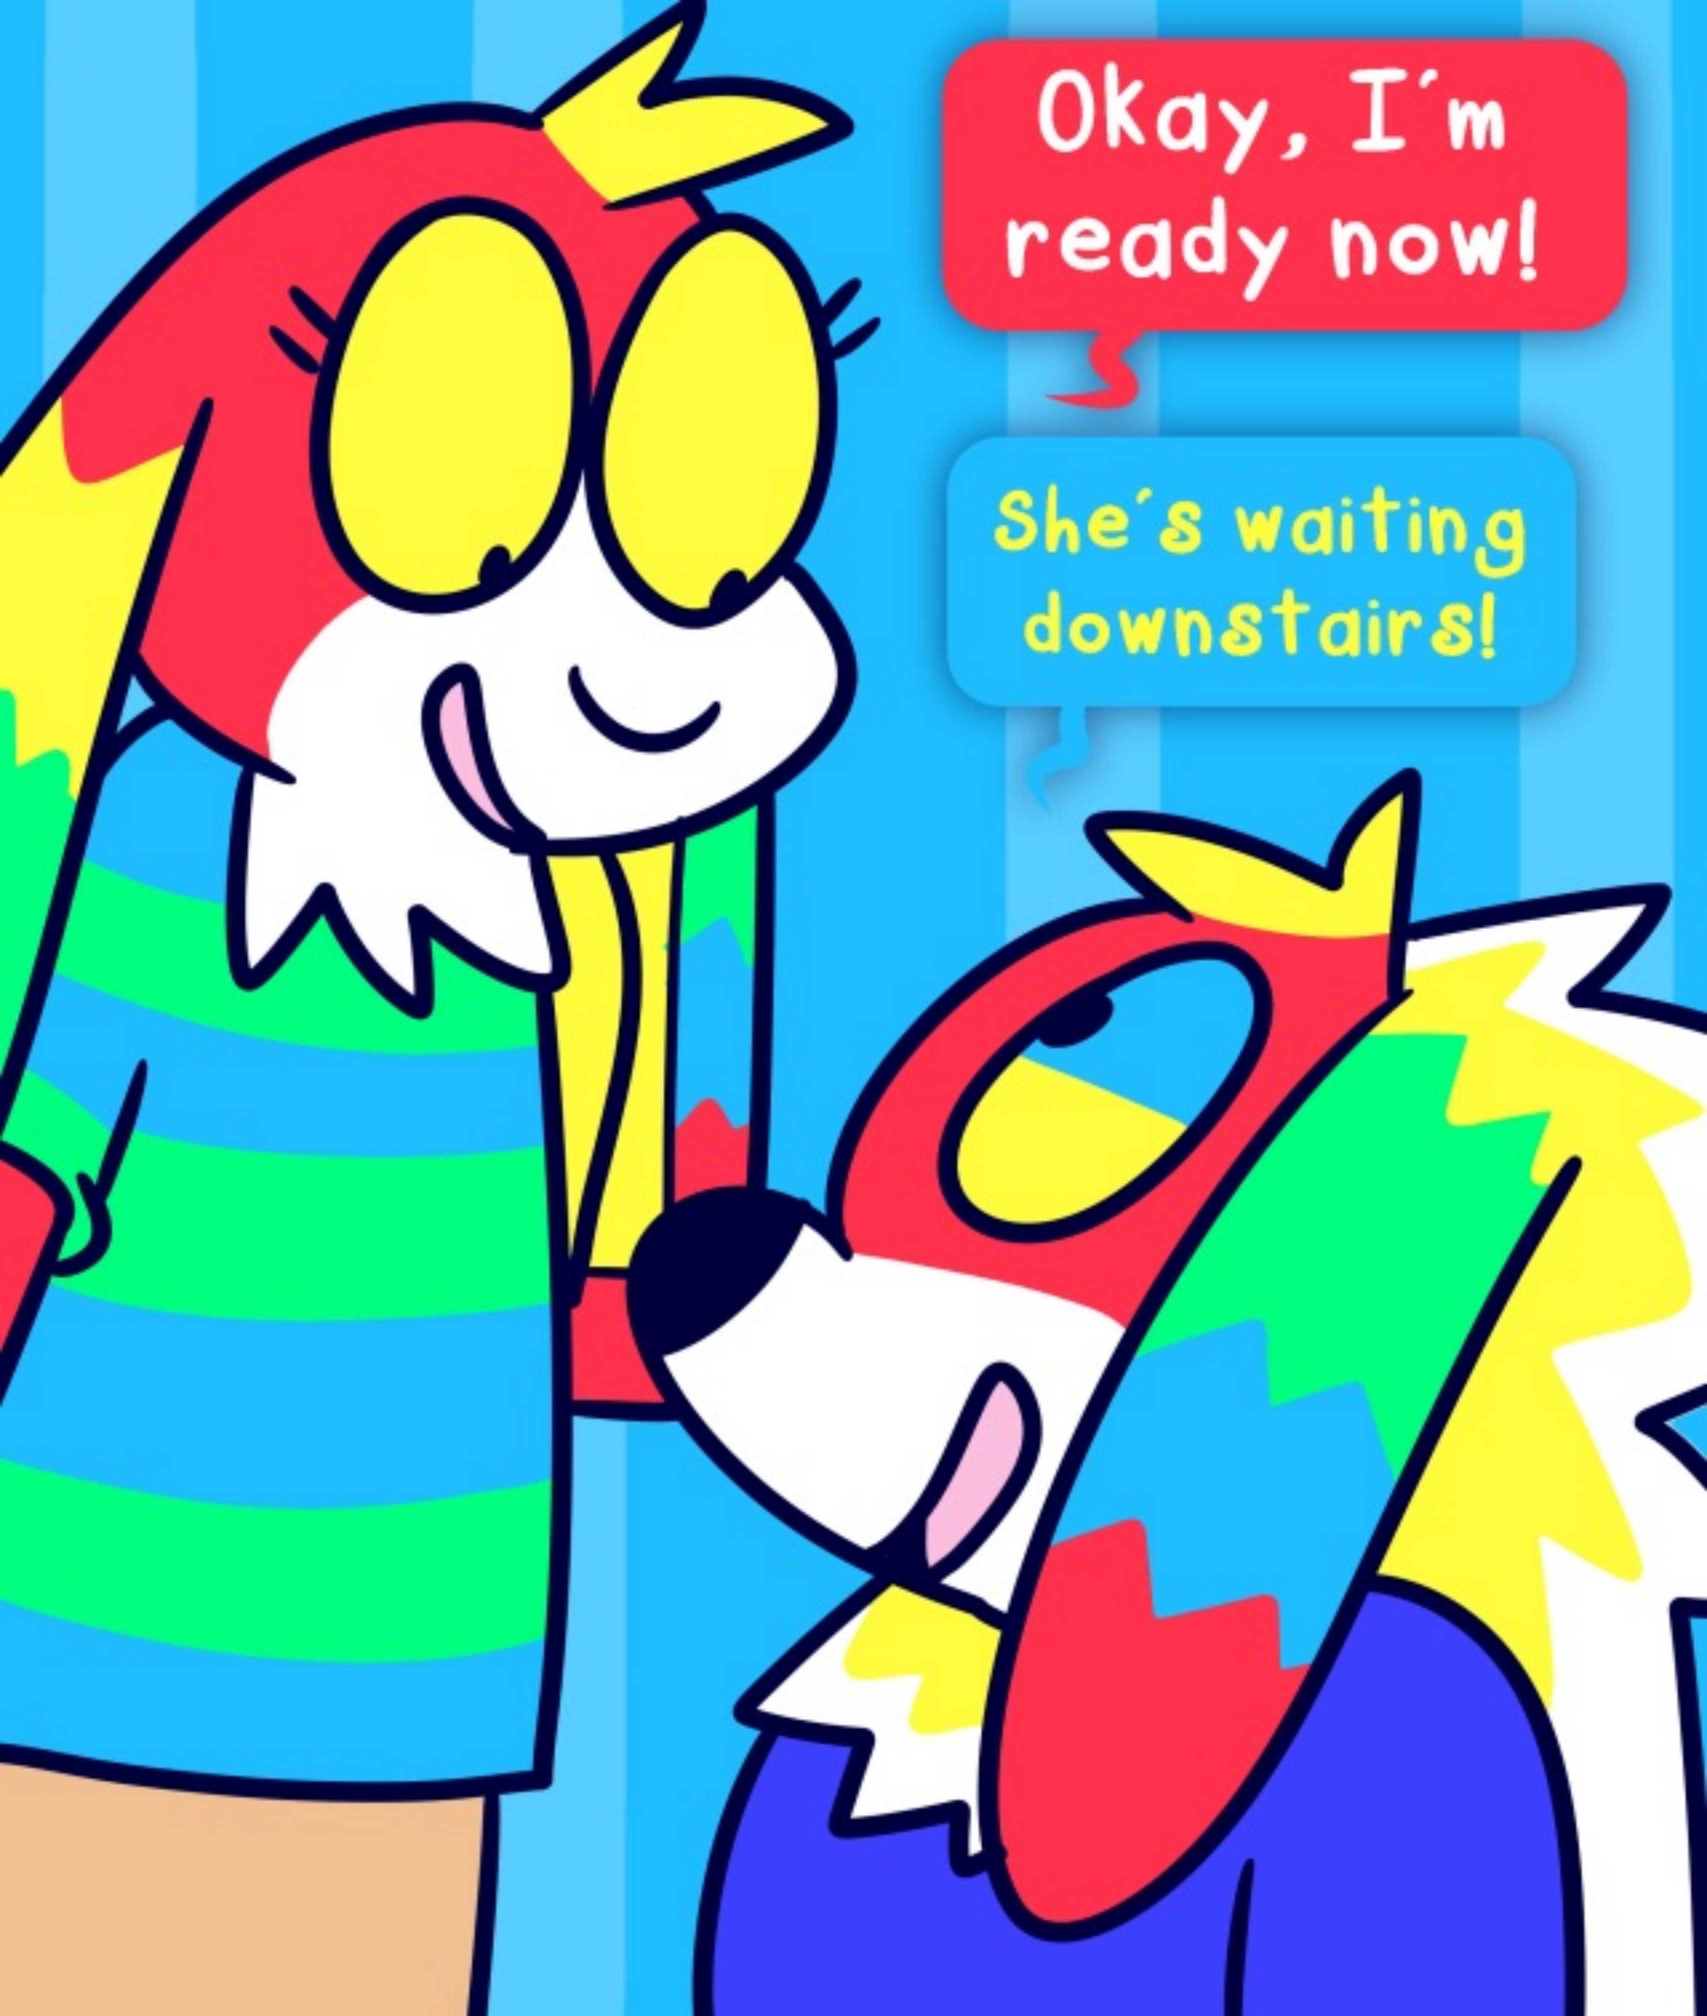


proka3u asked:

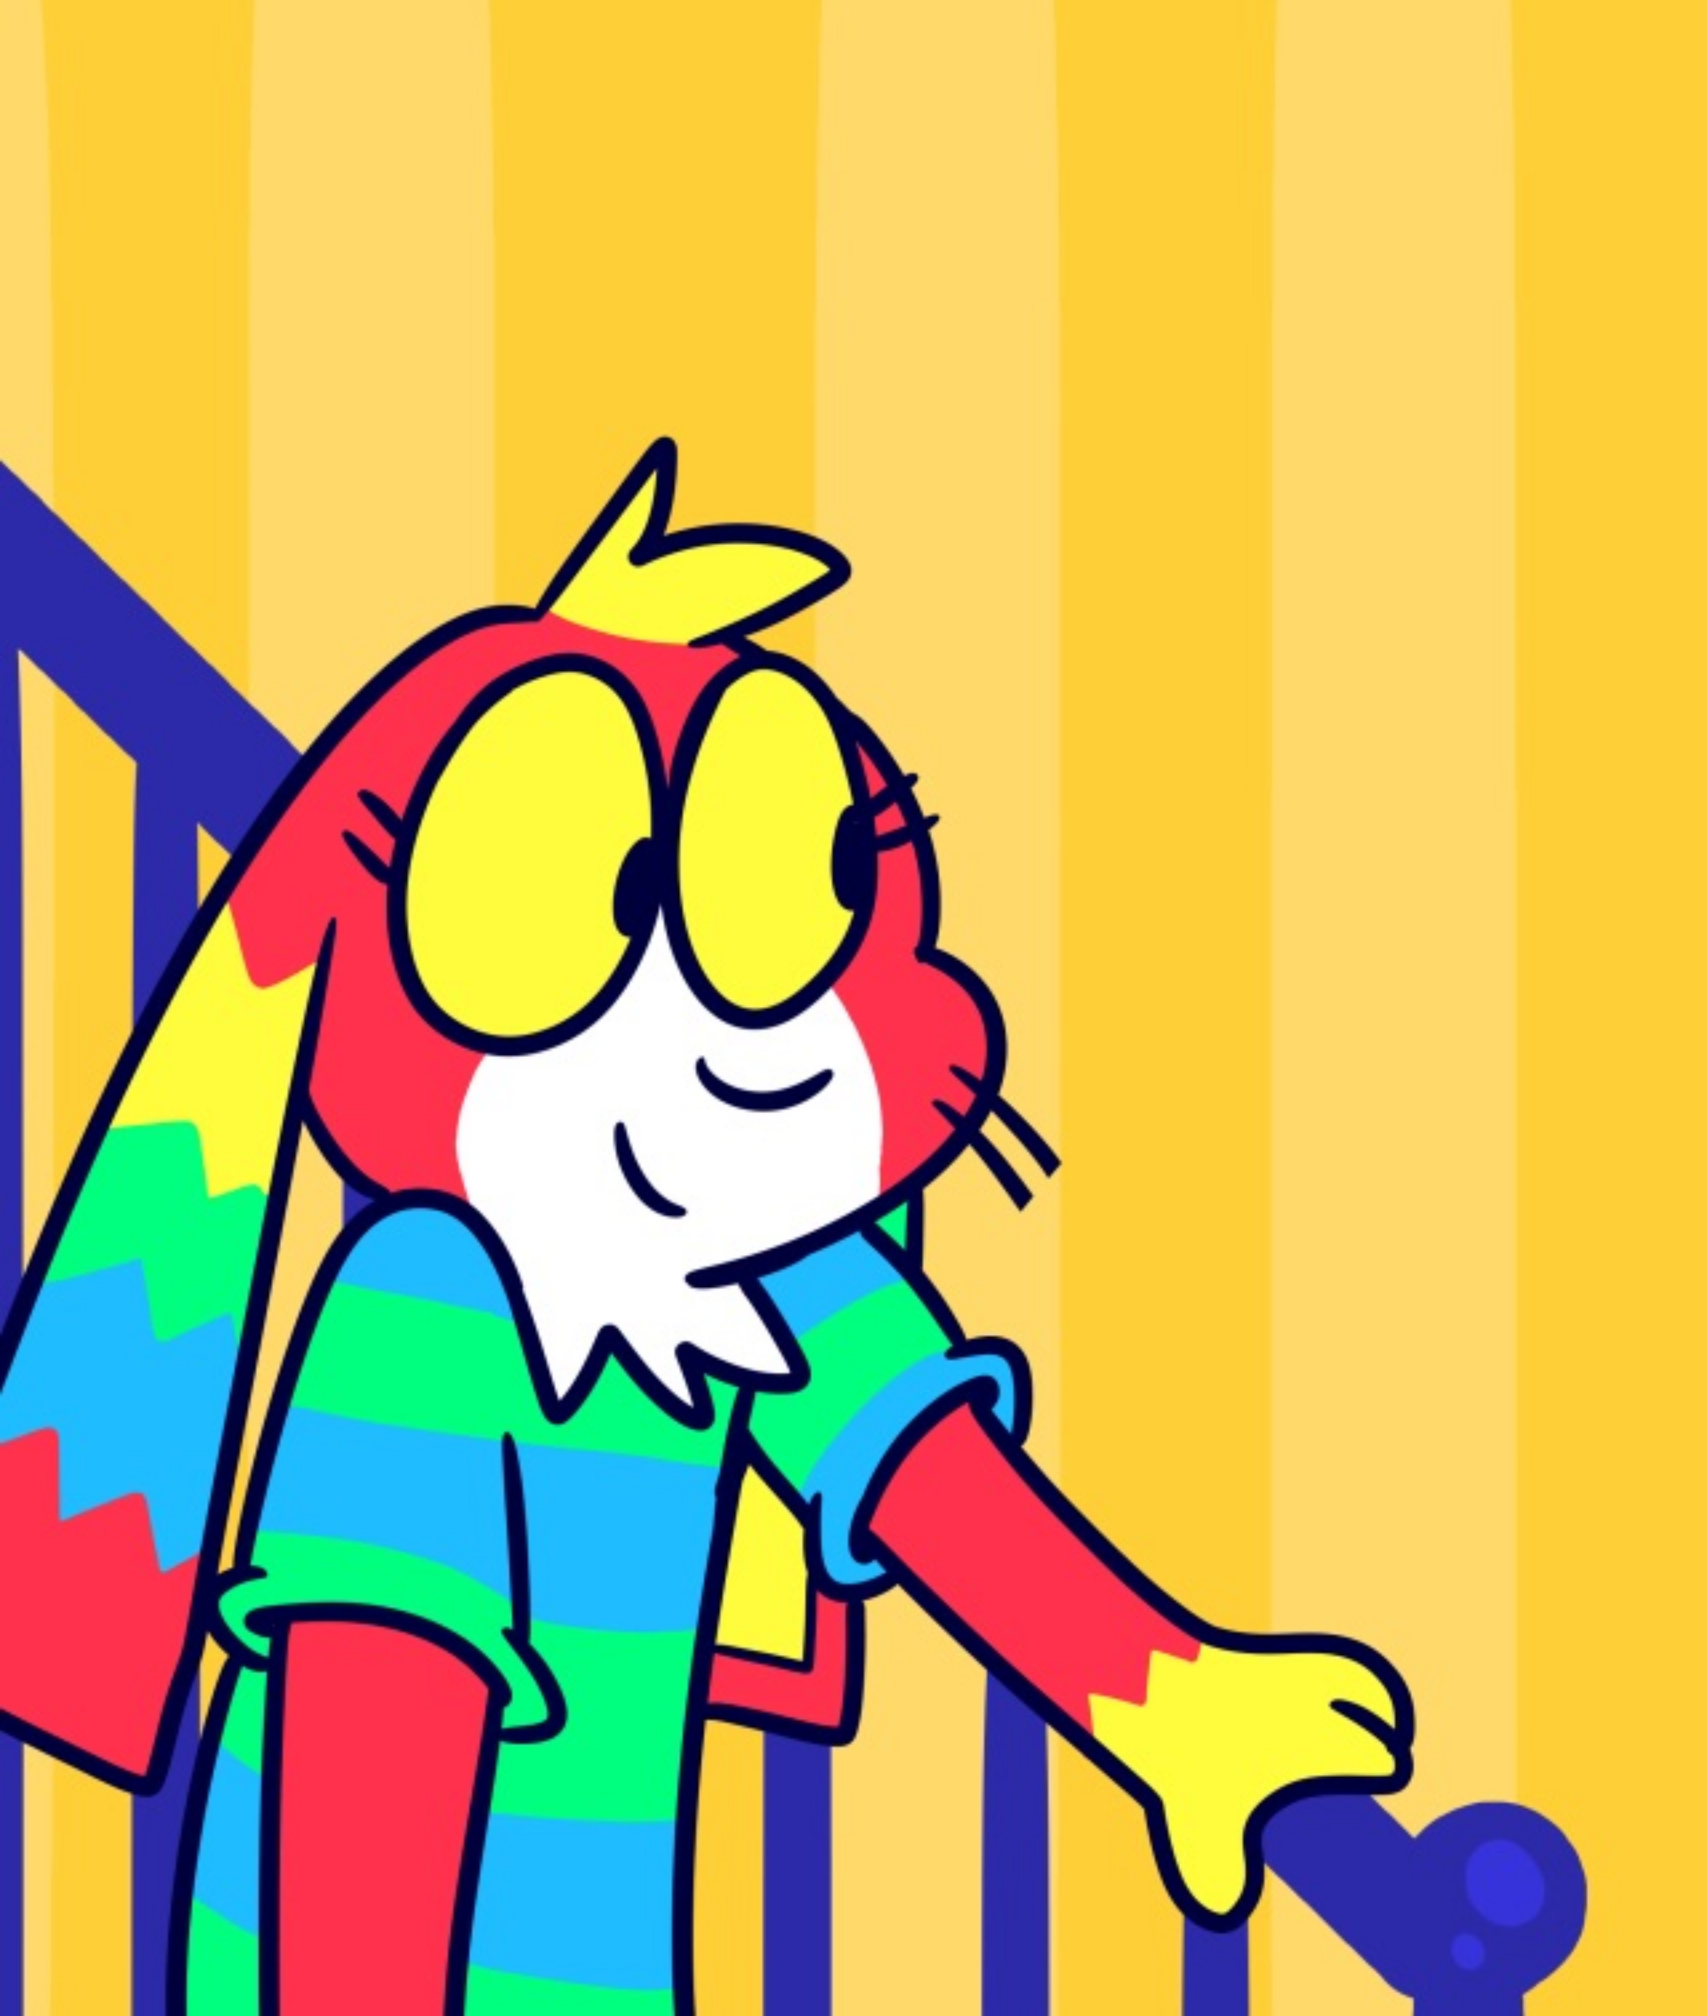
Who is your wife?

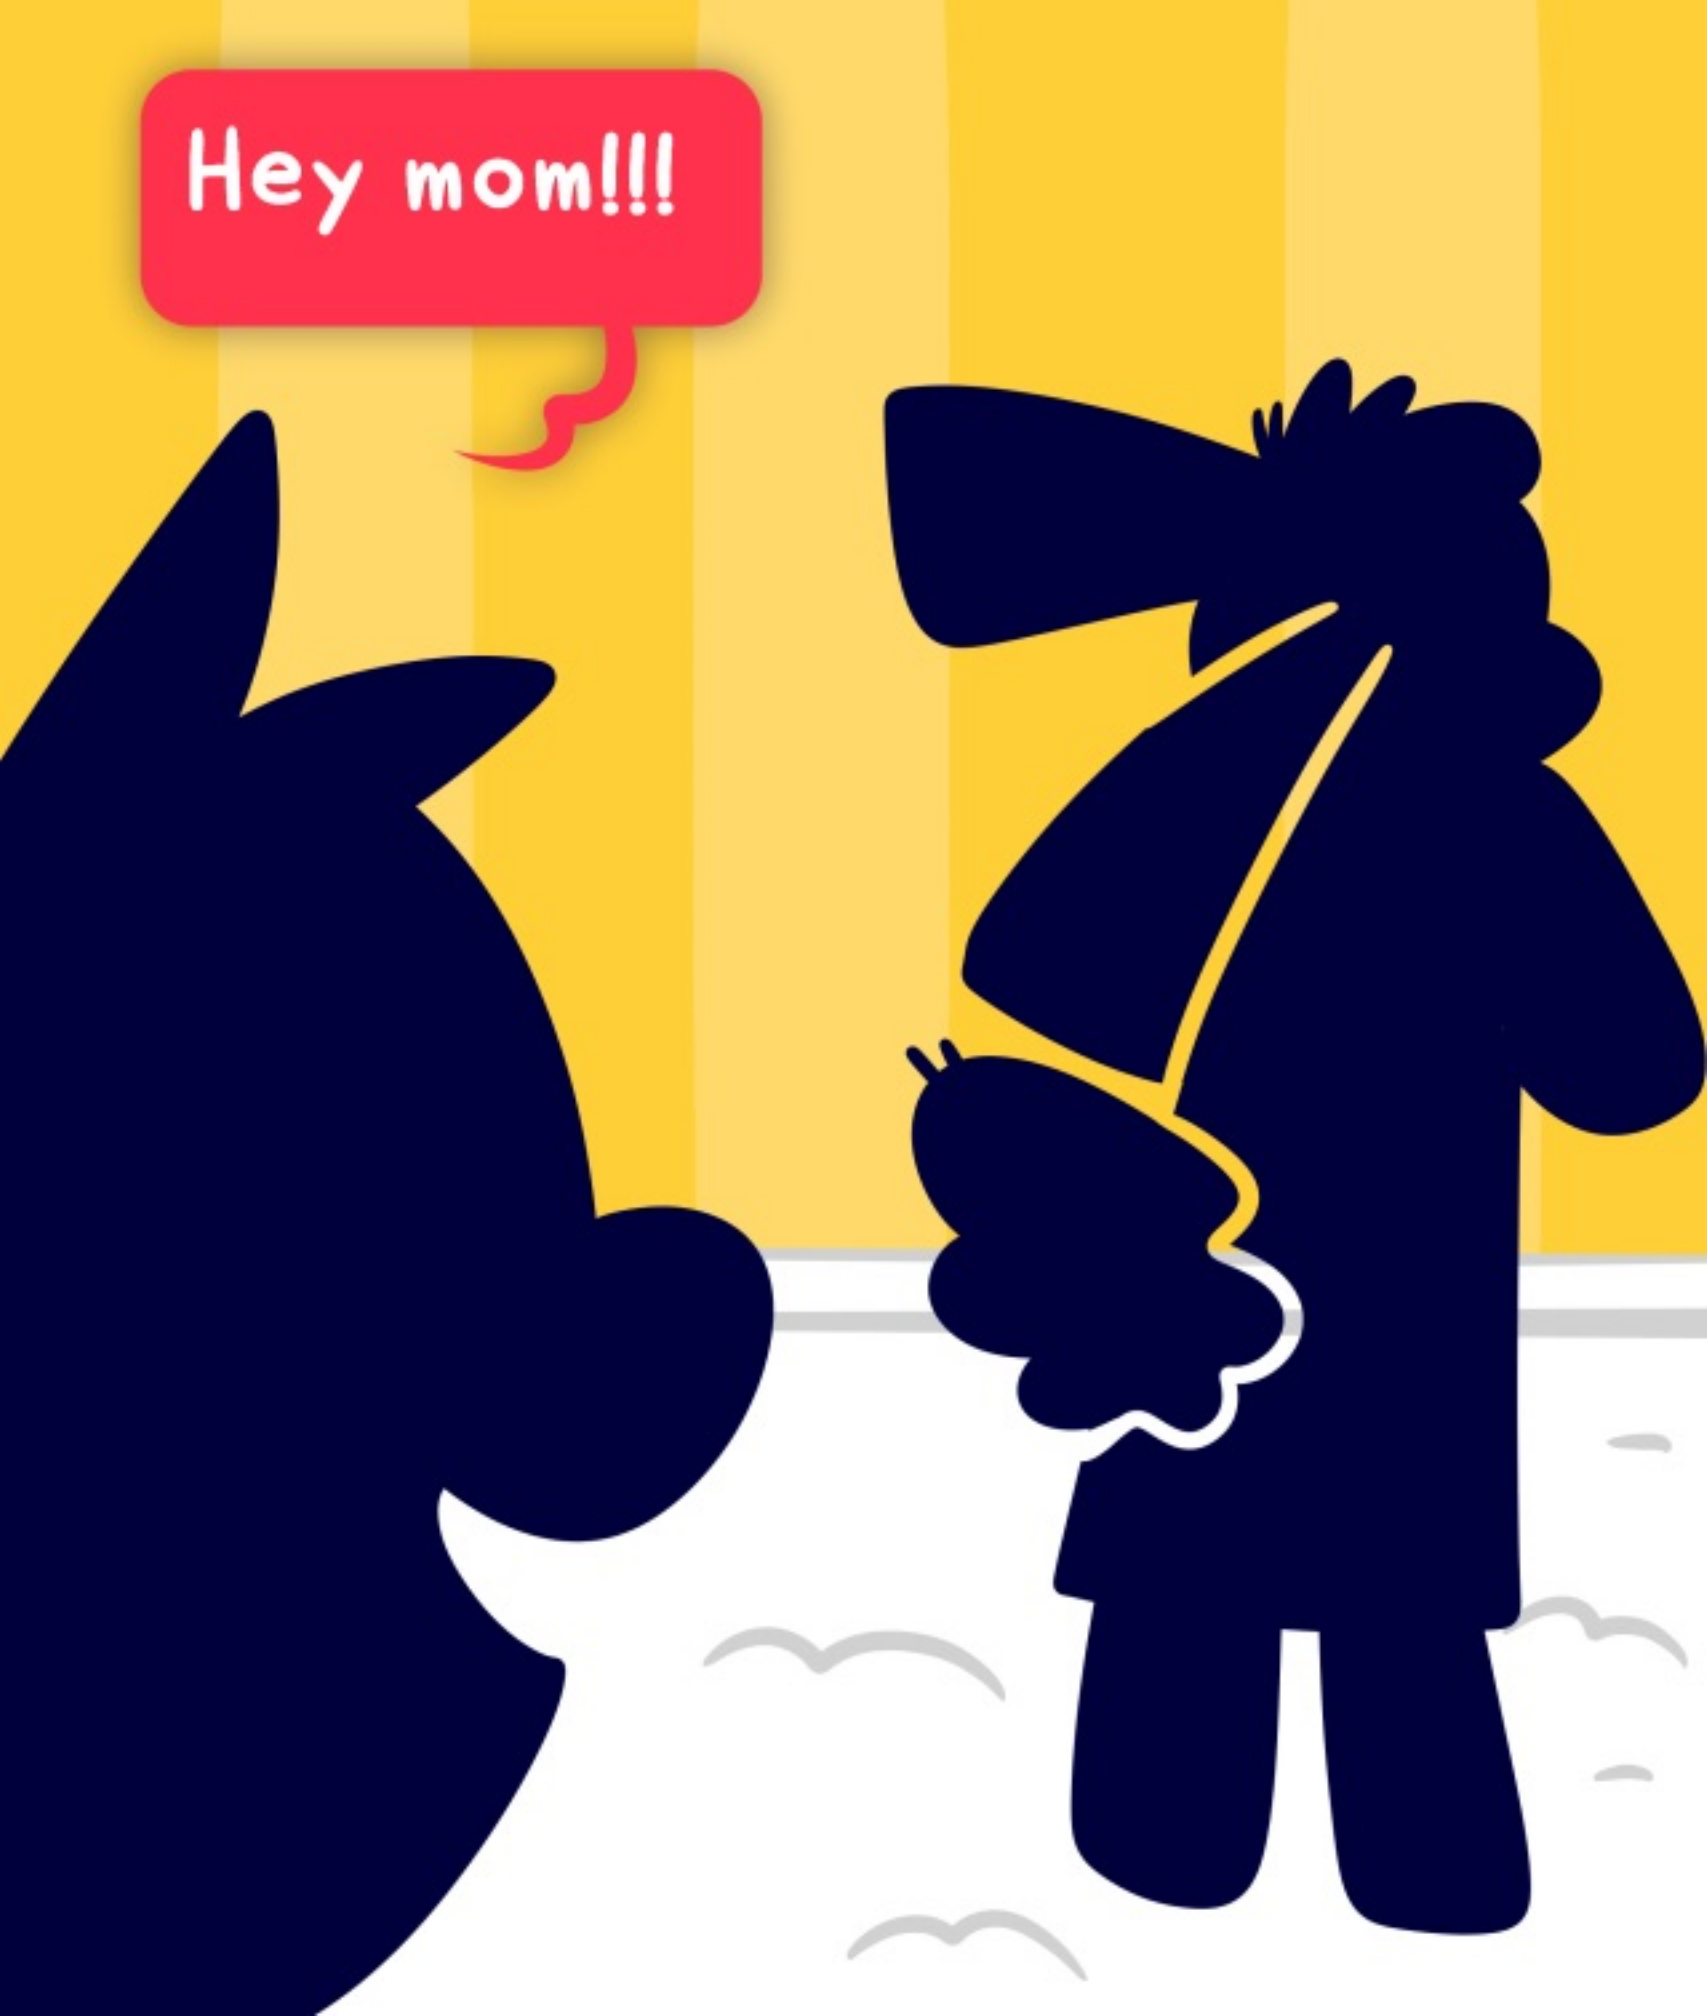


She's a scientist of many fields, but most specifically physics, chemistry, and robotics.

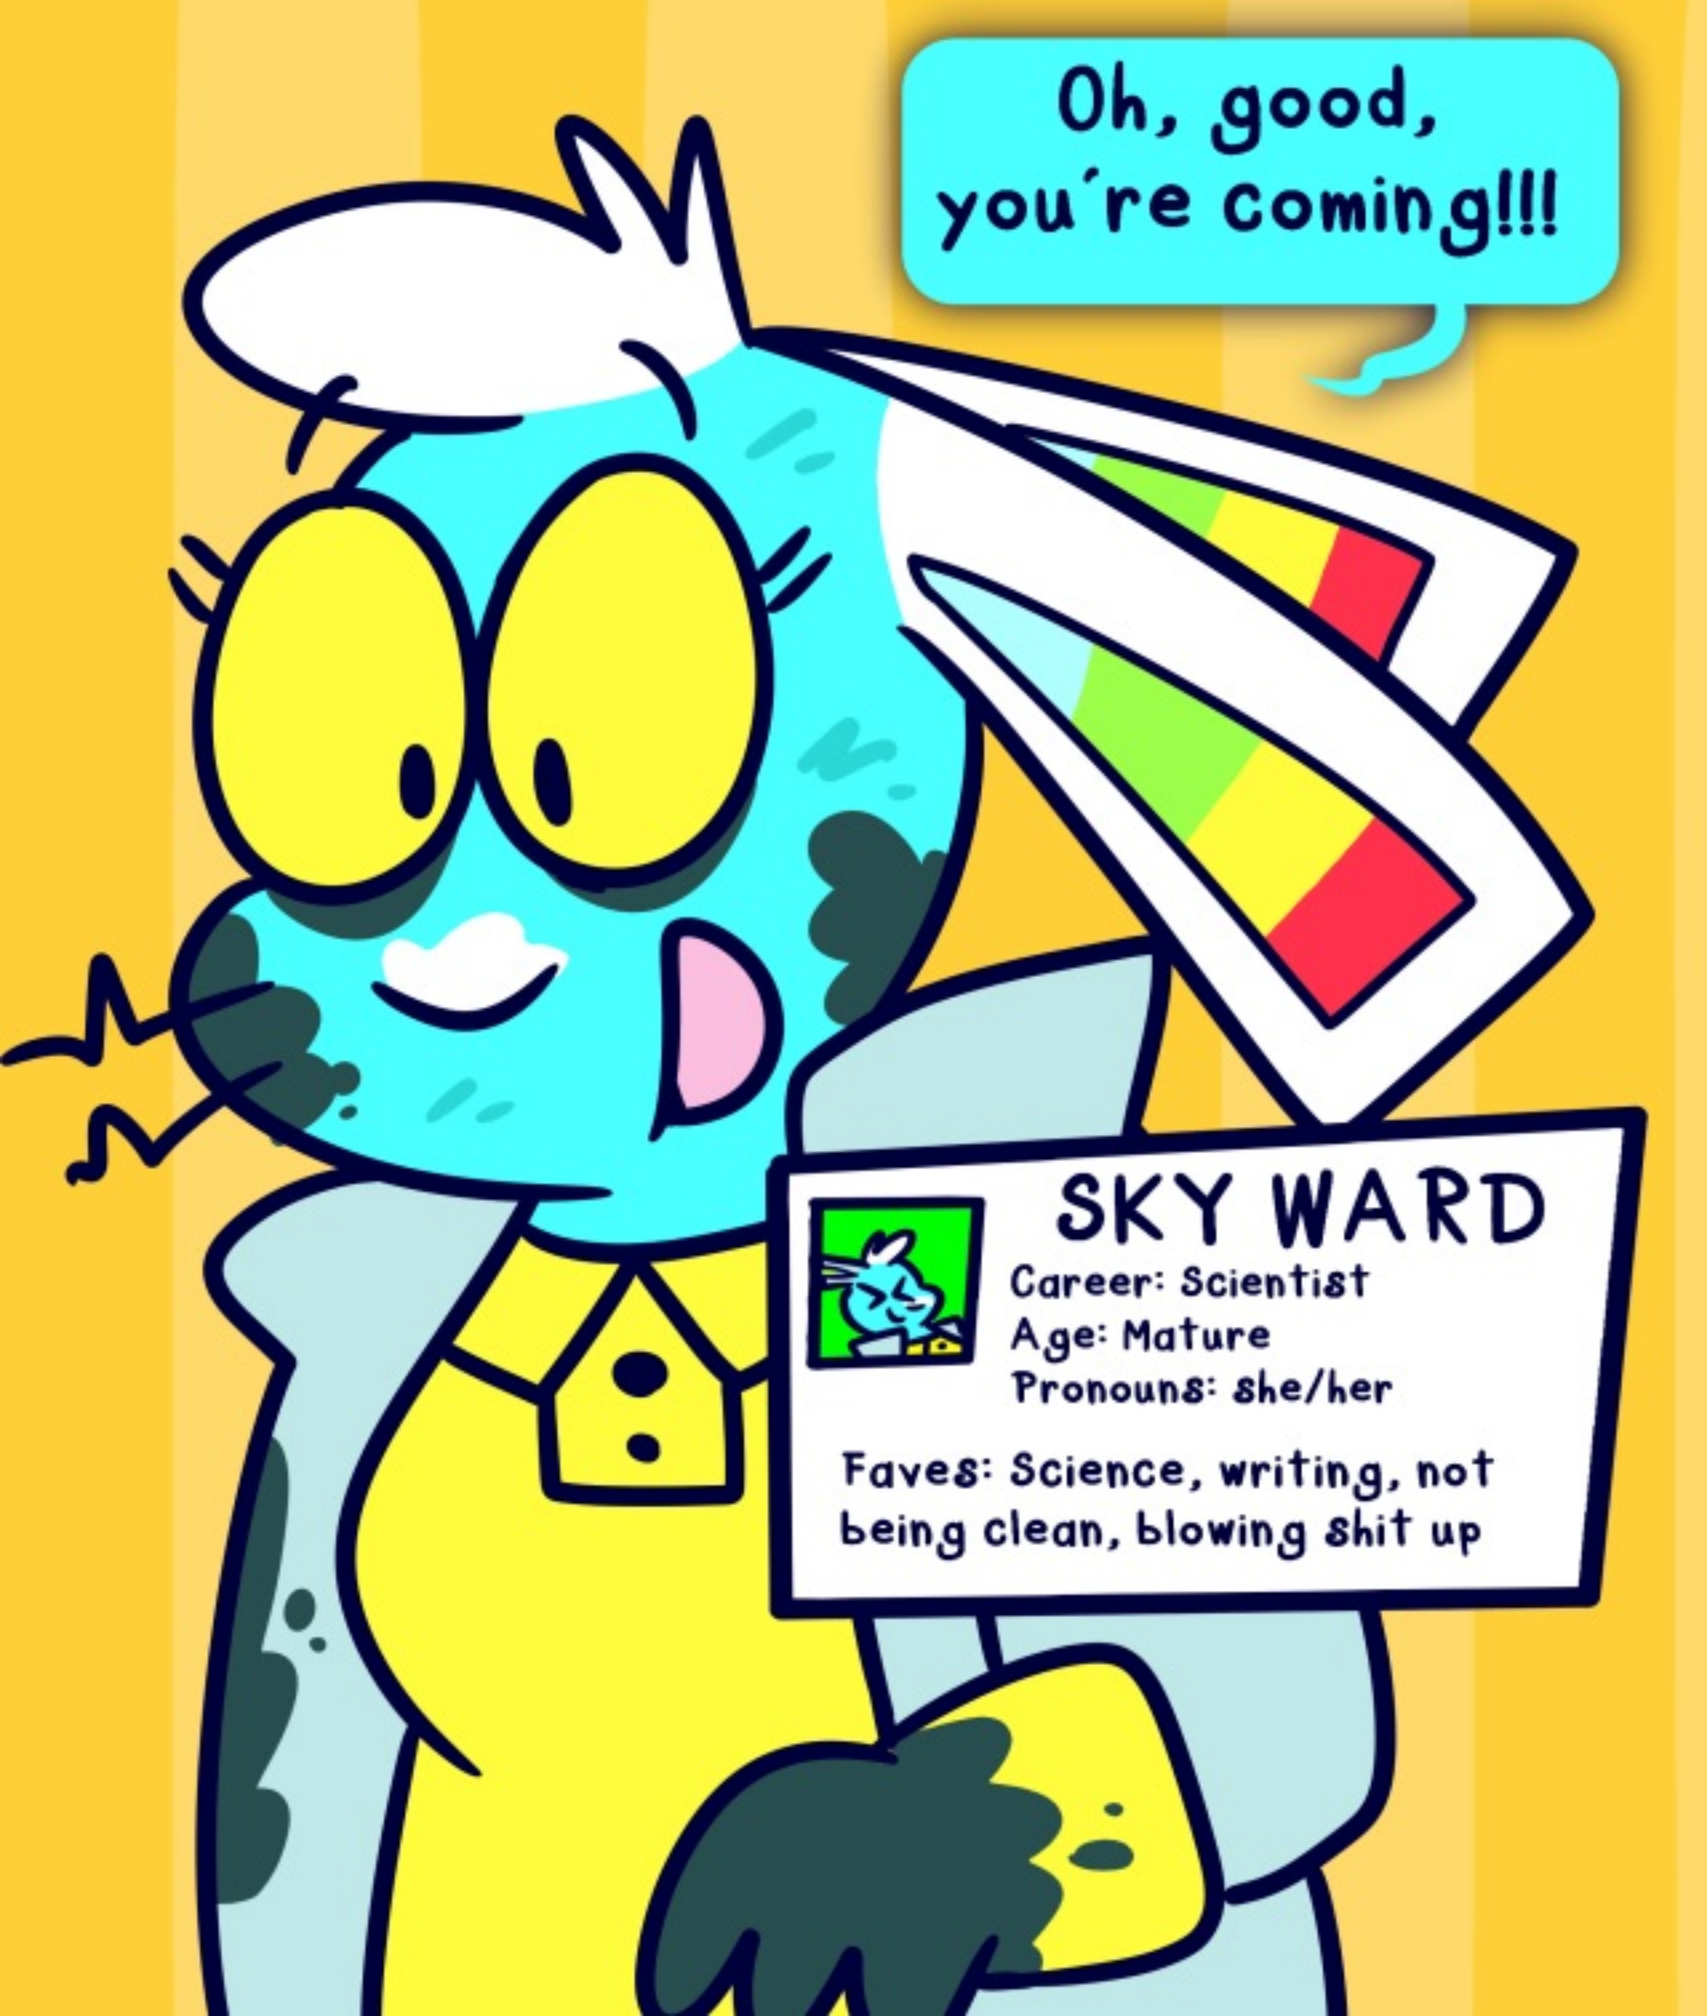


Okay, I´m ready now!
She´s waiting downstairs!

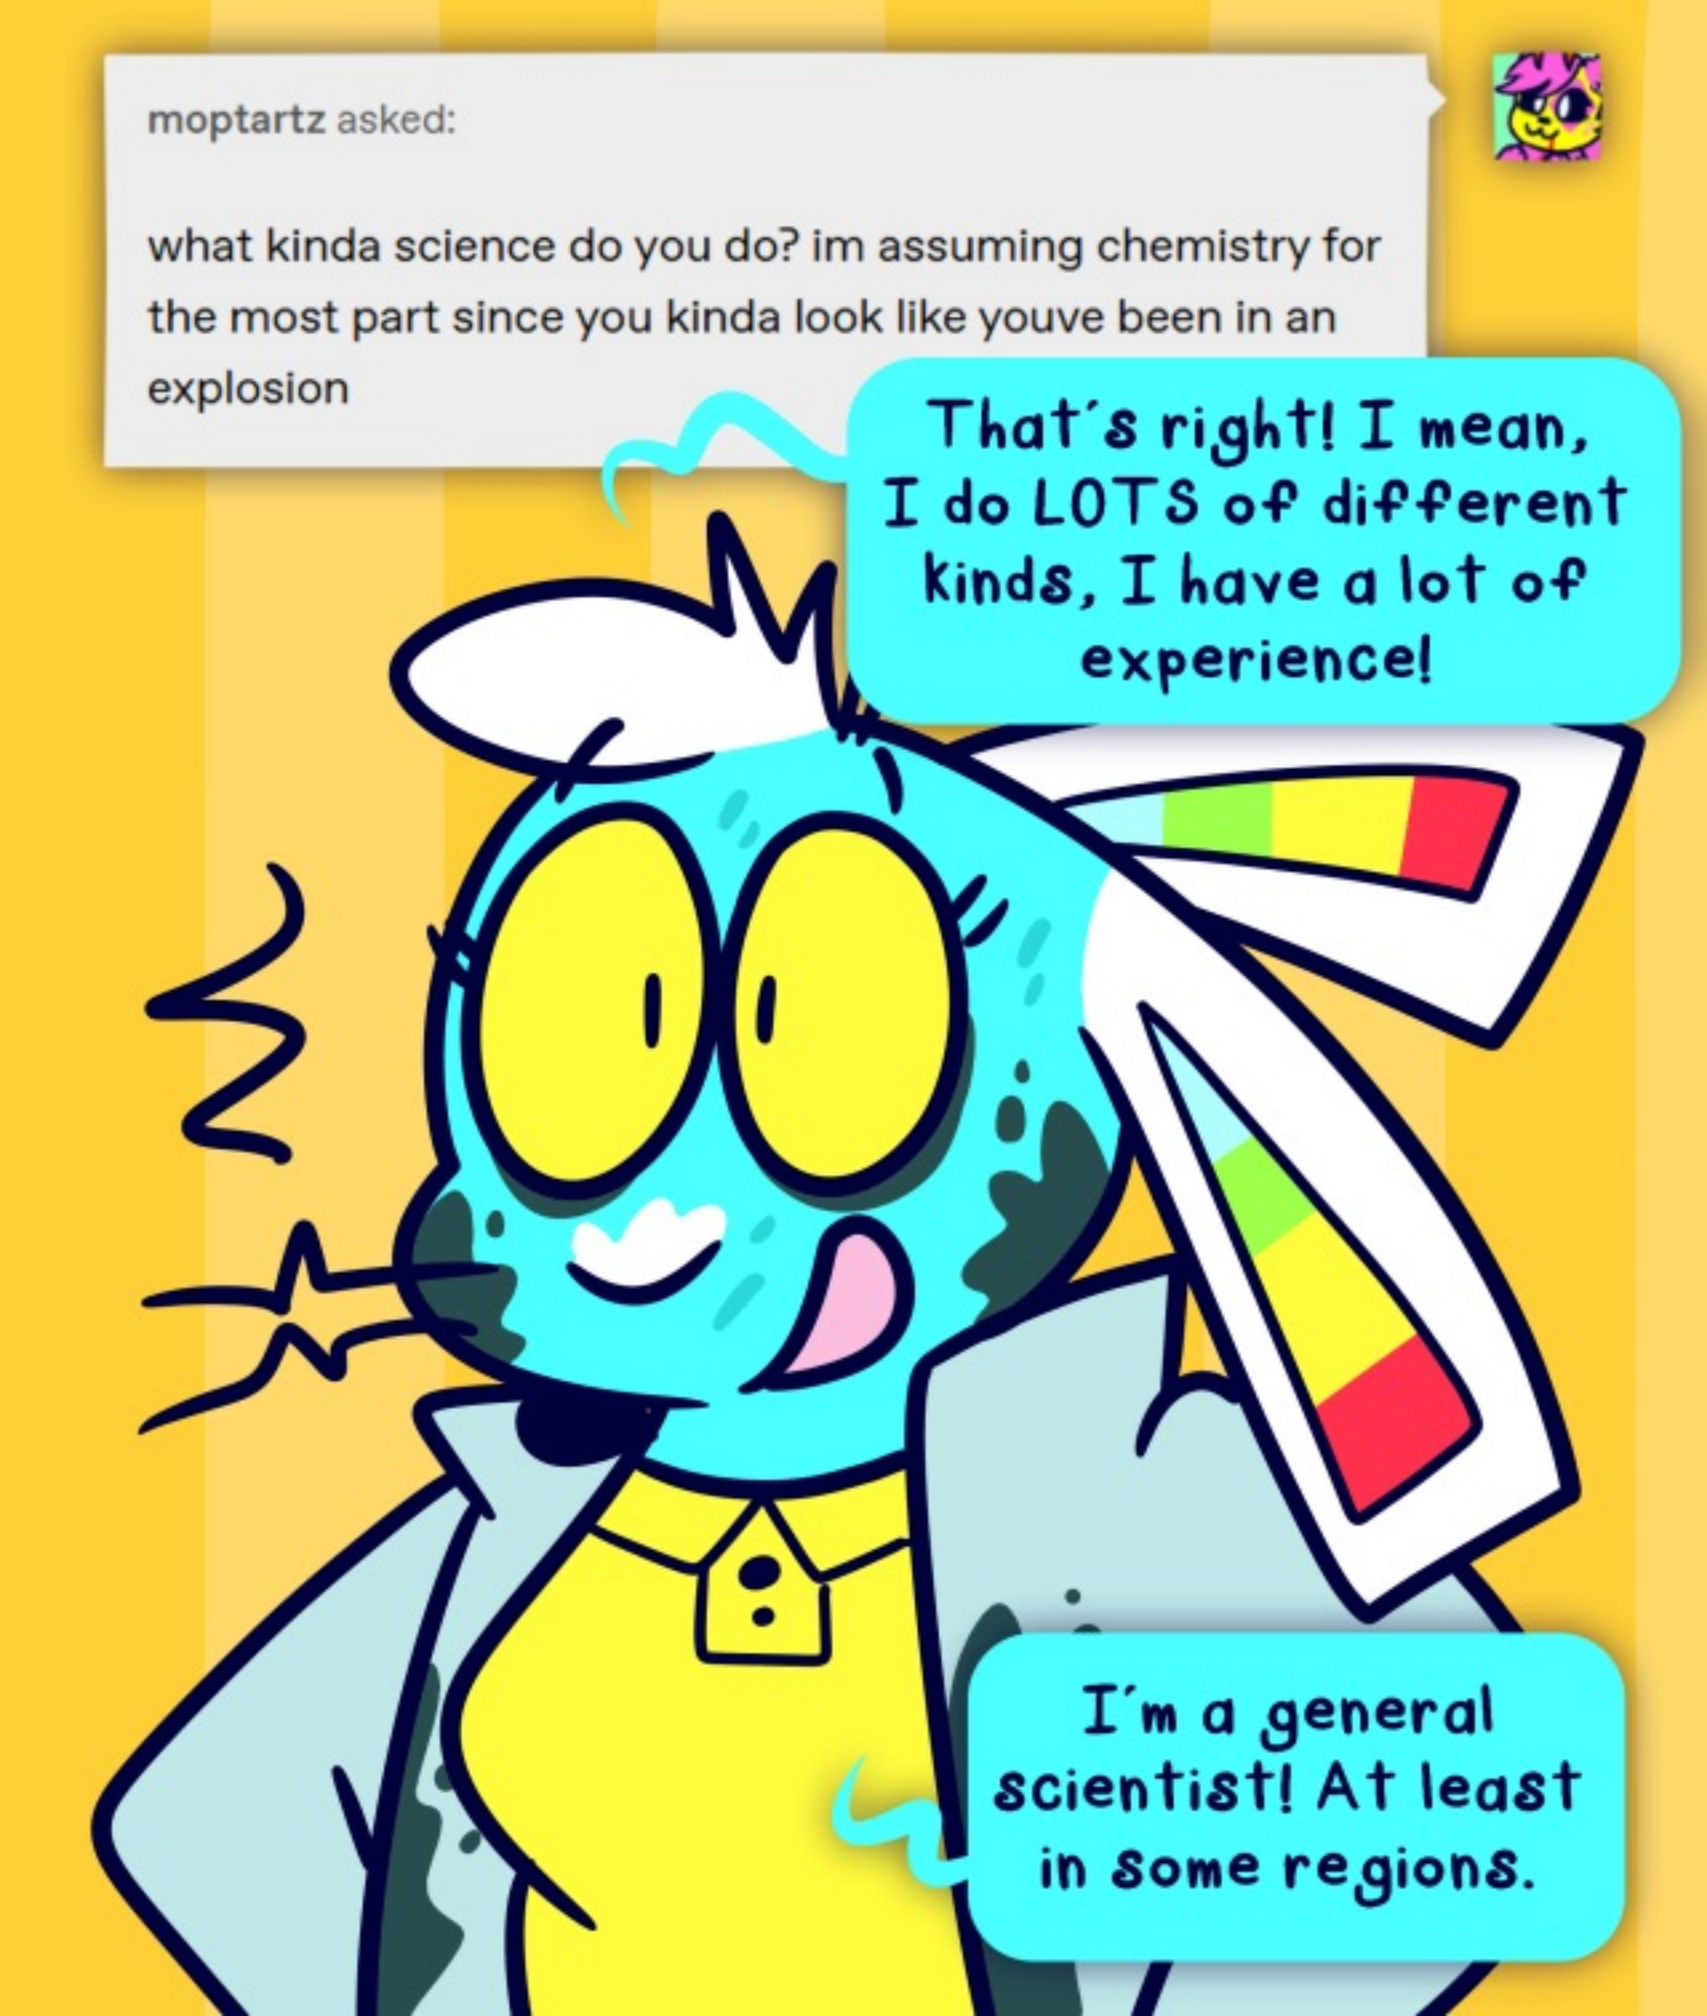




Hey mom!!!



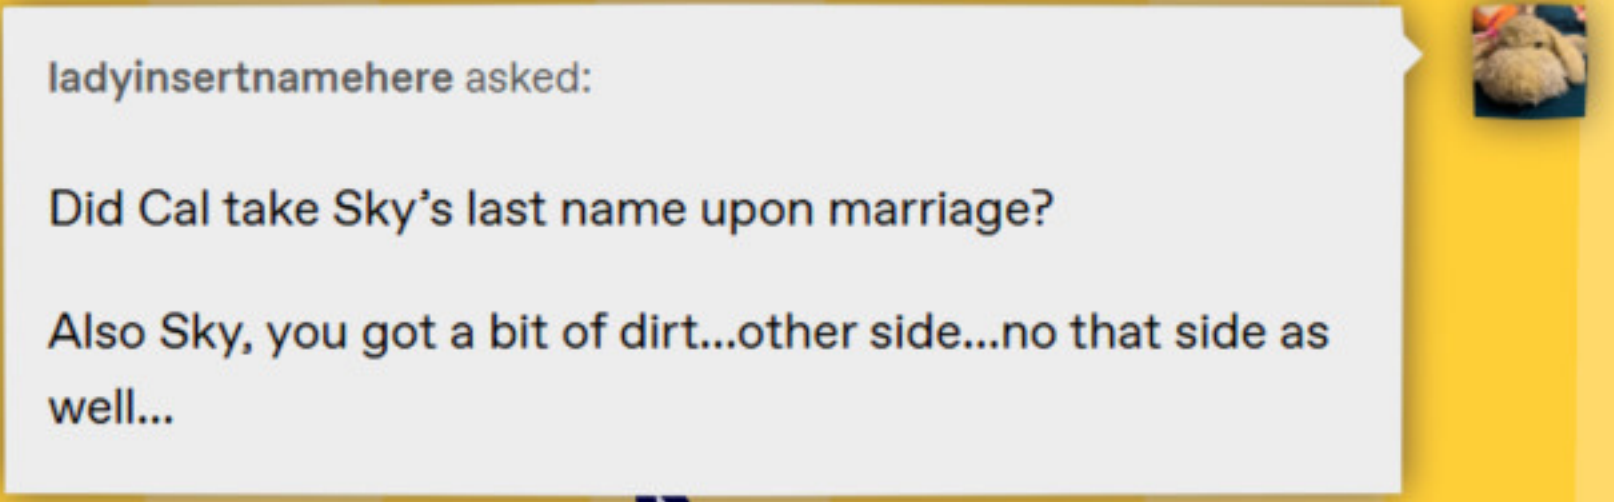
Oh, good, you're coming!!!
SKY WARD
Career: Scientist
Age: Mature
Pronouns: she/her
Faves: Science, writing, not being clean, blowing shit up



moptartz asked:

what kinda science do you do? im assuming chemistry for the most part since you kinda look like youve been in an explosion

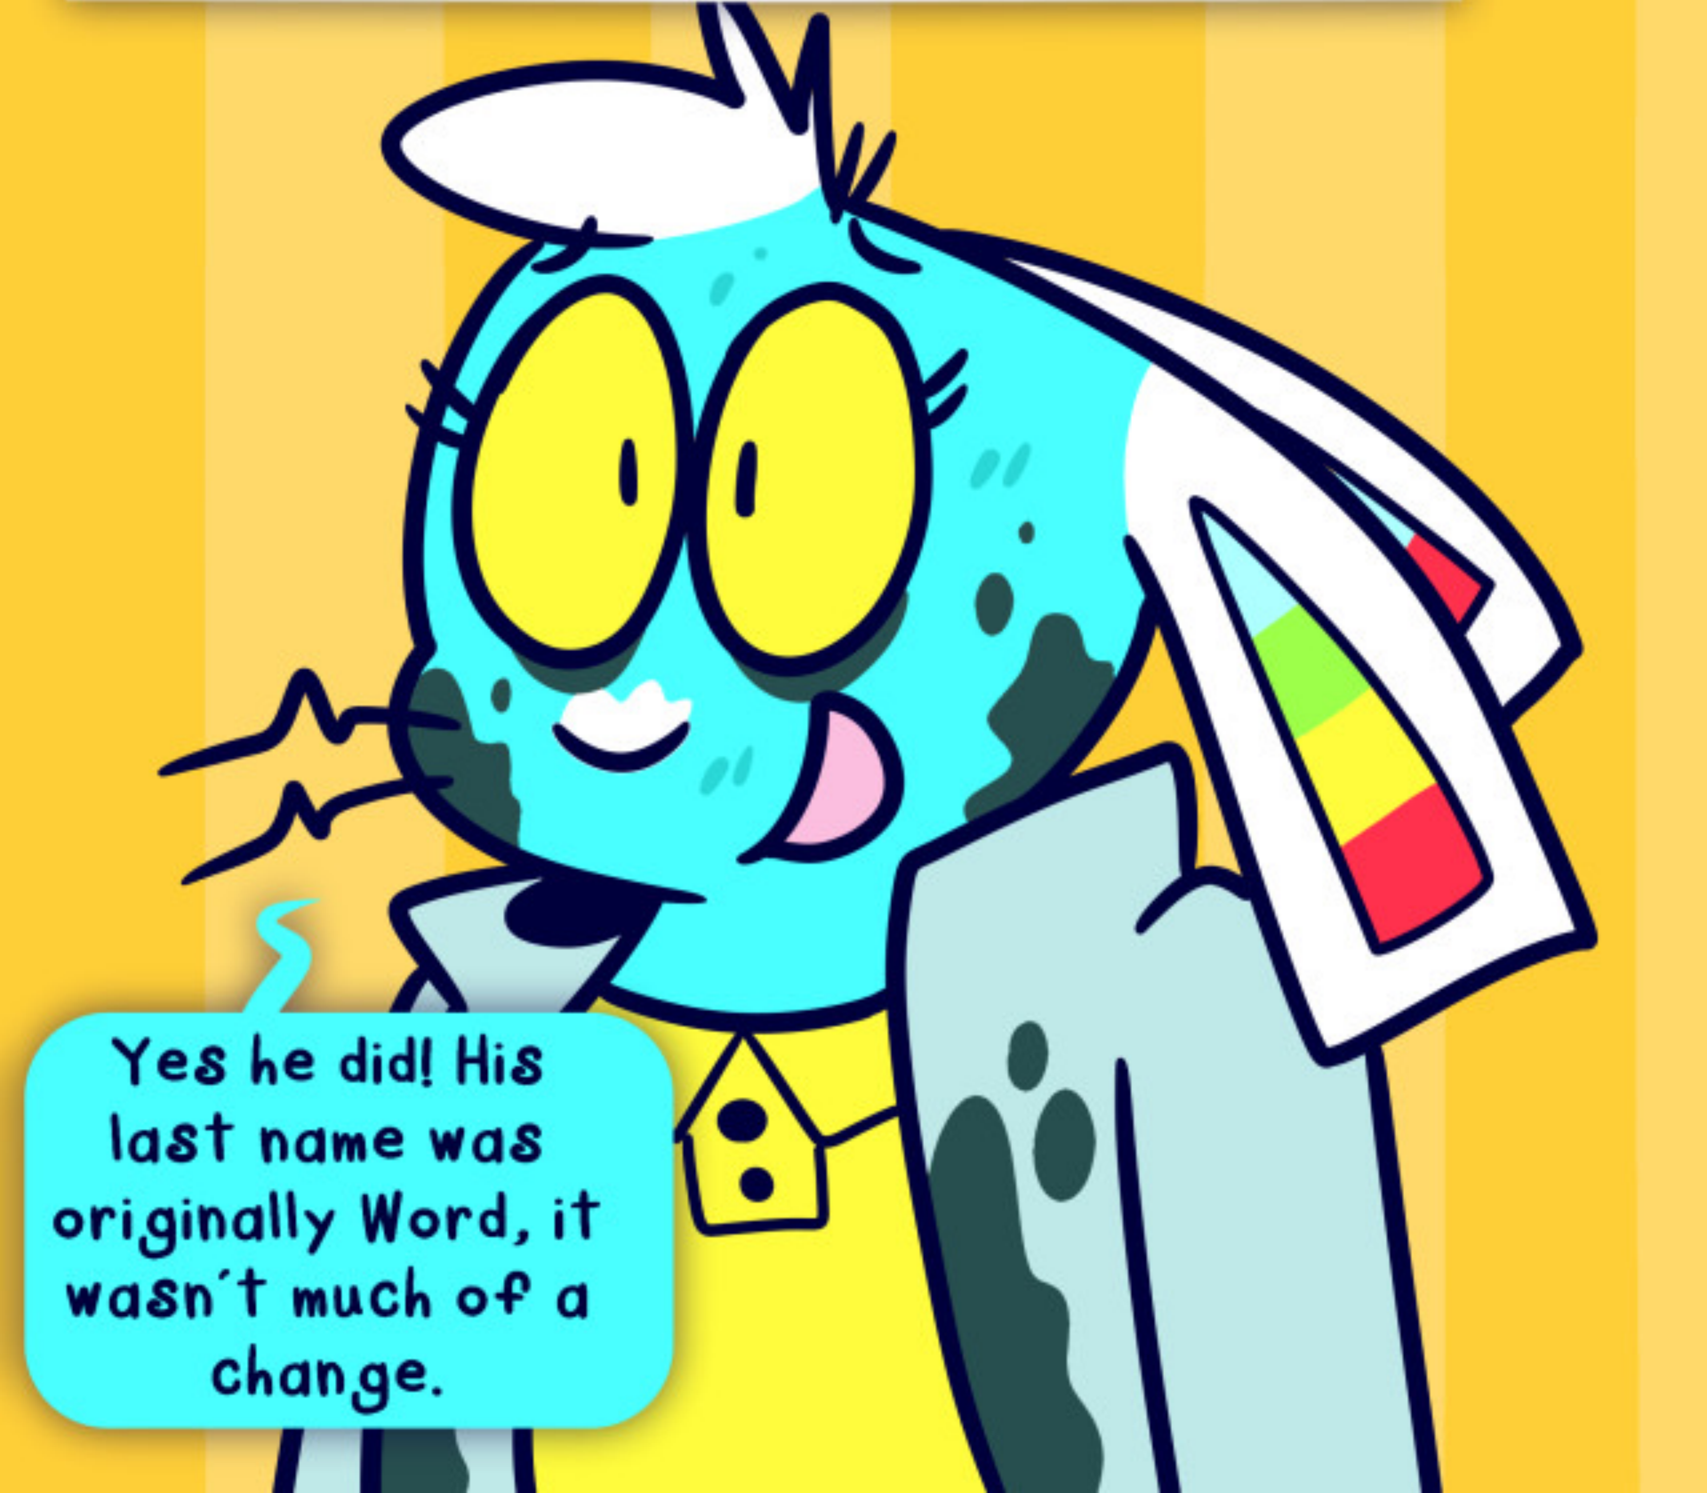
That´s right! I mean, I do LOTS of different kinds, I have a lot of experience!
I´m a general scientist! At least in some regions.



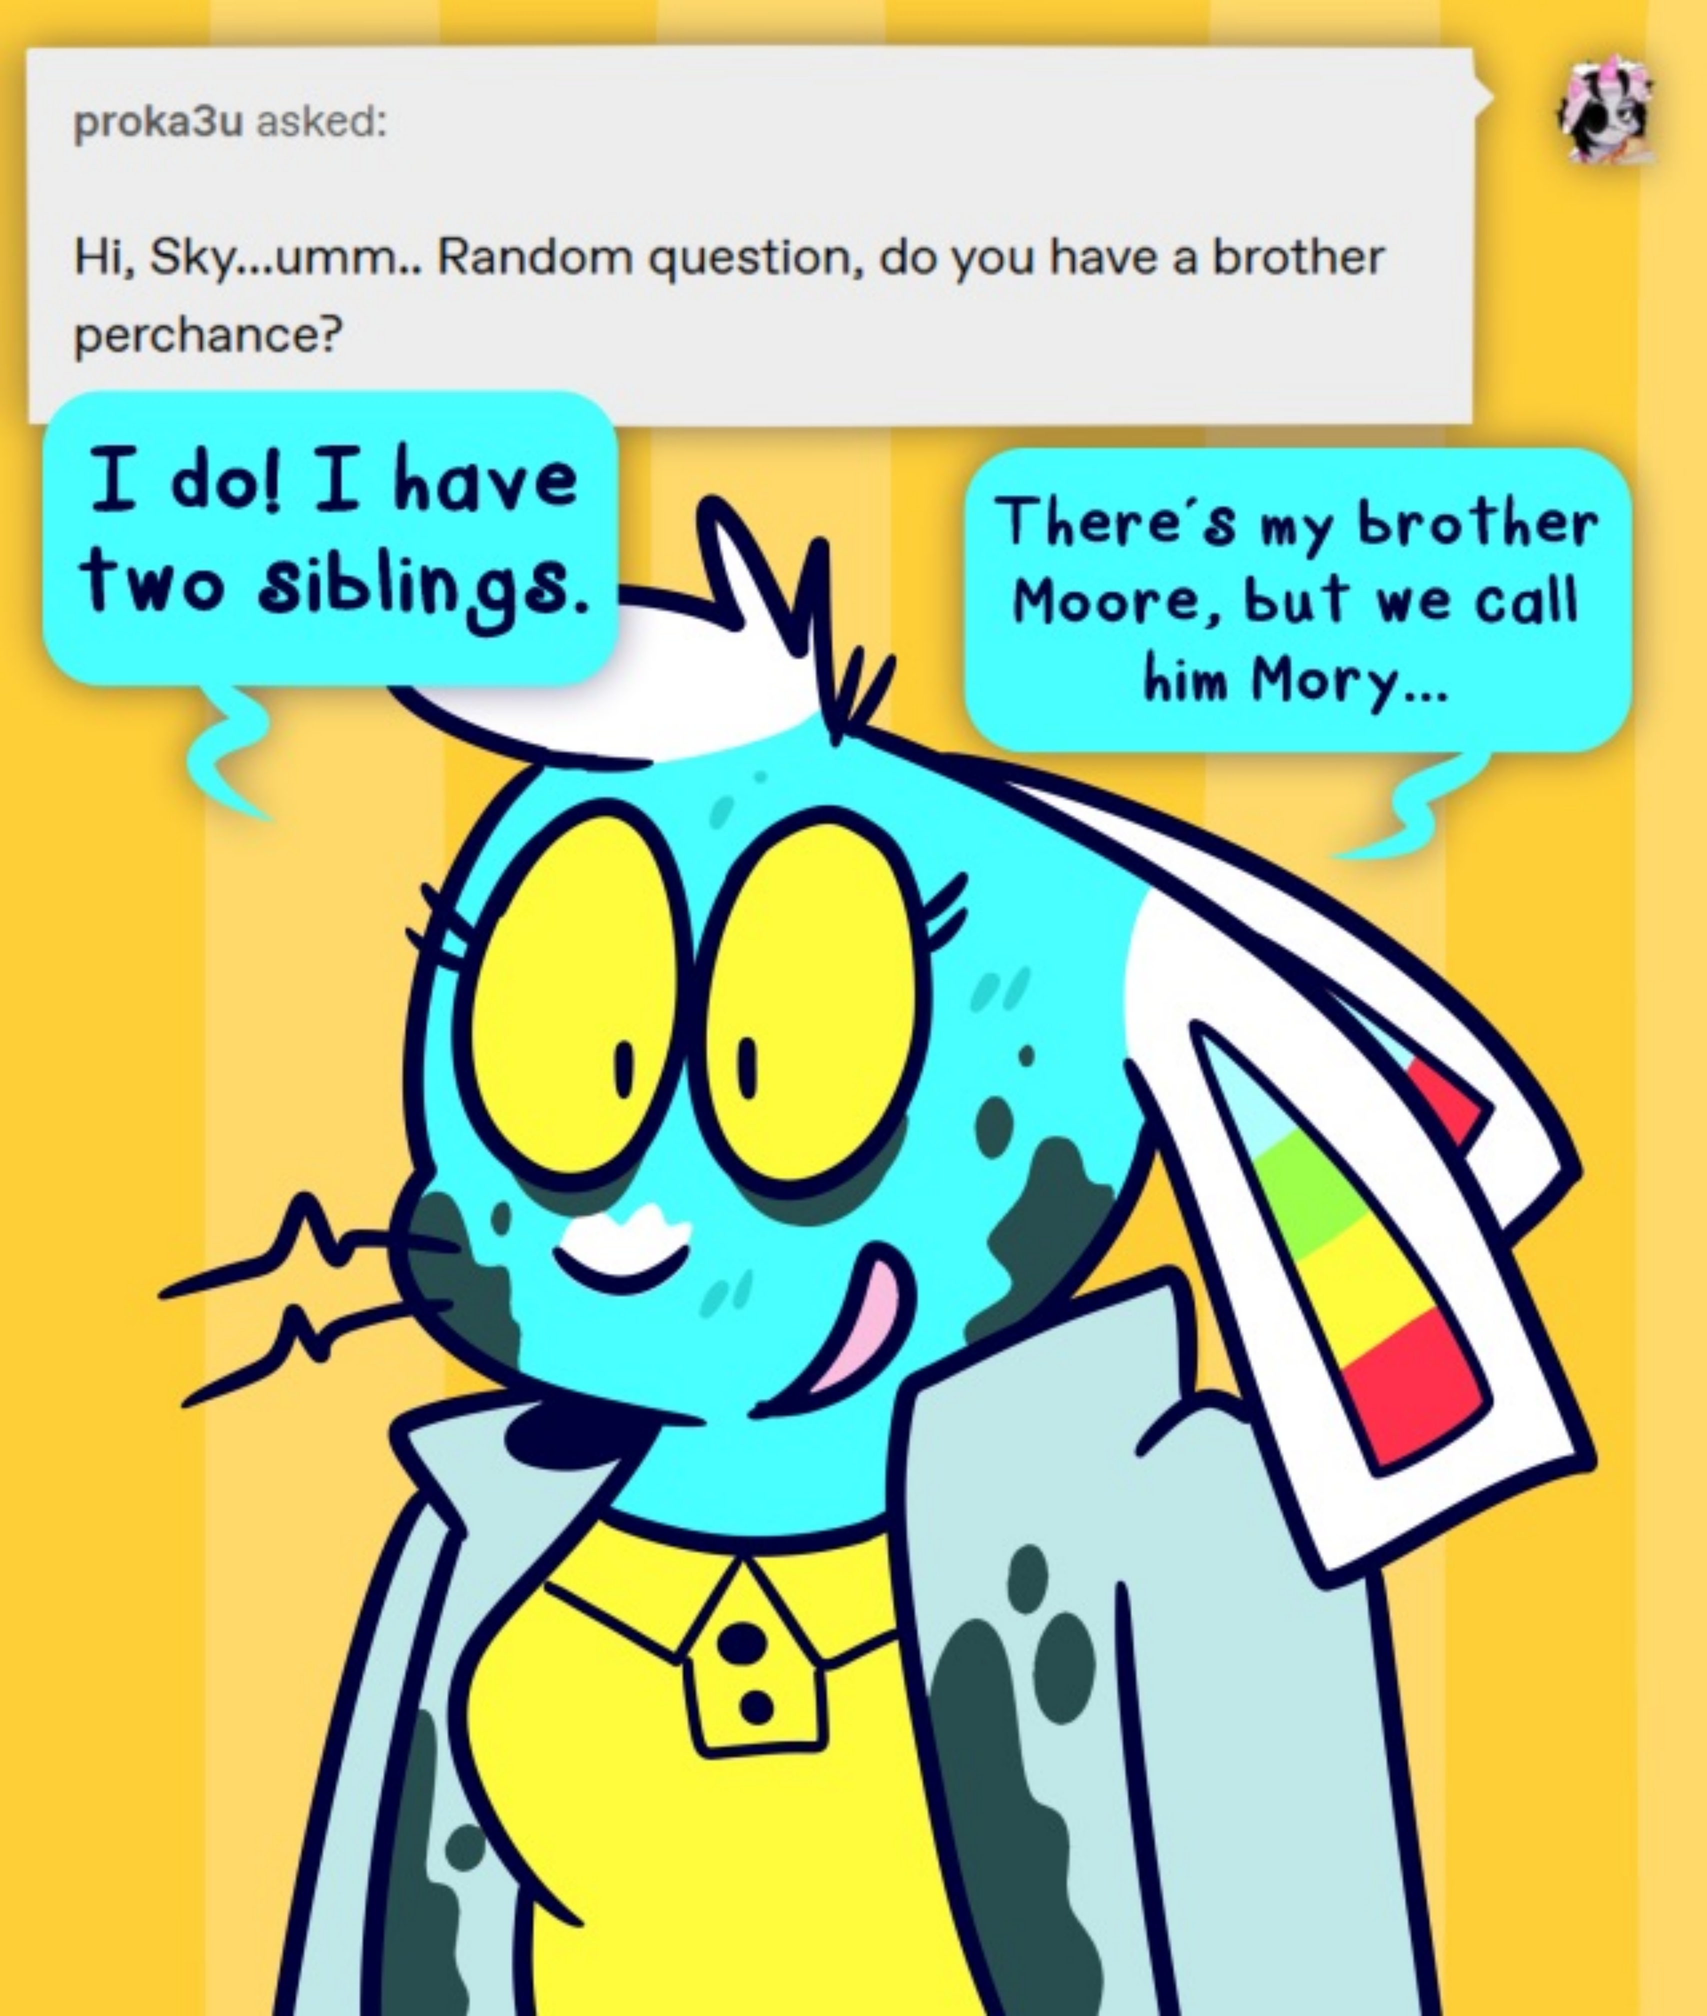
ladyinsertnamehere asked:

Did Cal take Sky's last name upon marriage?

Also Sky, you got a bit of dirt...other side...no that side as well...



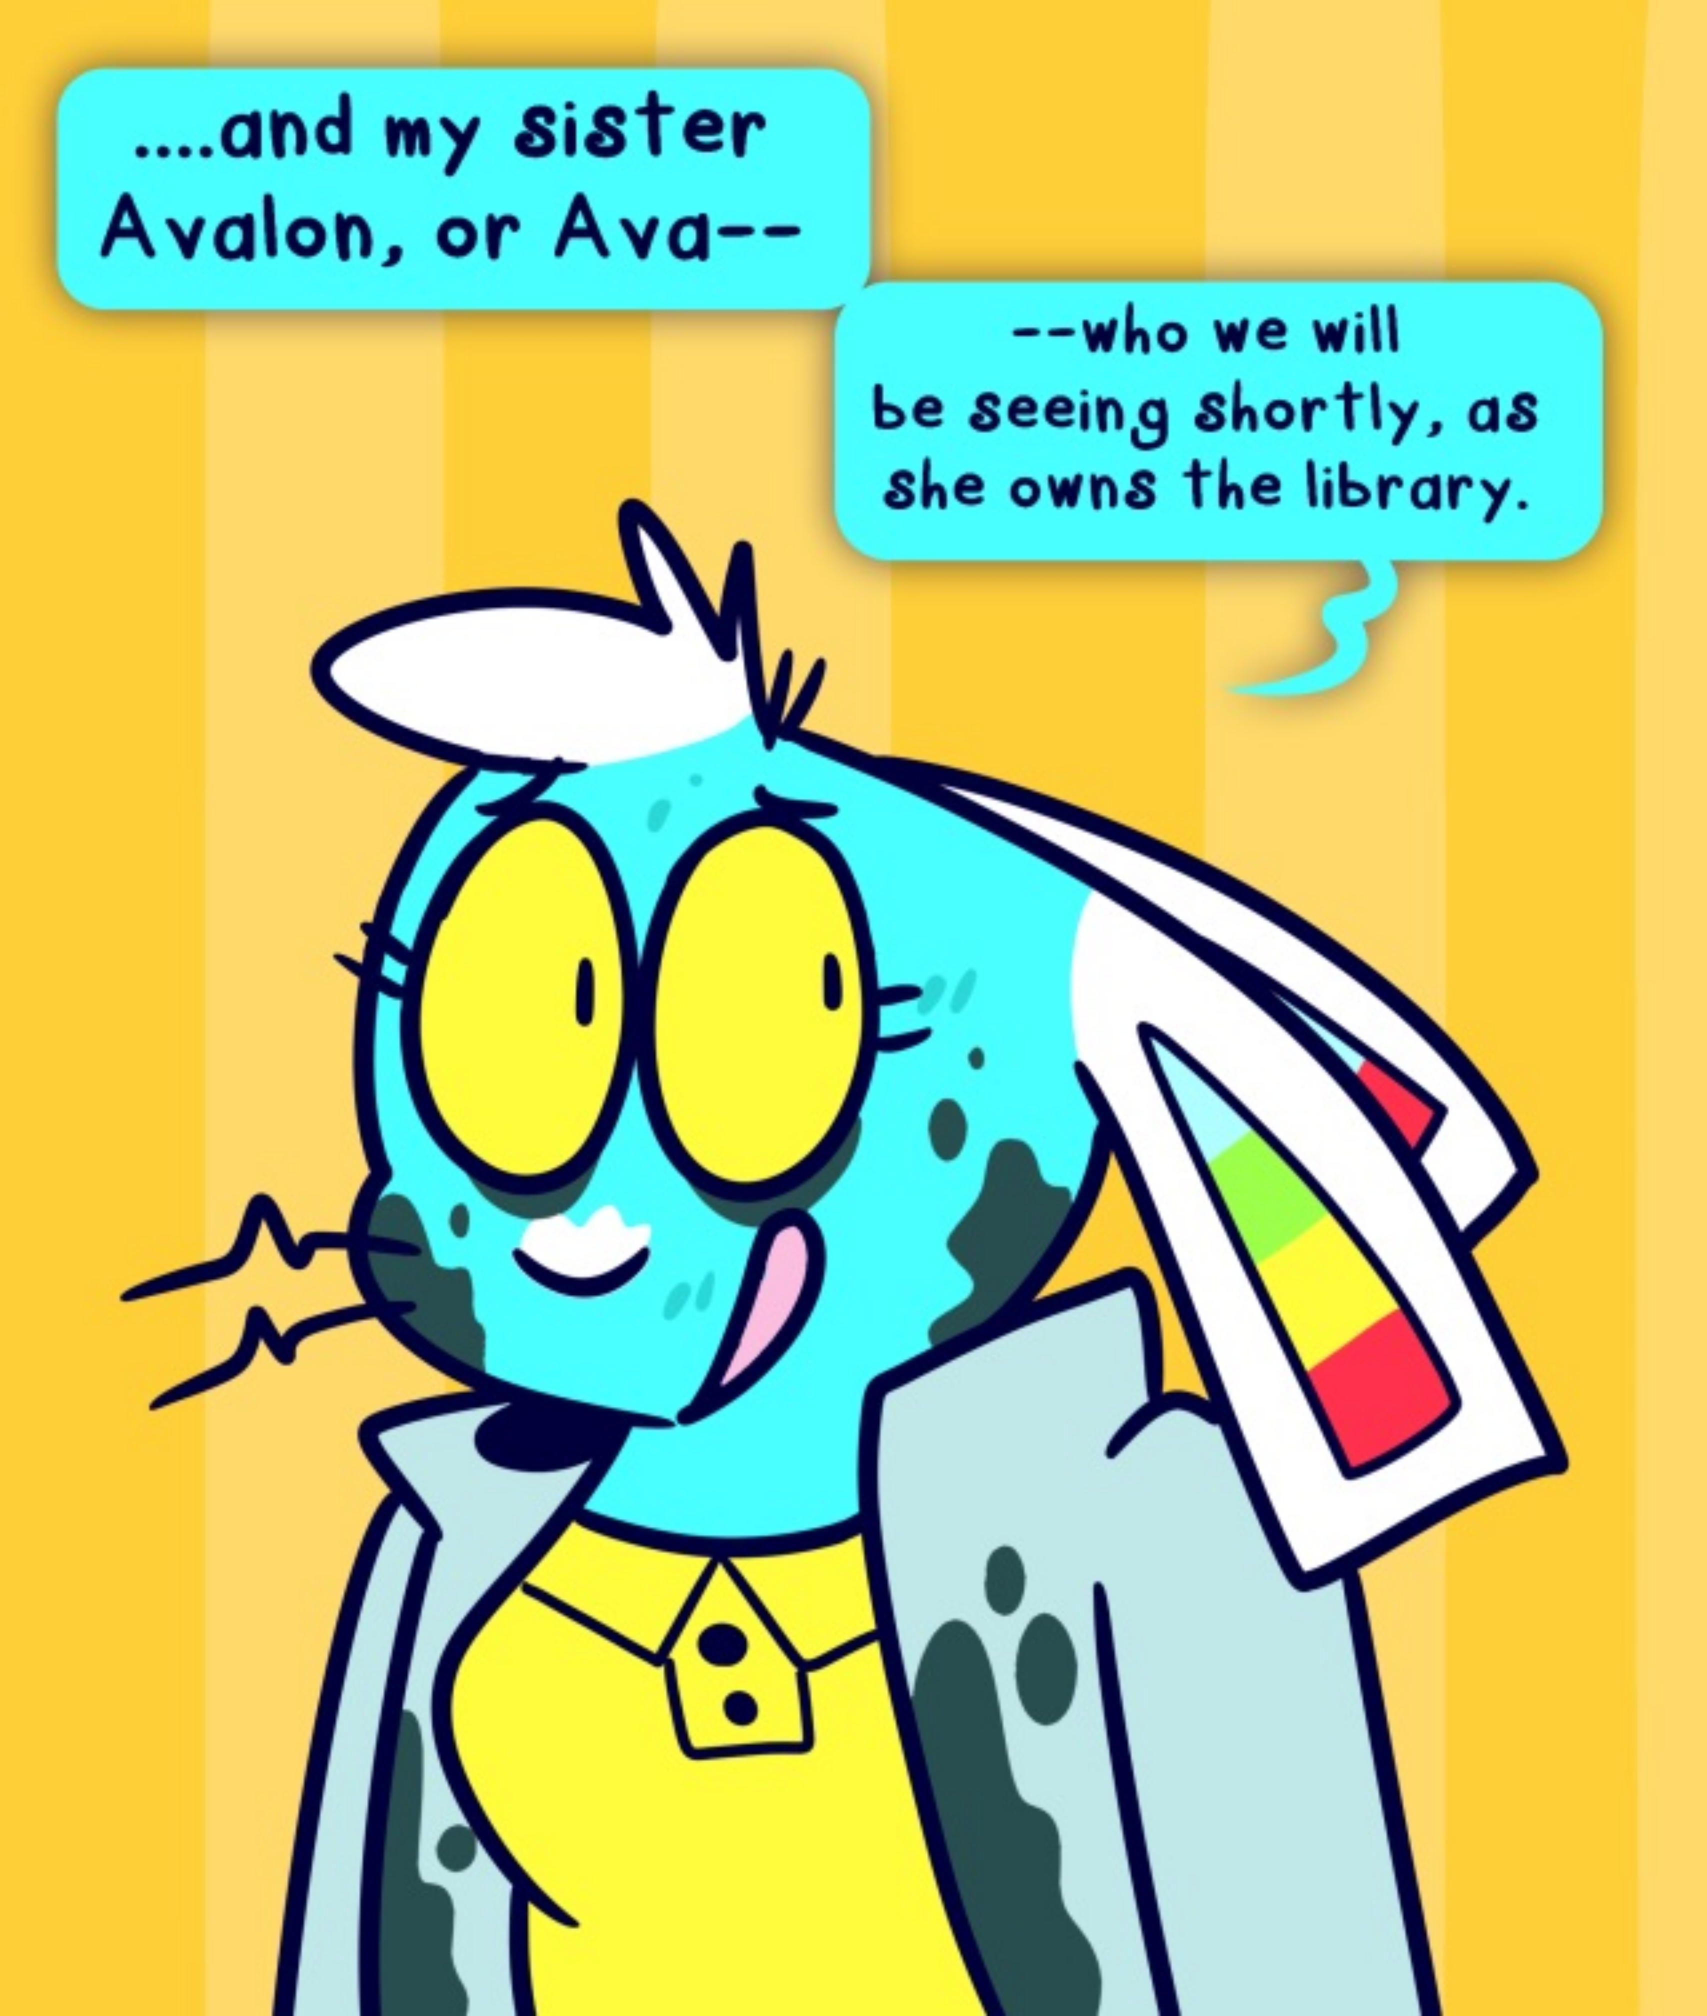
Yes he did! His last name was originally Word, it wasn't much of a change.



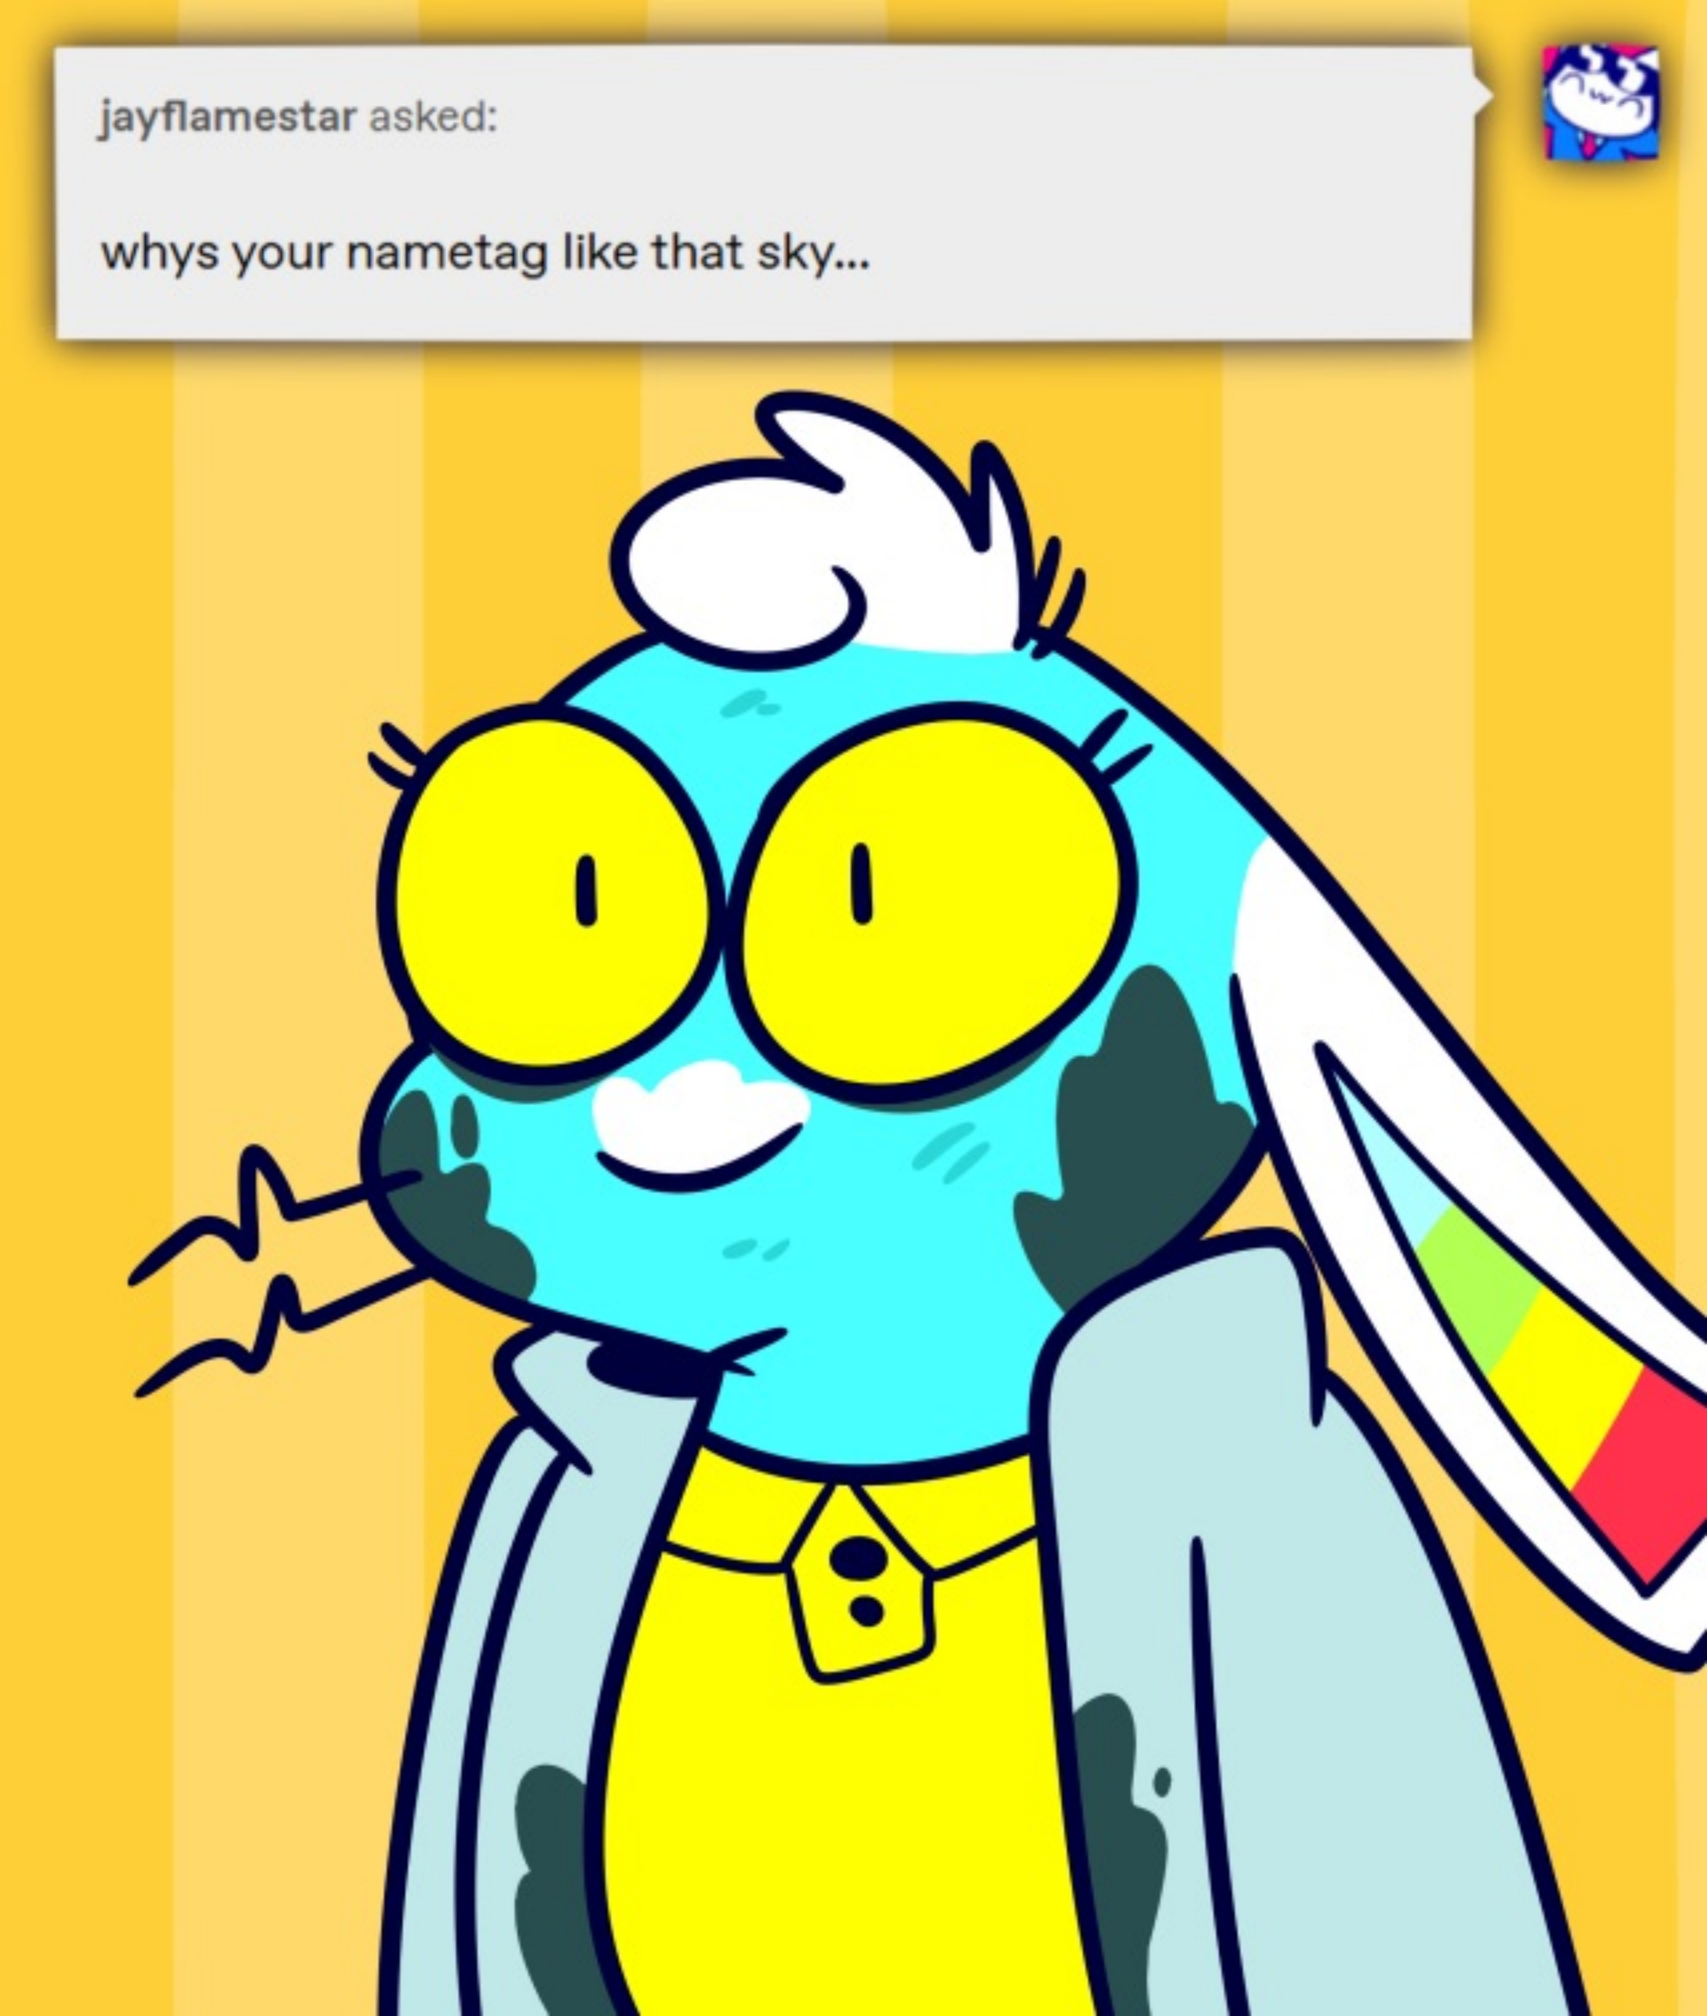
proka3u asked:

Hi, Sky...umm.. Random question, do you have a brother perchance?

I do! I have two siblings.
There's my brother Moore, but we call him Mory...

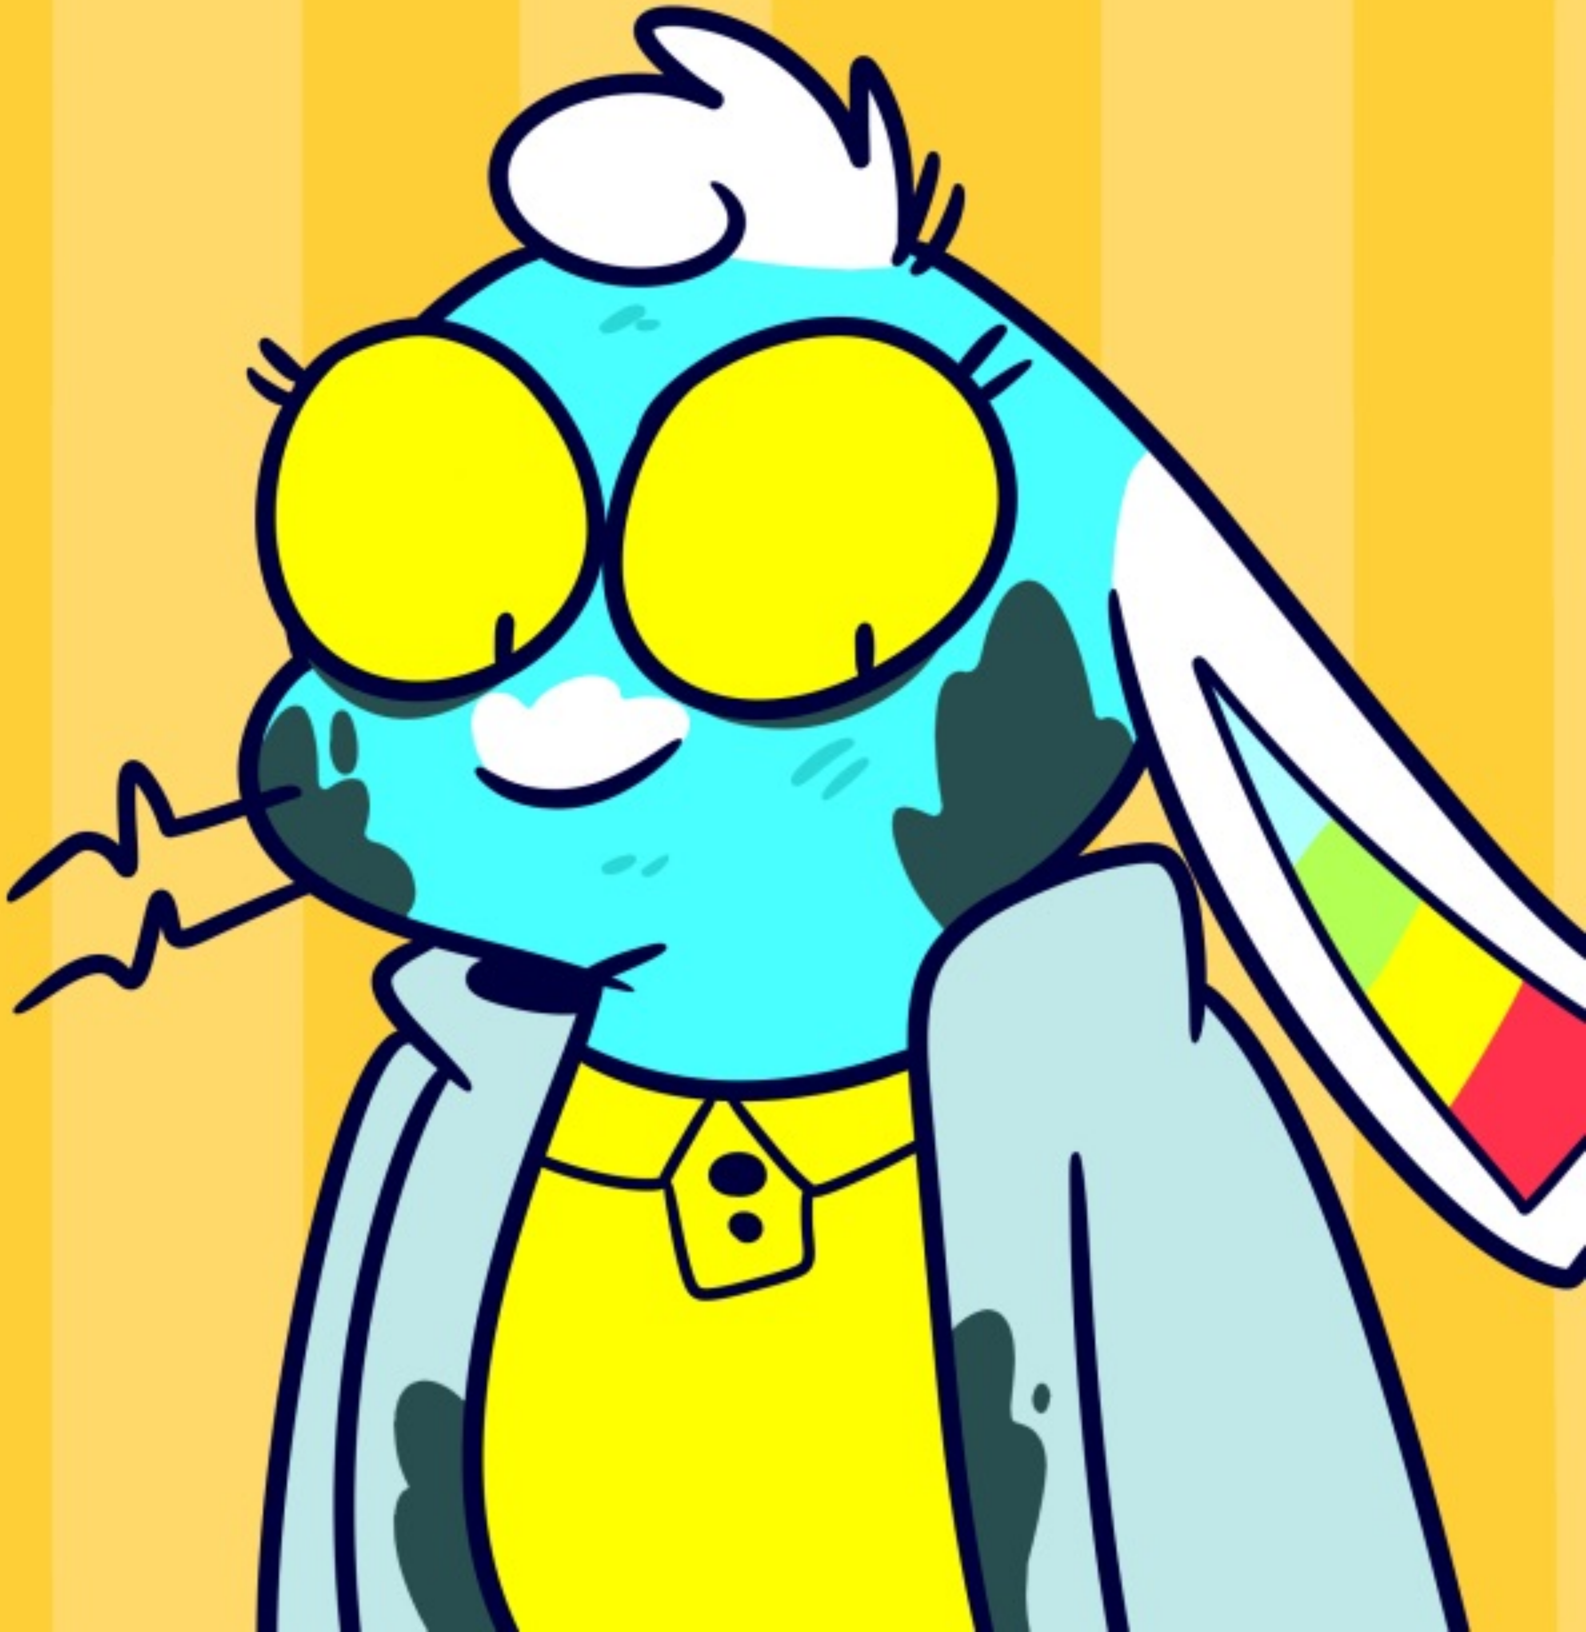


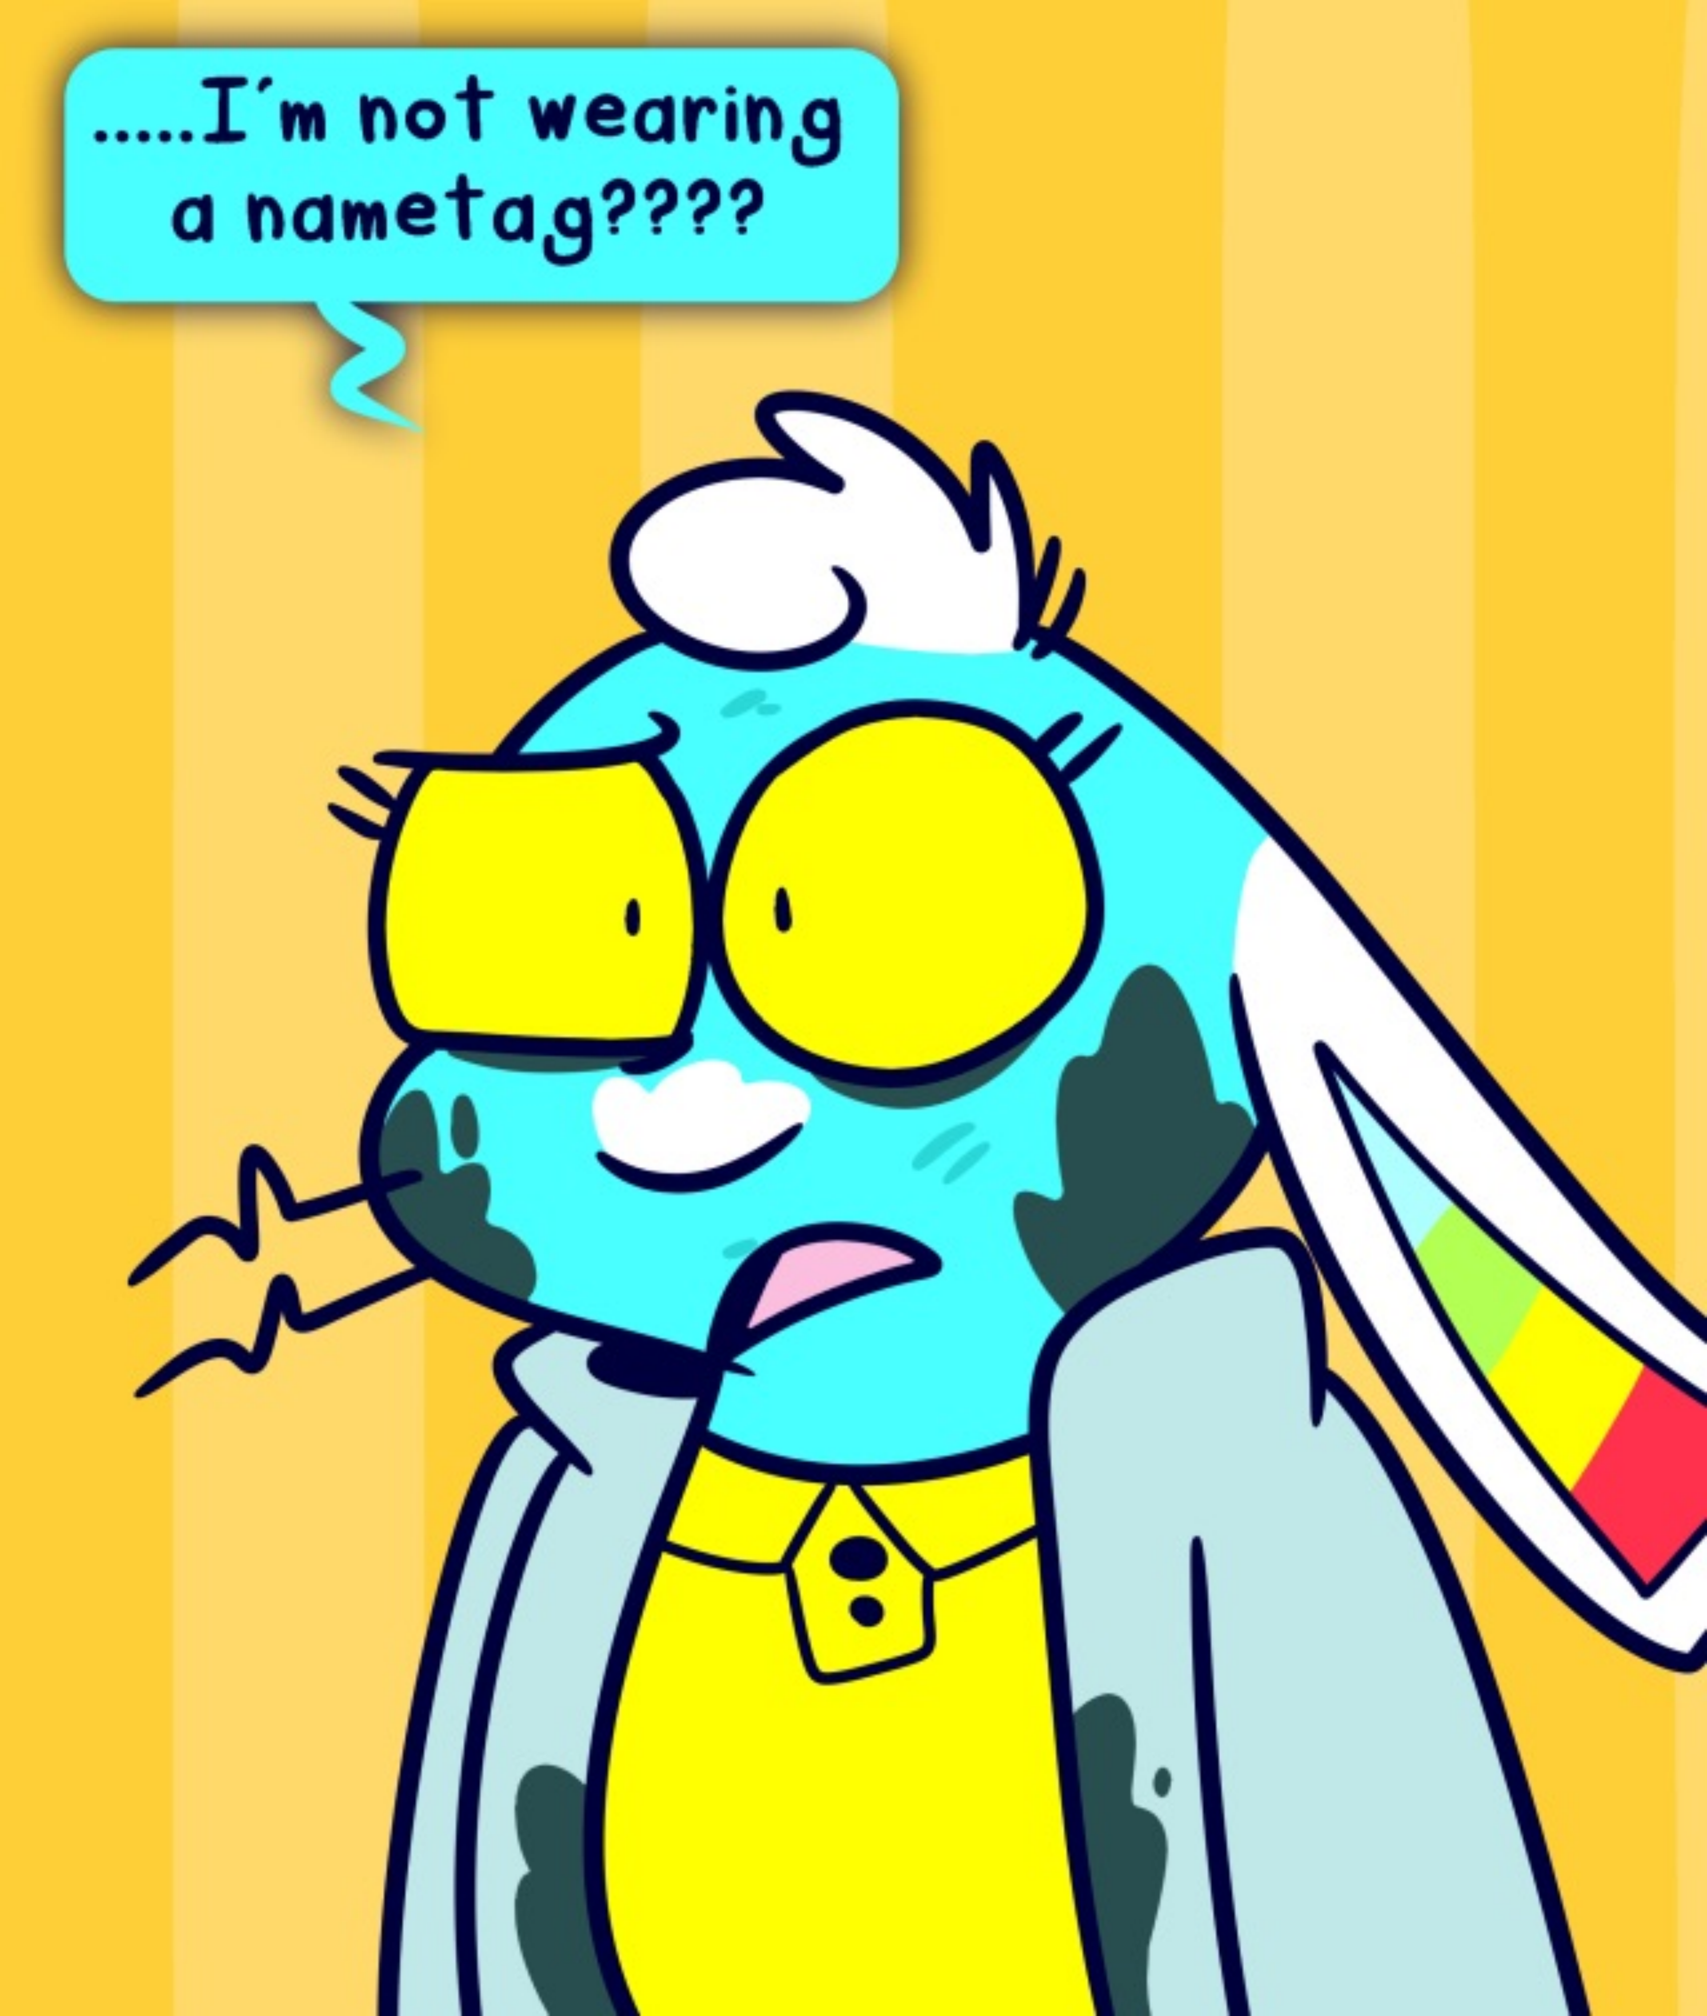
....and my sister Avalon, or Ava--
--who we will be seeing shortly, as she owns the library.



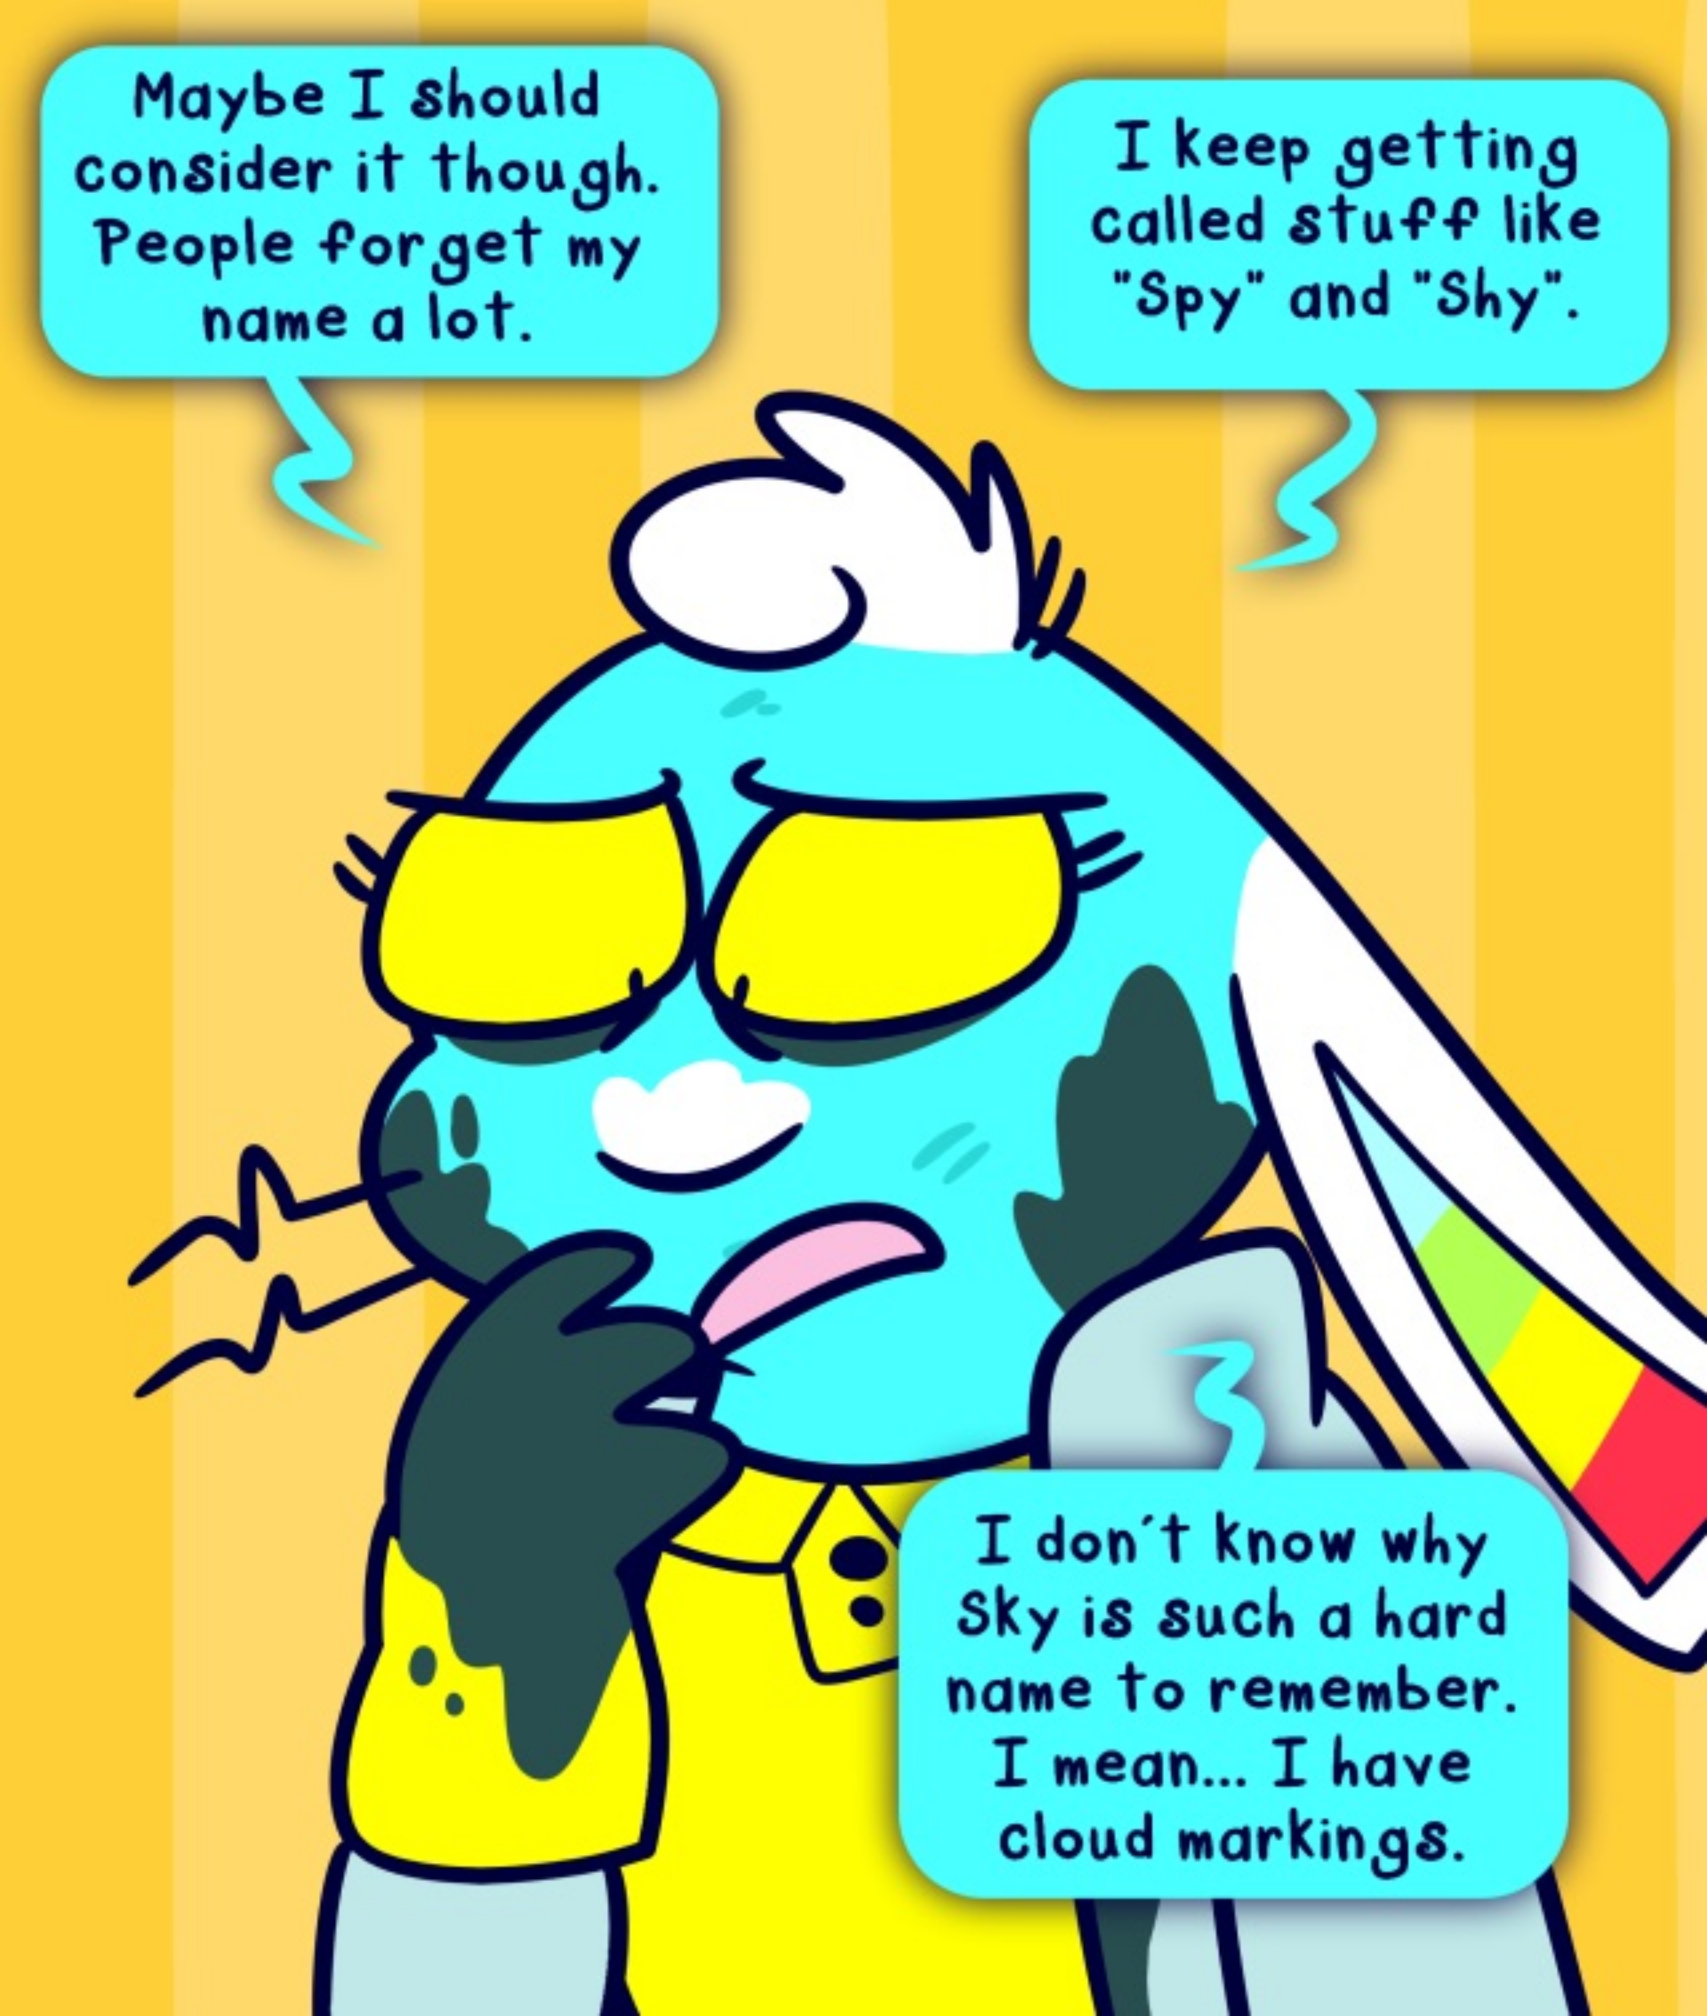
jayflamestar asked:

whys your nametag like that sky...

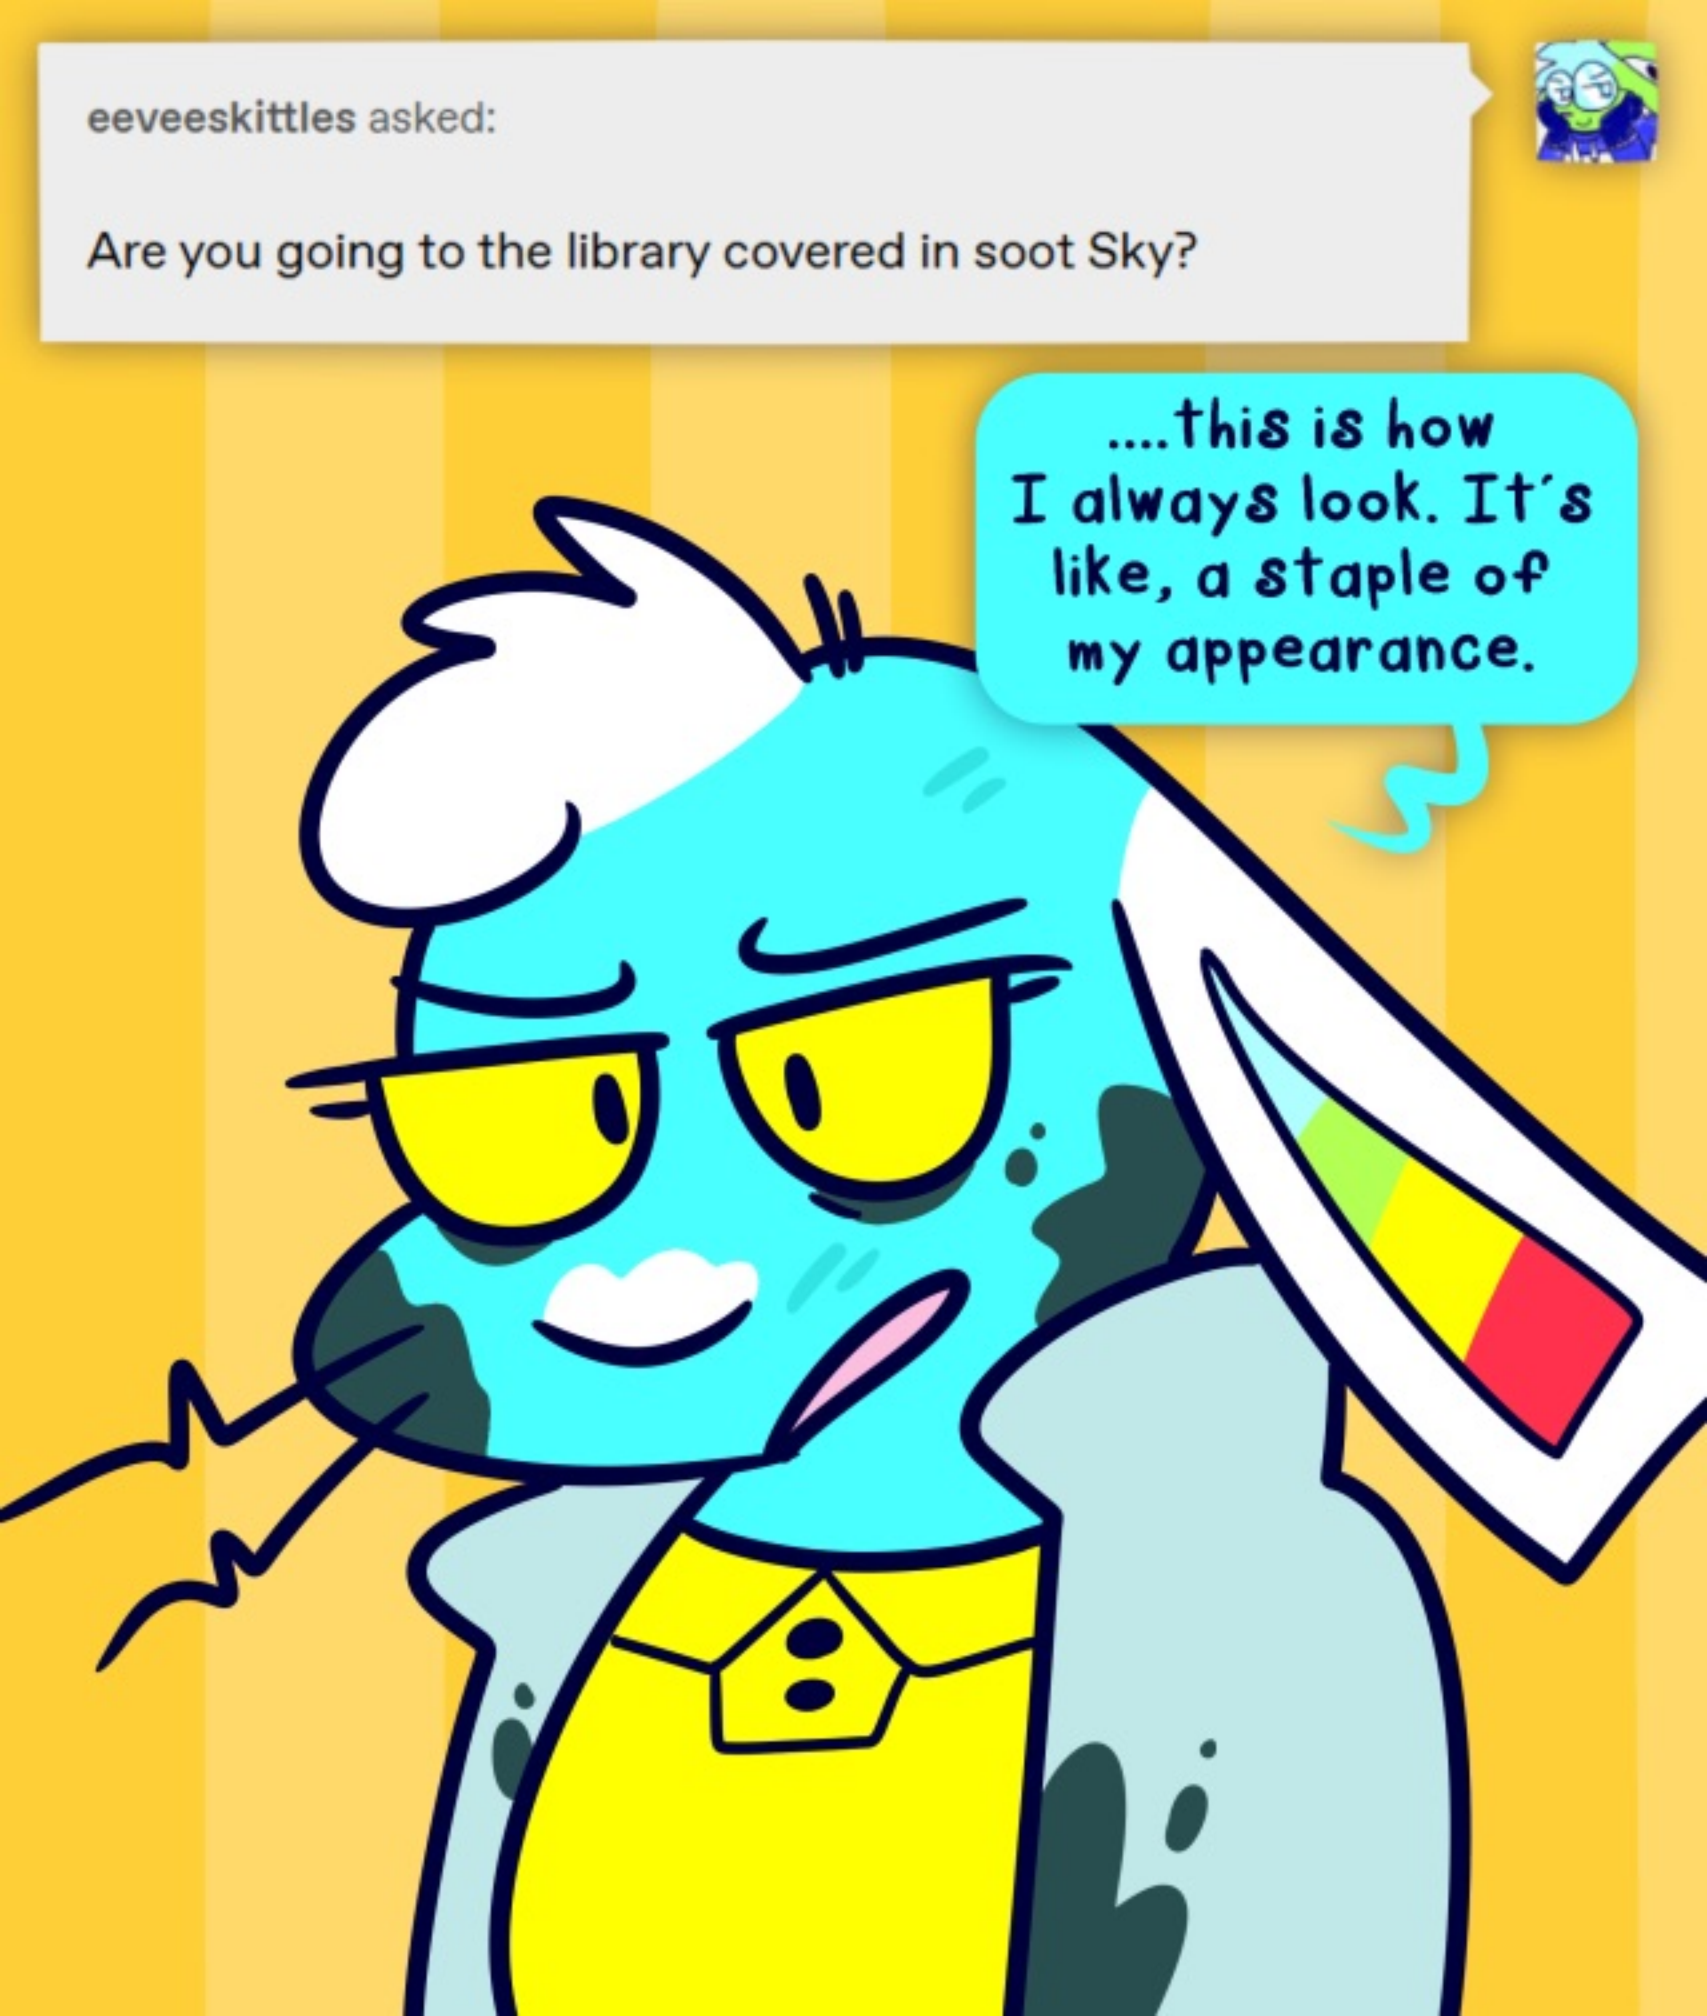




.....I´m not wearing a nametag????



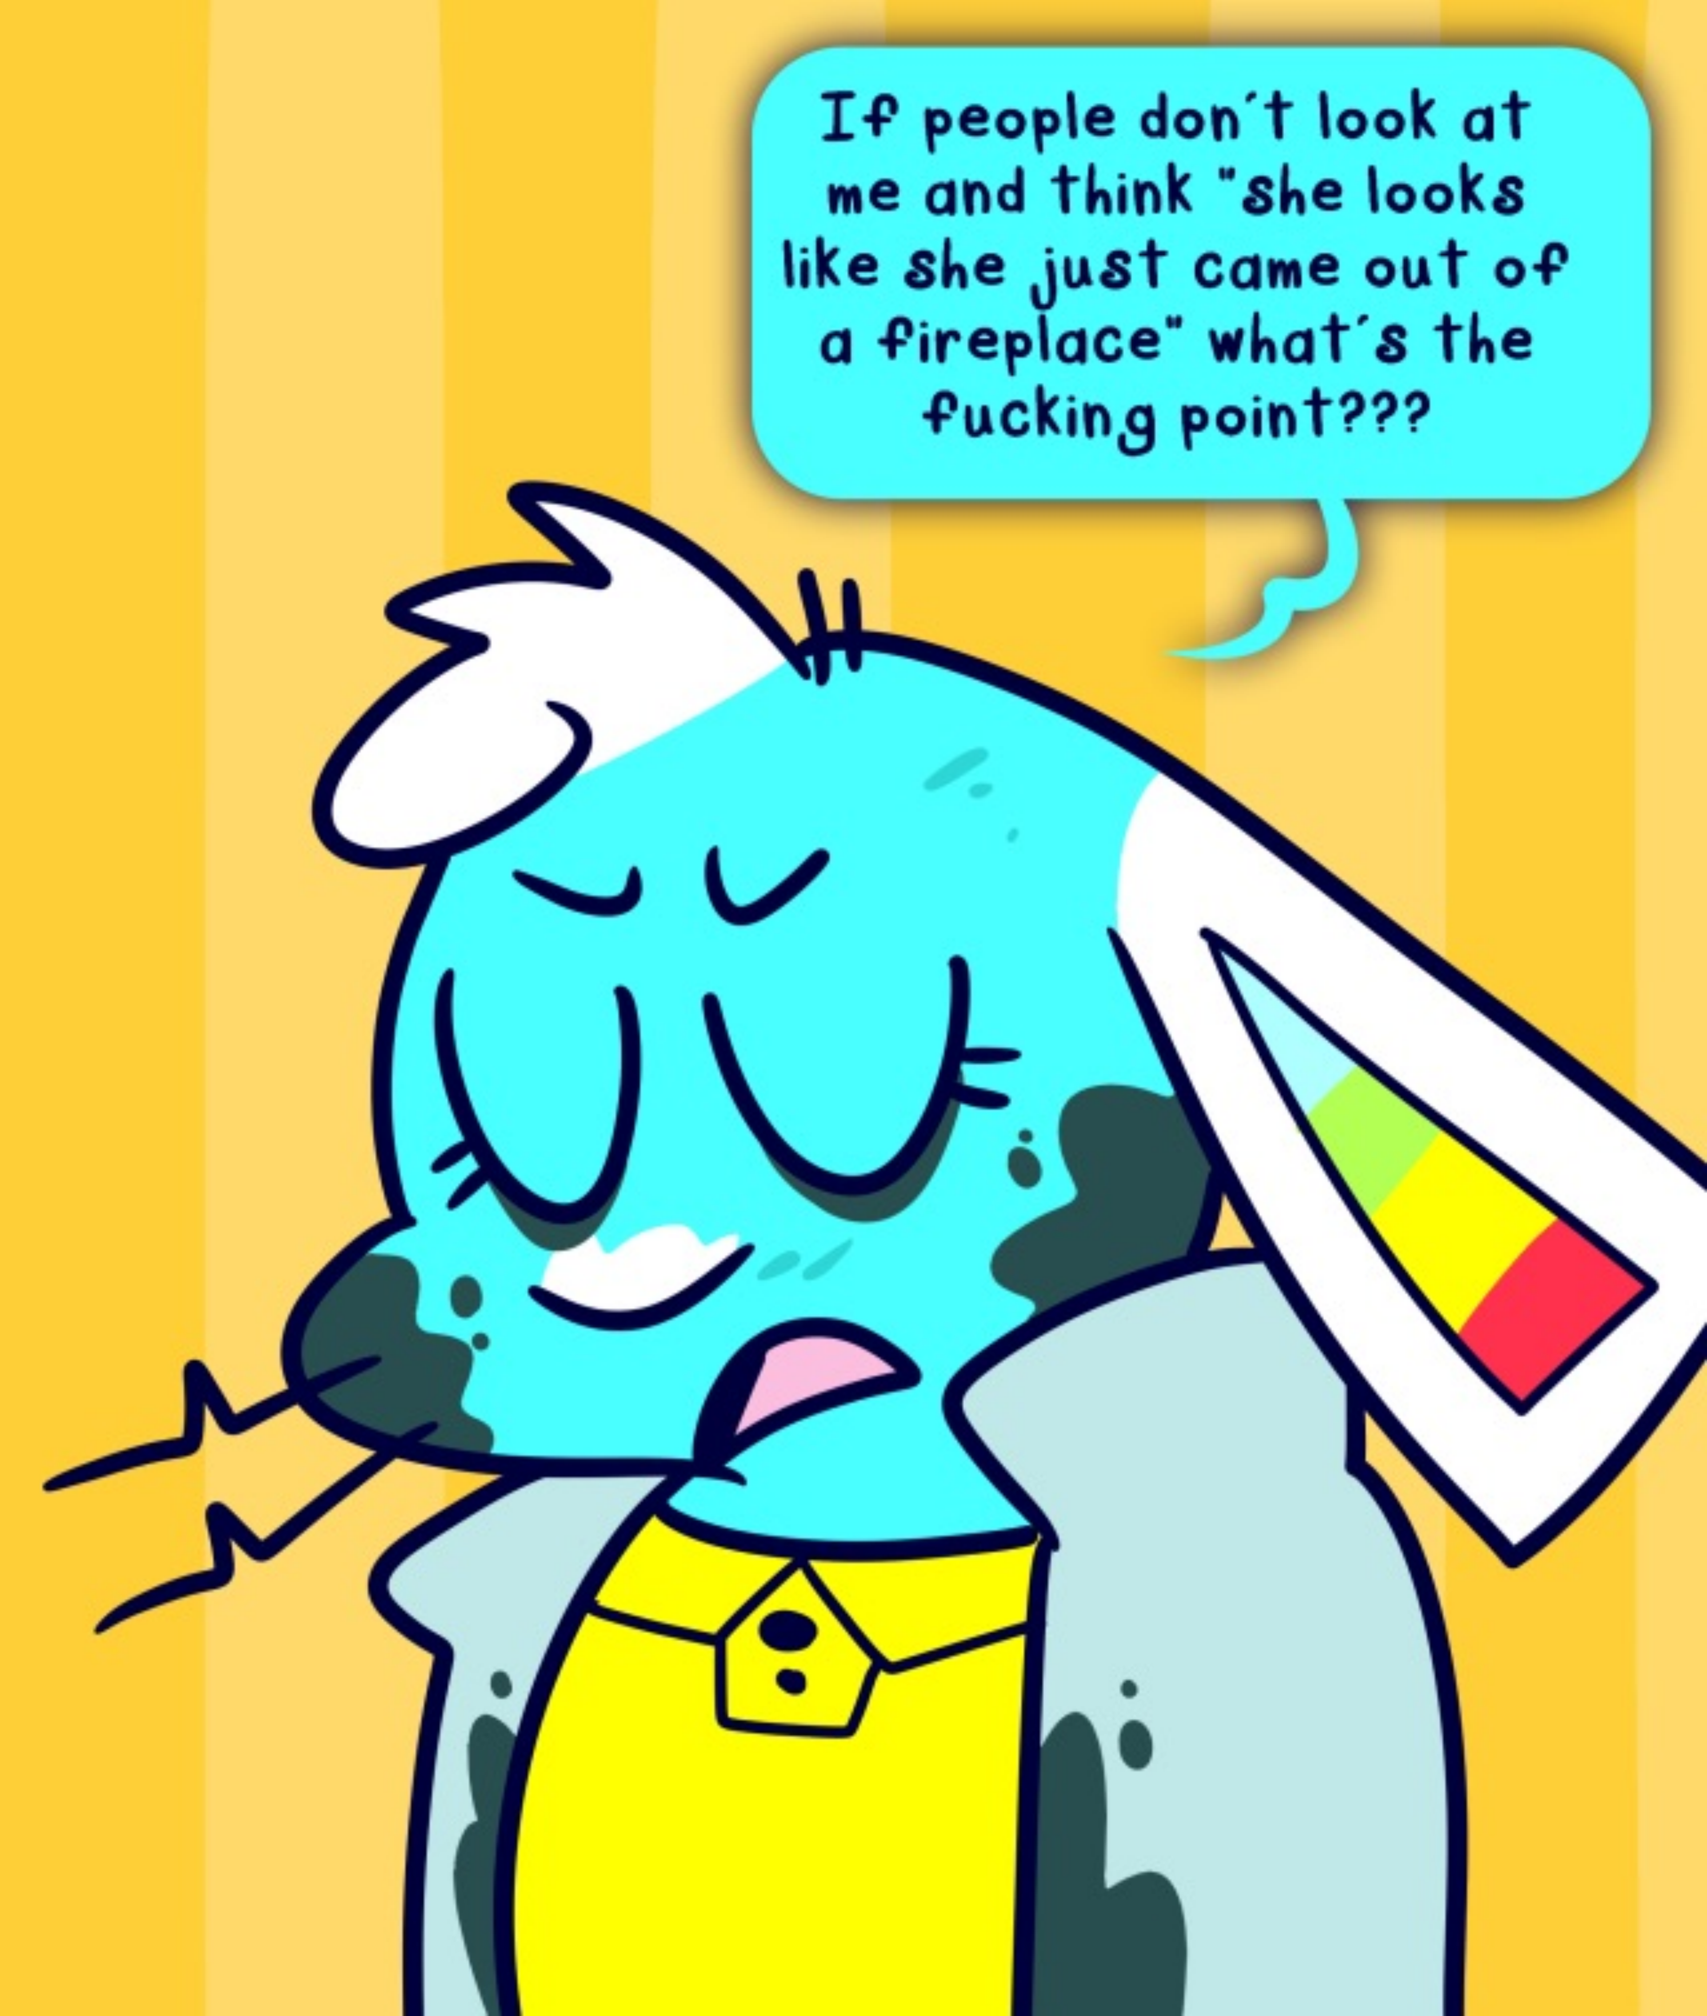
Maybe I should consider it though. People forget my name a lot.
I keep getting called stuff like "Spy" and "Shy".
I don't know why Sky is such a hard name to remember. I mean... I have cloud markings.



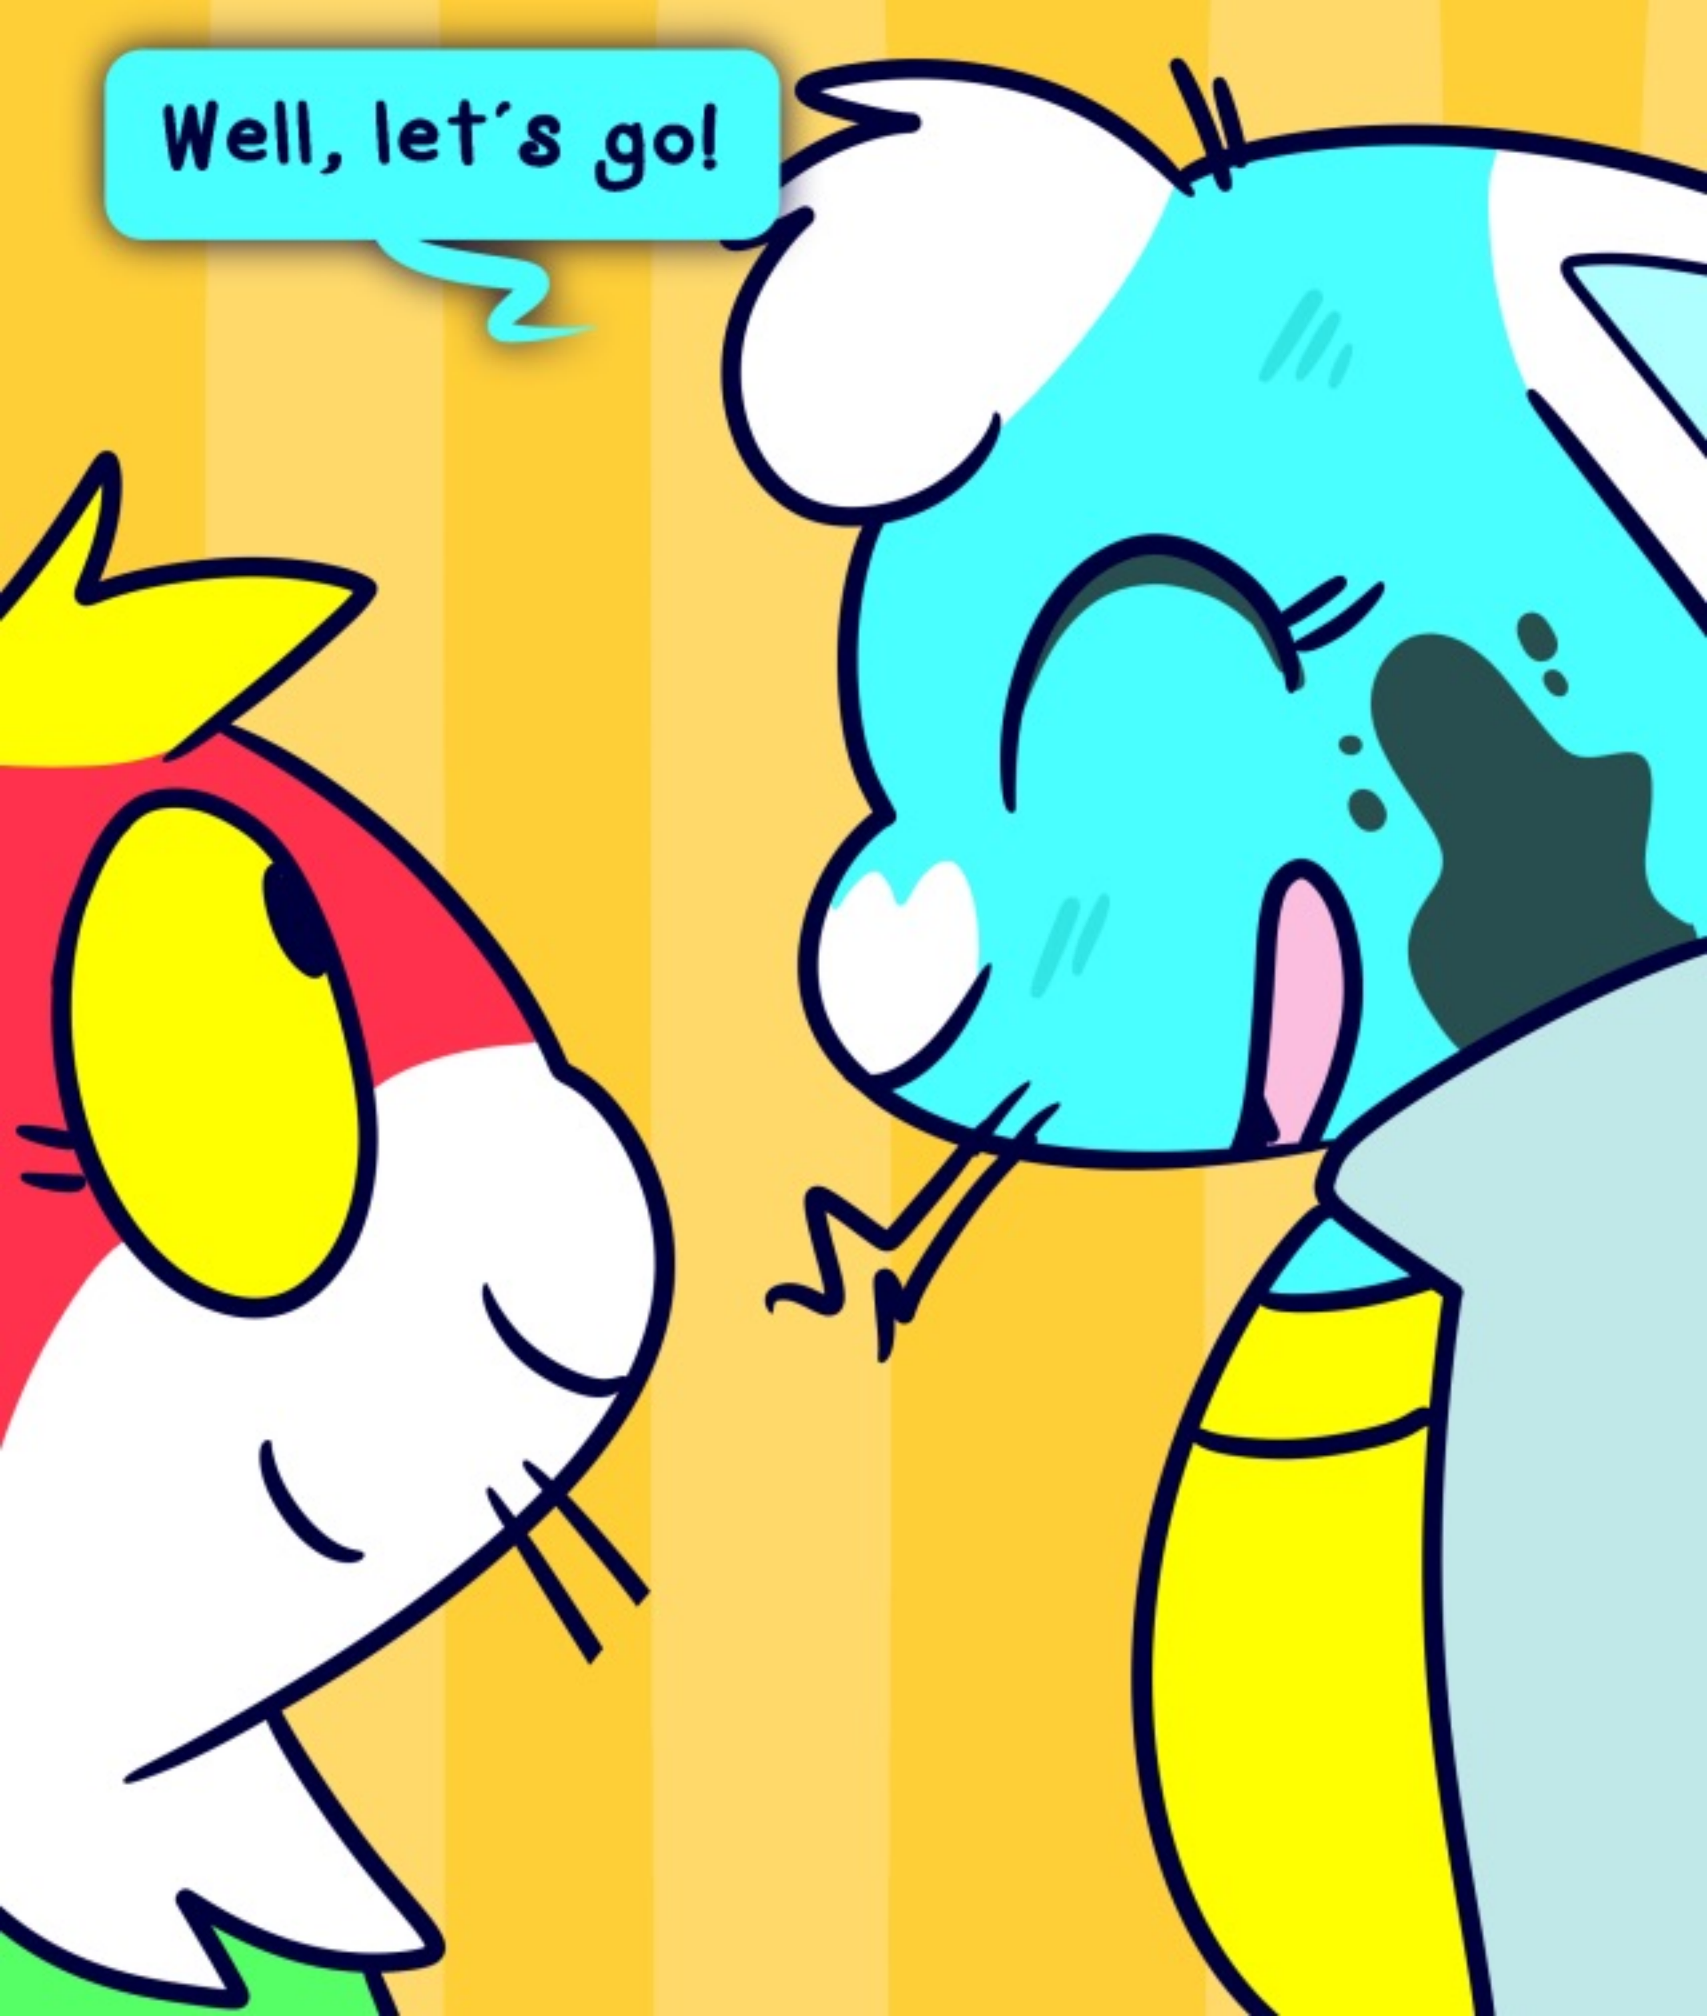
eeveeskittles asked:

Are you going to the library covered in soot Sky?

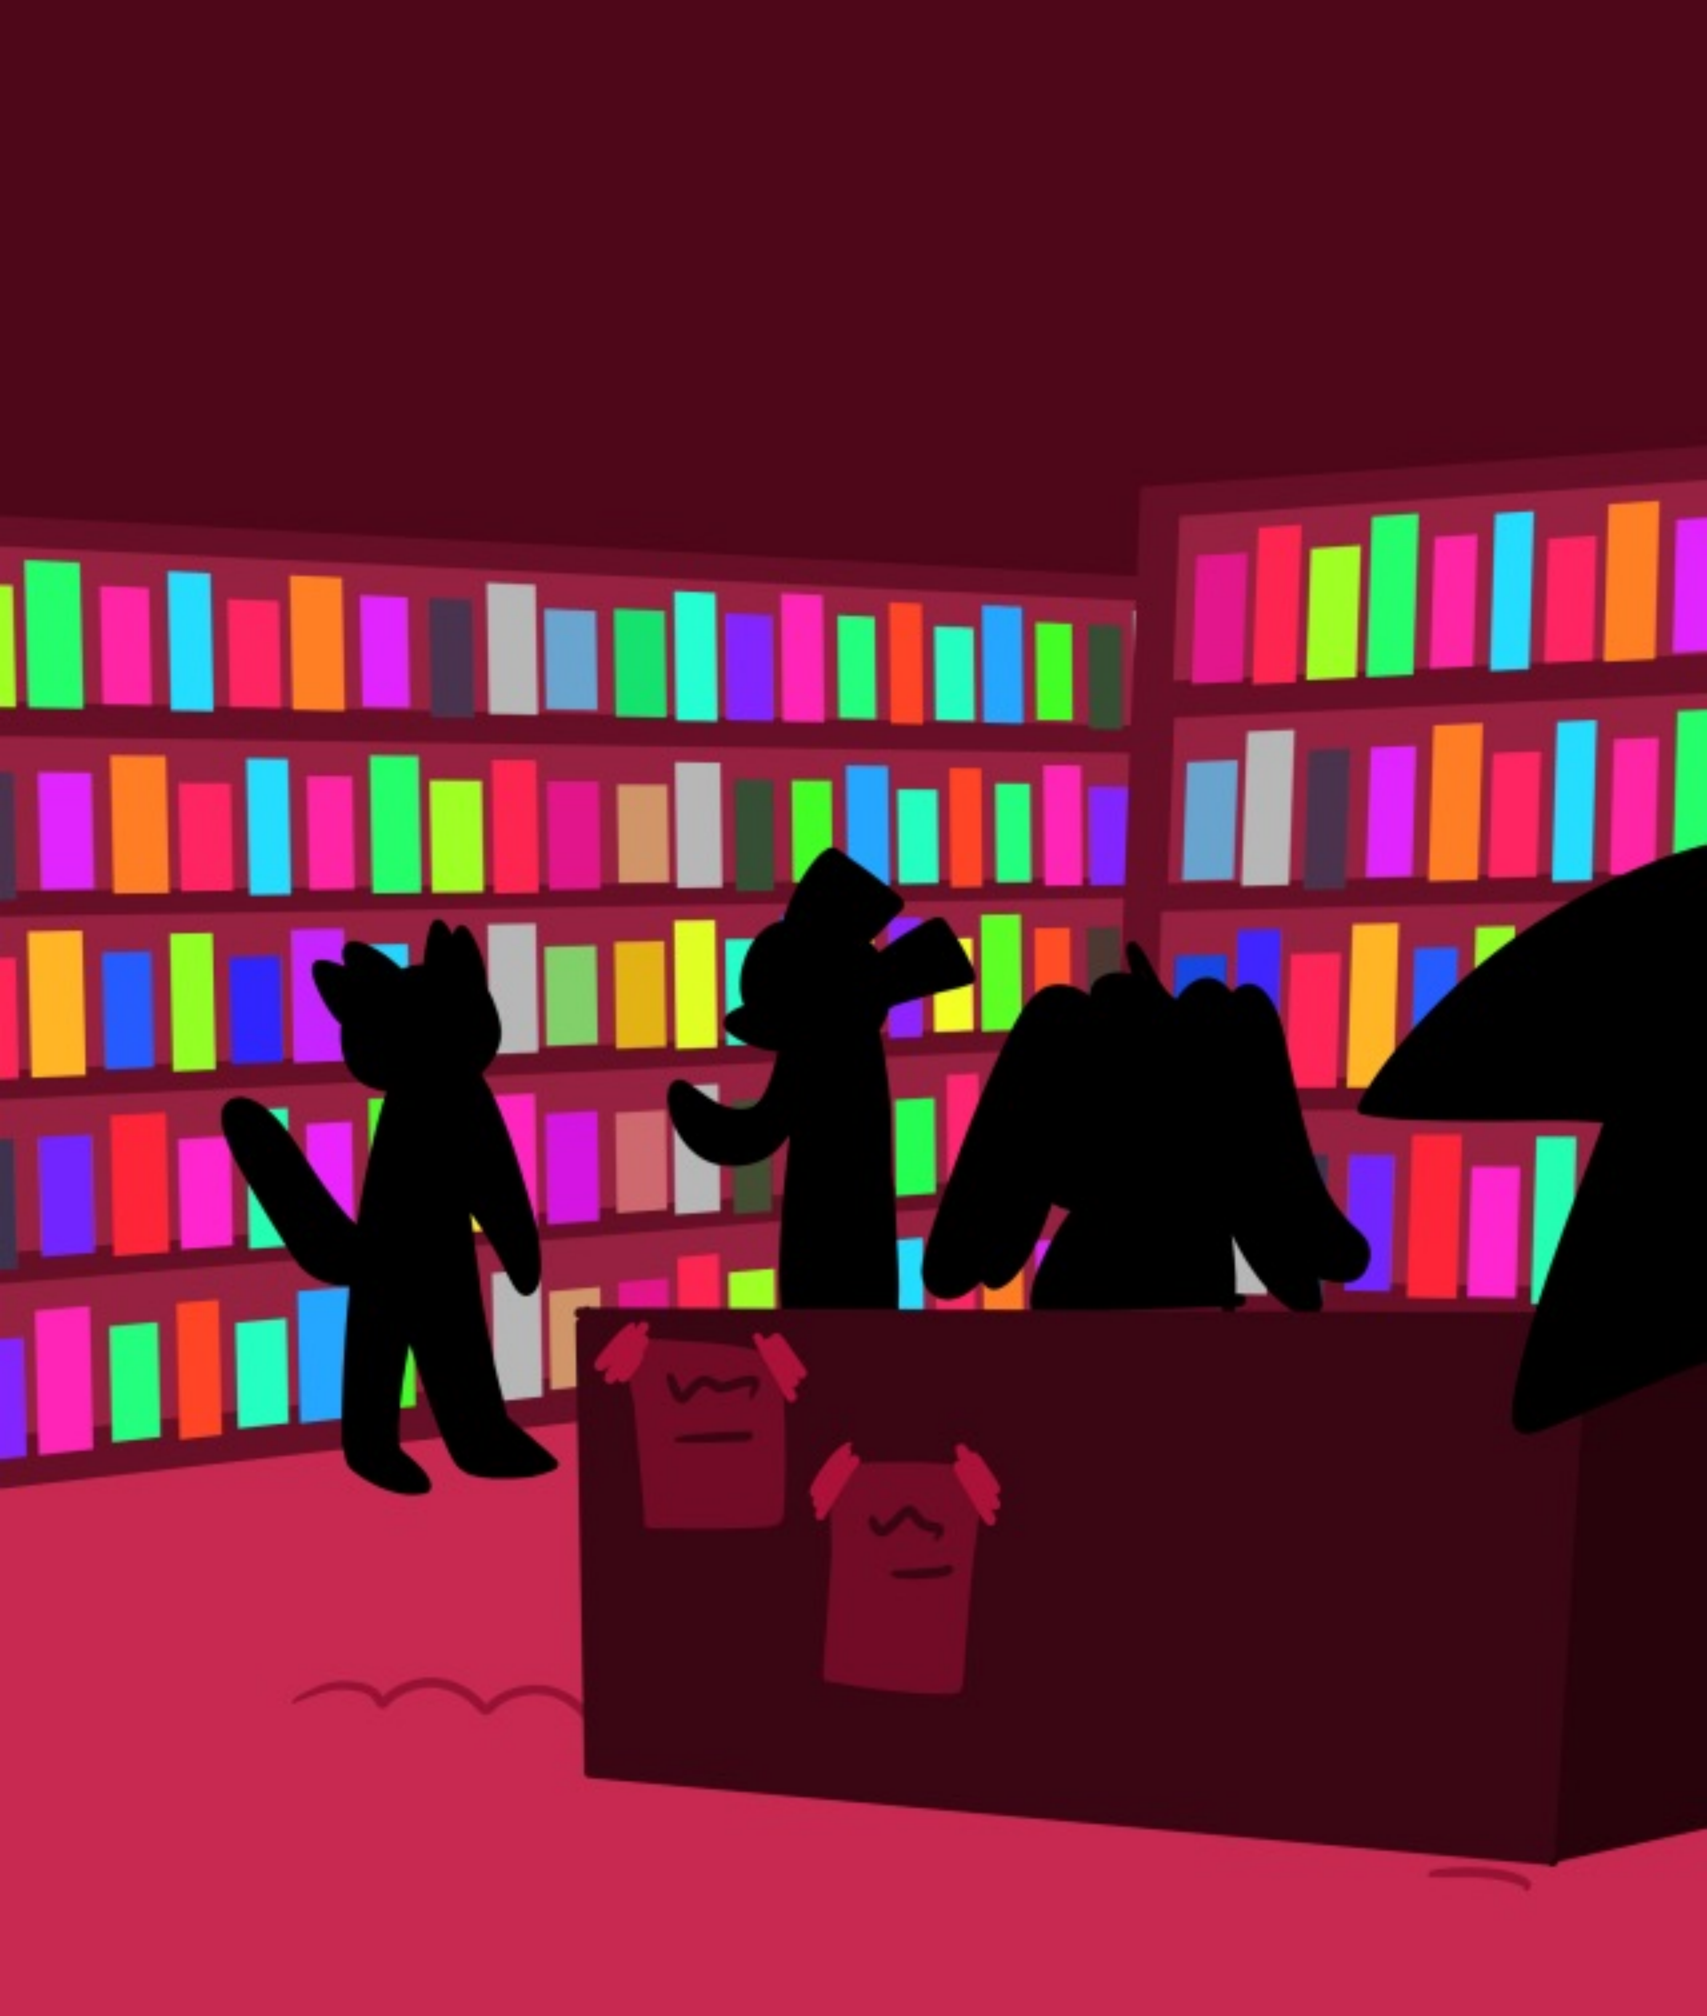
....this is how I always look. It´s like, a staple of my appearance.

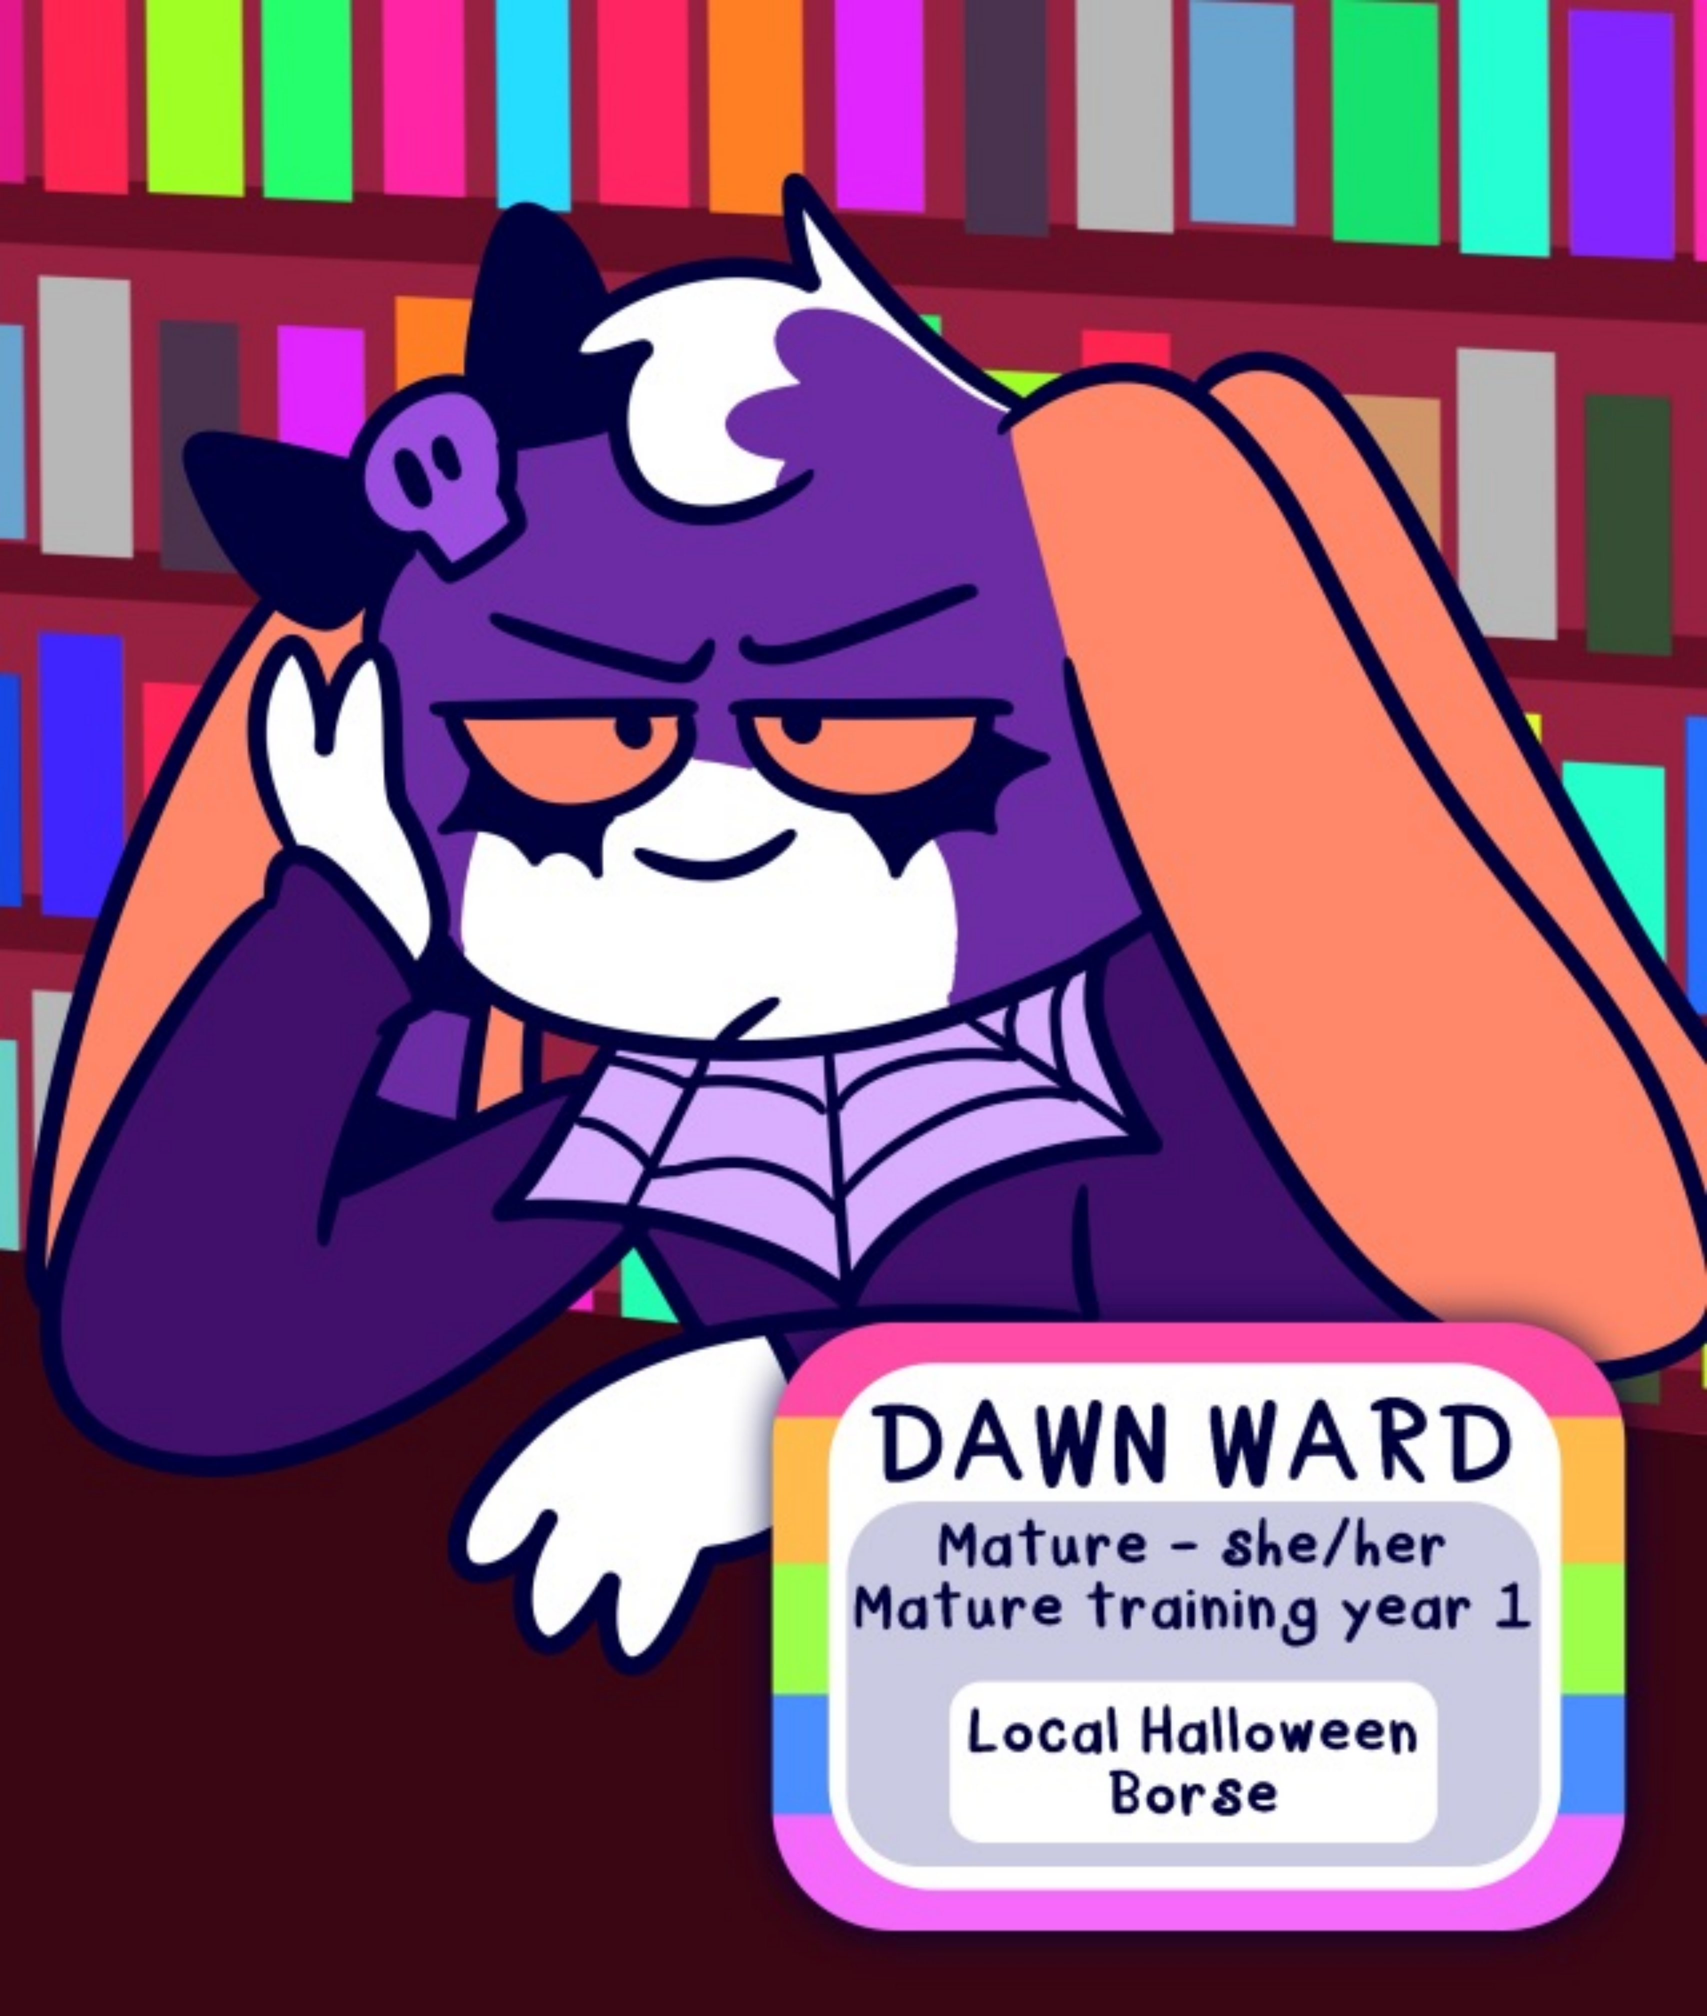


If people don´t look at me and think "she looks like she just came out of a fireplace" what´s the fucking point???



Well, let´s go!





DAWN WARD

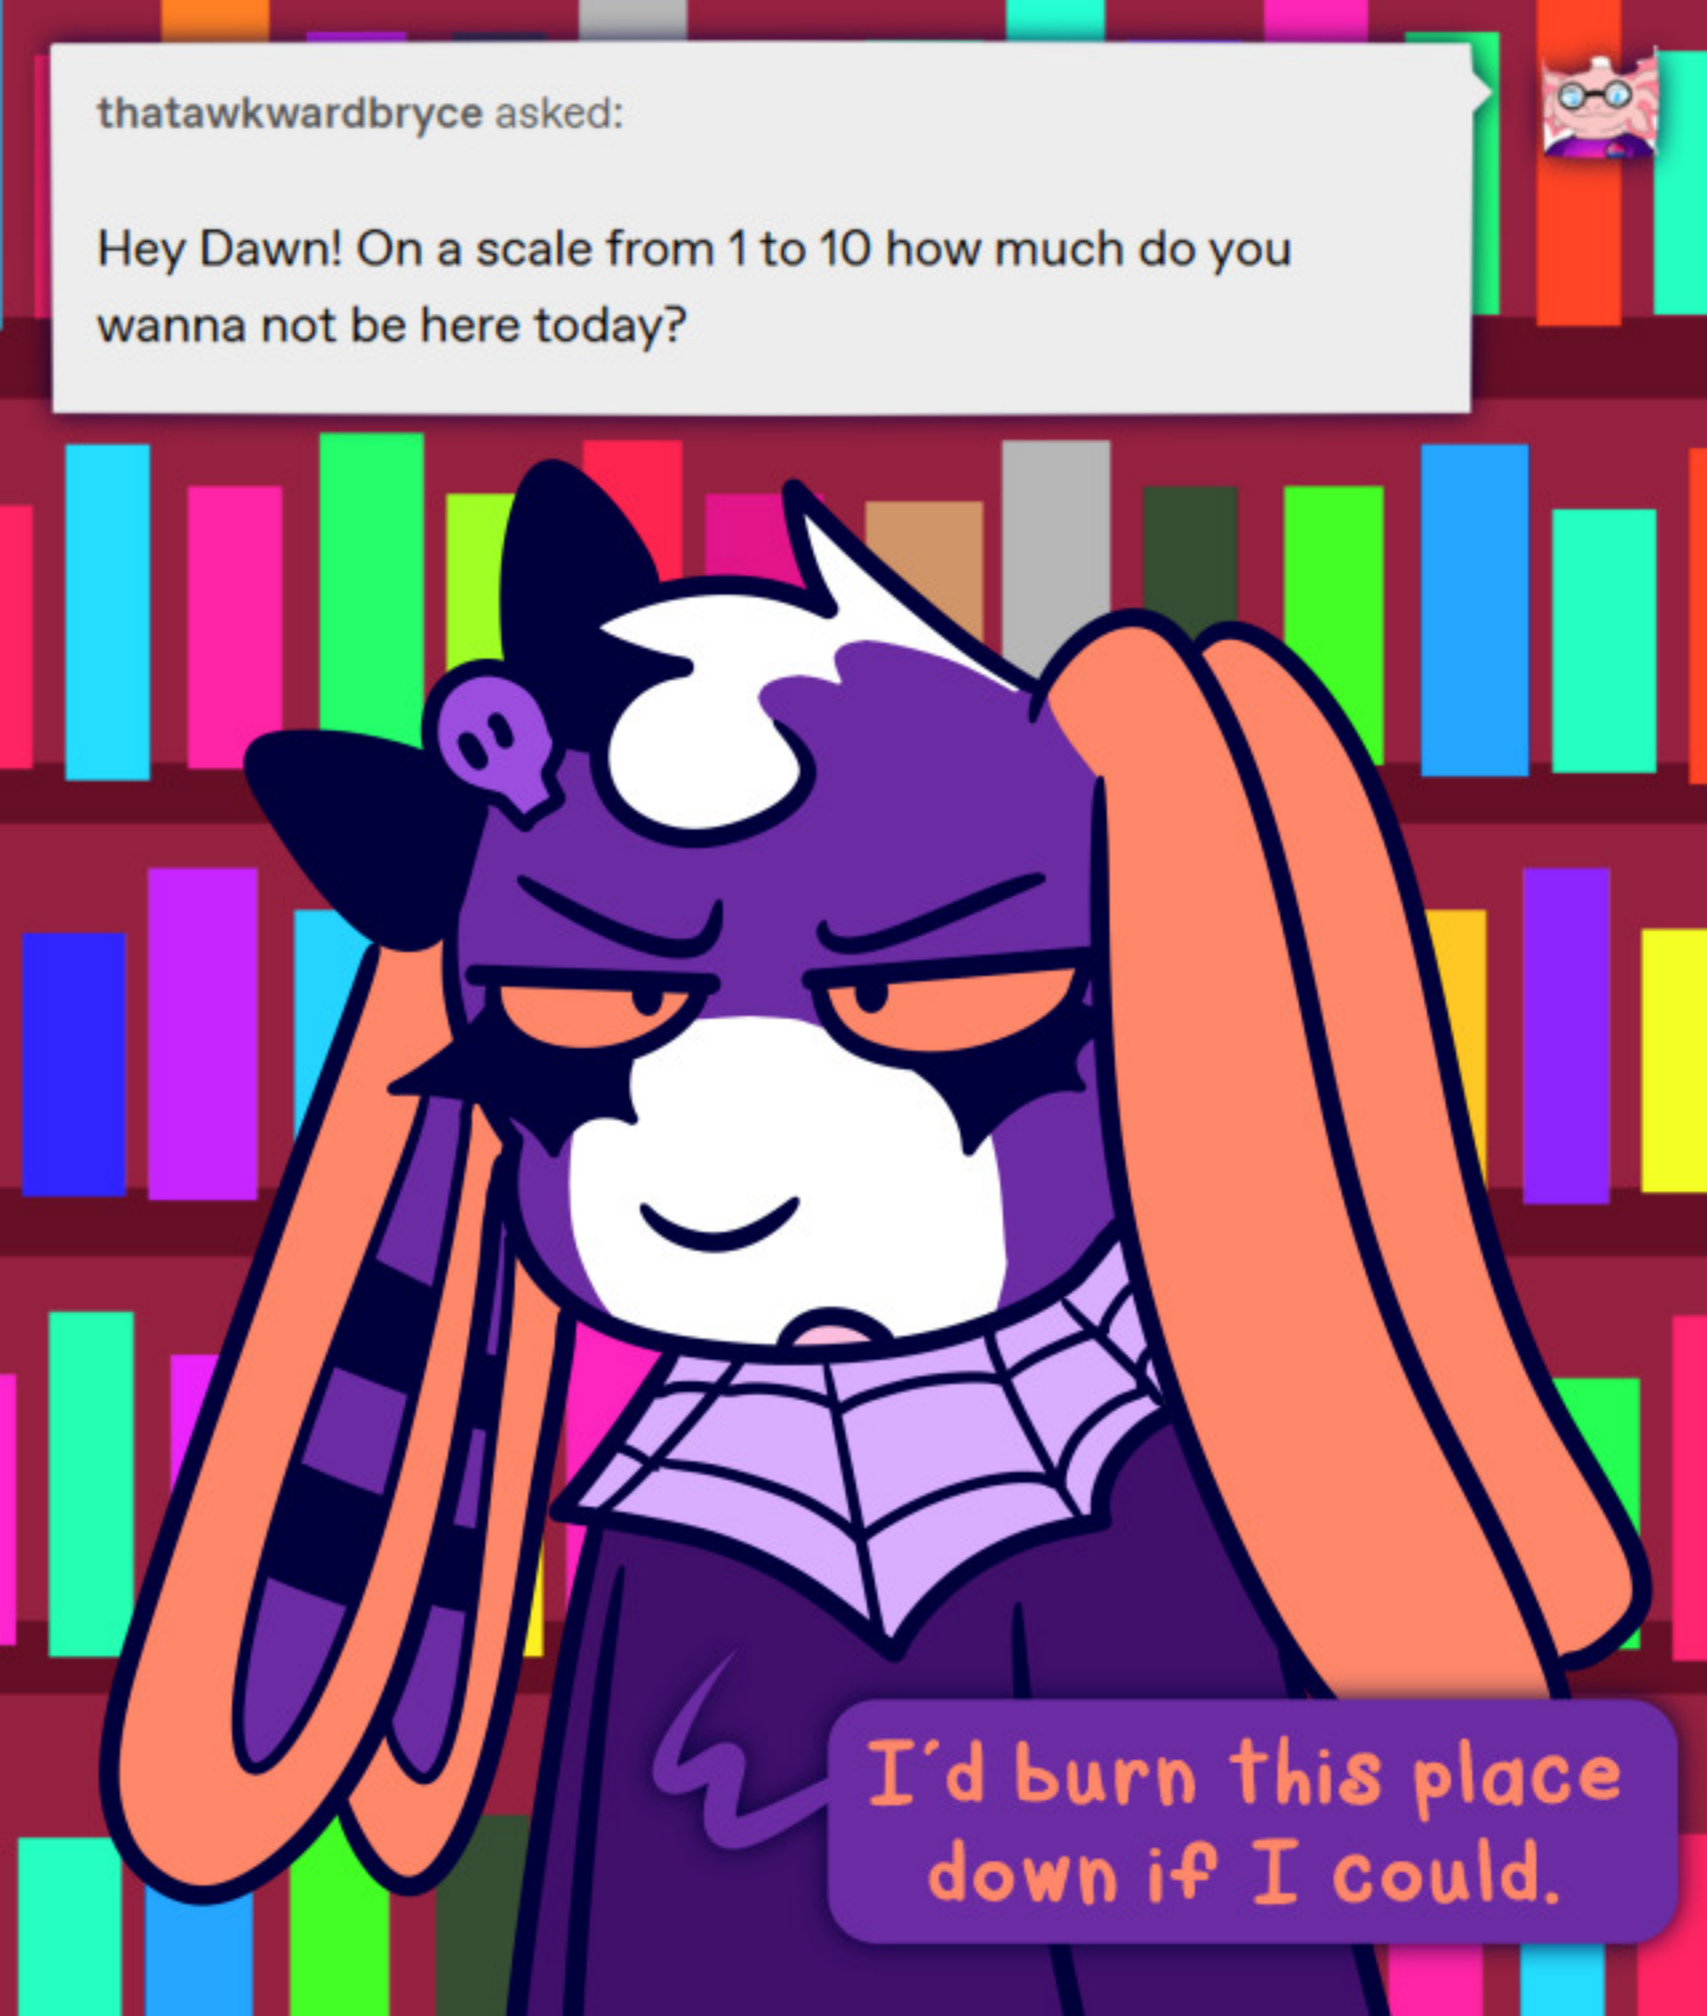
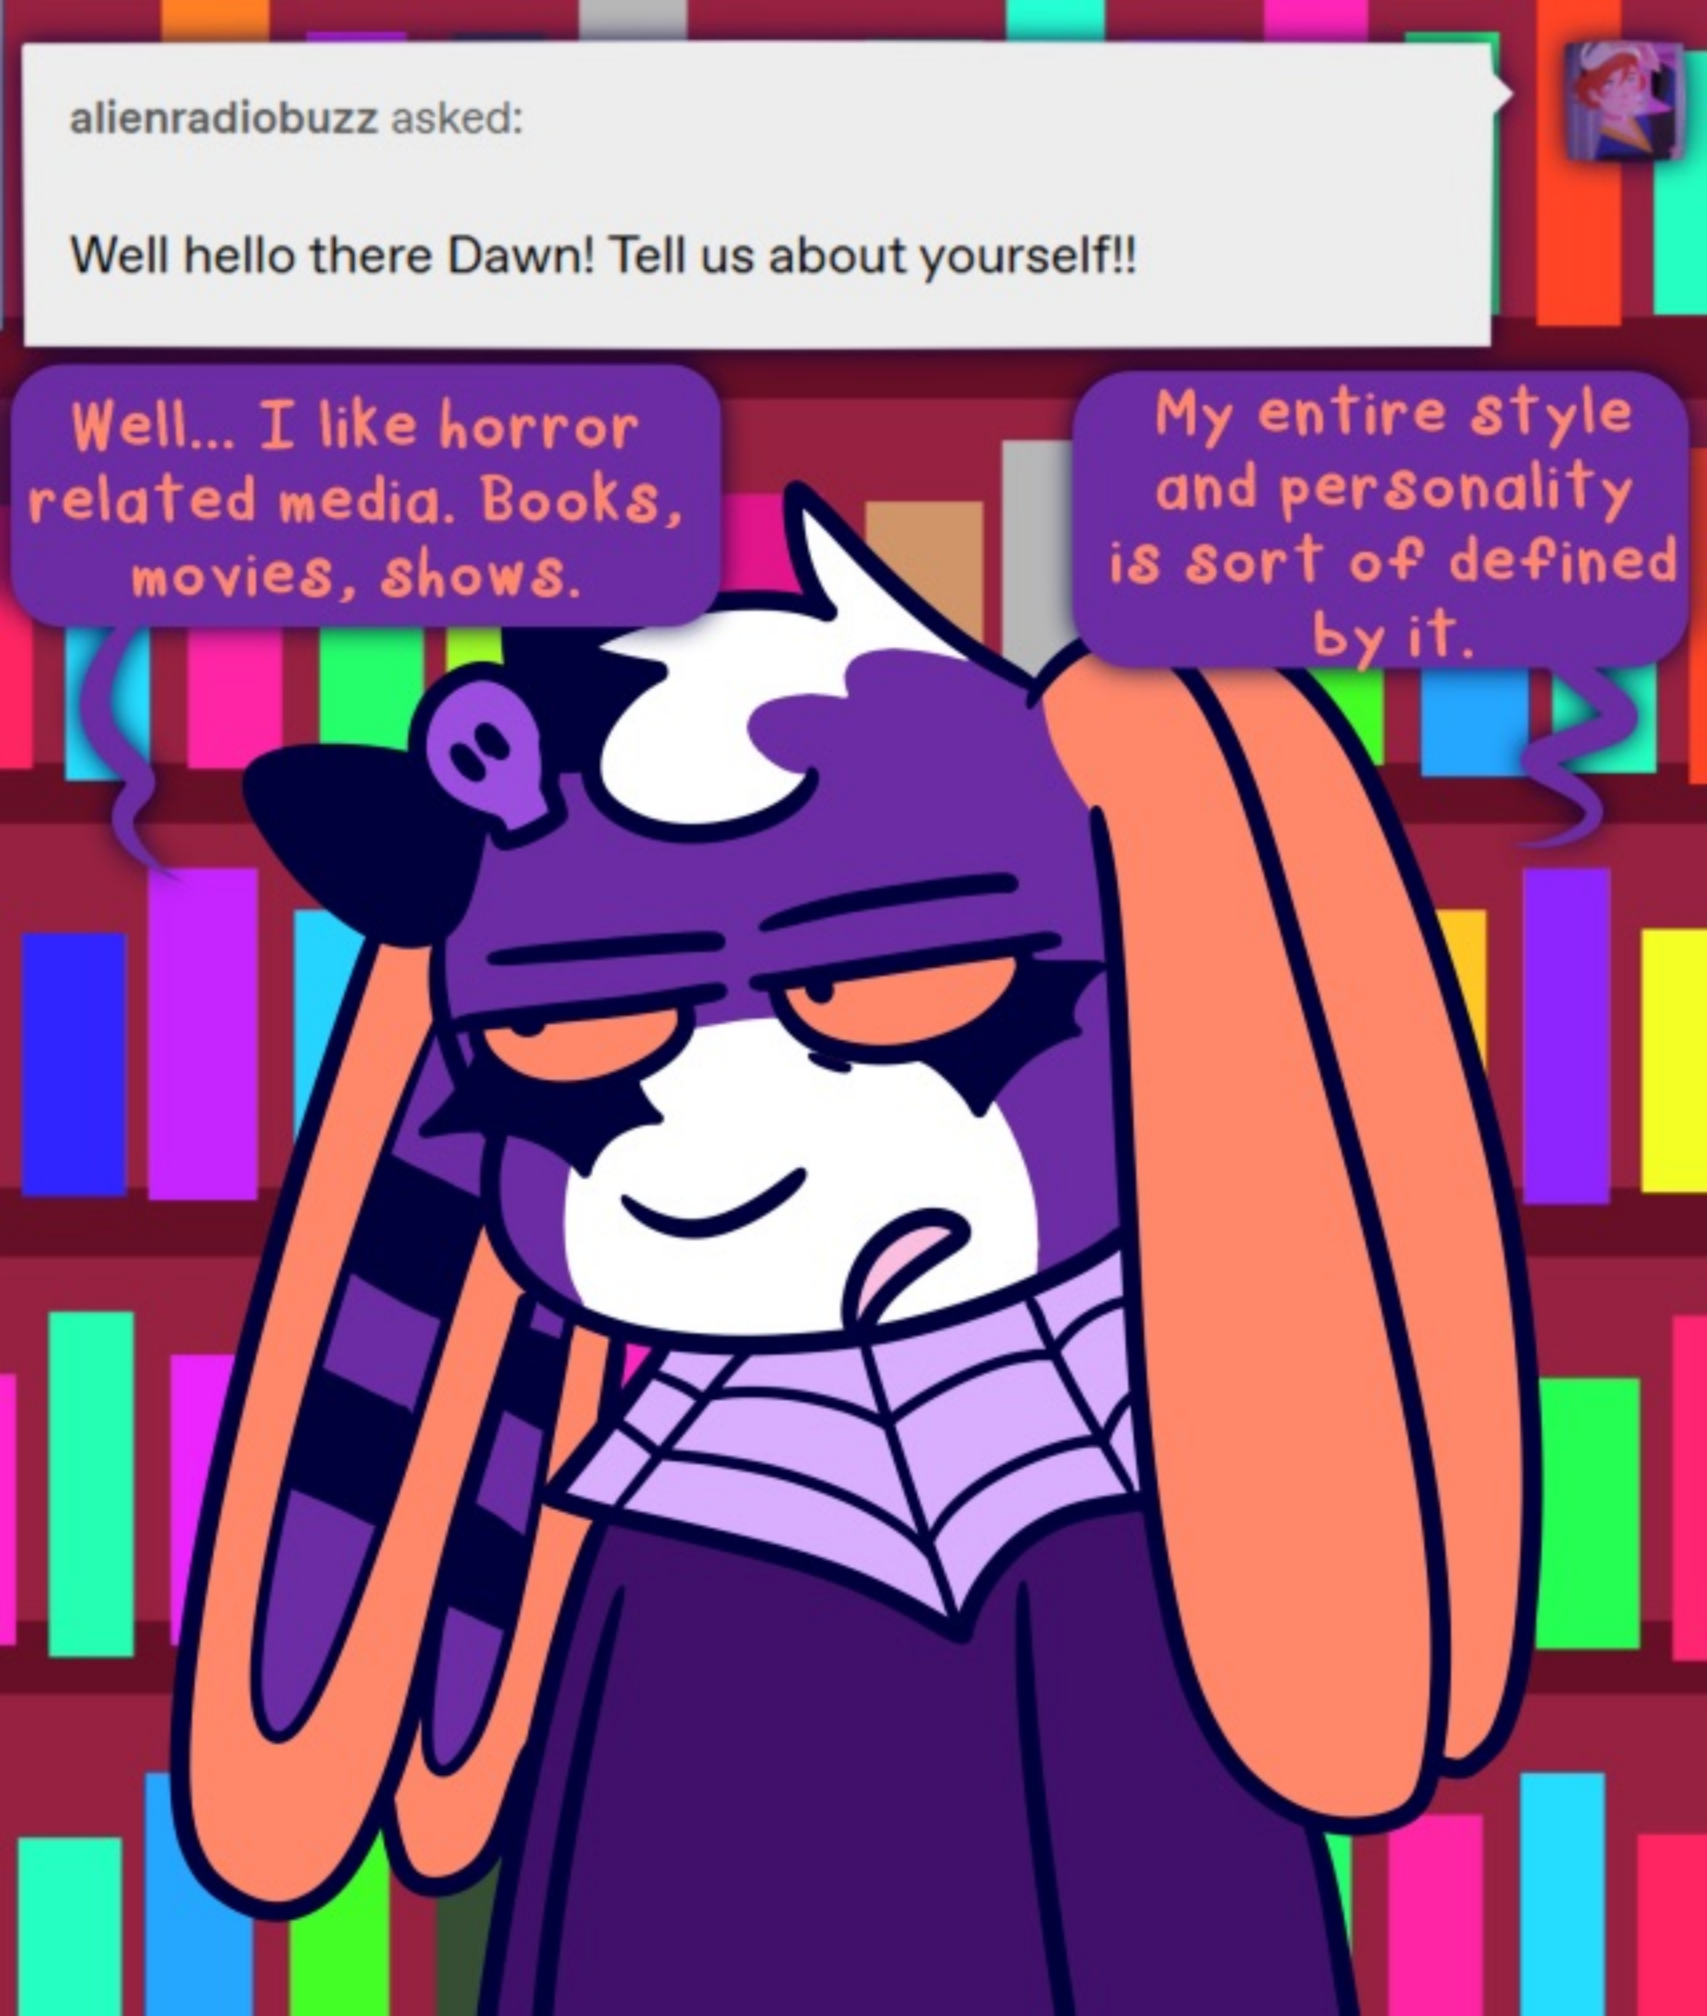
Hello Dawn!
...oh... hi.



thatawkwardbryce asked:

Hey Dawn! On a scale from 1 to 10 how much do you wanna not be here today?

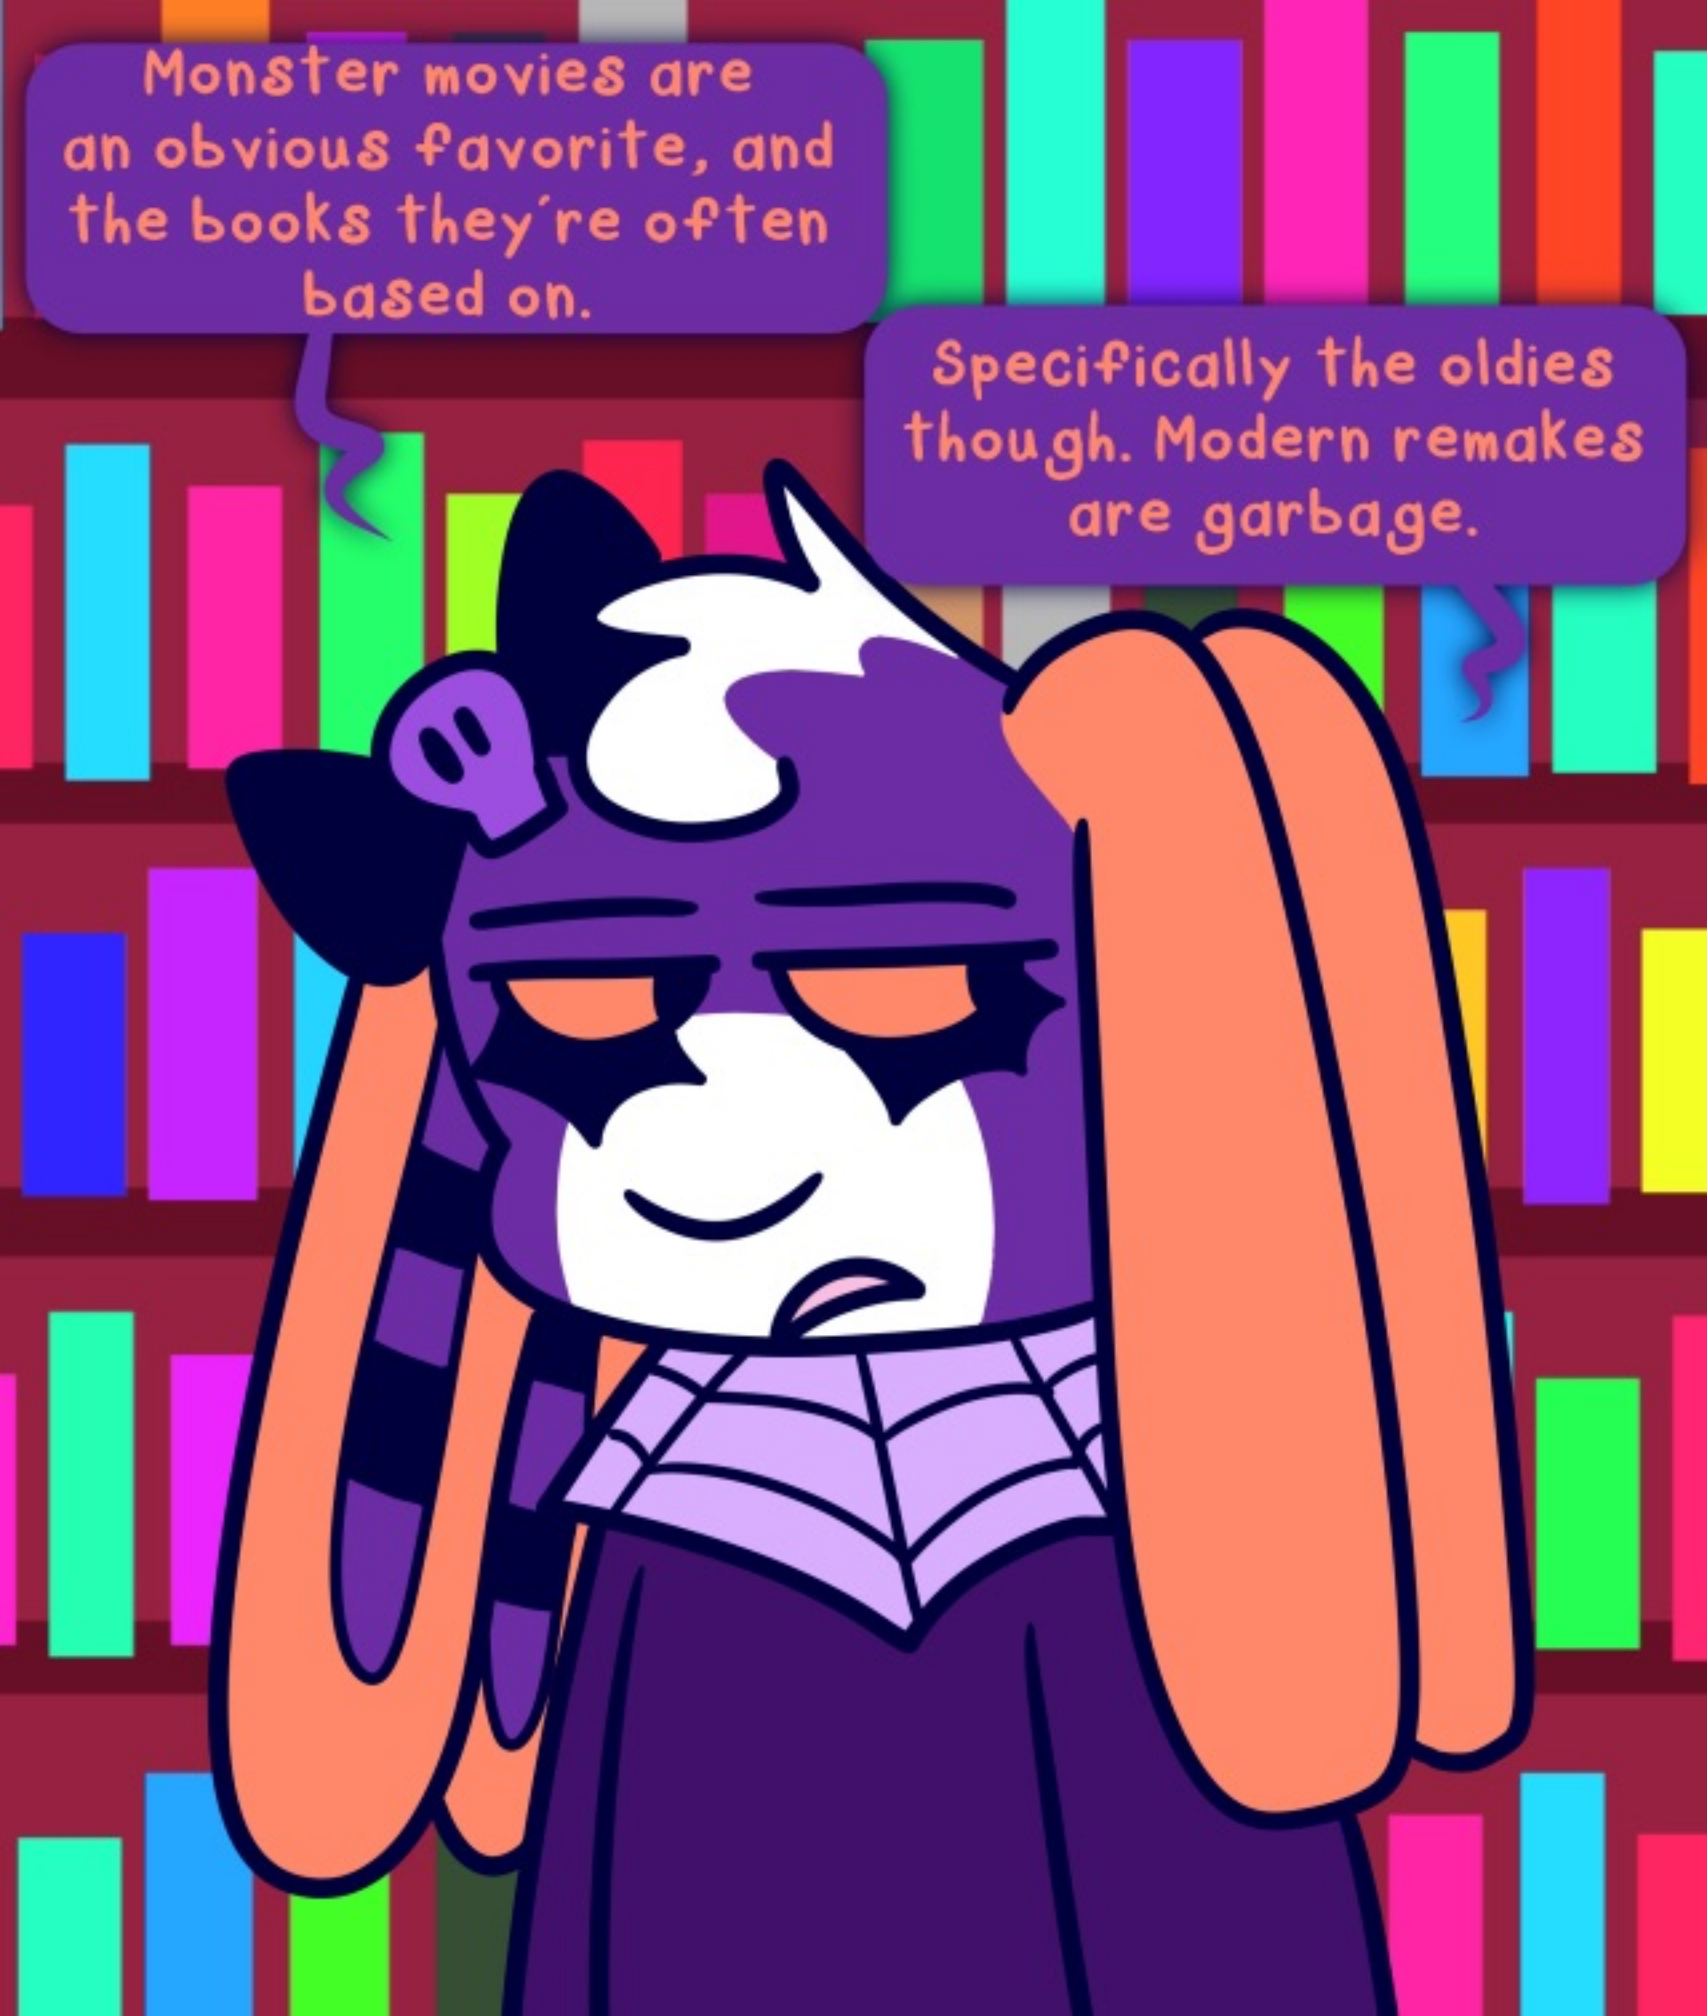
I'd burn this place down if I could.



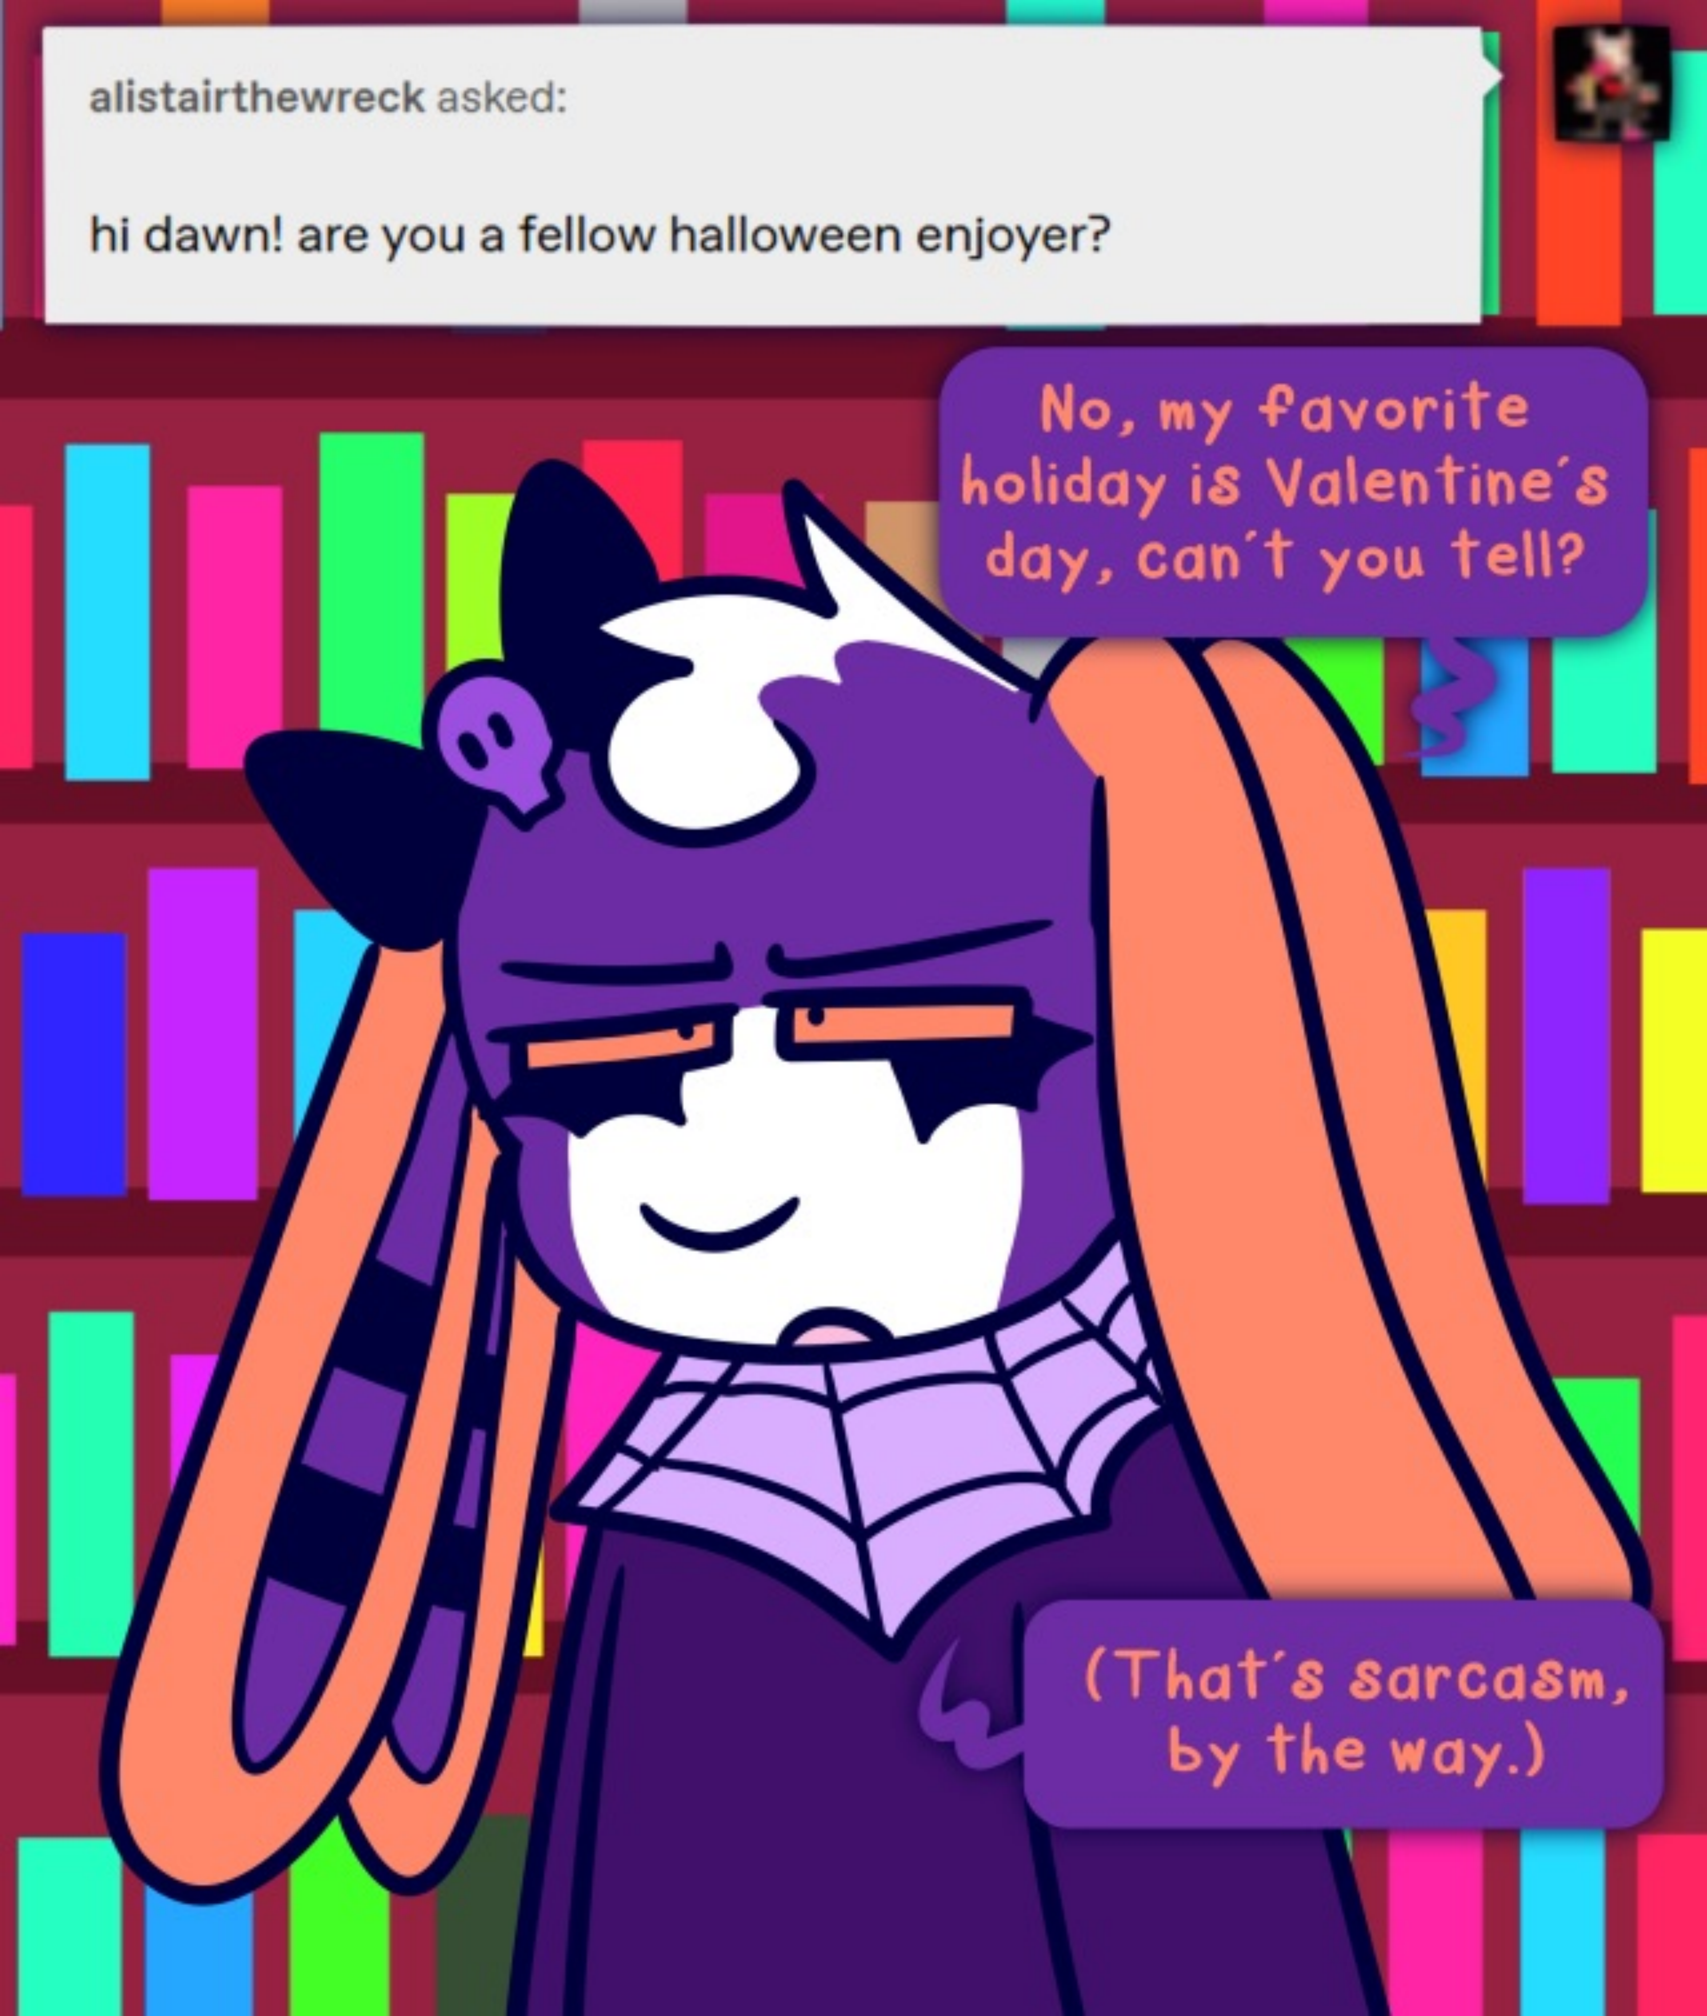
alienradiobuzz asked:

Well hello there Dawn! Tell us about yourself!!

Well... I like horror related media. Books, movies, shows.
My entire style and personality is sort of defined by it.



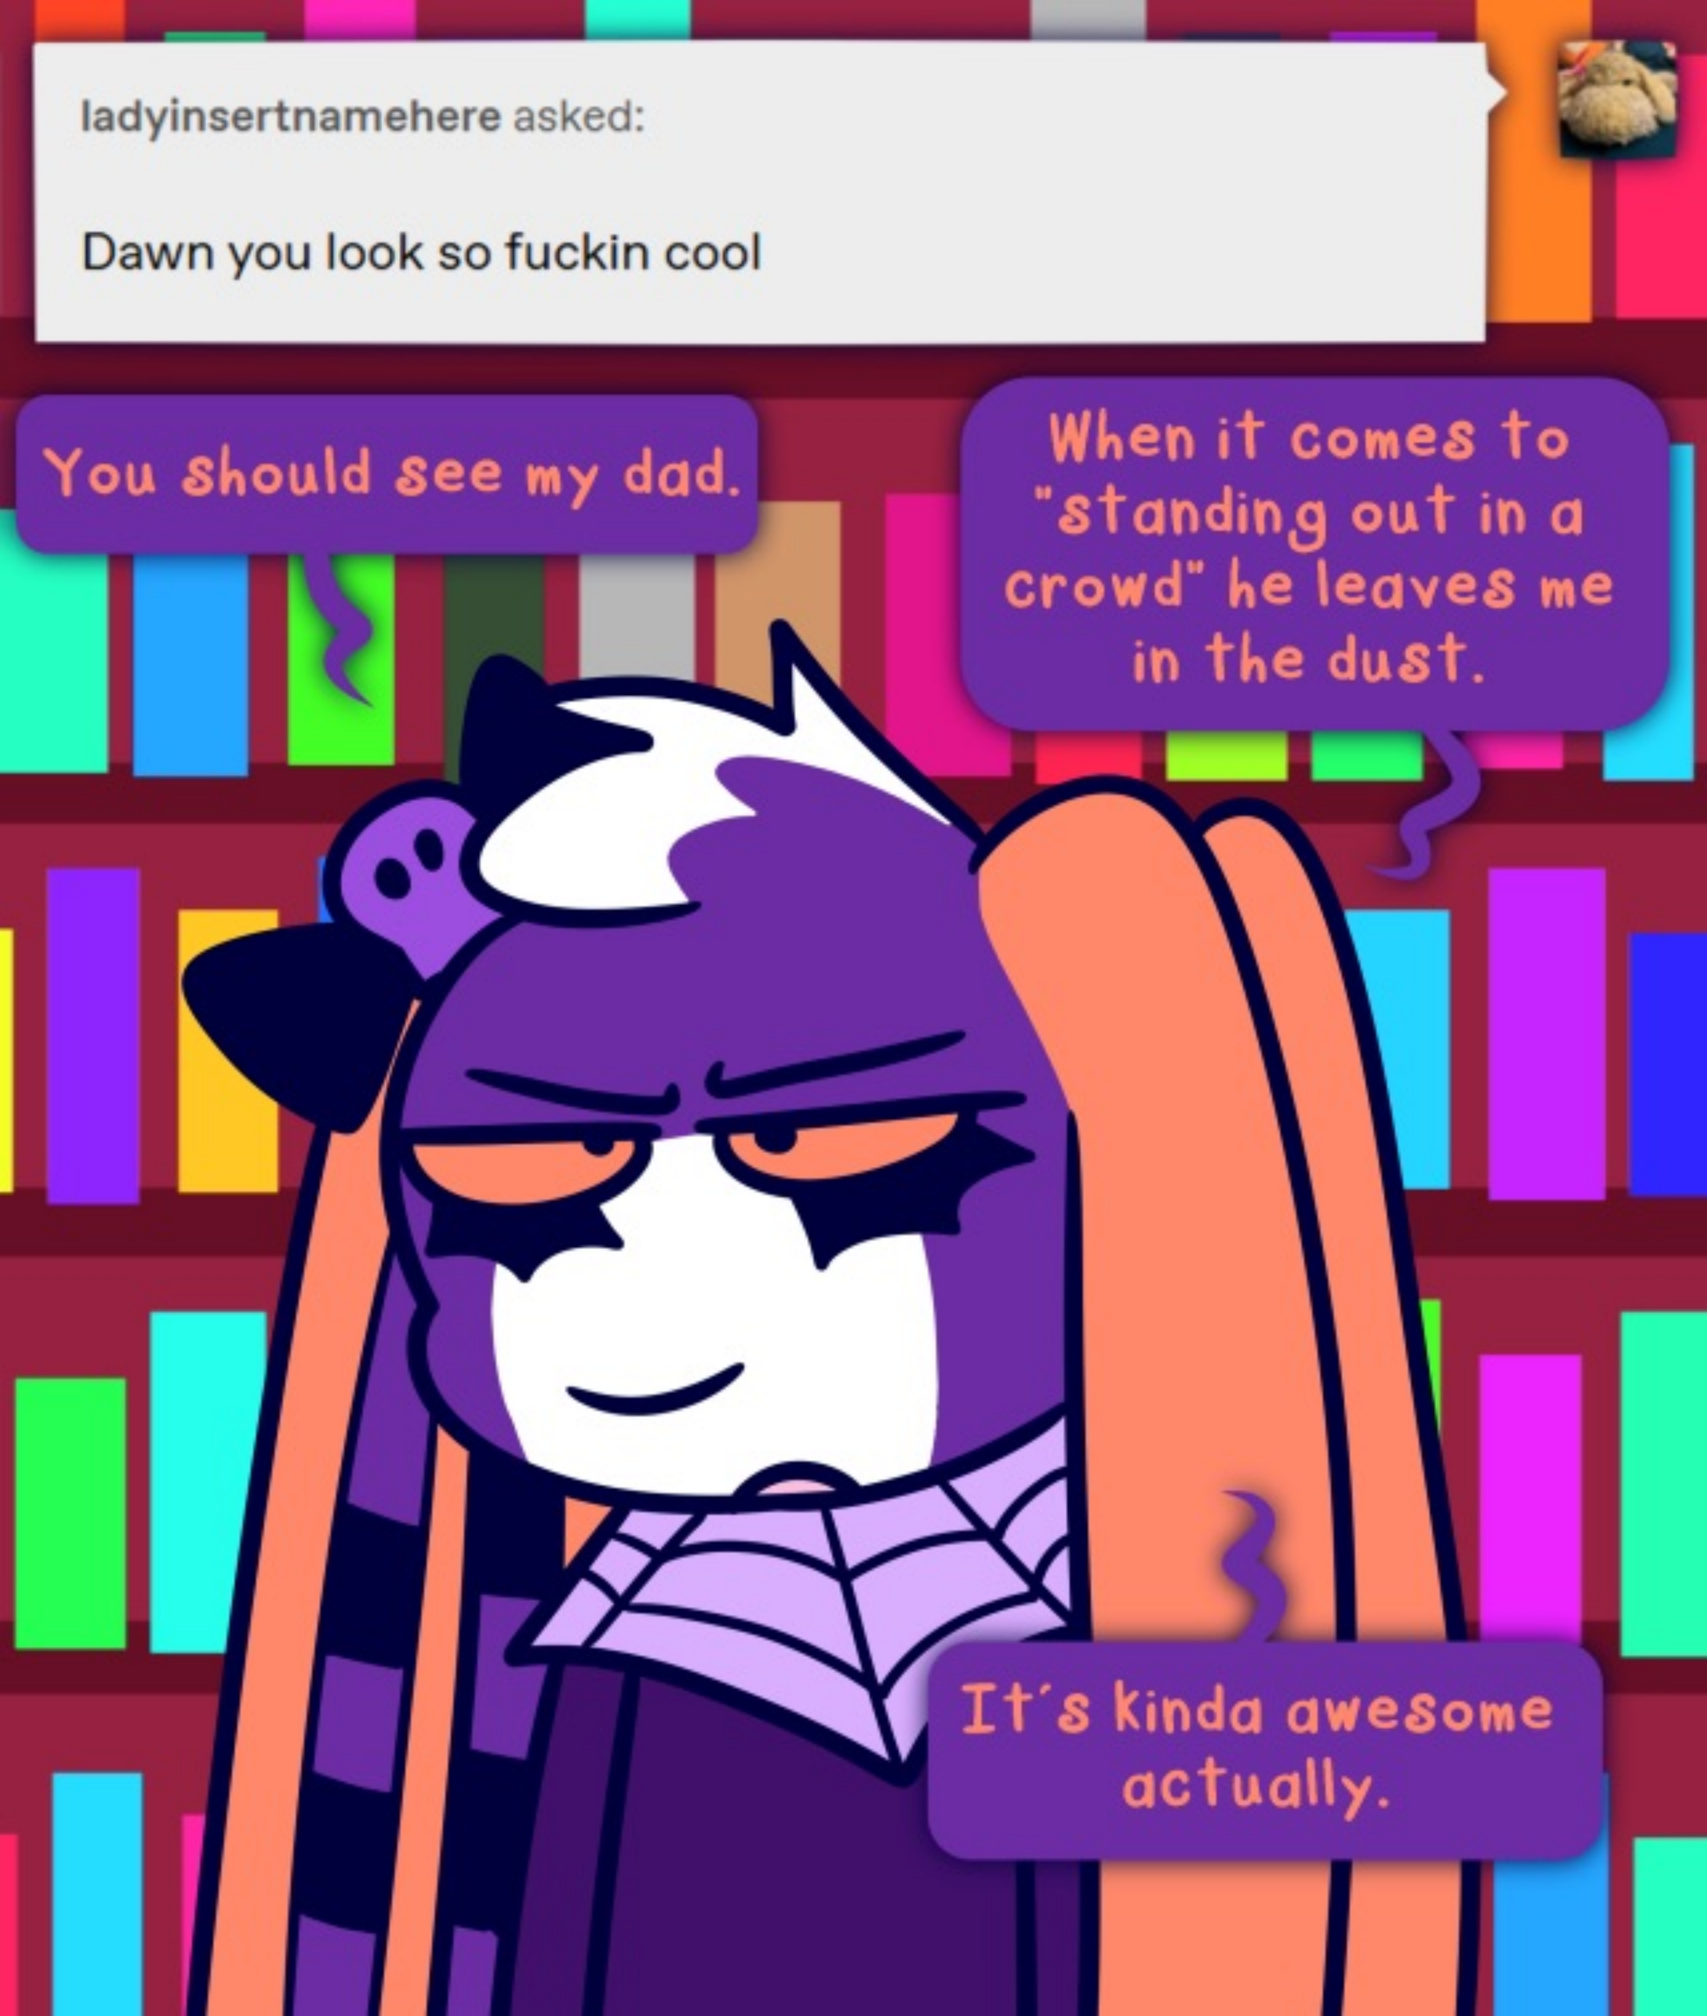
Monster movies are an obvious favorite, and the books they're often based on.
Specifically the oldies though. Modern remakes are garbage.



alistairthewreck asked:

hi dawn! are you a fellow halloween enjoyer?

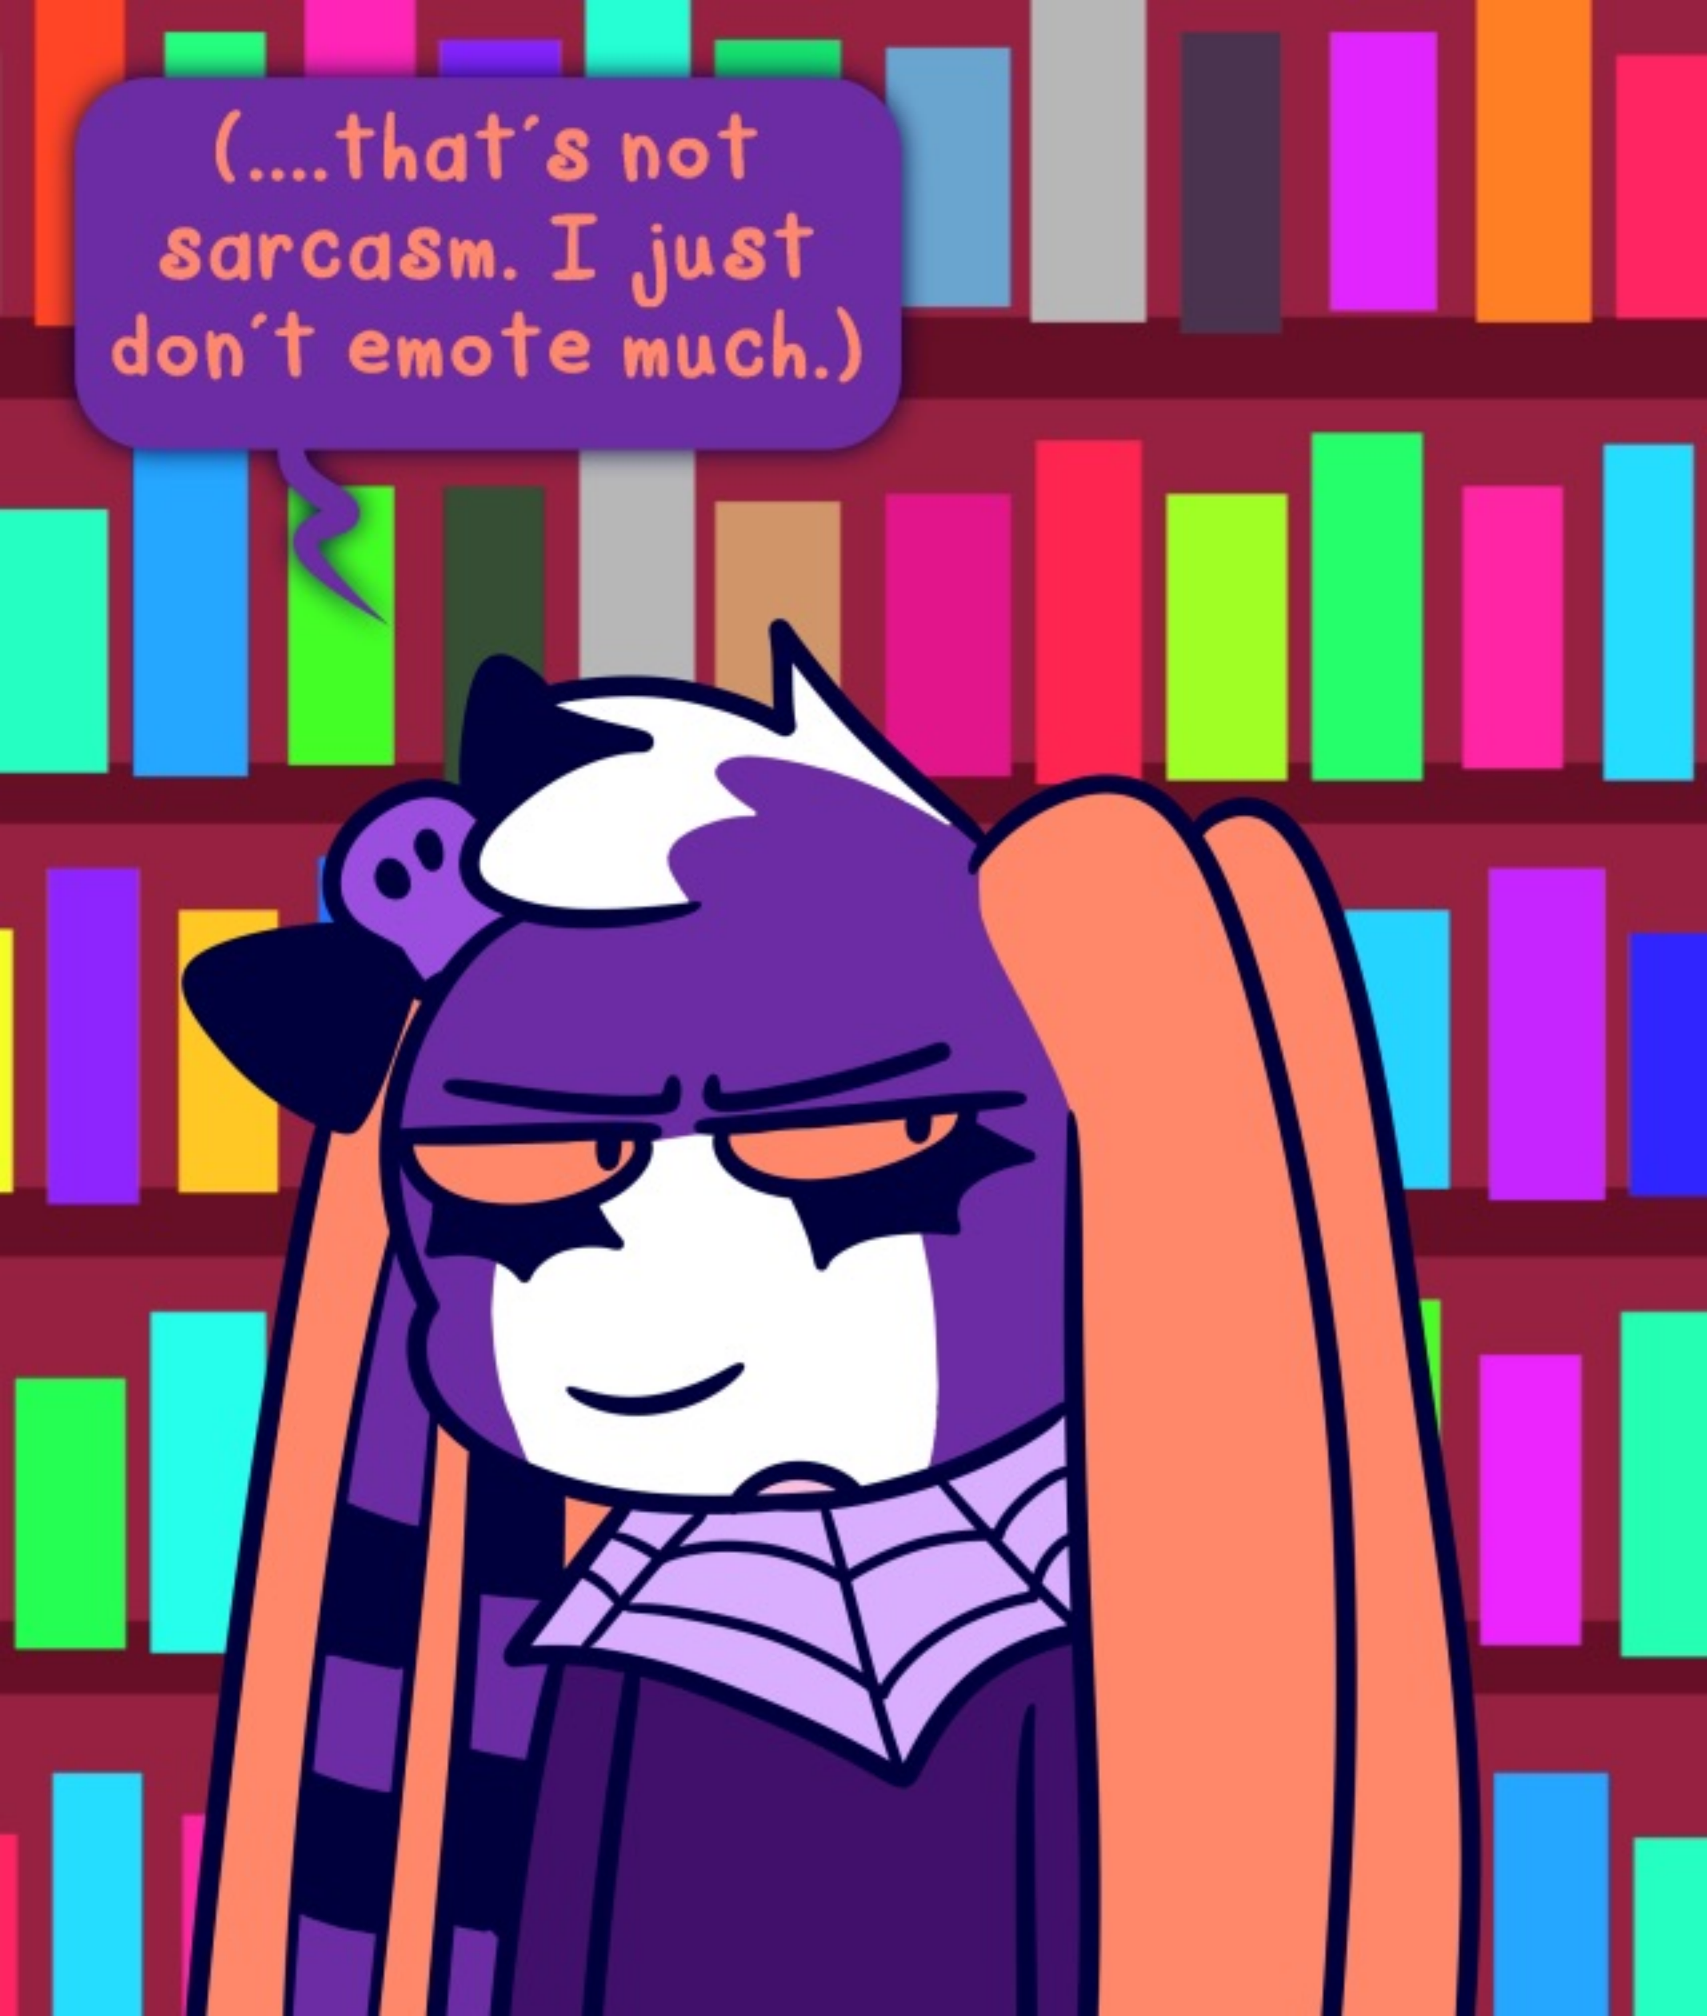
No, my favorite holiday is Valentine's day, can't you tell?
(That's sarcasm, by the way.)



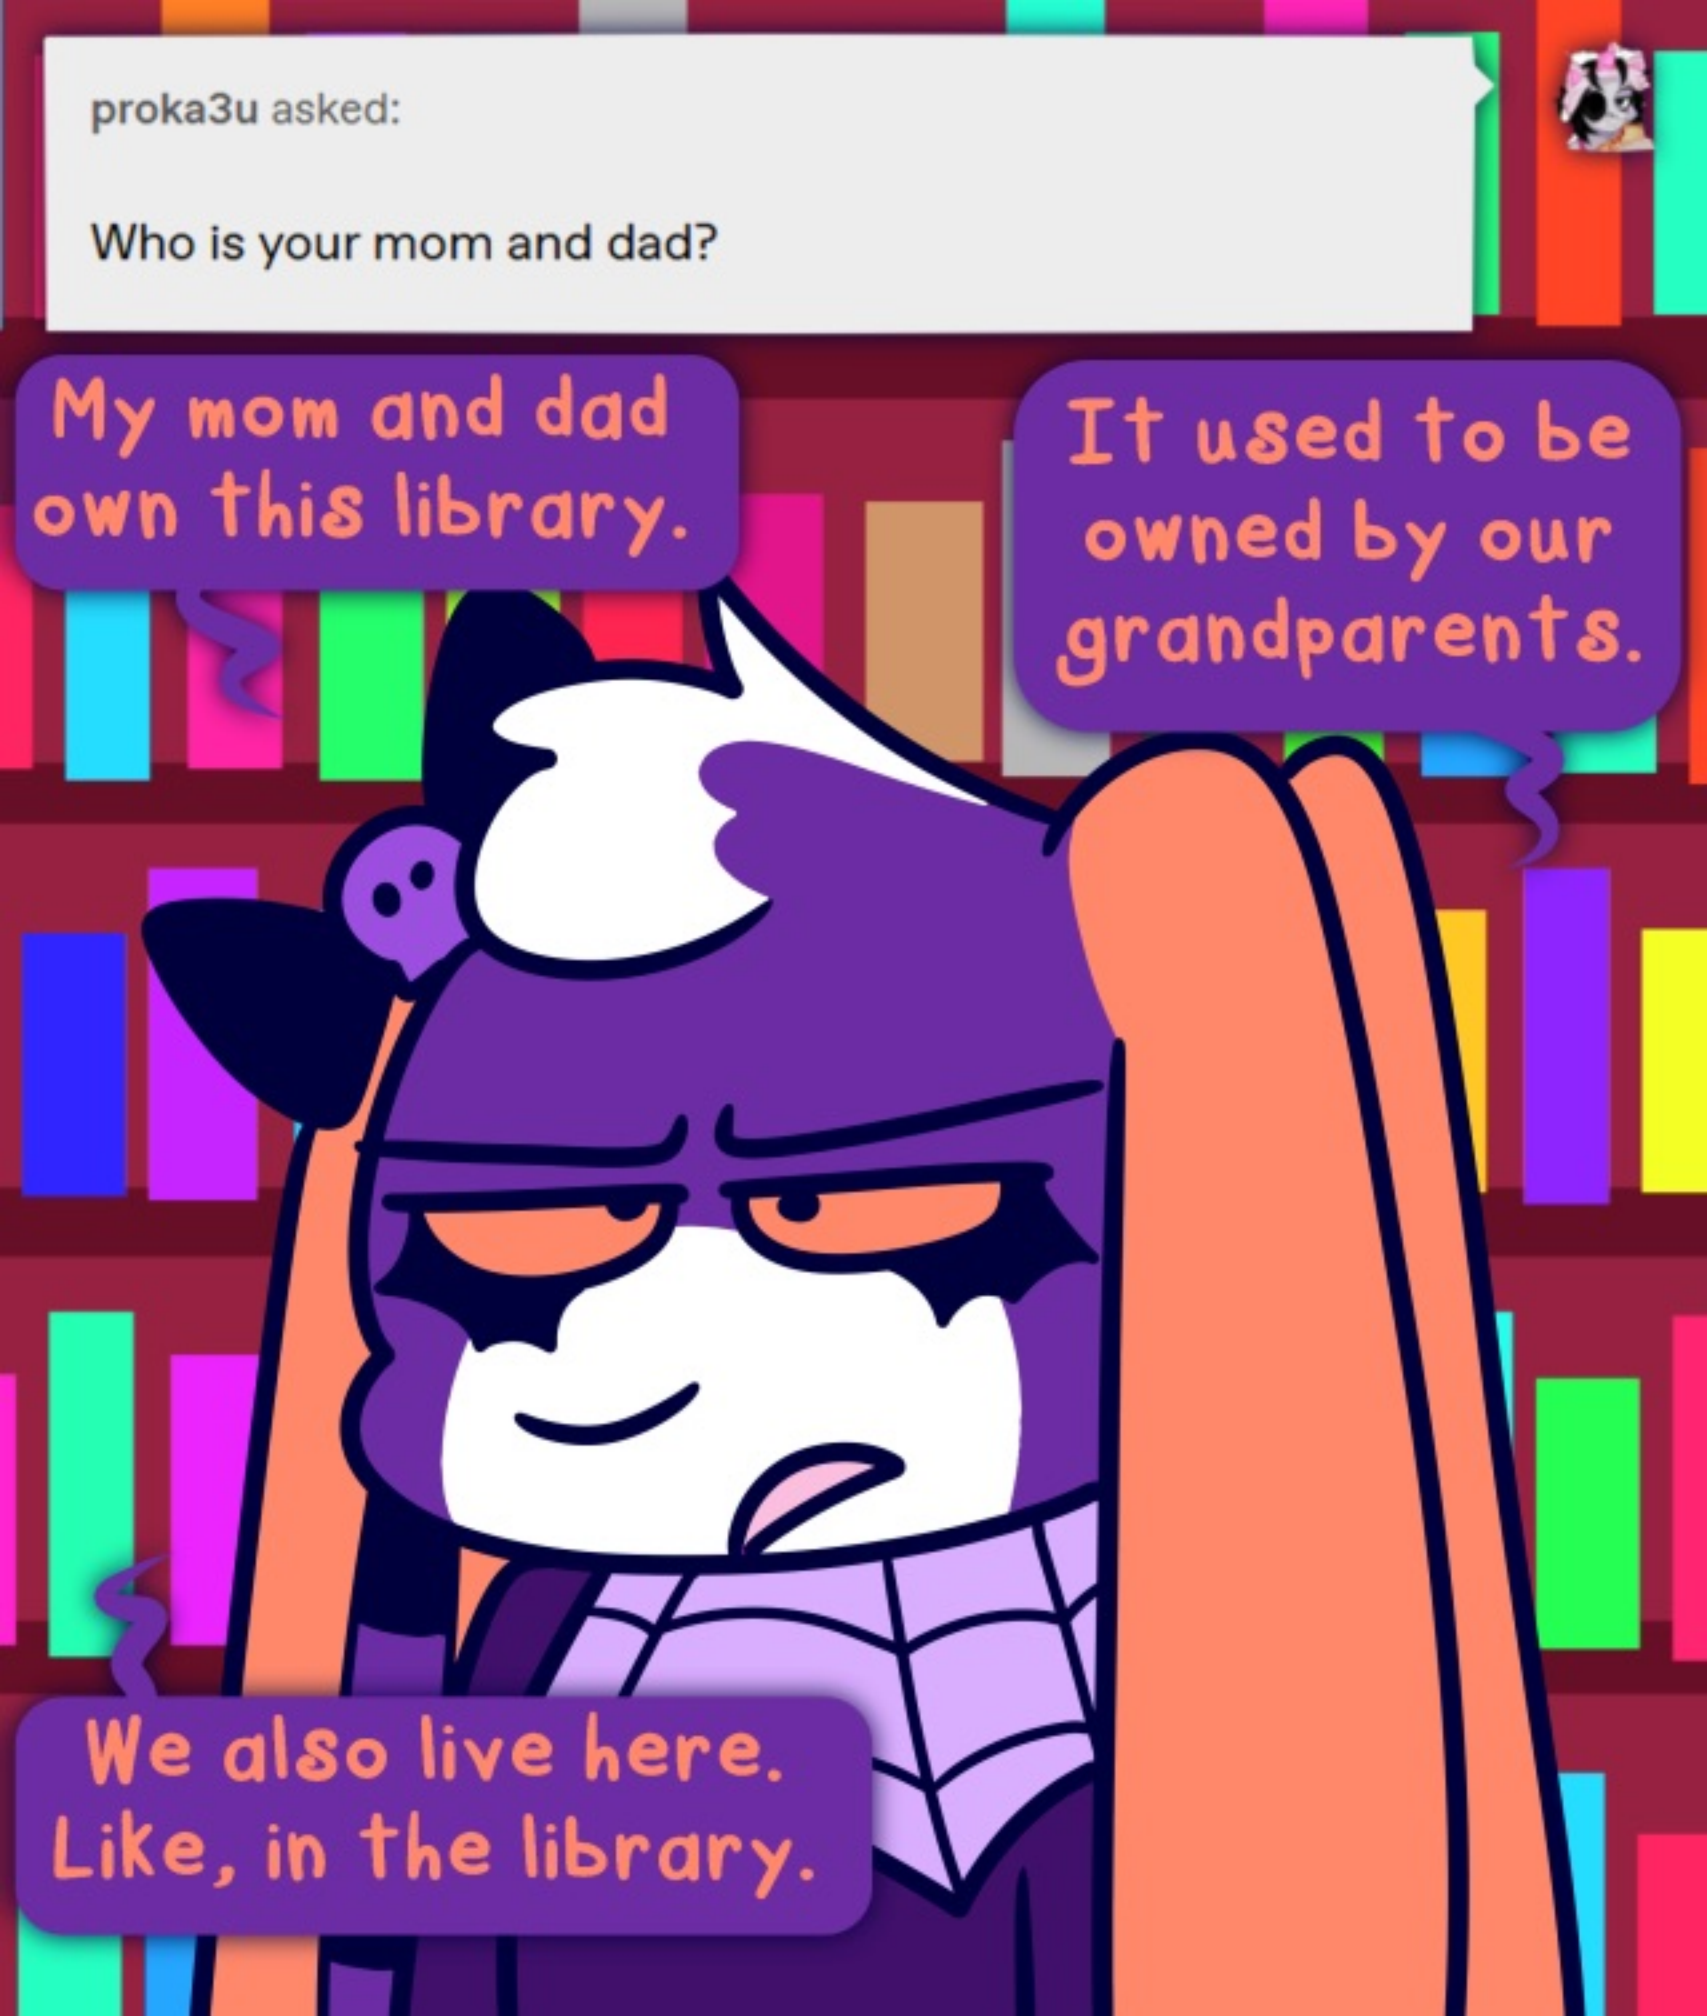
ladyinsertnamehere asked:

Dawn you look so fuckin cool

You should see my dad.
When it comes to "standing out in a crowd" he leaves me in the dust.
It's kinda awesome actually.



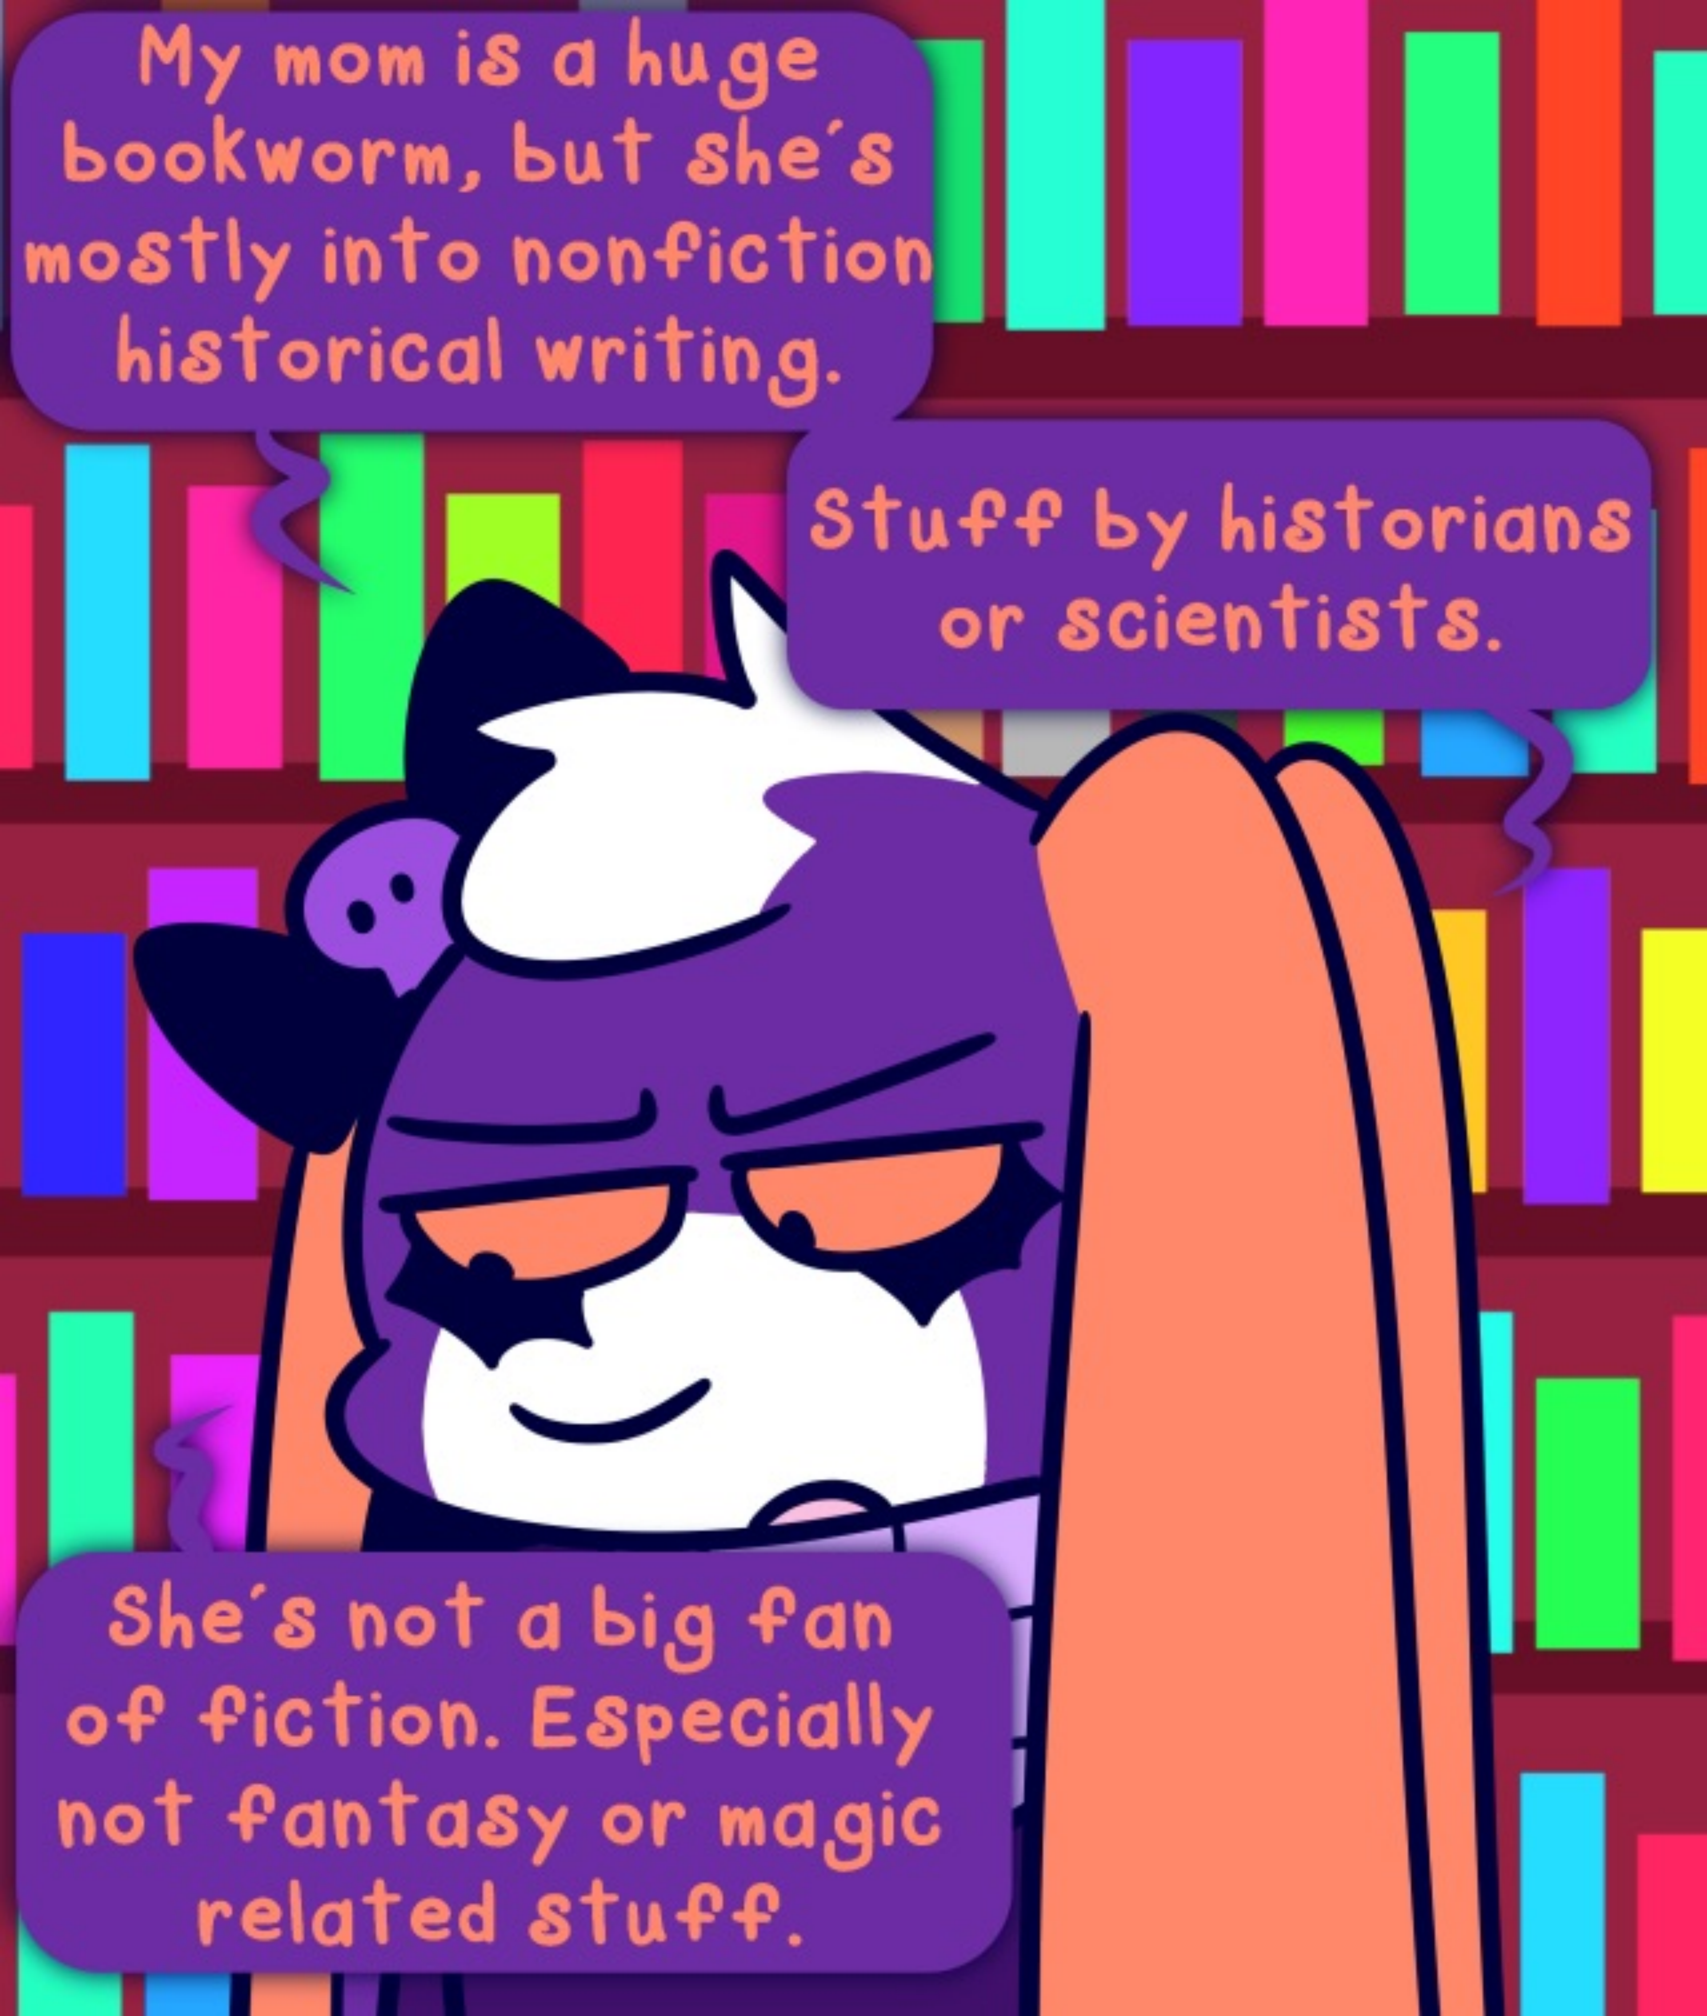
(....that´s not sarcasm. I just don´t emote much.)



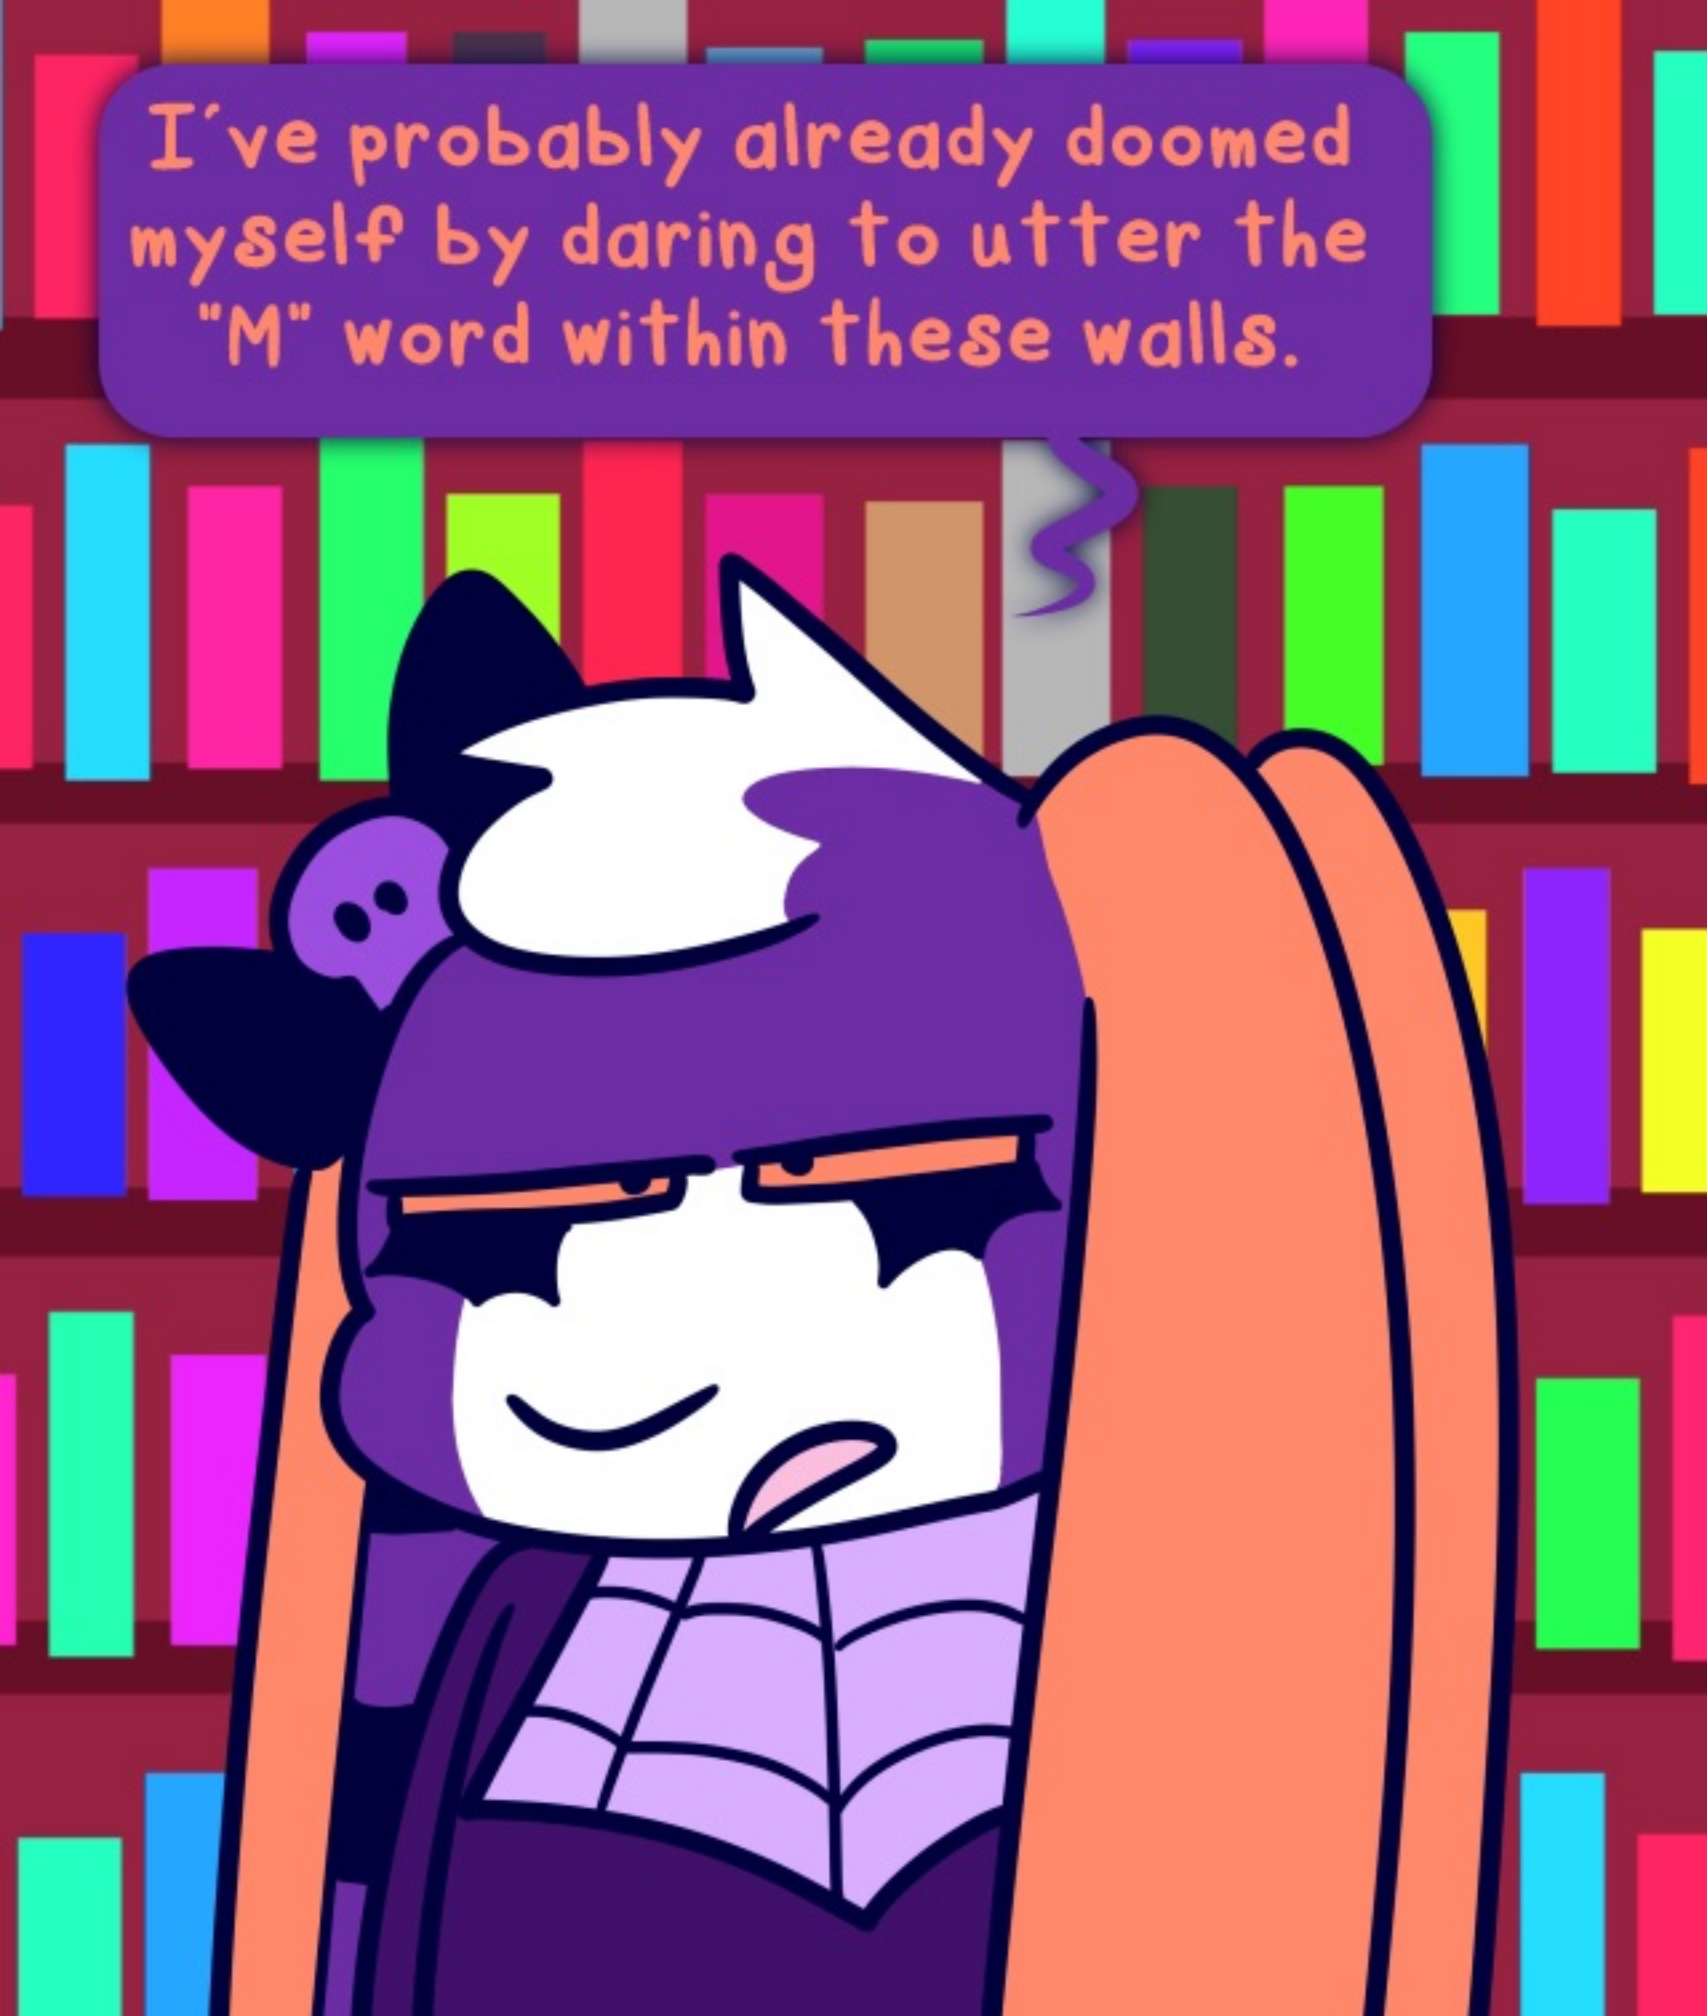
proka3u asked:

Who is your mom and dad?

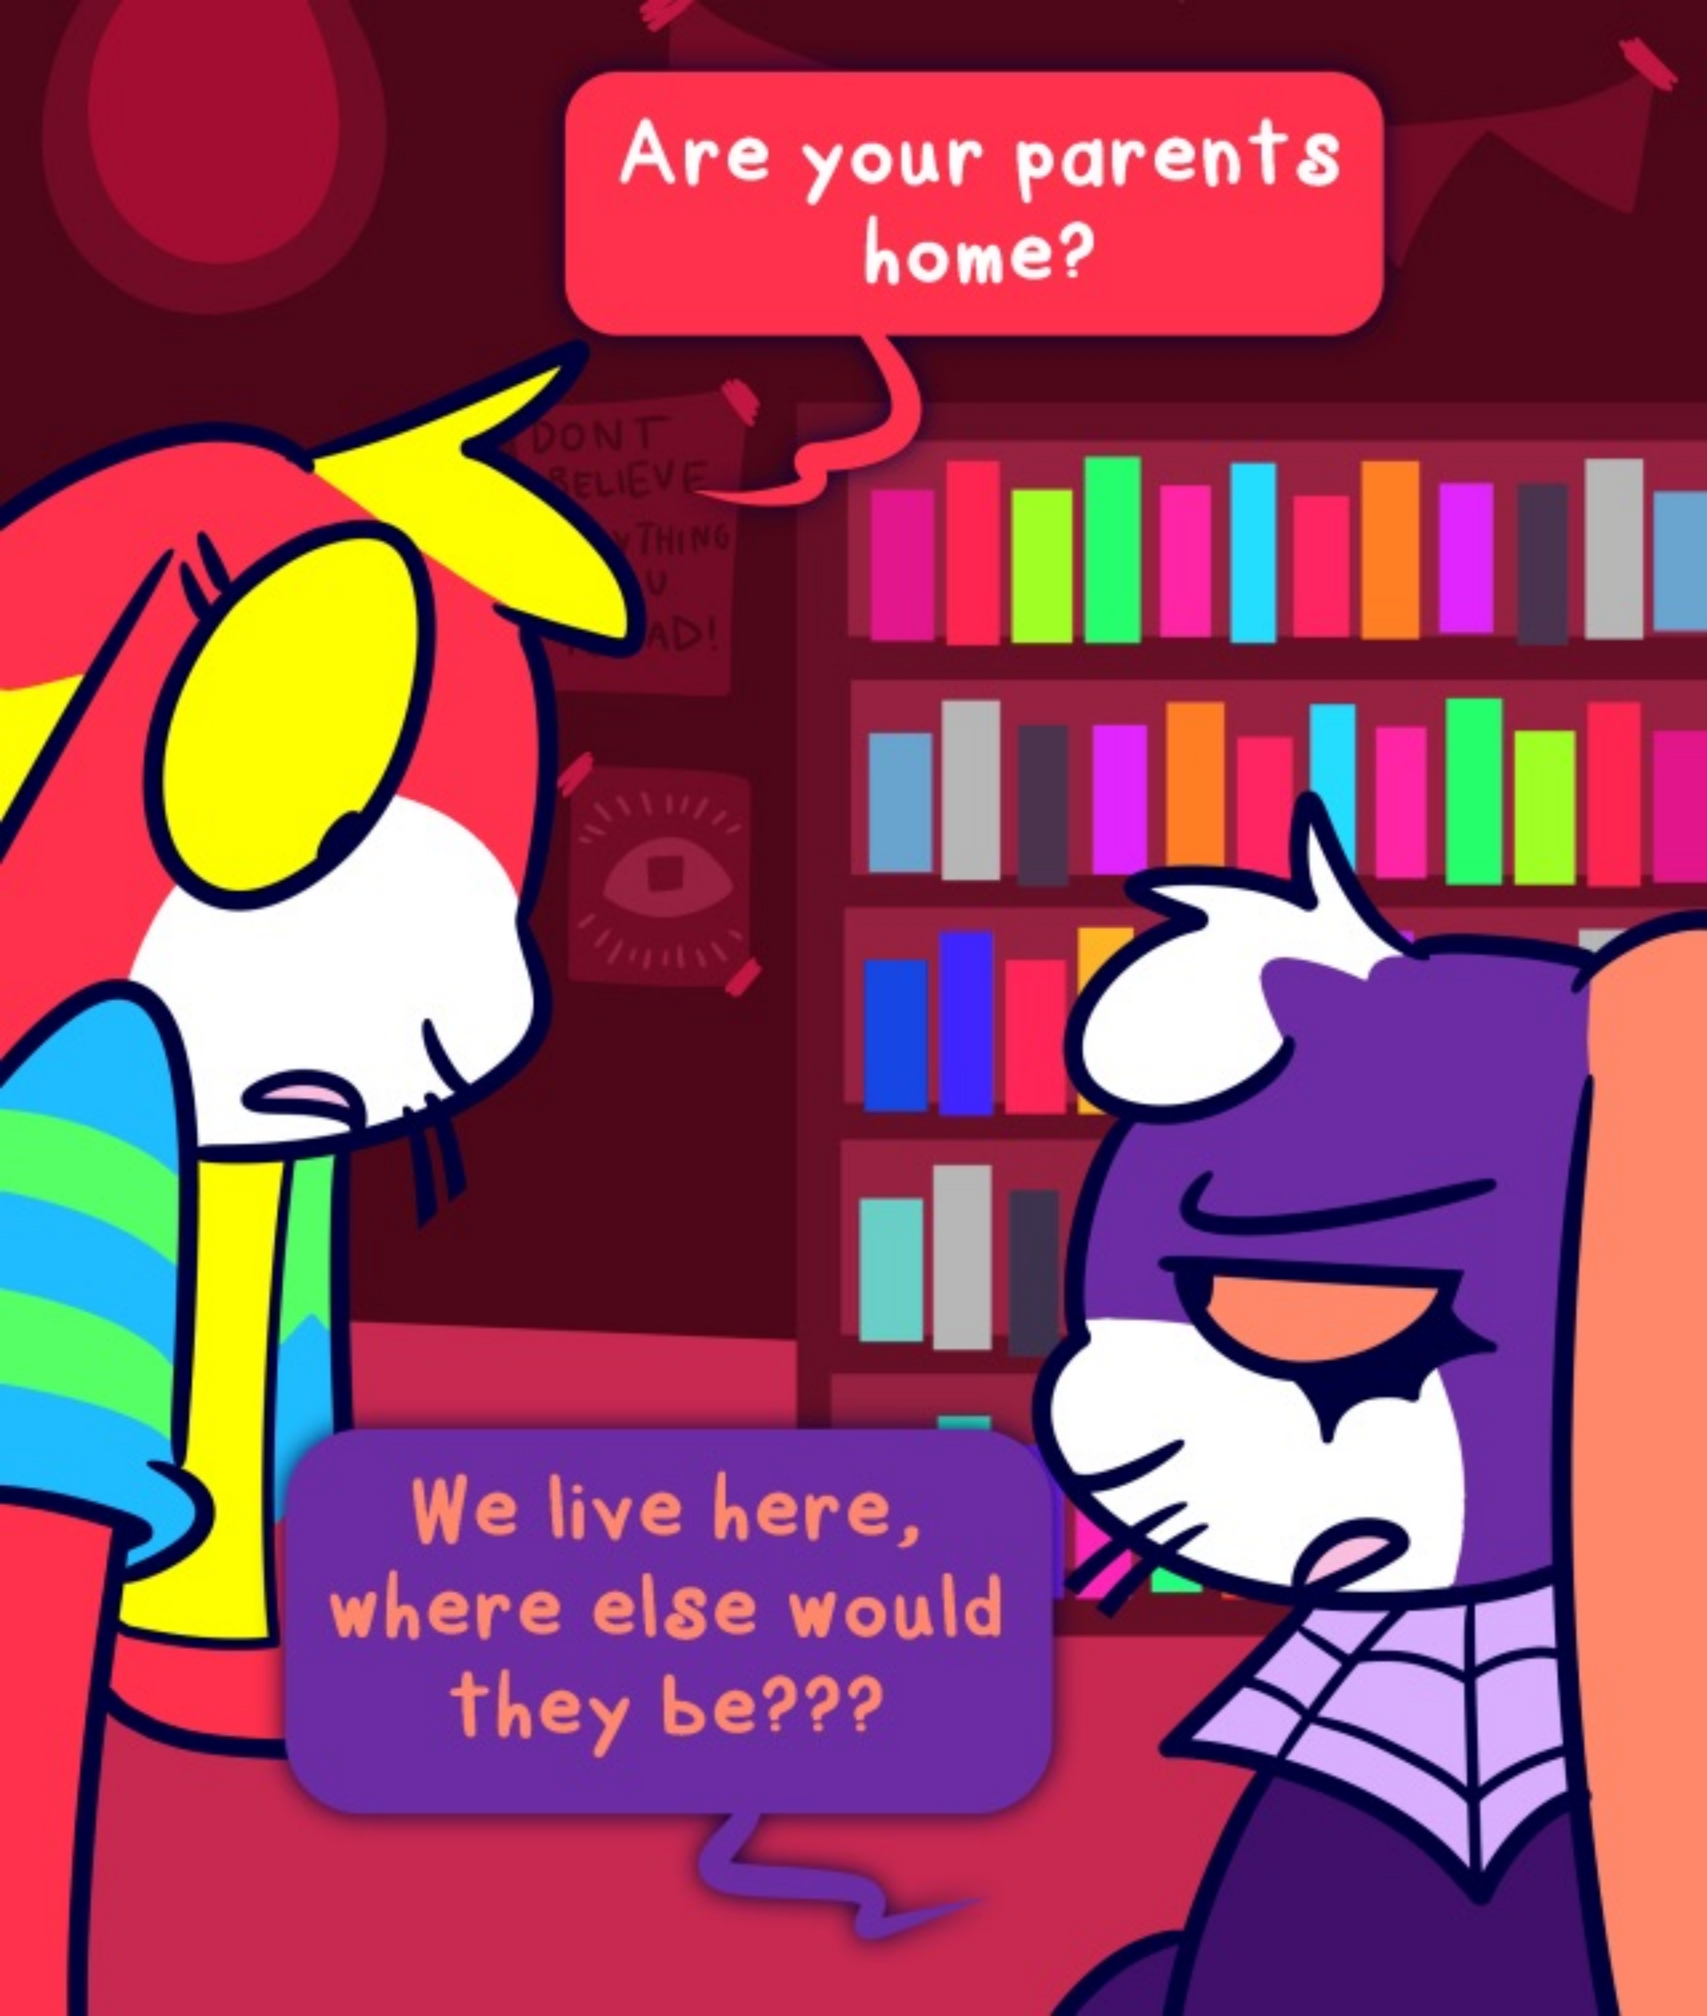
My mom and dad own this library.
It used to be owned by our grandparents.
We also live here. Like, in the library.



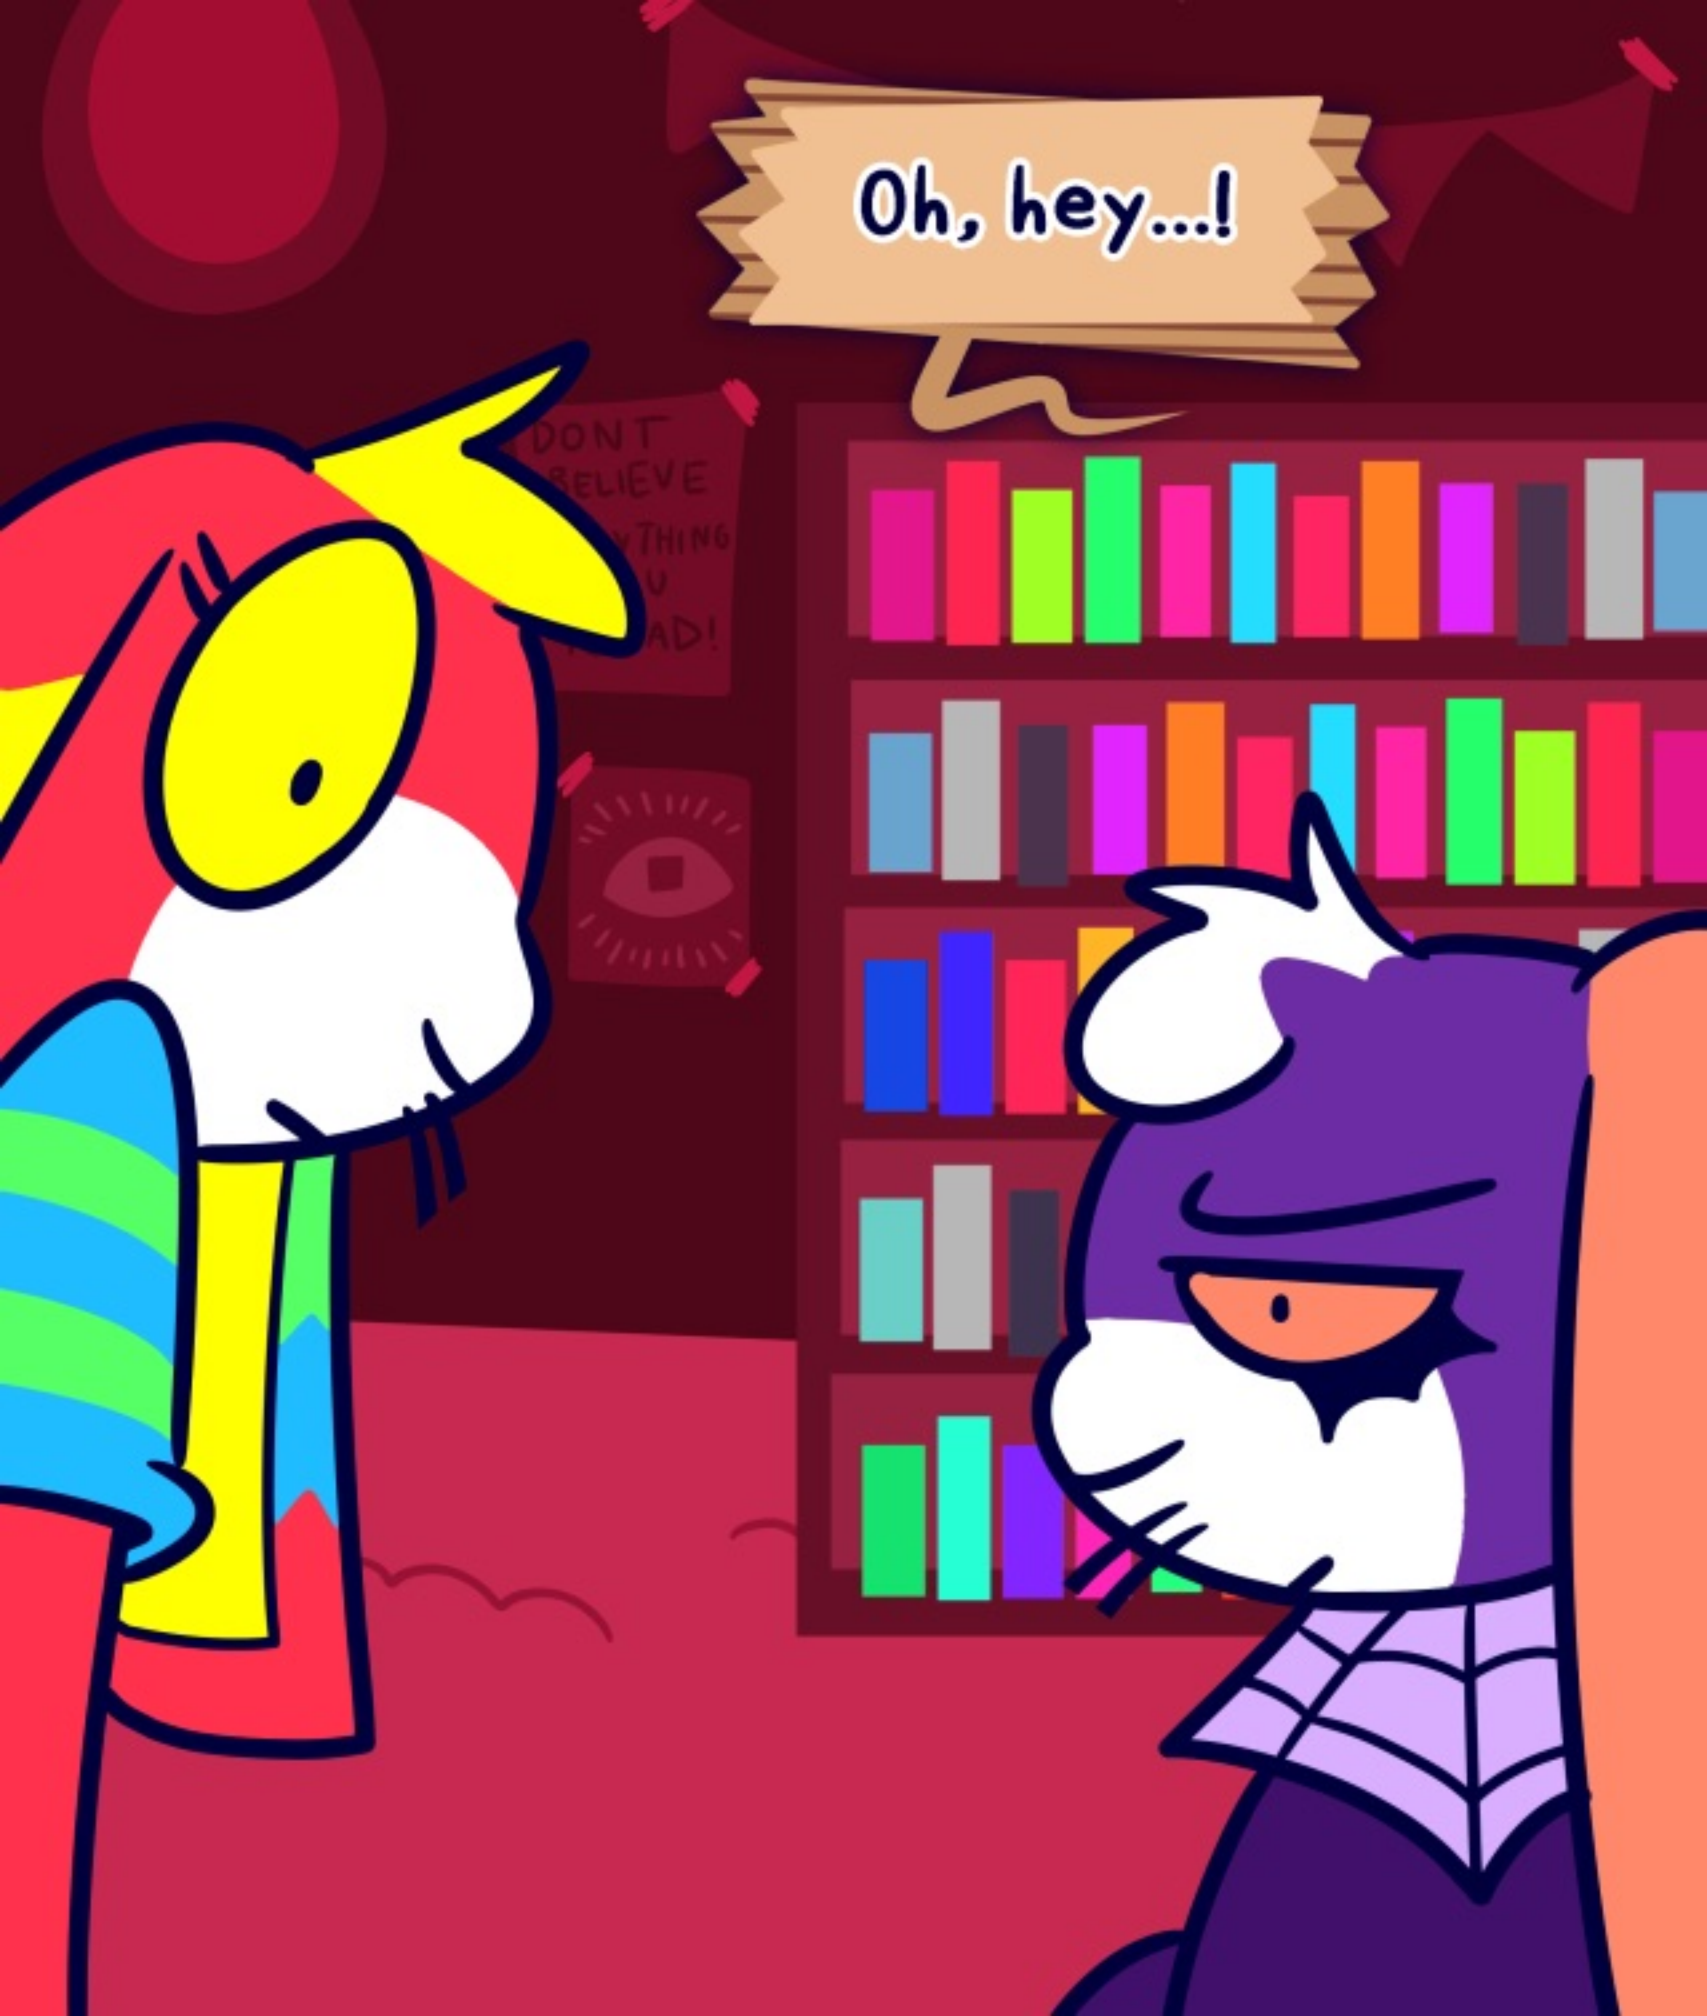
My mom is a huge bookworm, but she's mostly into nonfiction historical writing.
Stuff by historians or scientists.
She's not a big fan of fiction. Especially not fantasy or magic related stuff.



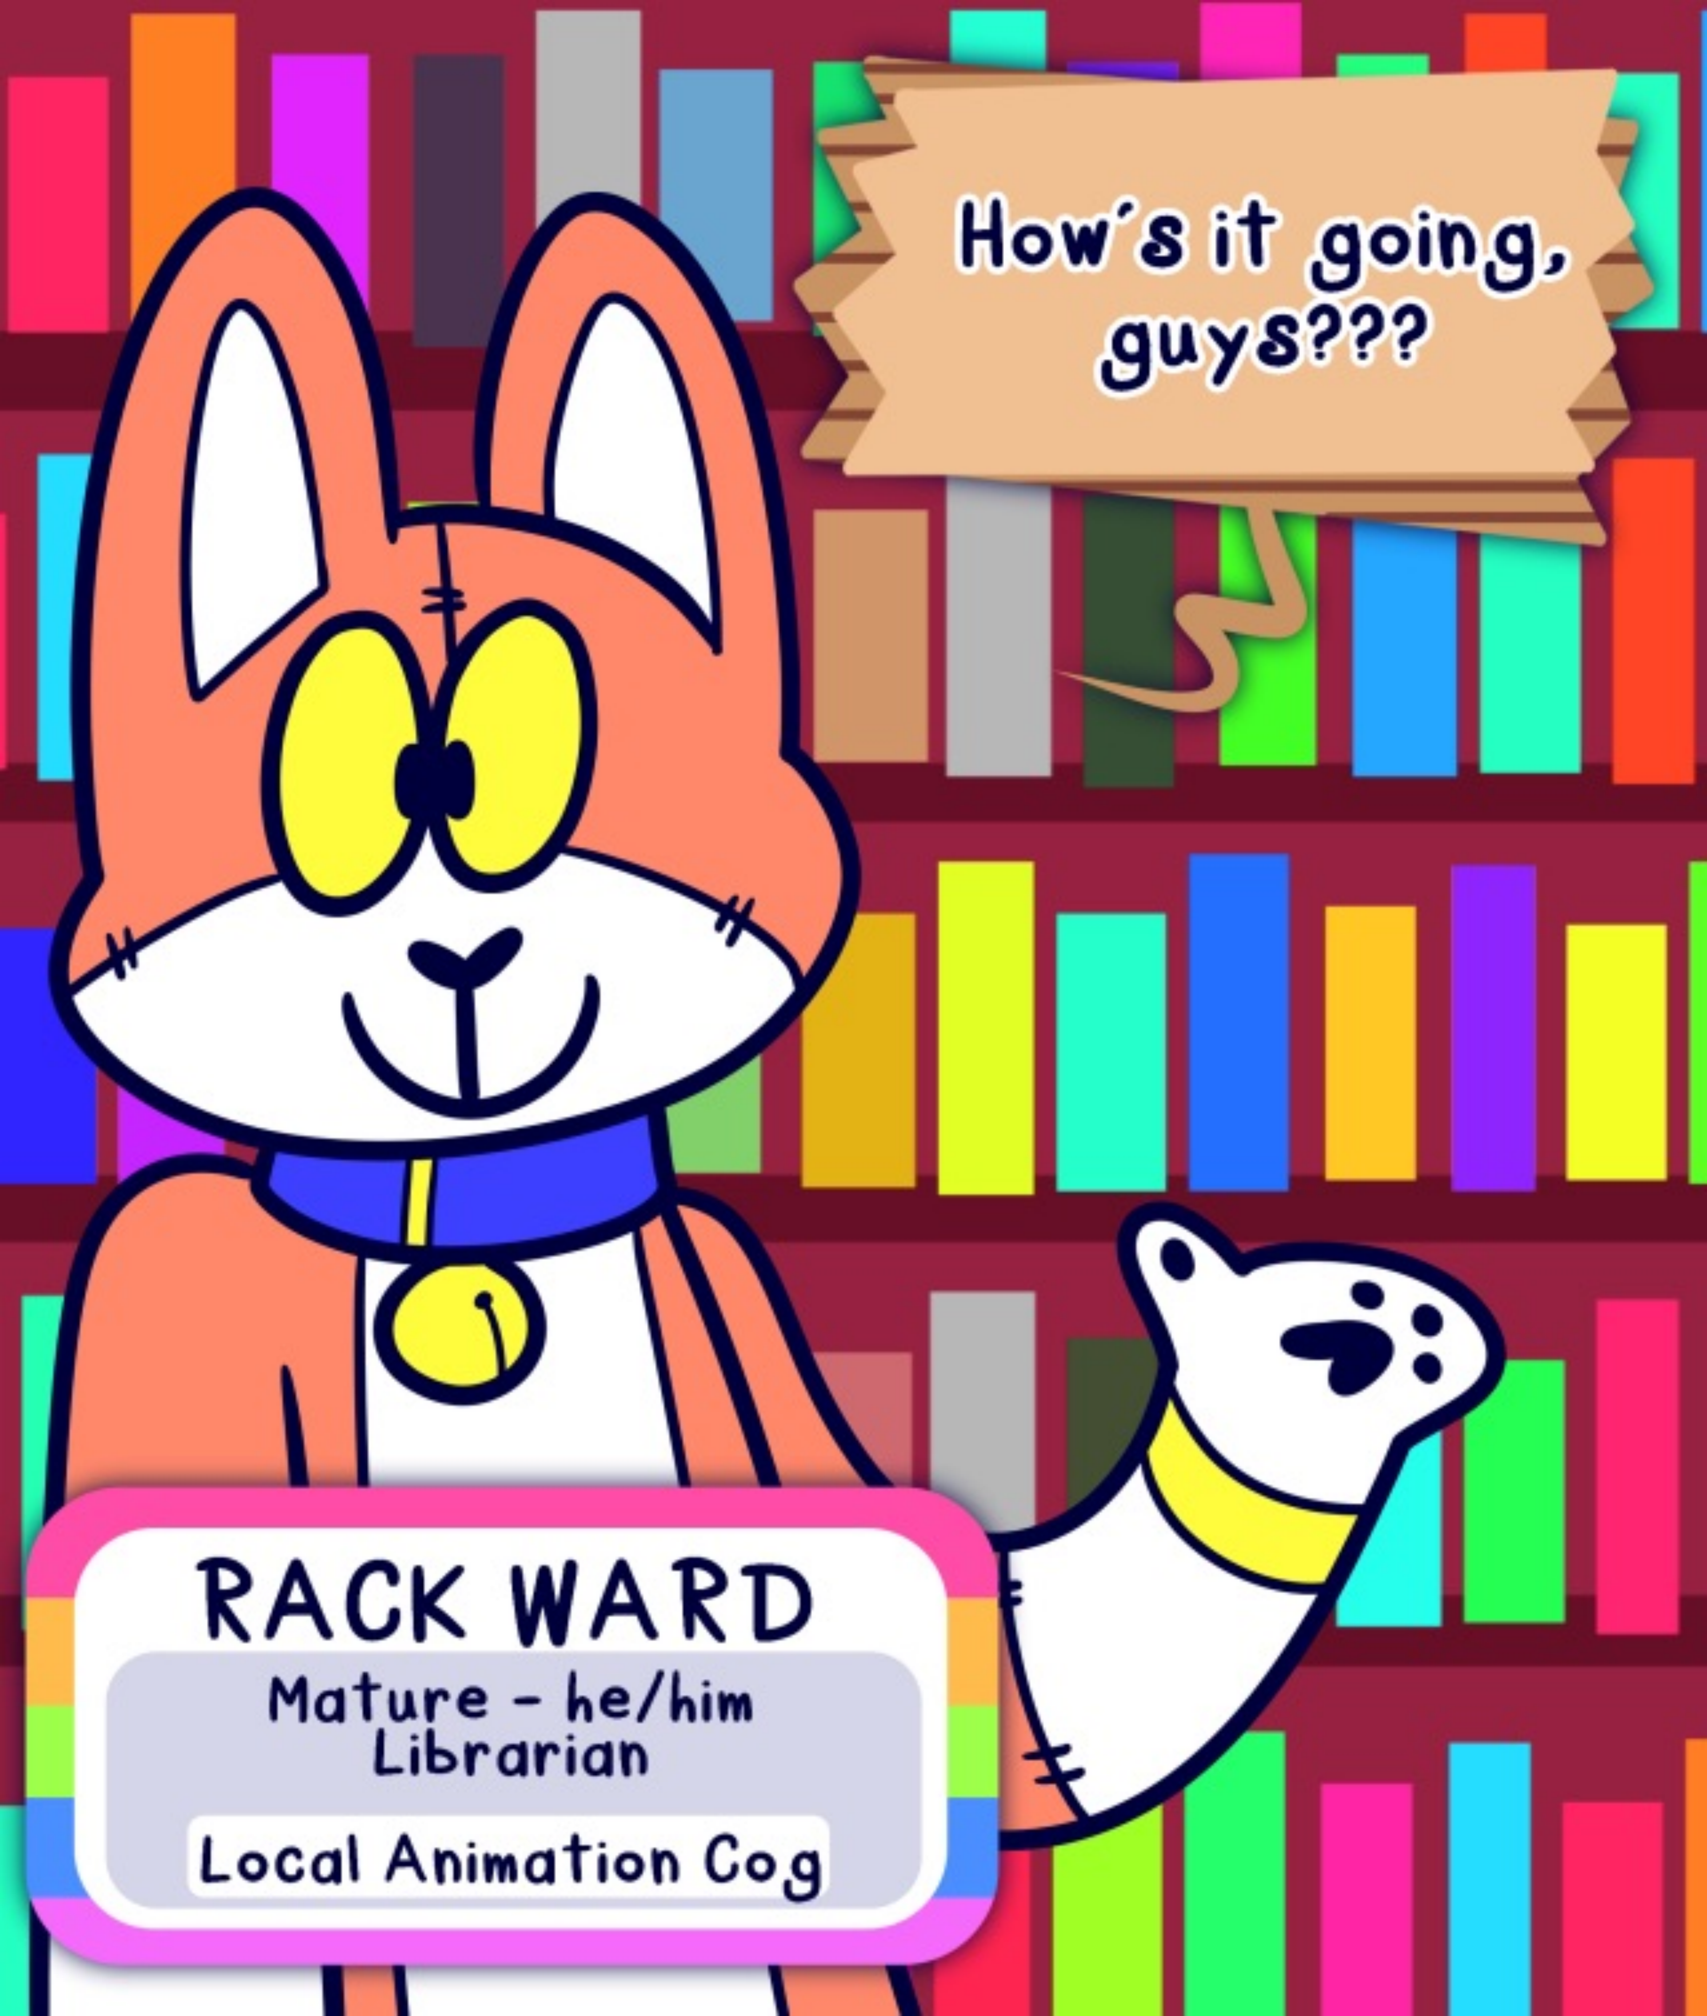
I've probably already doomed myself by daring to utter the "M" word within these walls.



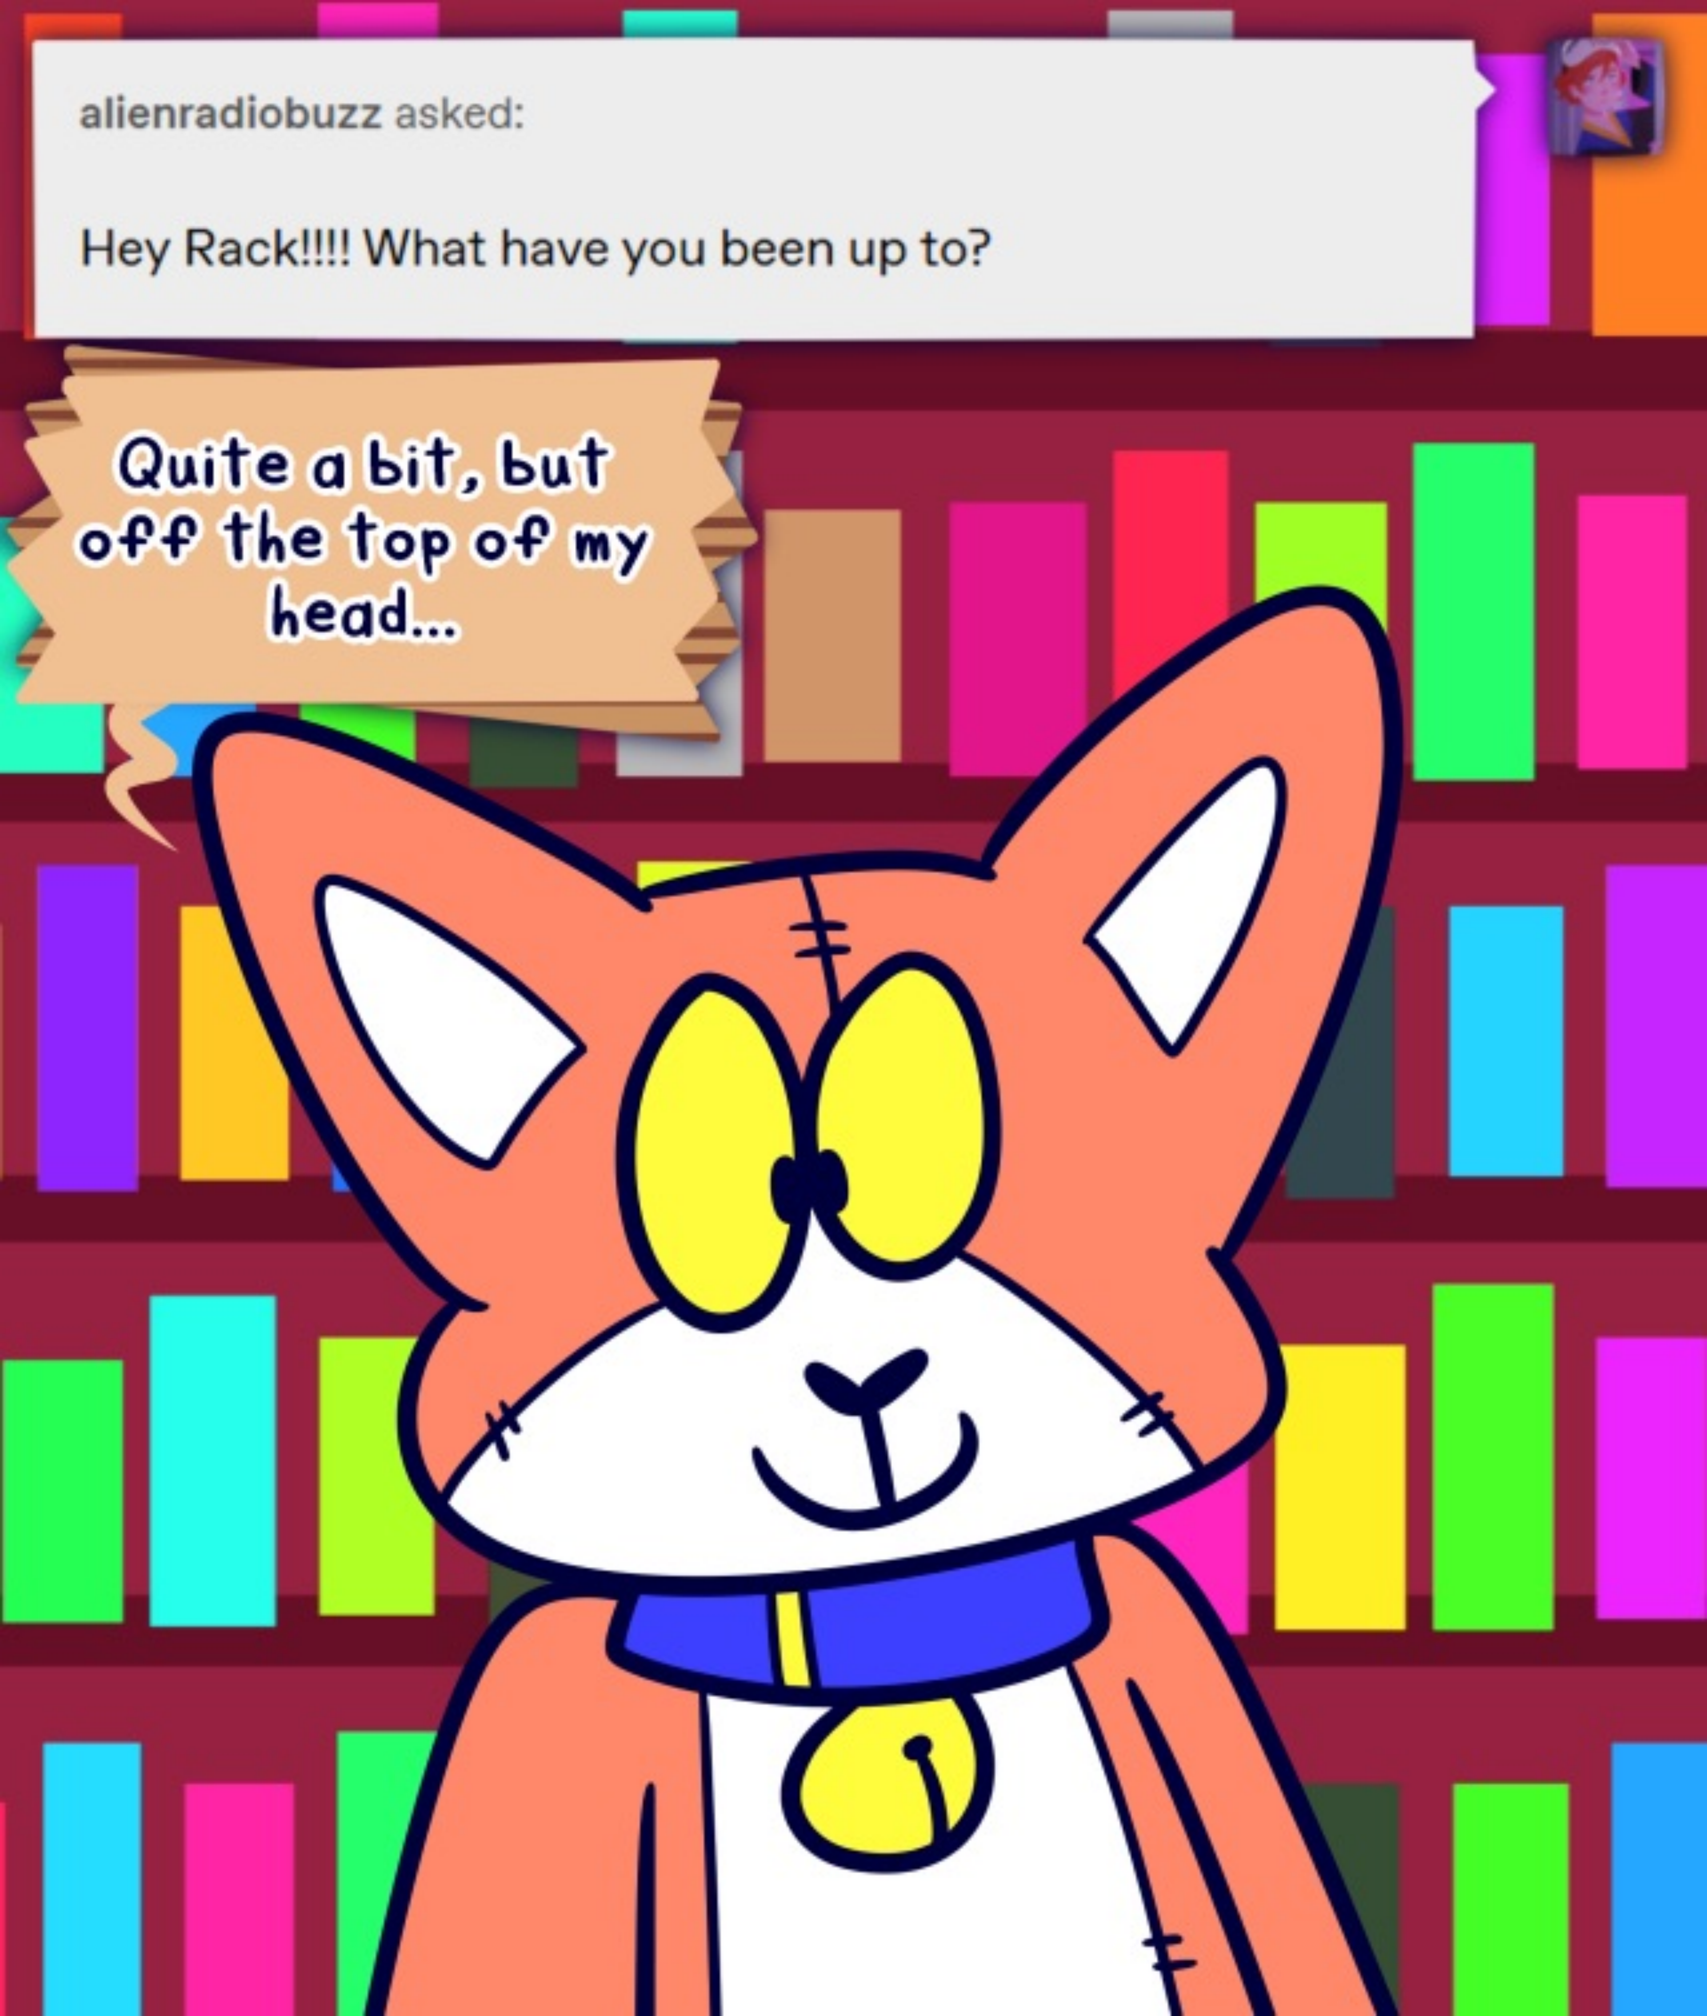
Are your parents home?
DONT BELIEVE ...YTHING ...U ...AD!
We live here, where else would they be???



Oh, hey...!



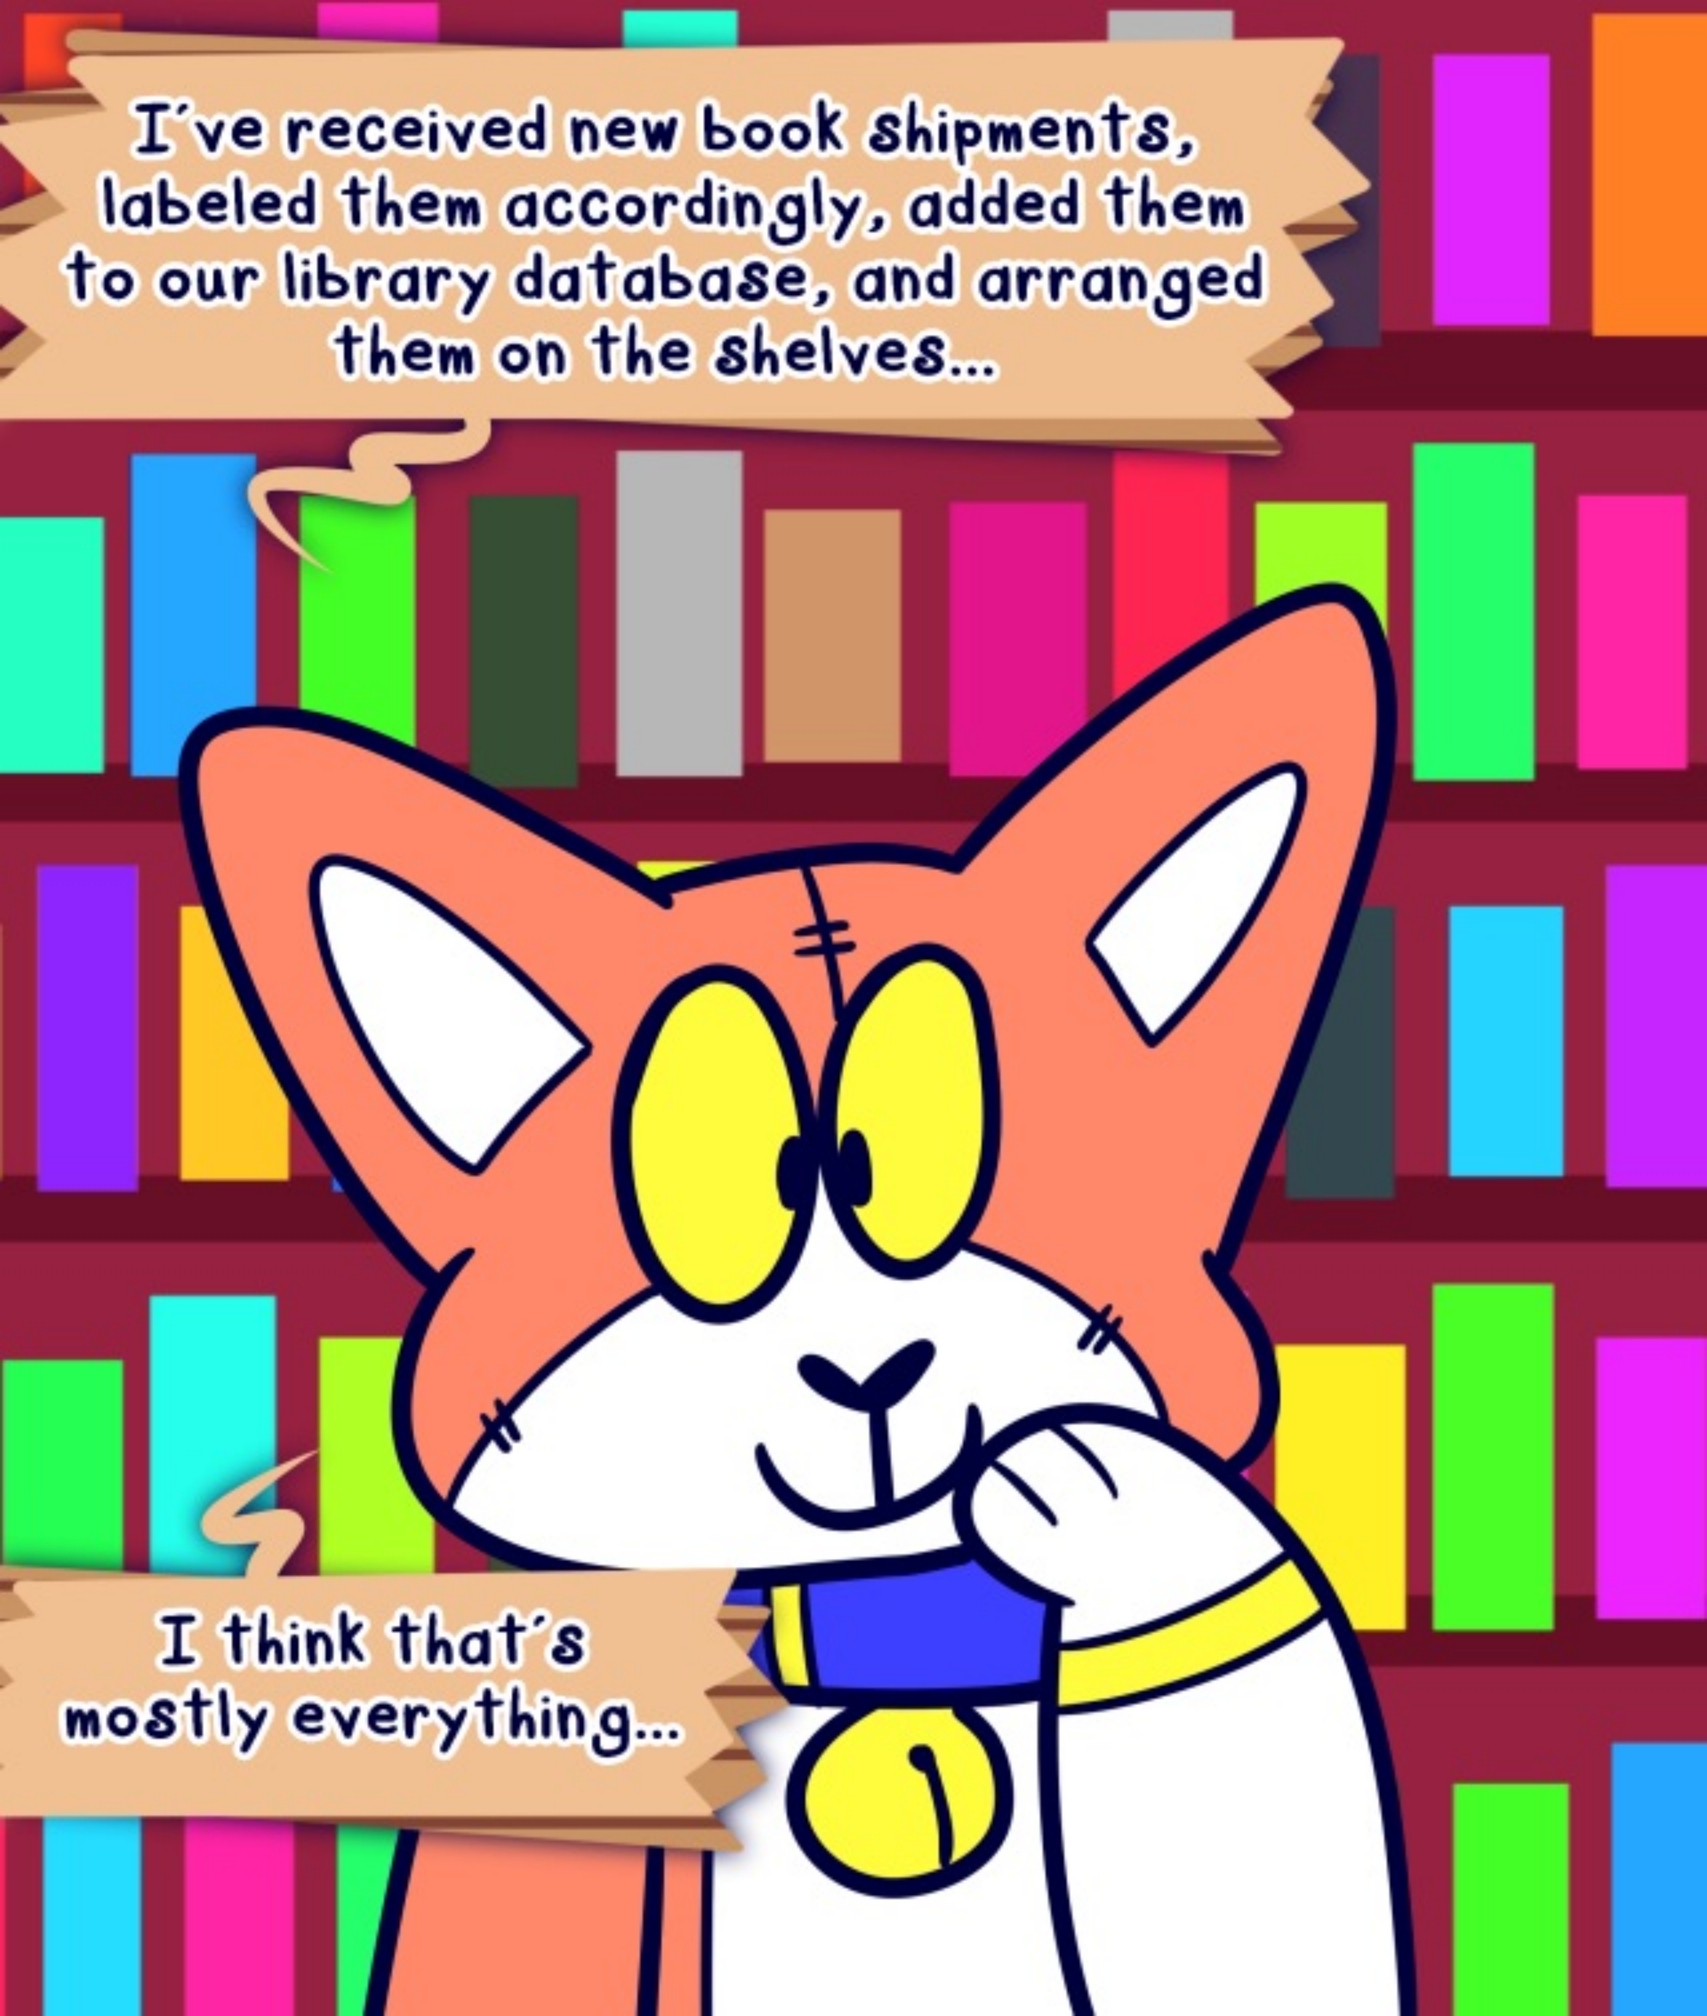
How's it going, guys???
RACK WARD
Mature - he/him
Librarian
Local Animation Cog



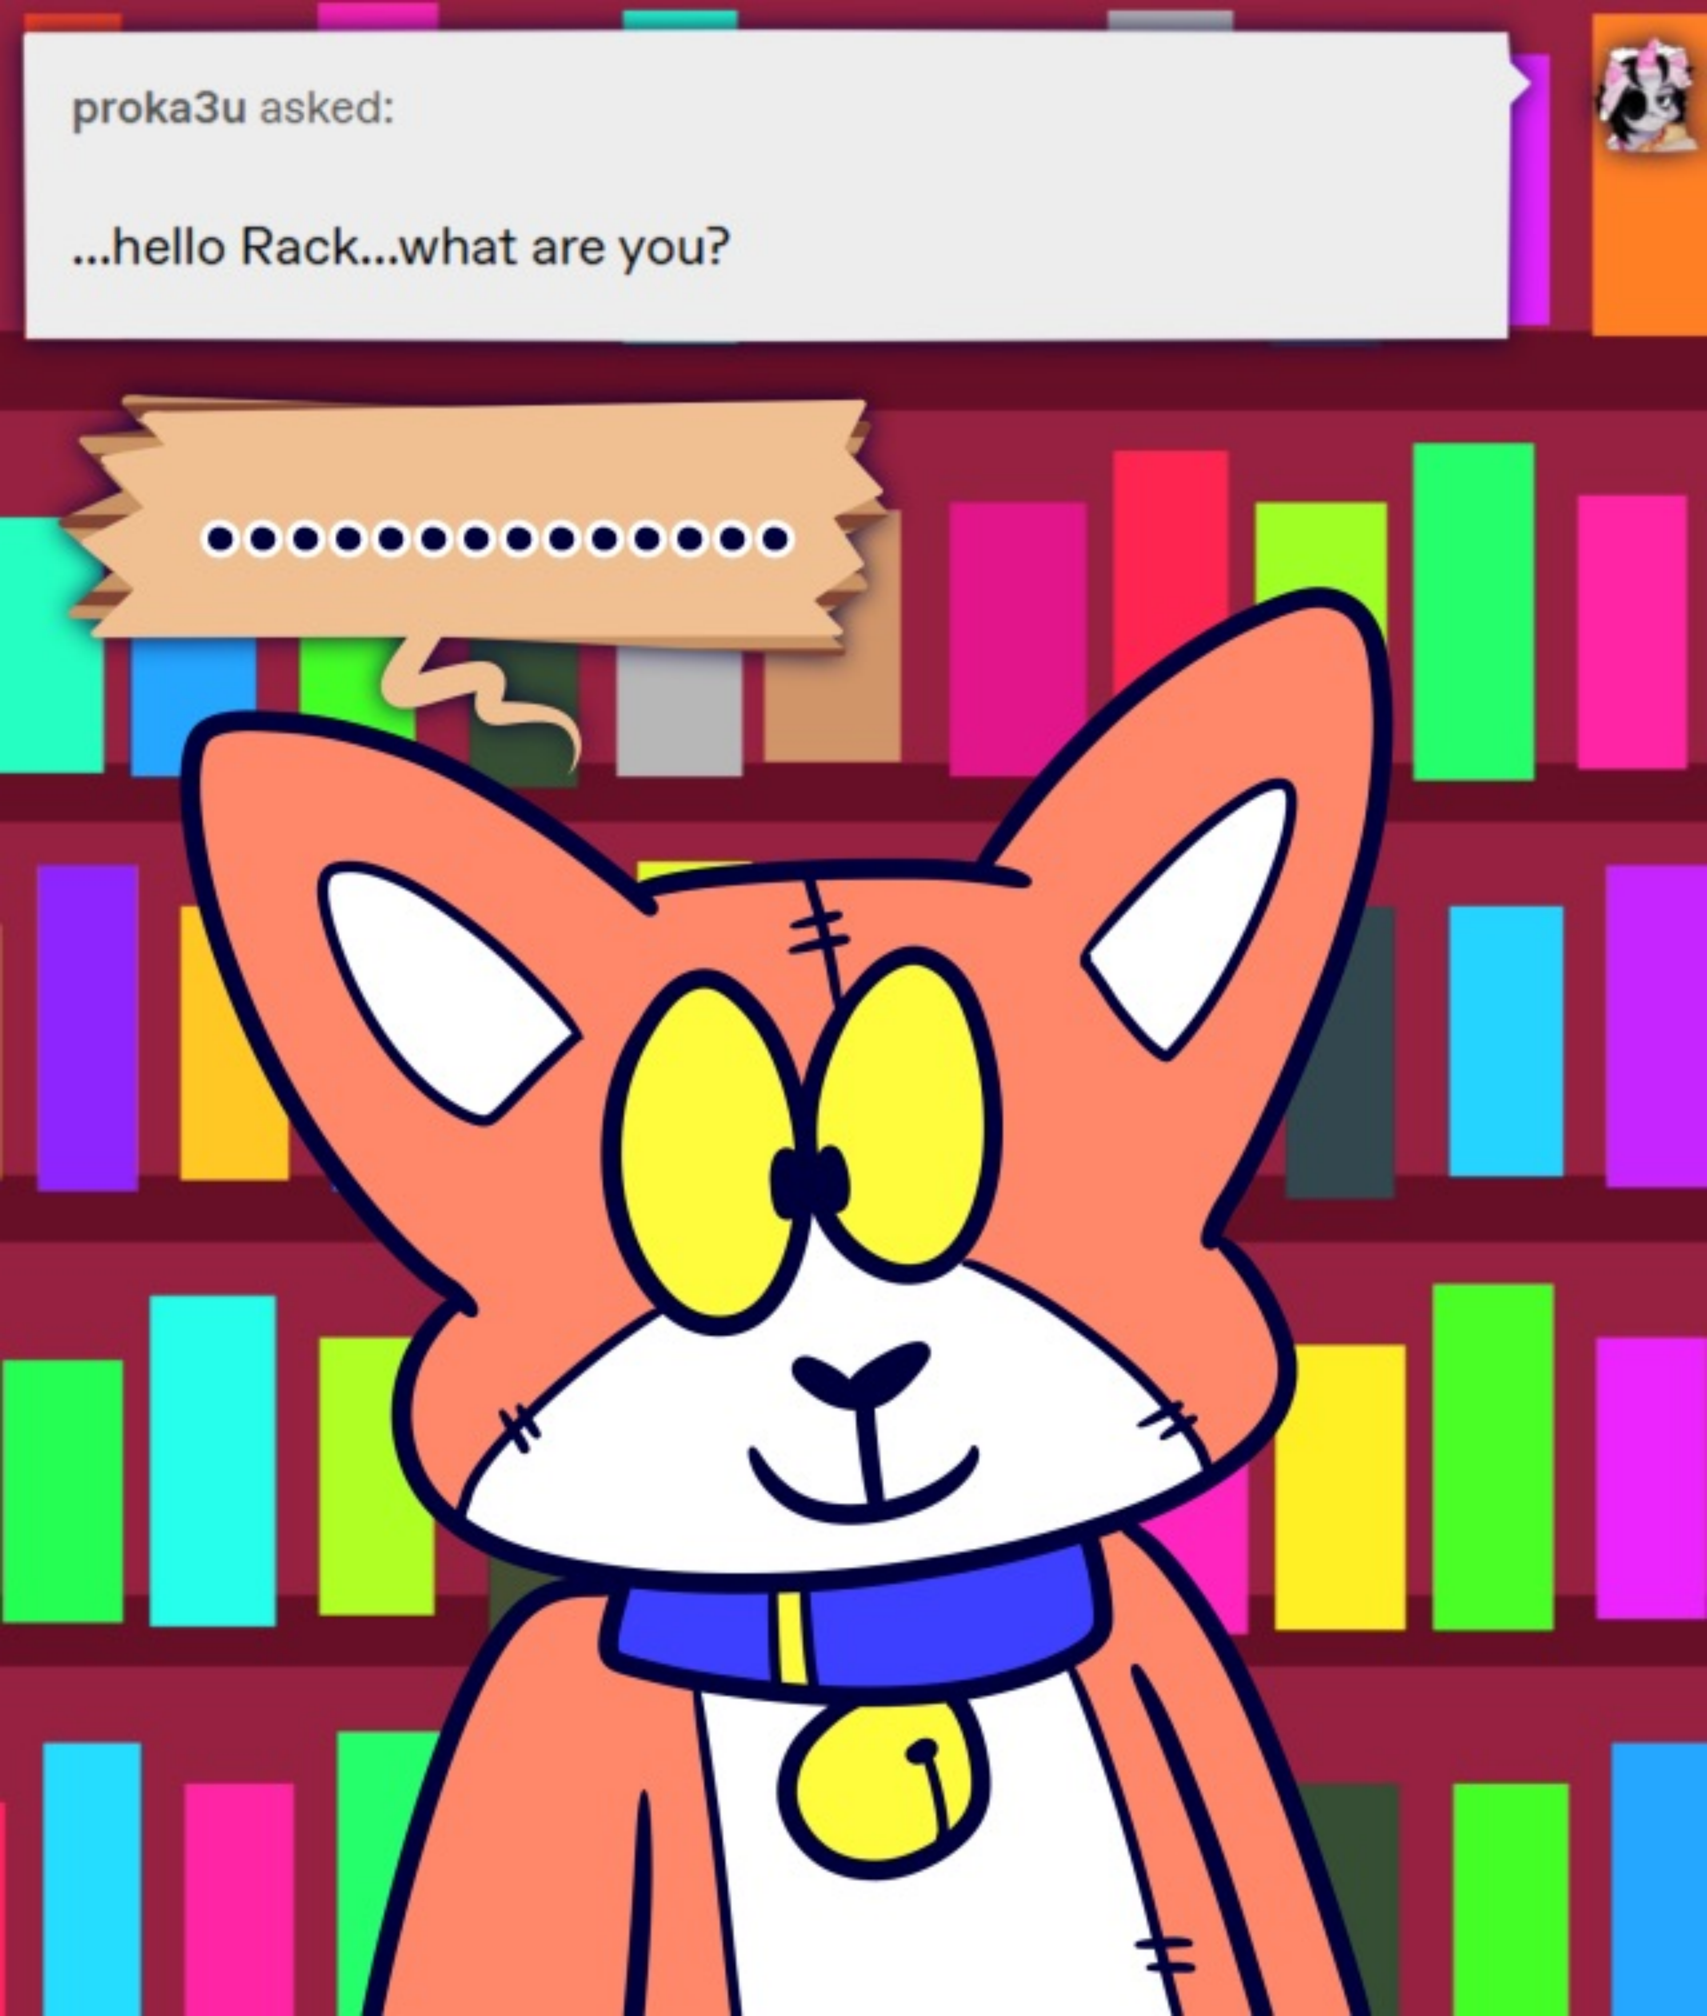
alienradiobuzz asked:

Hey Rack!!!! What have you been up to?

Quite a bit, but off the top of my head...

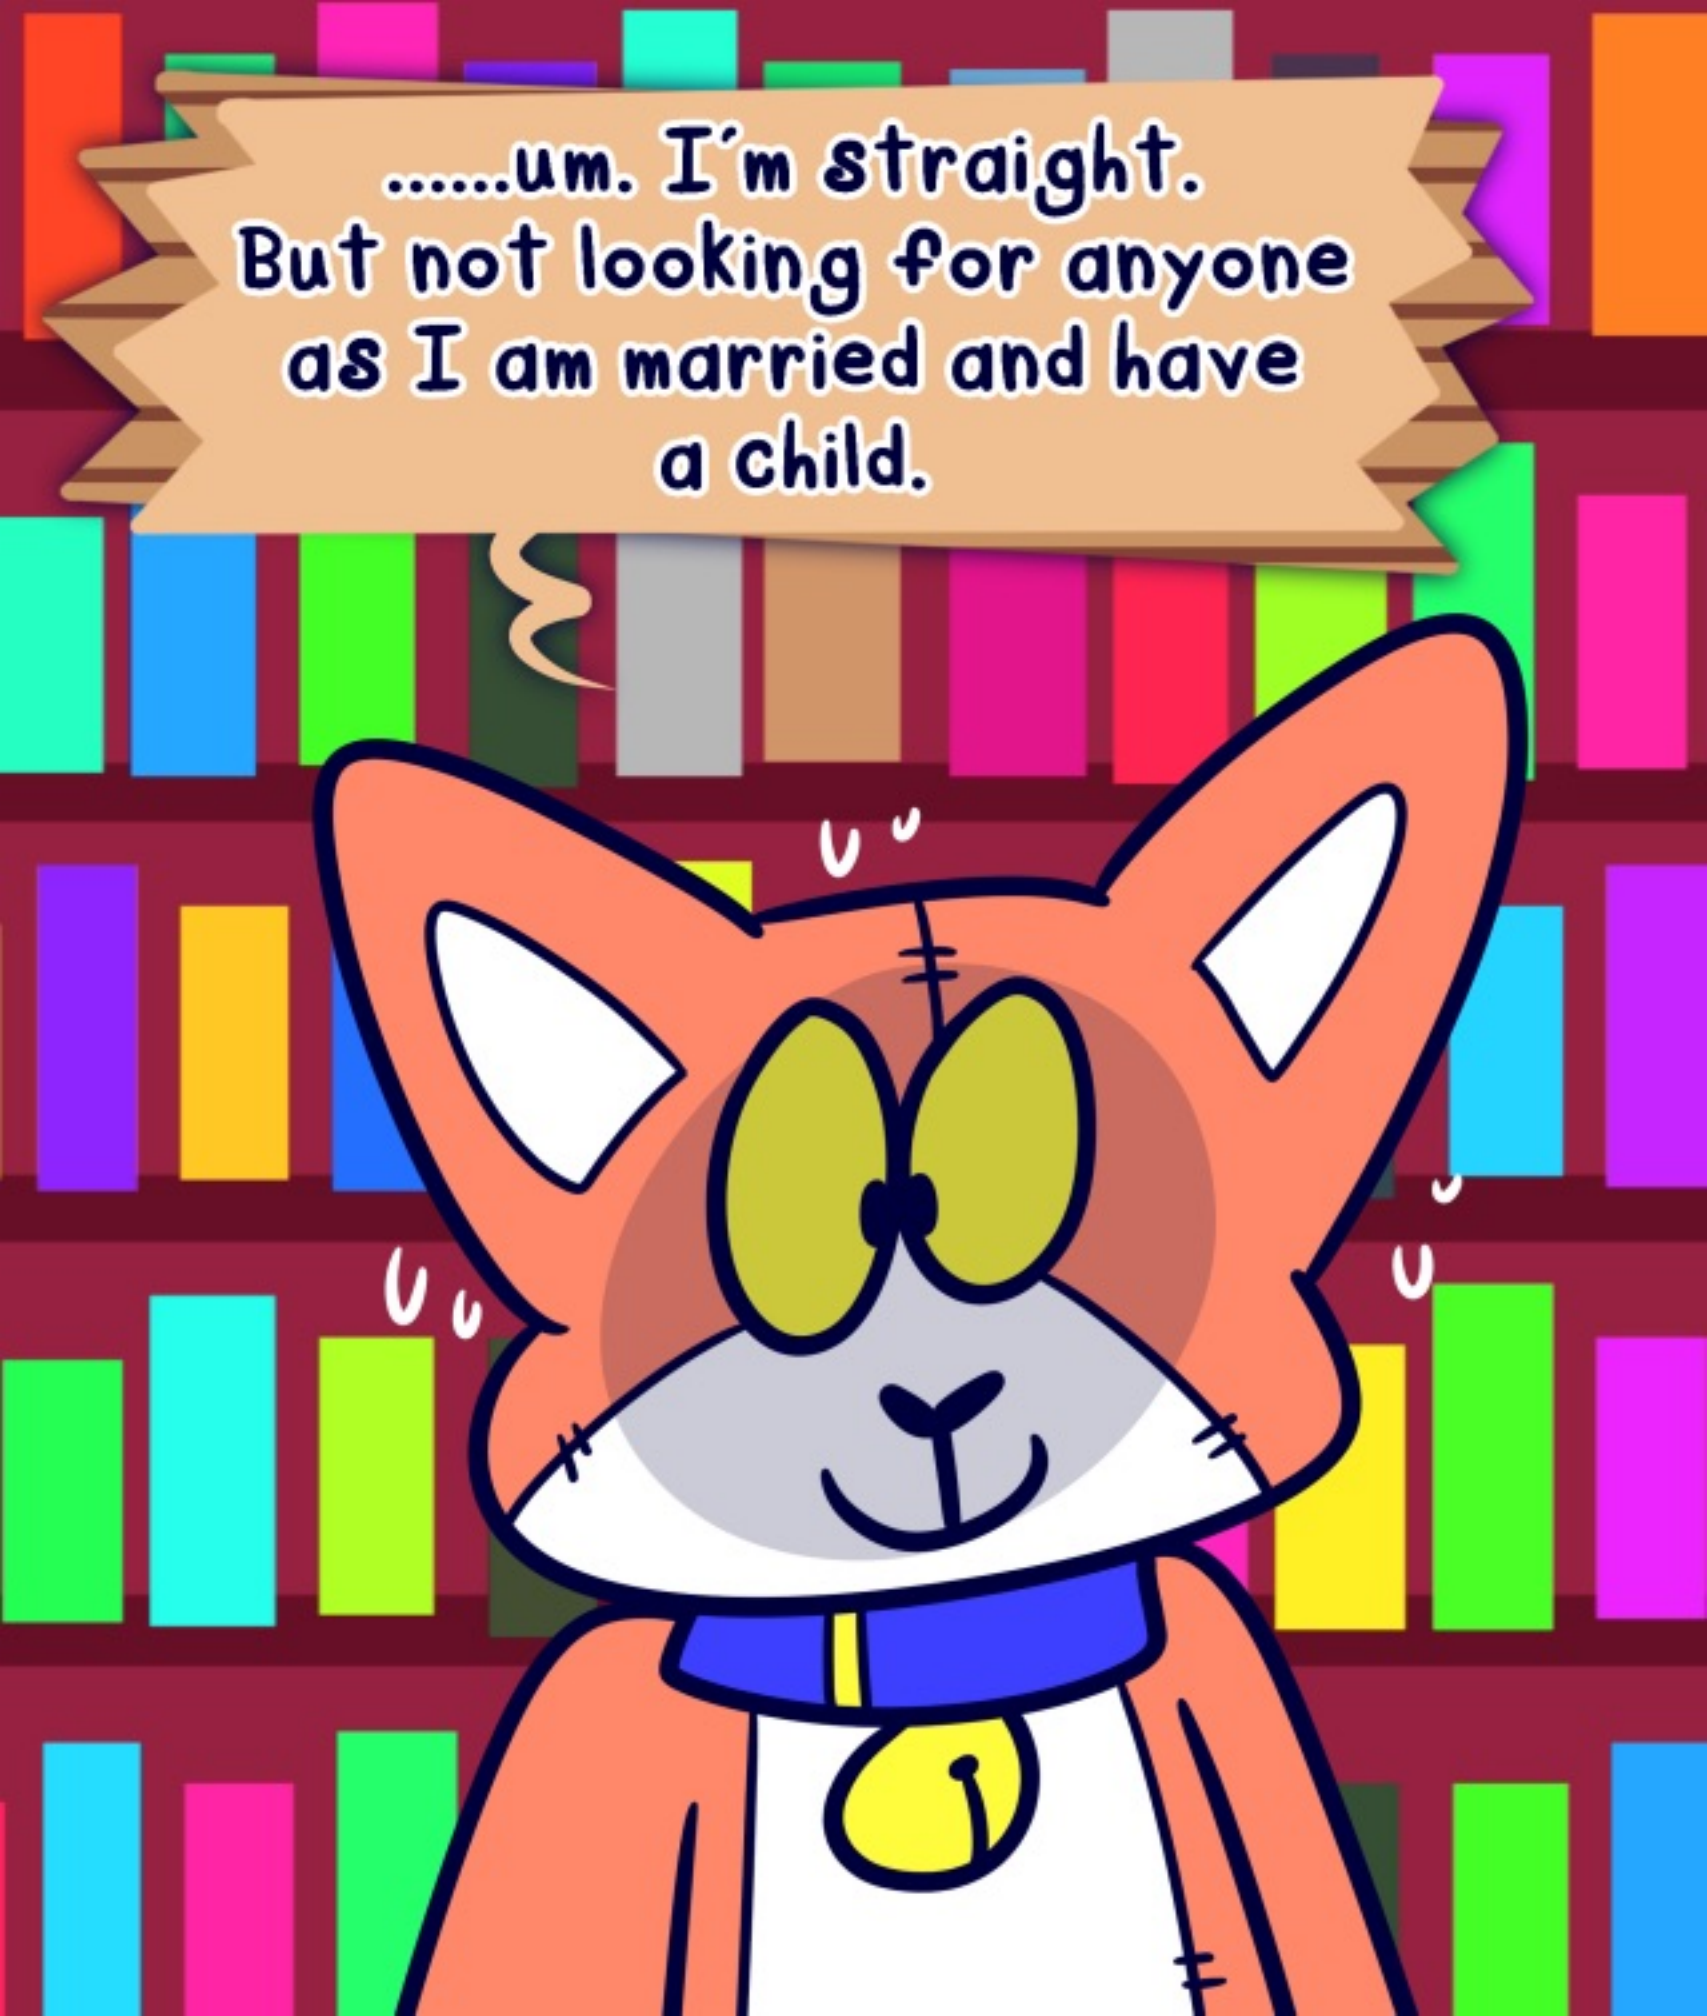


I´ve received new book shipments, labeled them accordingly, added them to our library database, and arranged them on the shelves...
I think that´s mostly everything...

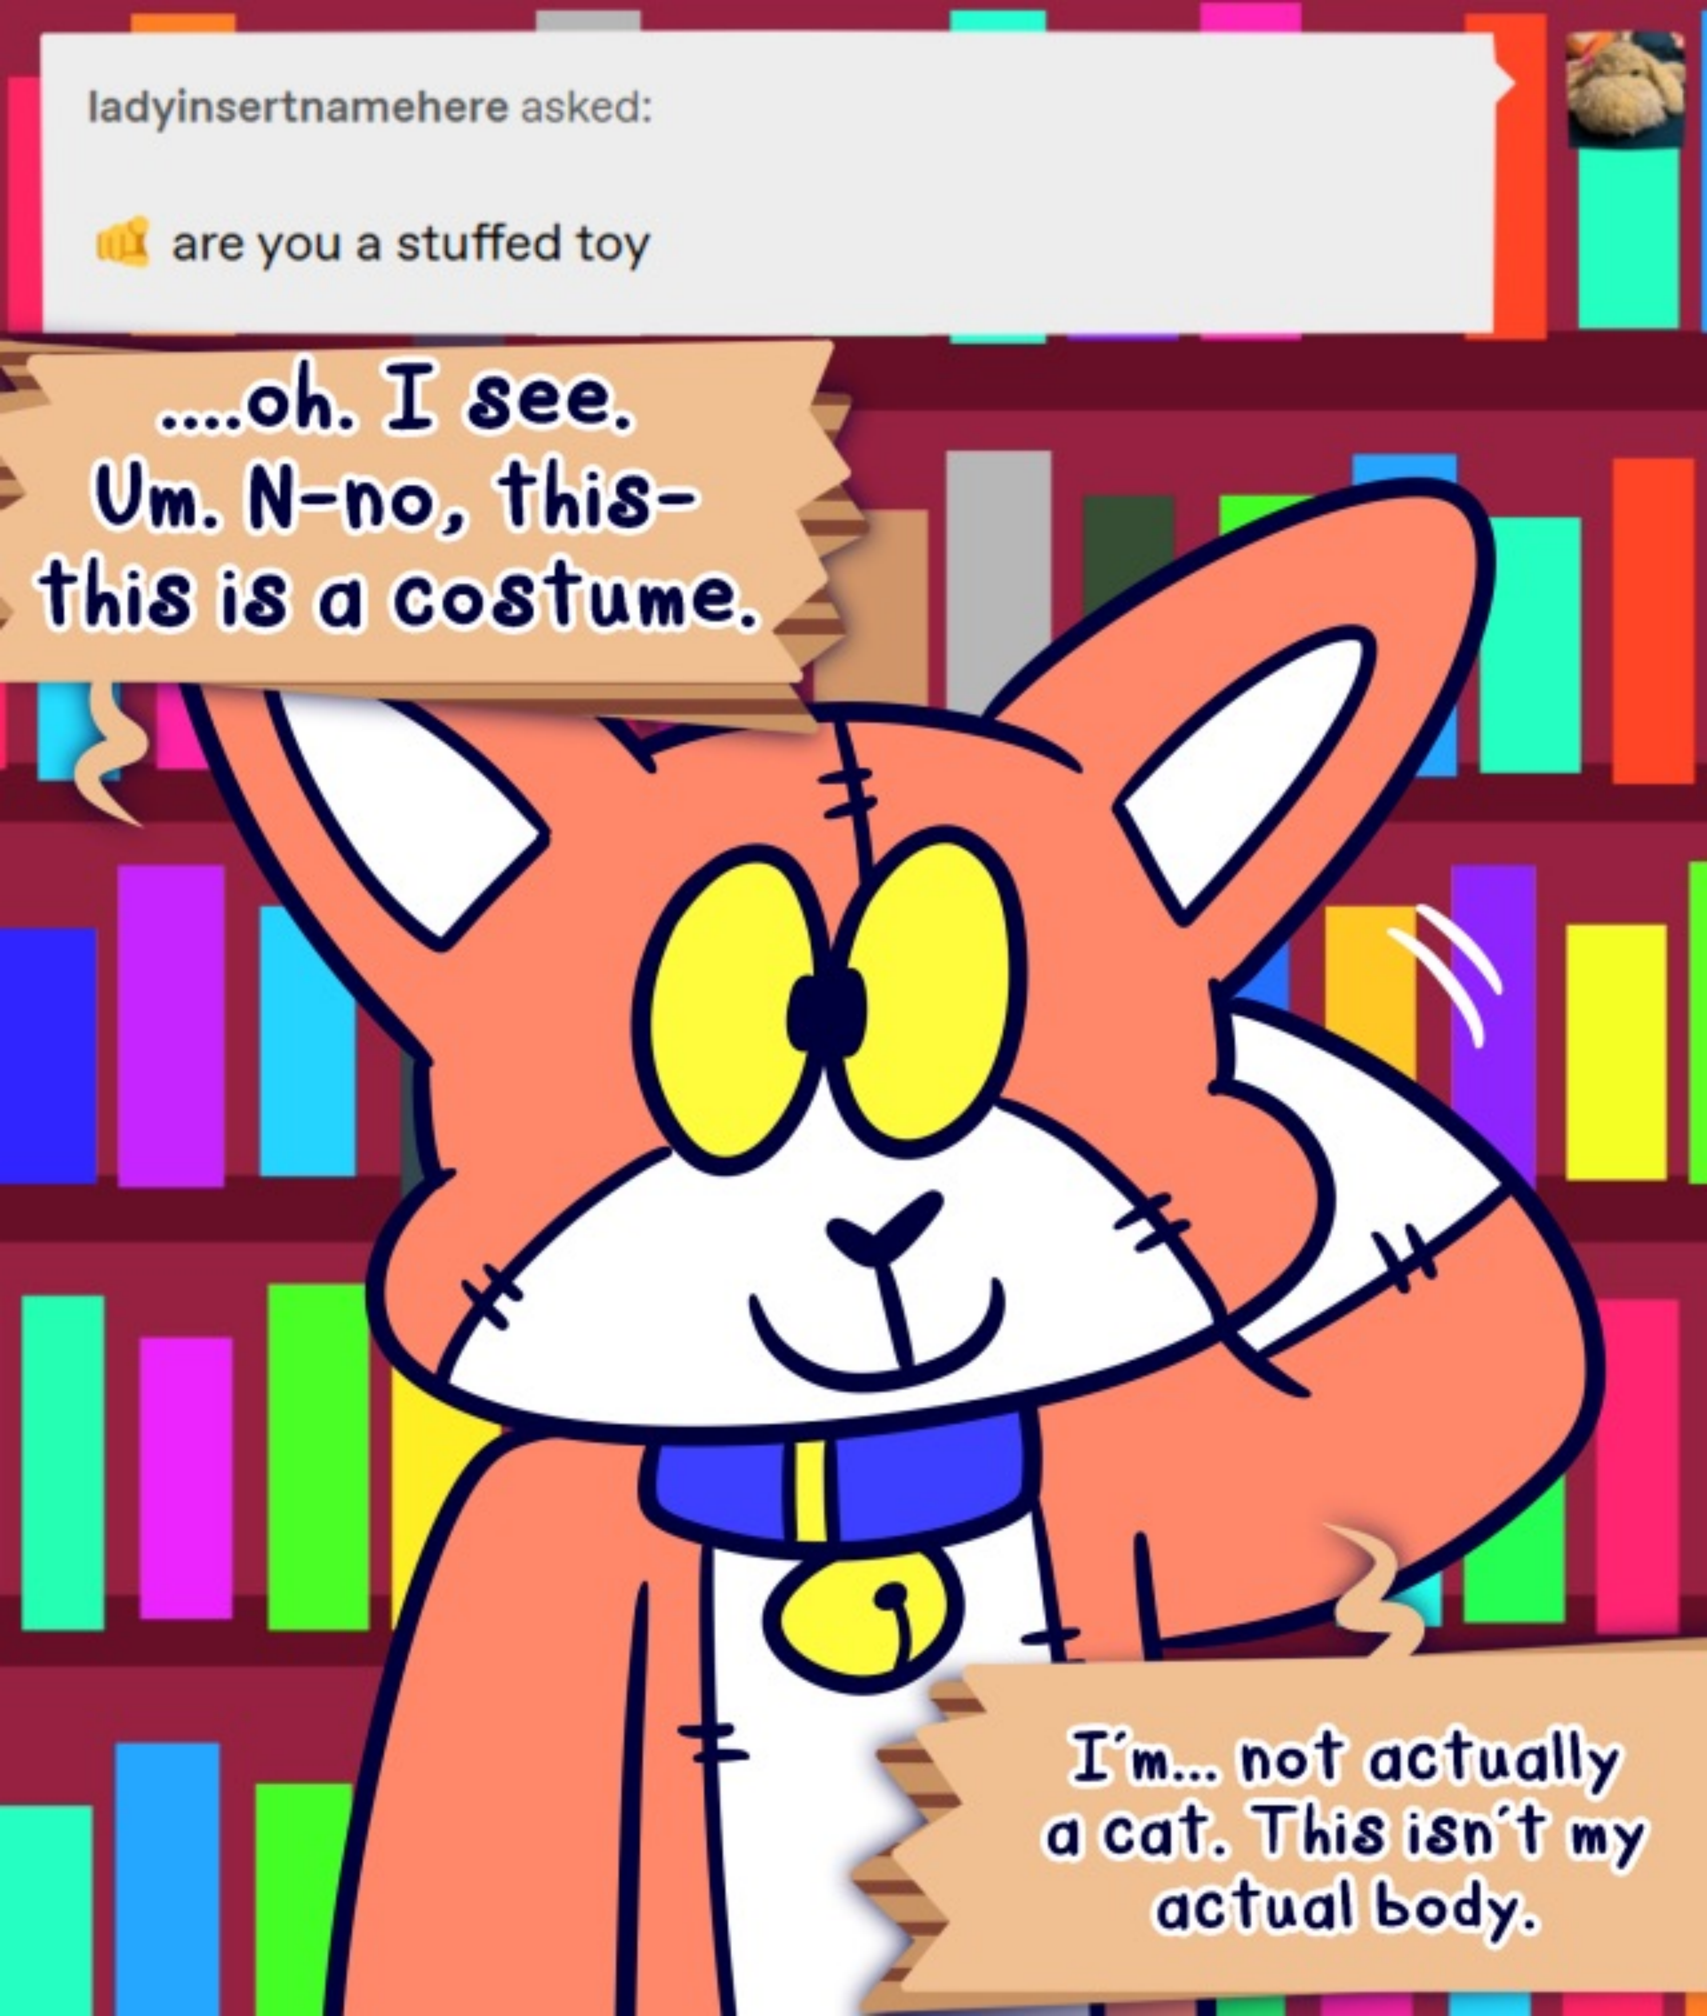


proka3u asked:

...hello Rack...what are you?



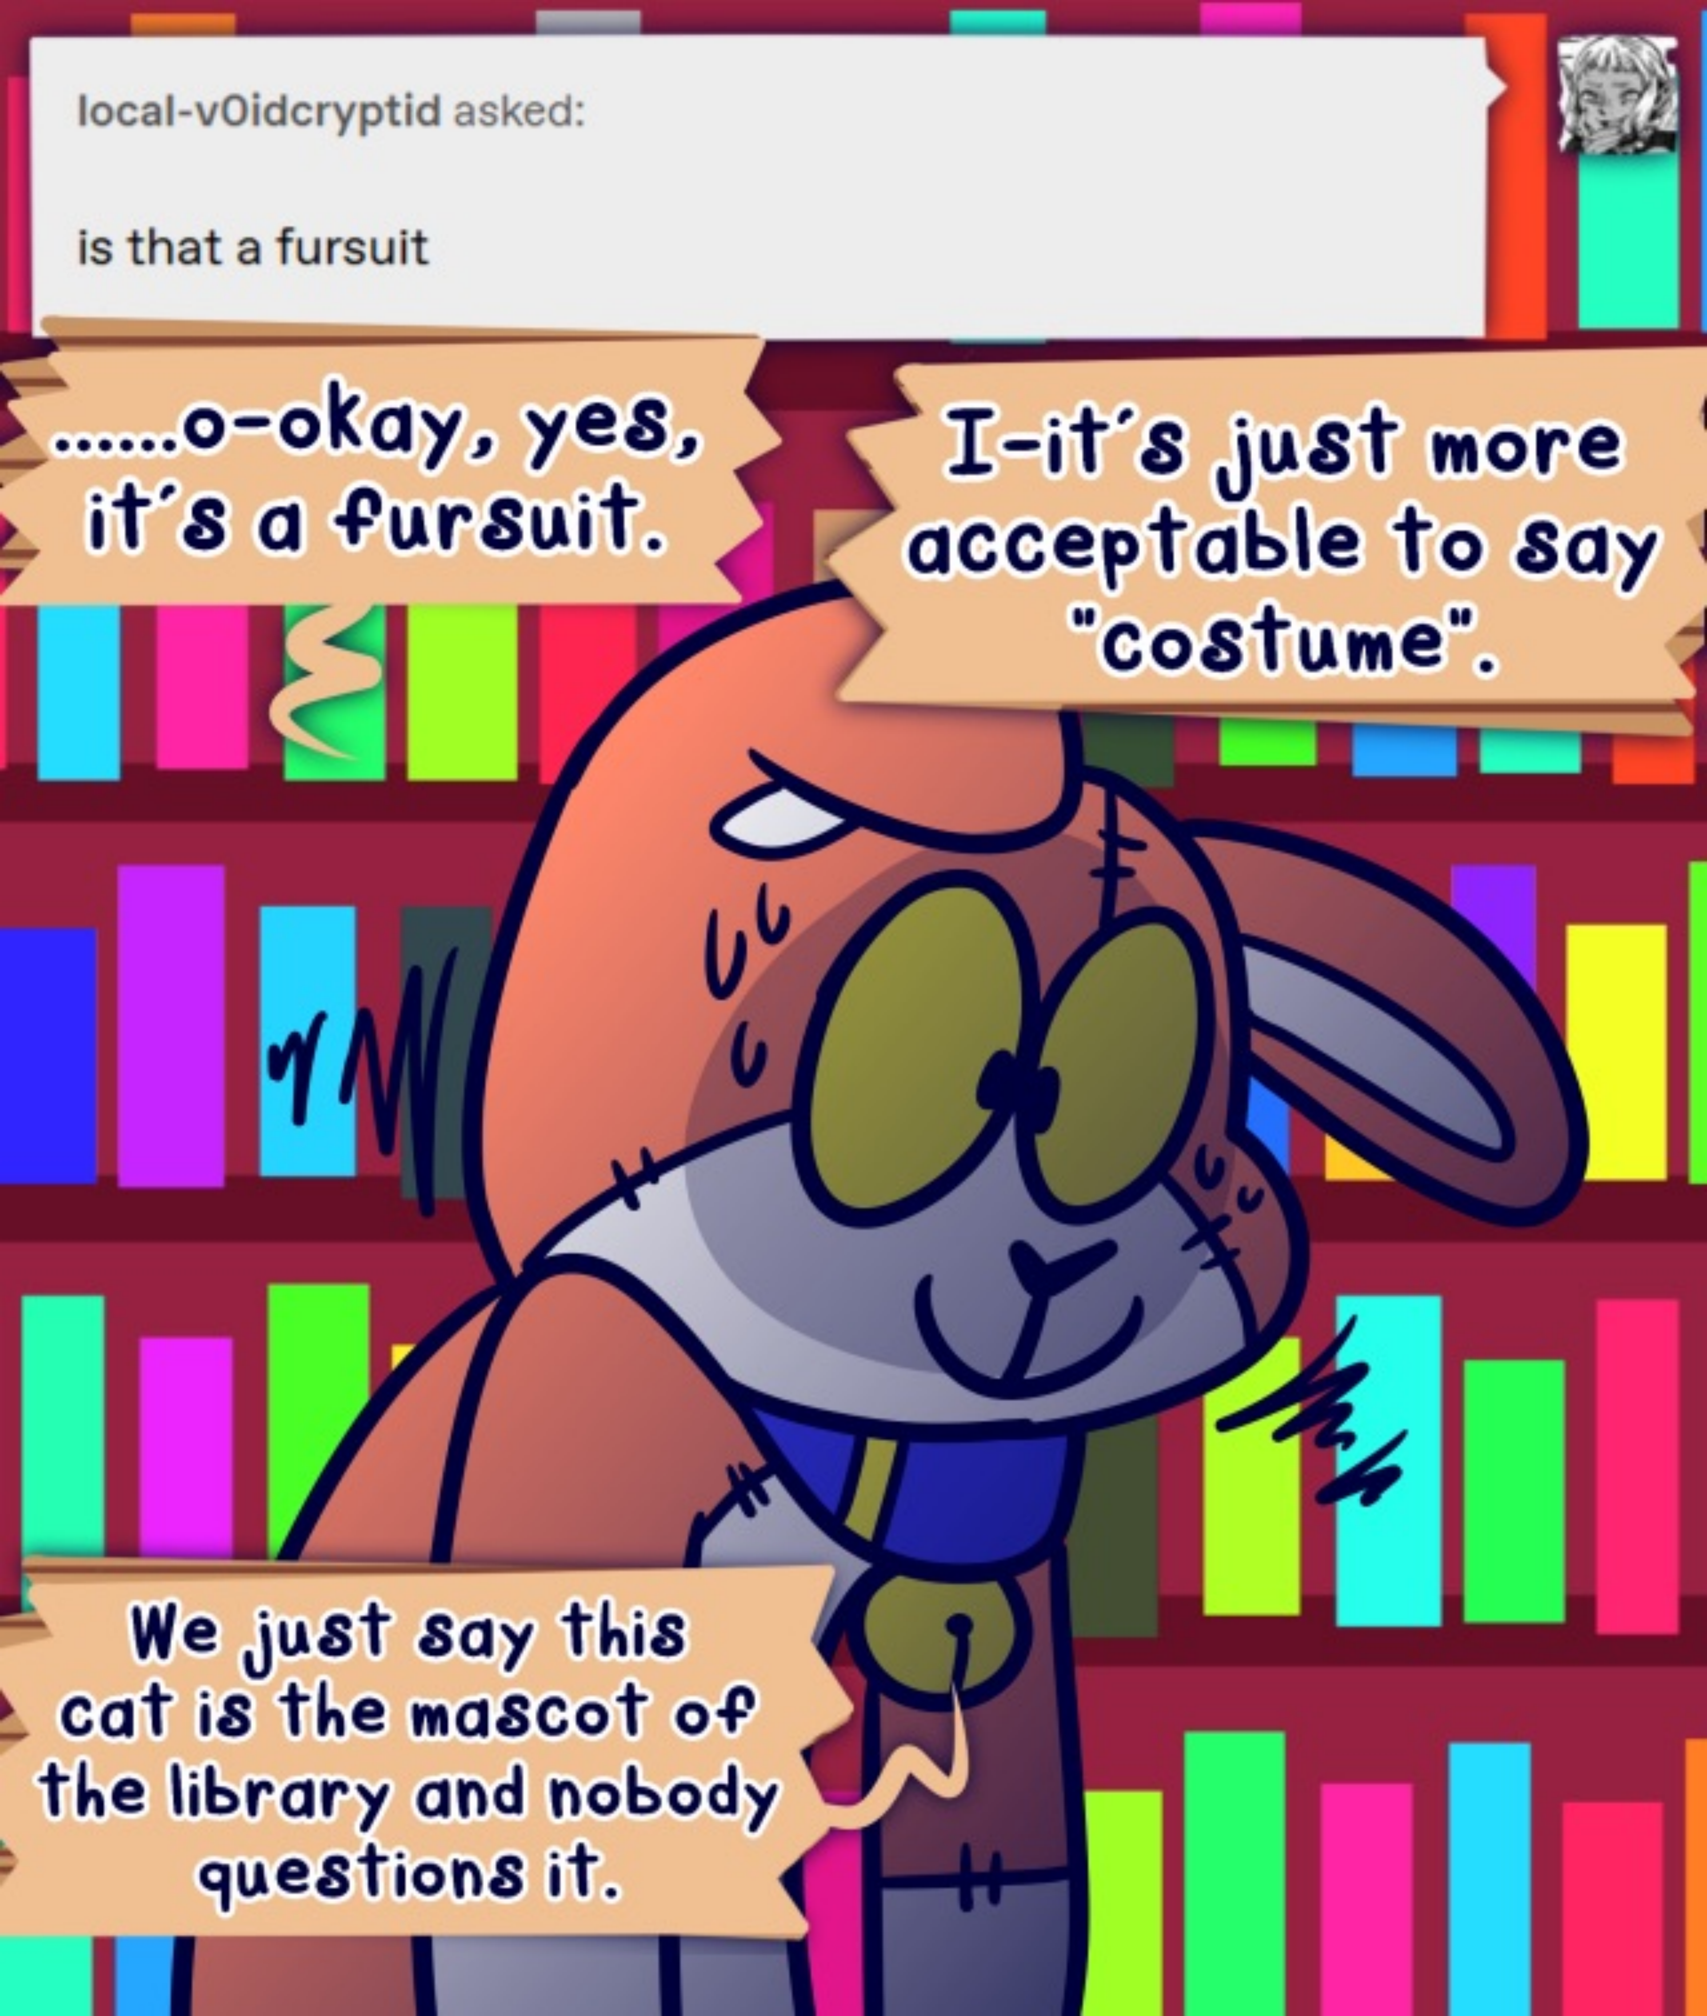
......um. I'm straight.
But not looking for anyone as I am married and have a child.



ladyinsertnamehere asked:

👊 are you a stuffed toy

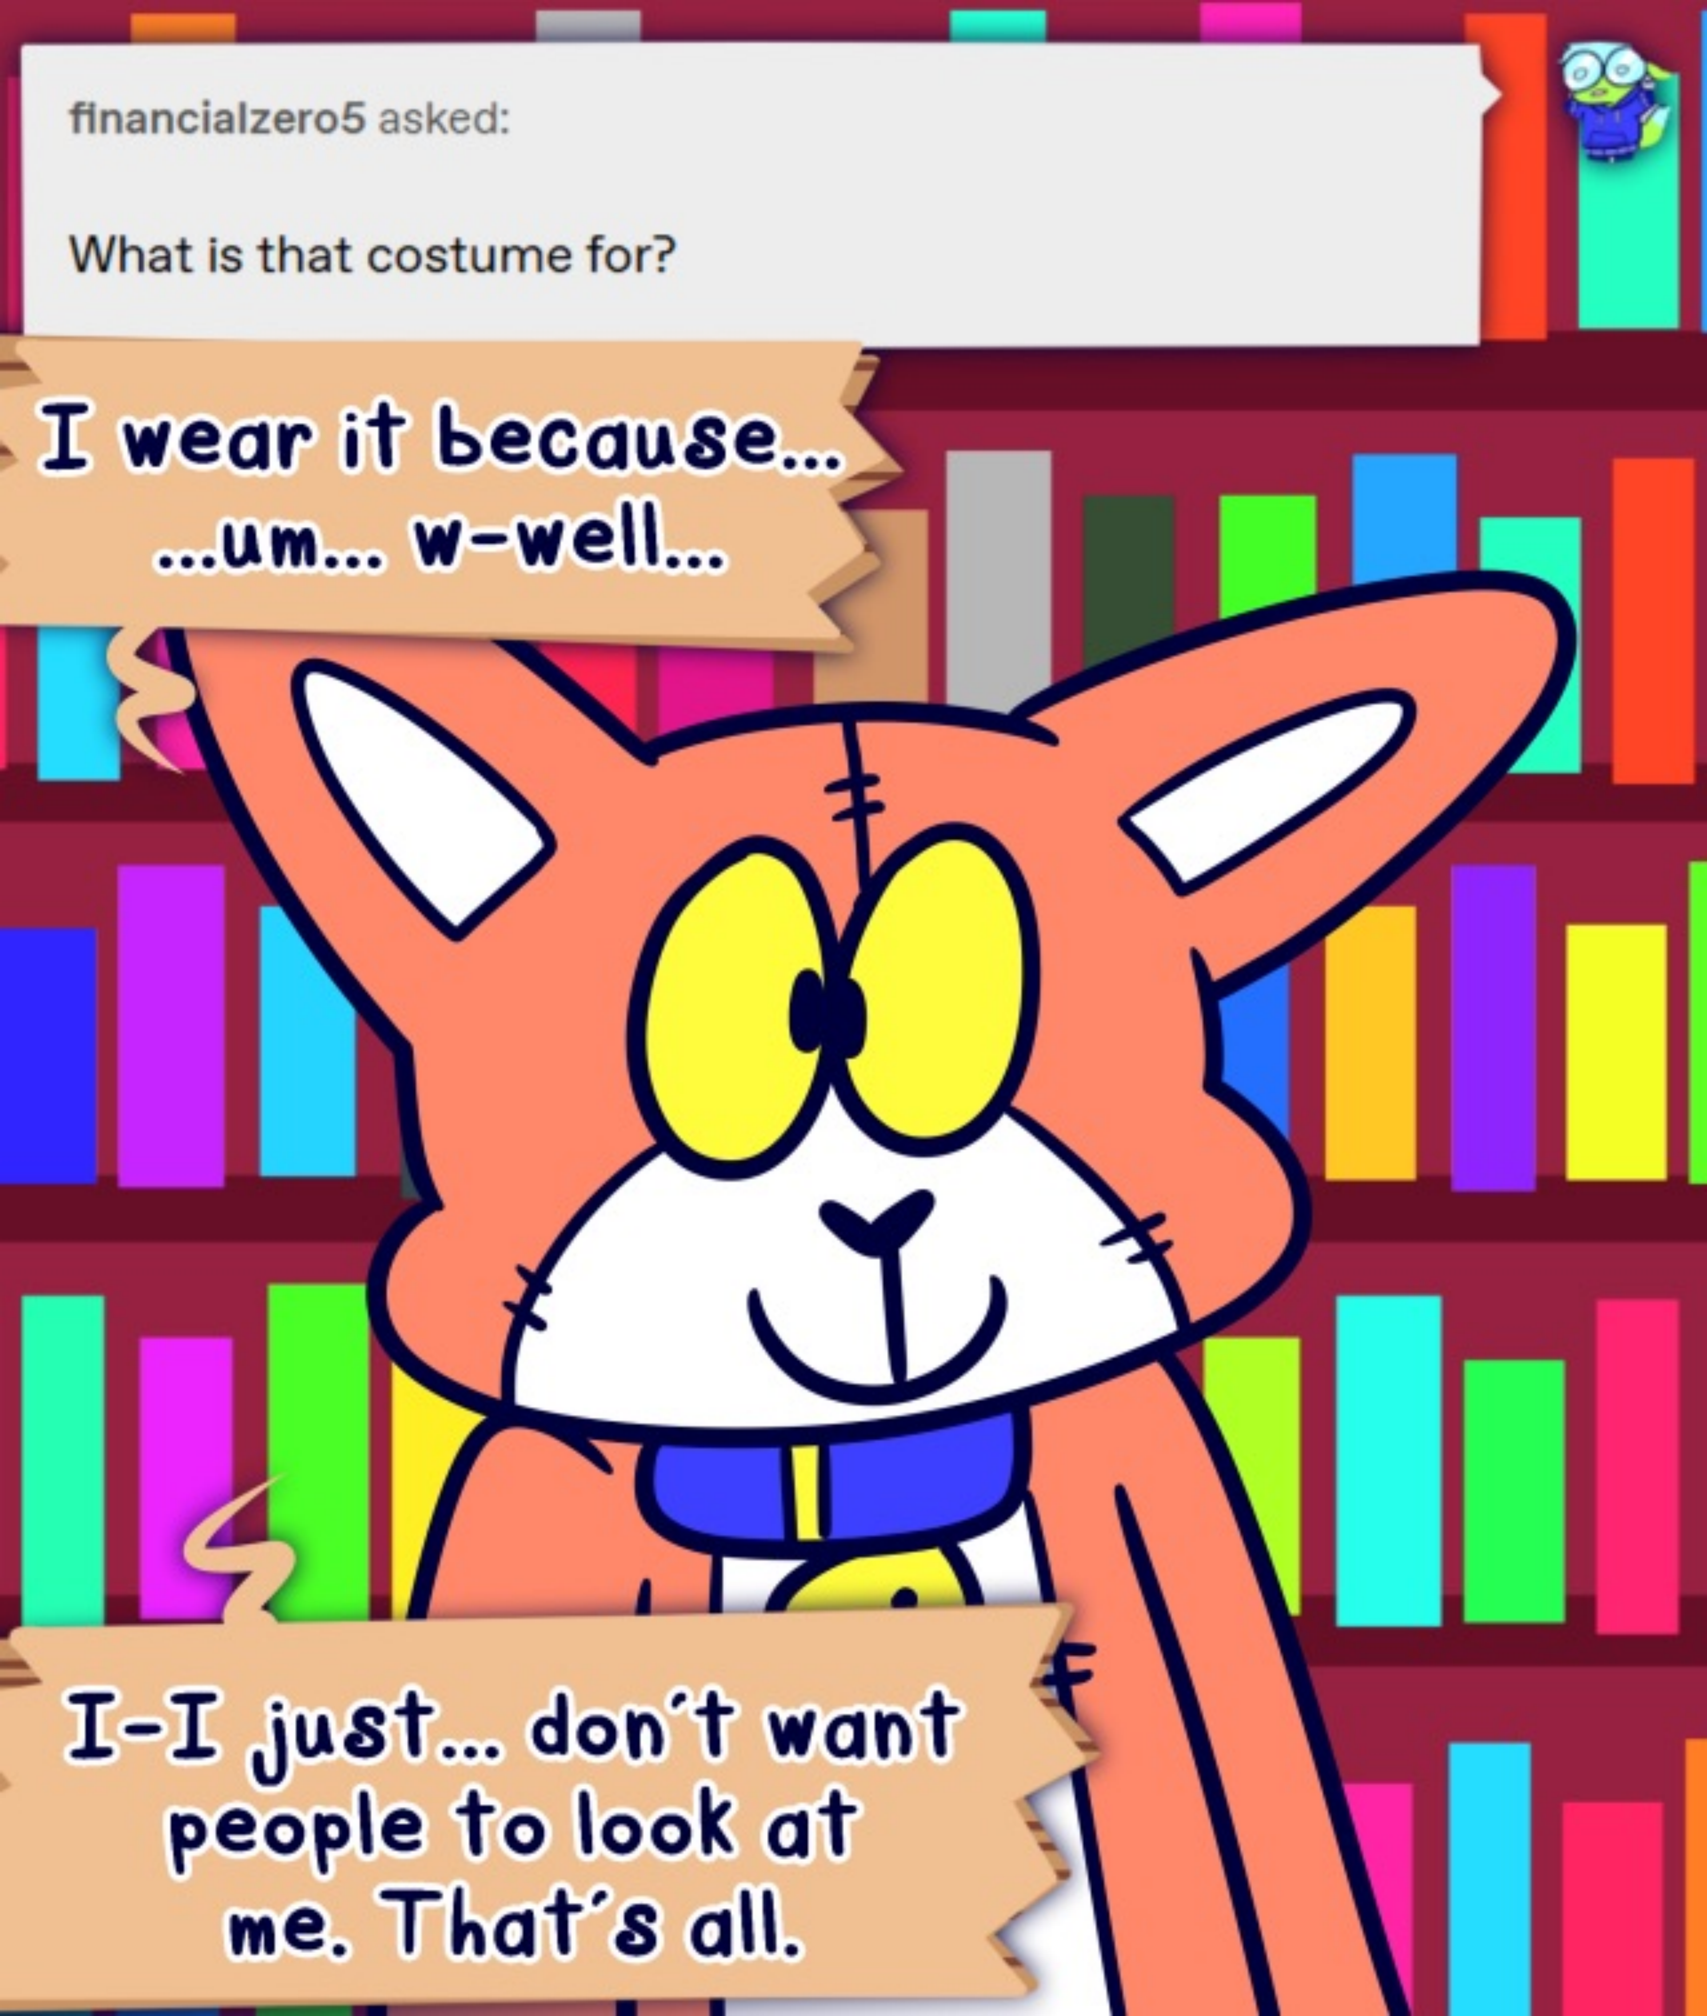
....oh. I see. Um. N-no, this- this is a costume.
I'm... not actually a cat. This isn't my actual body.



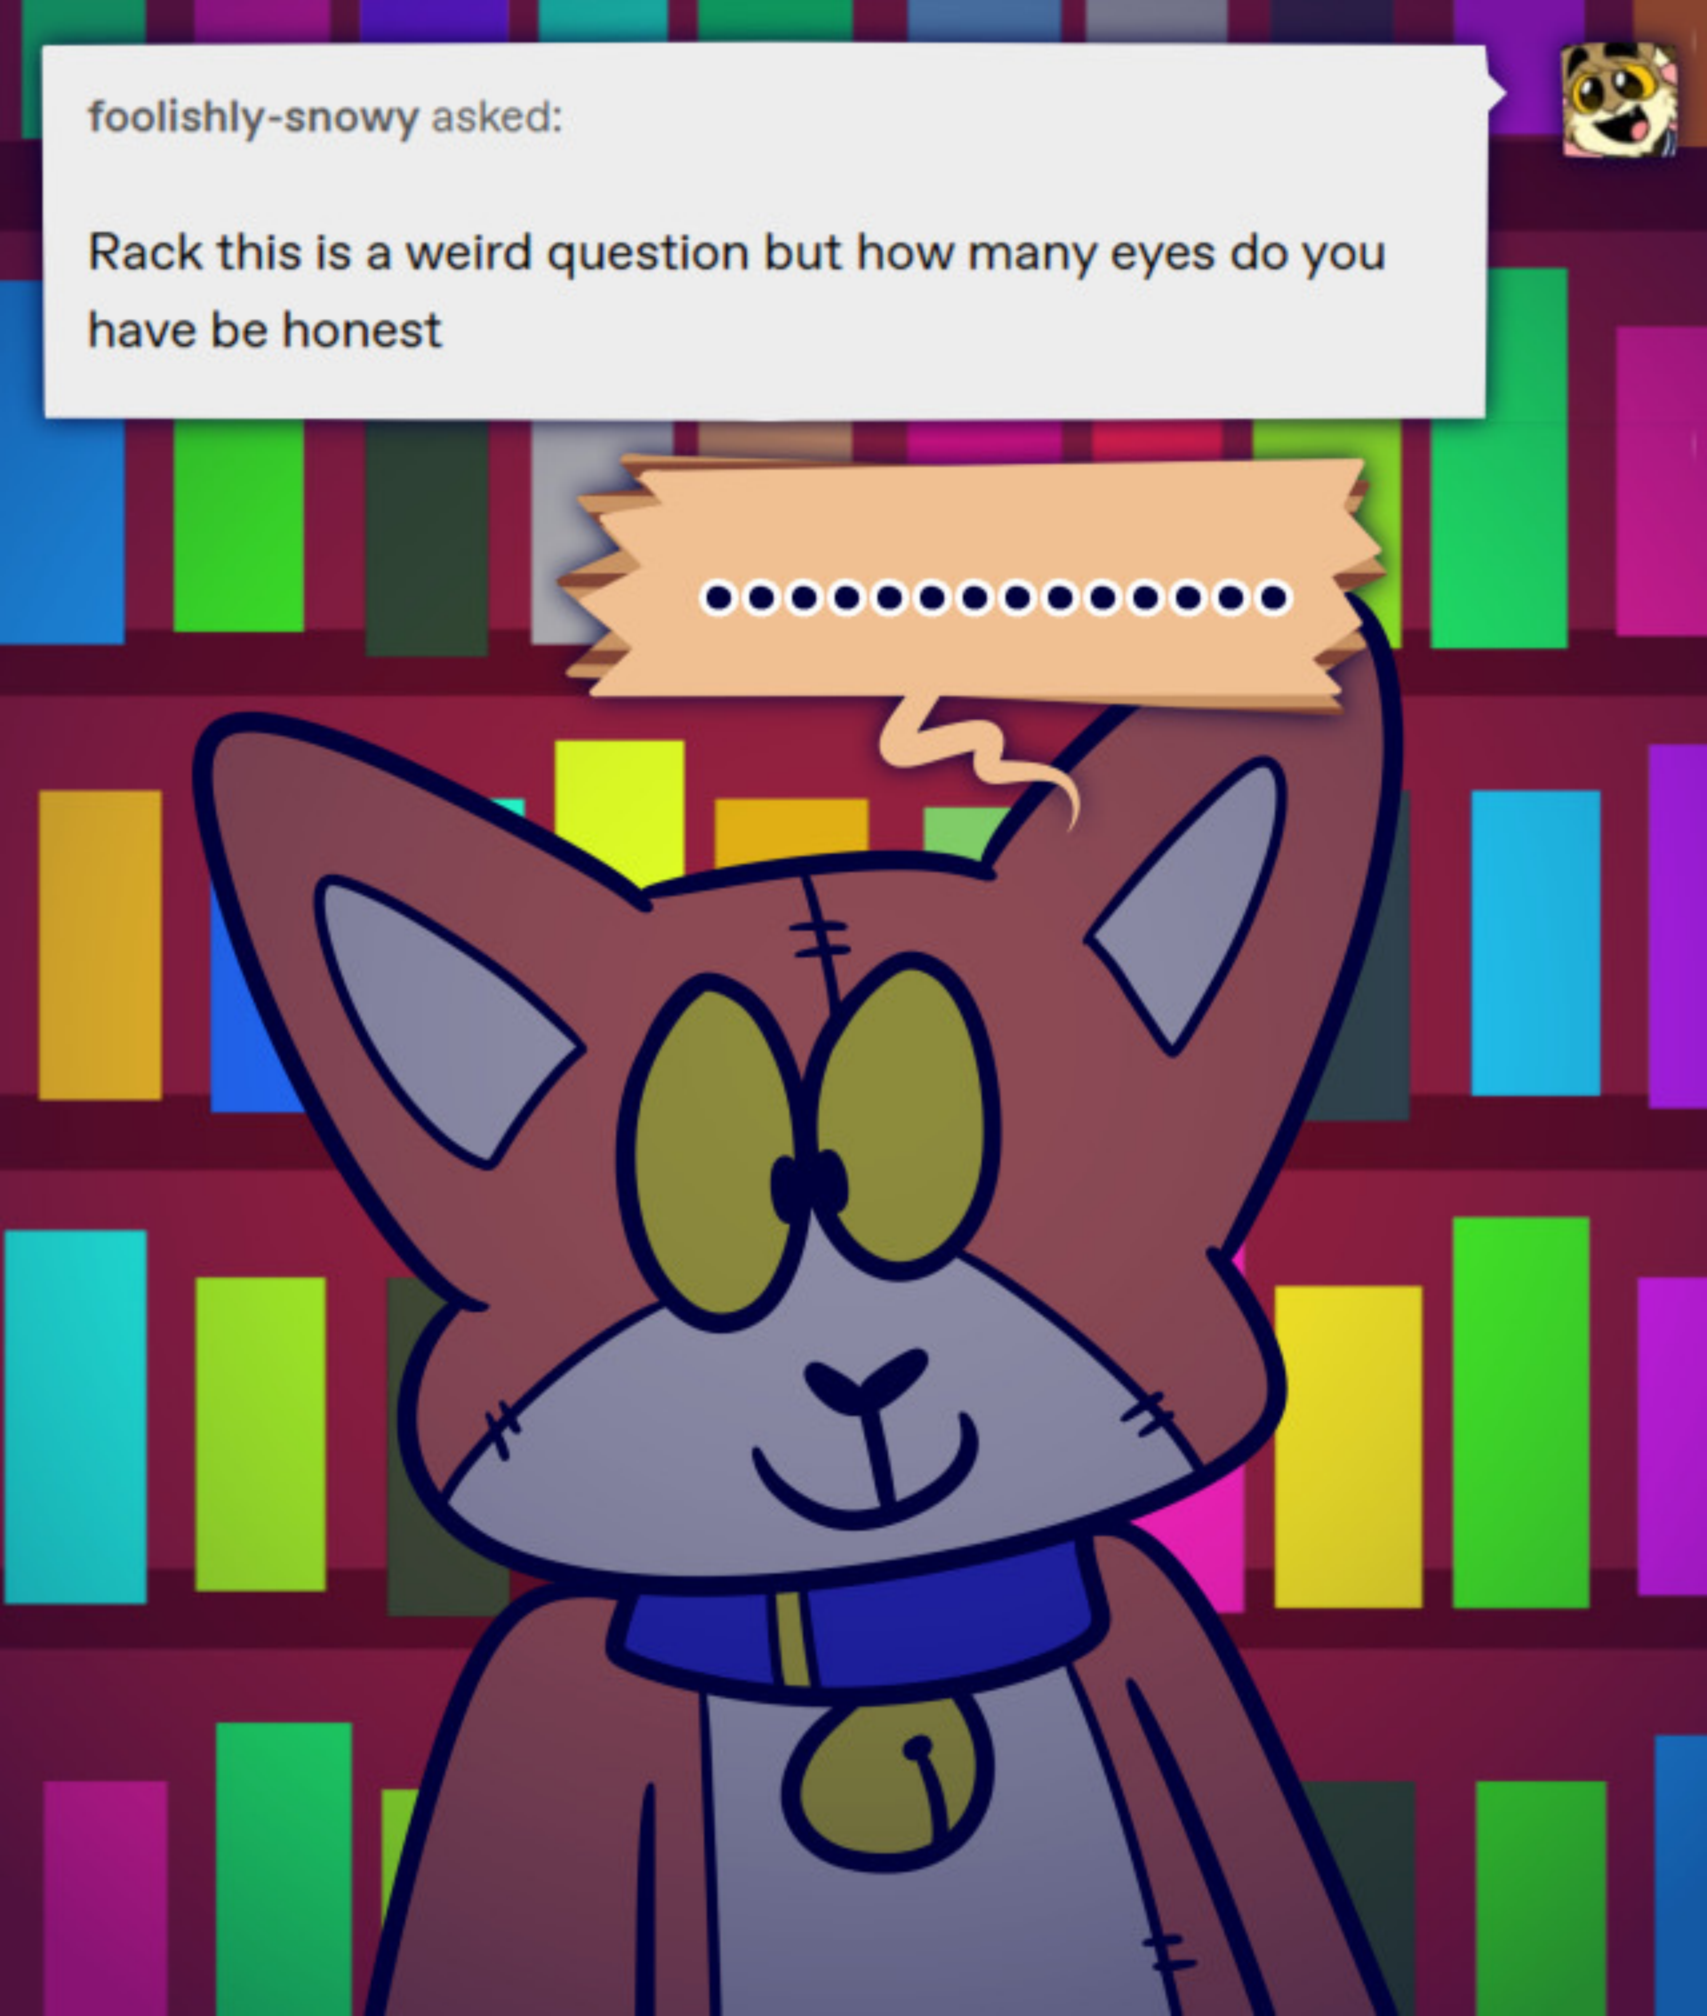
local-v0idcryptid asked:

is that a fursuit

......o-okay, yes, it's a fursuit.
I-it's just more acceptable to say "costume".
We just say this cat is the mascot of the library and nobody questions it.

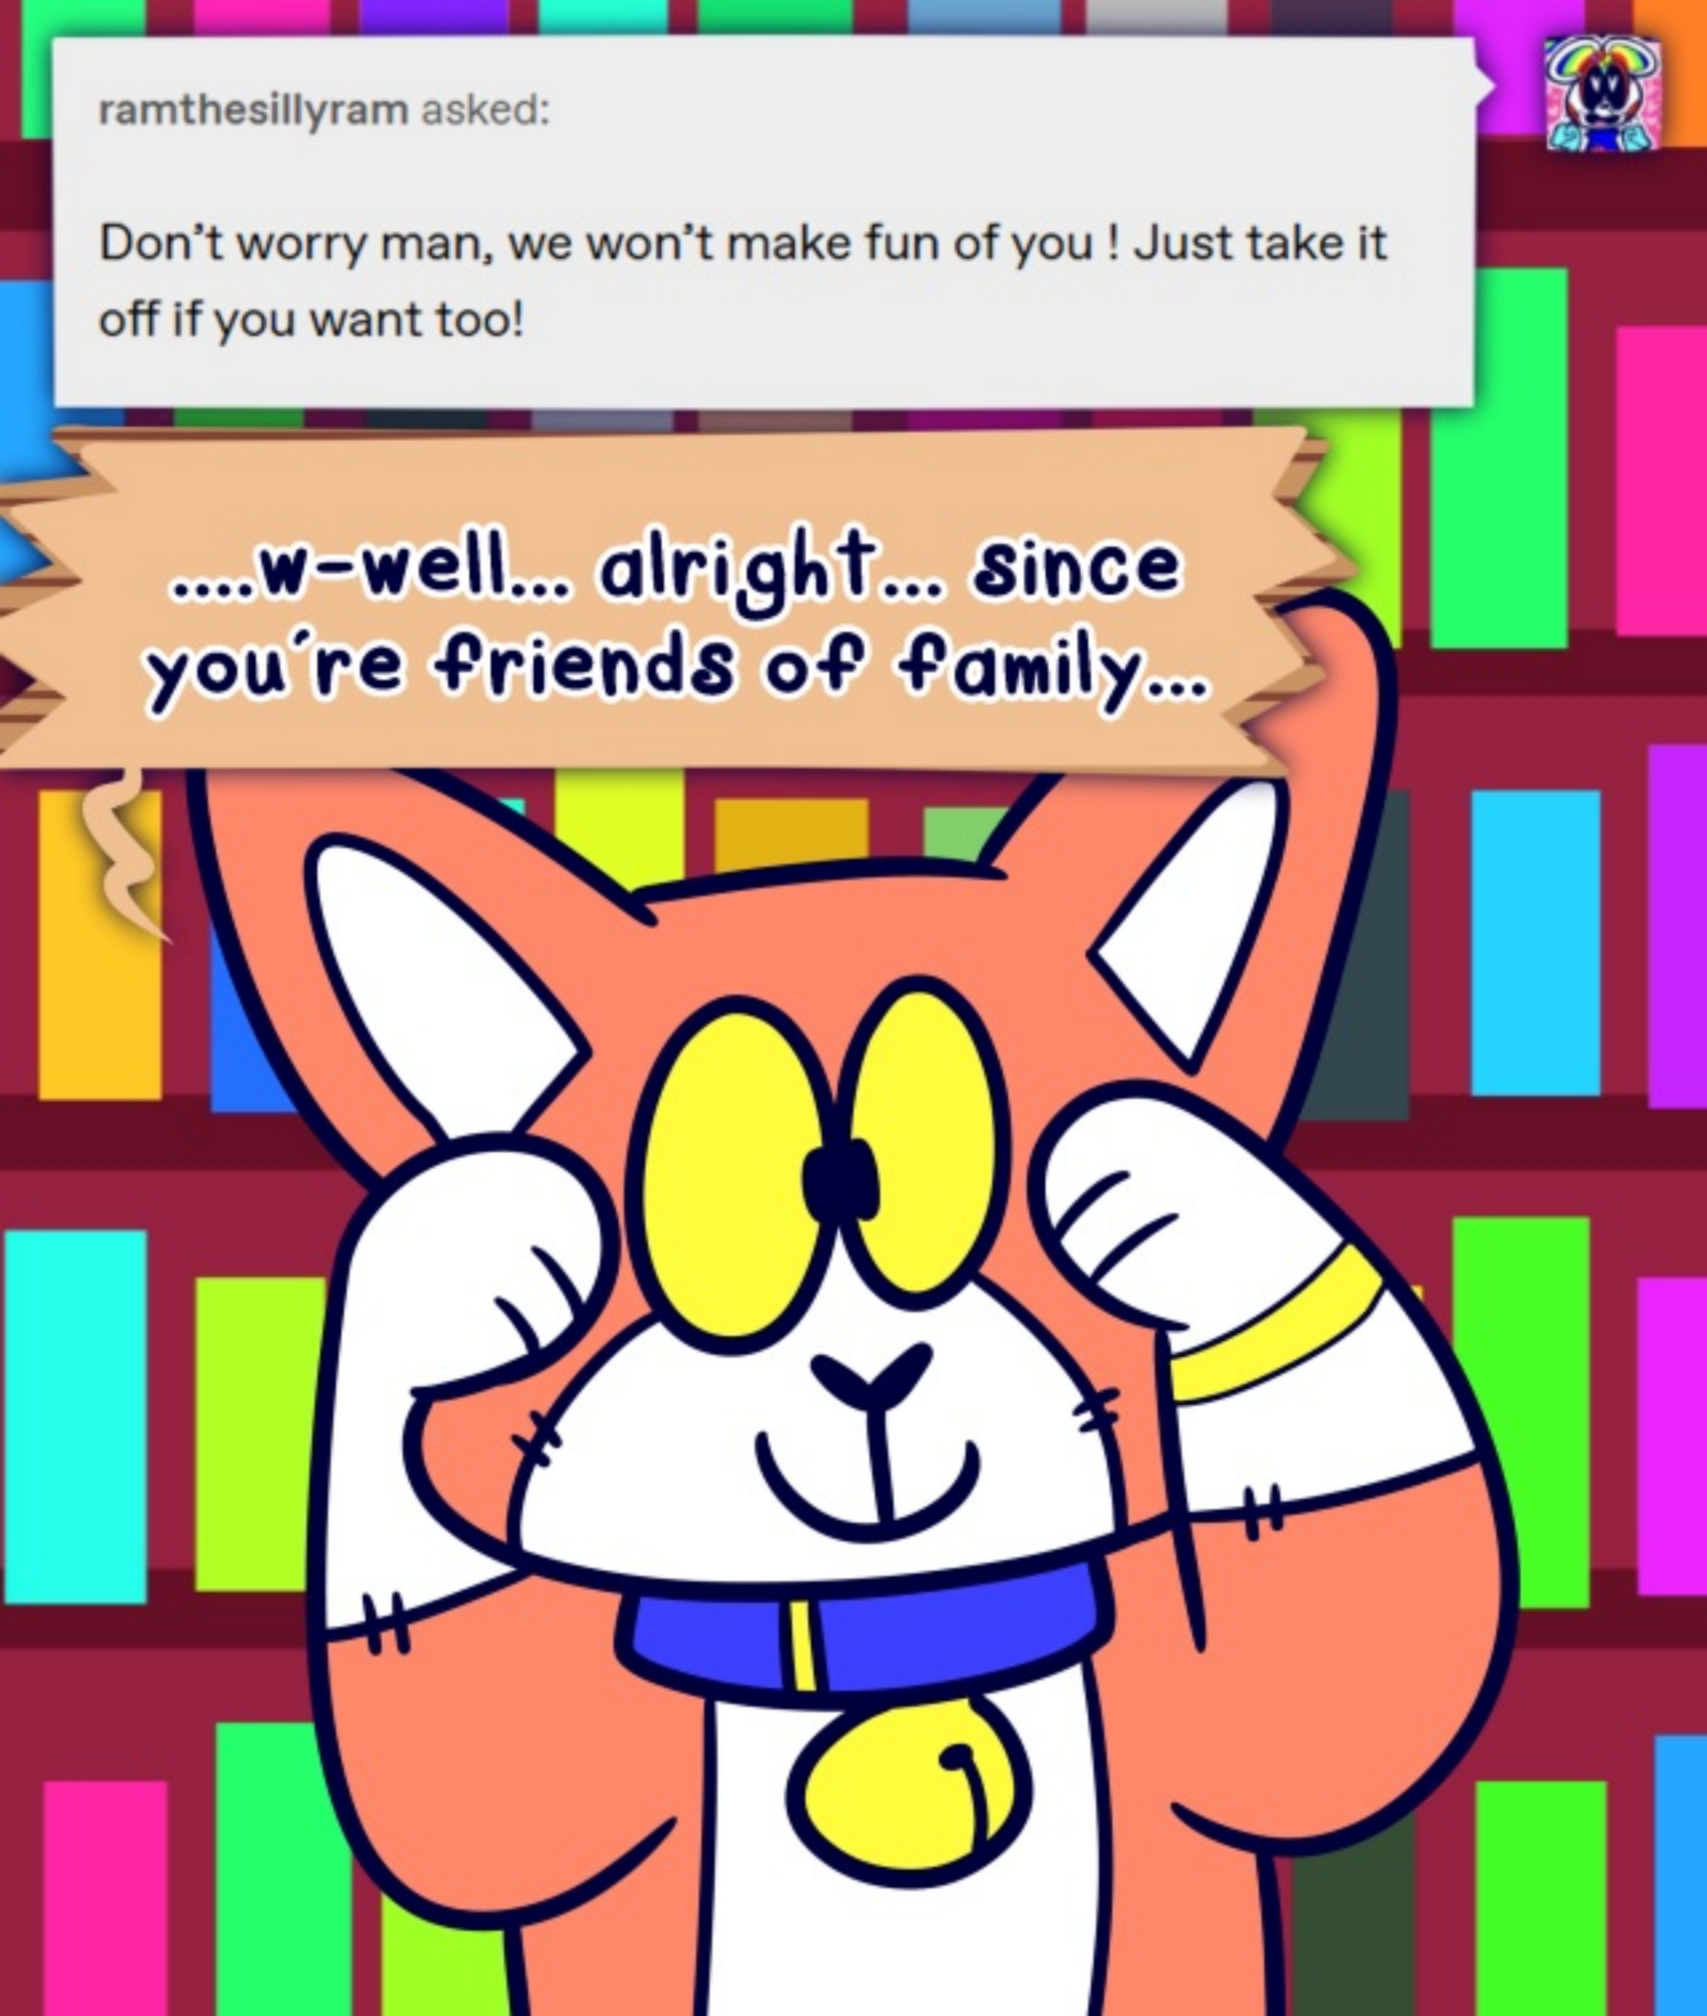


financialzero5 asked:
What is that costume for?
I wear it because... ...um... w-well...
I-I just... don't want people to look at me. That's all.



foolishly-snowy asked:

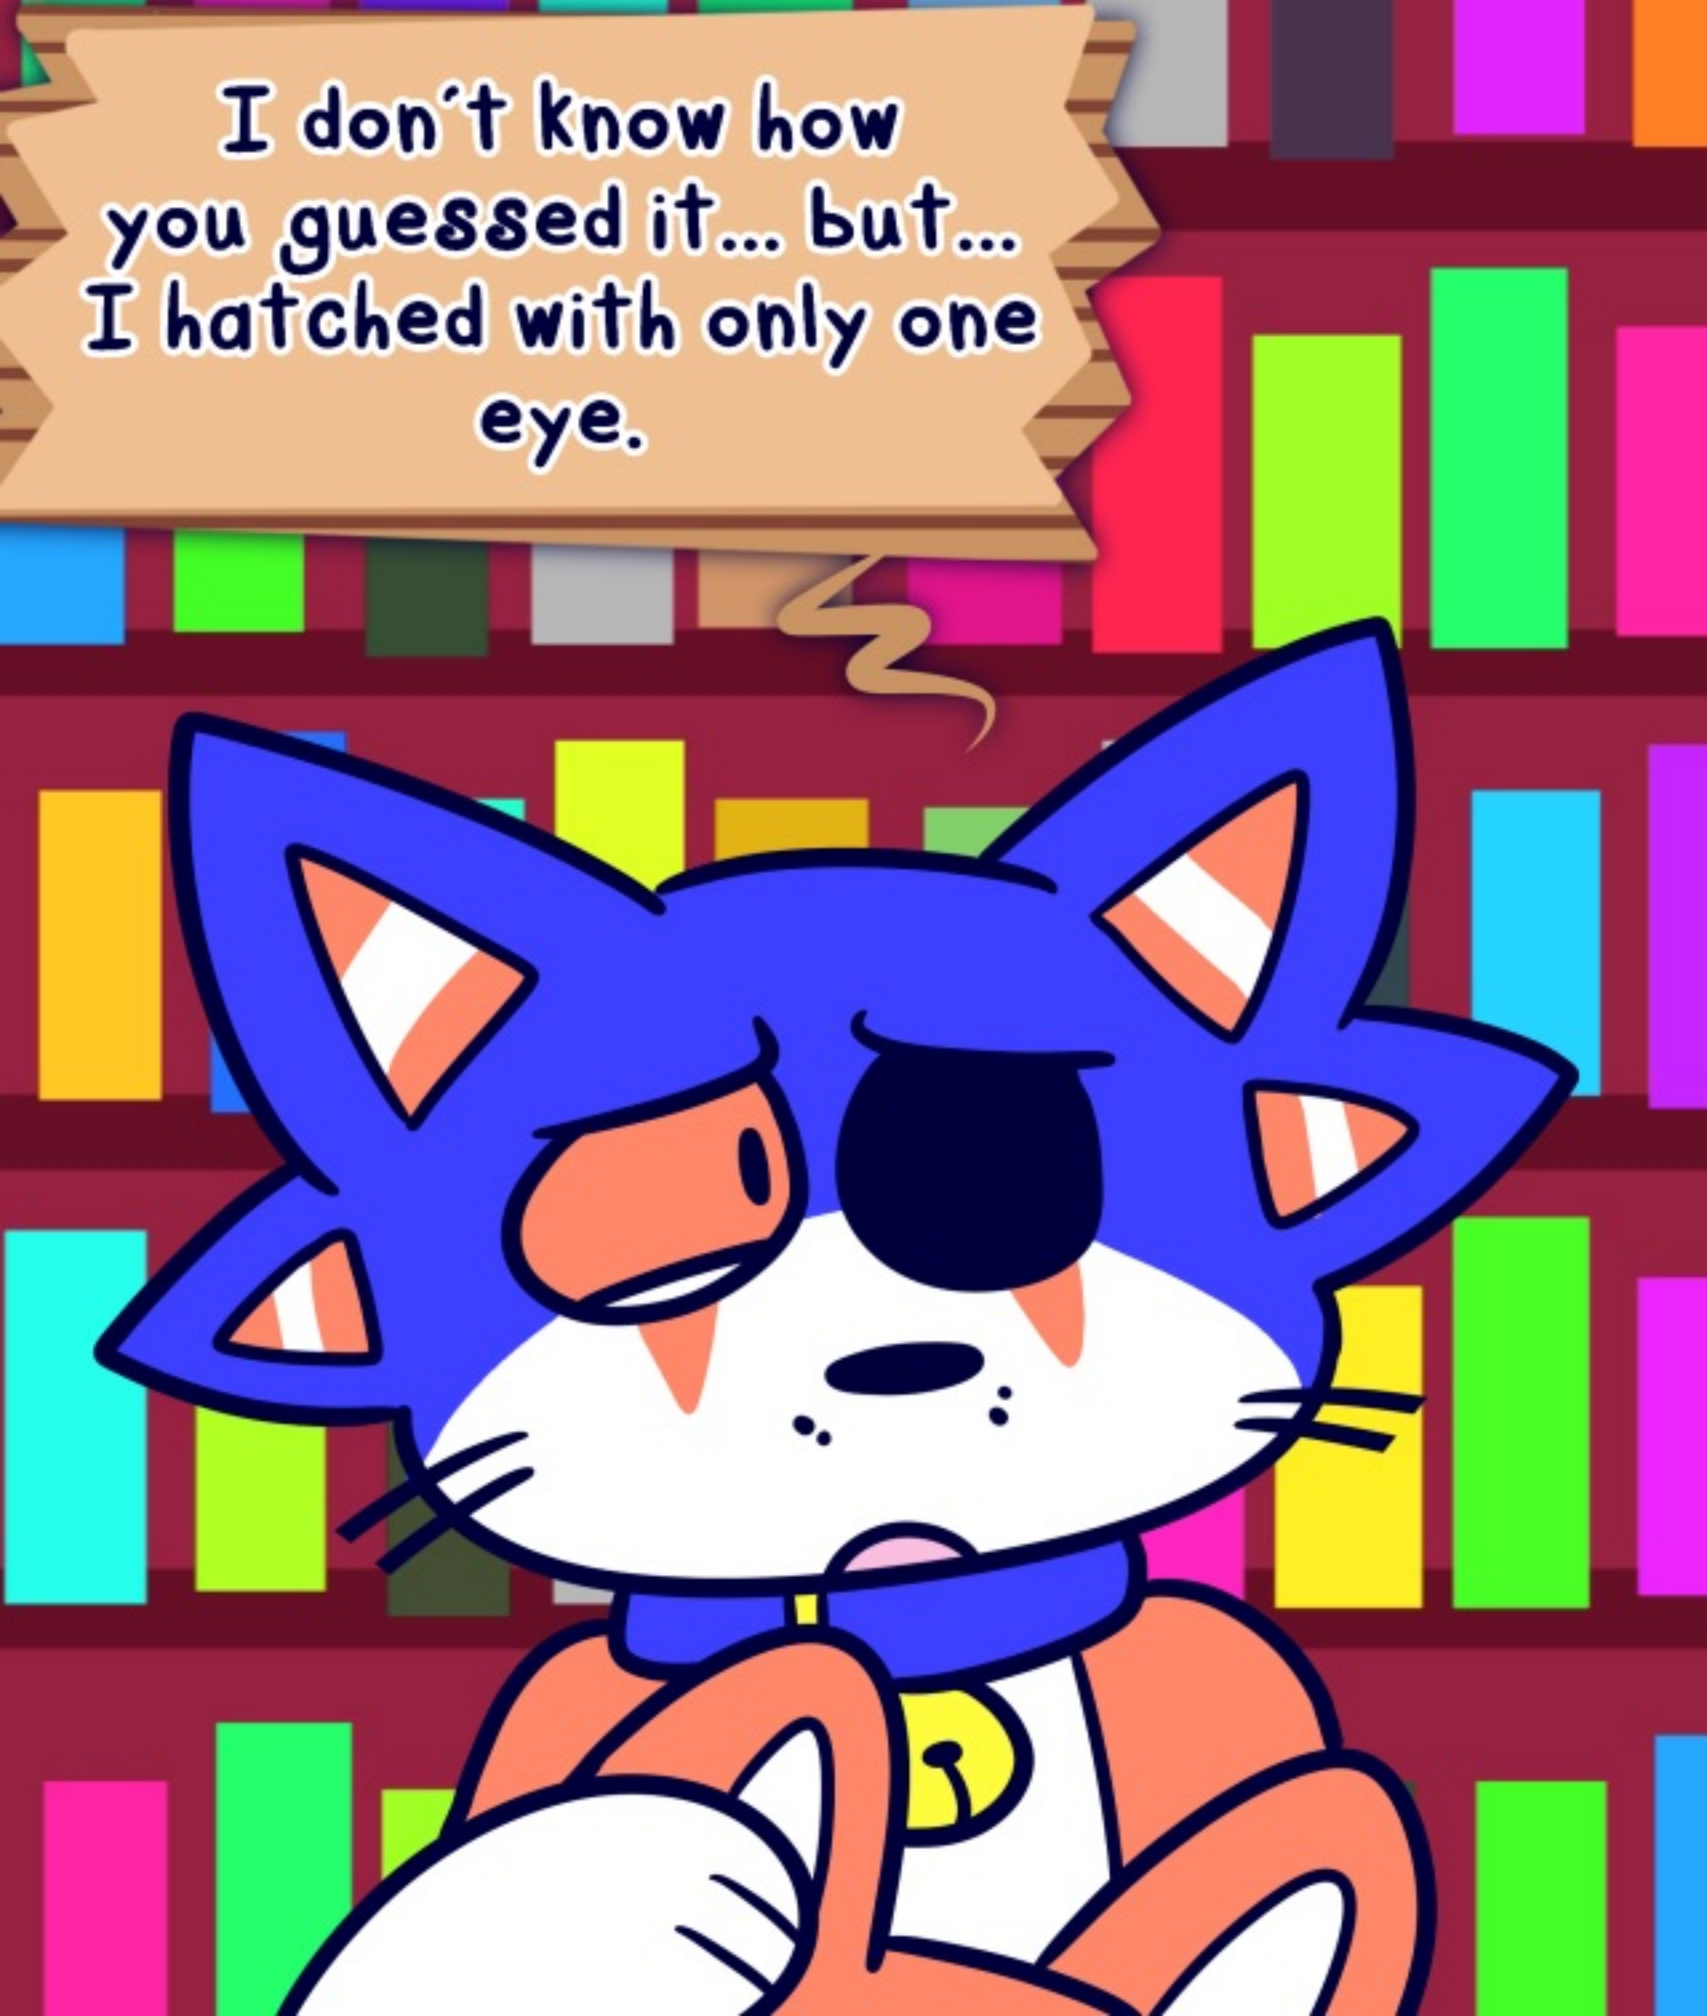
Rack this is a weird question but how many eyes do you have be honest



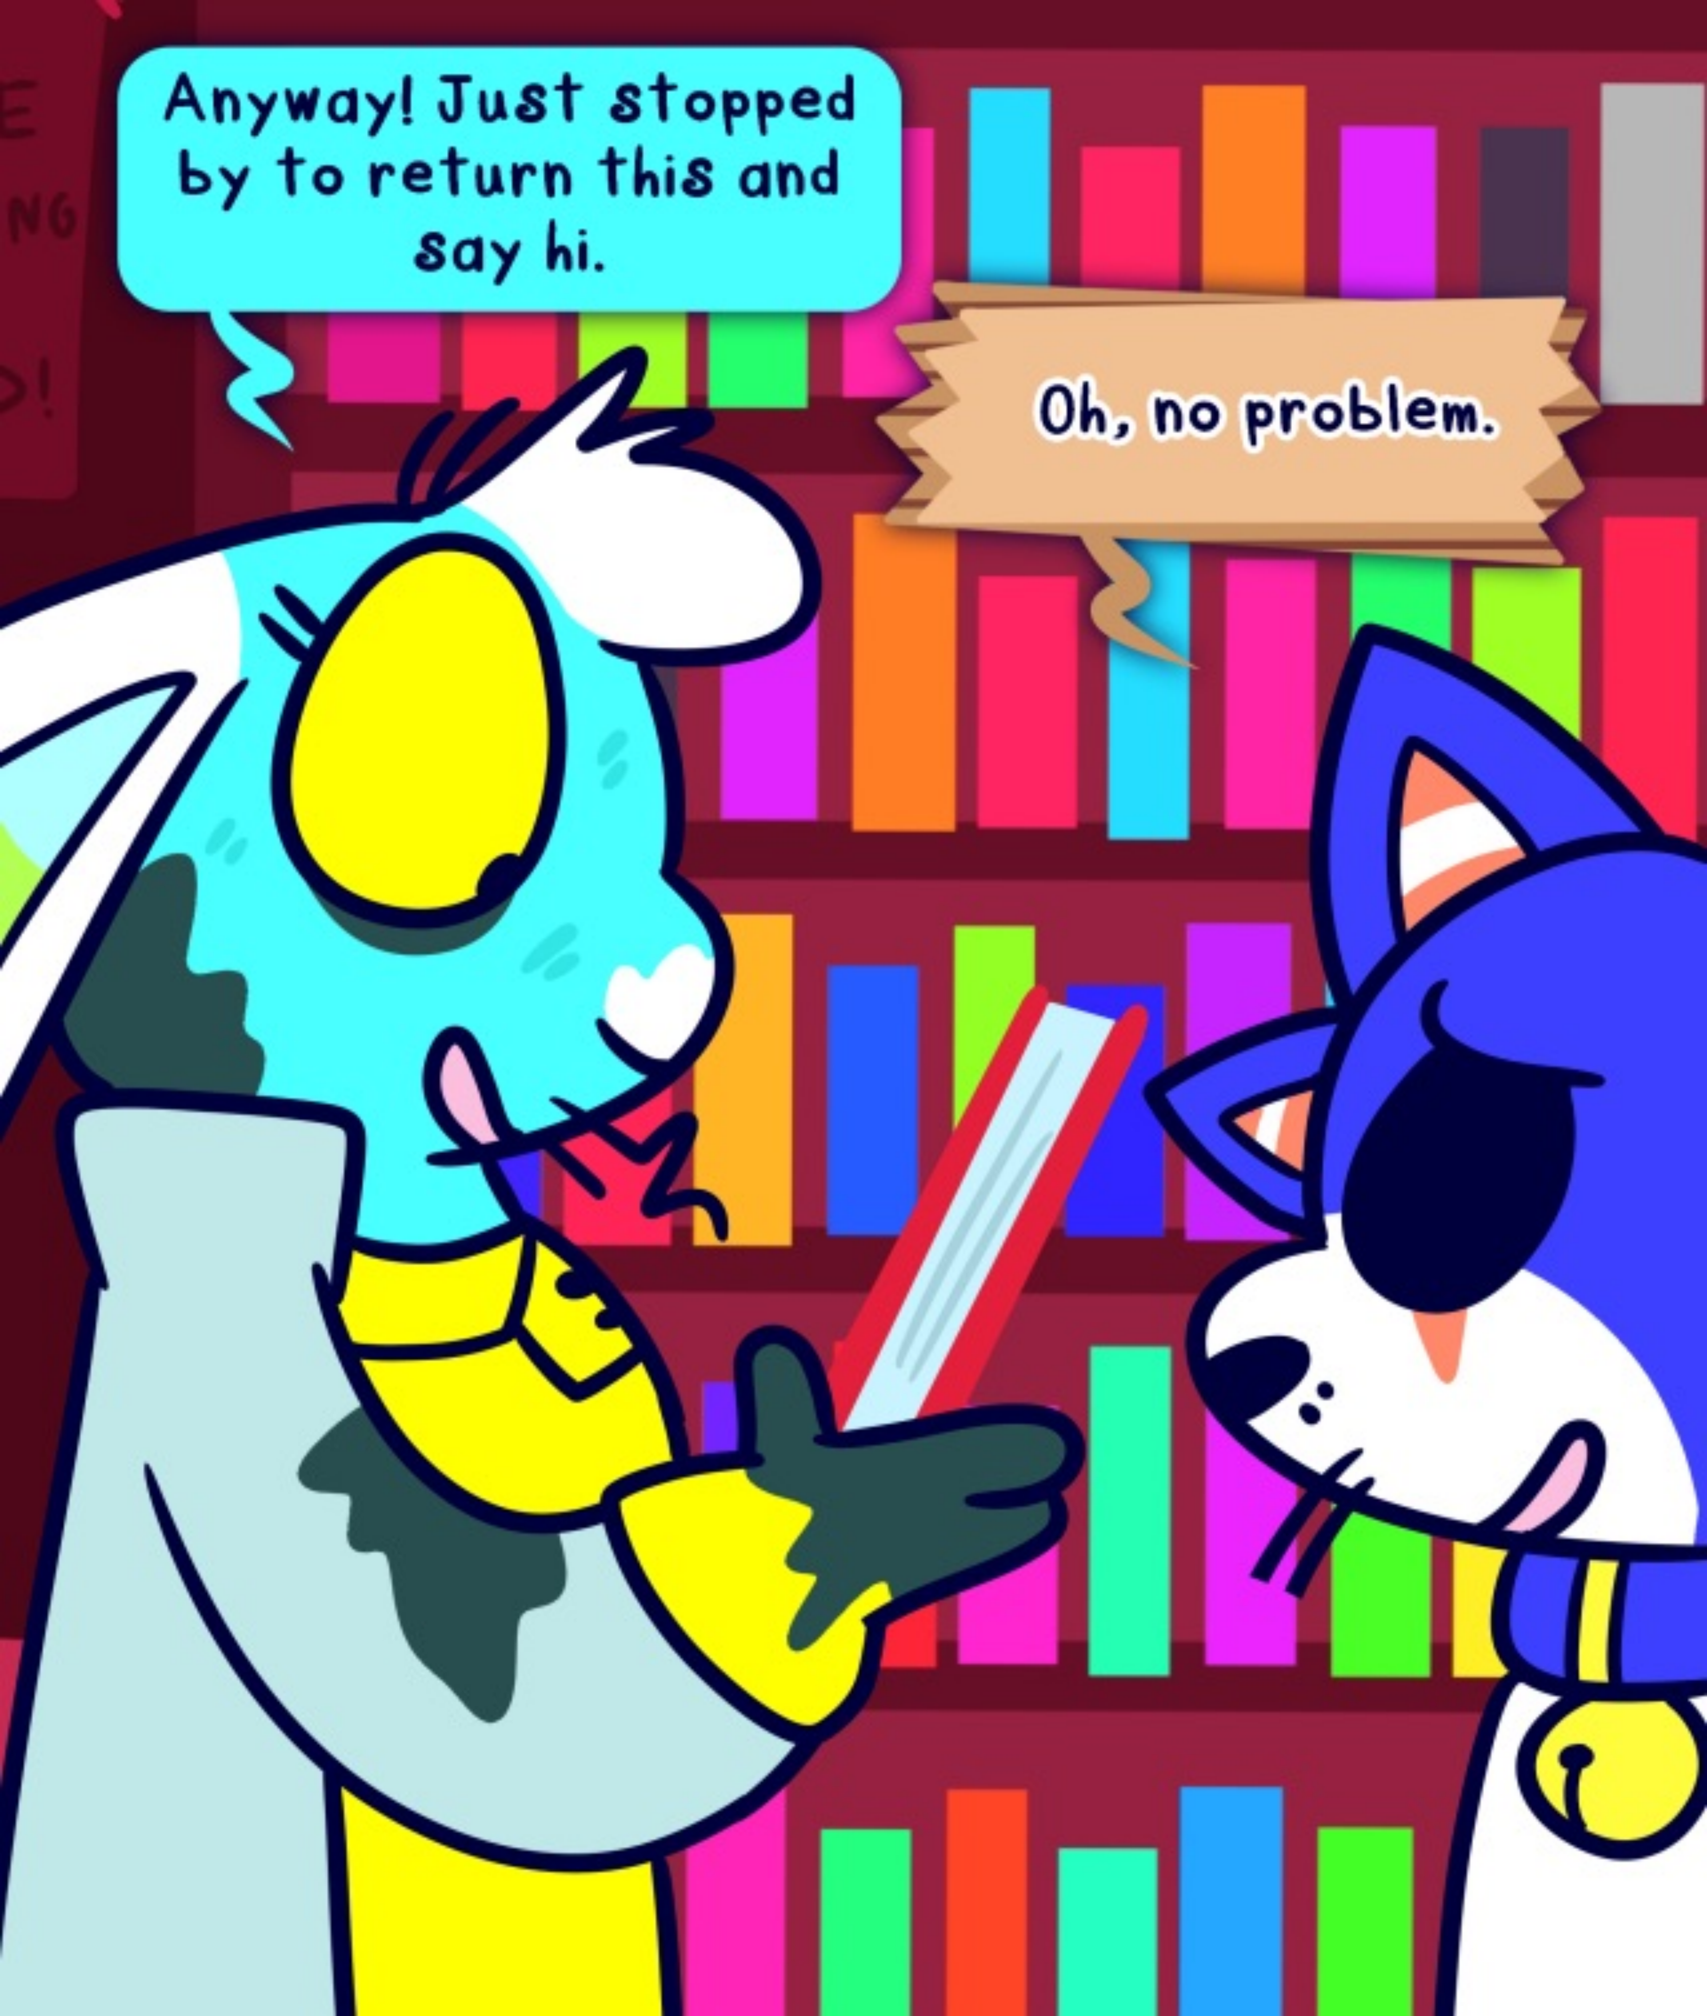
ramthesillyram asked:

Don't worry man, we won't make fun of you ! Just take it off if you want too!

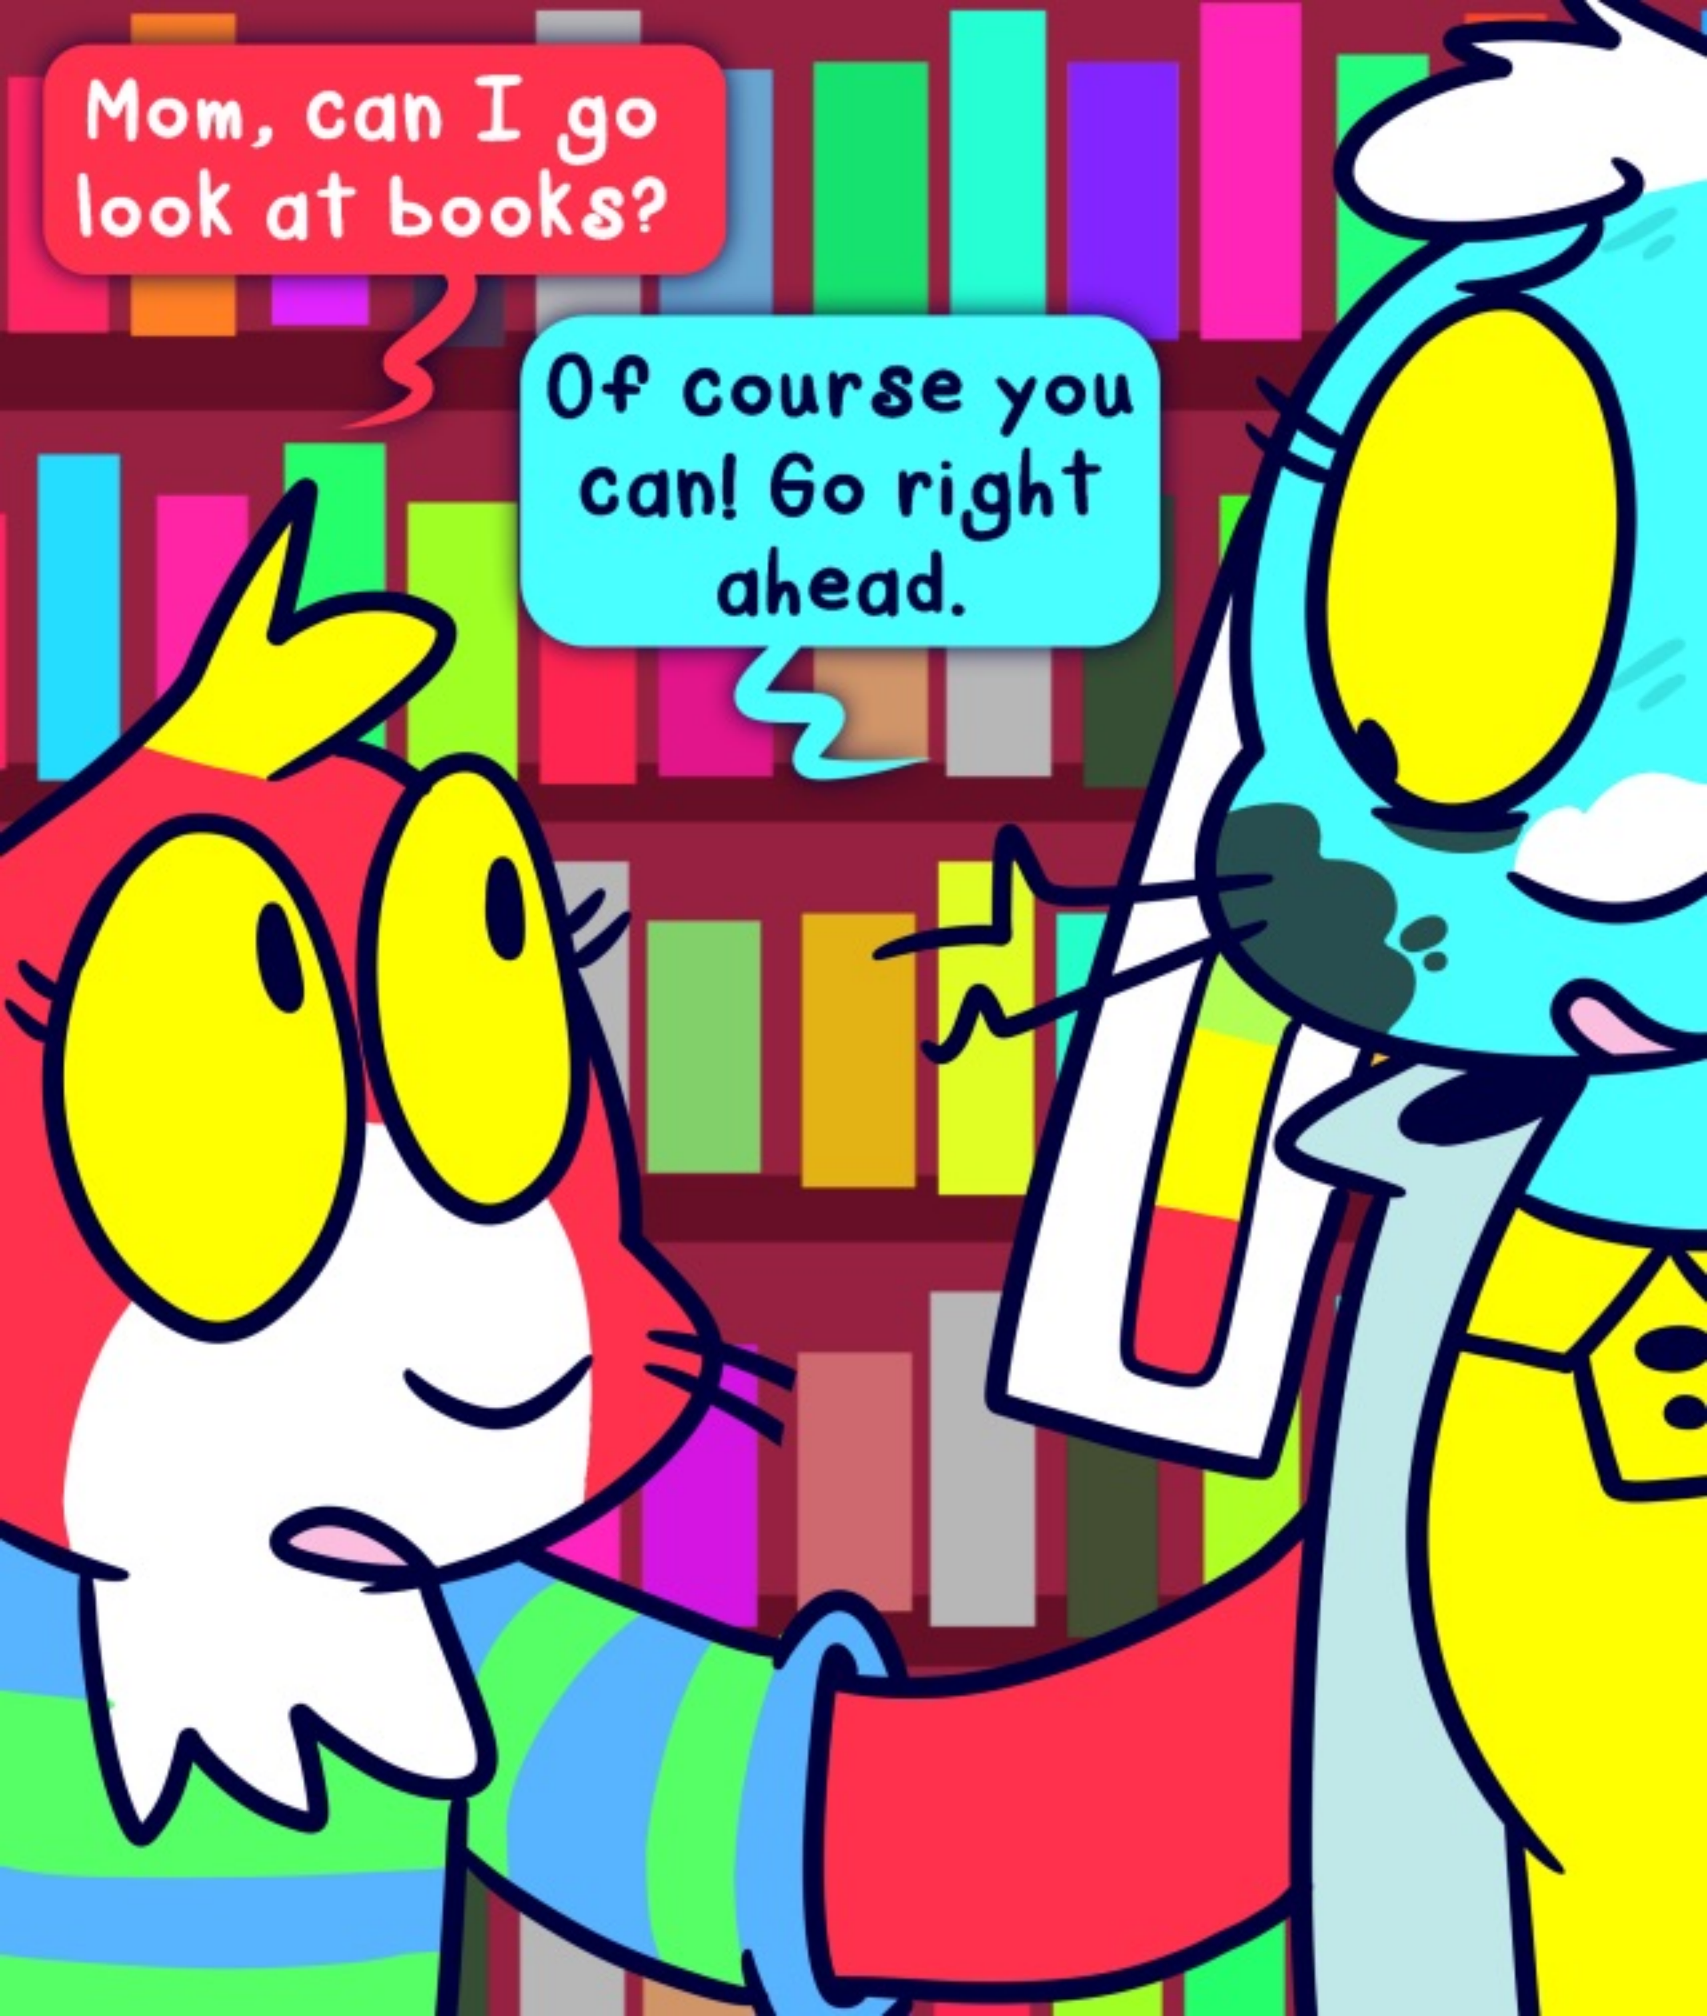
....w-well... alright... since you're friends of family...



I don't know how you guessed it... but... I hatched with only one eye.



Anyway! Just stopped by to return this and say hi.
Oh, no problem.



Mom, can I go look at books?
Of course you can! Go right ahead.

Career: Librarian
Age: Mature

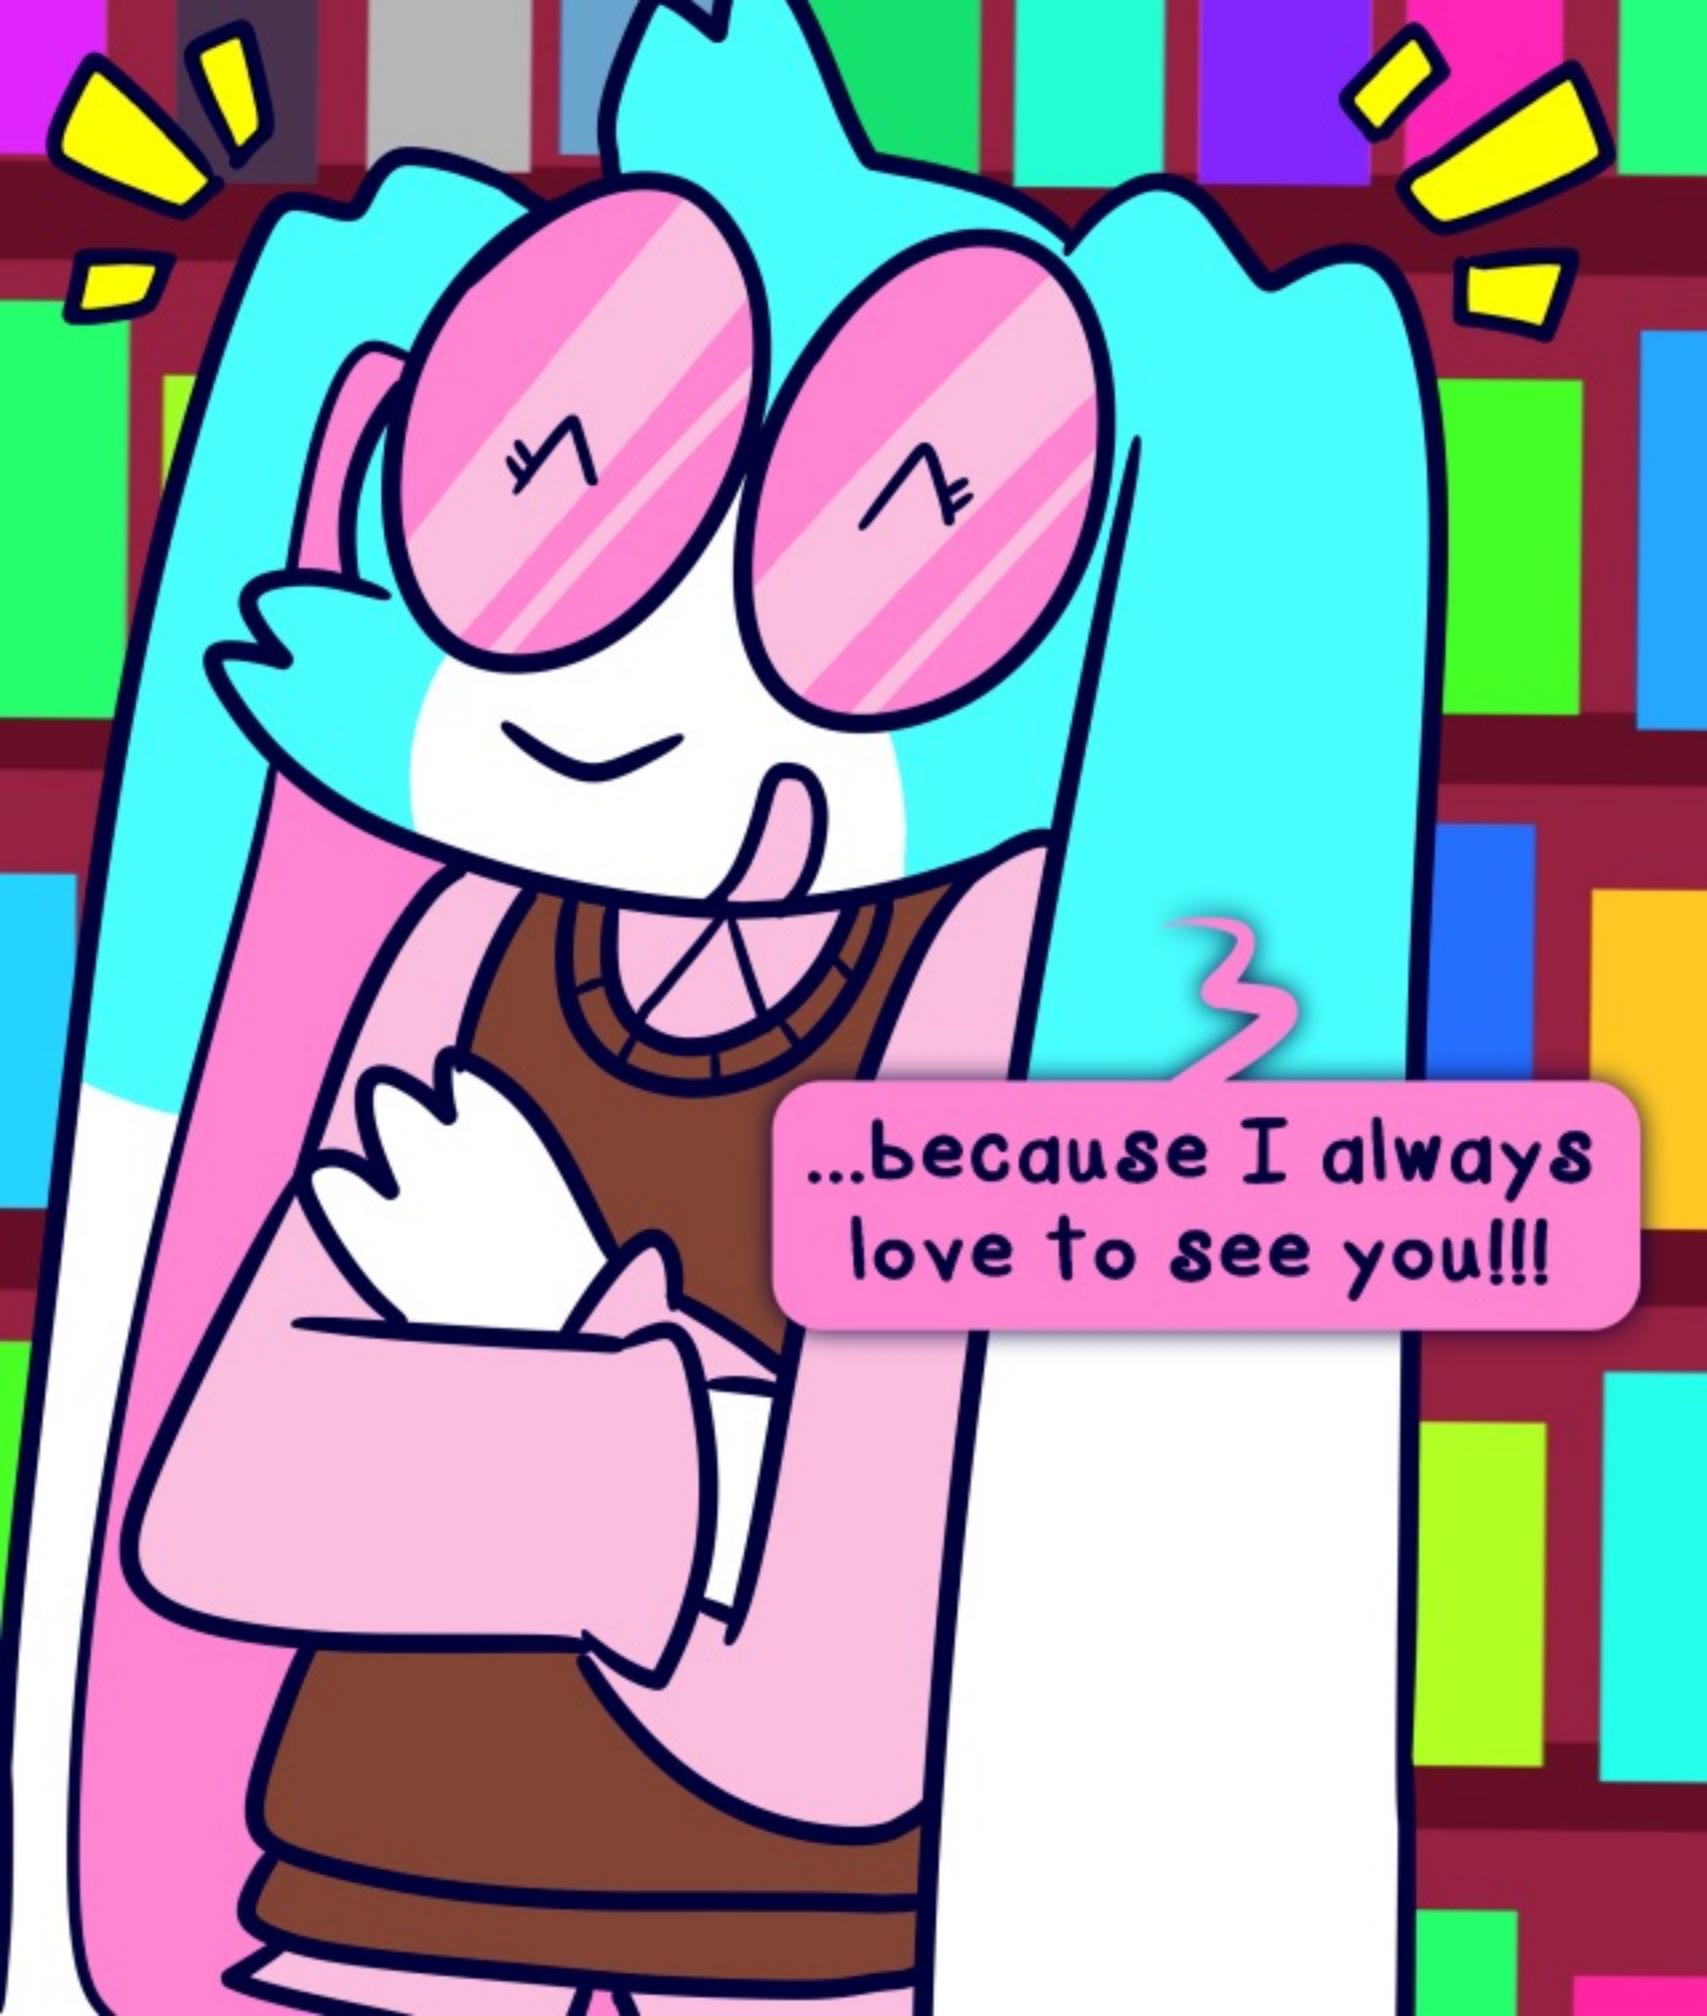
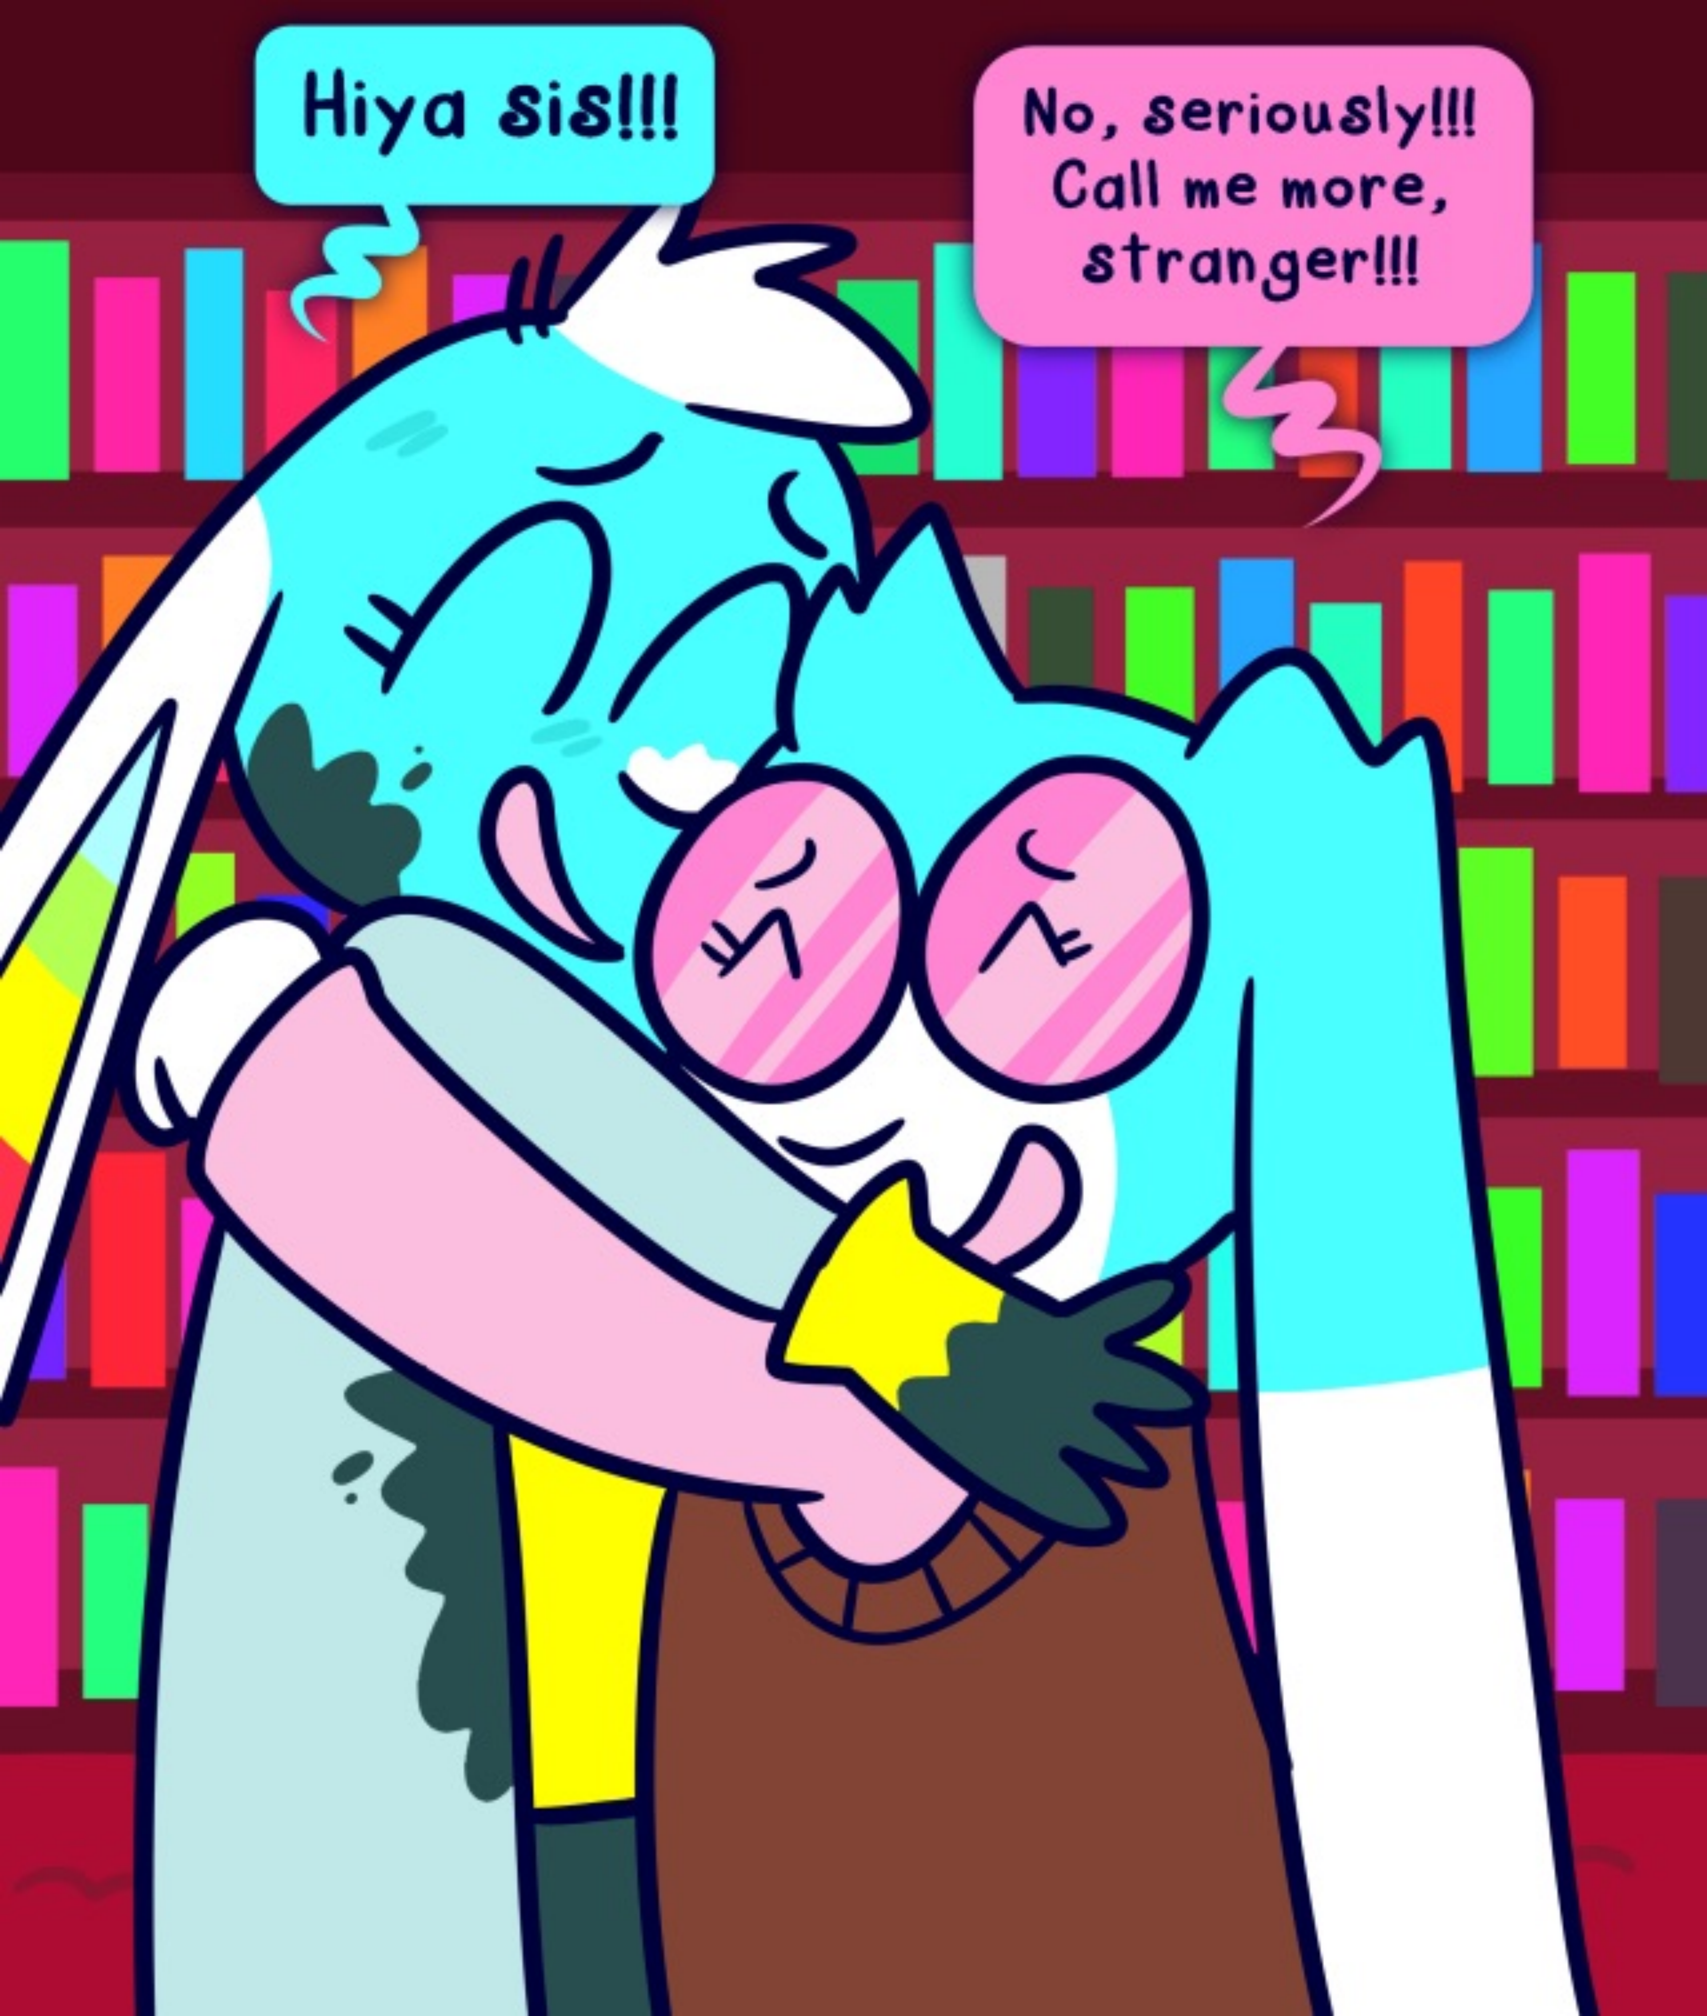
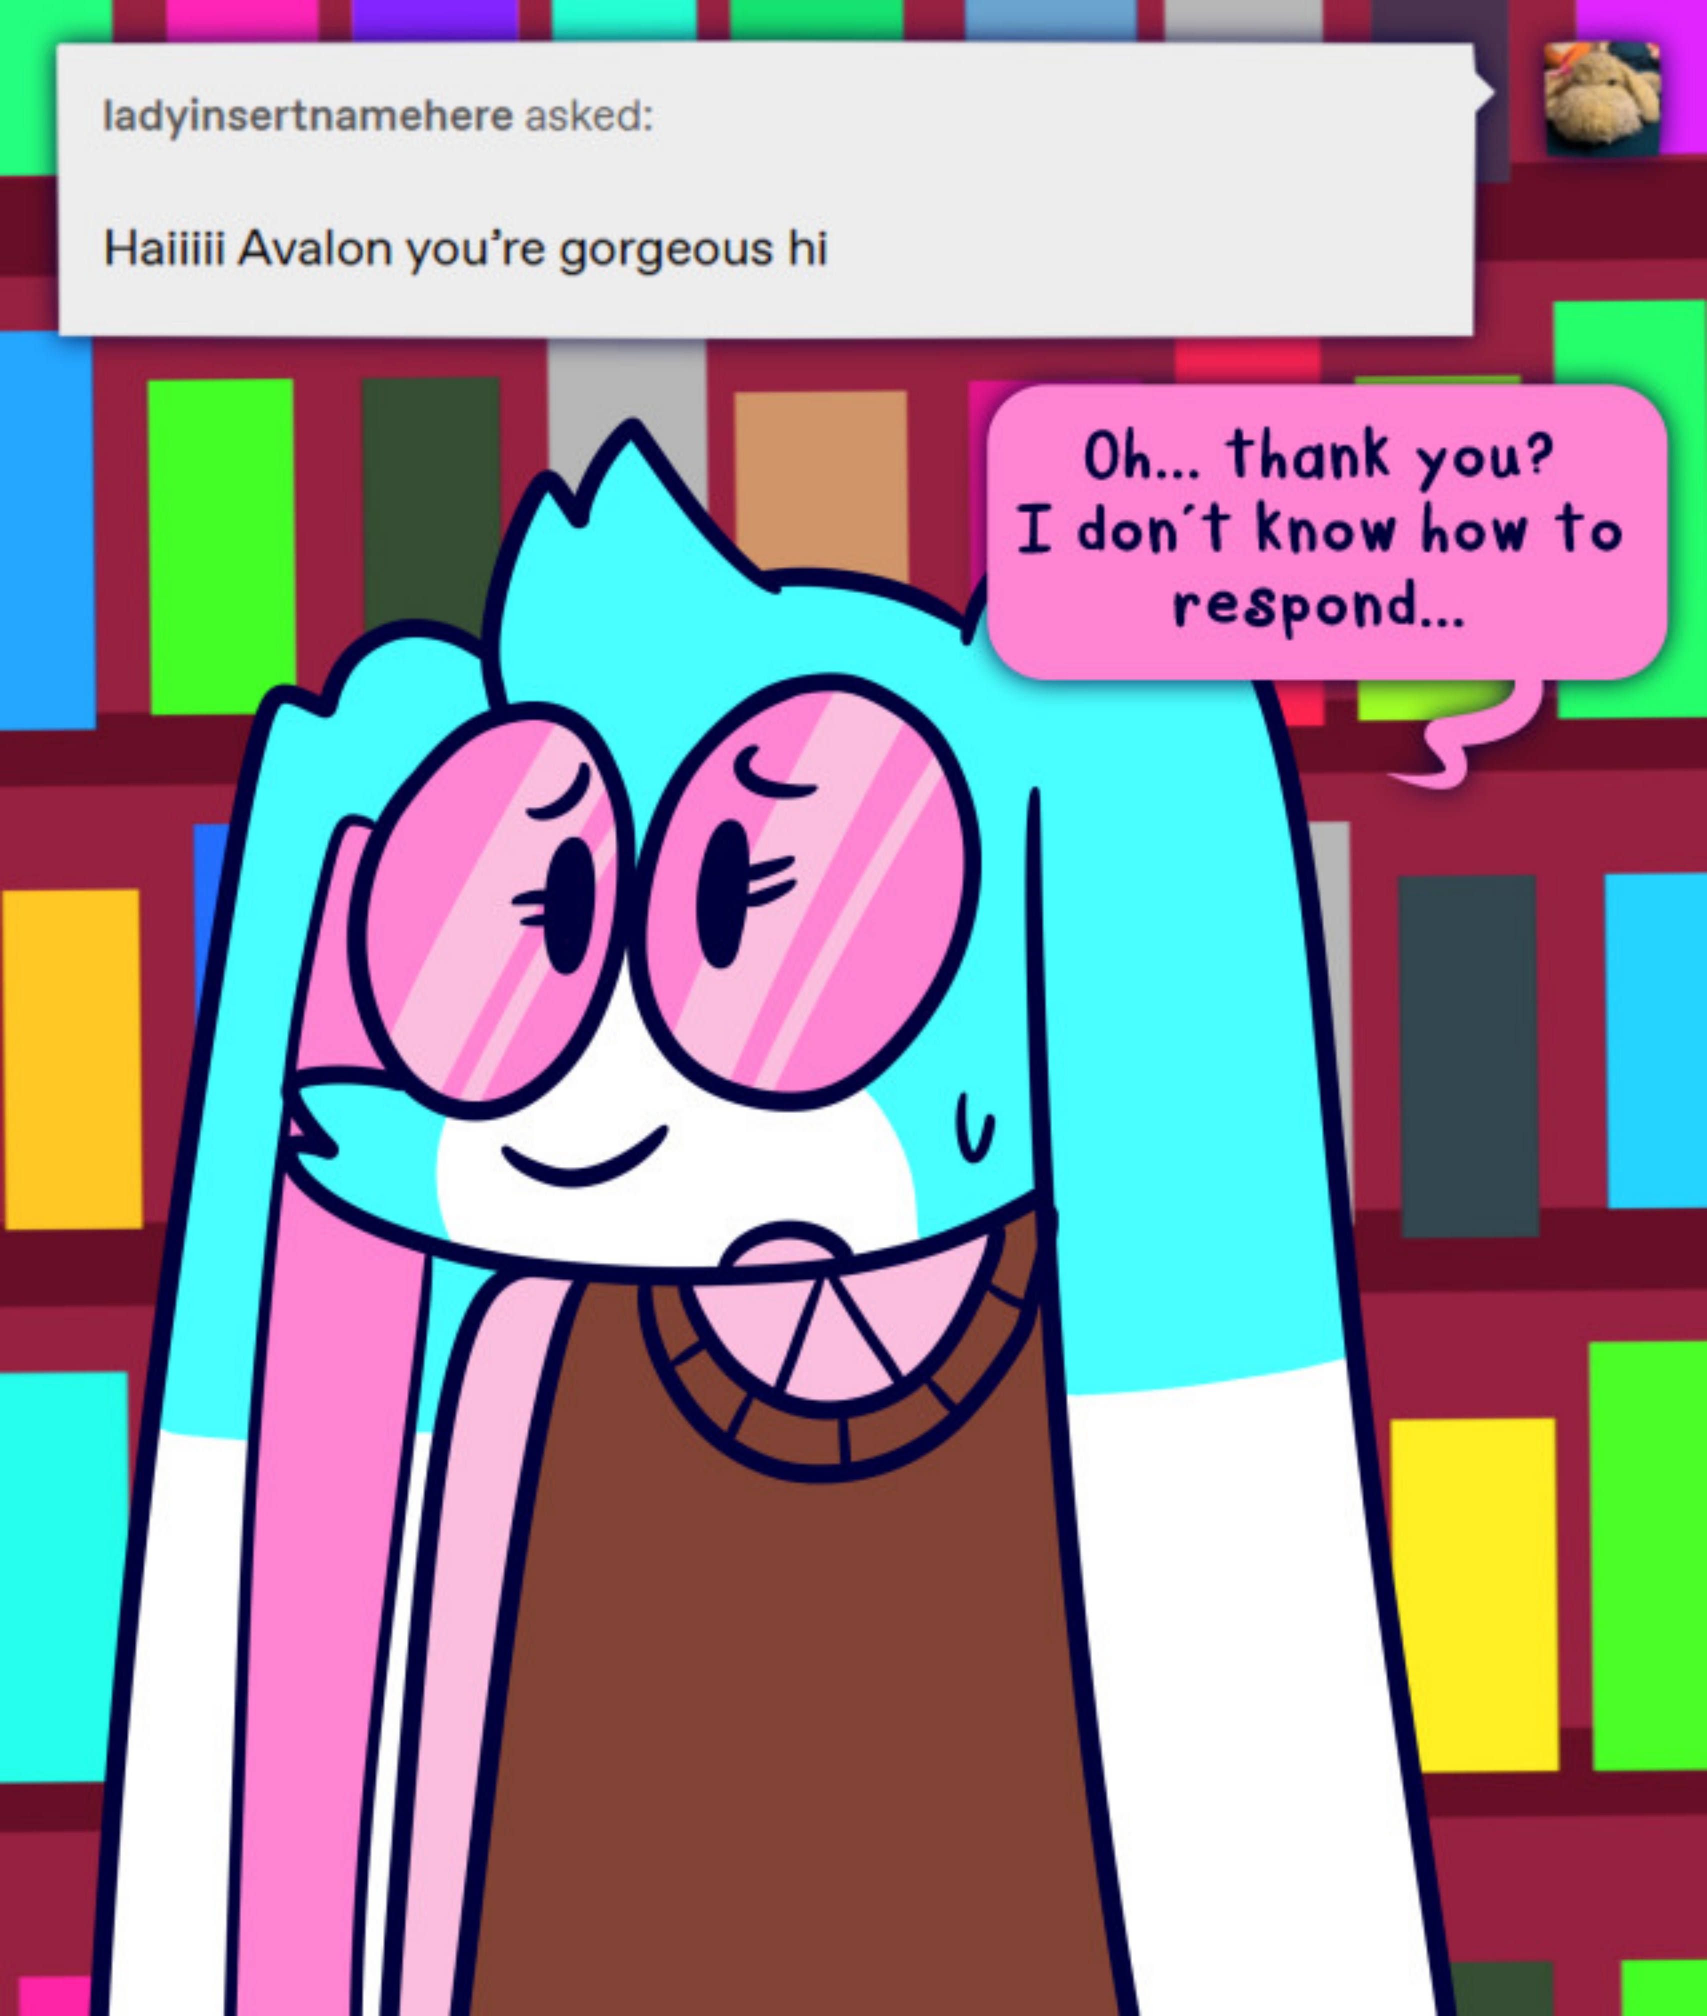
Faves: Reading, nonfiction, being clean, healthy foods



...because I always love to see you!!!



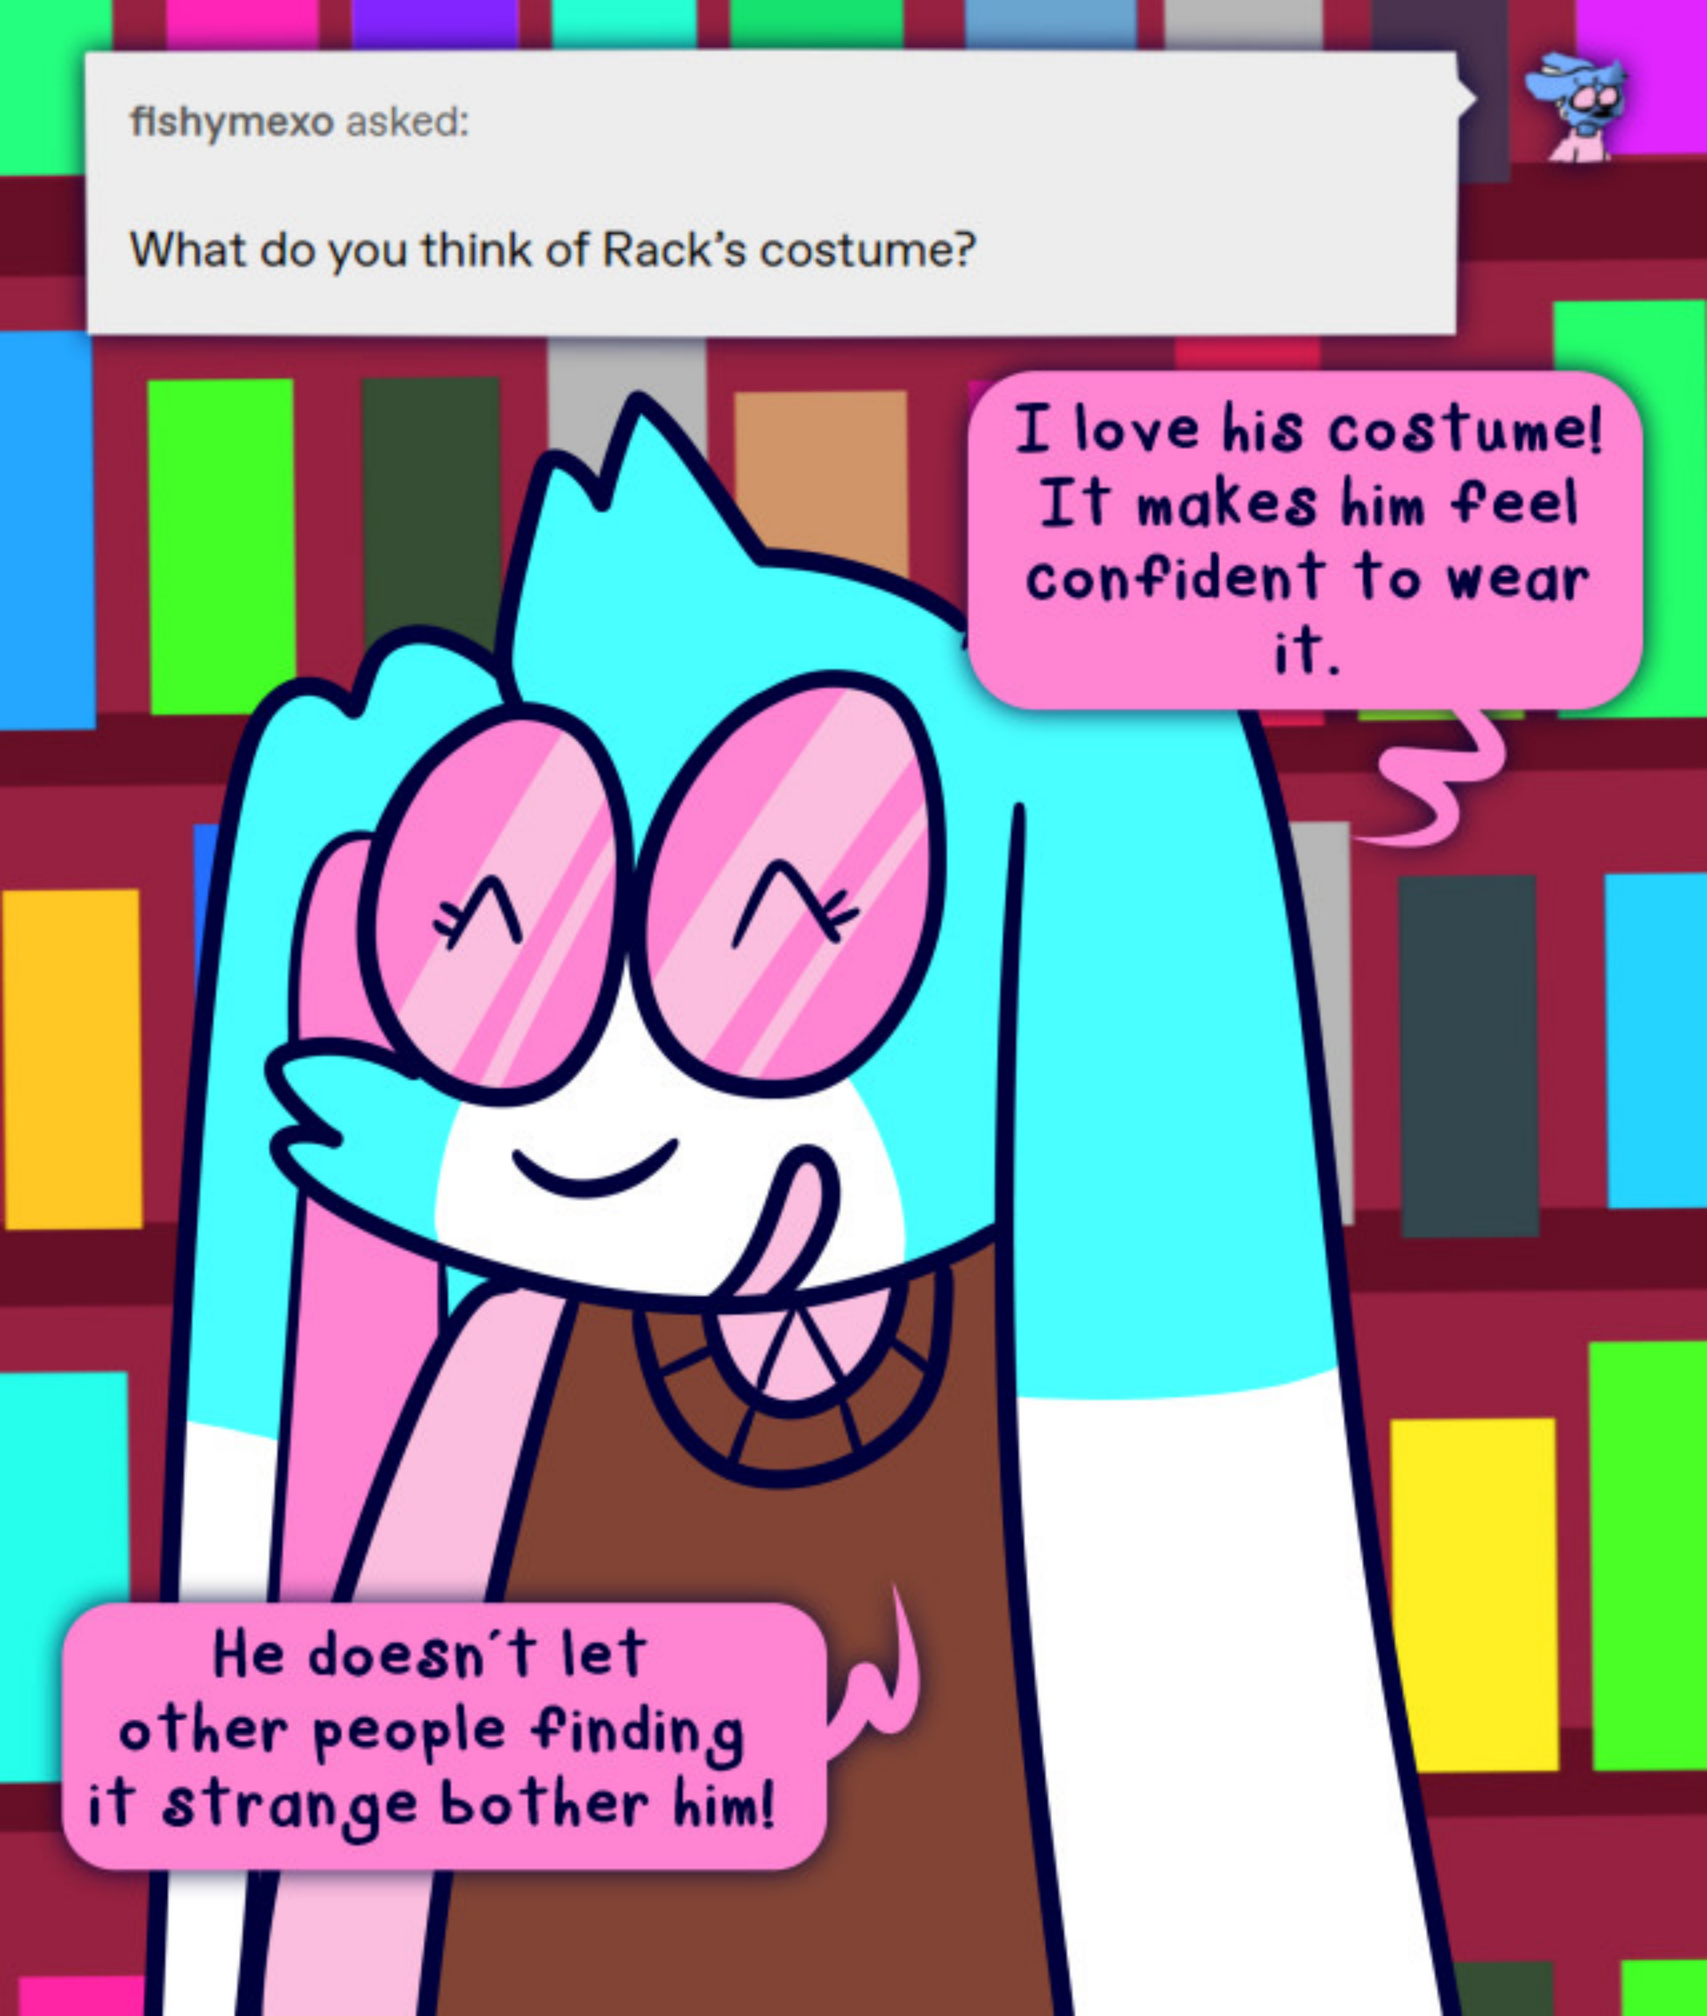
Hiya sis!!!
No, seriously!!! Call me more, stranger!!!



ladyinsertnamehere asked:

Haiiiii Avalon you’re gorgeous hi

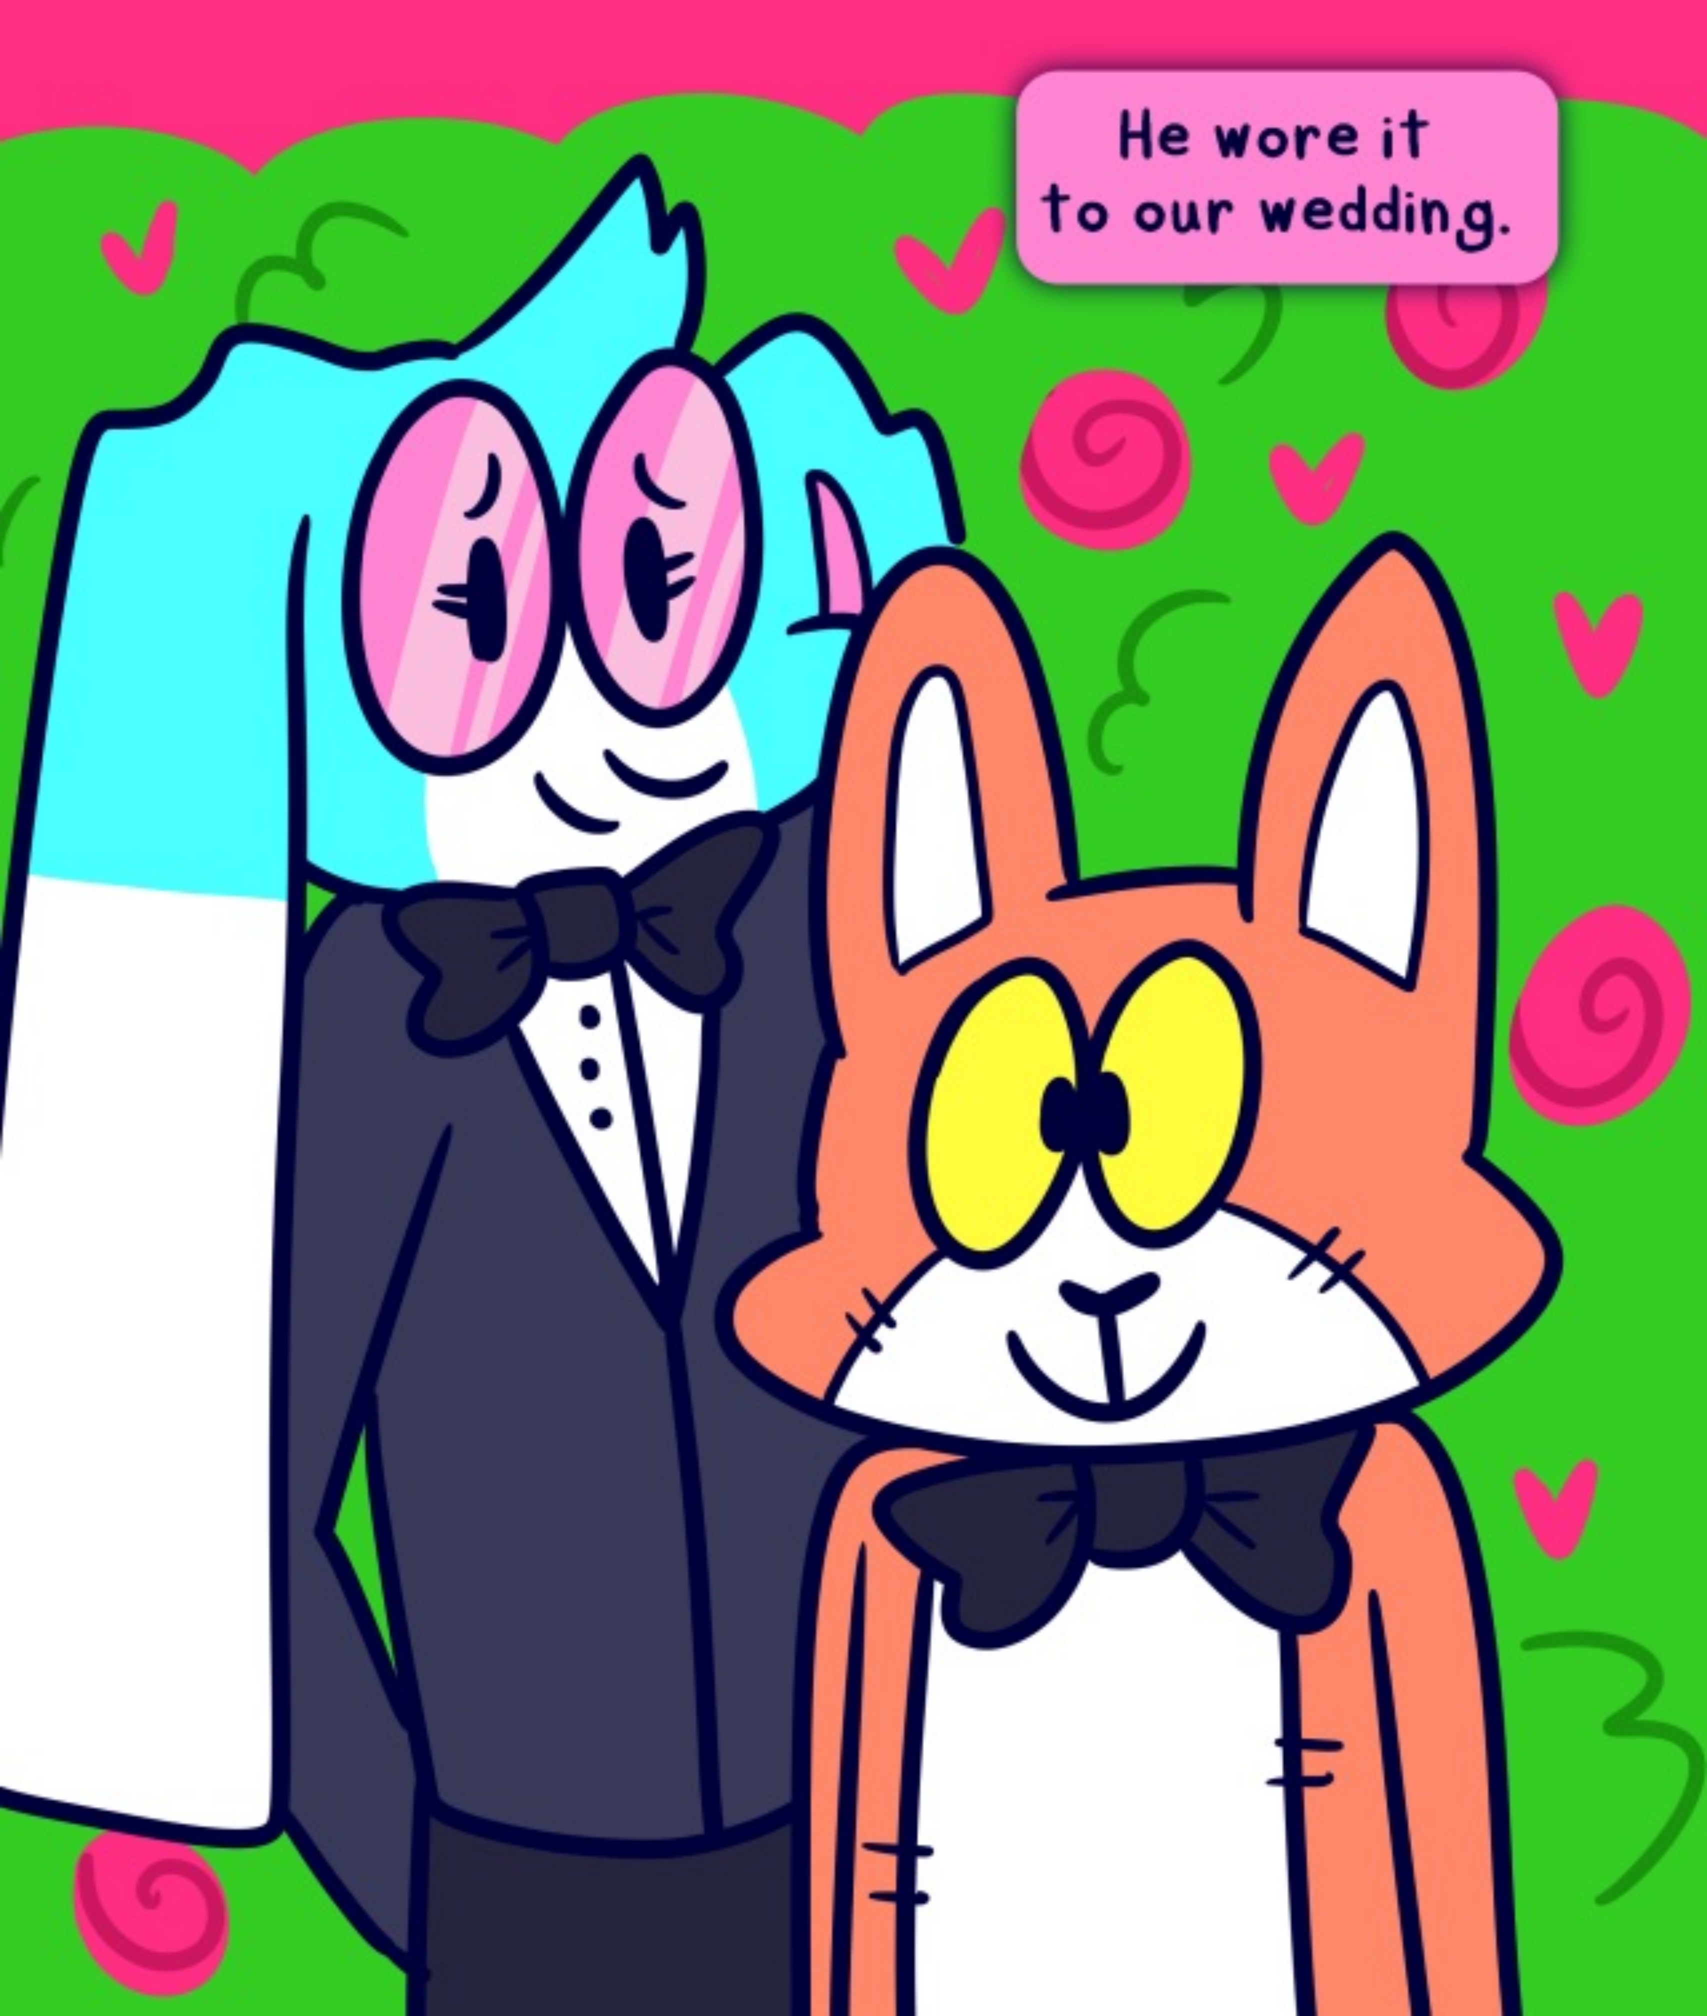
Oh... thank you? I don´t know how to respond...



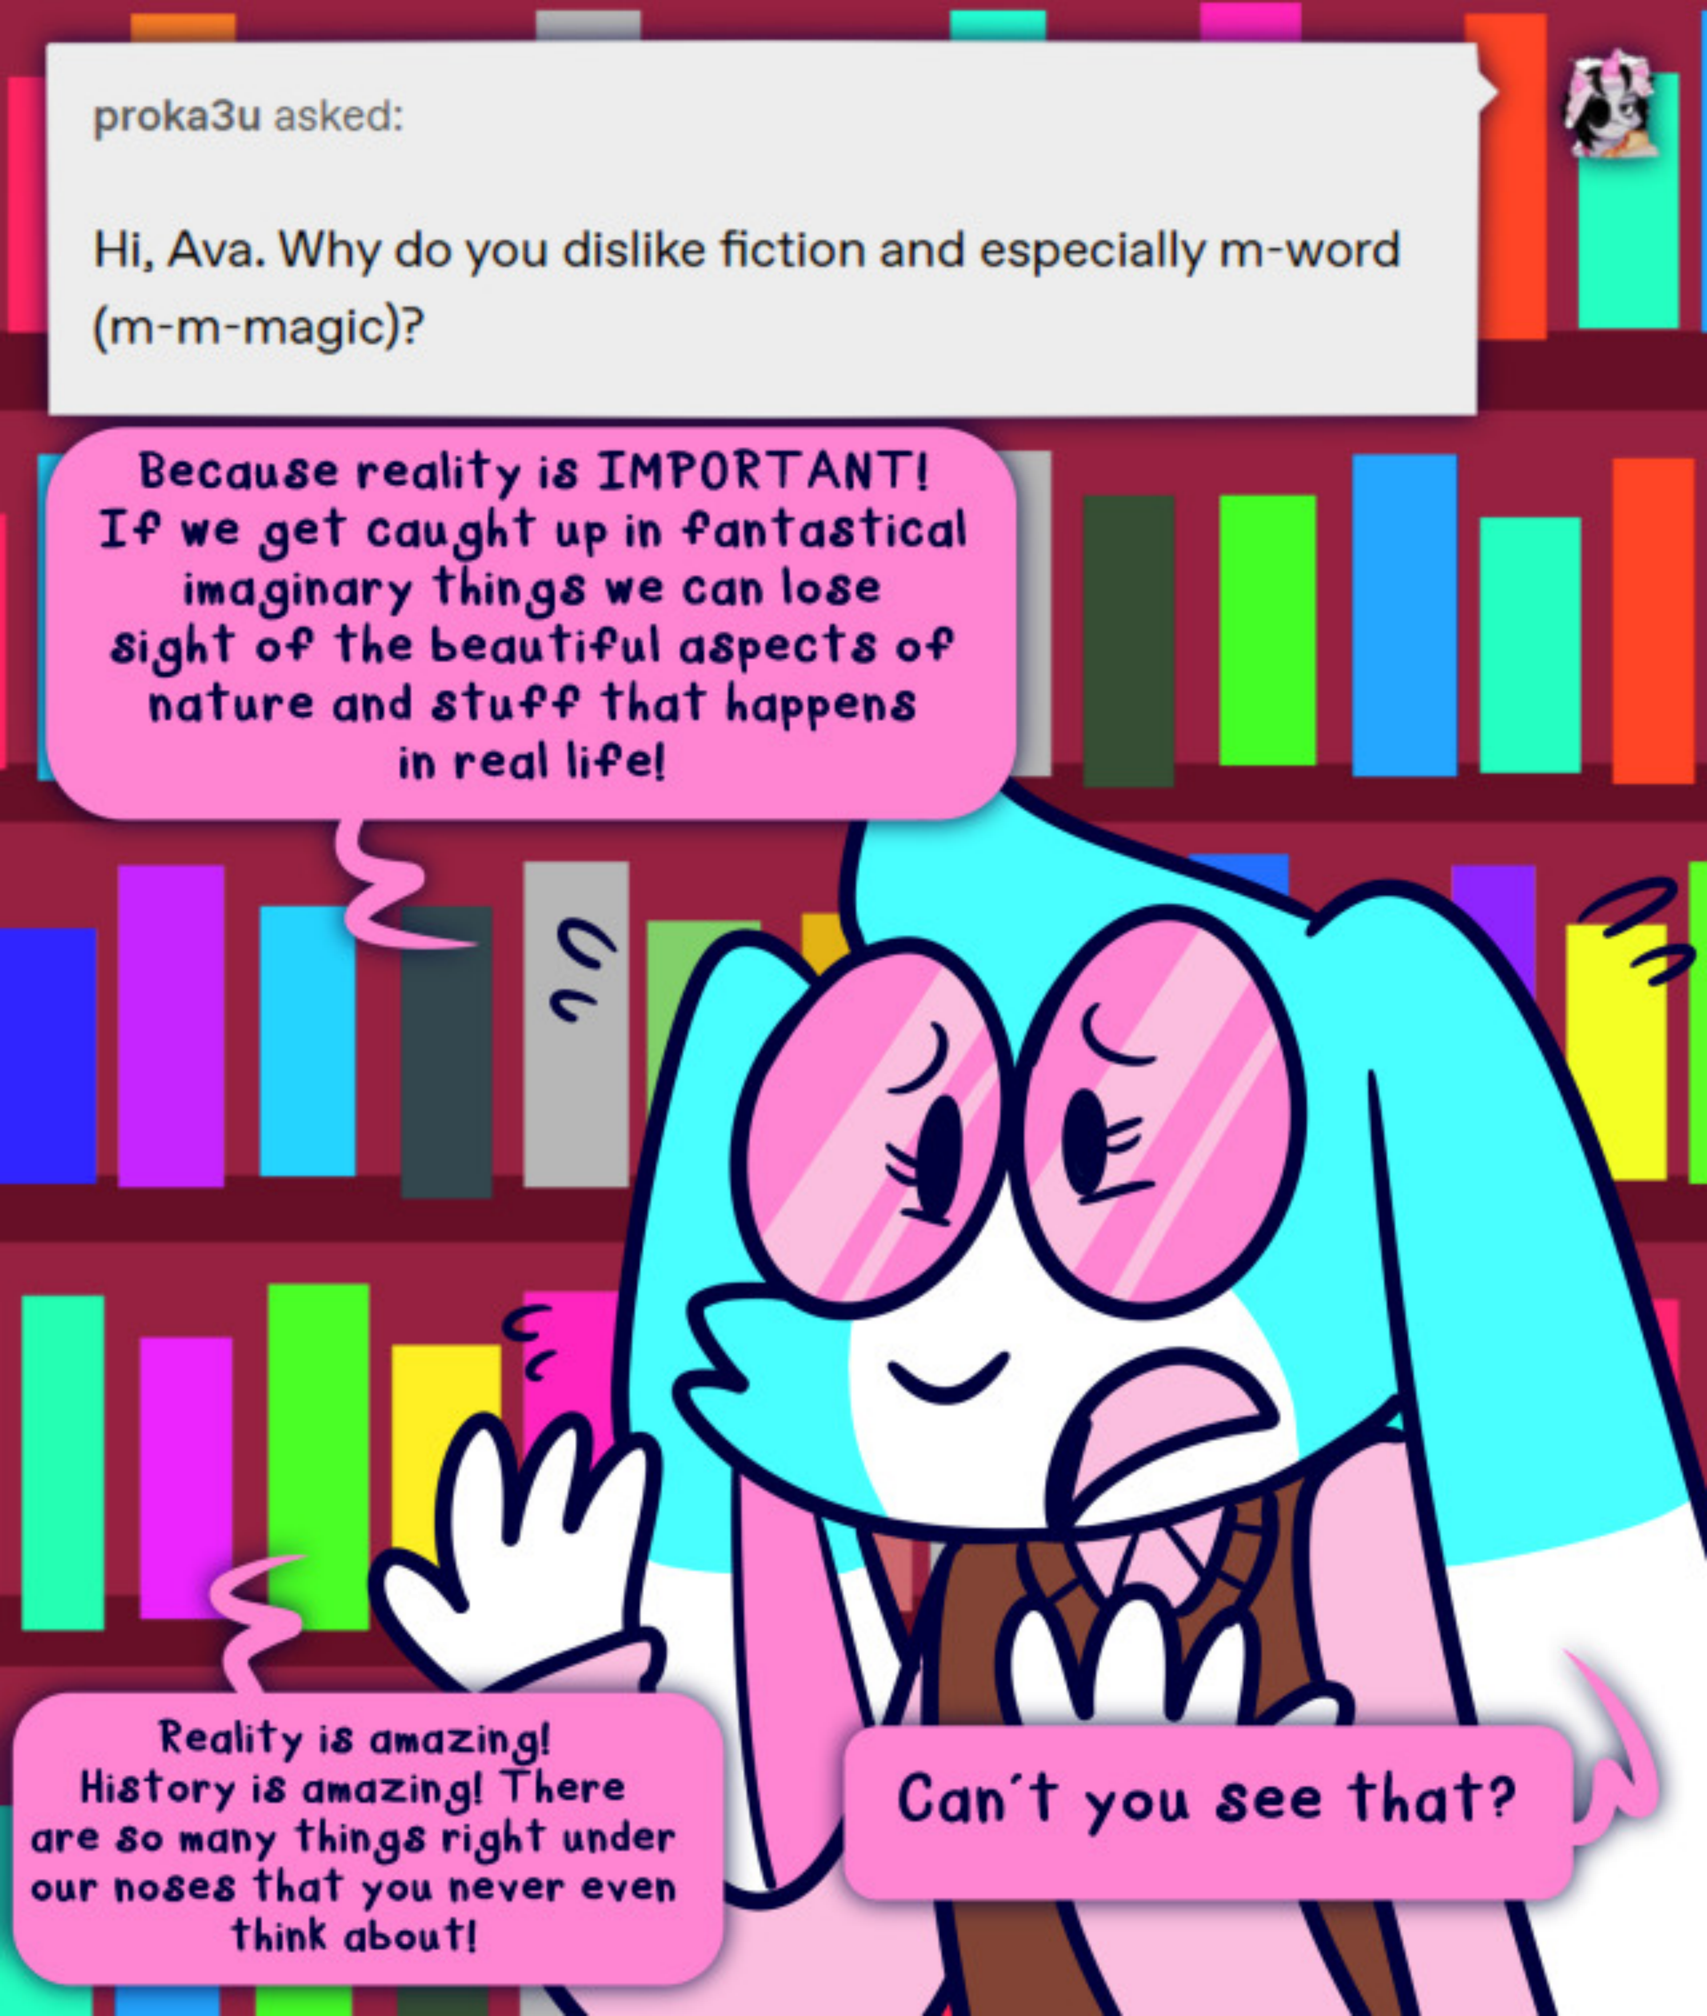
fishymexo asked:

What do you think of Rack's costume?

I love his costume! It makes him feel confident to wear it.
He doesn´t let other people finding it strange bother him!



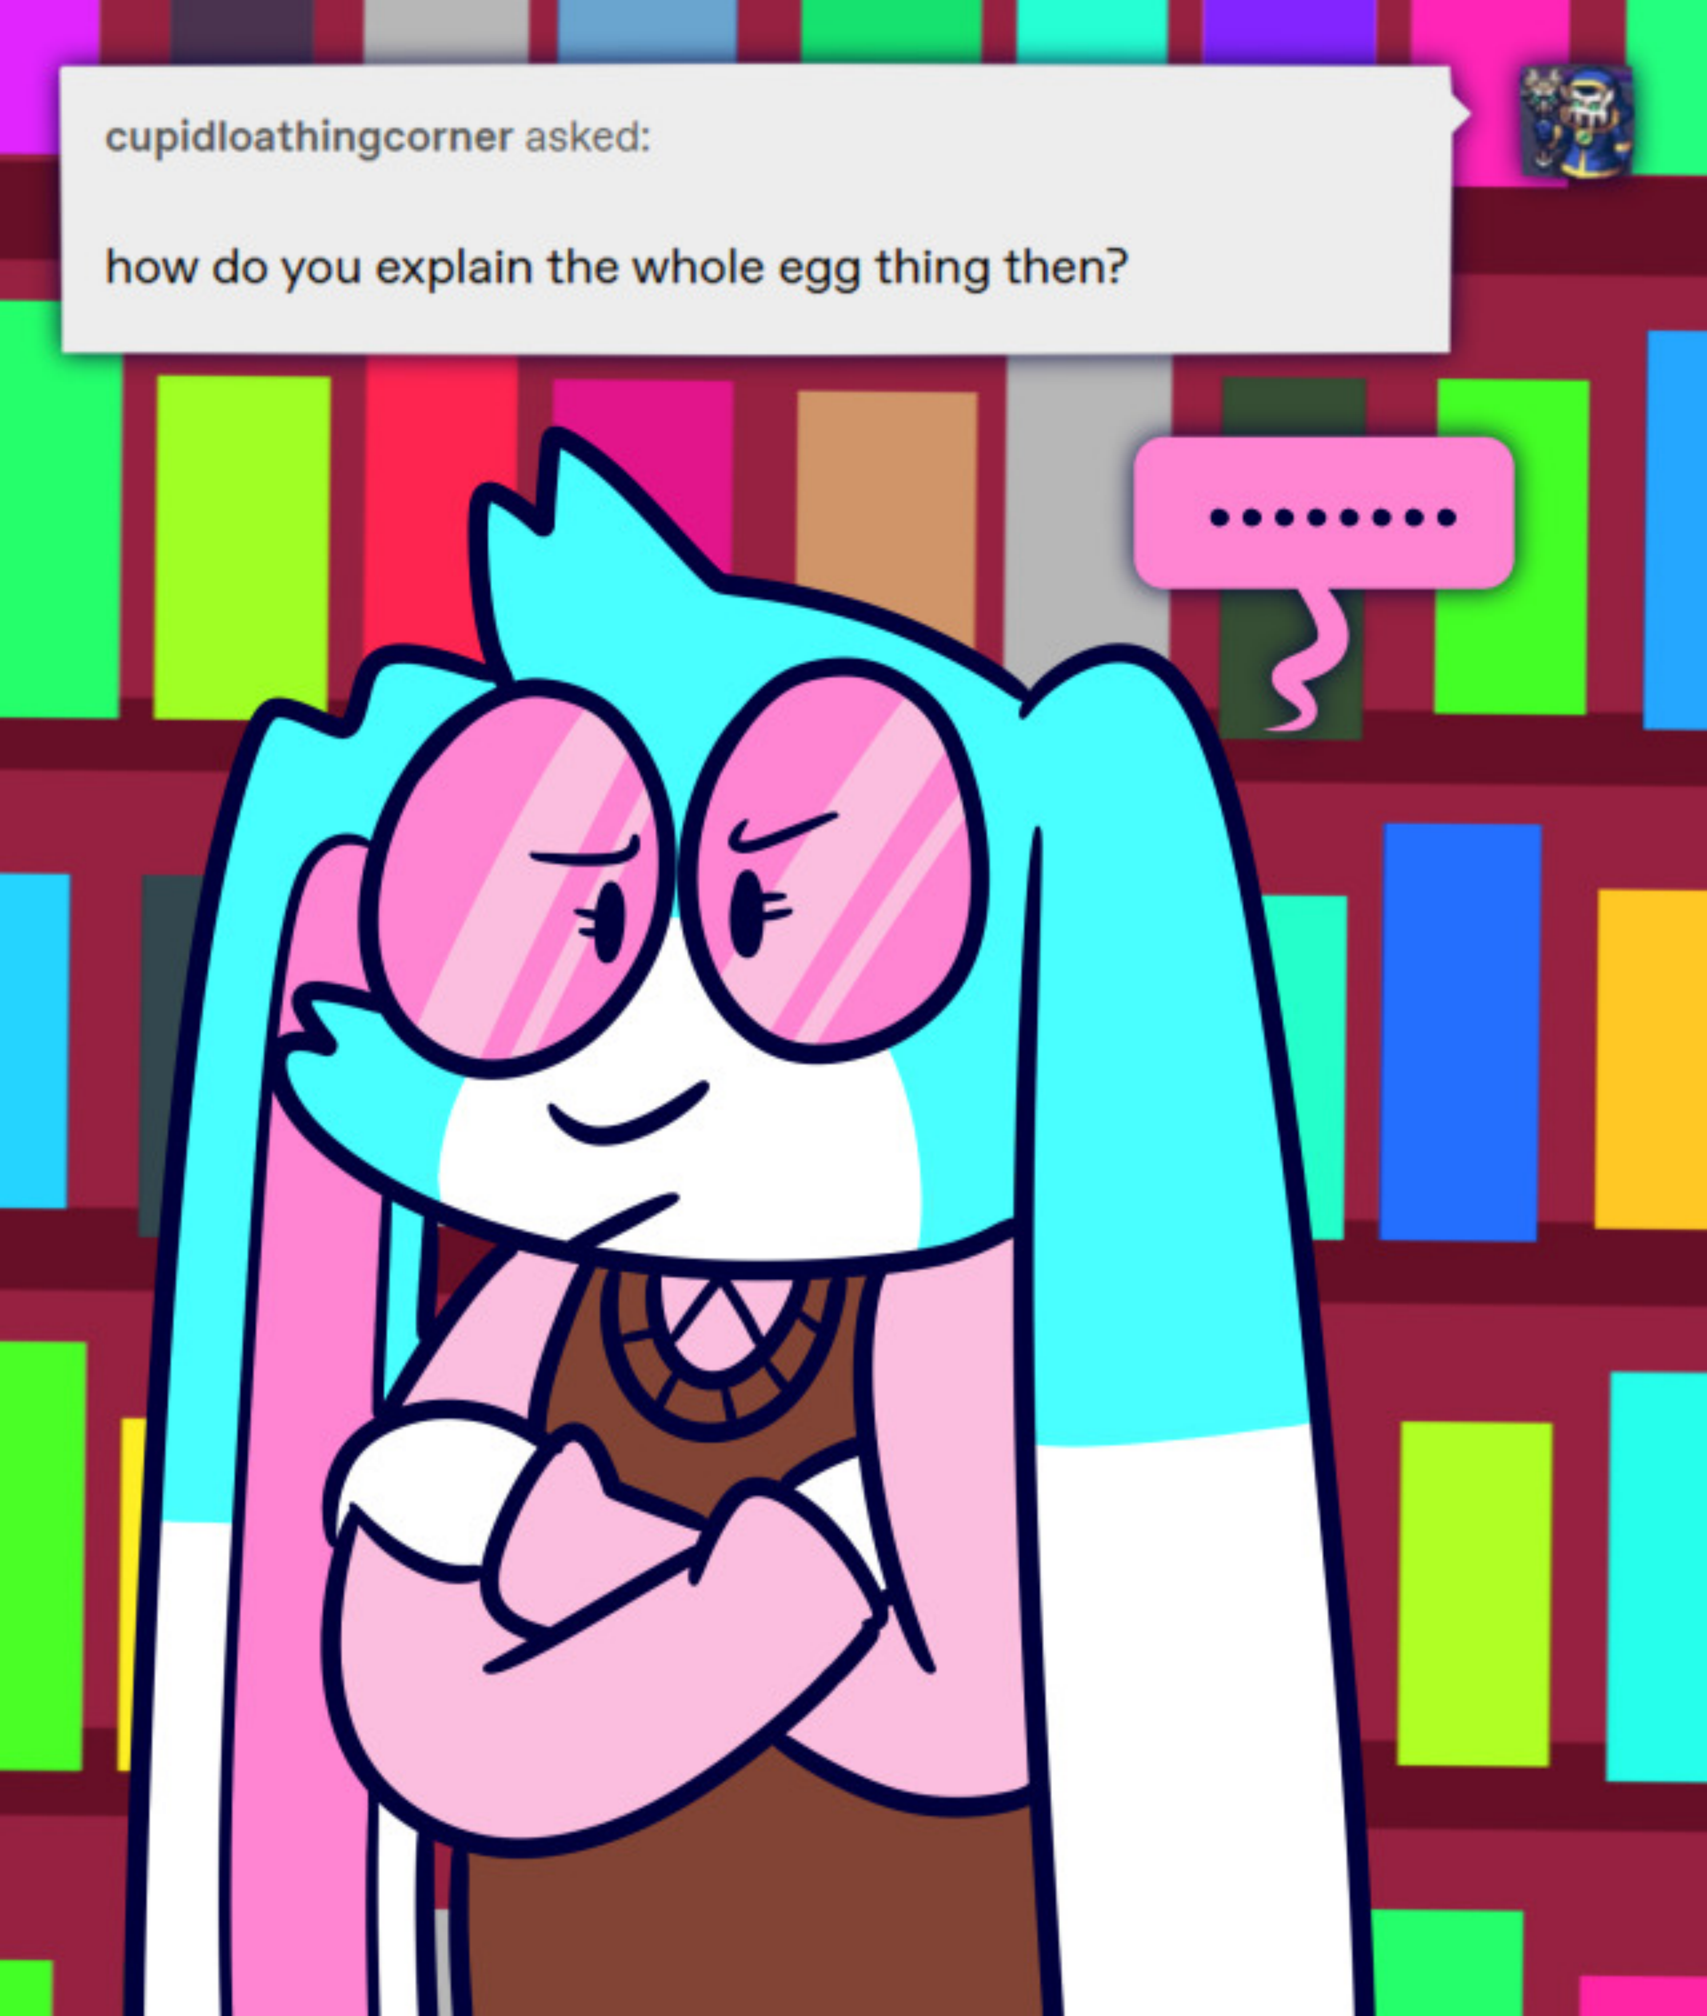
He wore it
to our wedding.



proka3u asked:

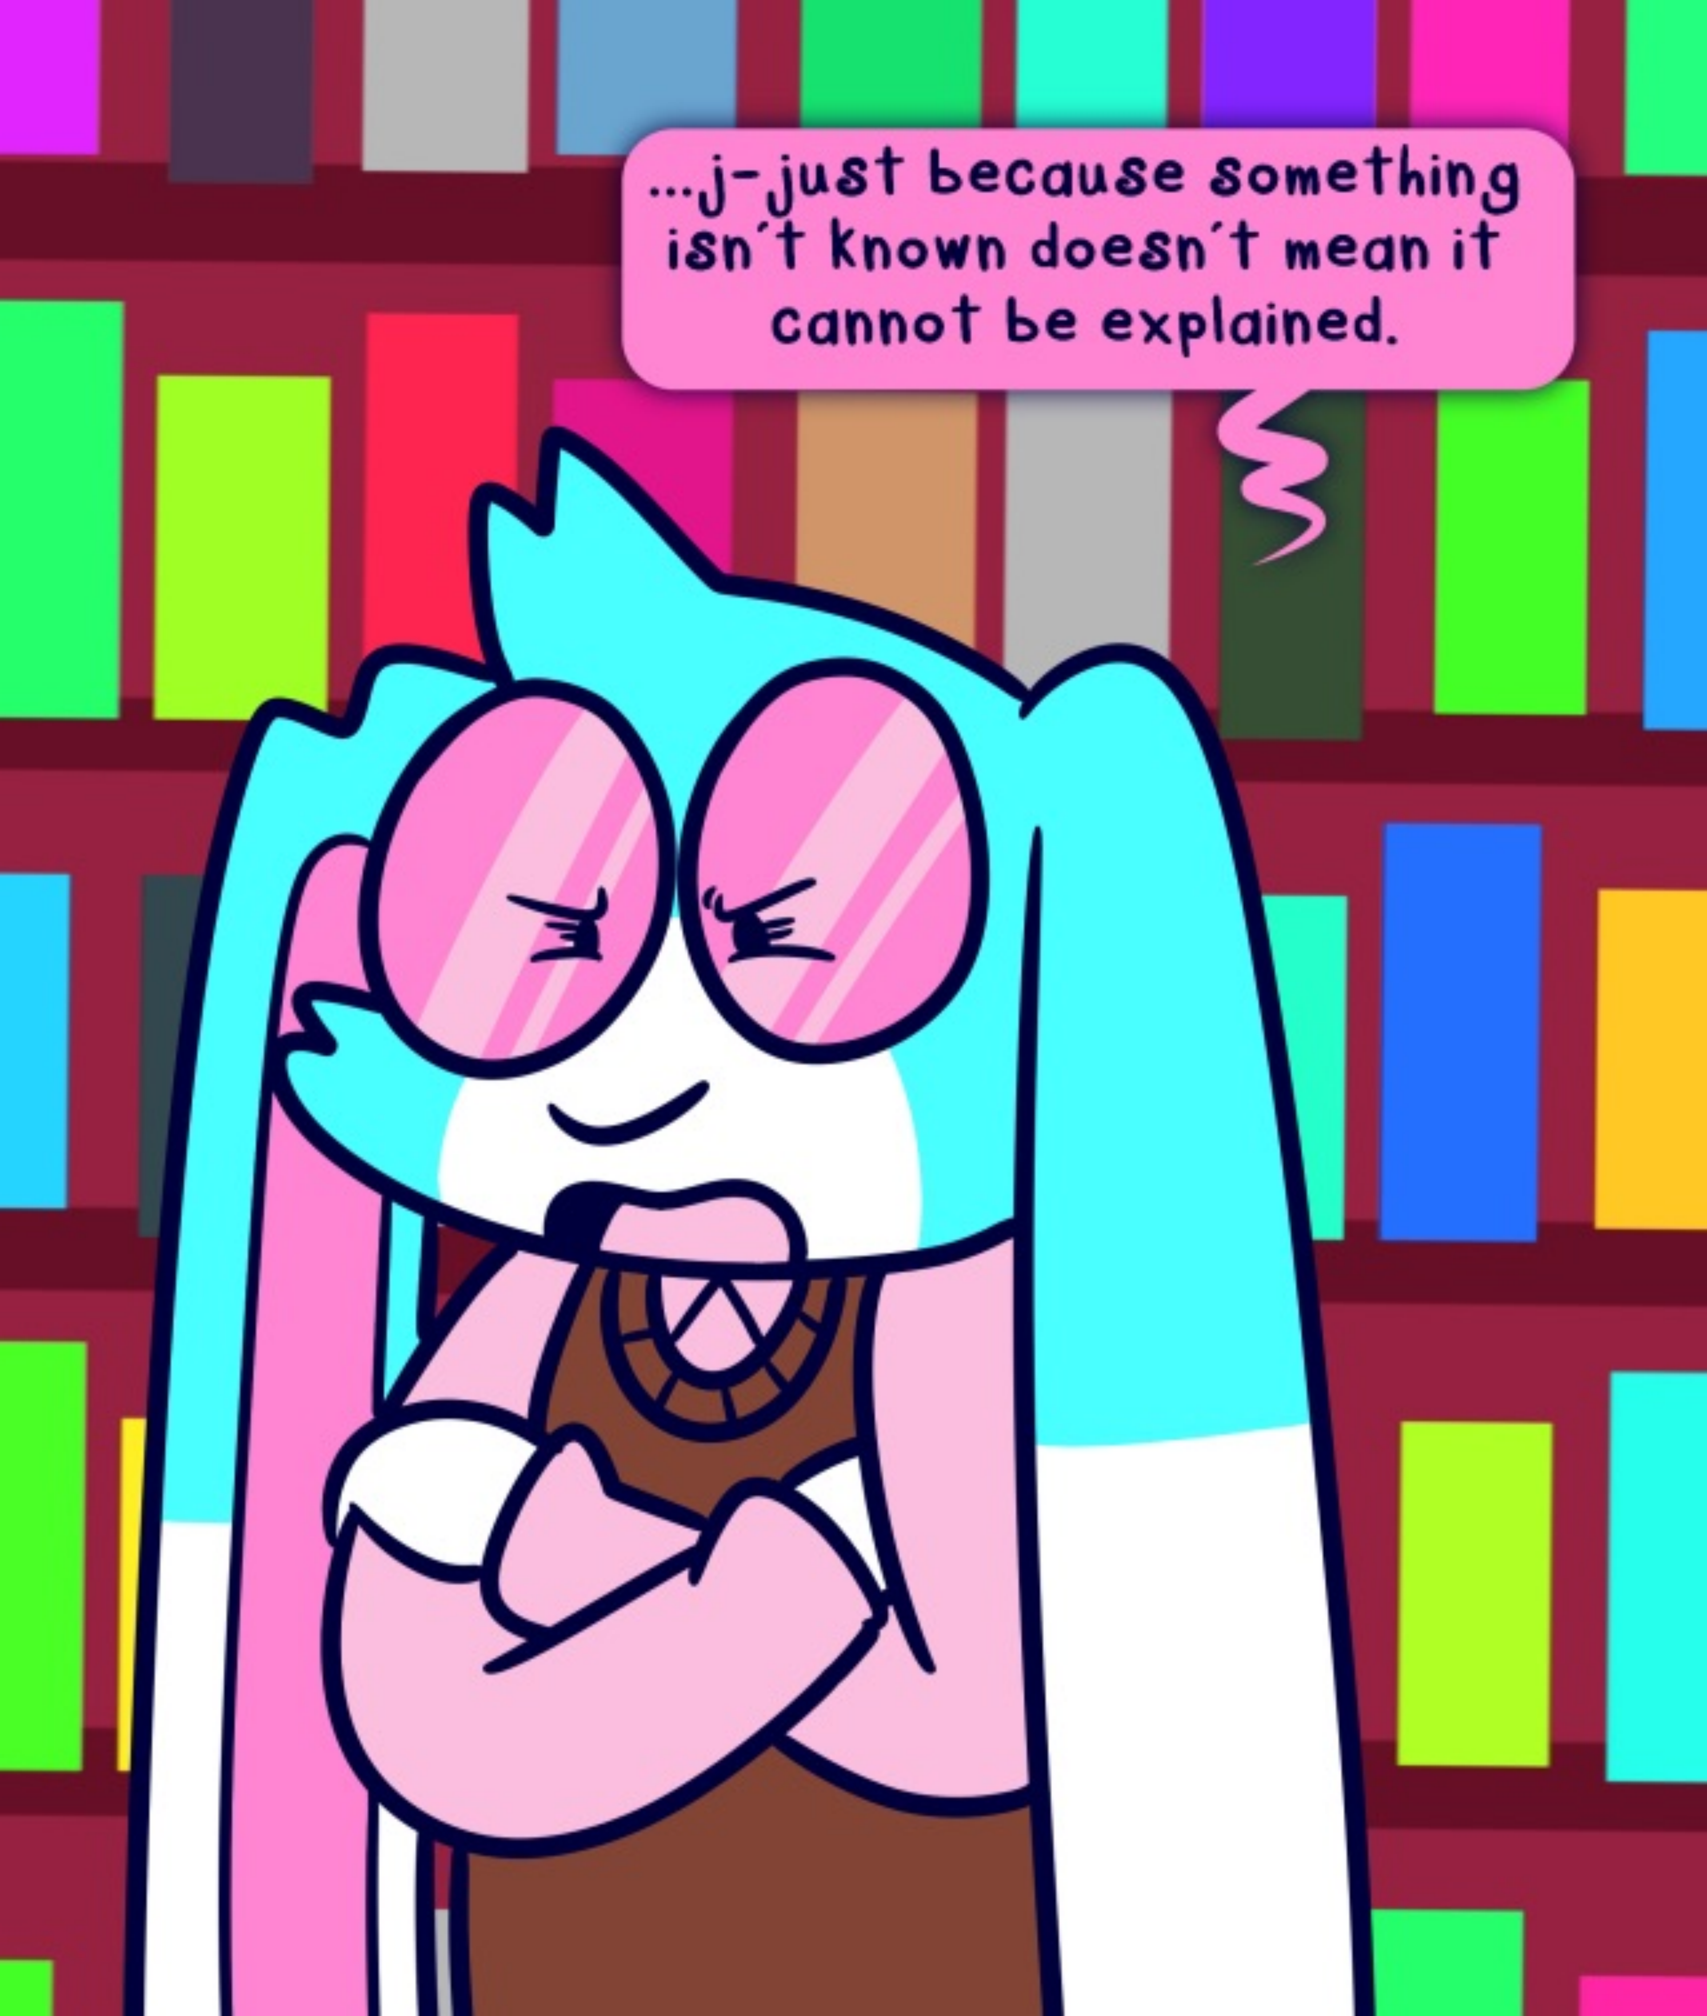
Hi, Ava. Why do you dislike fiction and especially m-word (m-m-magic)?

Because reality is IMPORTANT! If we get caught up in fantastical imaginary things we can lose sight of the beautiful aspects of nature and stuff that happens in real life!
Reality is amazing! History is amazing! There are so many things right under our noses that you never even think about!
Can´t you see that?

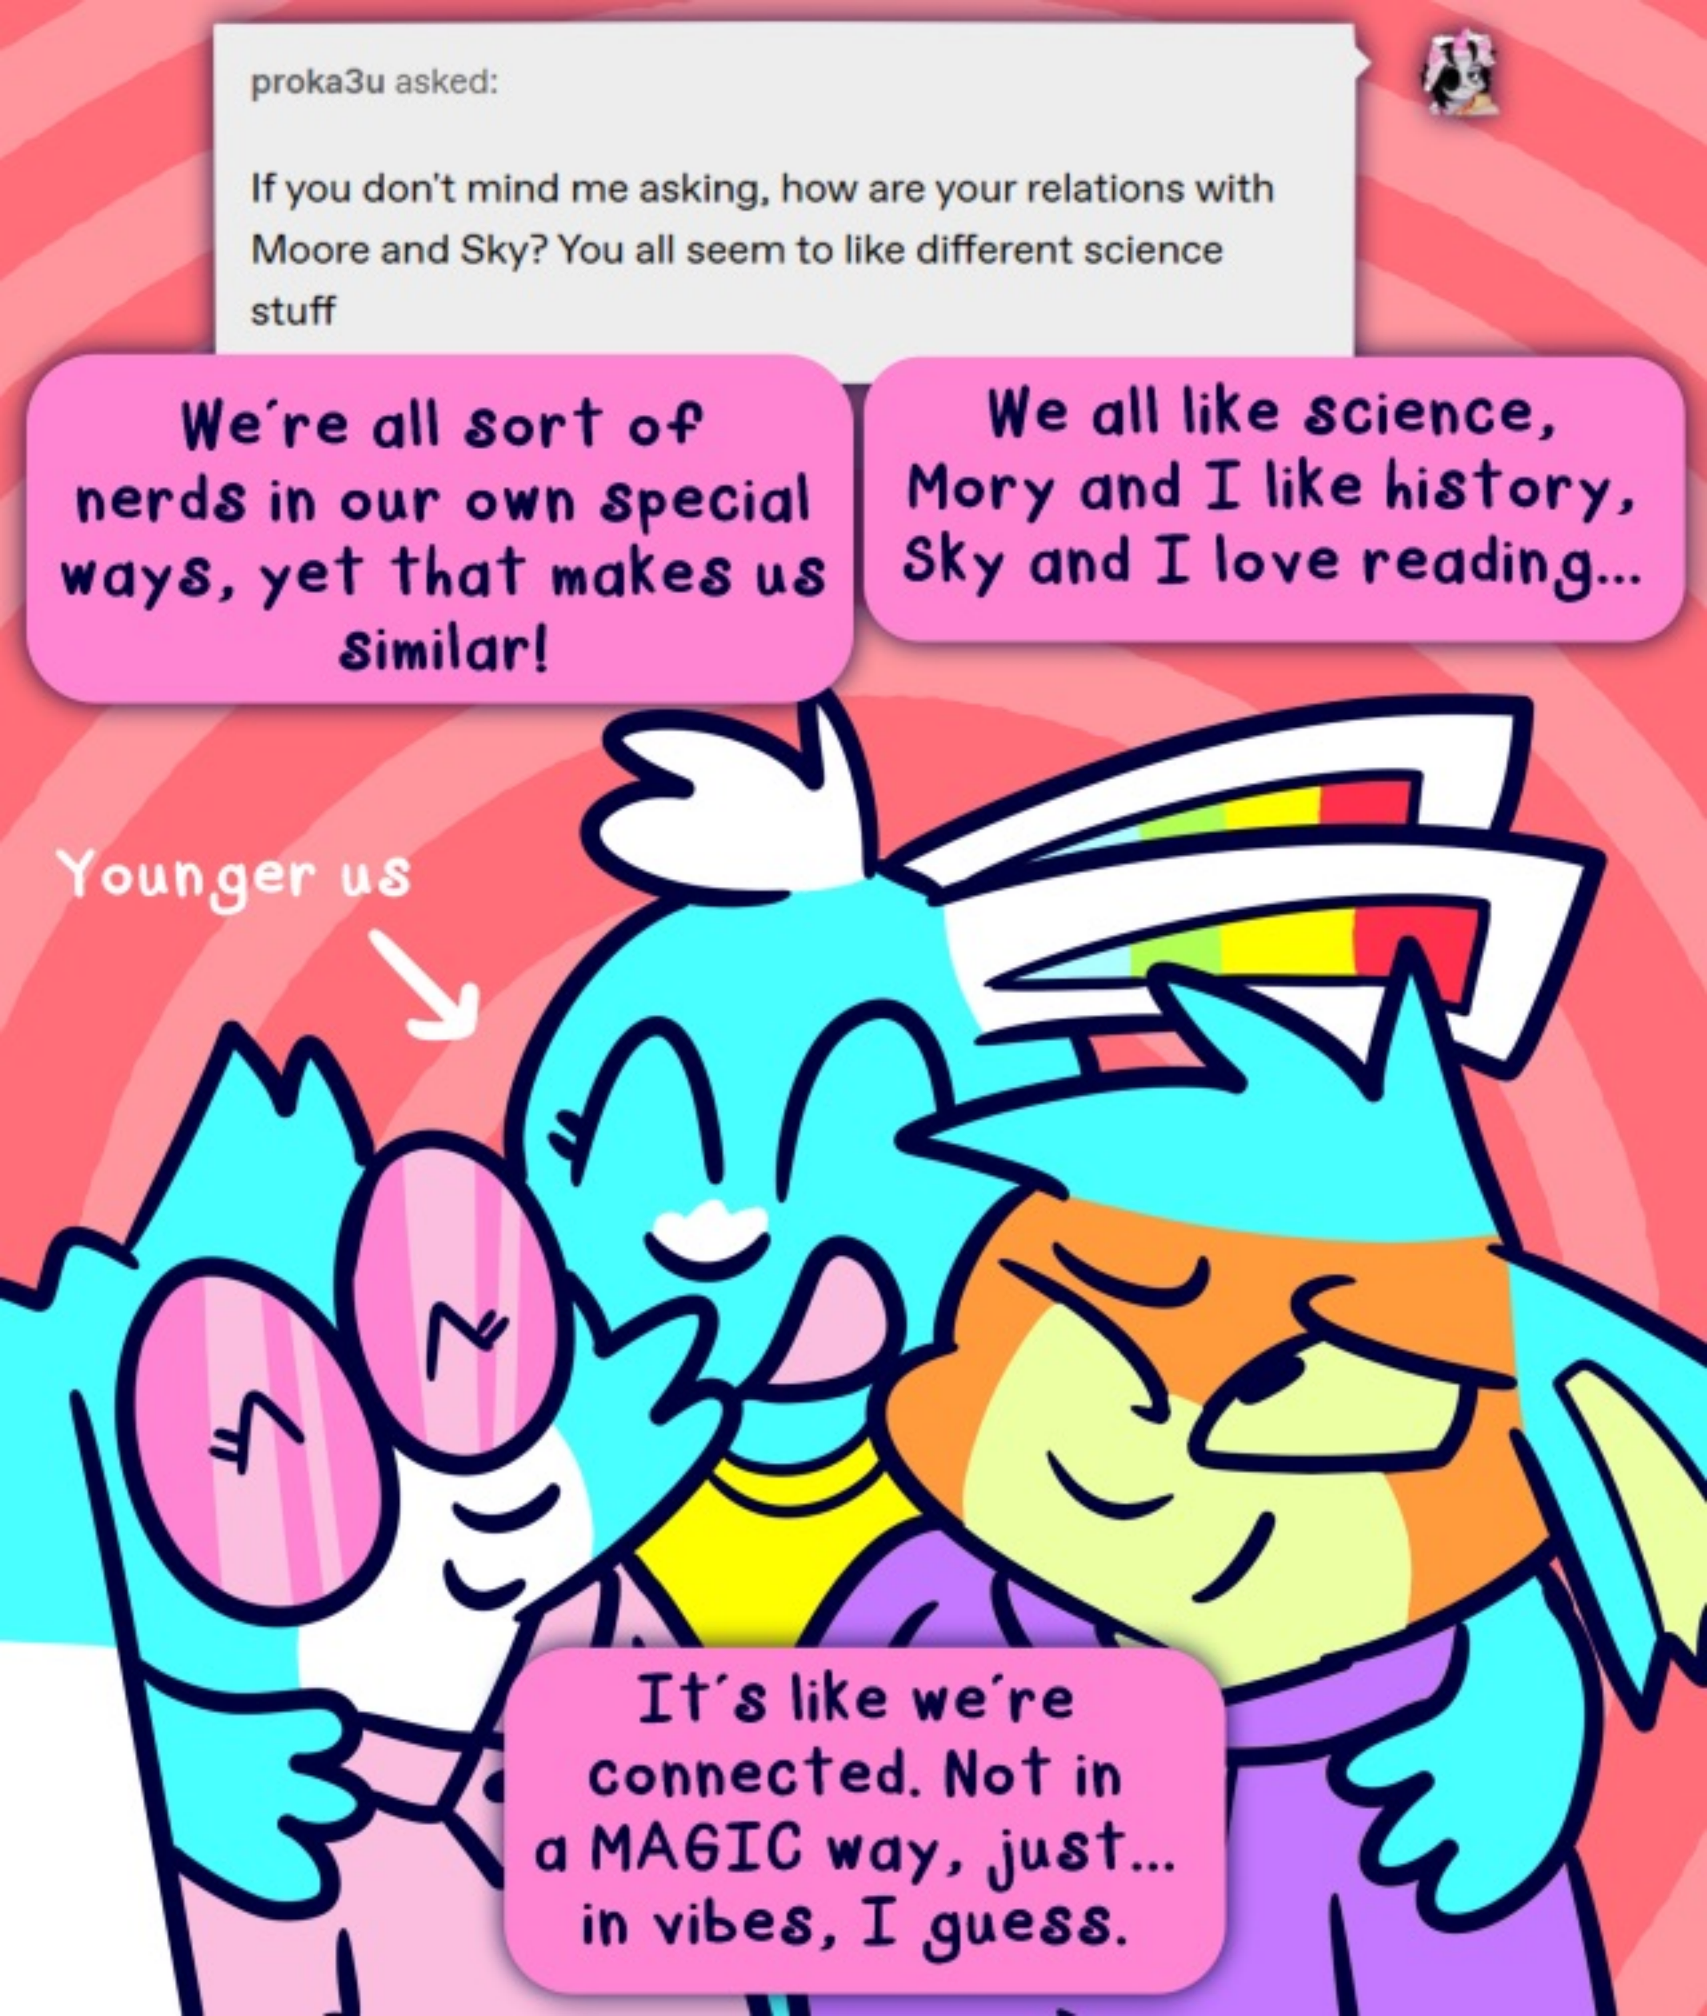


cupidloathingcorner asked:

how do you explain the whole egg thing then?



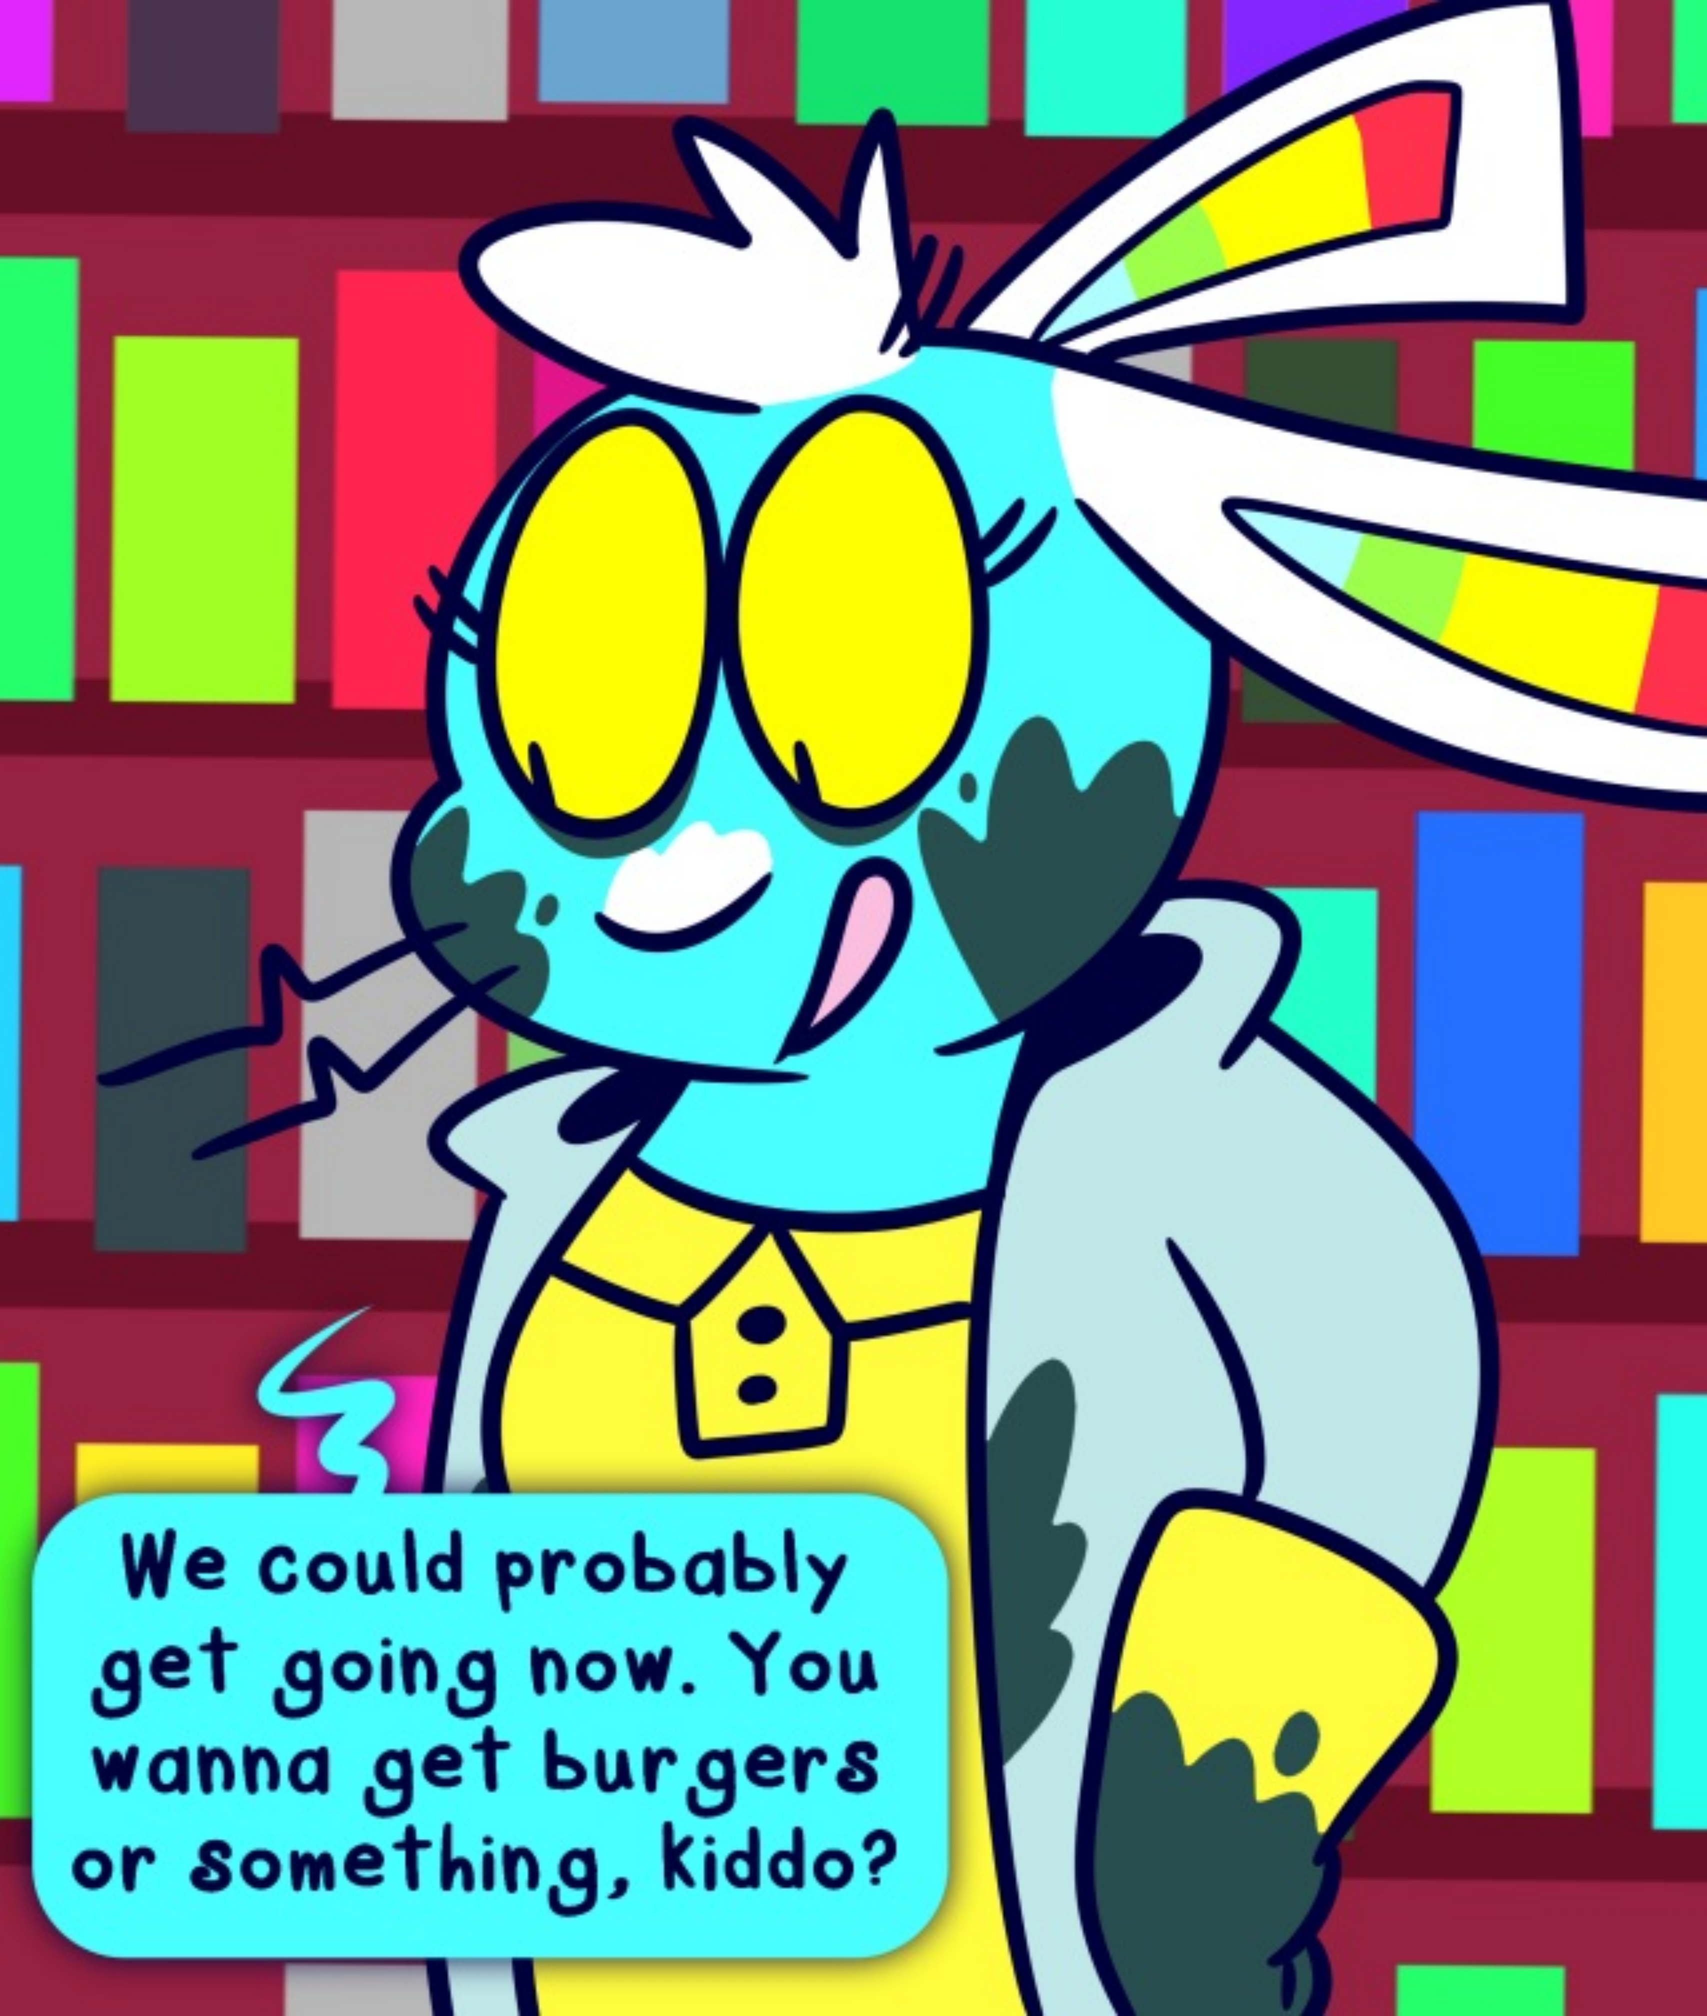
...j-just because something isn´t known doesn´t mean it cannot be explained.



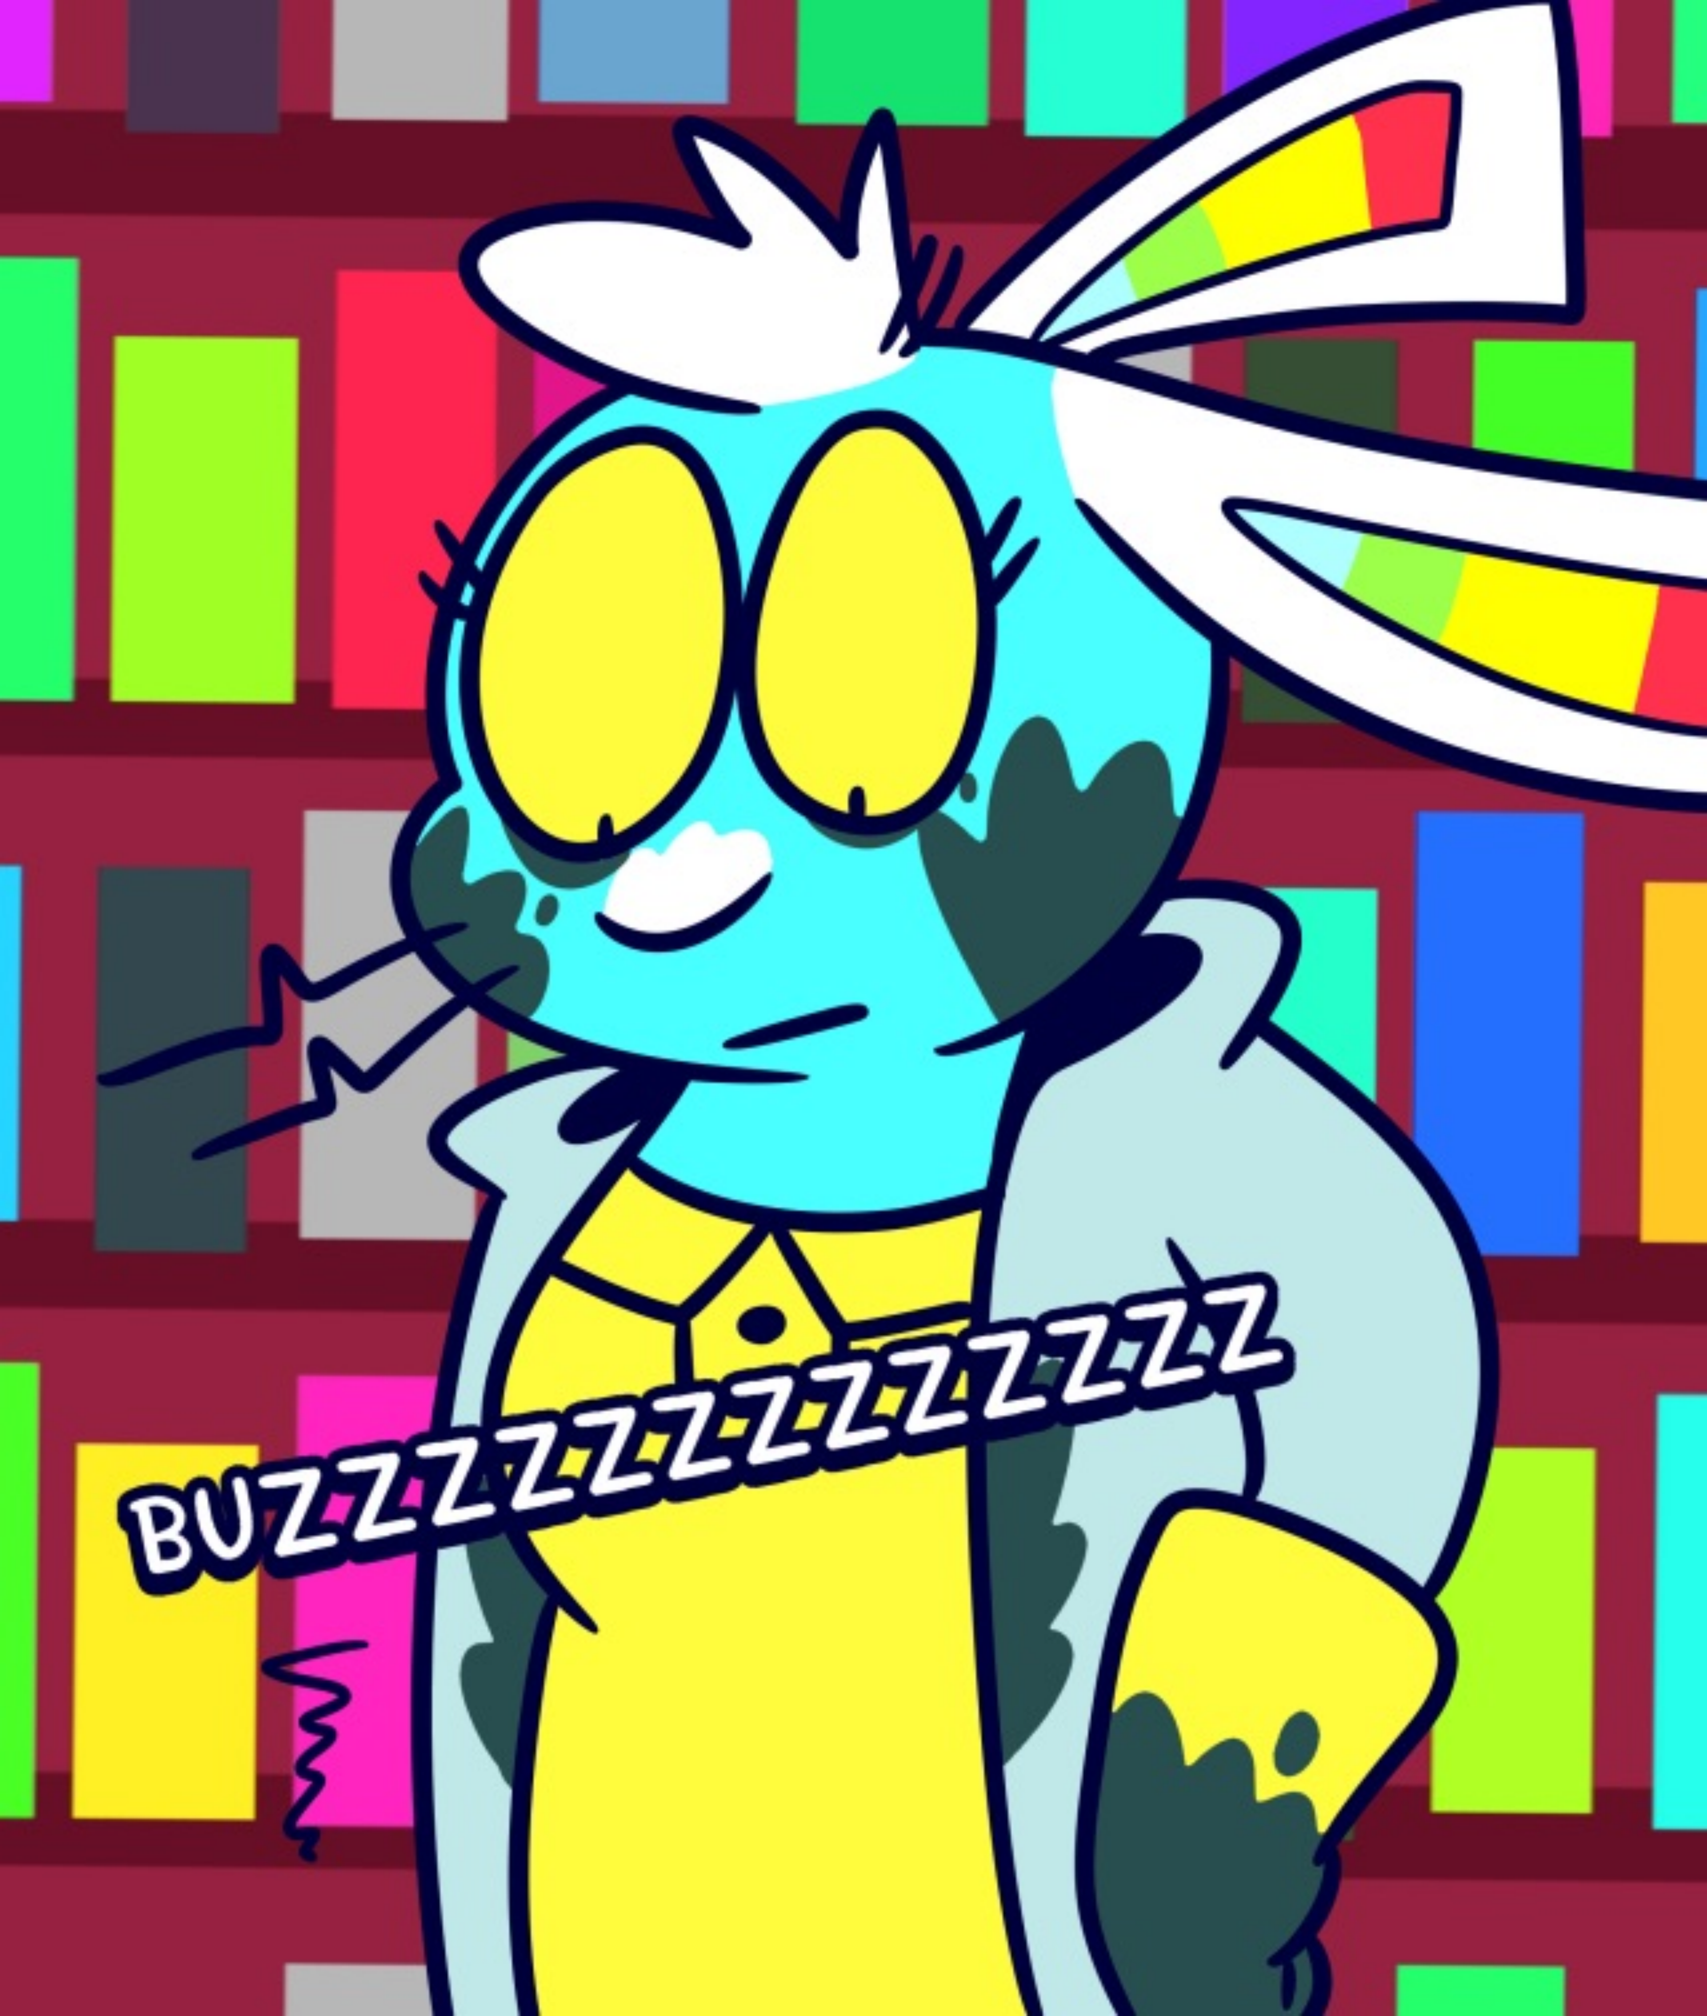
proka3u asked:

If you don't mind me asking, how are your relations with Moore and Sky? You all seem to like different science stuff

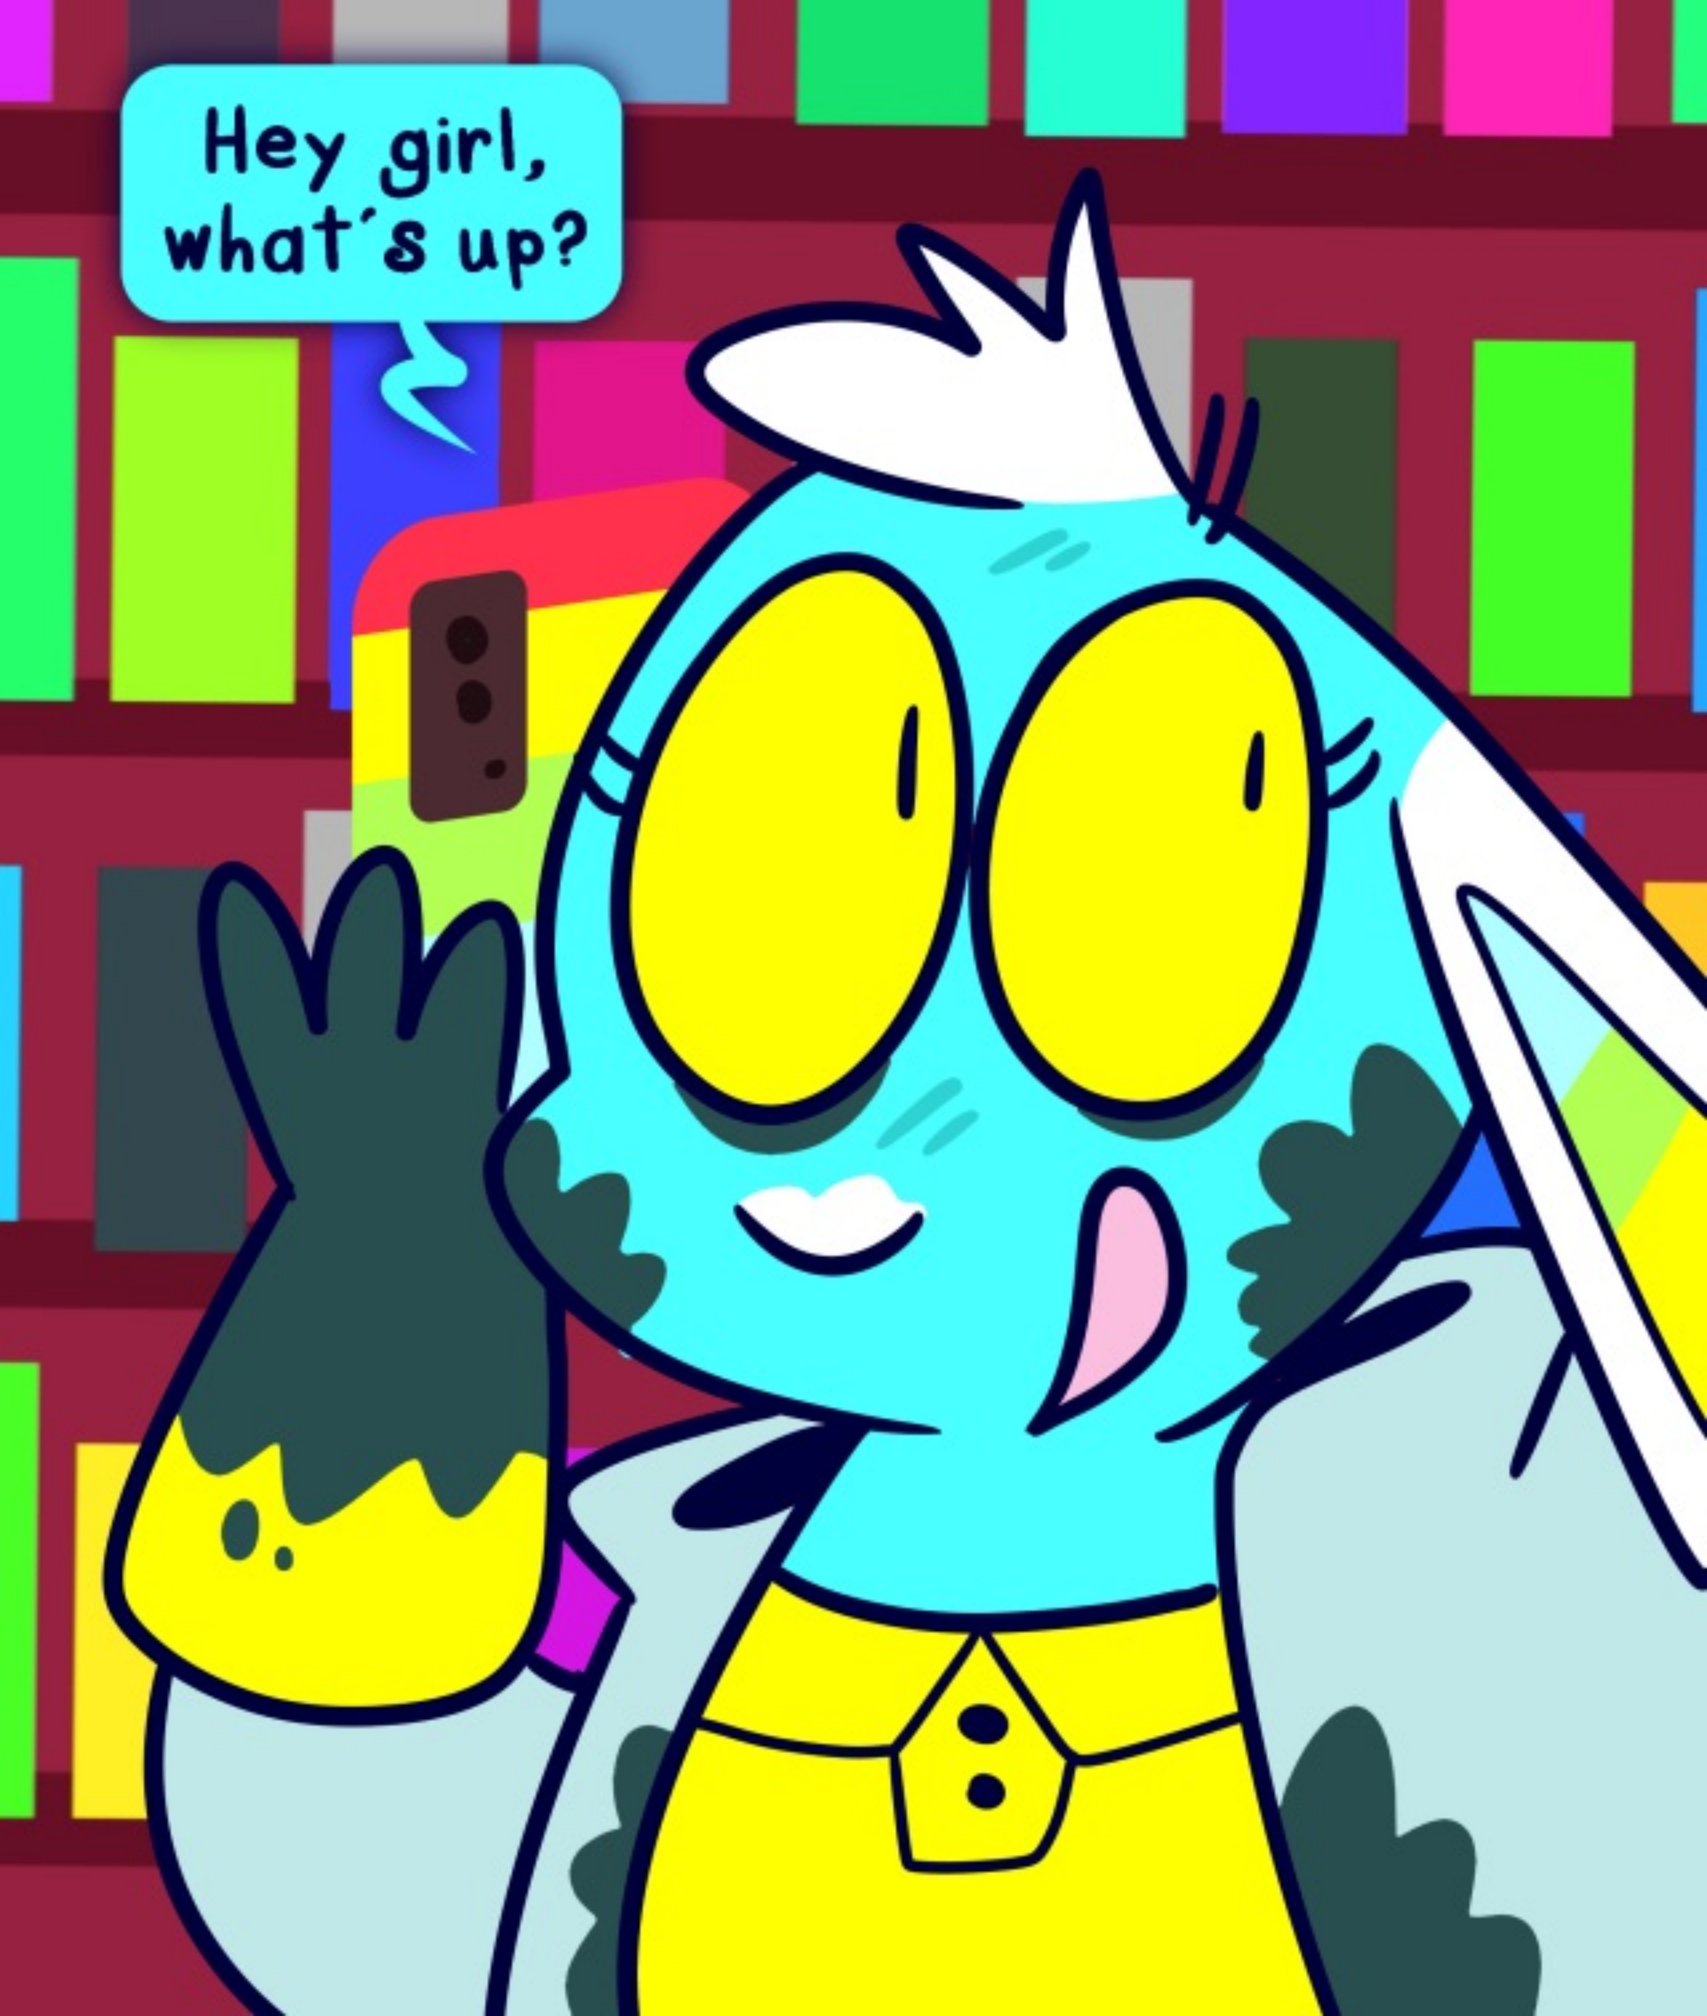
We're all sort of nerds in our own special ways, yet that makes us similar!
We all like science, Mory and I like history, Sky and I love reading...
Younger us
It's like we're connected. Not in a MAGIC way, just... in vibes, I guess.



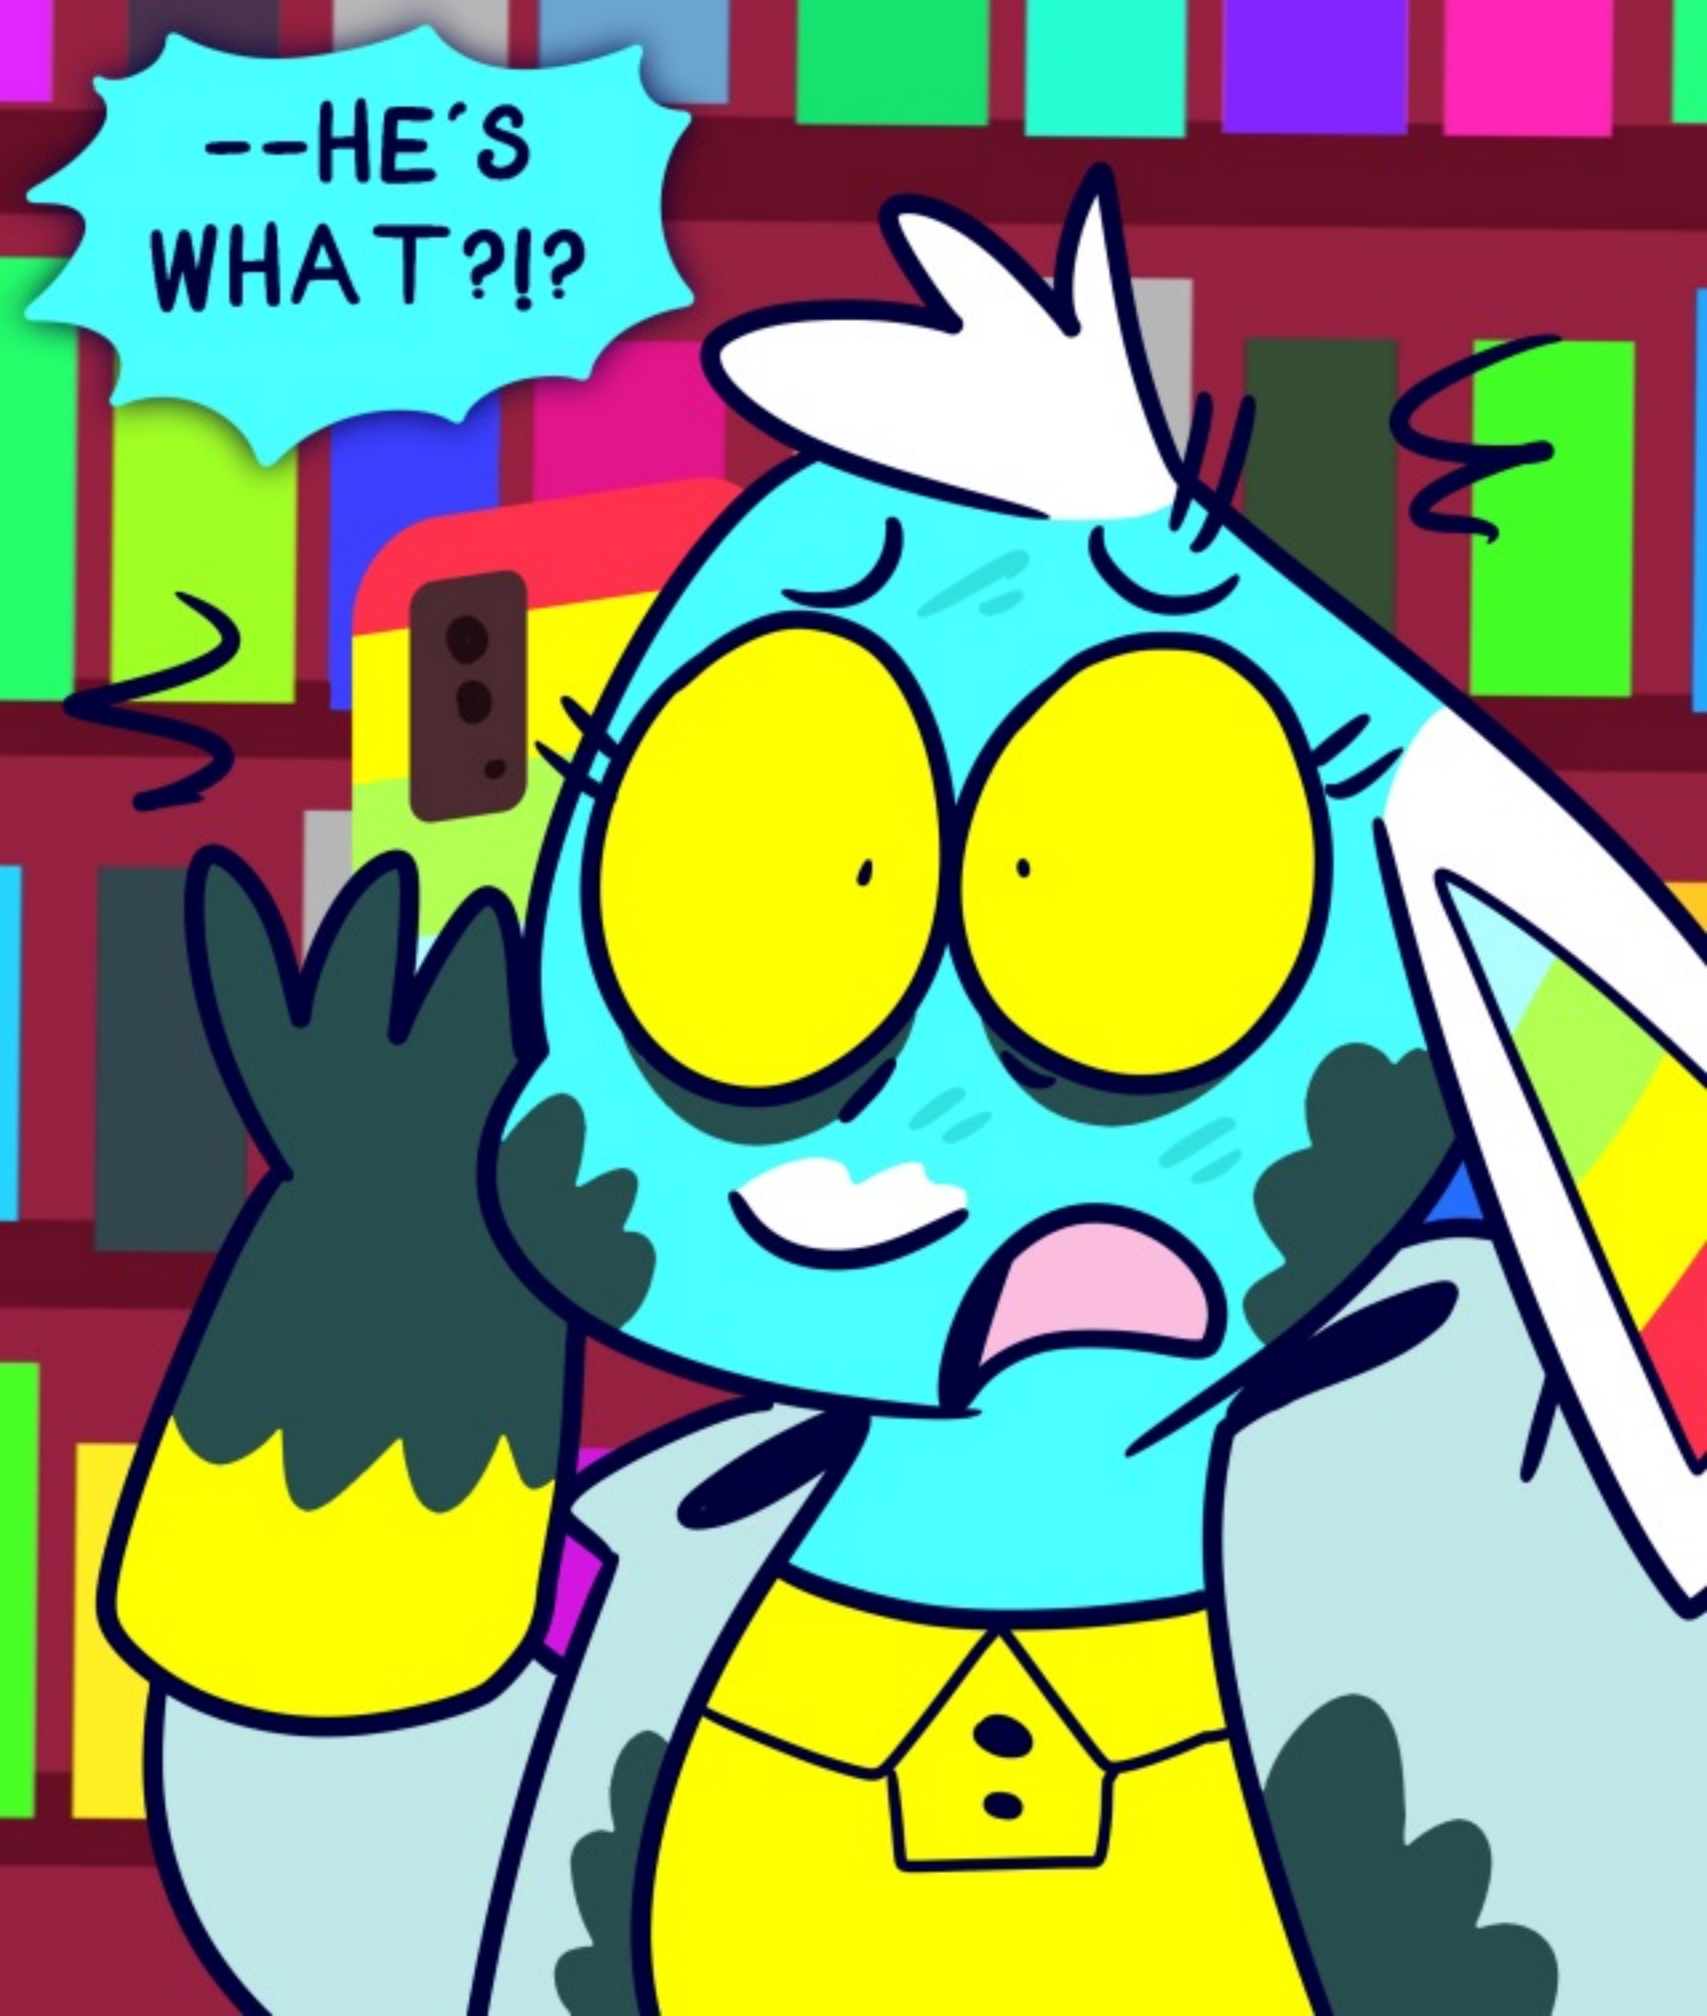
We could probably get going now. You wanna get burgers or something, kiddo?



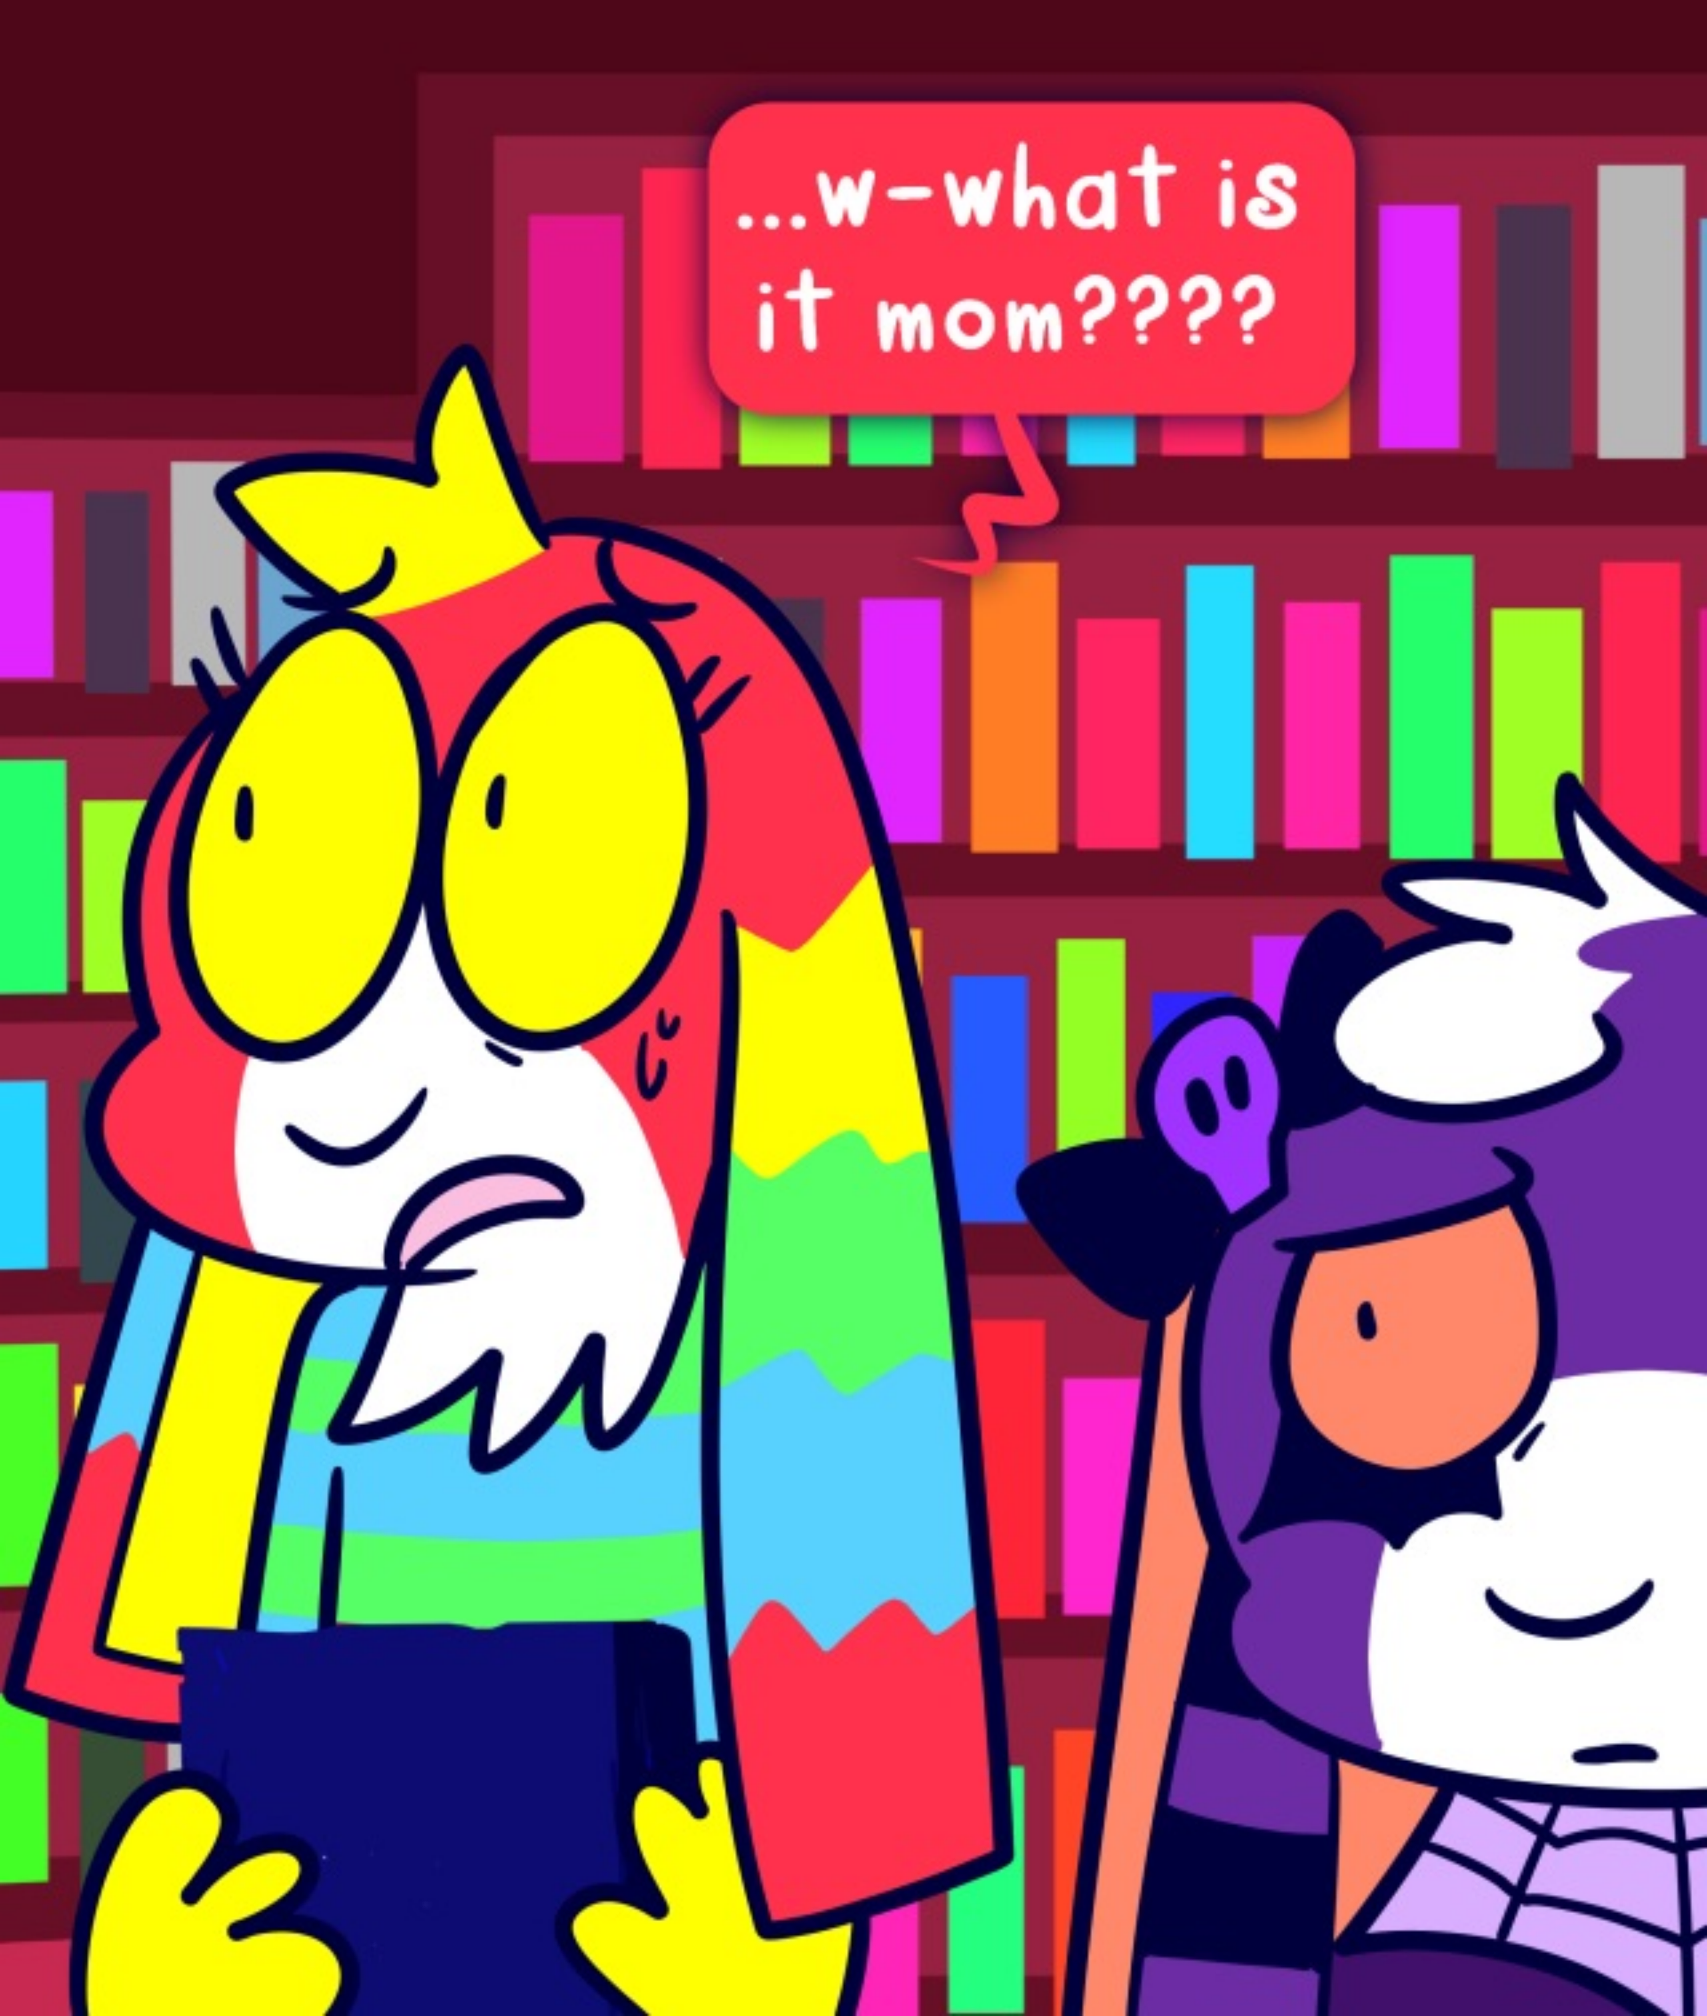
BUZZZZZZZZZZZZZZZ



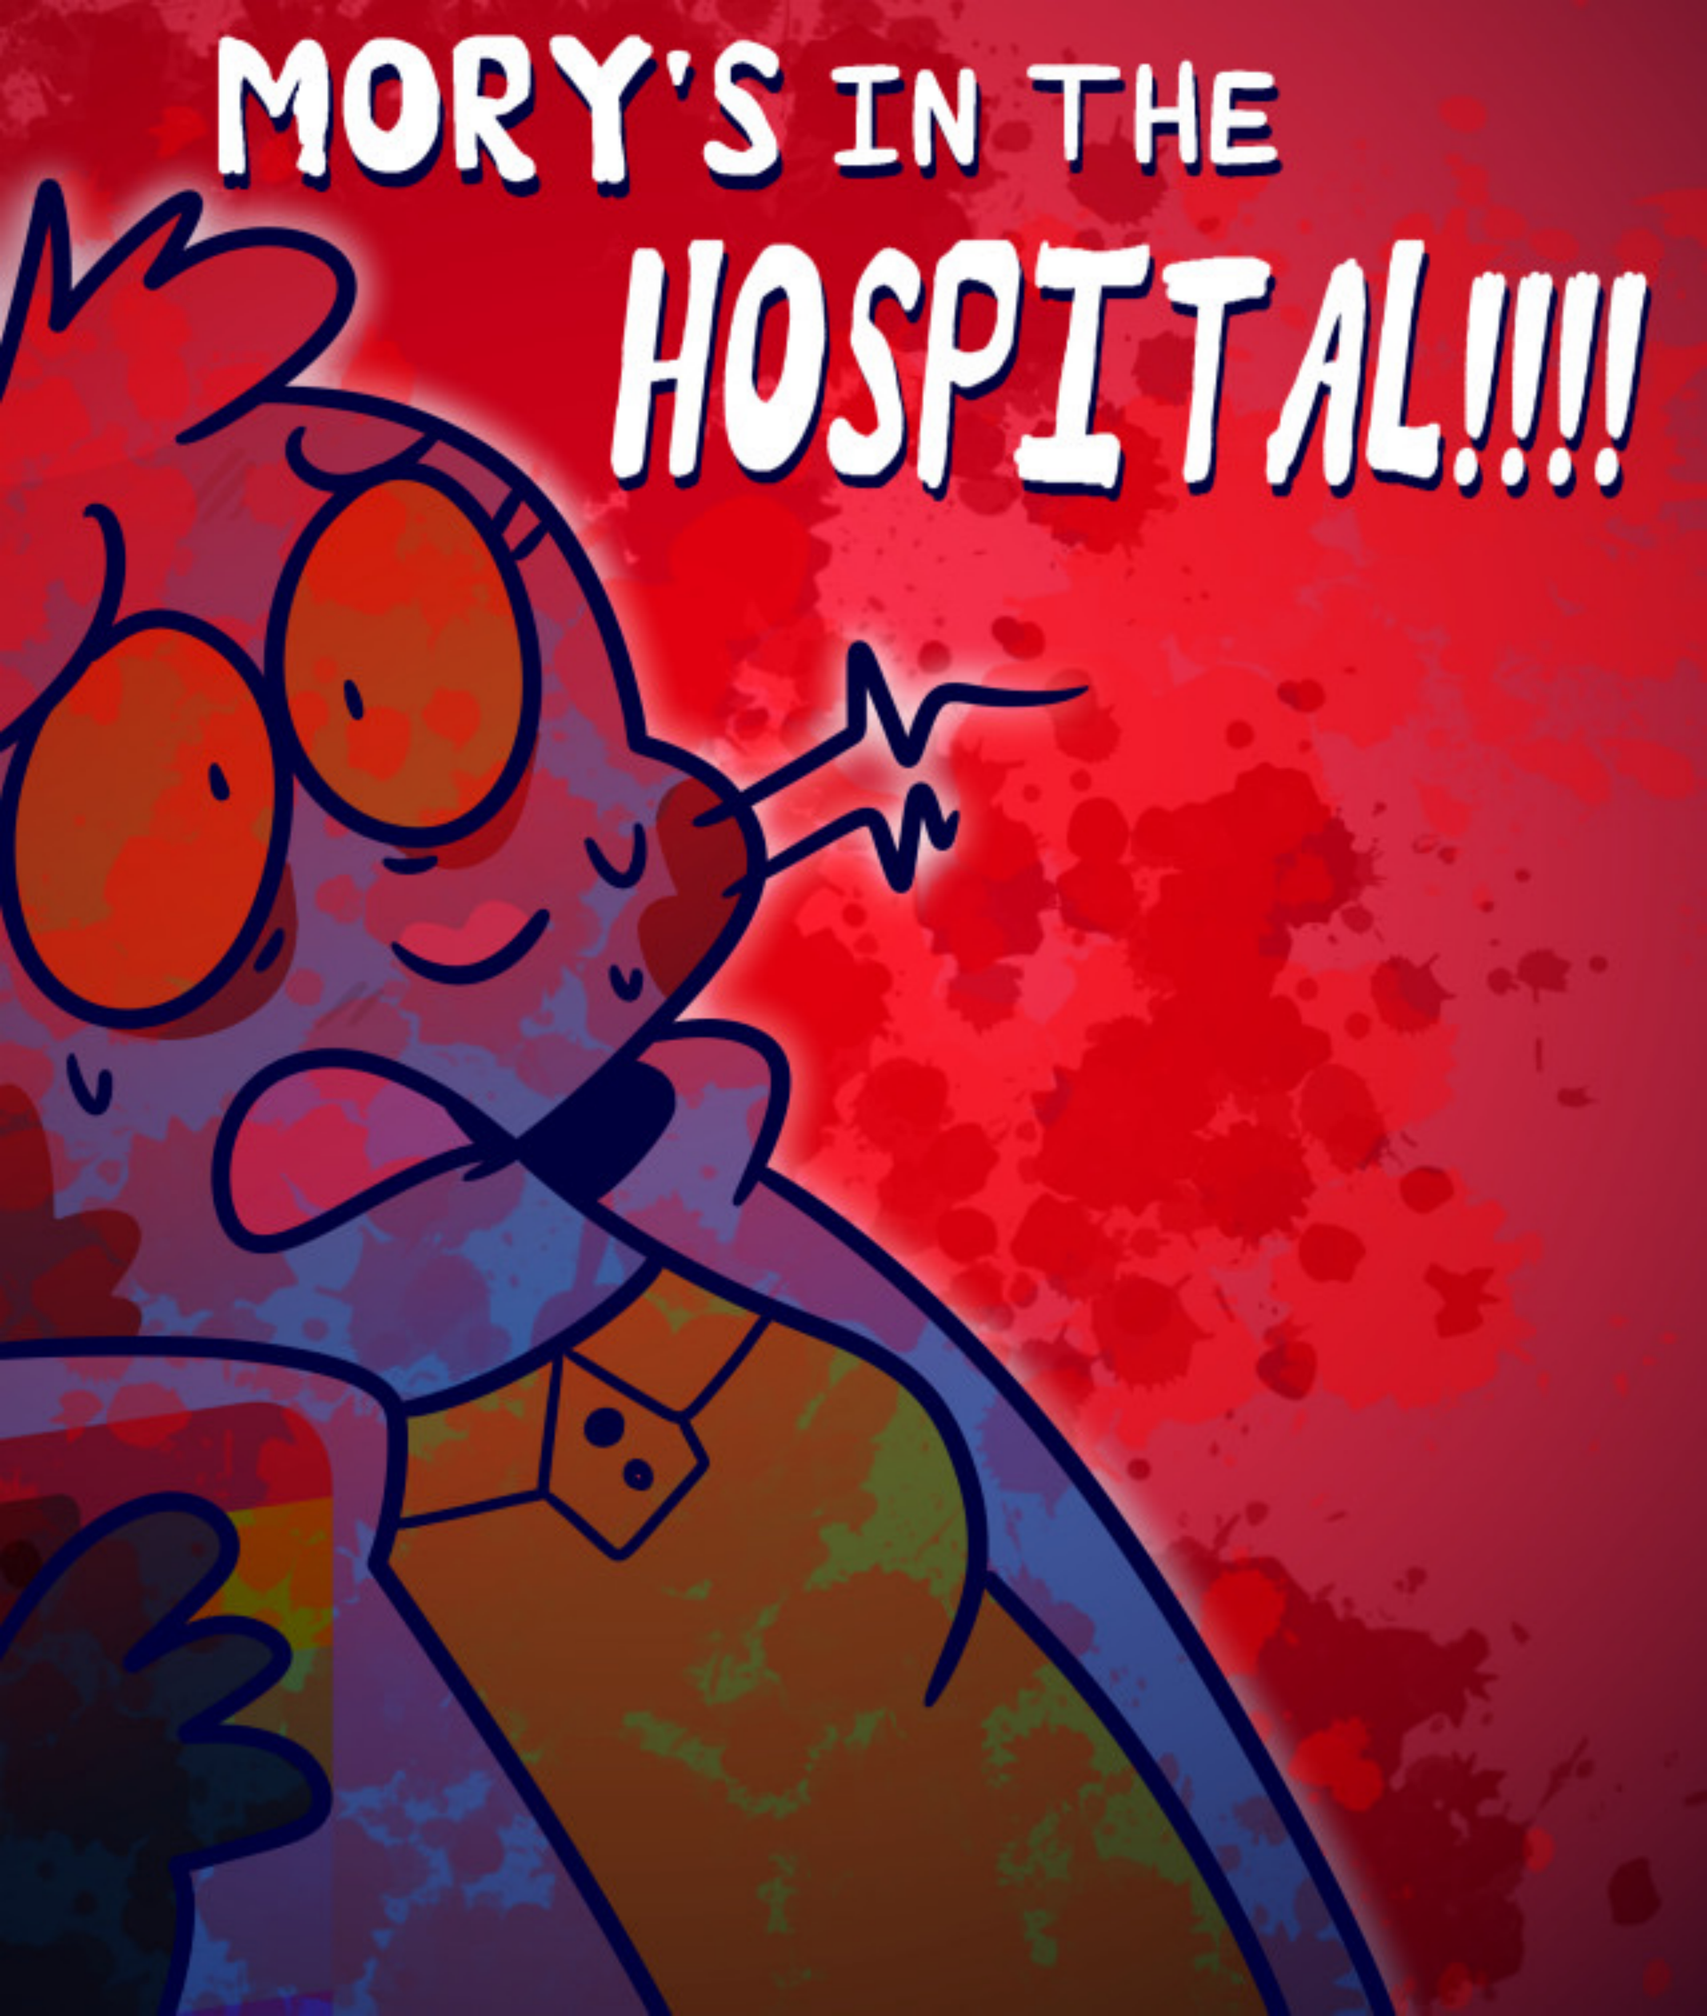
Hey girl, what´s up?



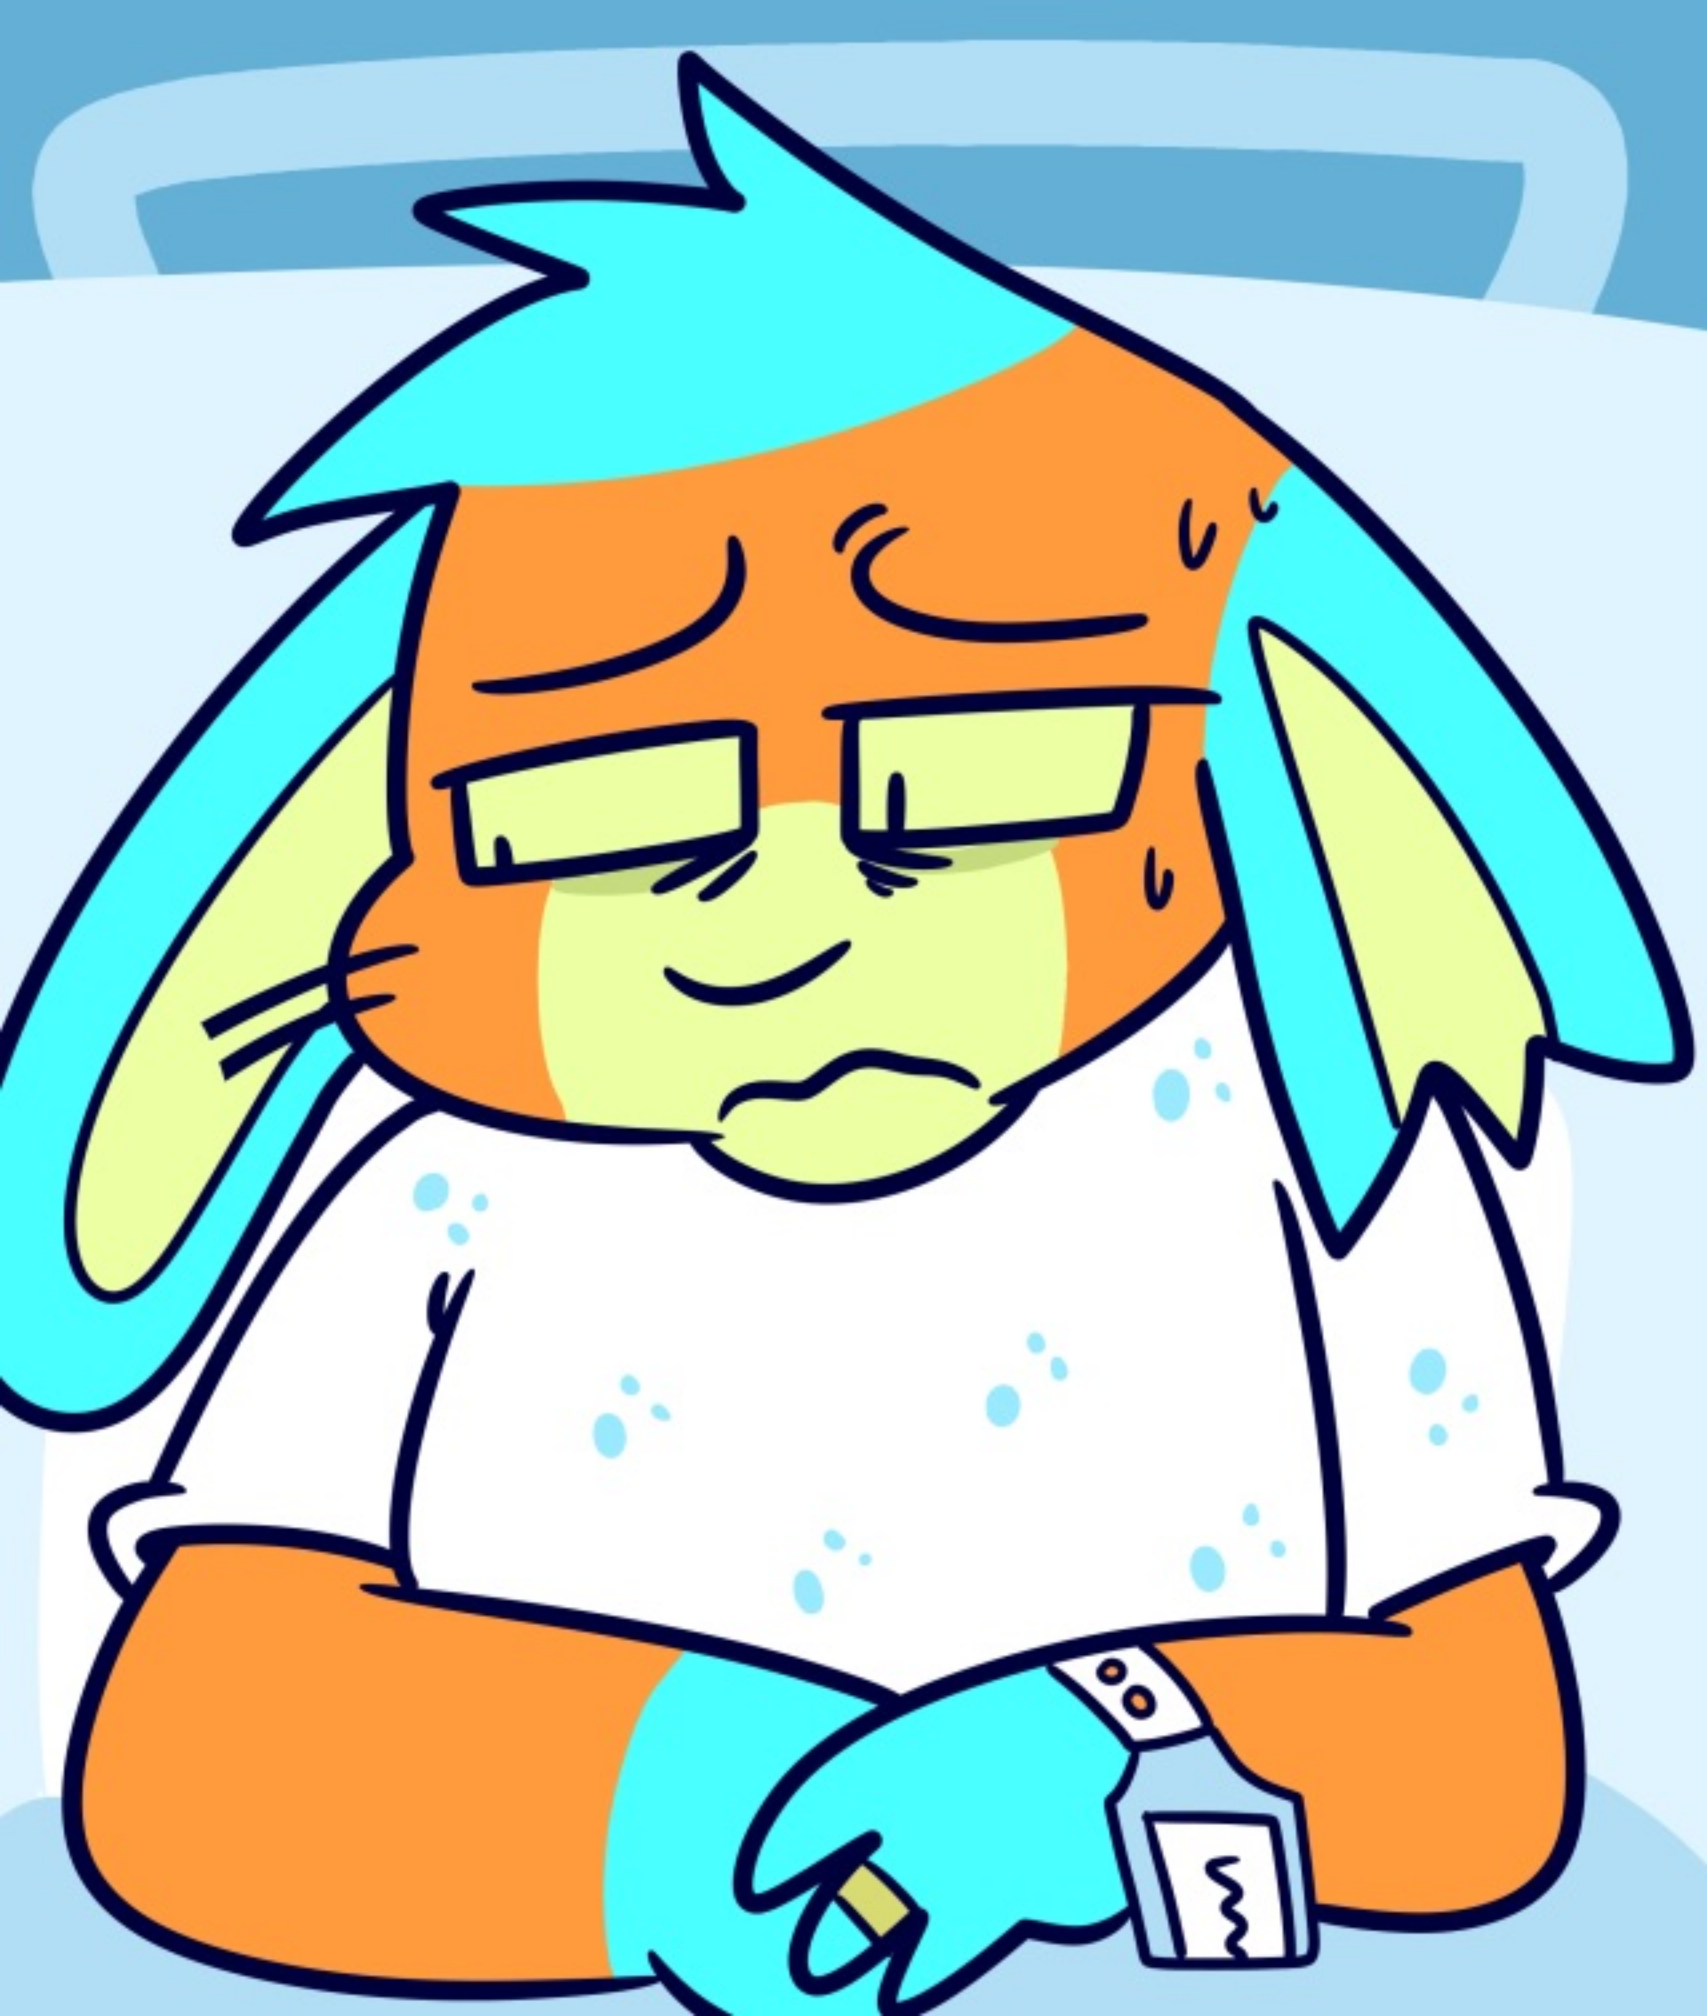
--HE´S WHAT?!?

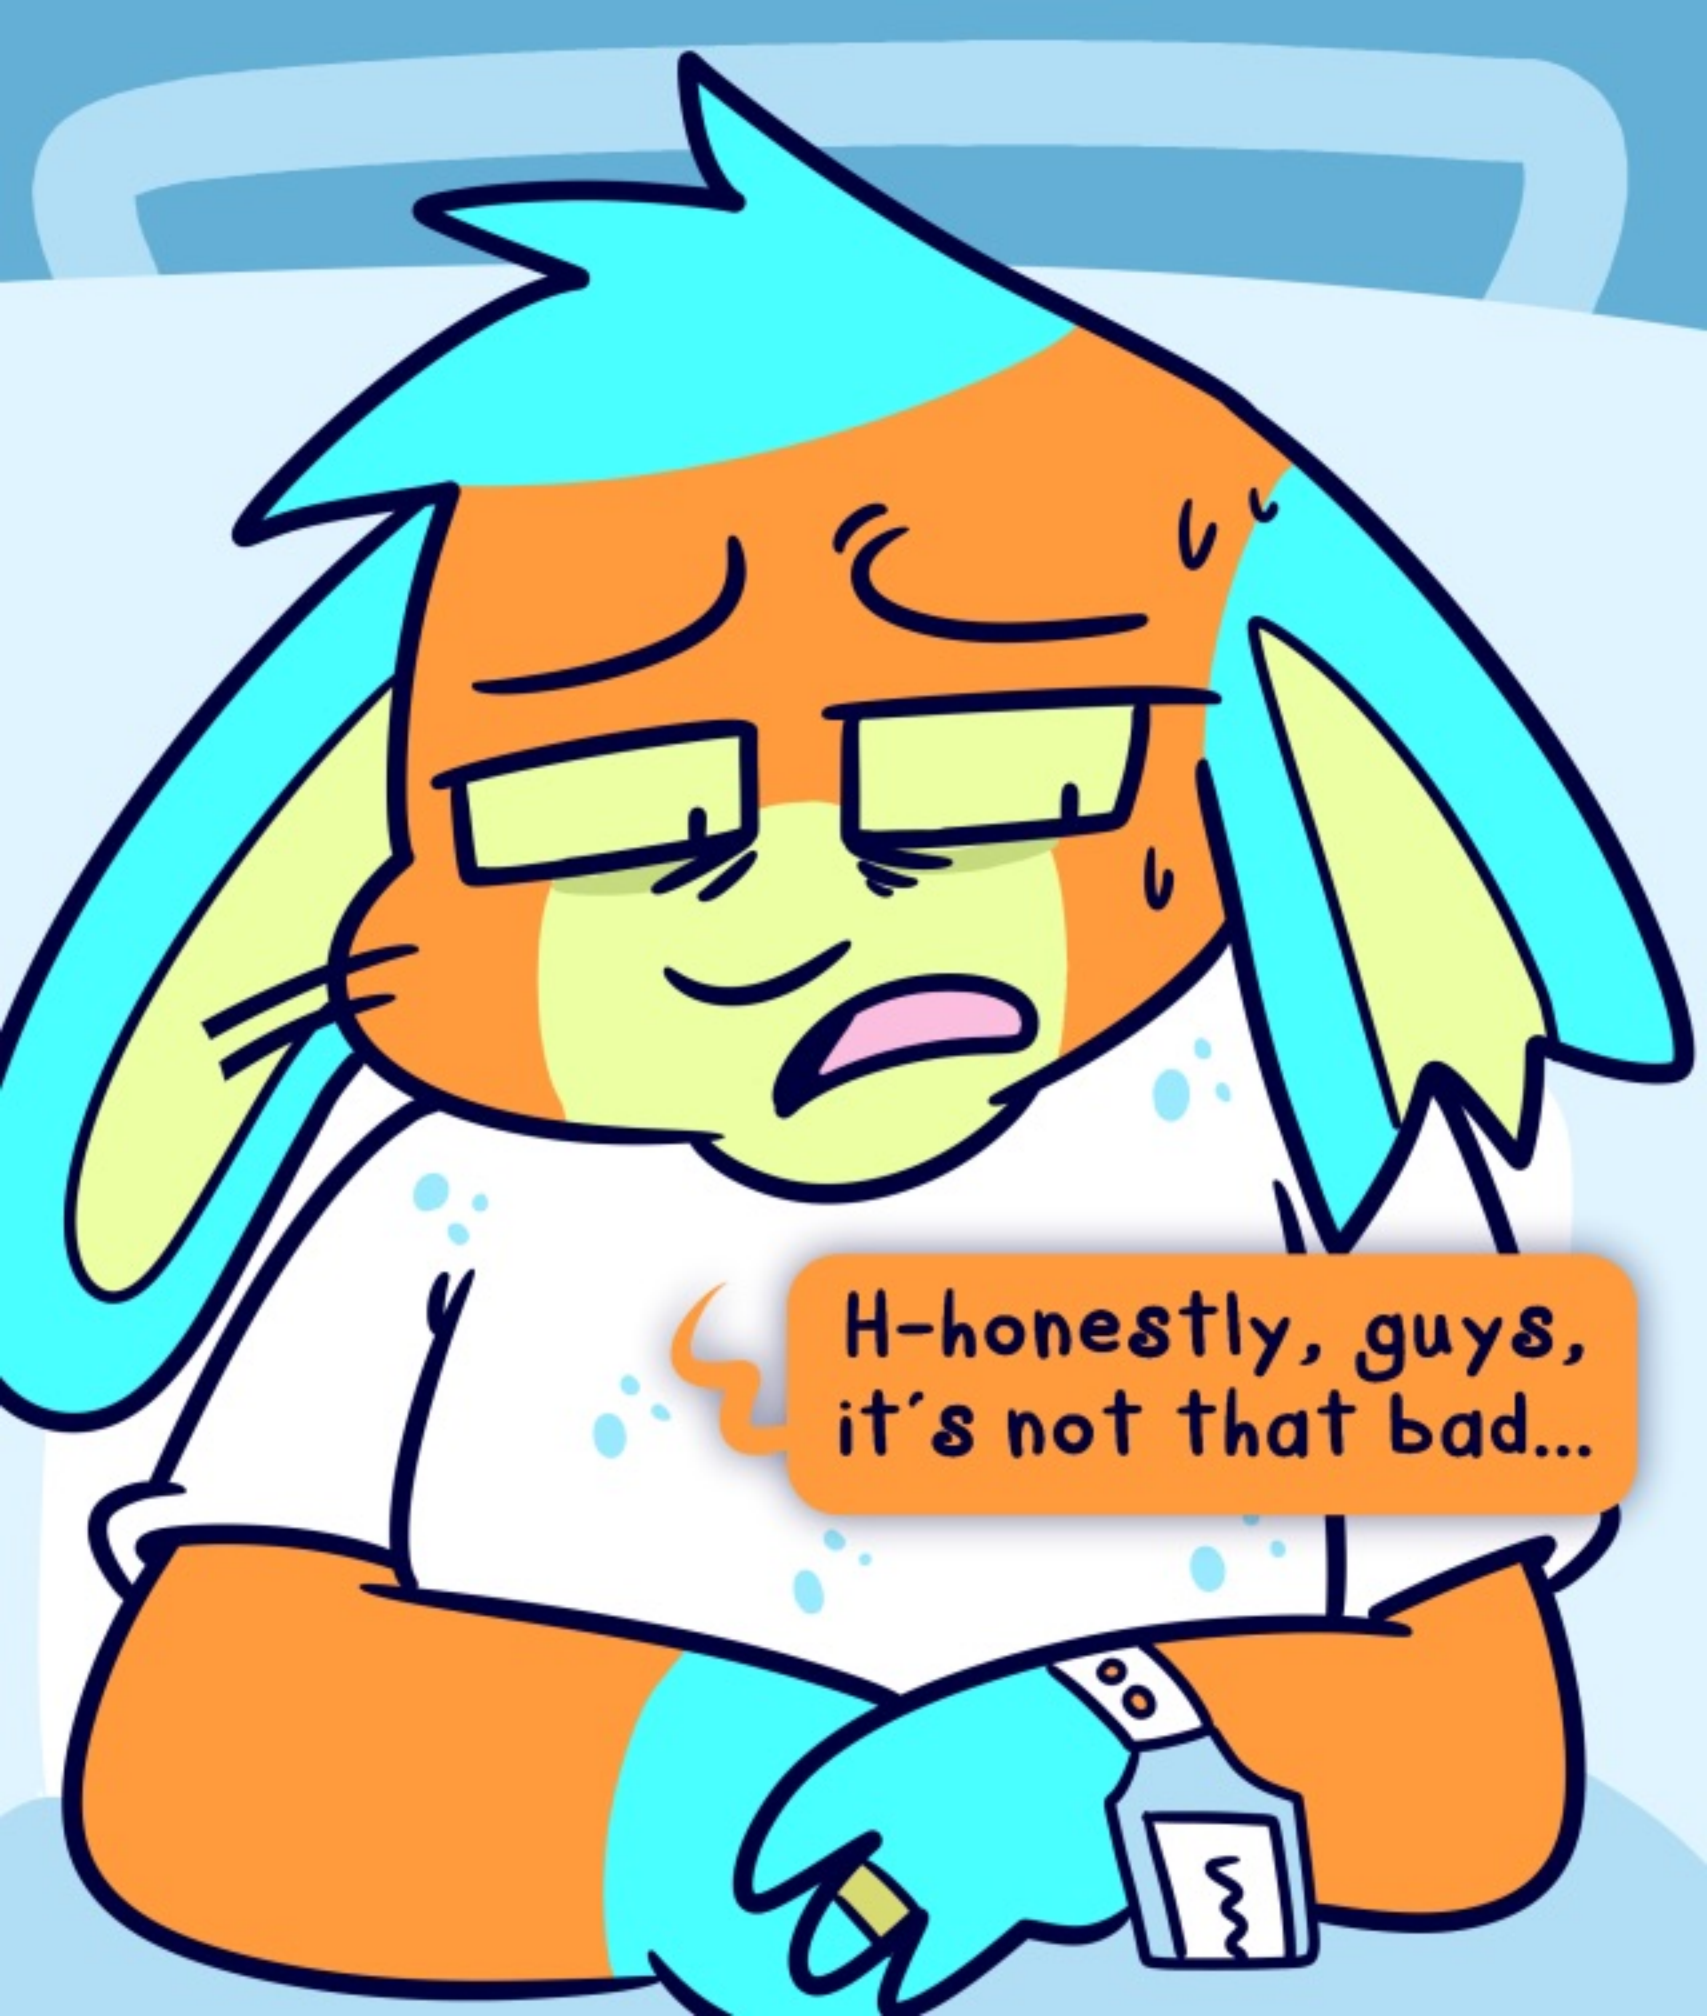


...w-what is it mom????

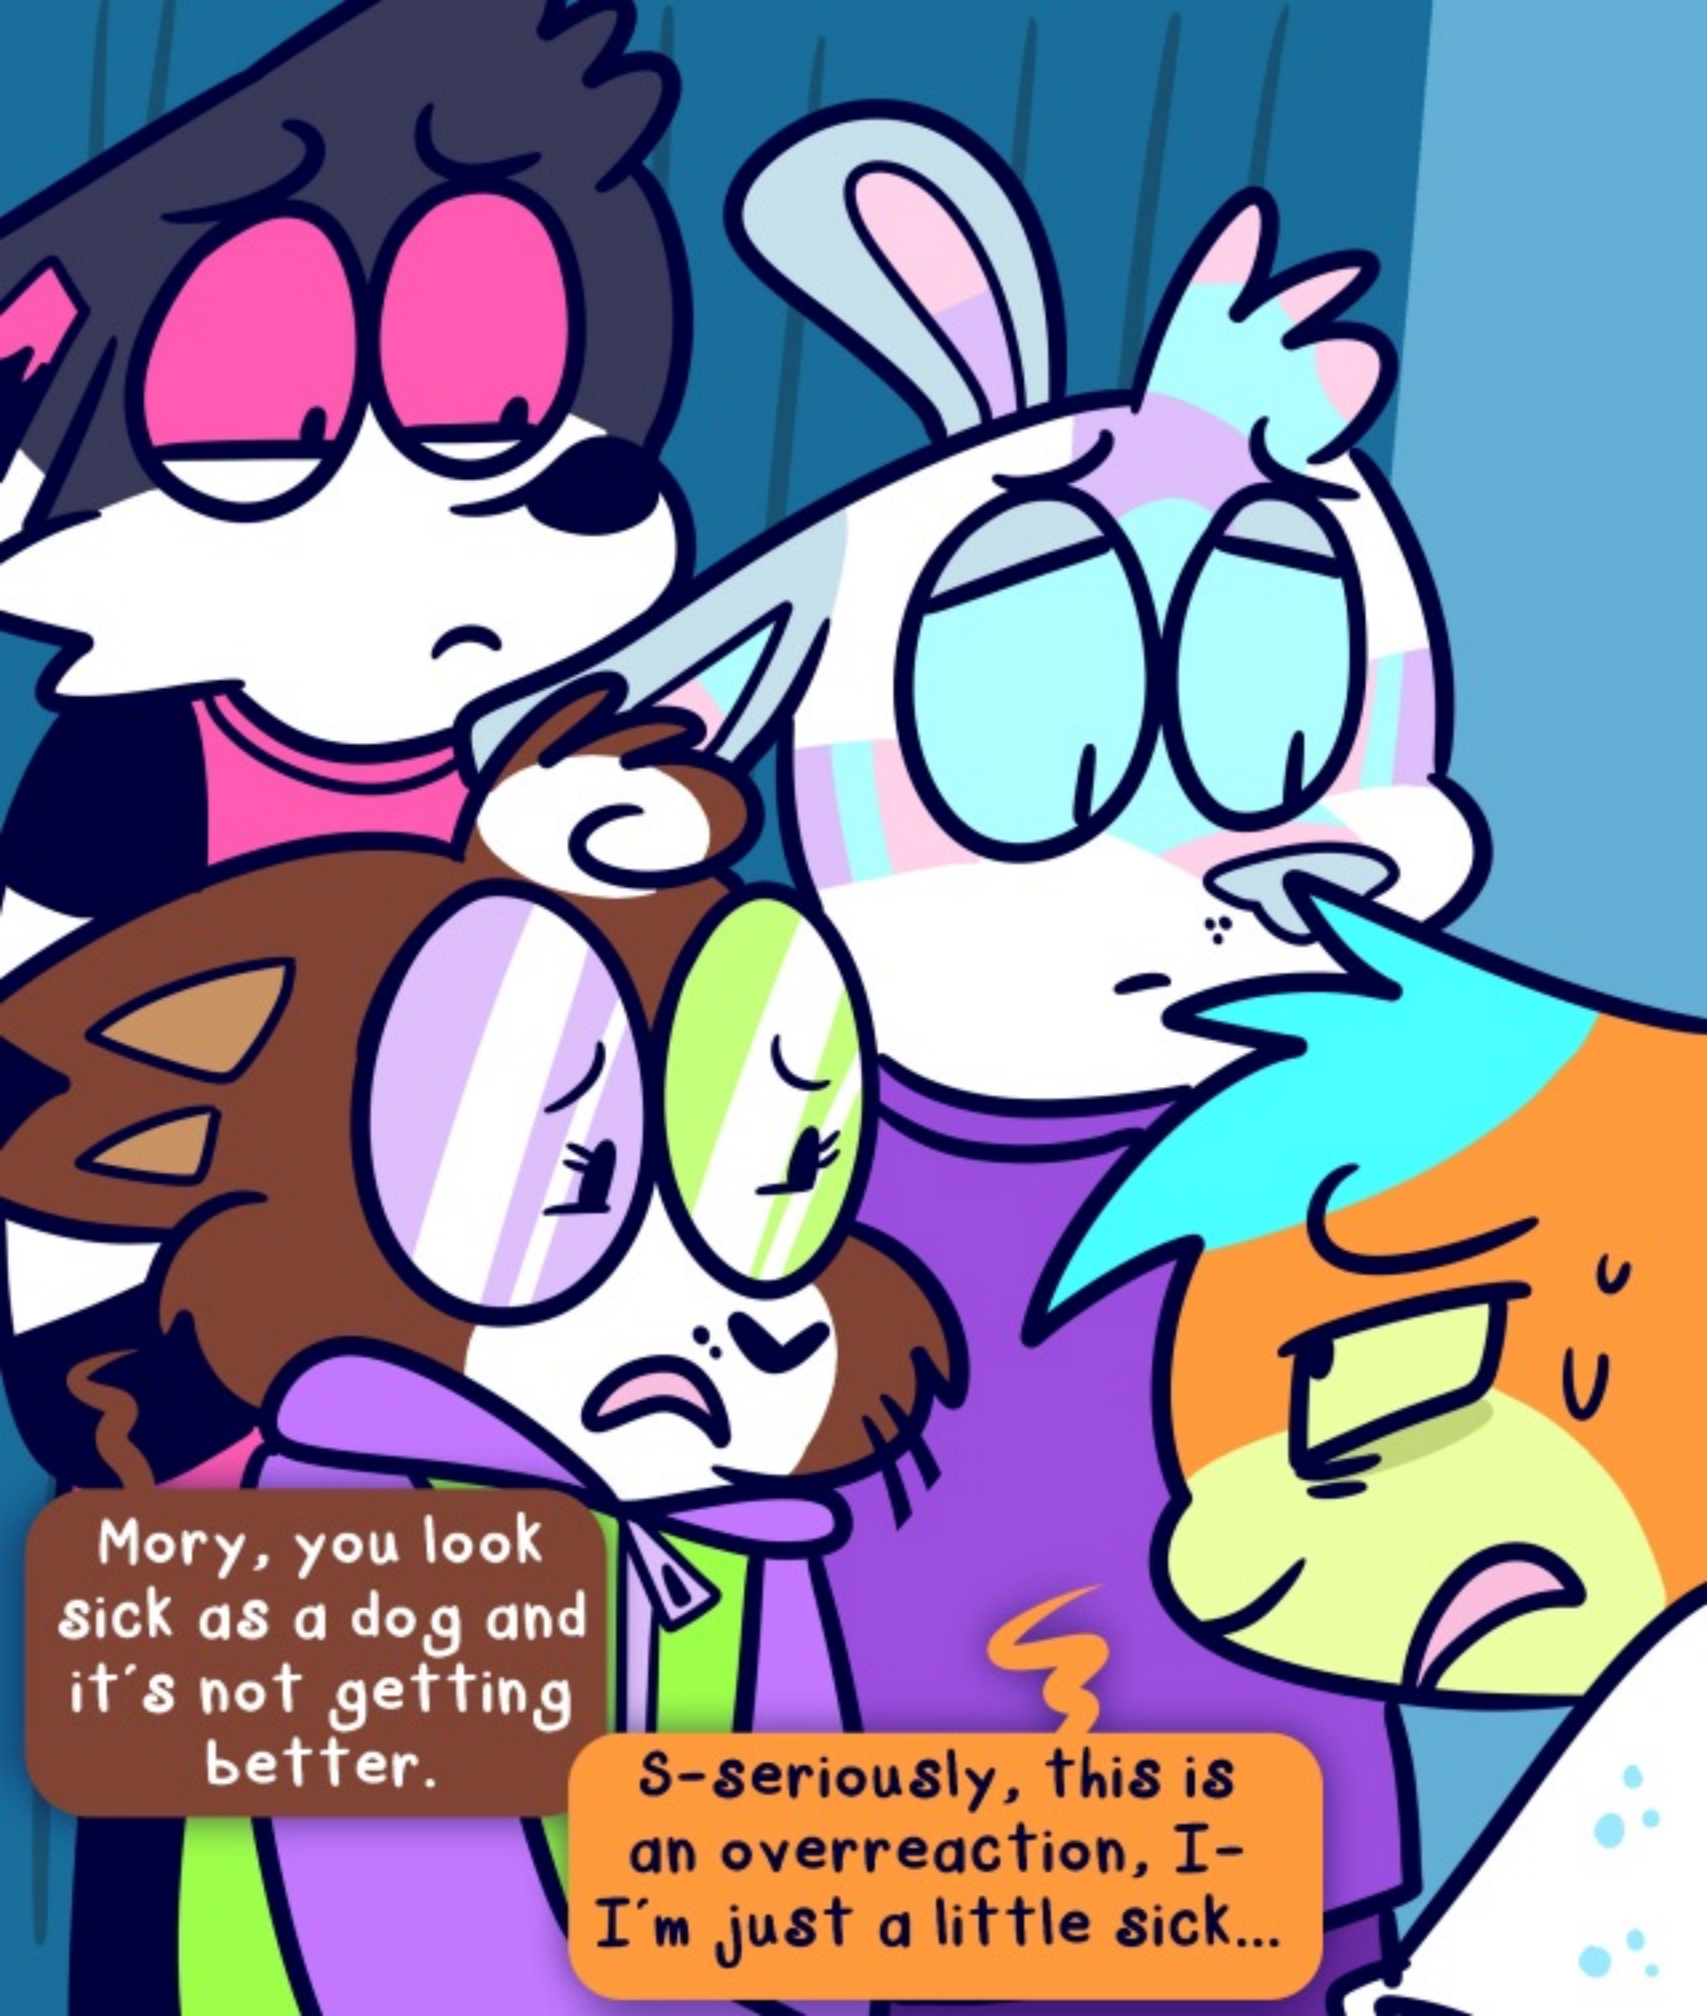


MORY'S IN THE
HOSPITAL!!!!

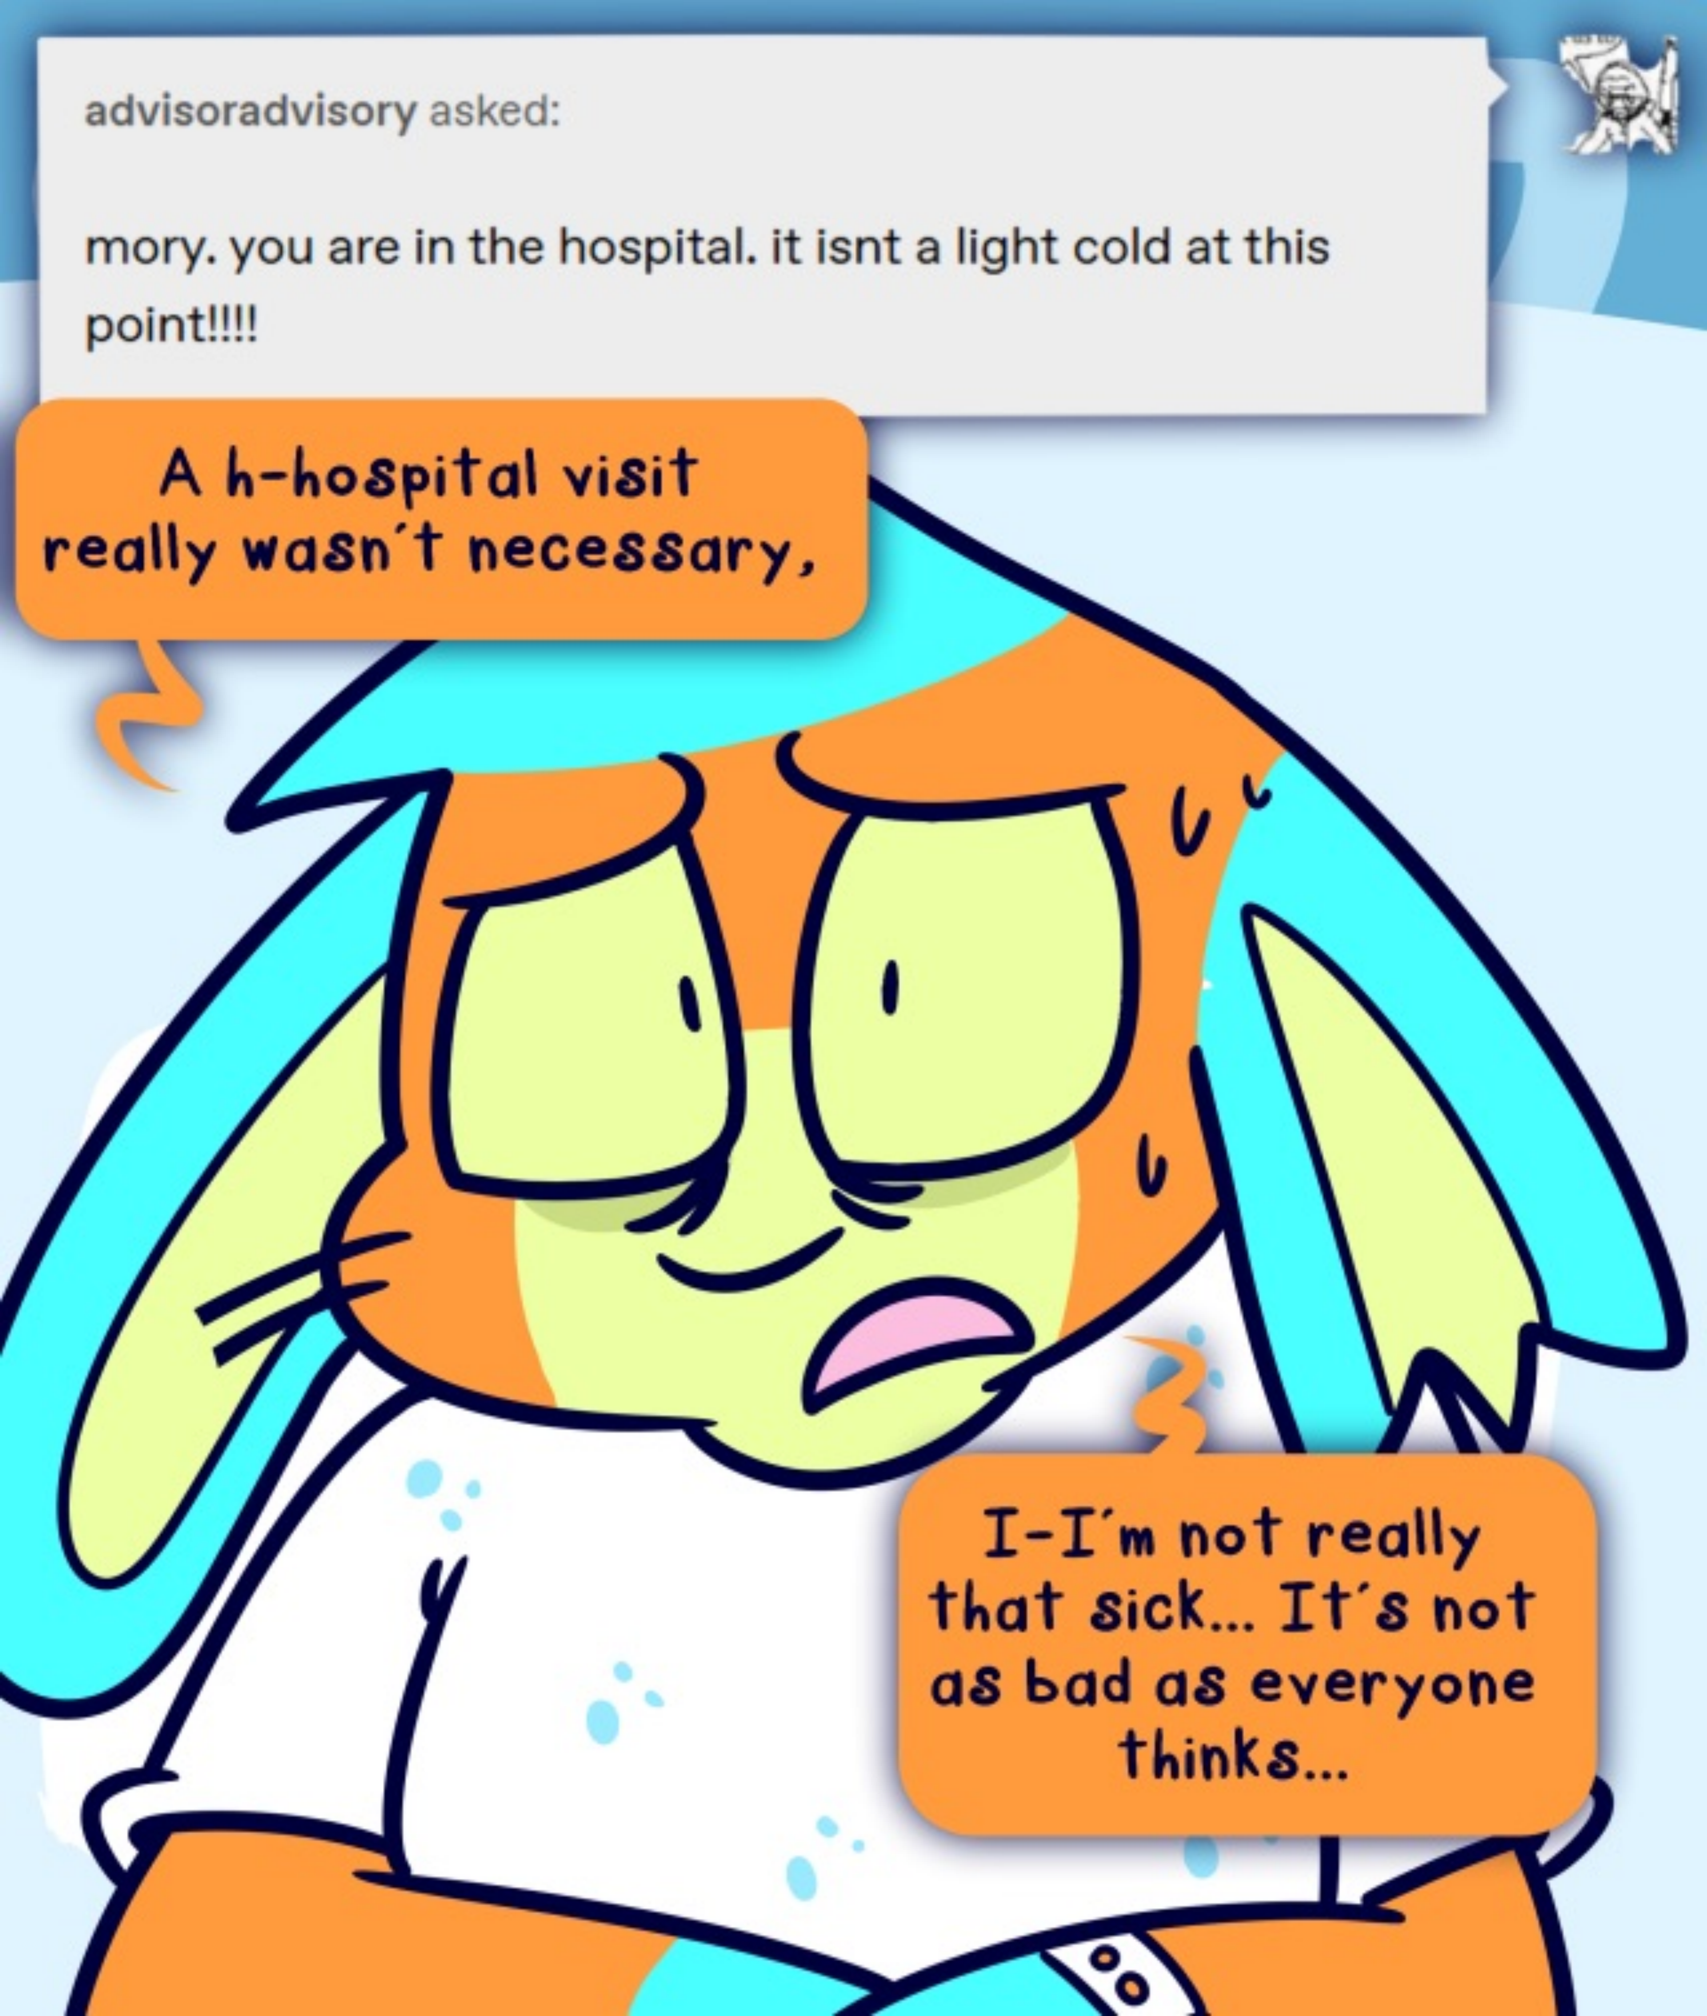




H-honestly, guys, it´s not that bad...



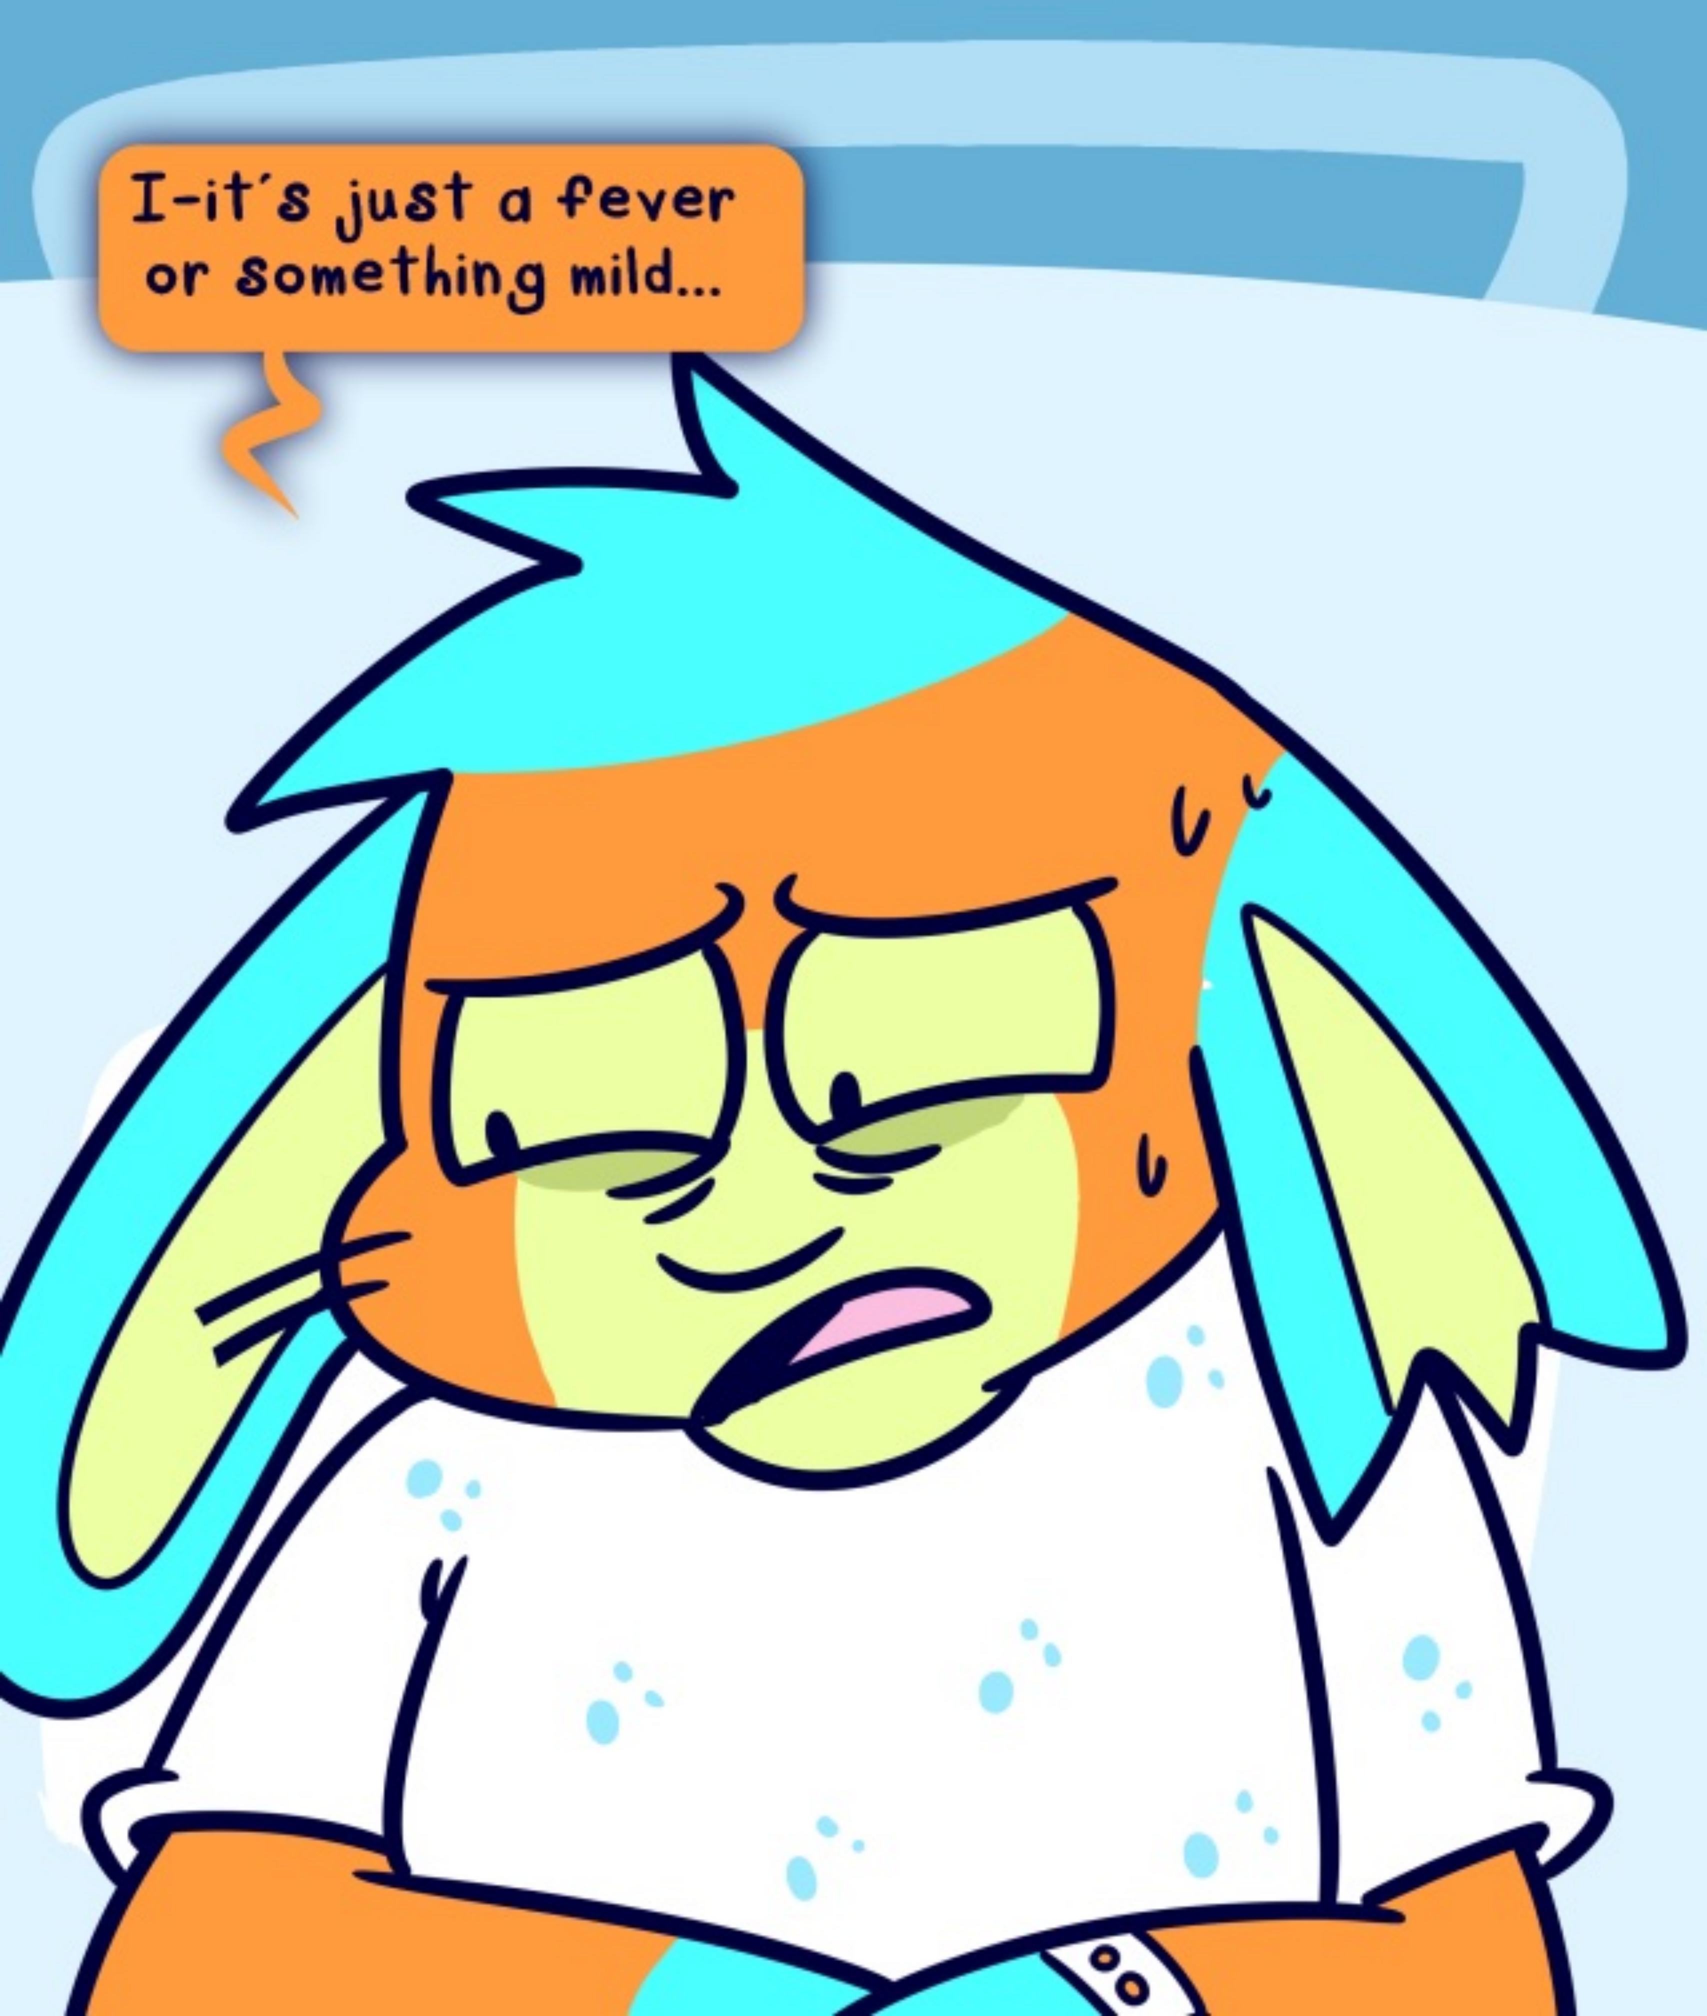
Mory, you look sick as a dog and it´s not getting better.
S-seriously, this is an overreaction, I-I´m just a little sick...



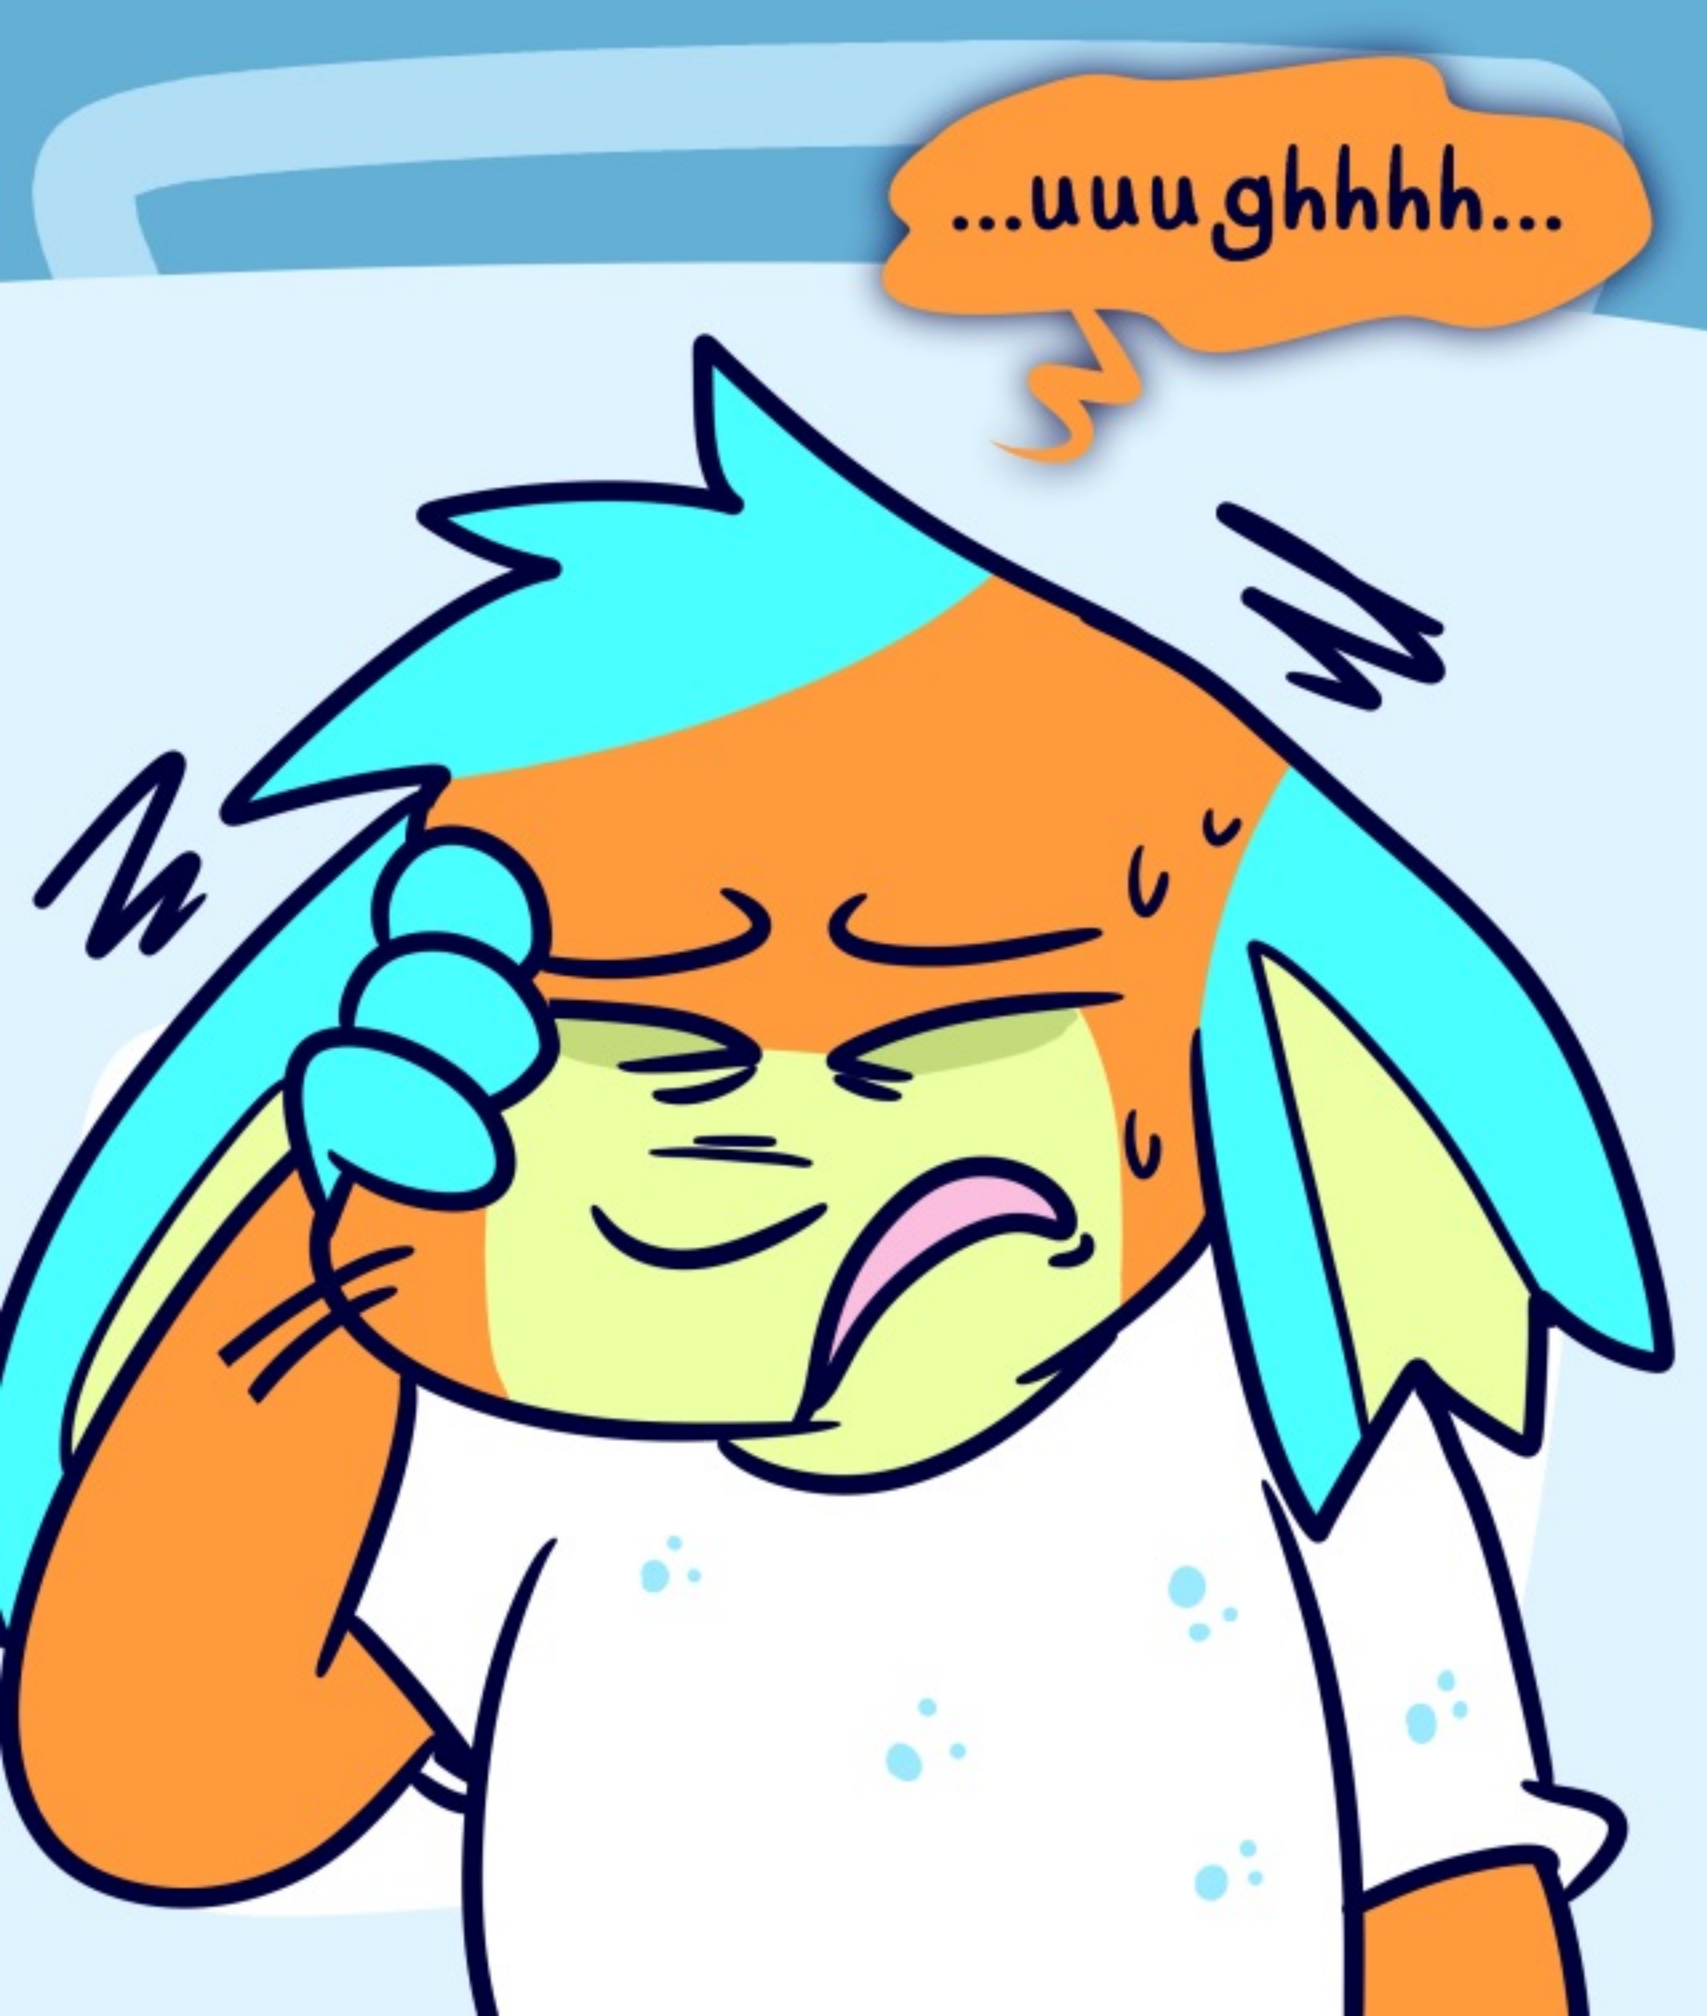
advisoradvisory asked:

mory. you are in the hospital. it isnt a light cold at this point!!!!

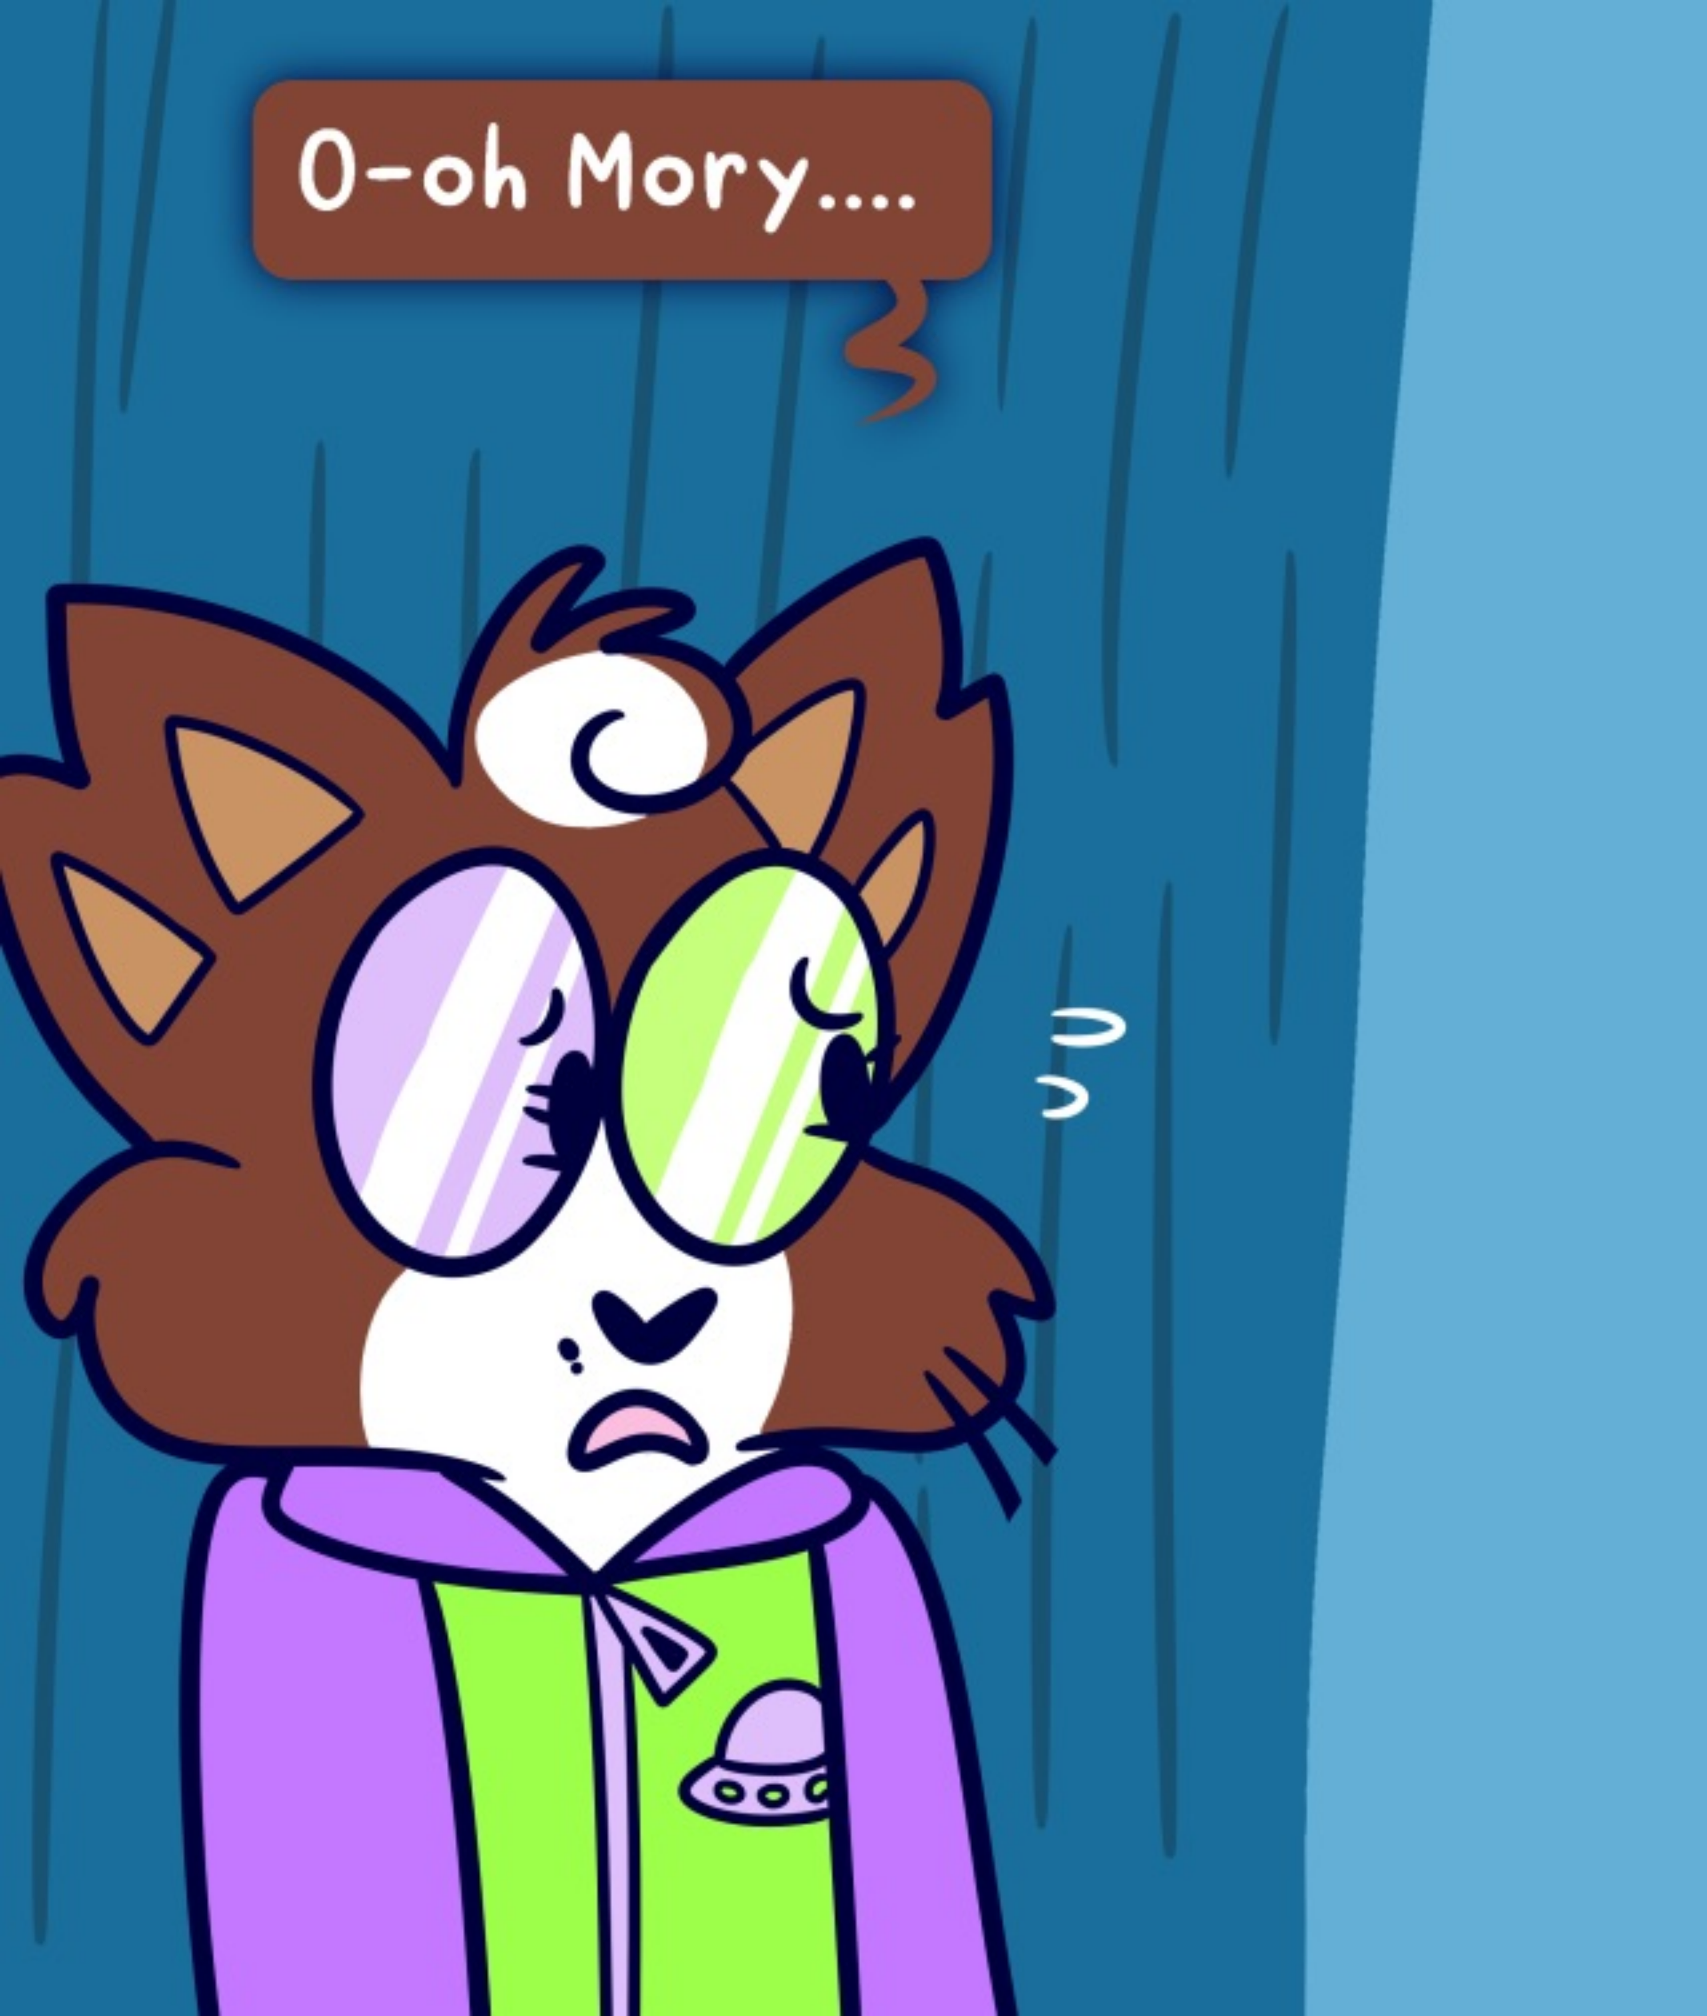
A h-hospital visit really wasn´t necessary,
I-I´m not really that sick... It´s not as bad as everyone thinks...



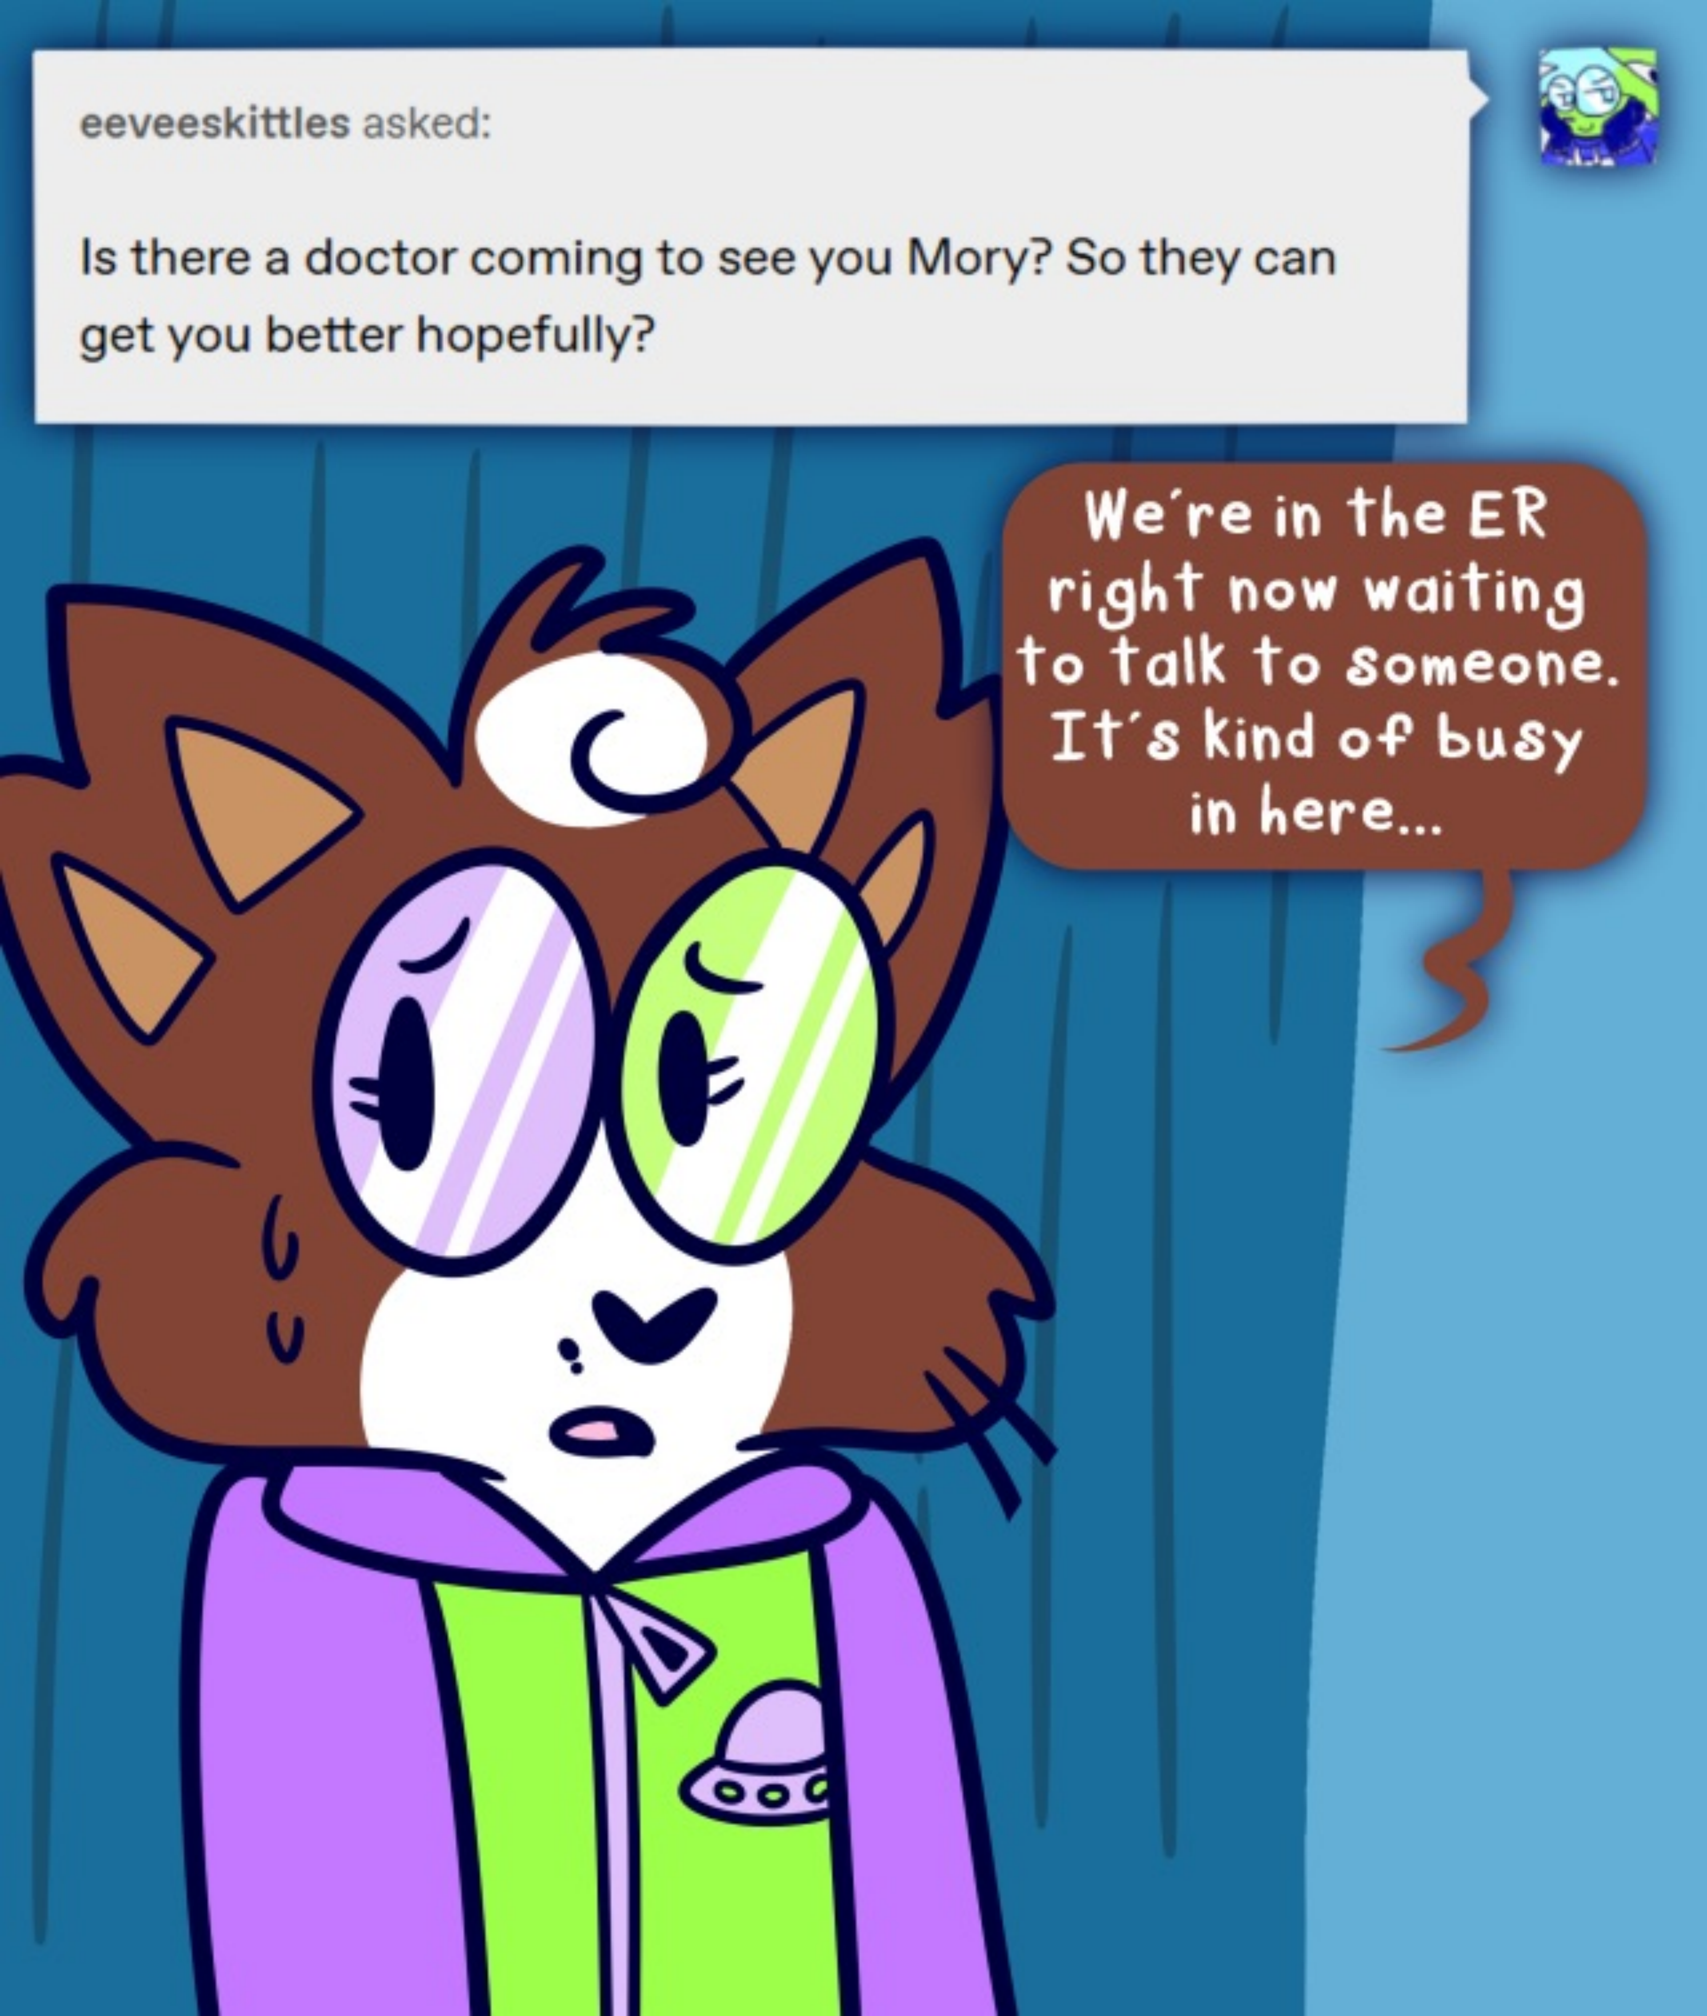
I-it´s just a fever or something mild...



...uuughhhh...



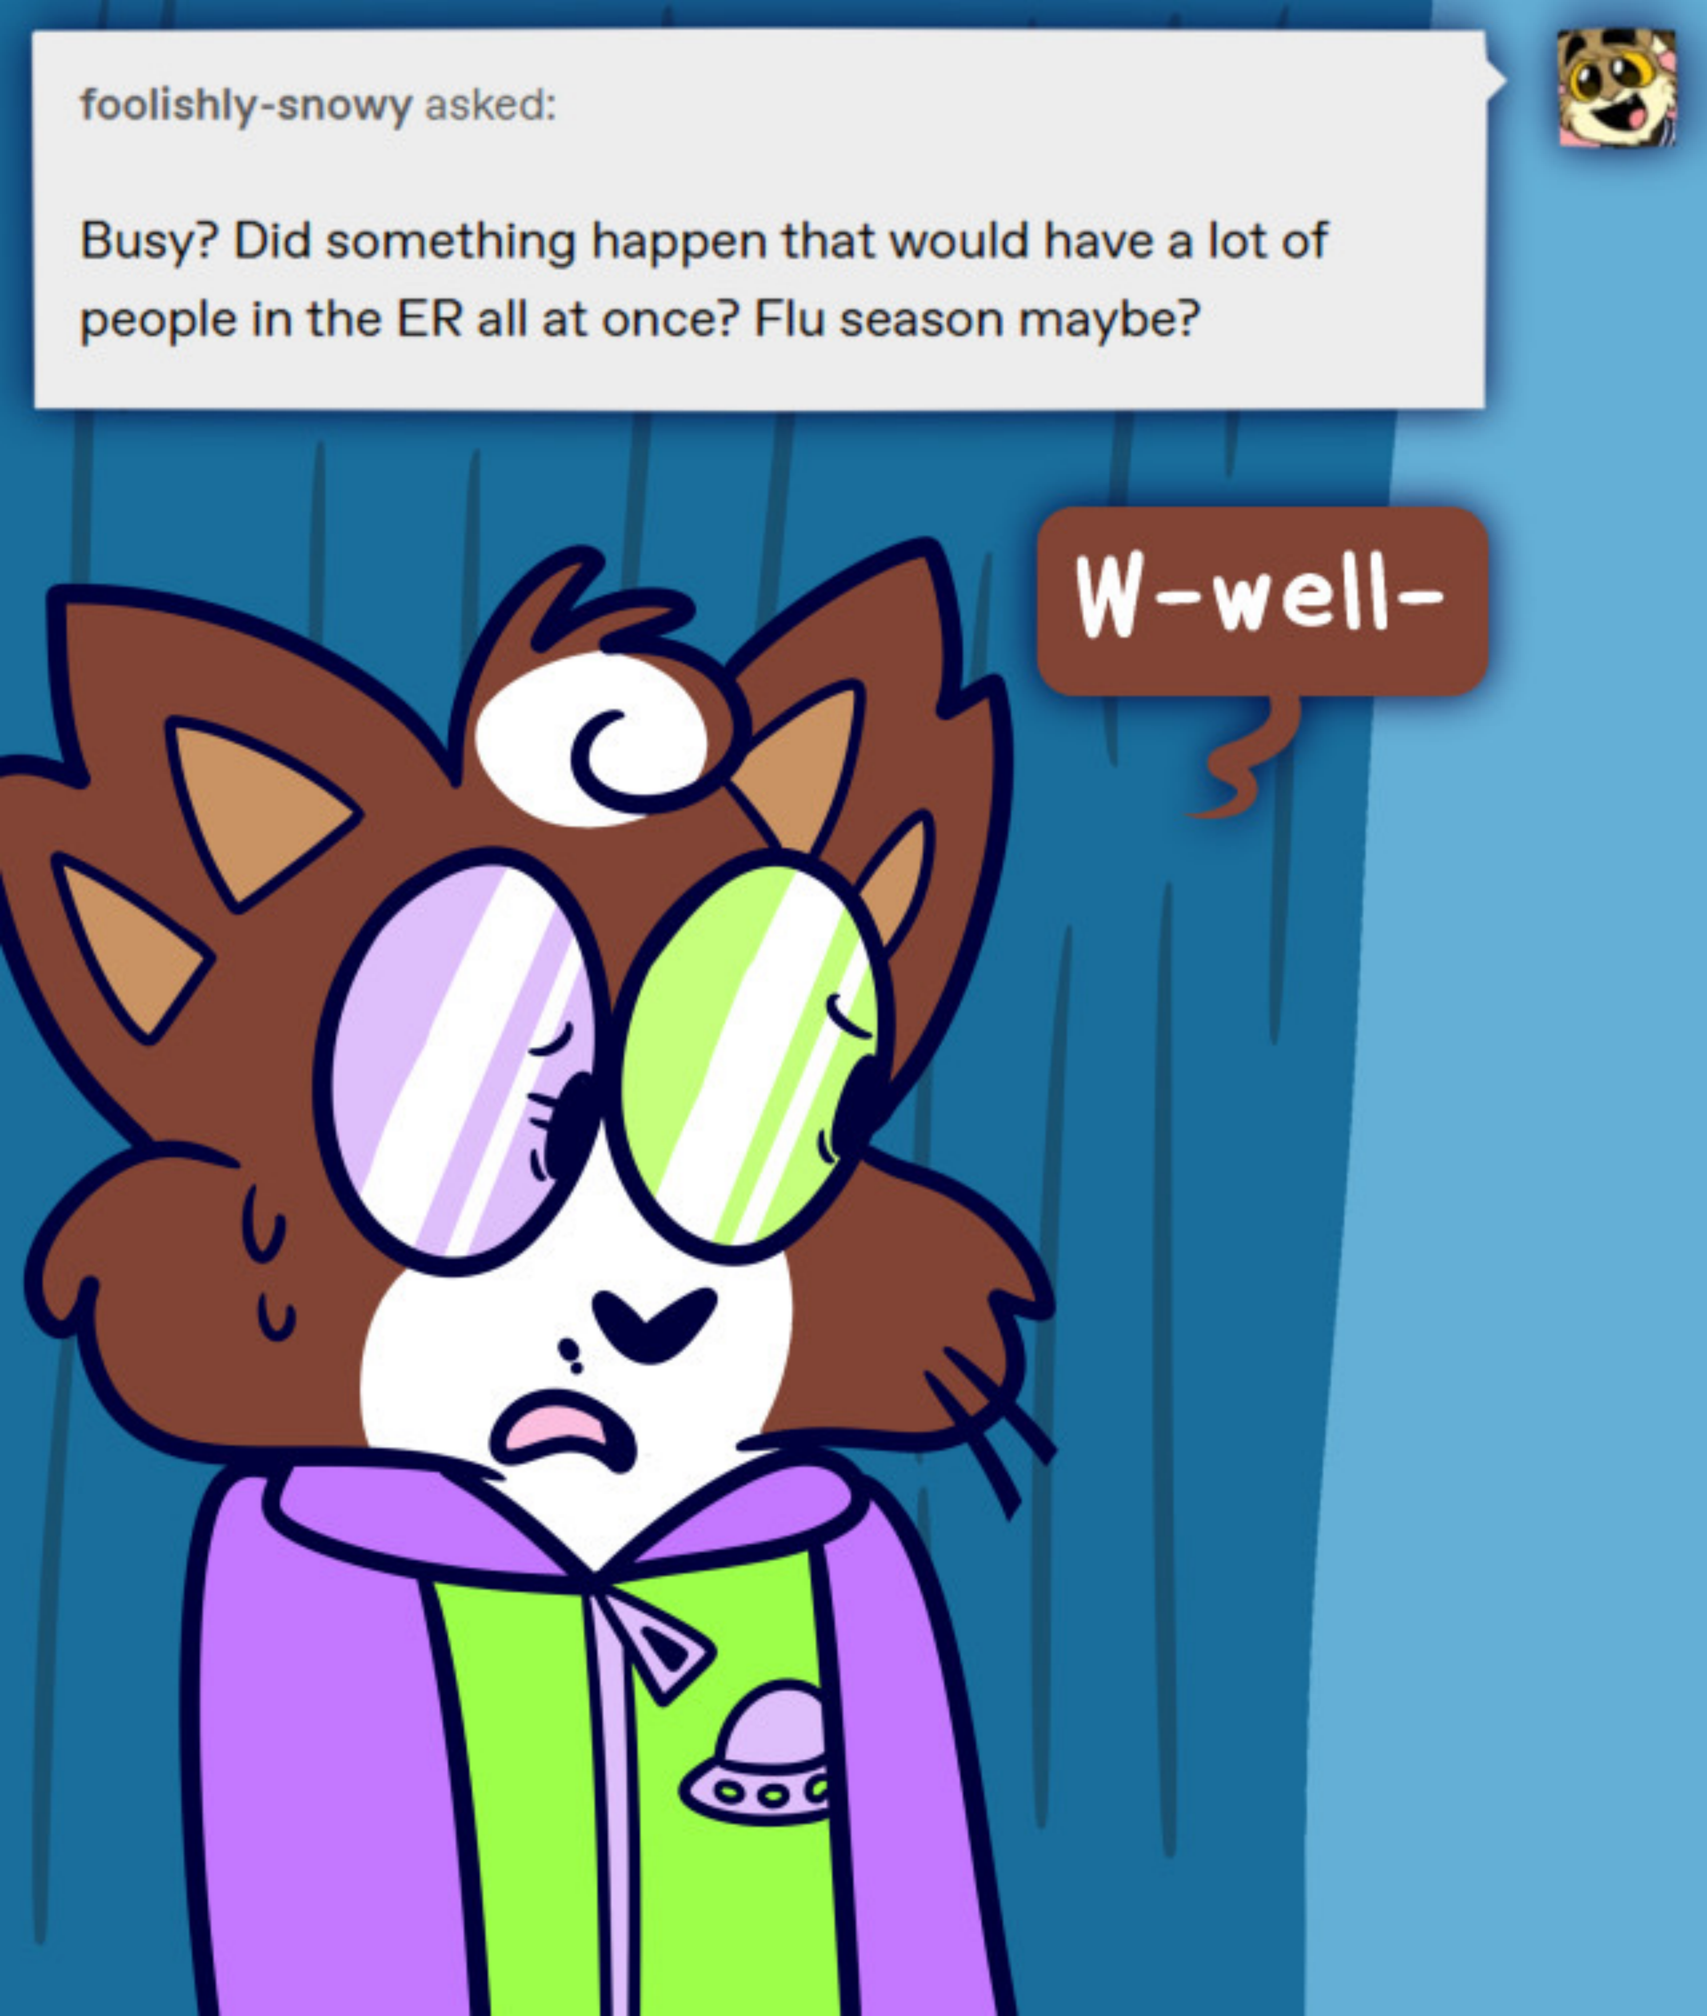
O-oh Mory....



eeveeskittles asked:

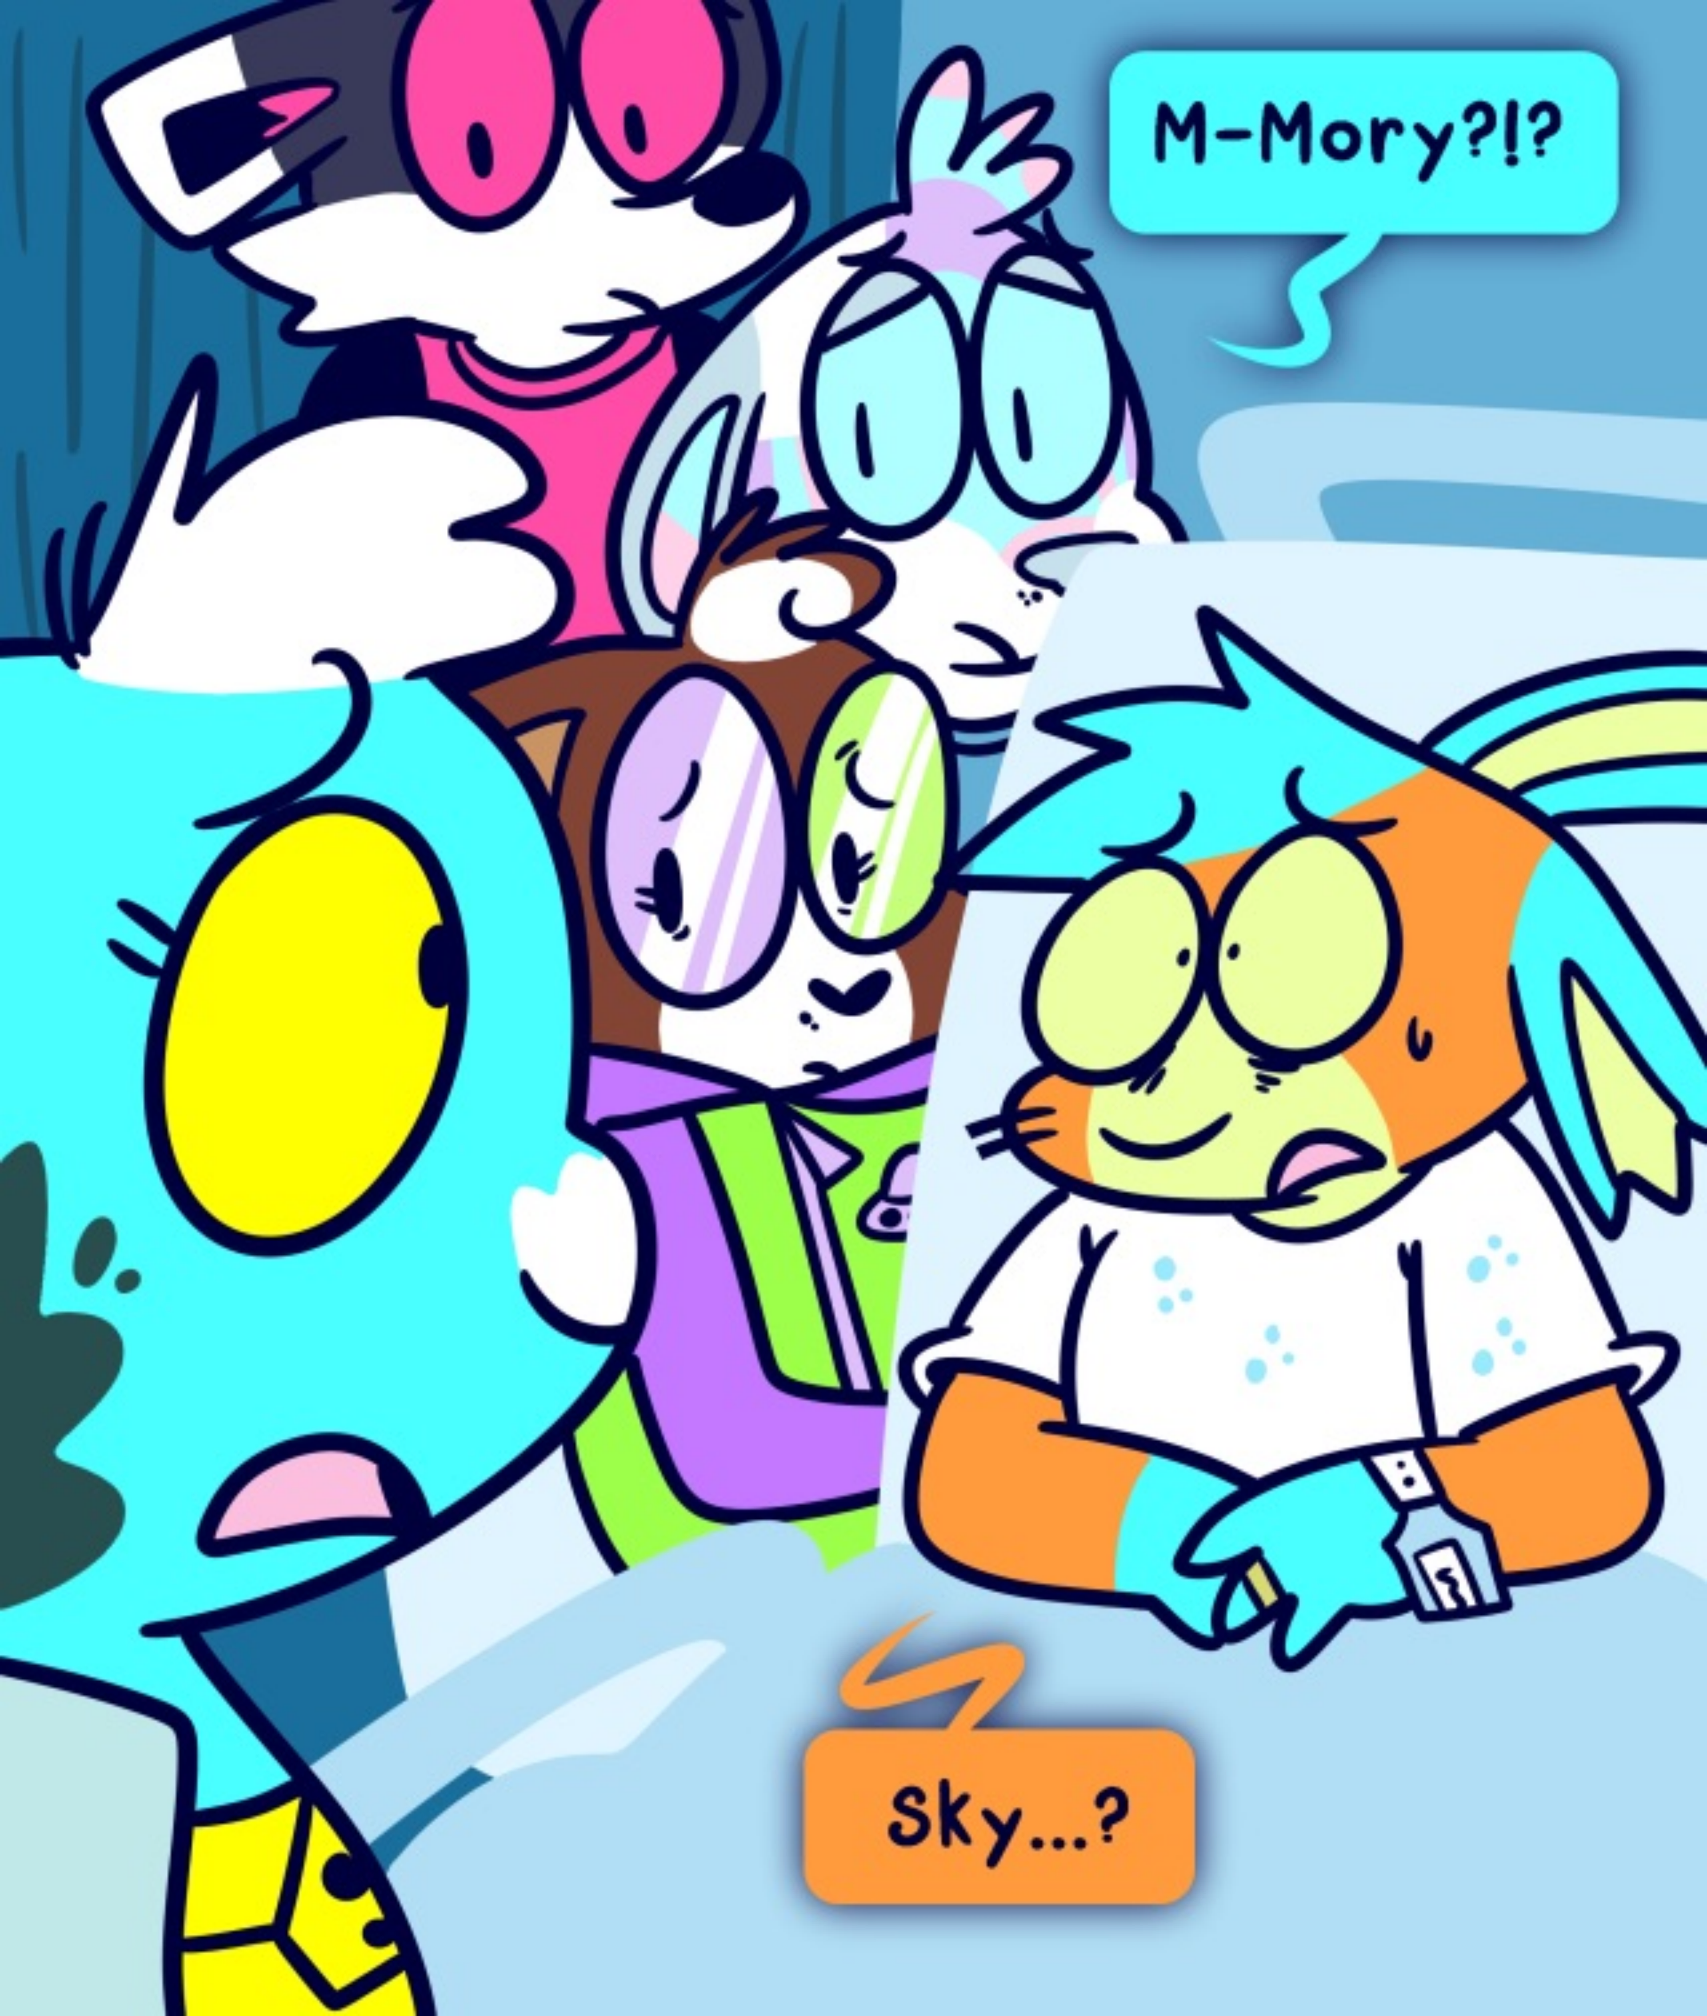
Is there a doctor coming to see you Mory? So they can get you better hopefully?

We're in the ER right now waiting to talk to someone. It's kind of busy in here...

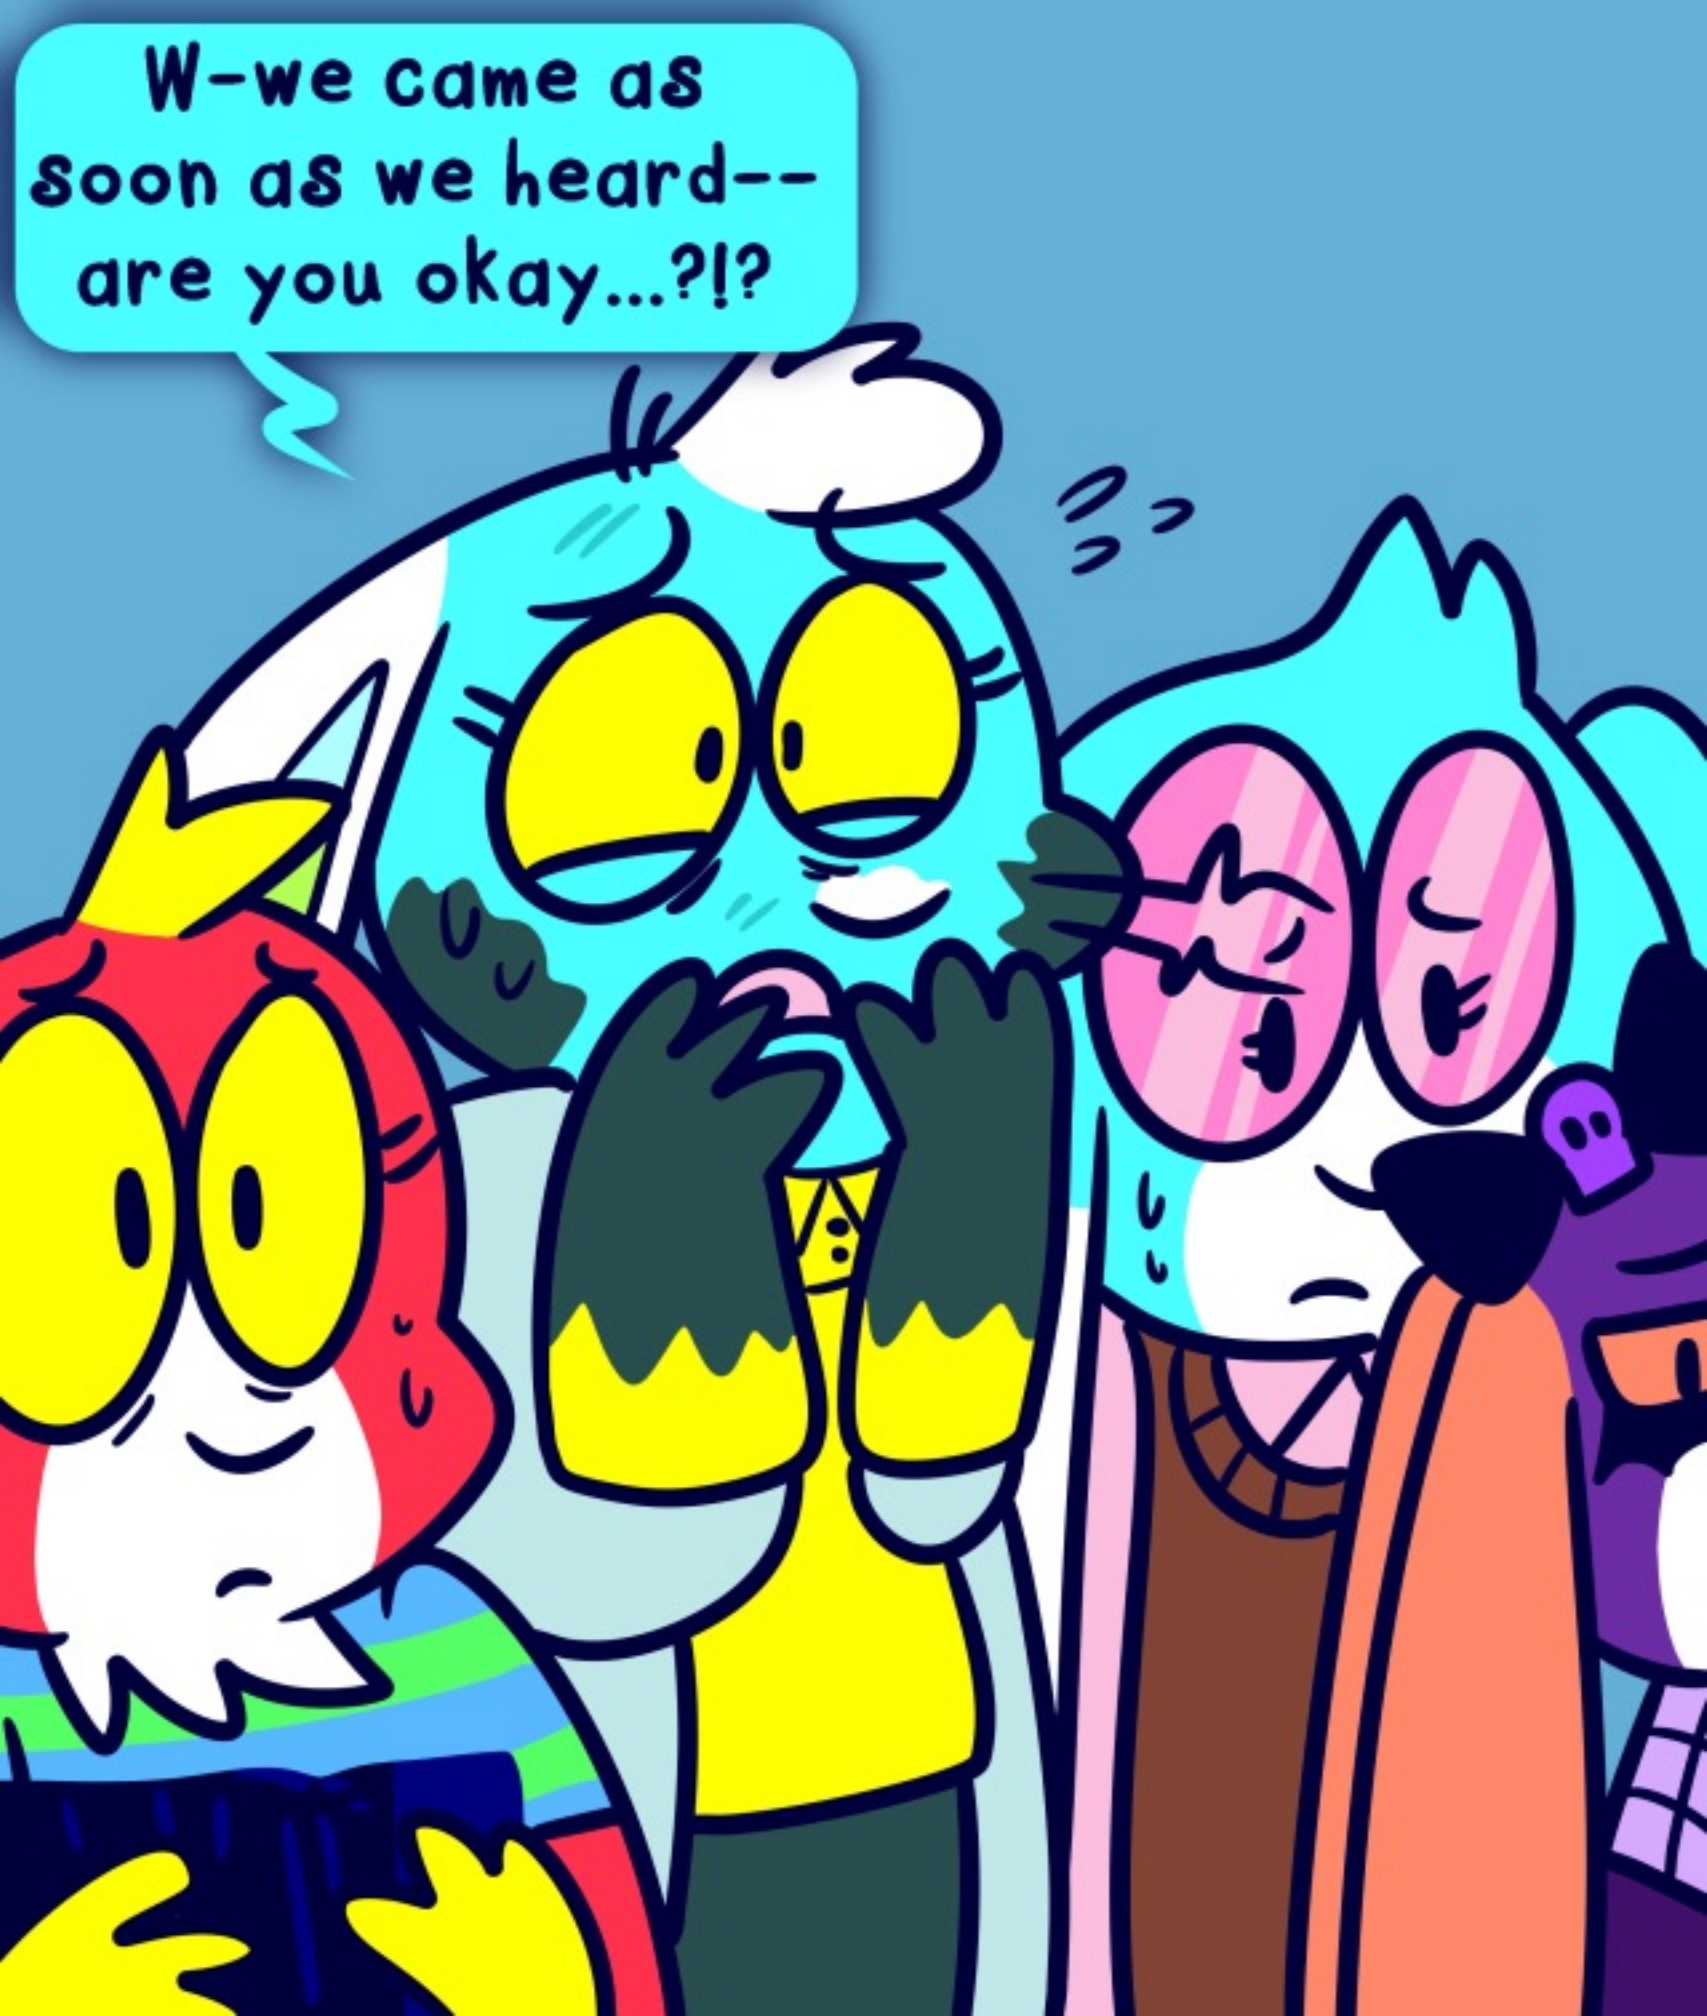


foolishly-snowy asked:

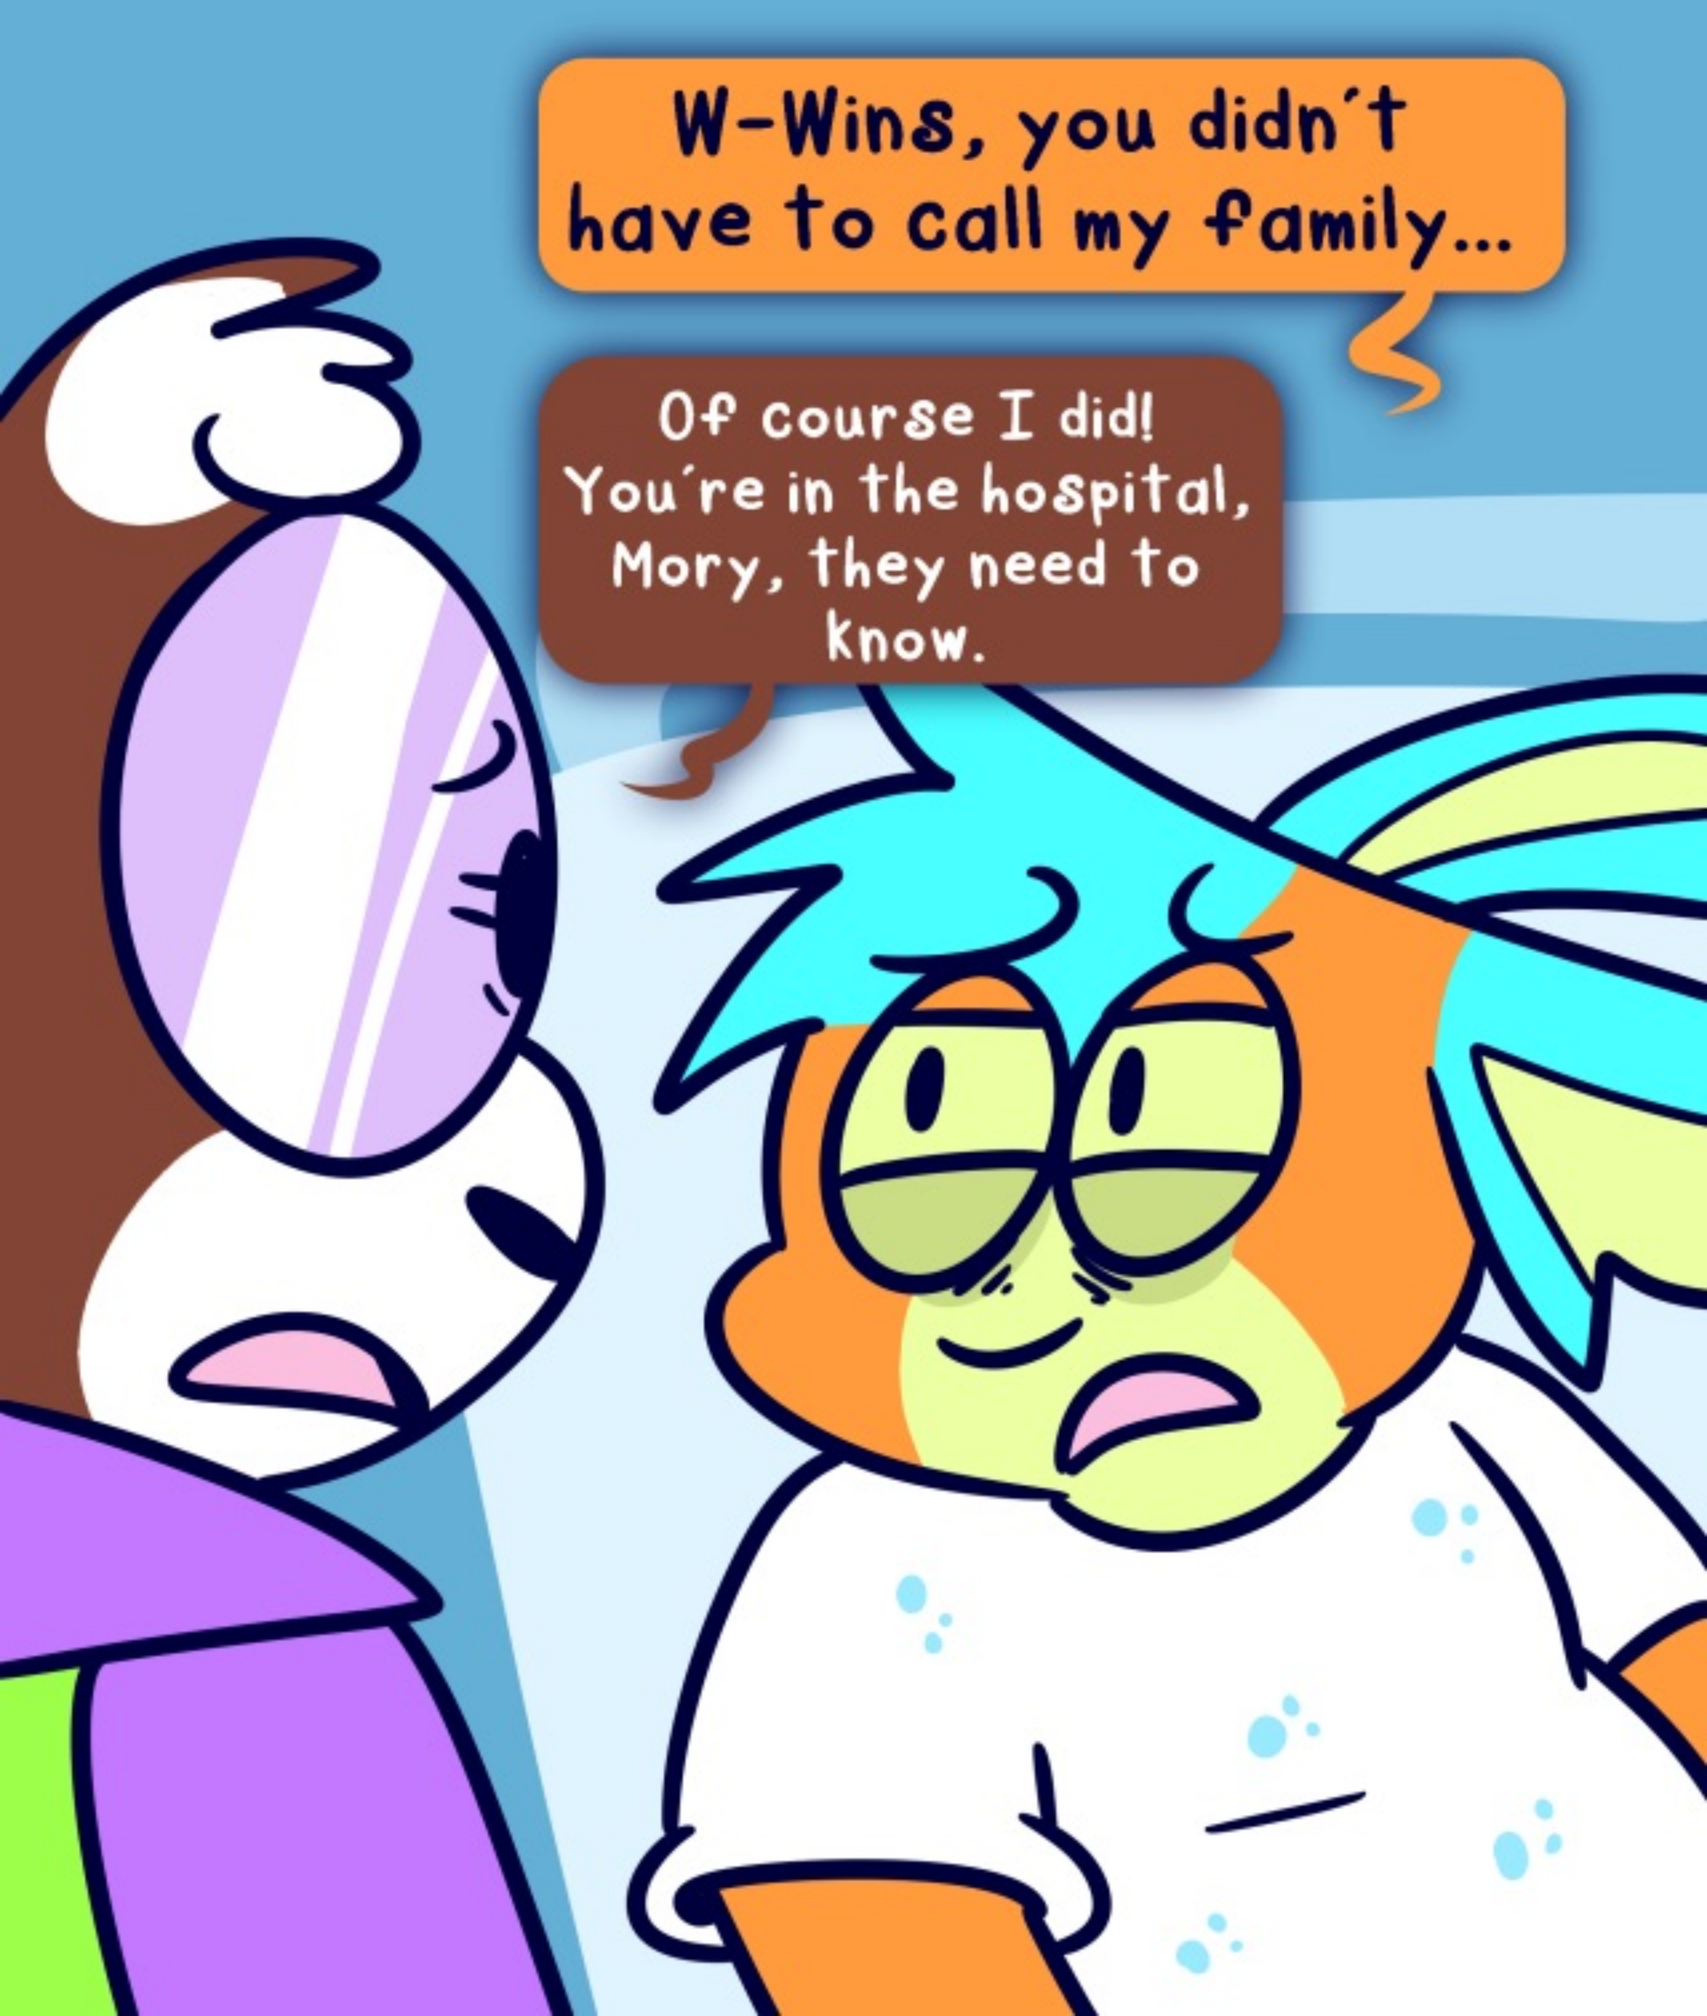
Busy? Did something happen that would have a lot of people in the ER all at once? Flu season maybe?



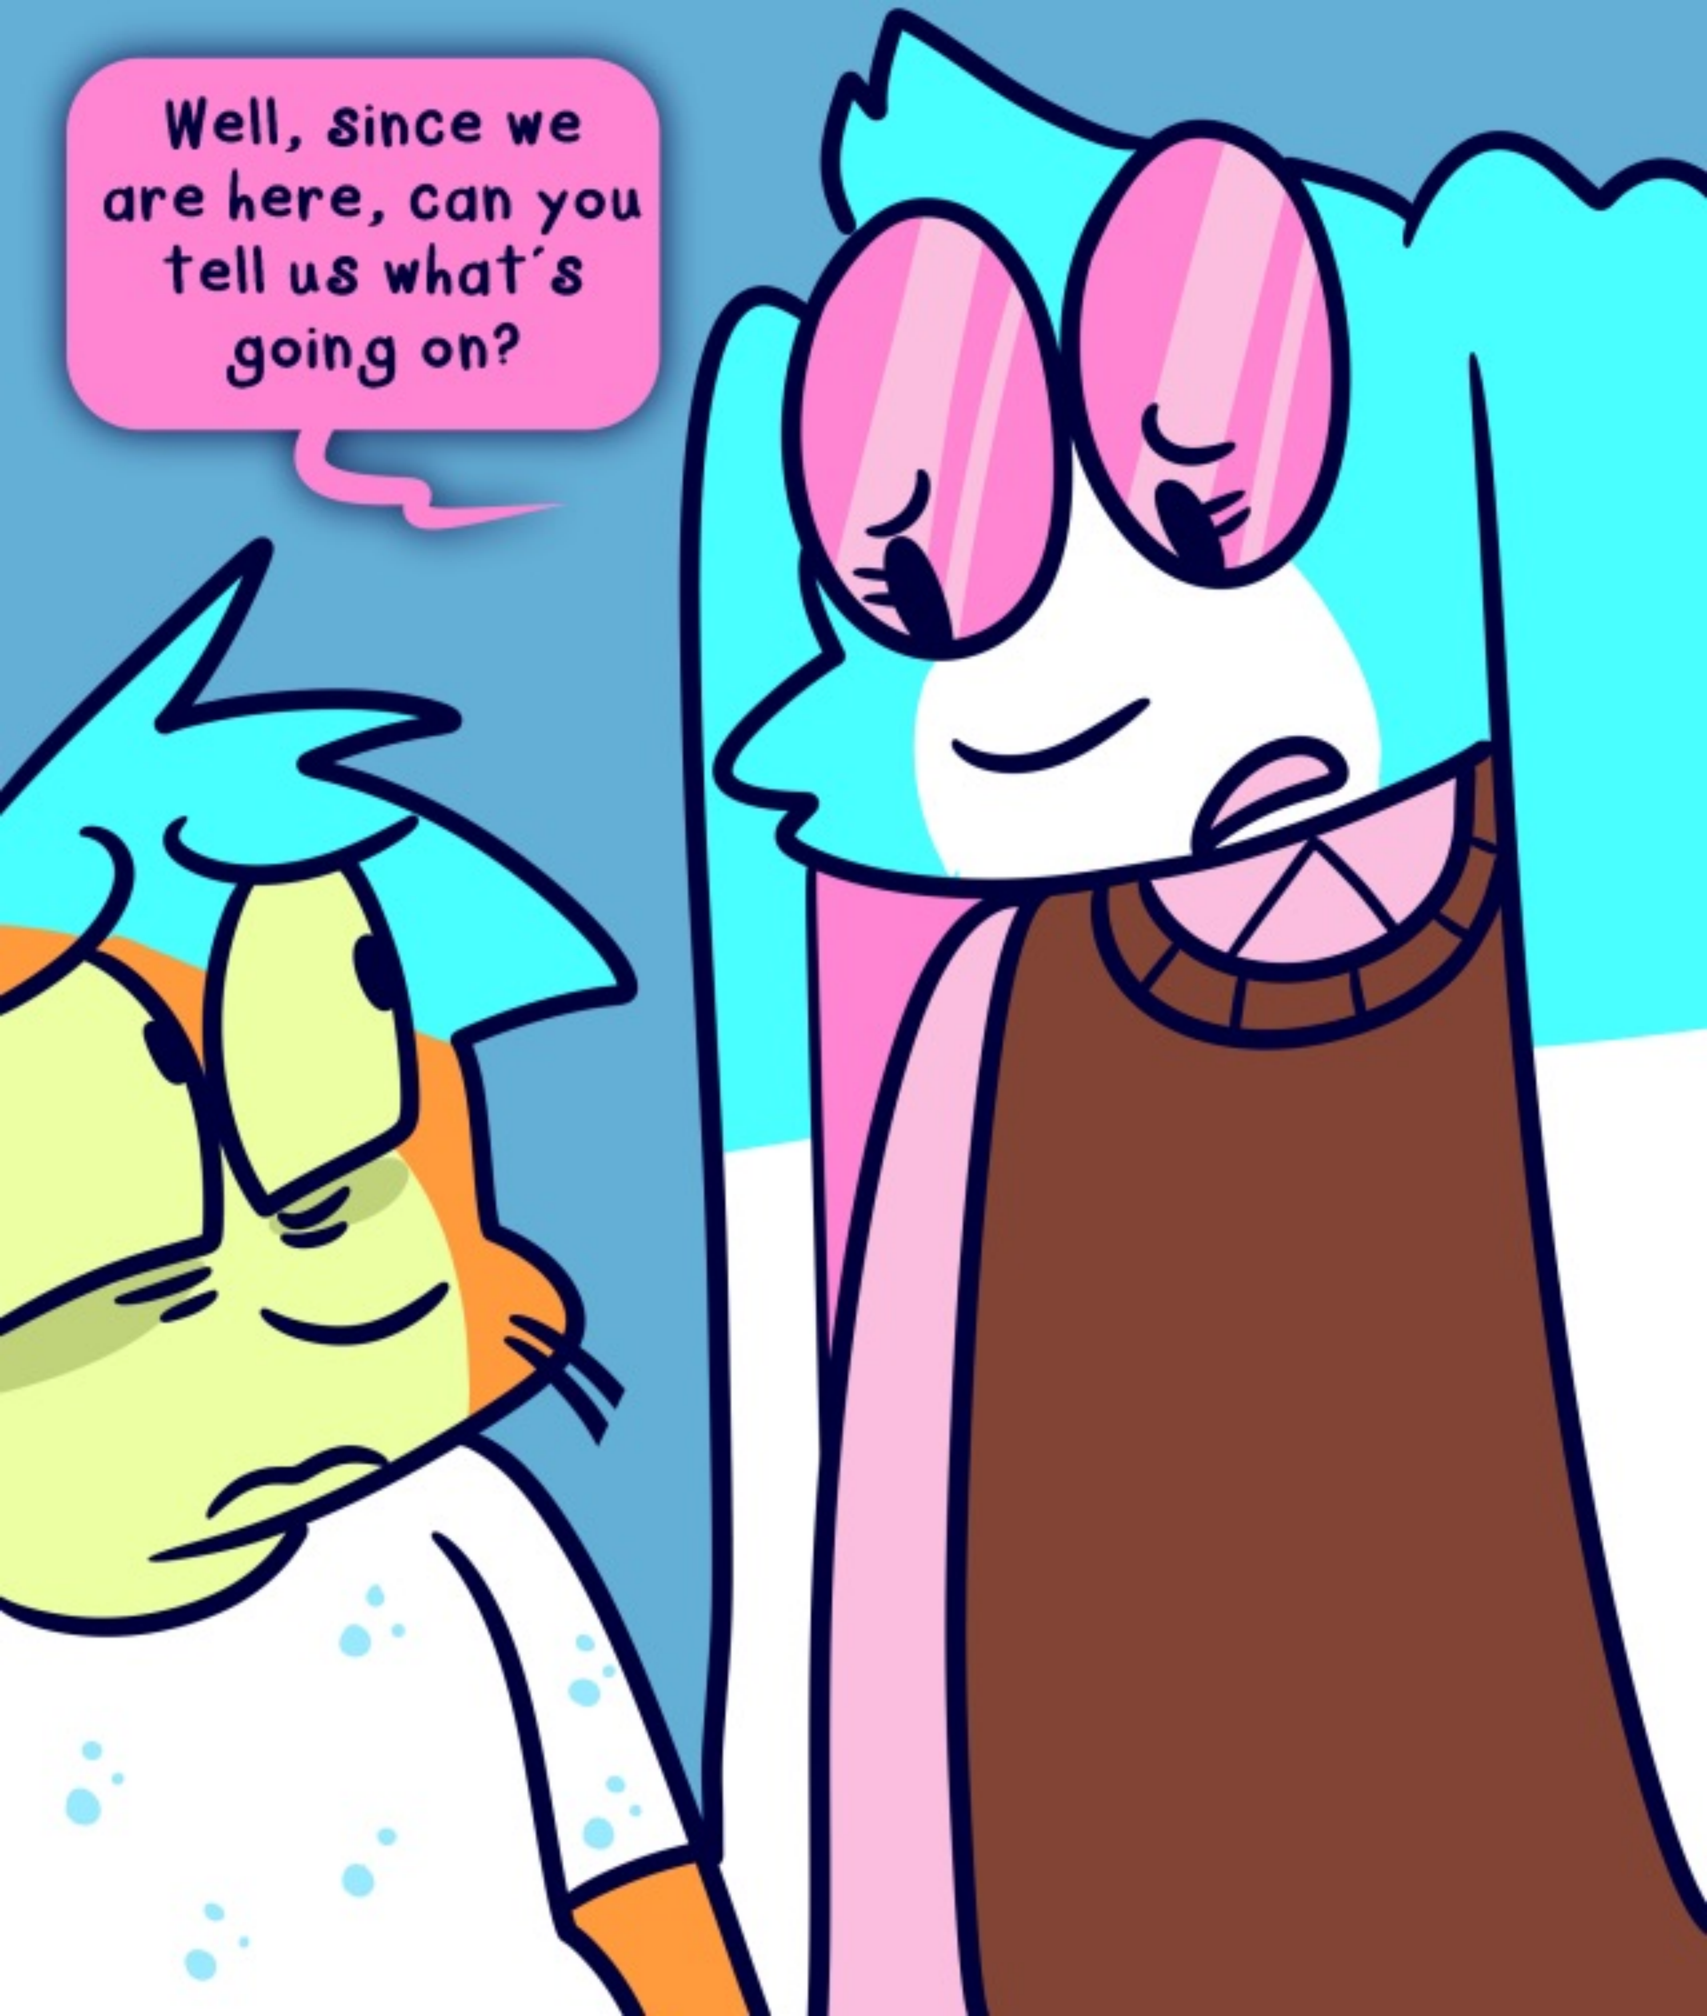
M-Mory?!?
Sky...?



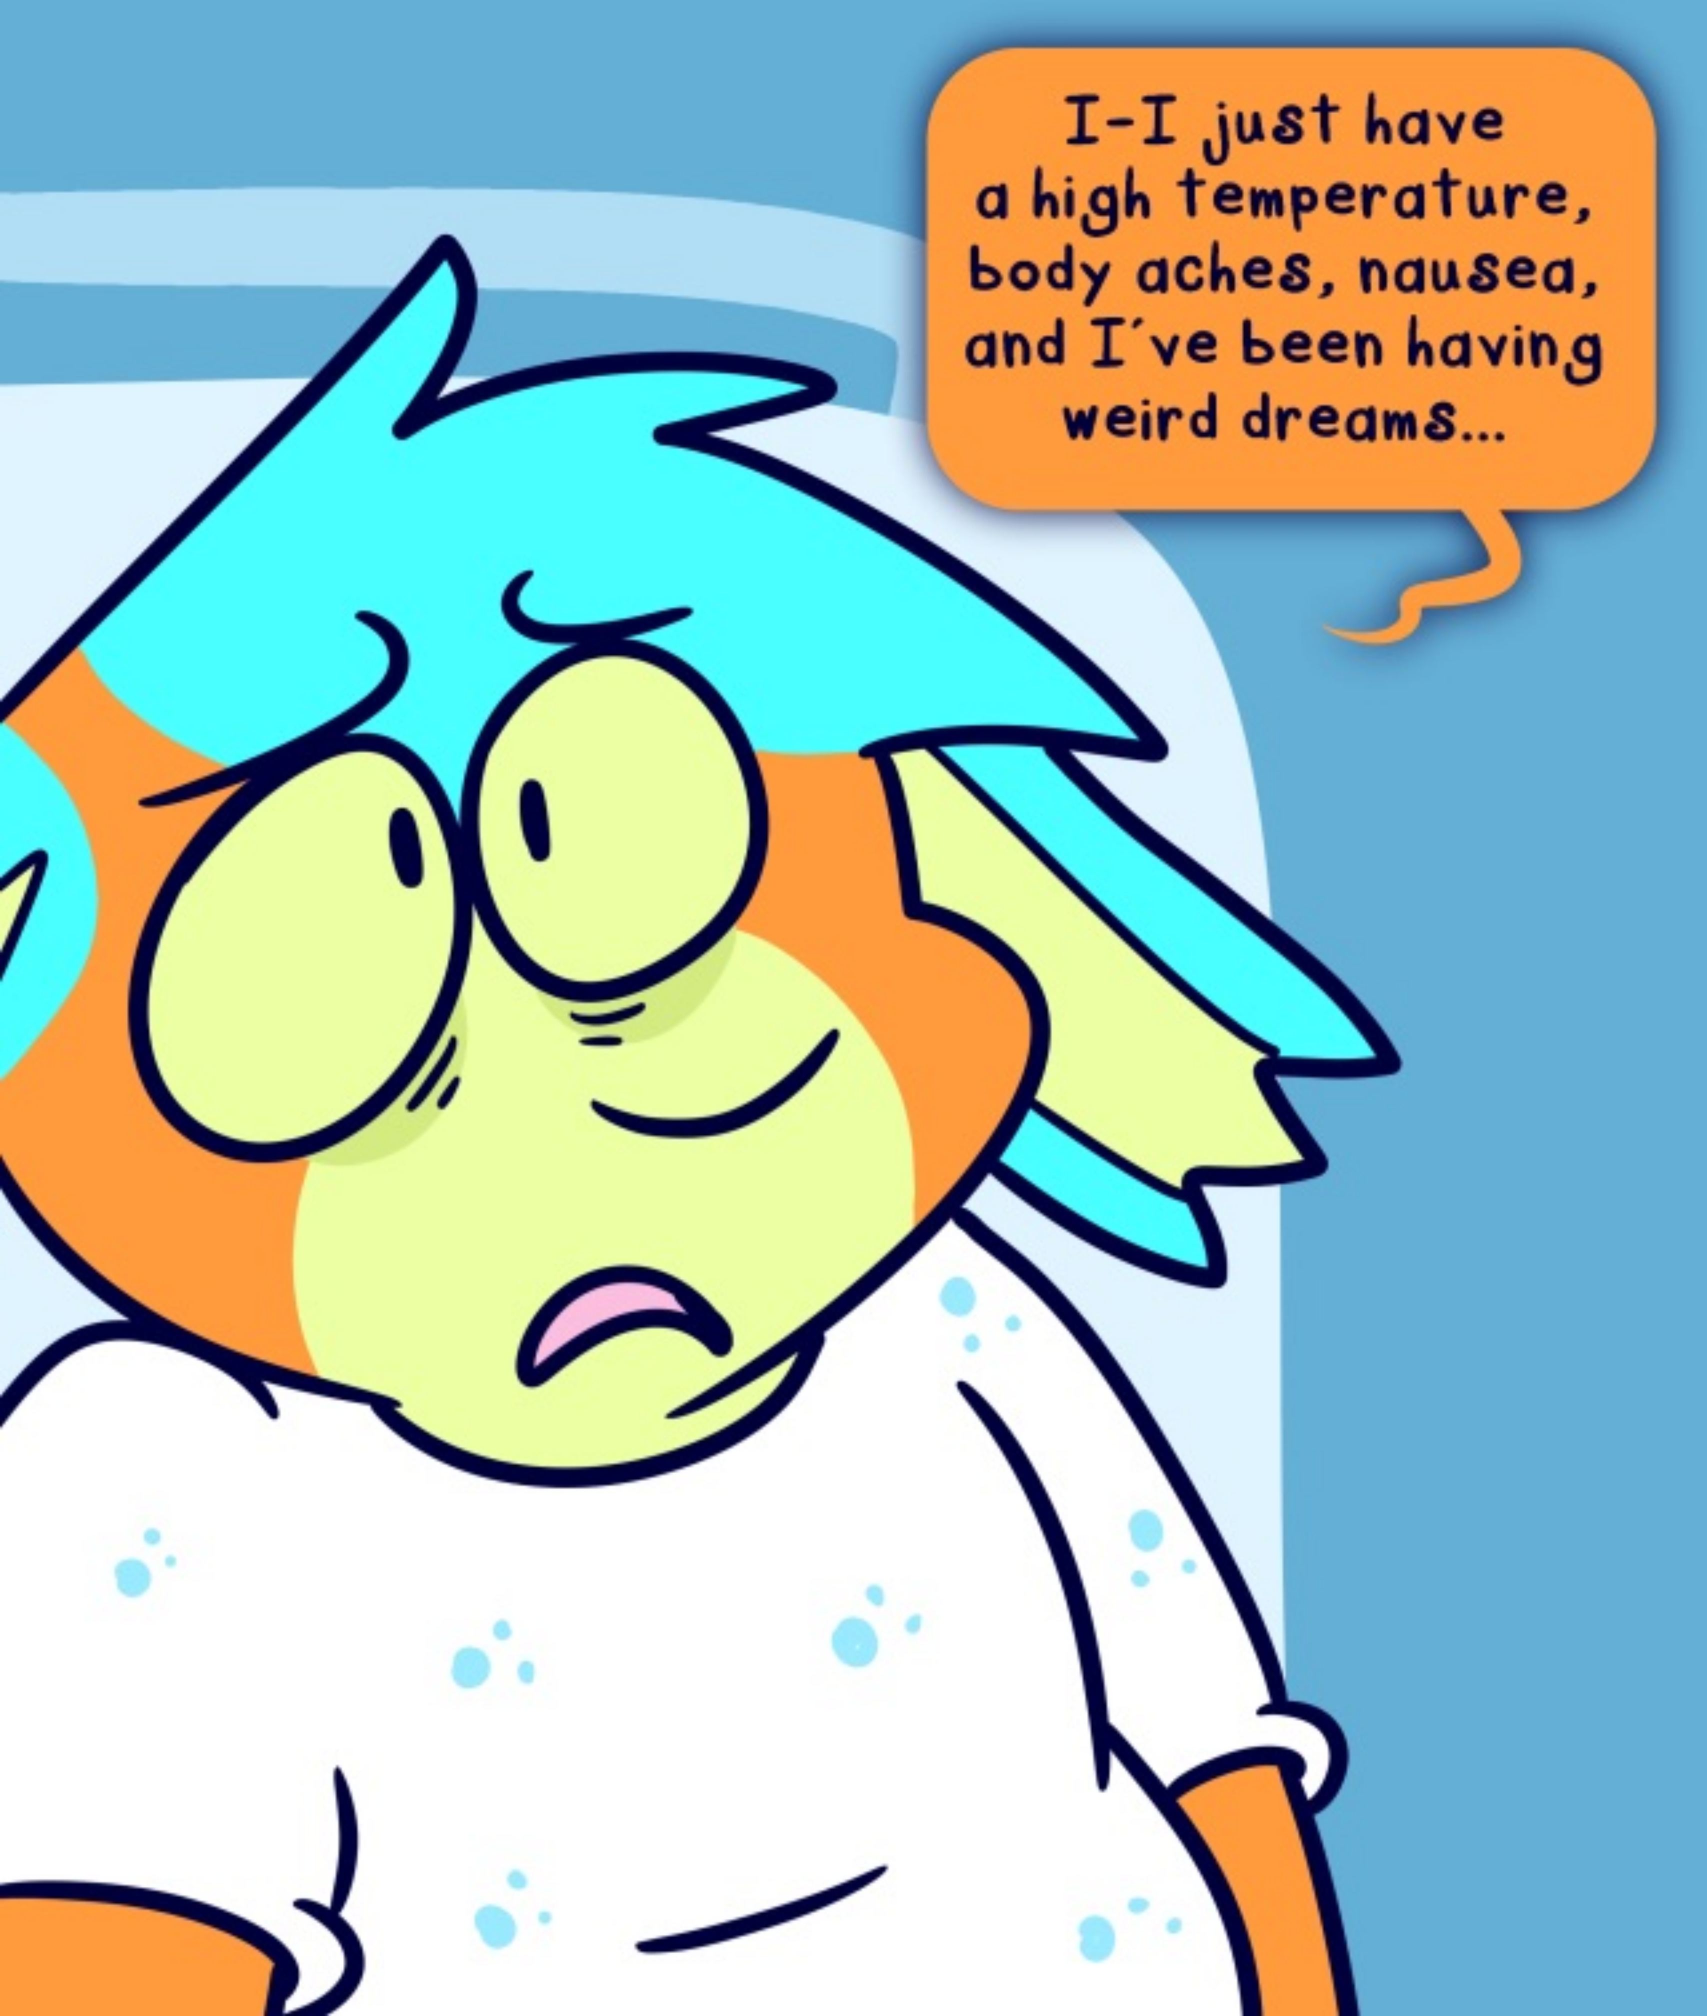
W-we came as soon as we heard-- are you okay...?!?



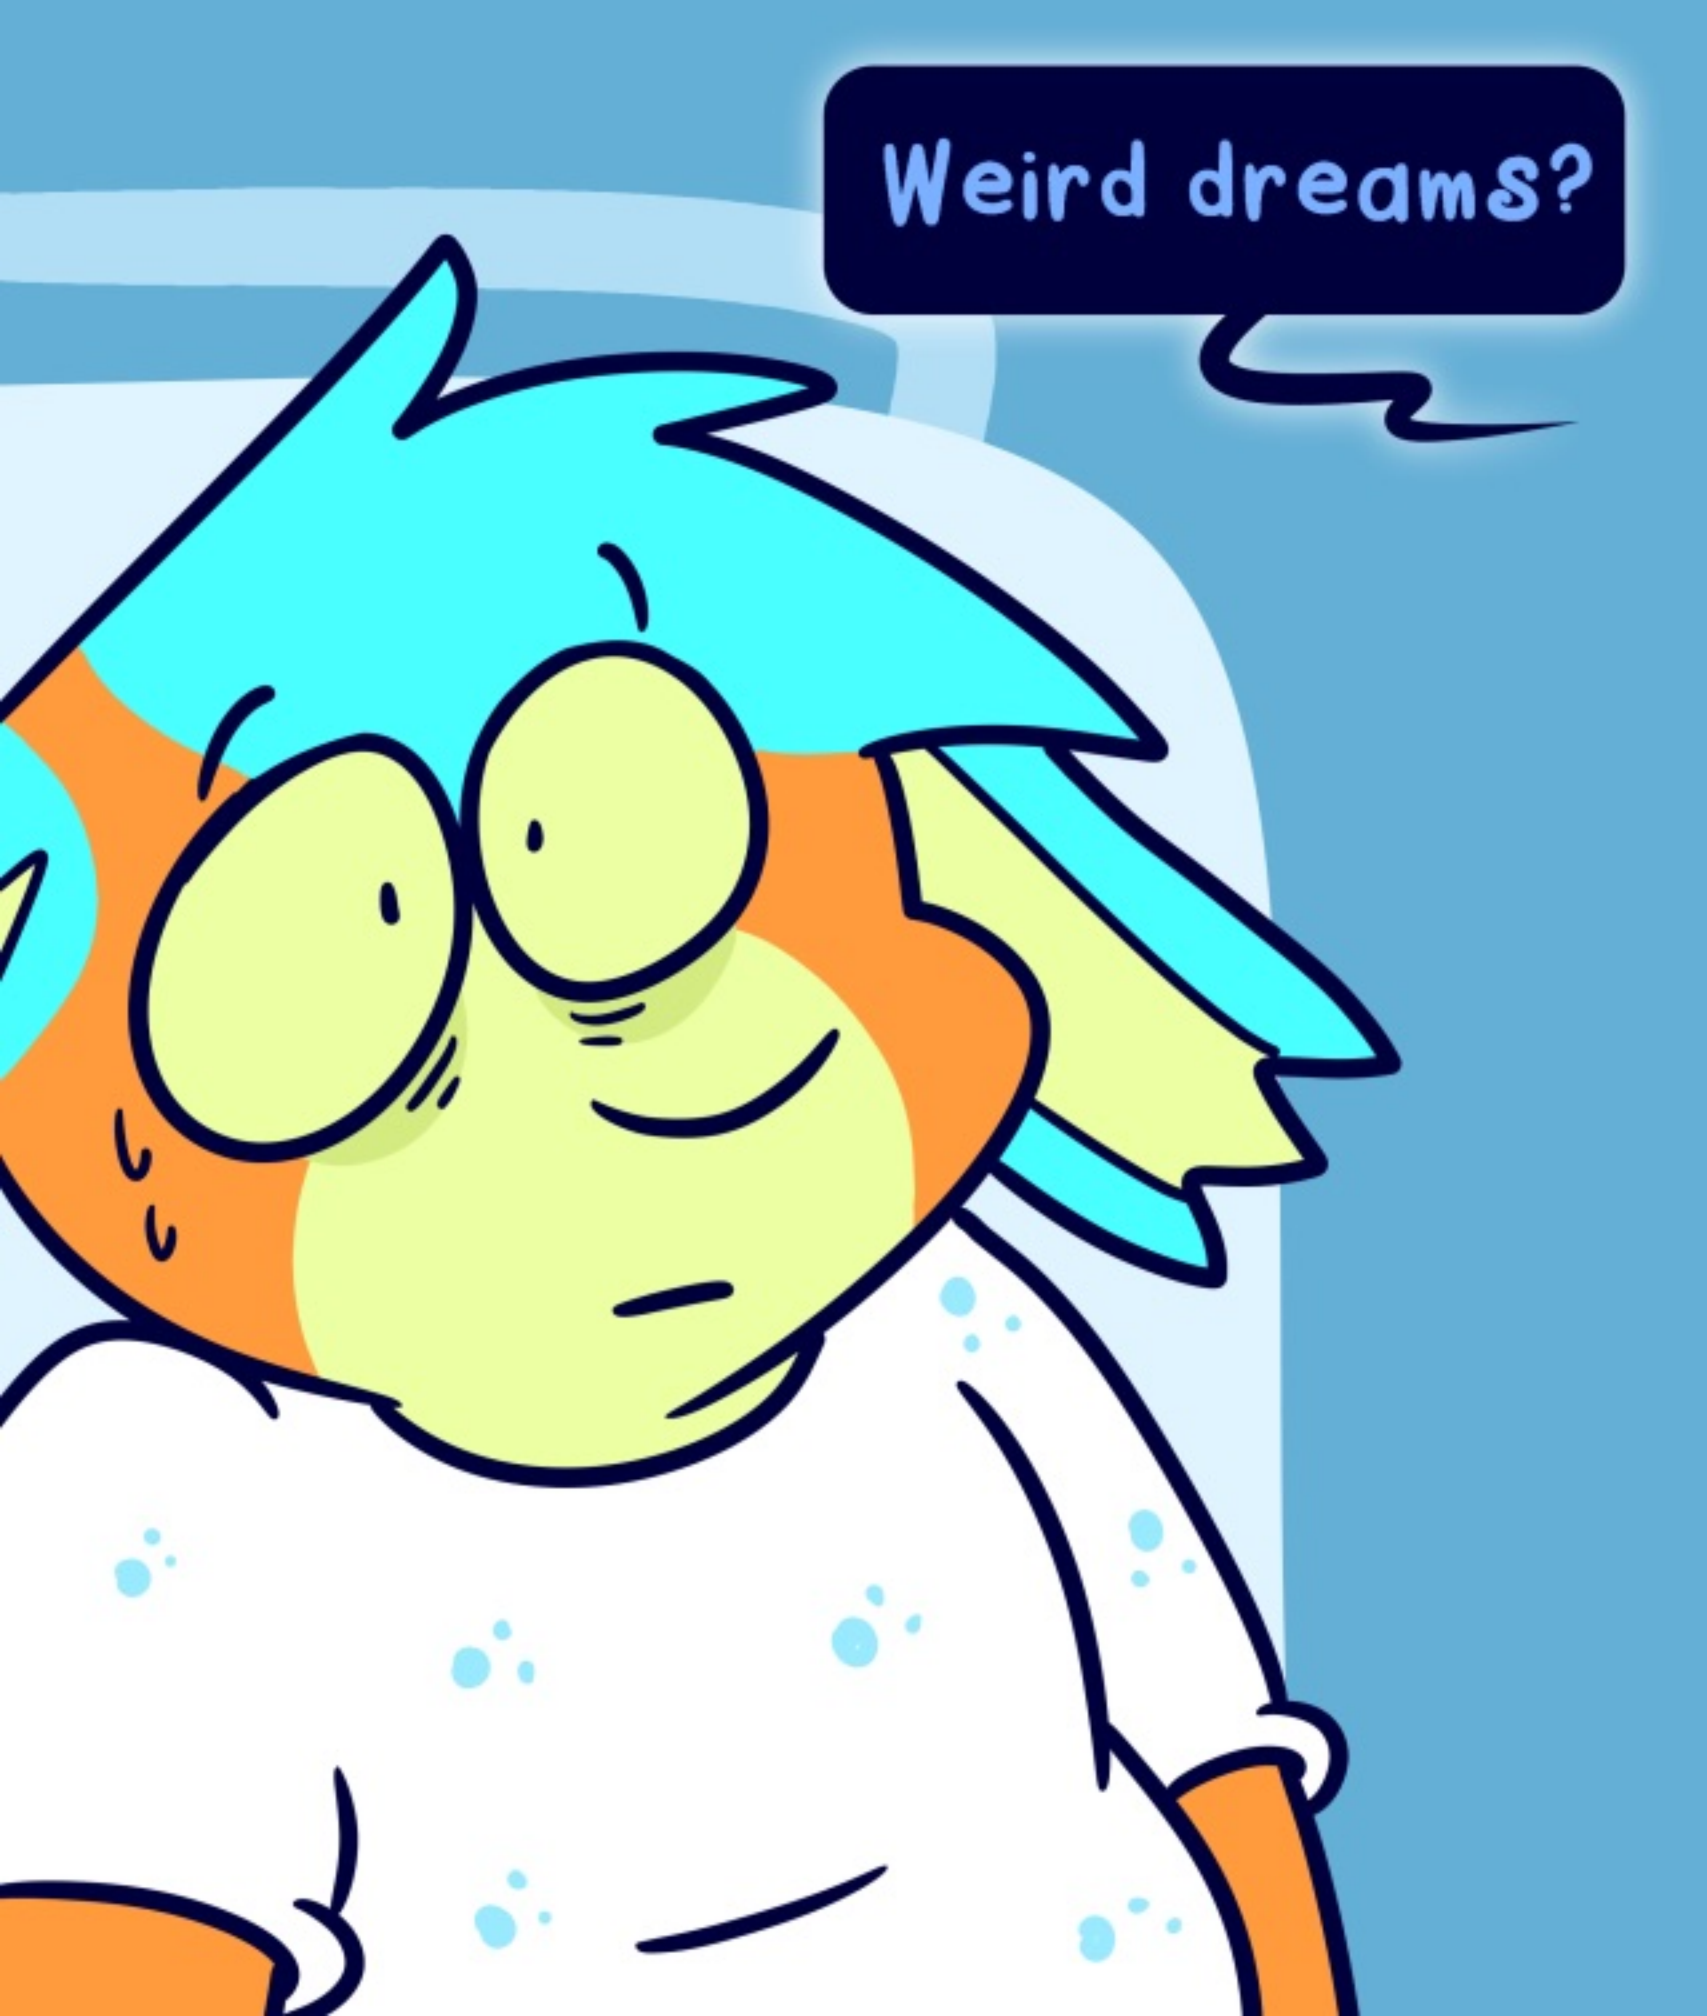
W-Wins, you didn´t have to call my family...
Of course I did! You´re in the hospital, Mory, they need to know.



Well, since we are here, can you tell us what´s going on?



I-I just have a high temperature, body aches, nausea, and I´ve been having weird dreams...



Weird dreams?

Hey dad.

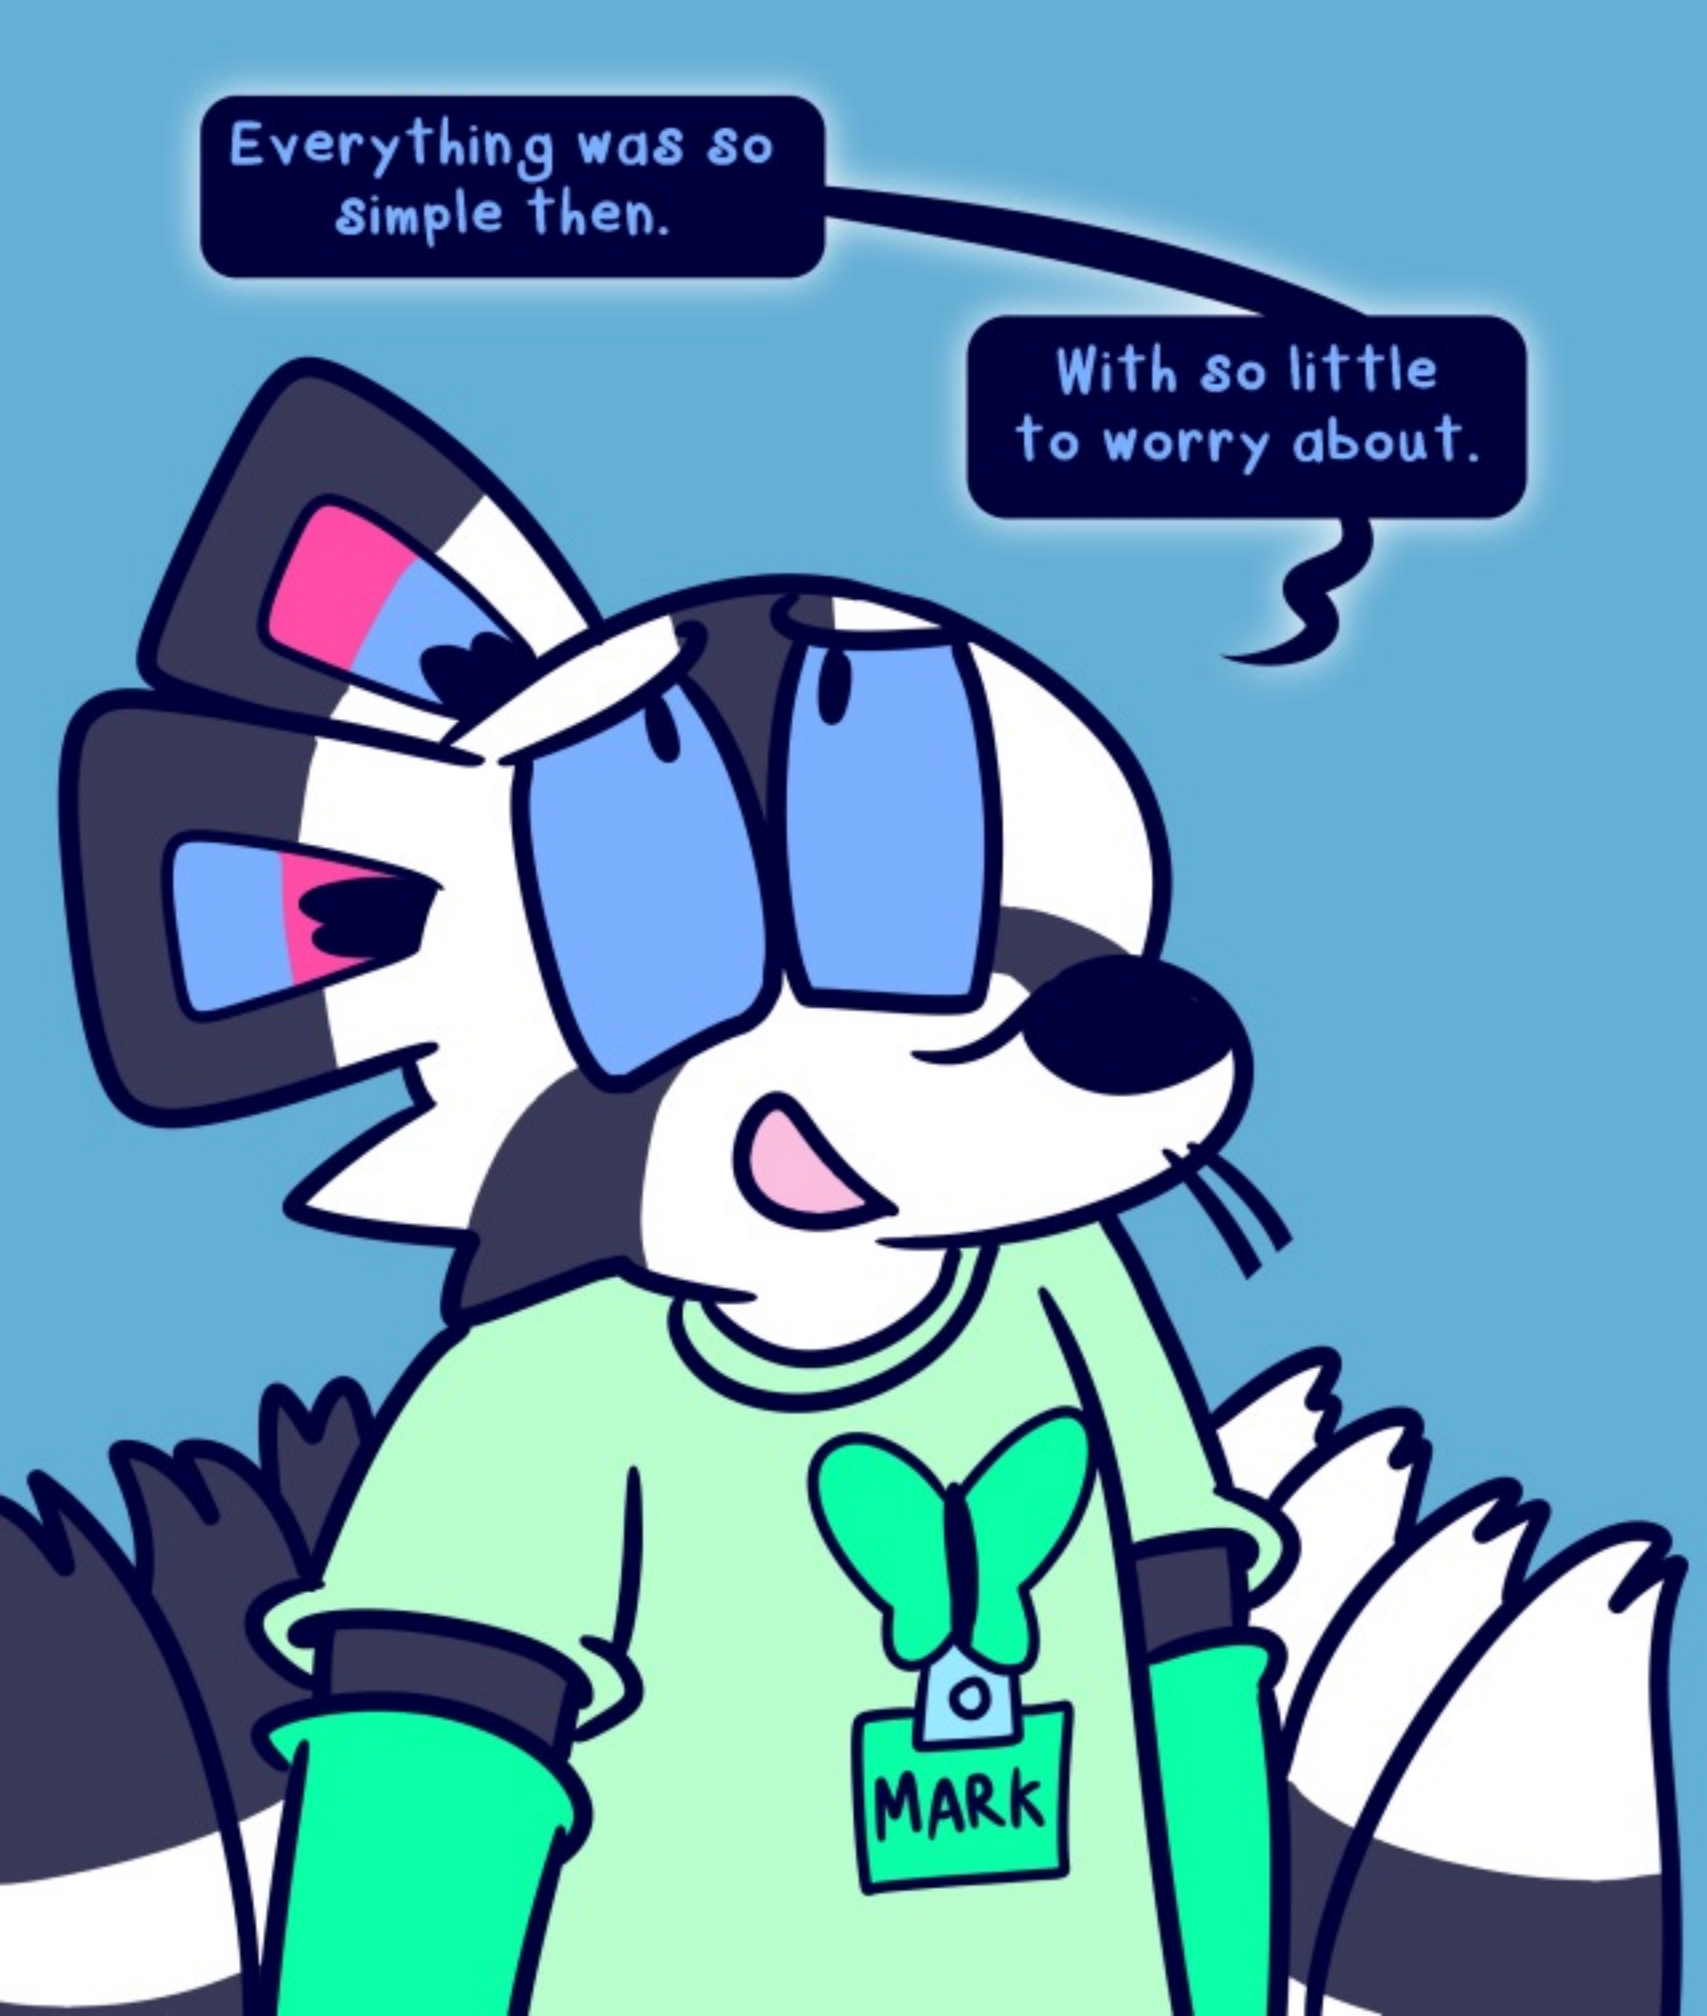
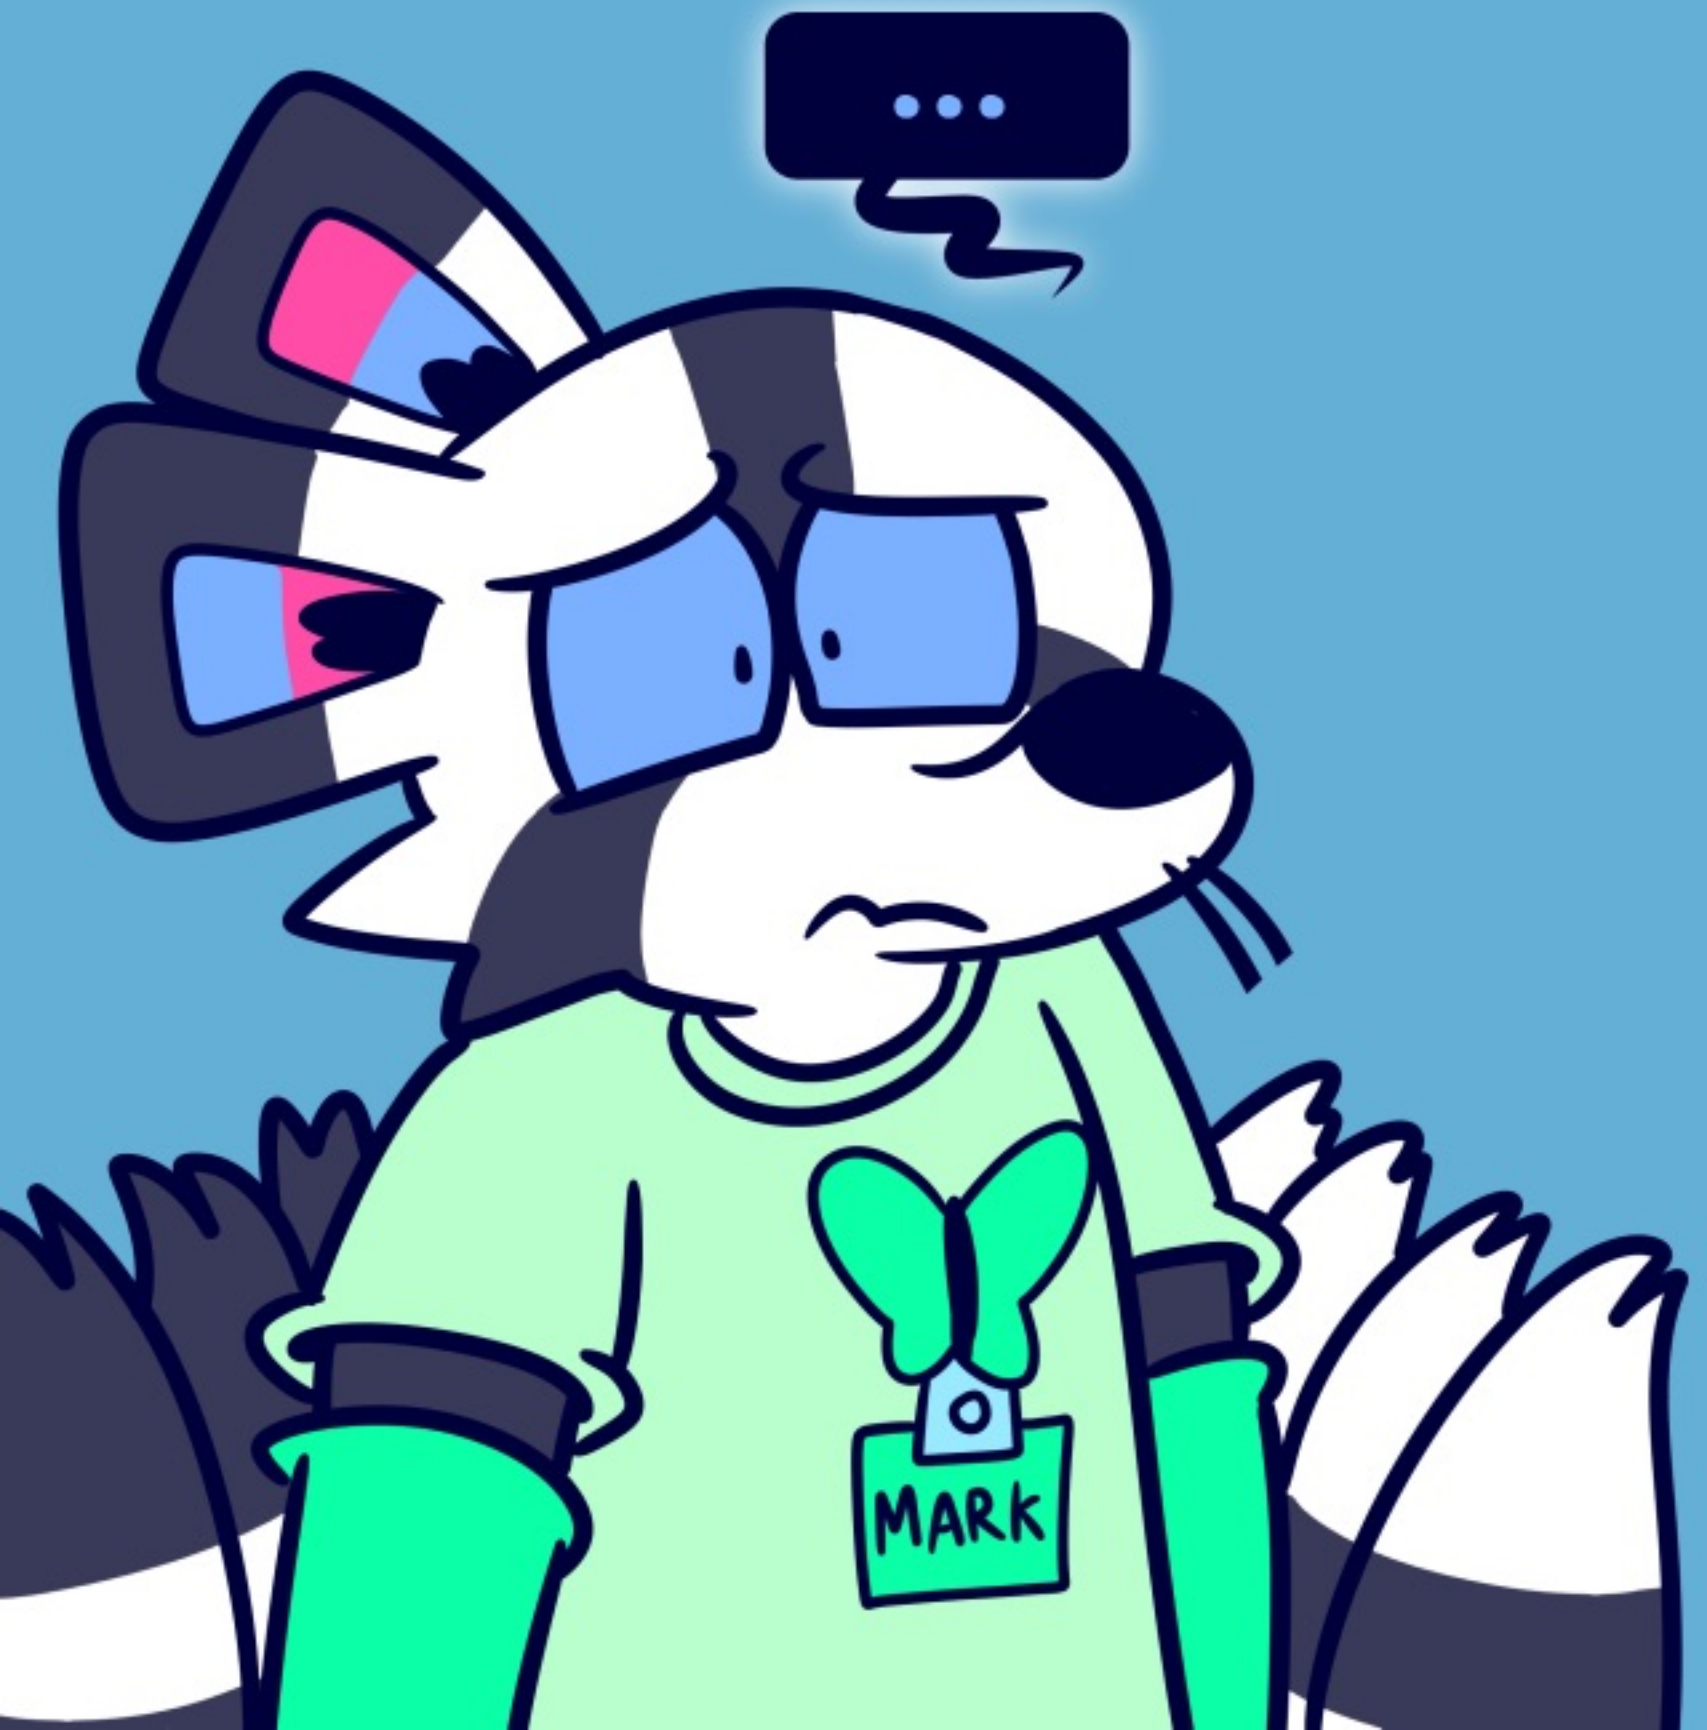
fentslite asked:

what kind of games do you like !

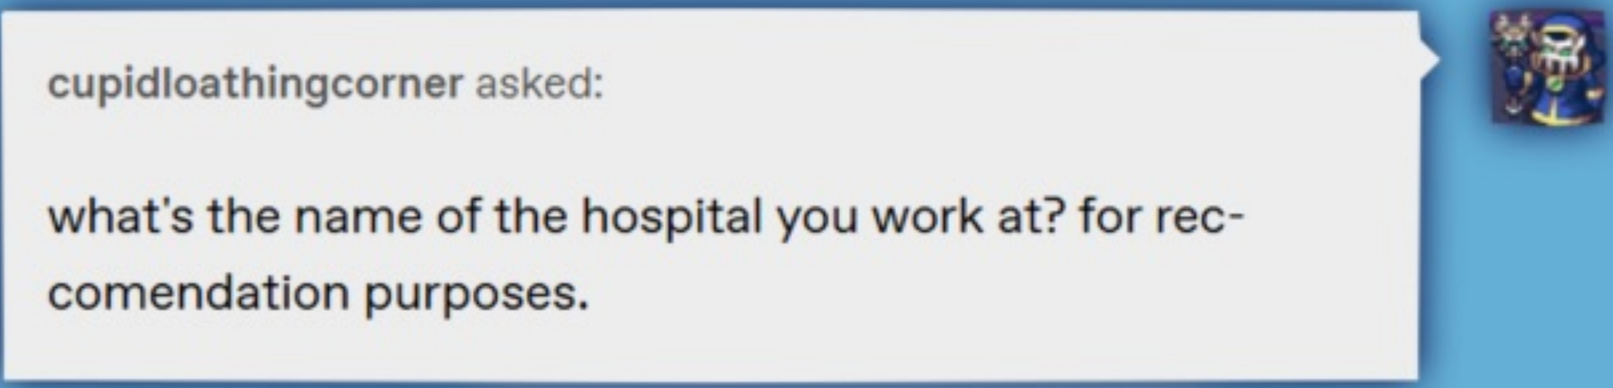
Mostly old classic arcade games or games for old home consoles.
It makes me nostalgic for when I was a young.
MARK



Everything was so simple then.
With so little to worry about.
MARK

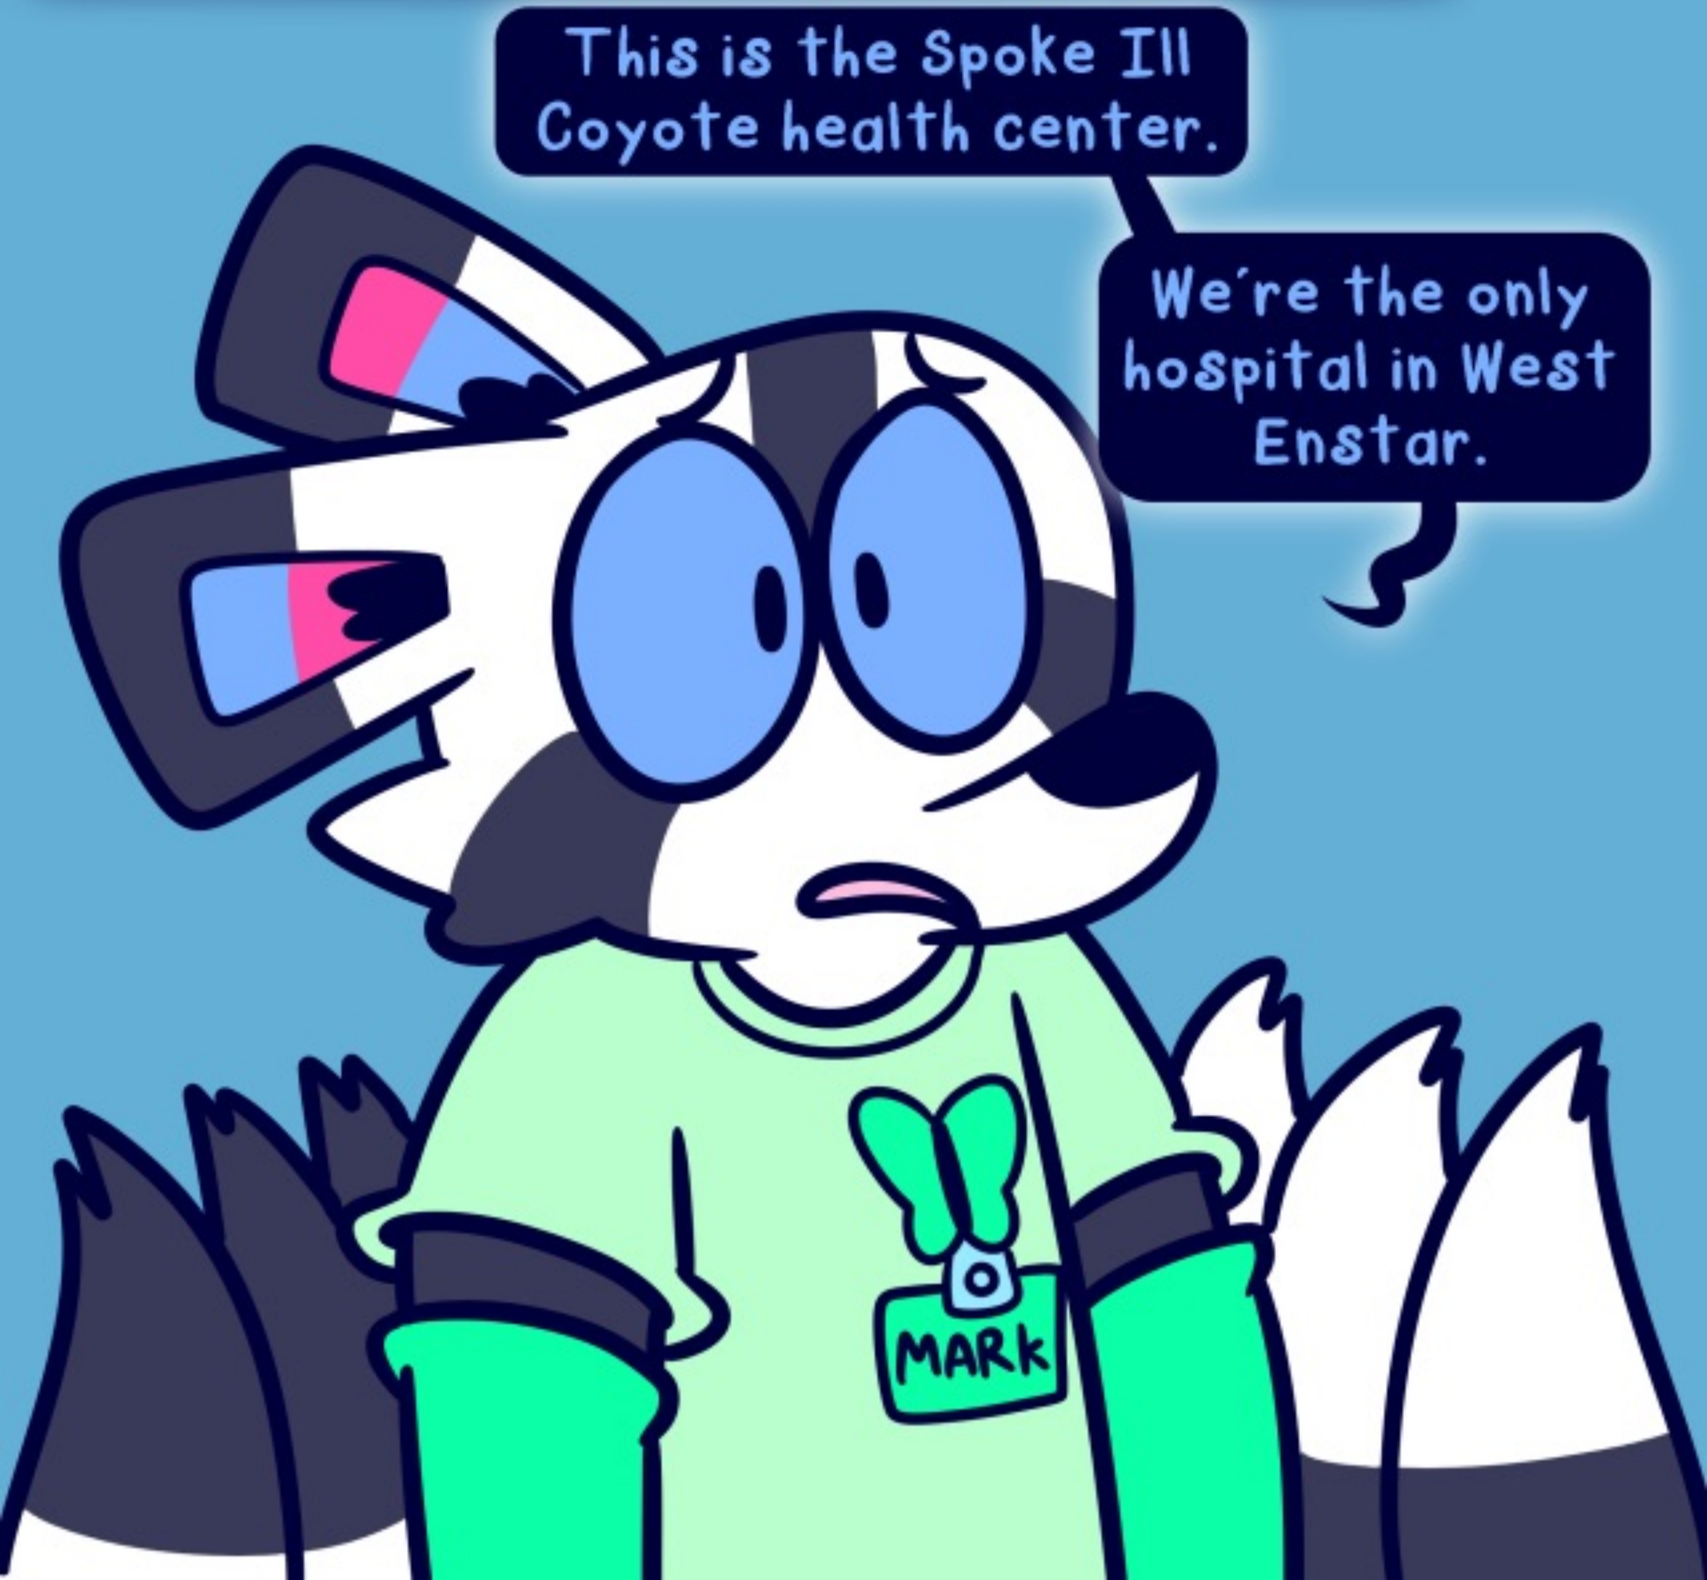


...
MARK

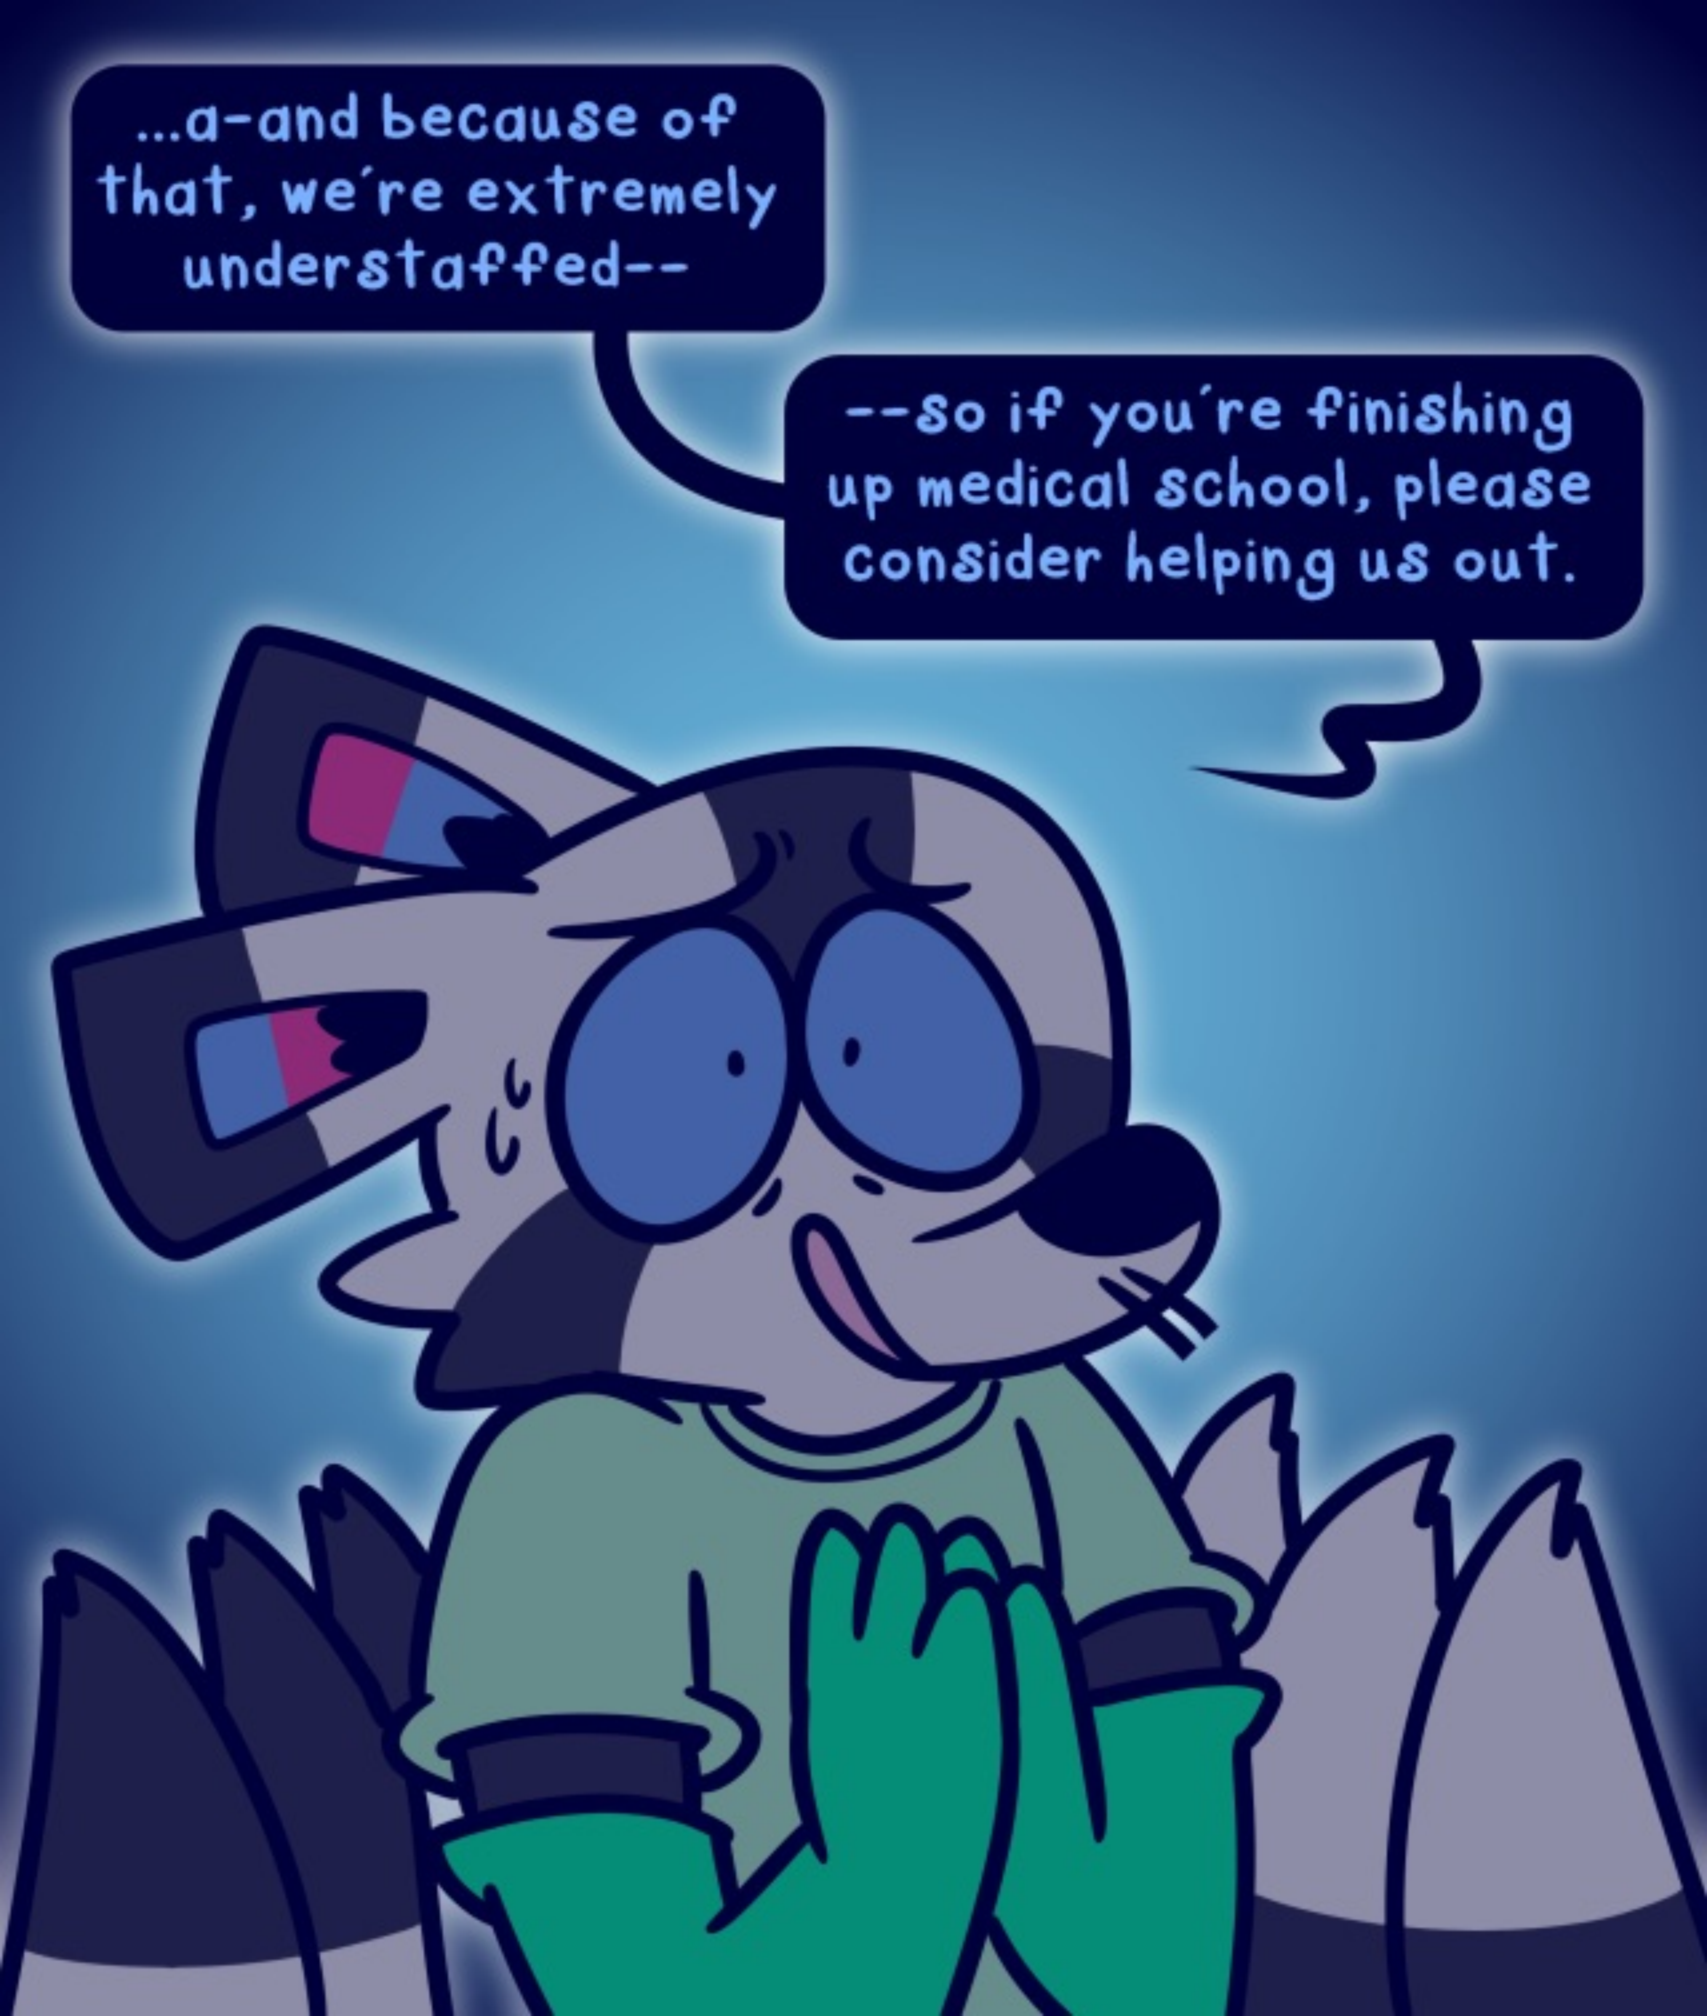


cupidloathingcorner asked:

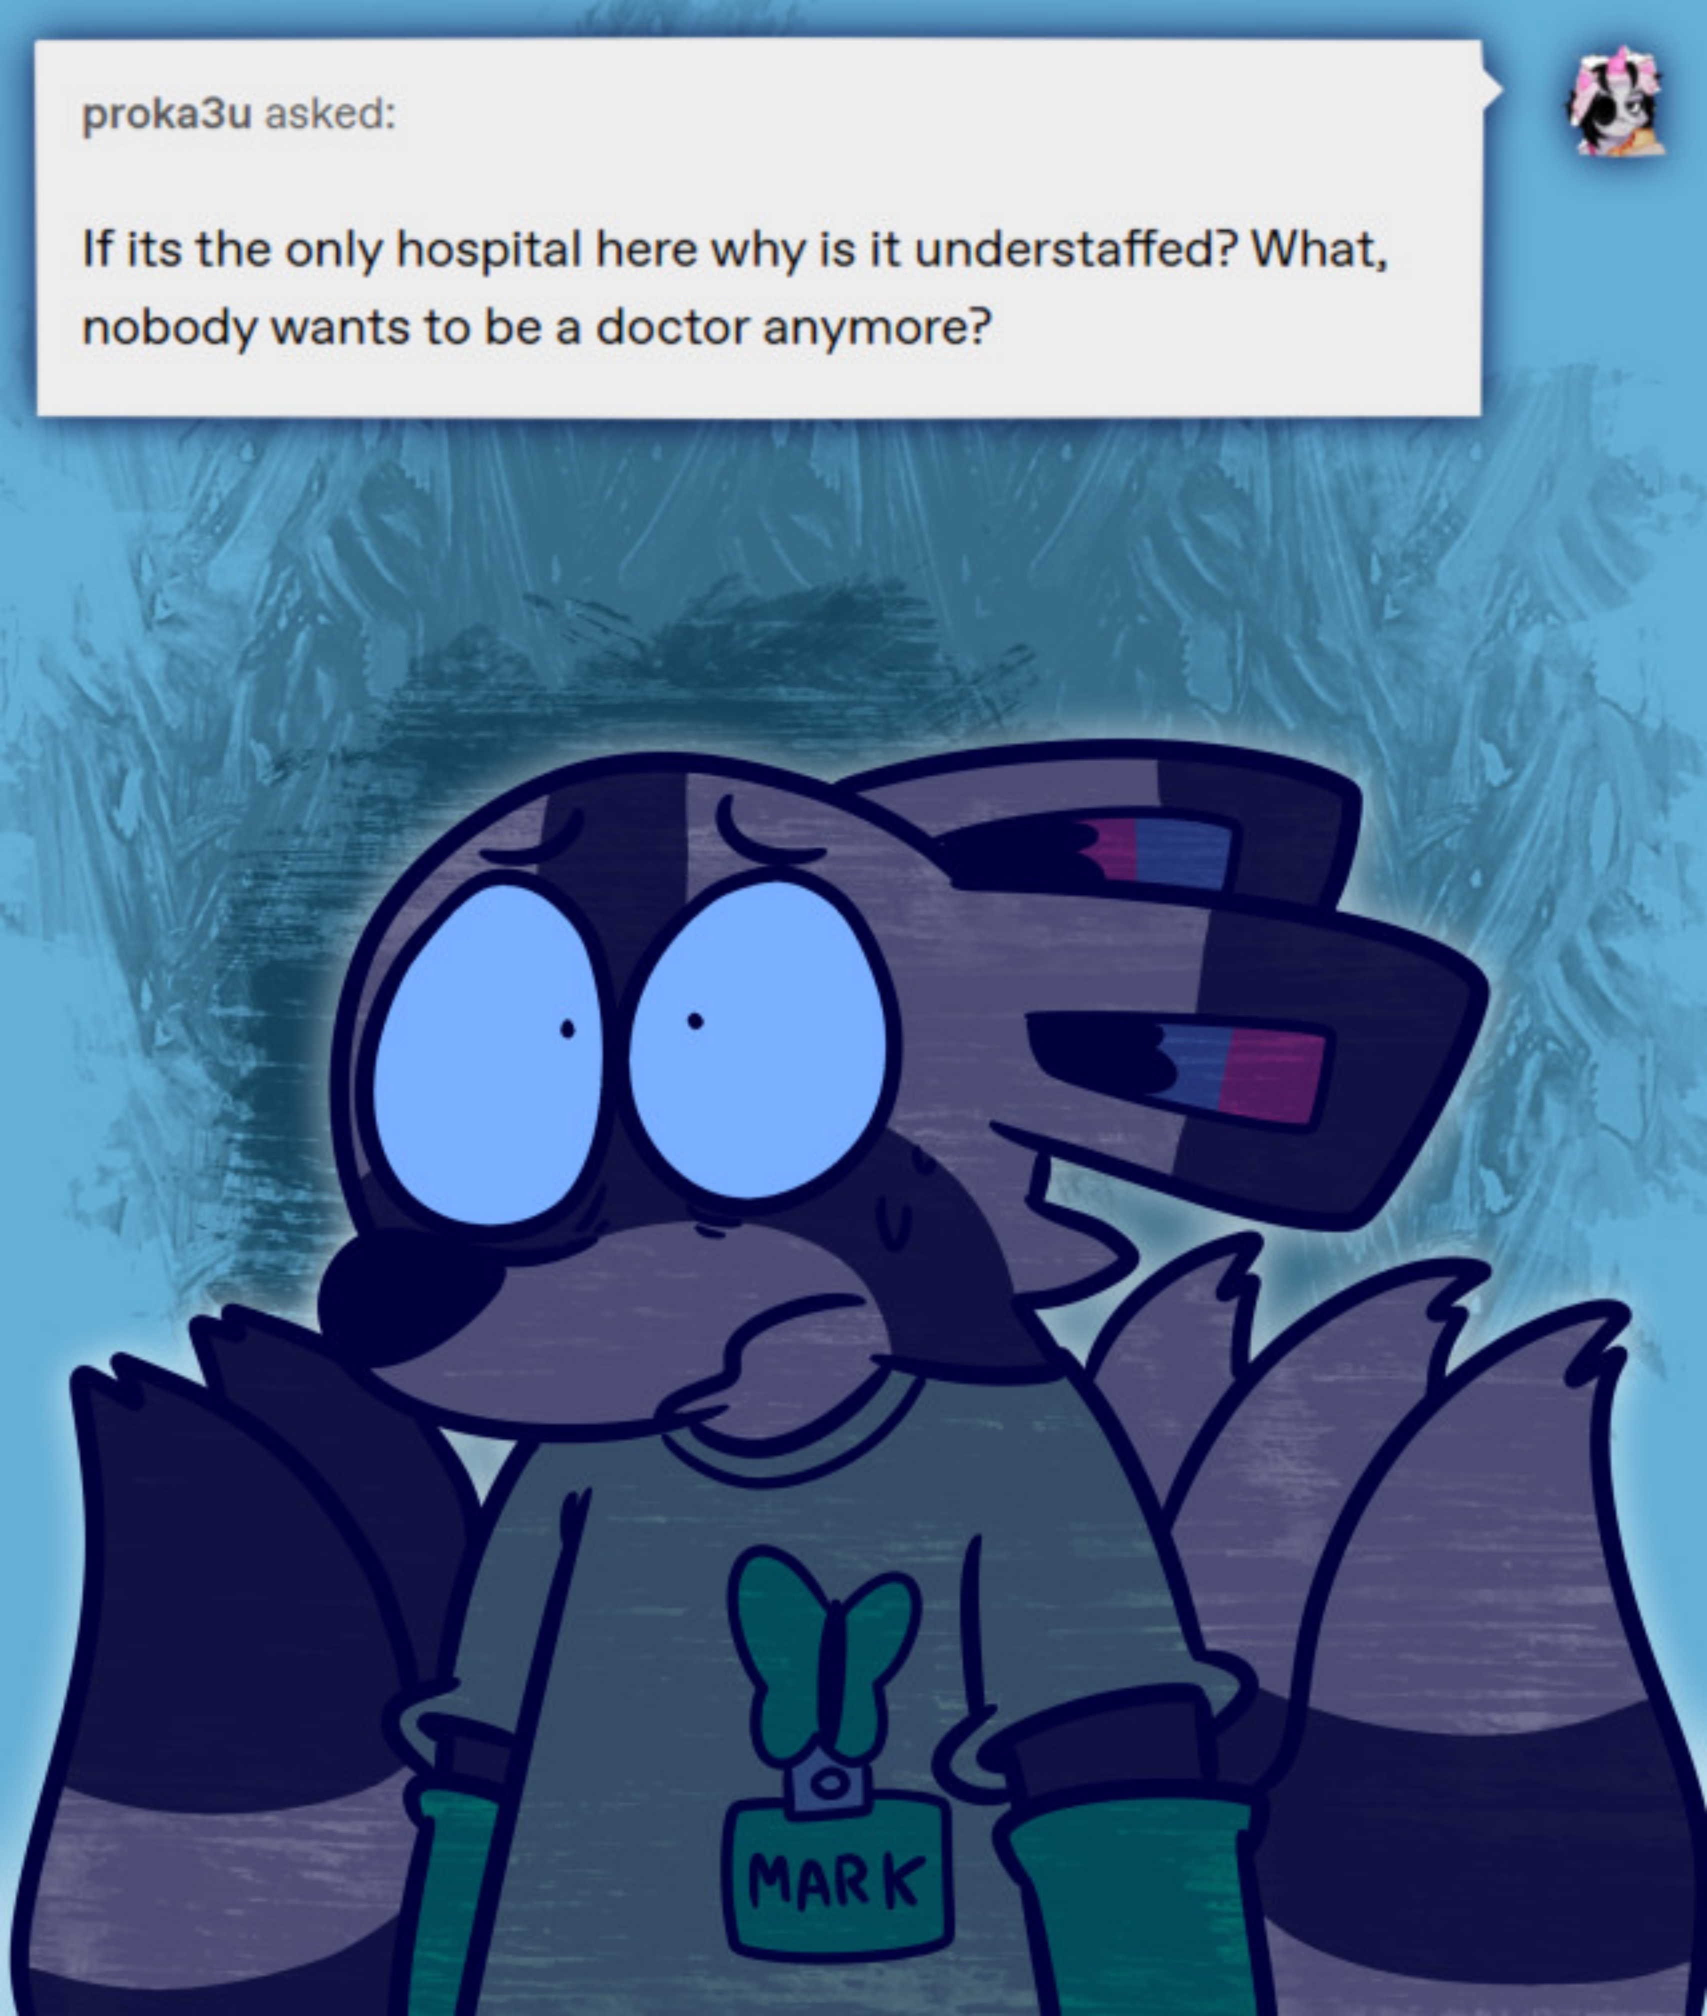
what's the name of the hospital you work at? for rec-comendation purposes.



This is the Spoke III Coyote health center.
We're the only hospital in West Enstar.
MARK

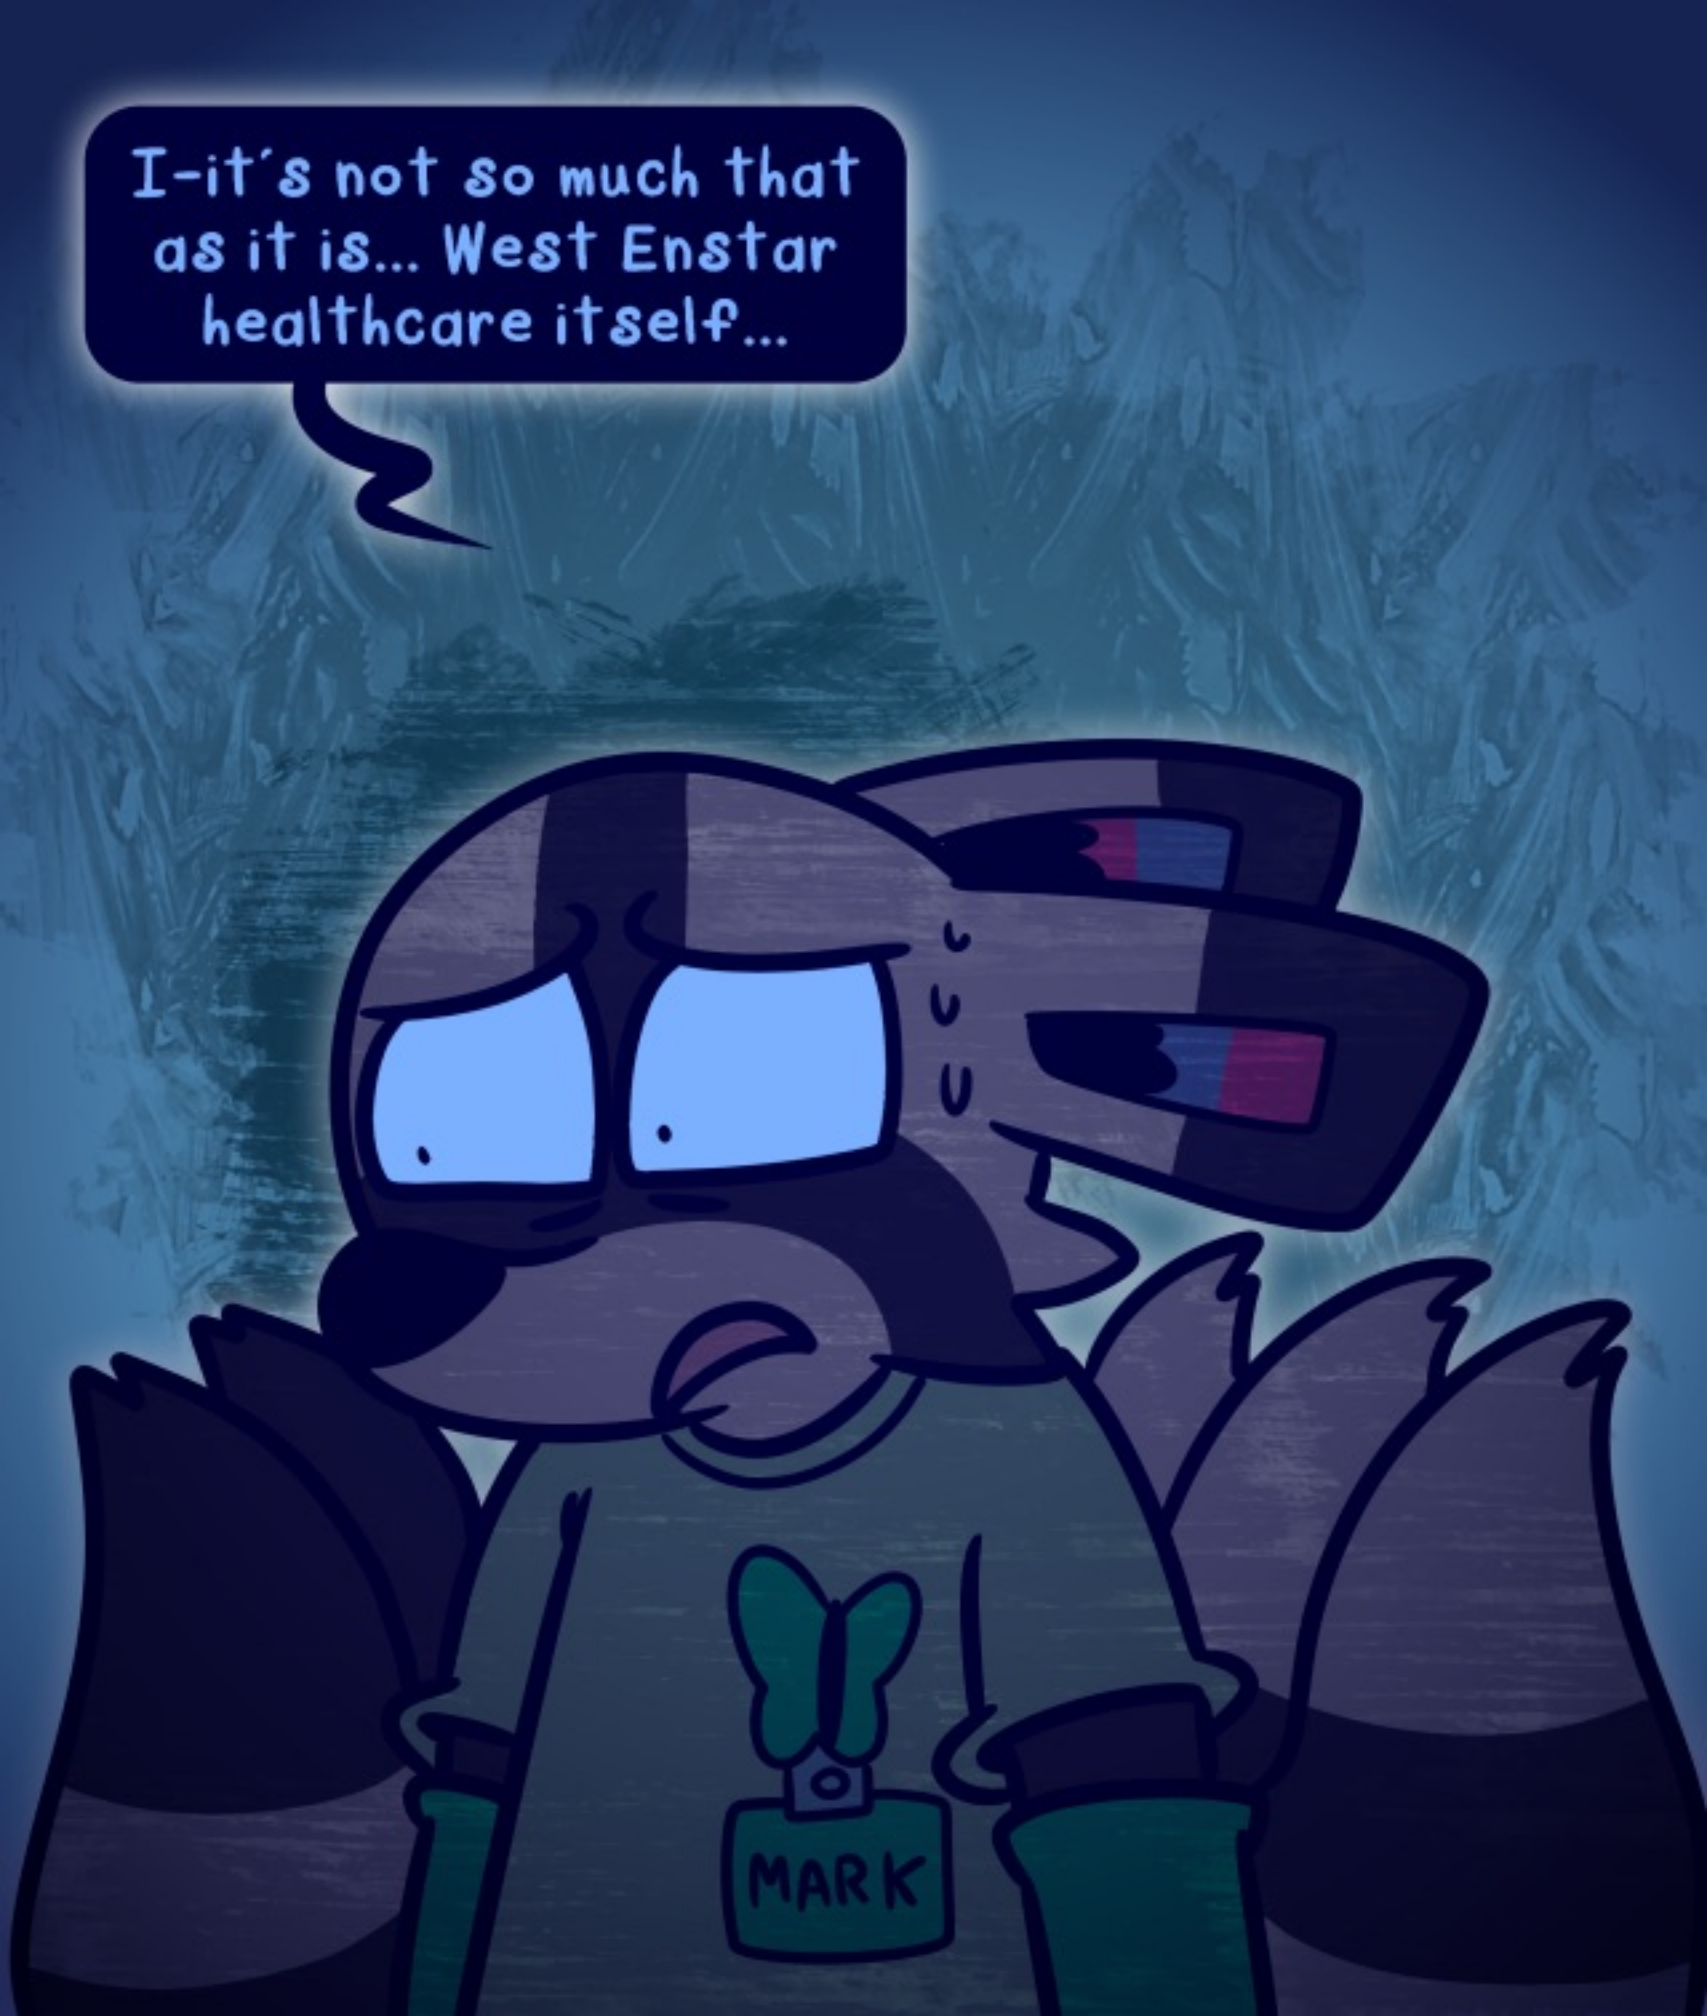


...a-and because of that, we're extremely understaffed--
--so if you're finishing up medical school, please consider helping us out.

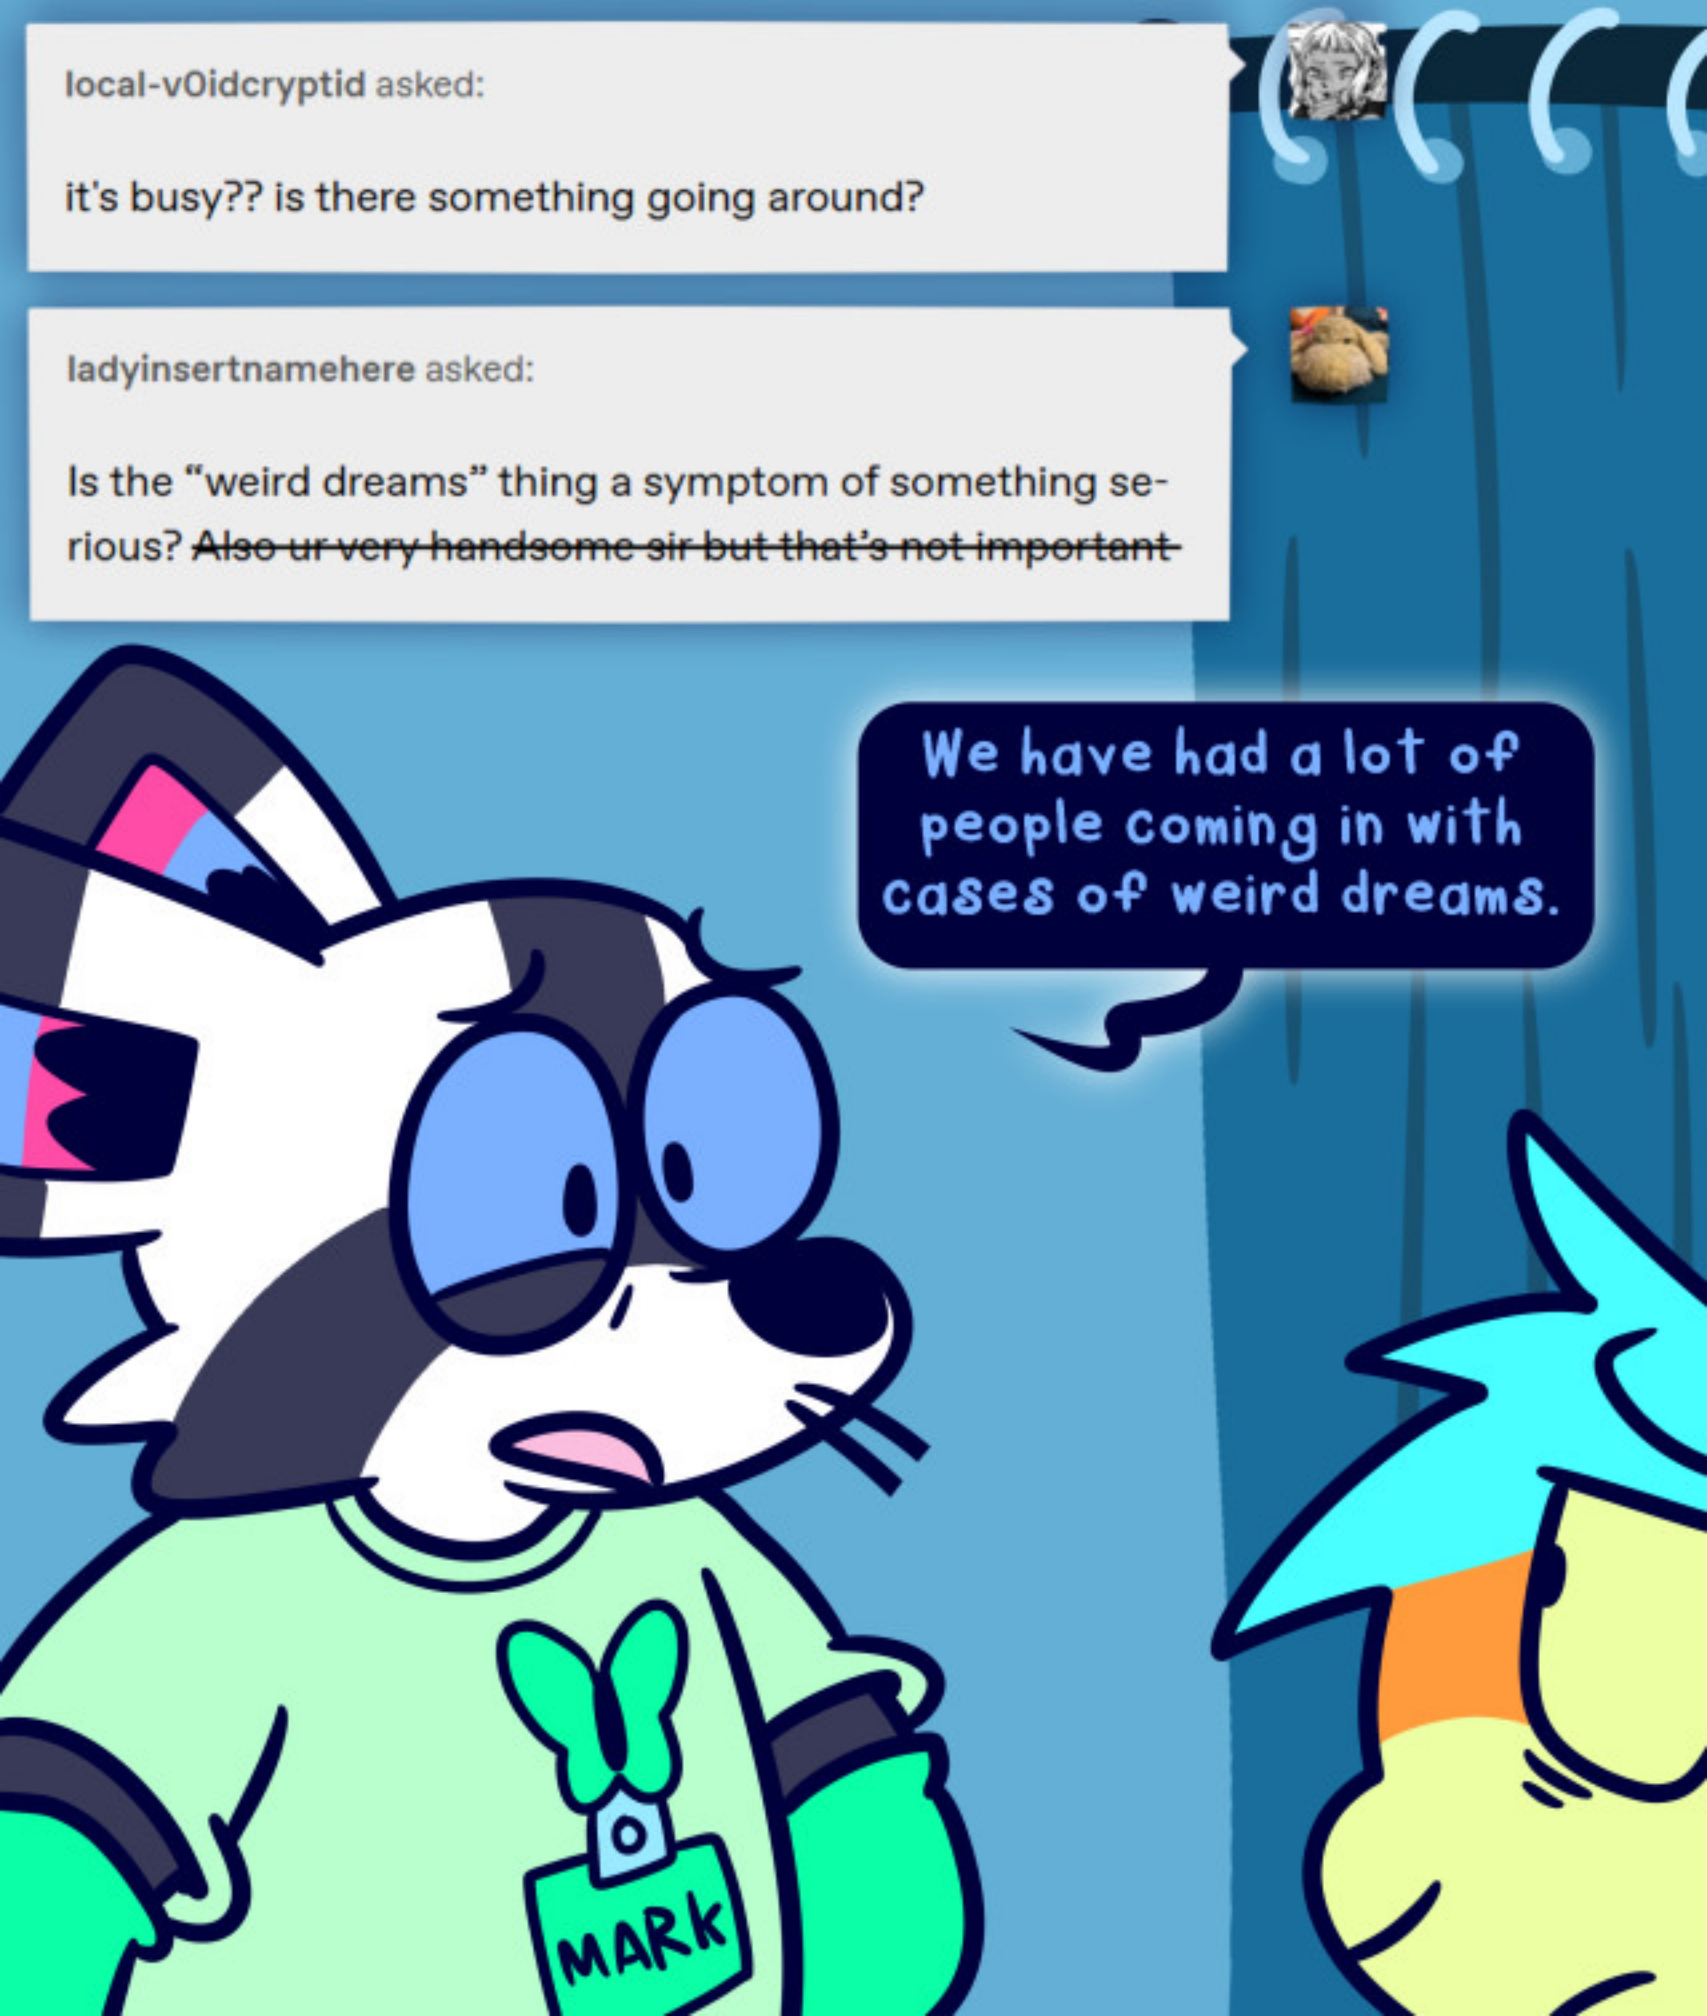


proka3u asked:

If its the only hospital here why is it understaffed? What, nobody wants to be a doctor anymore?



I-it´s not so much that as it is... West Enstar healthcare itself...
MARK



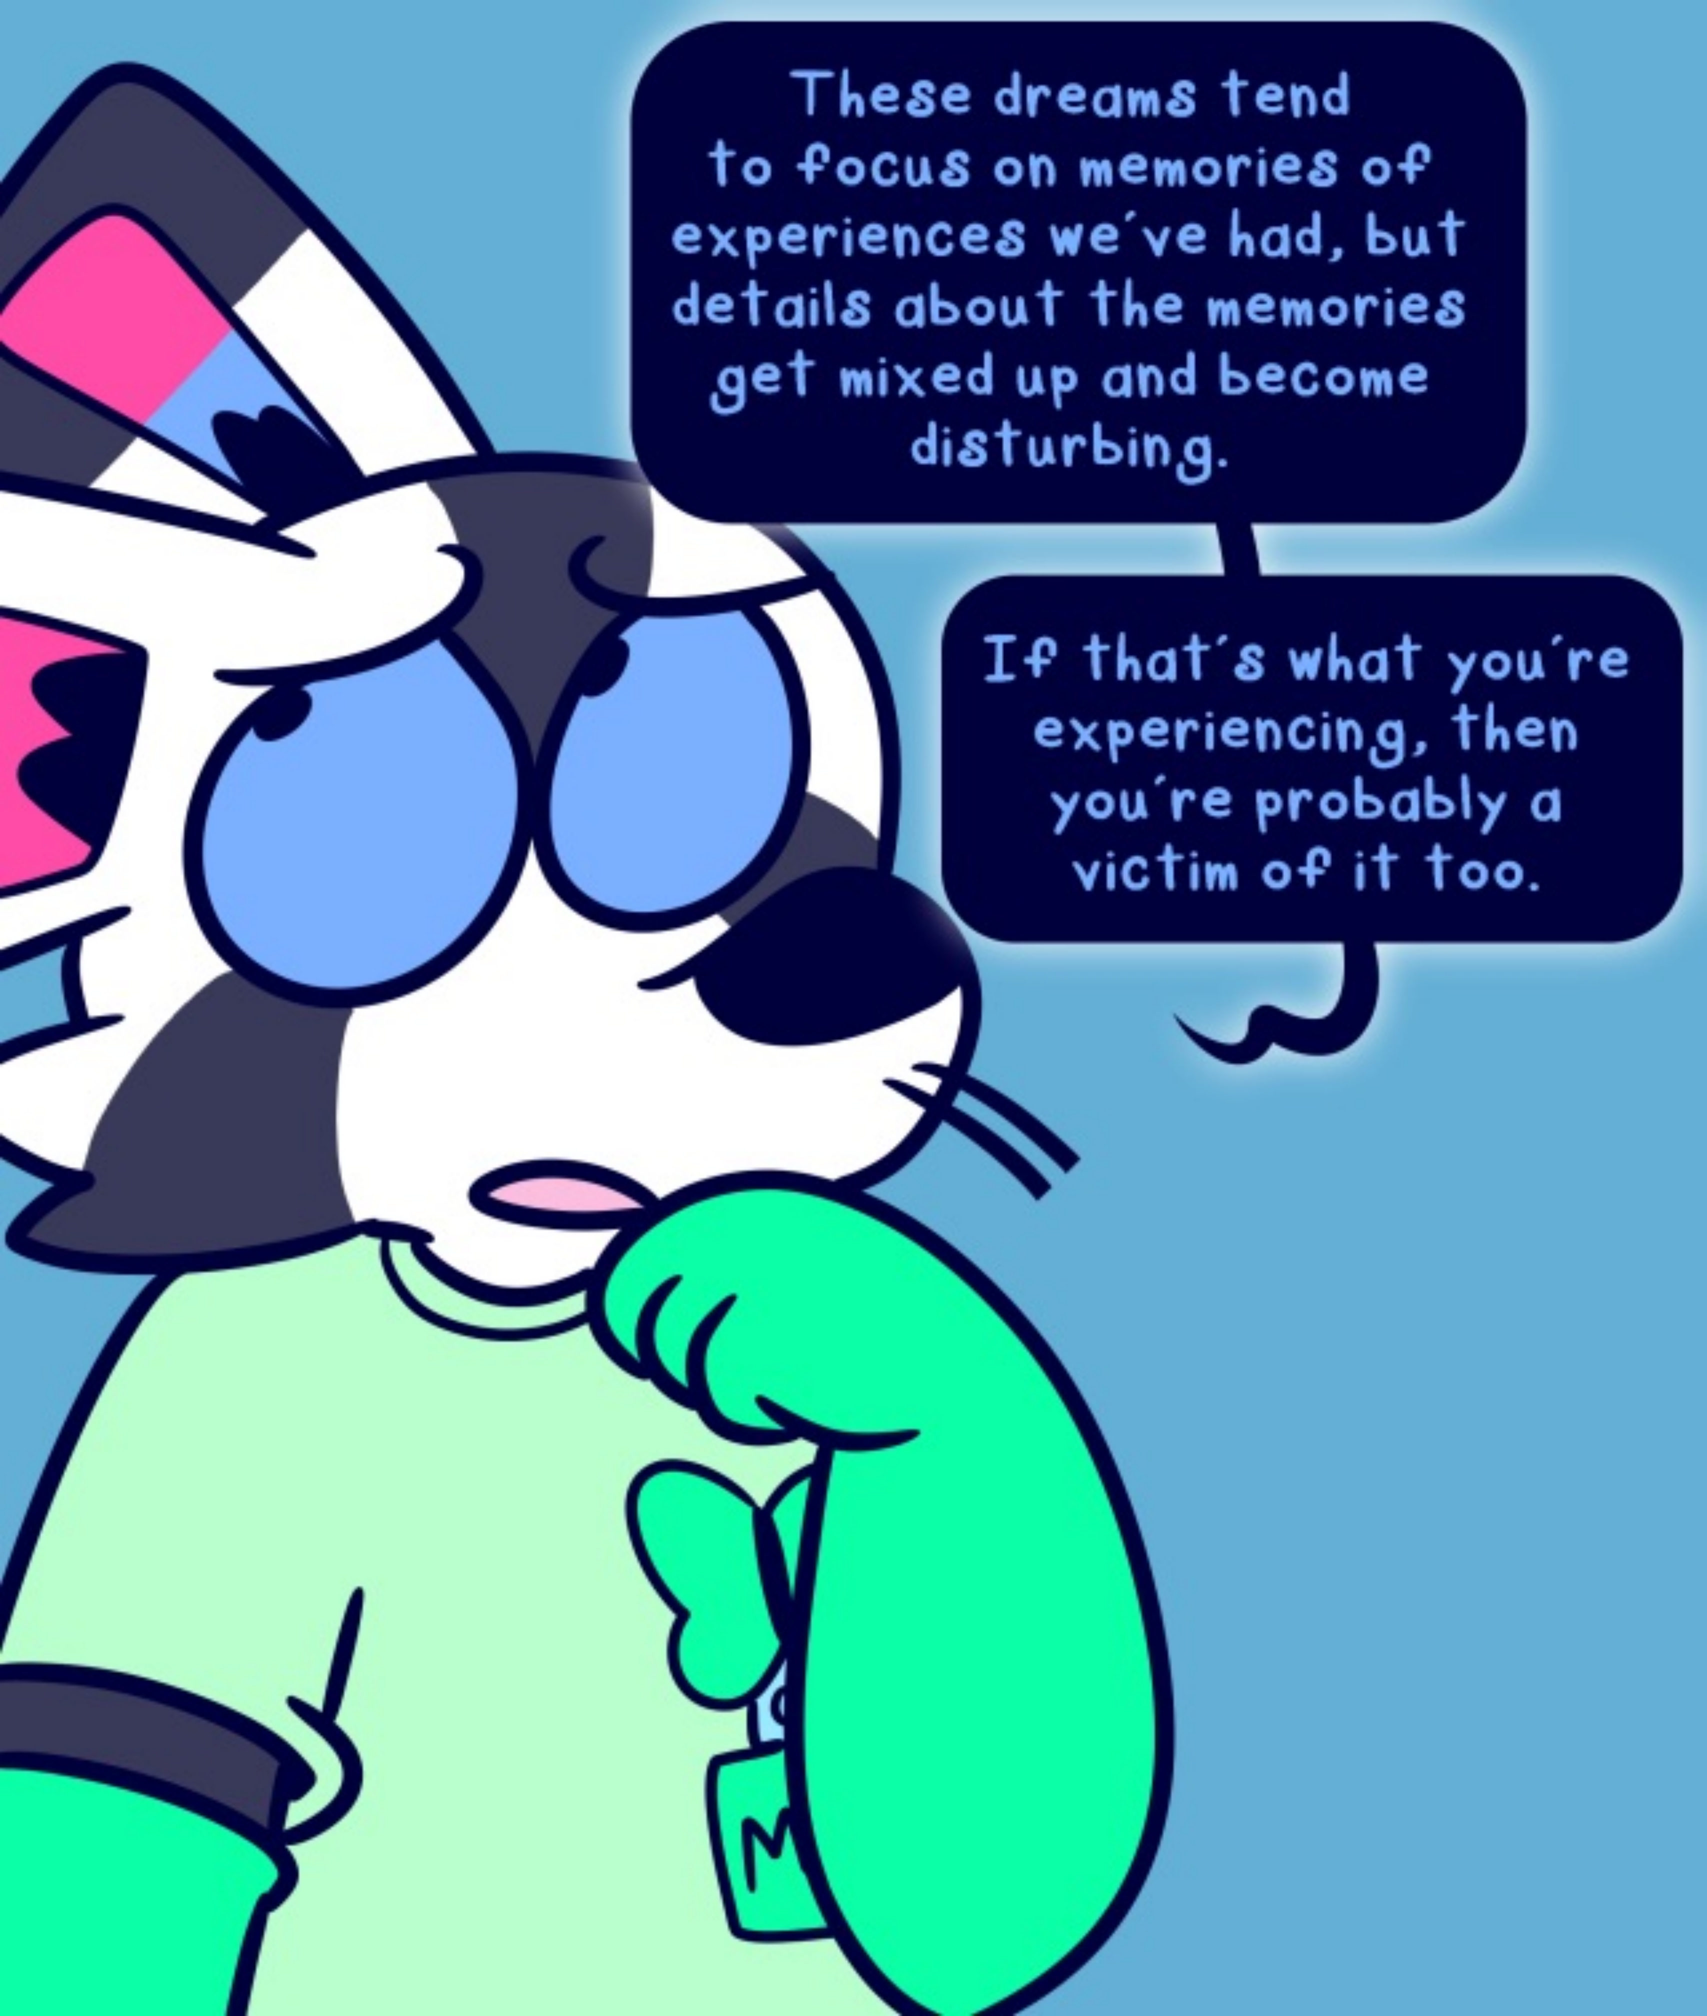
local-v0idcryptid asked:

it's busy?? is there something going around?

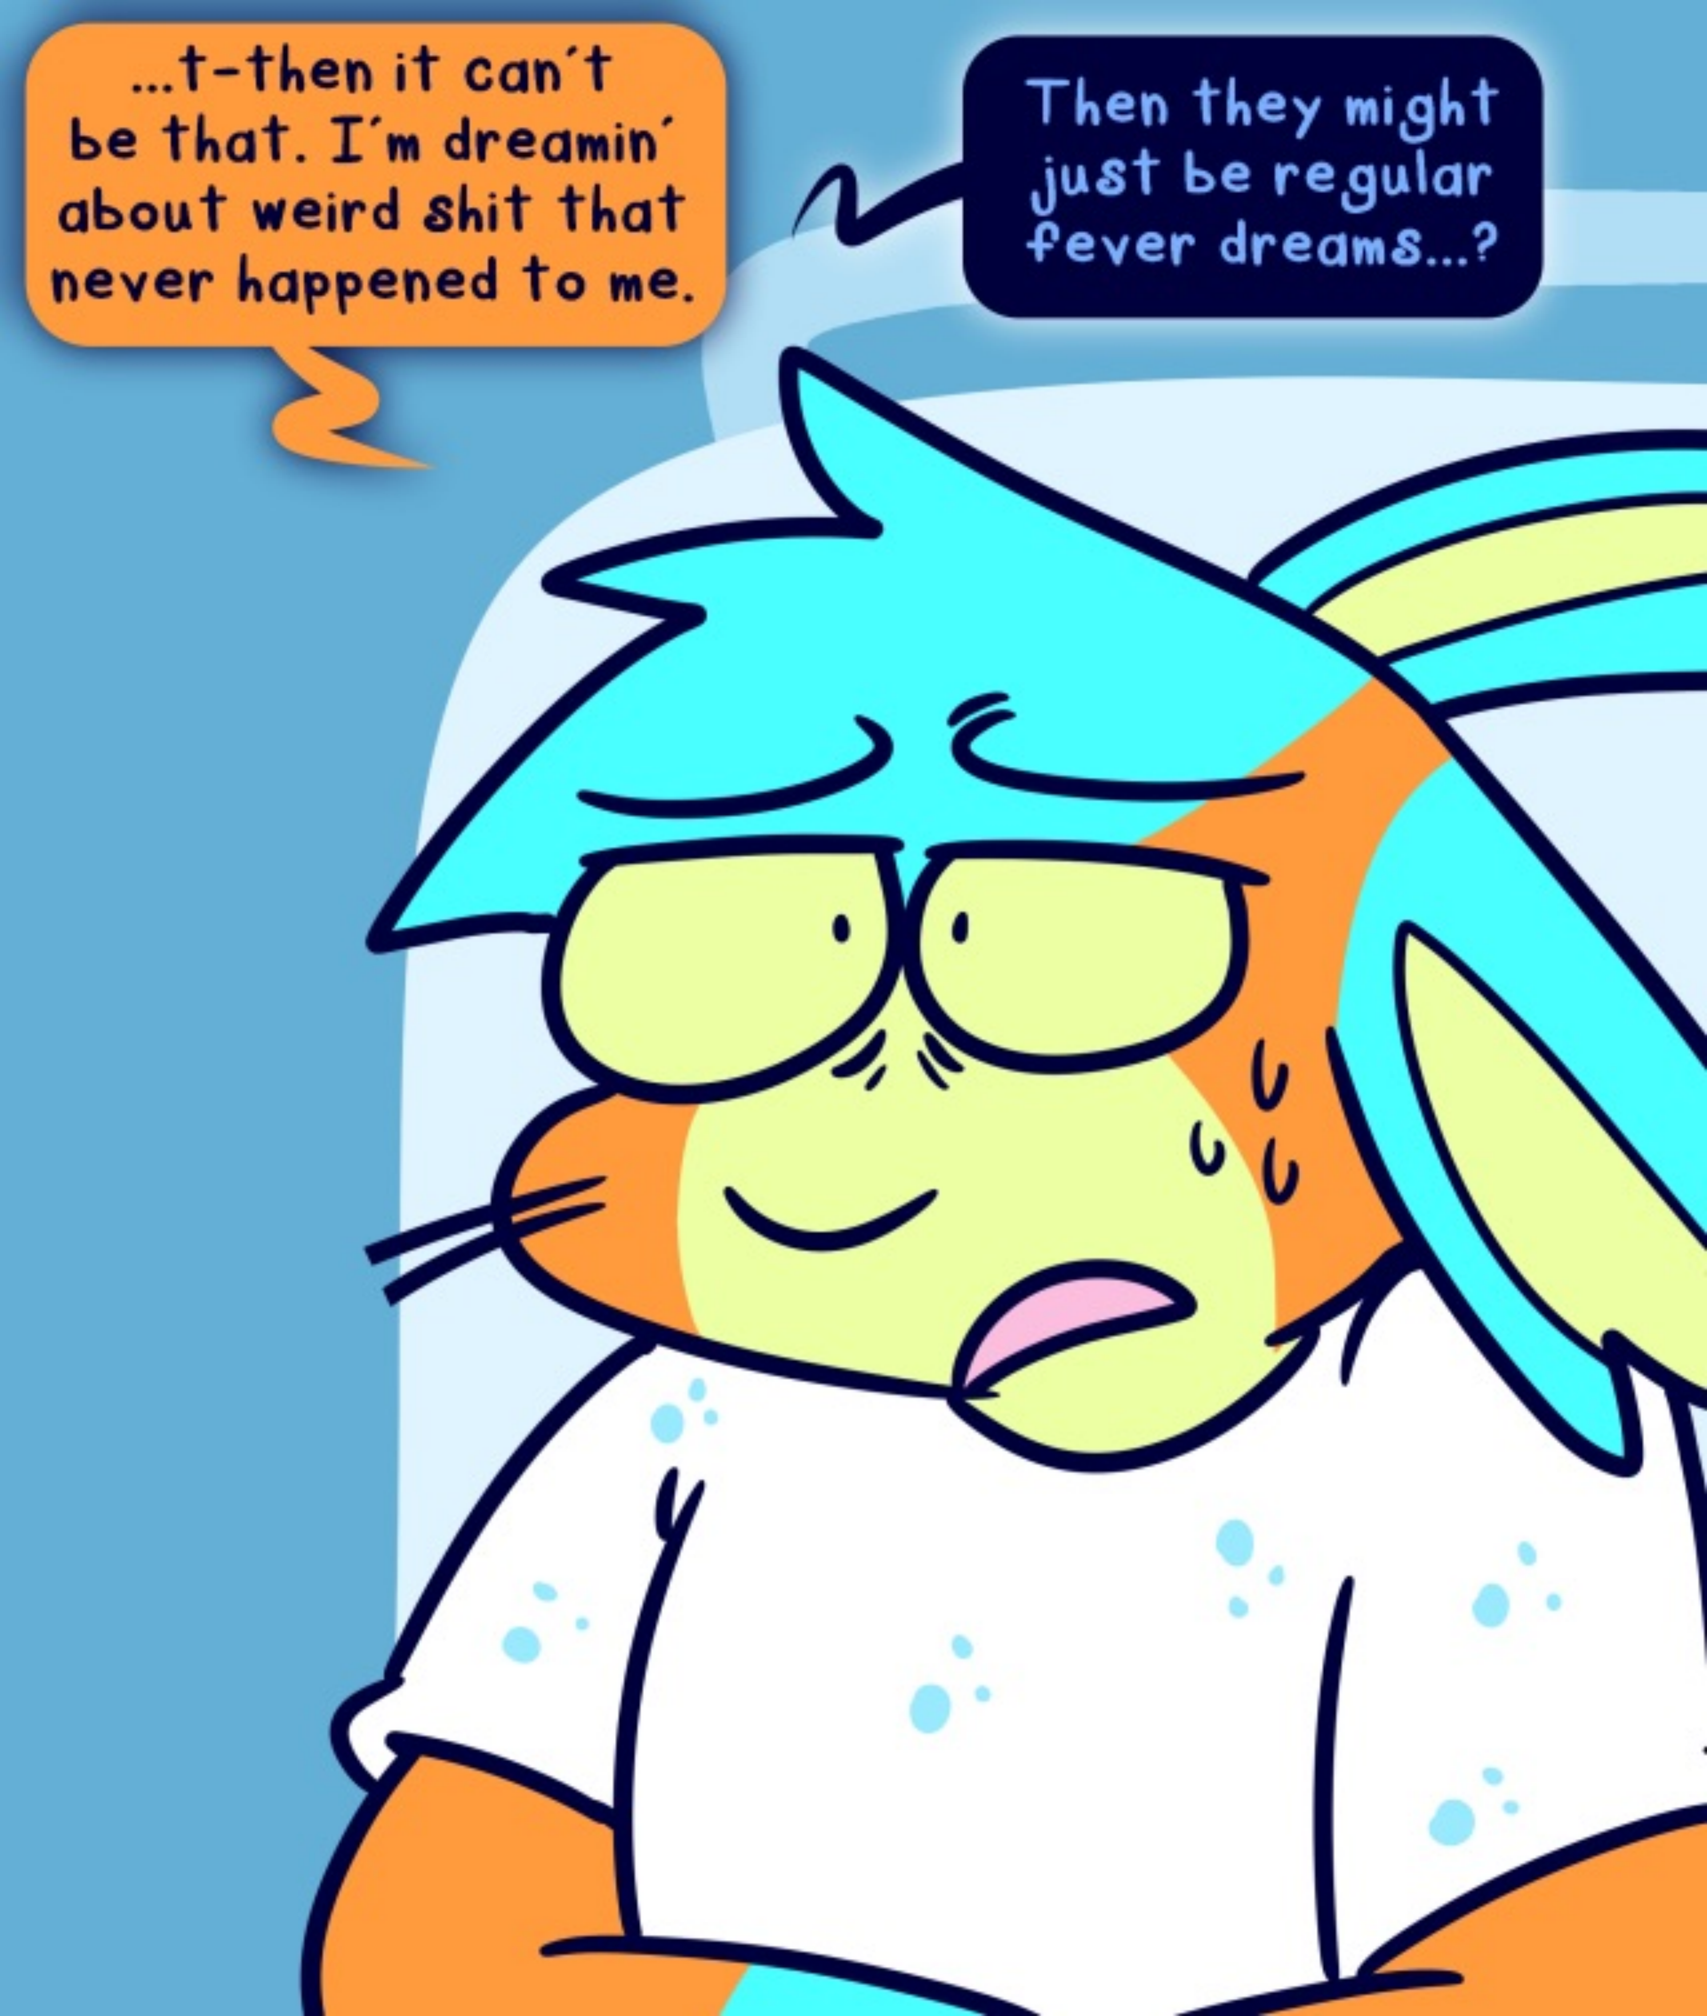
ladyinsertnamehere asked:

Is the "weird dreams" thing a symptom of something serious? ~~Also ur very handsome sir but that's not important~~

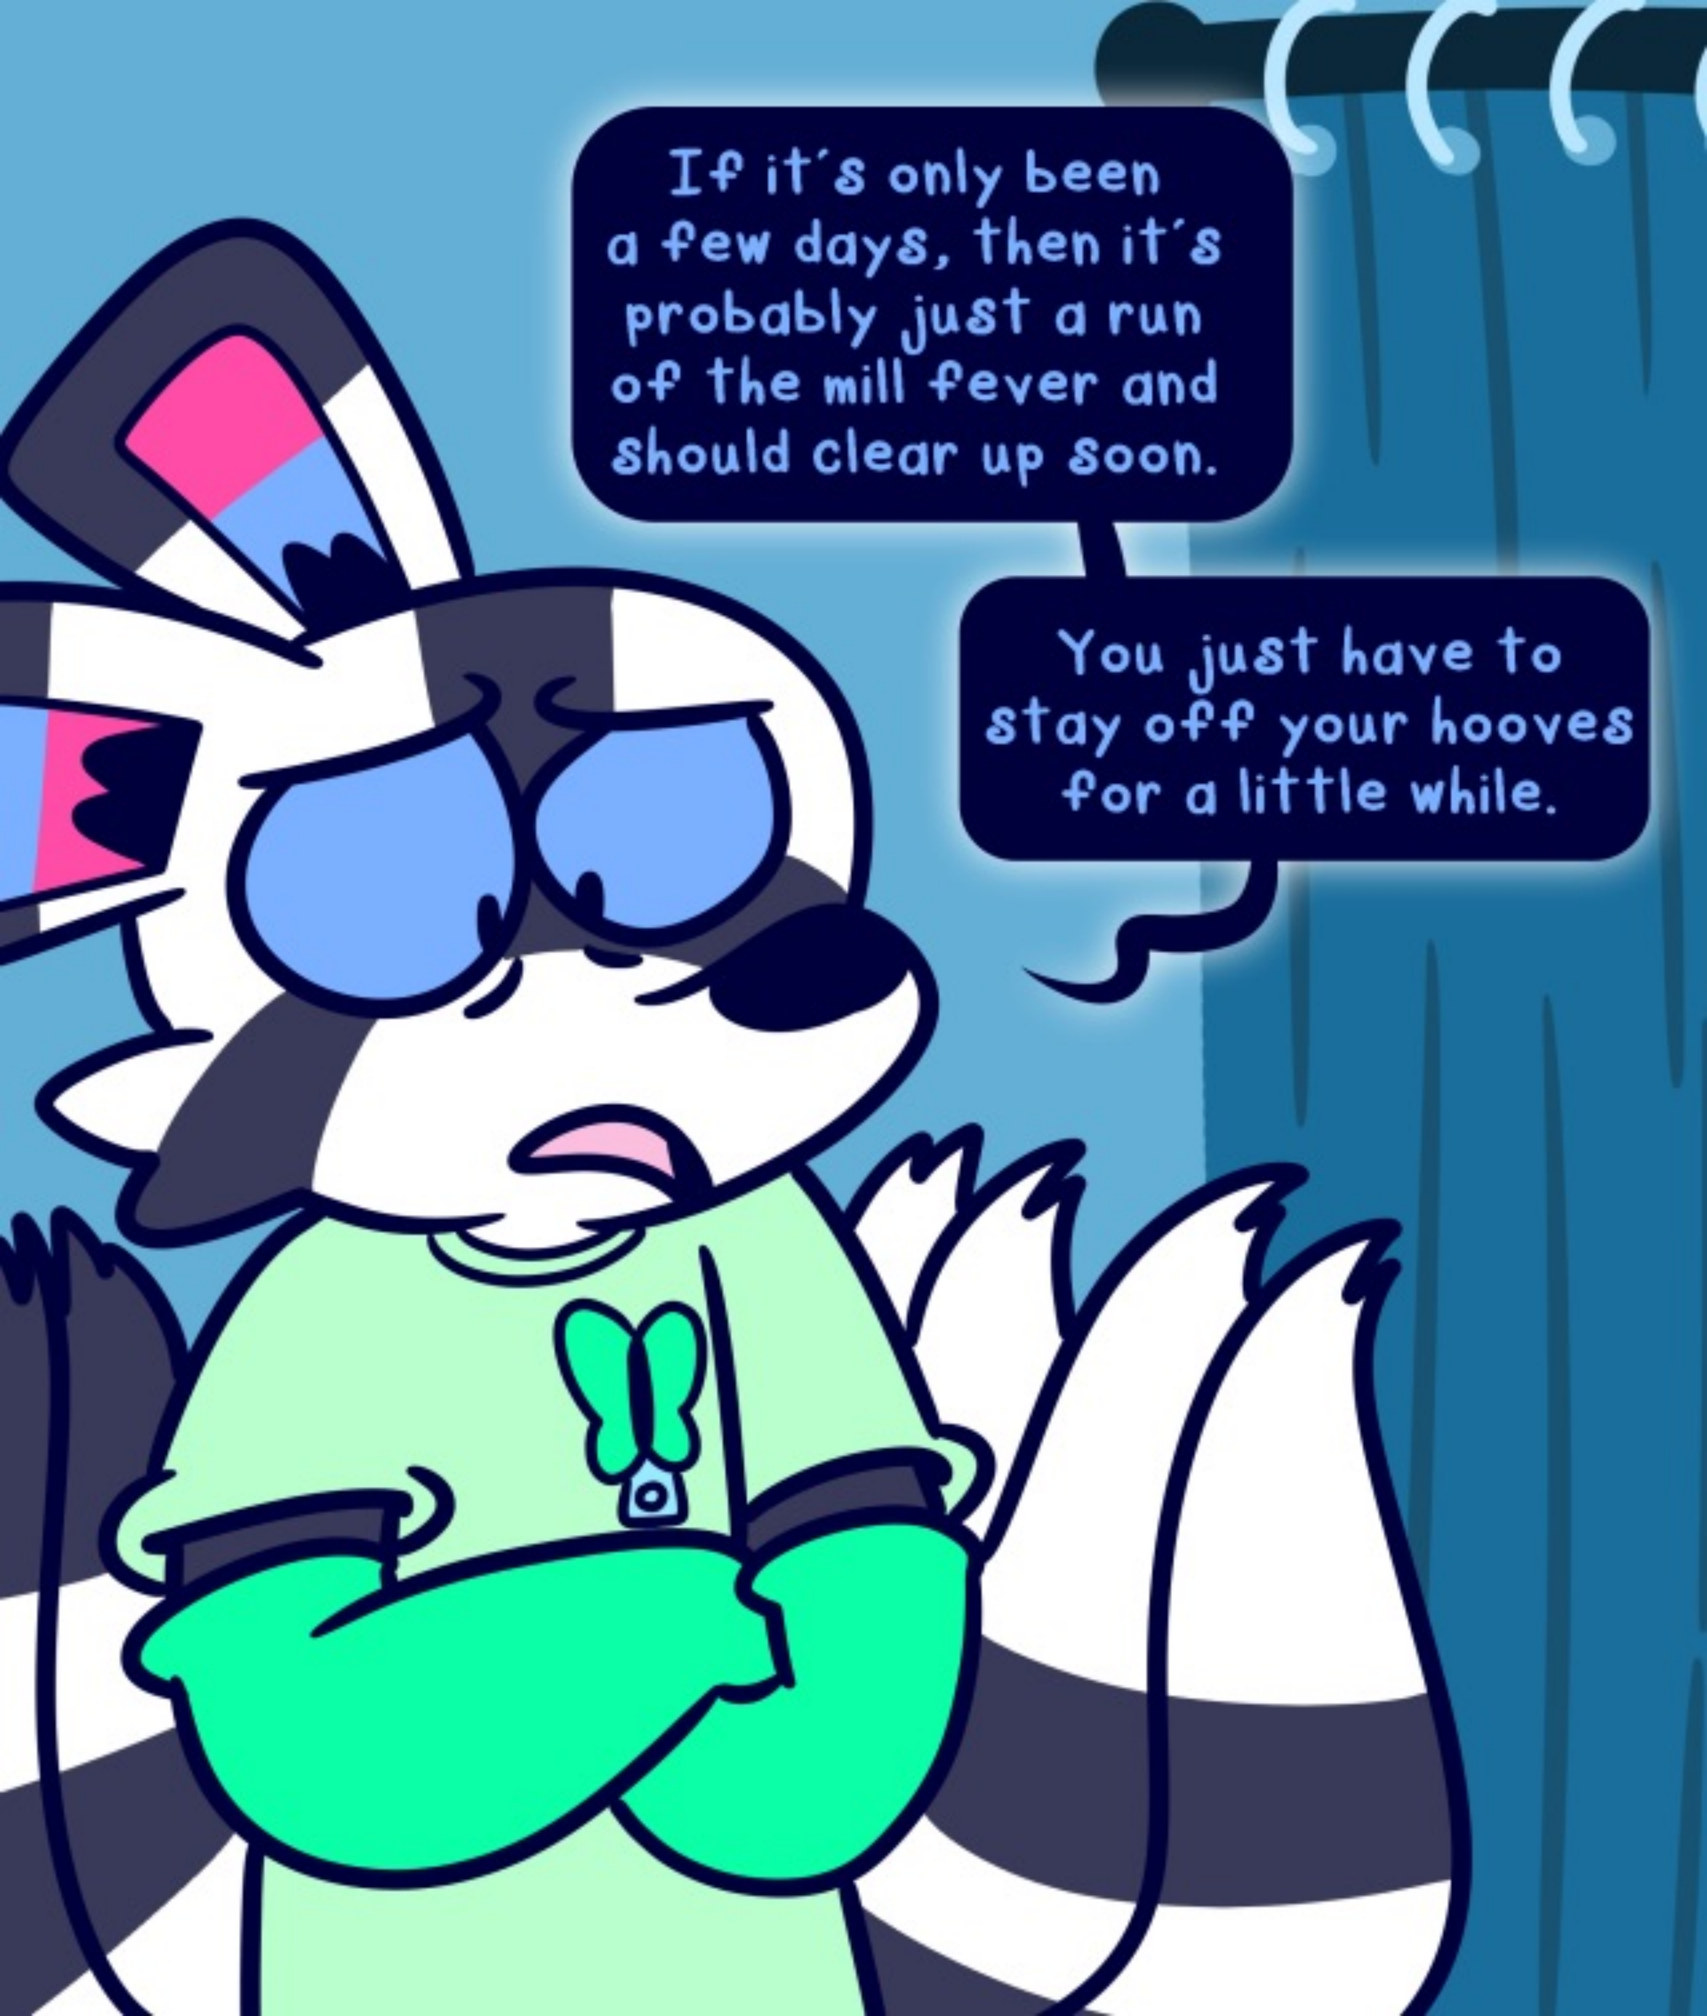
We have had a lot of people coming in with cases of weird dreams.
MARK



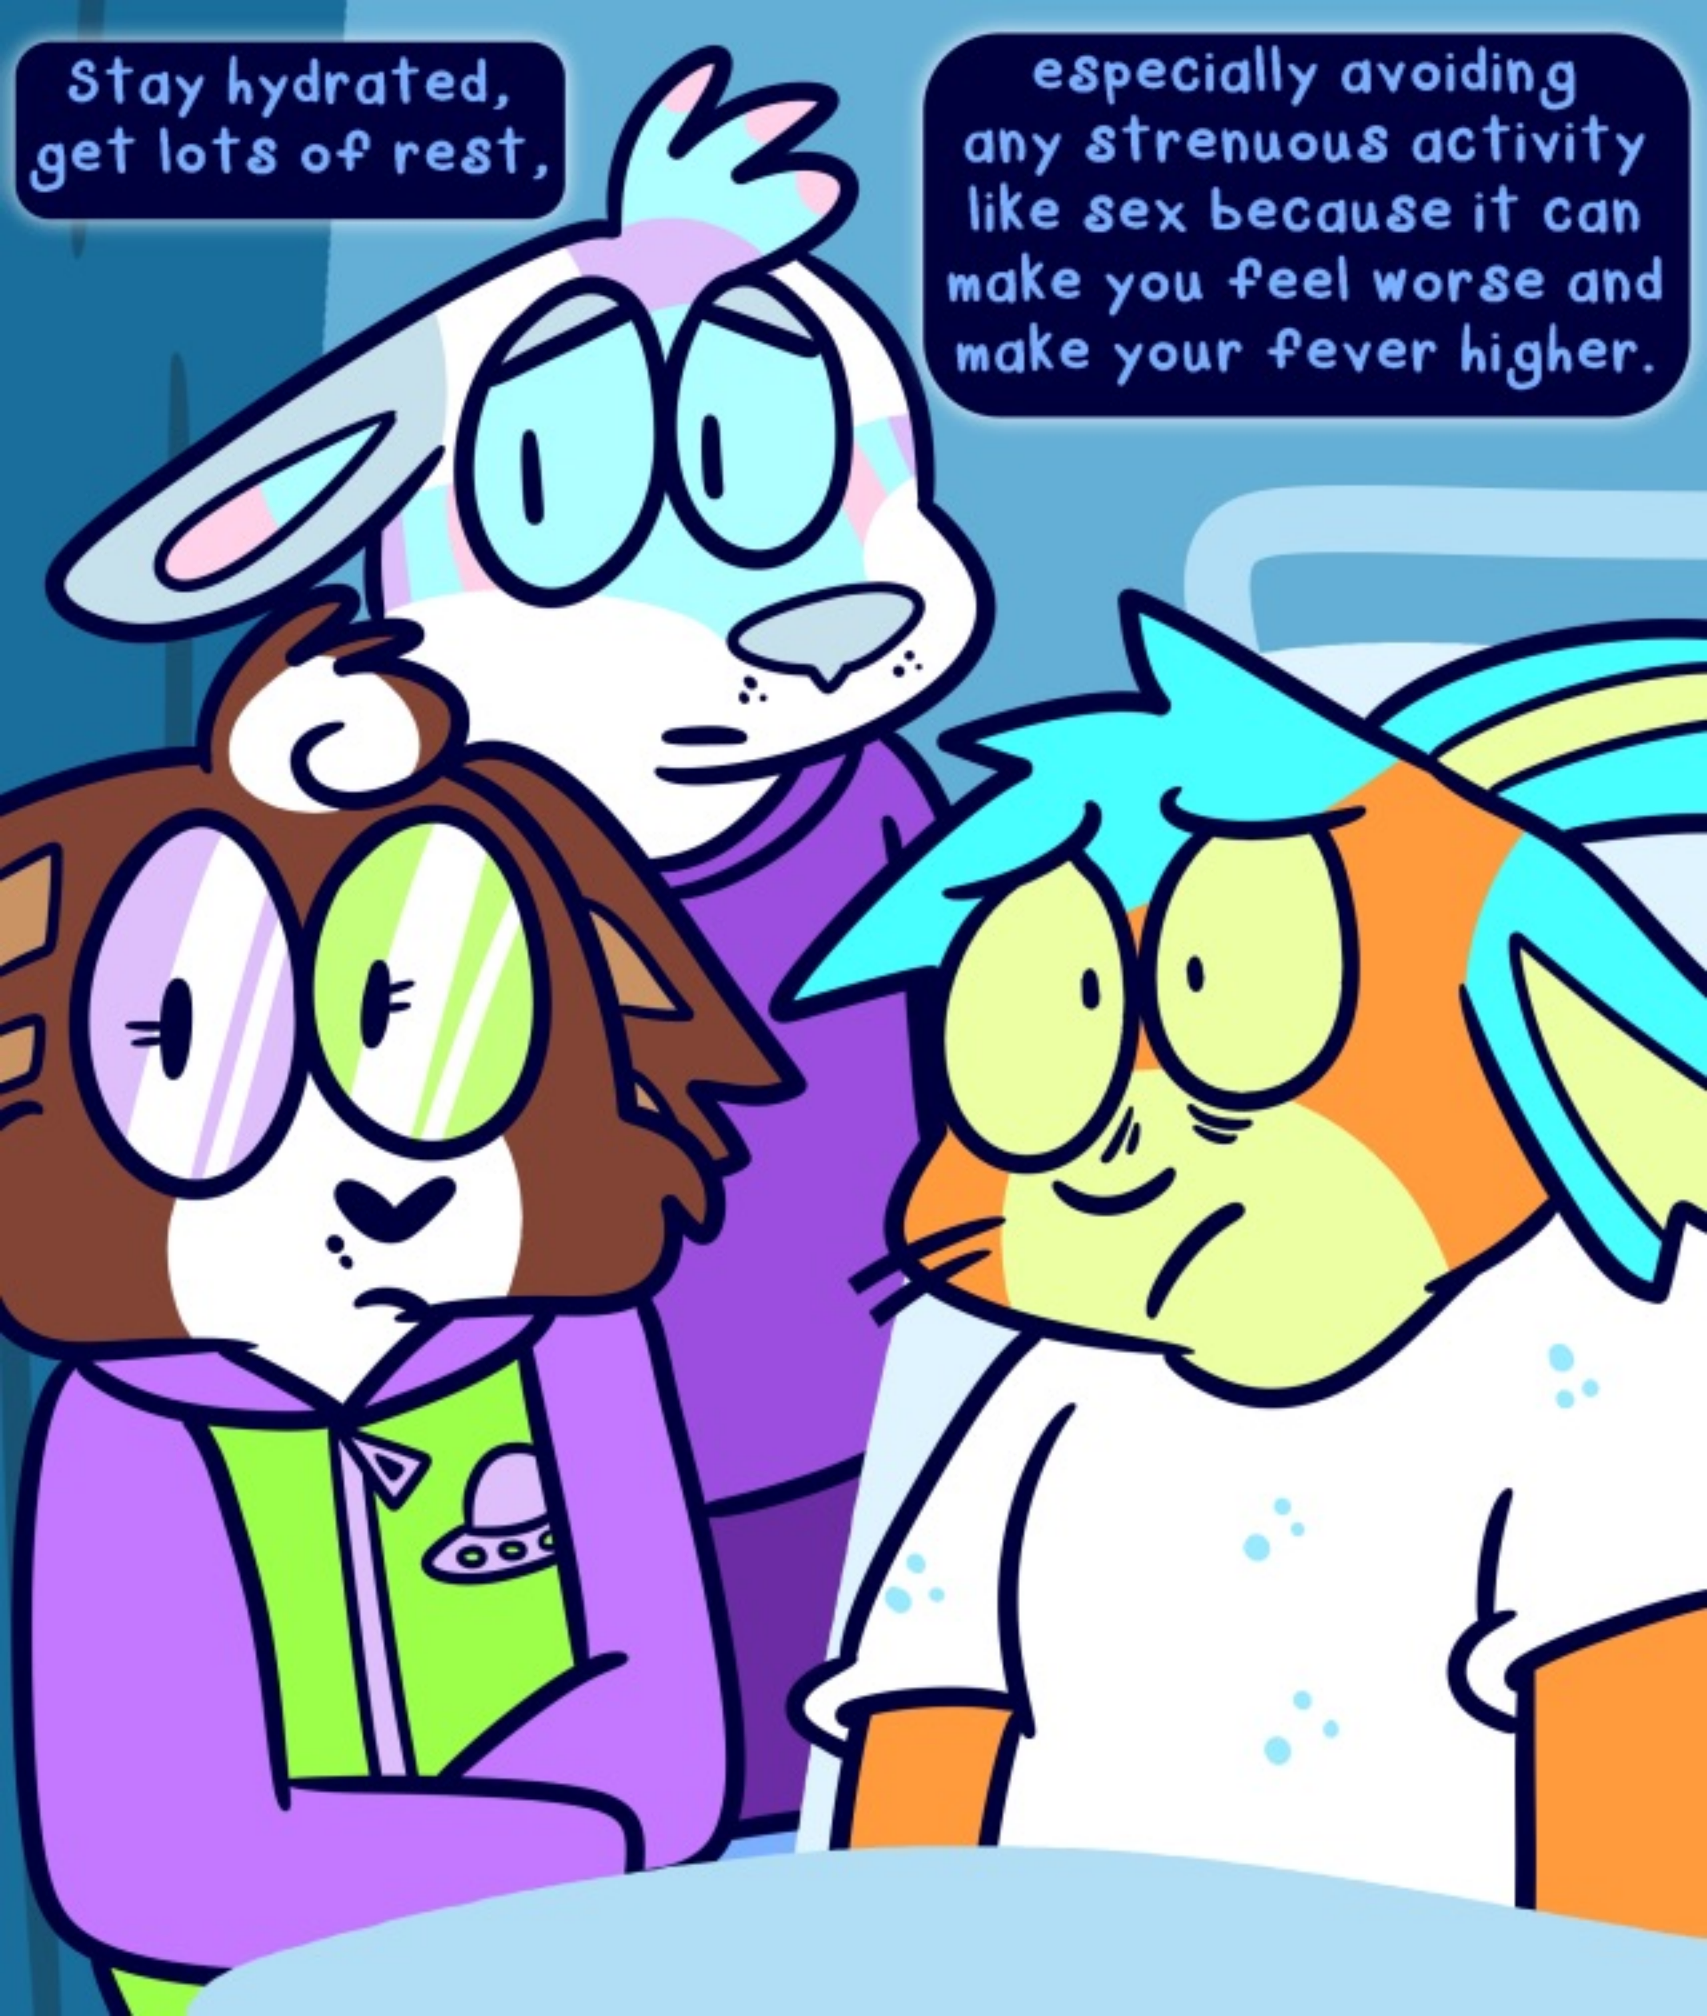
These dreams tend to focus on memories of experiences we've had, but details about the memories get mixed up and become disturbing.
If that's what you're experiencing, then you're probably a victim of it too.



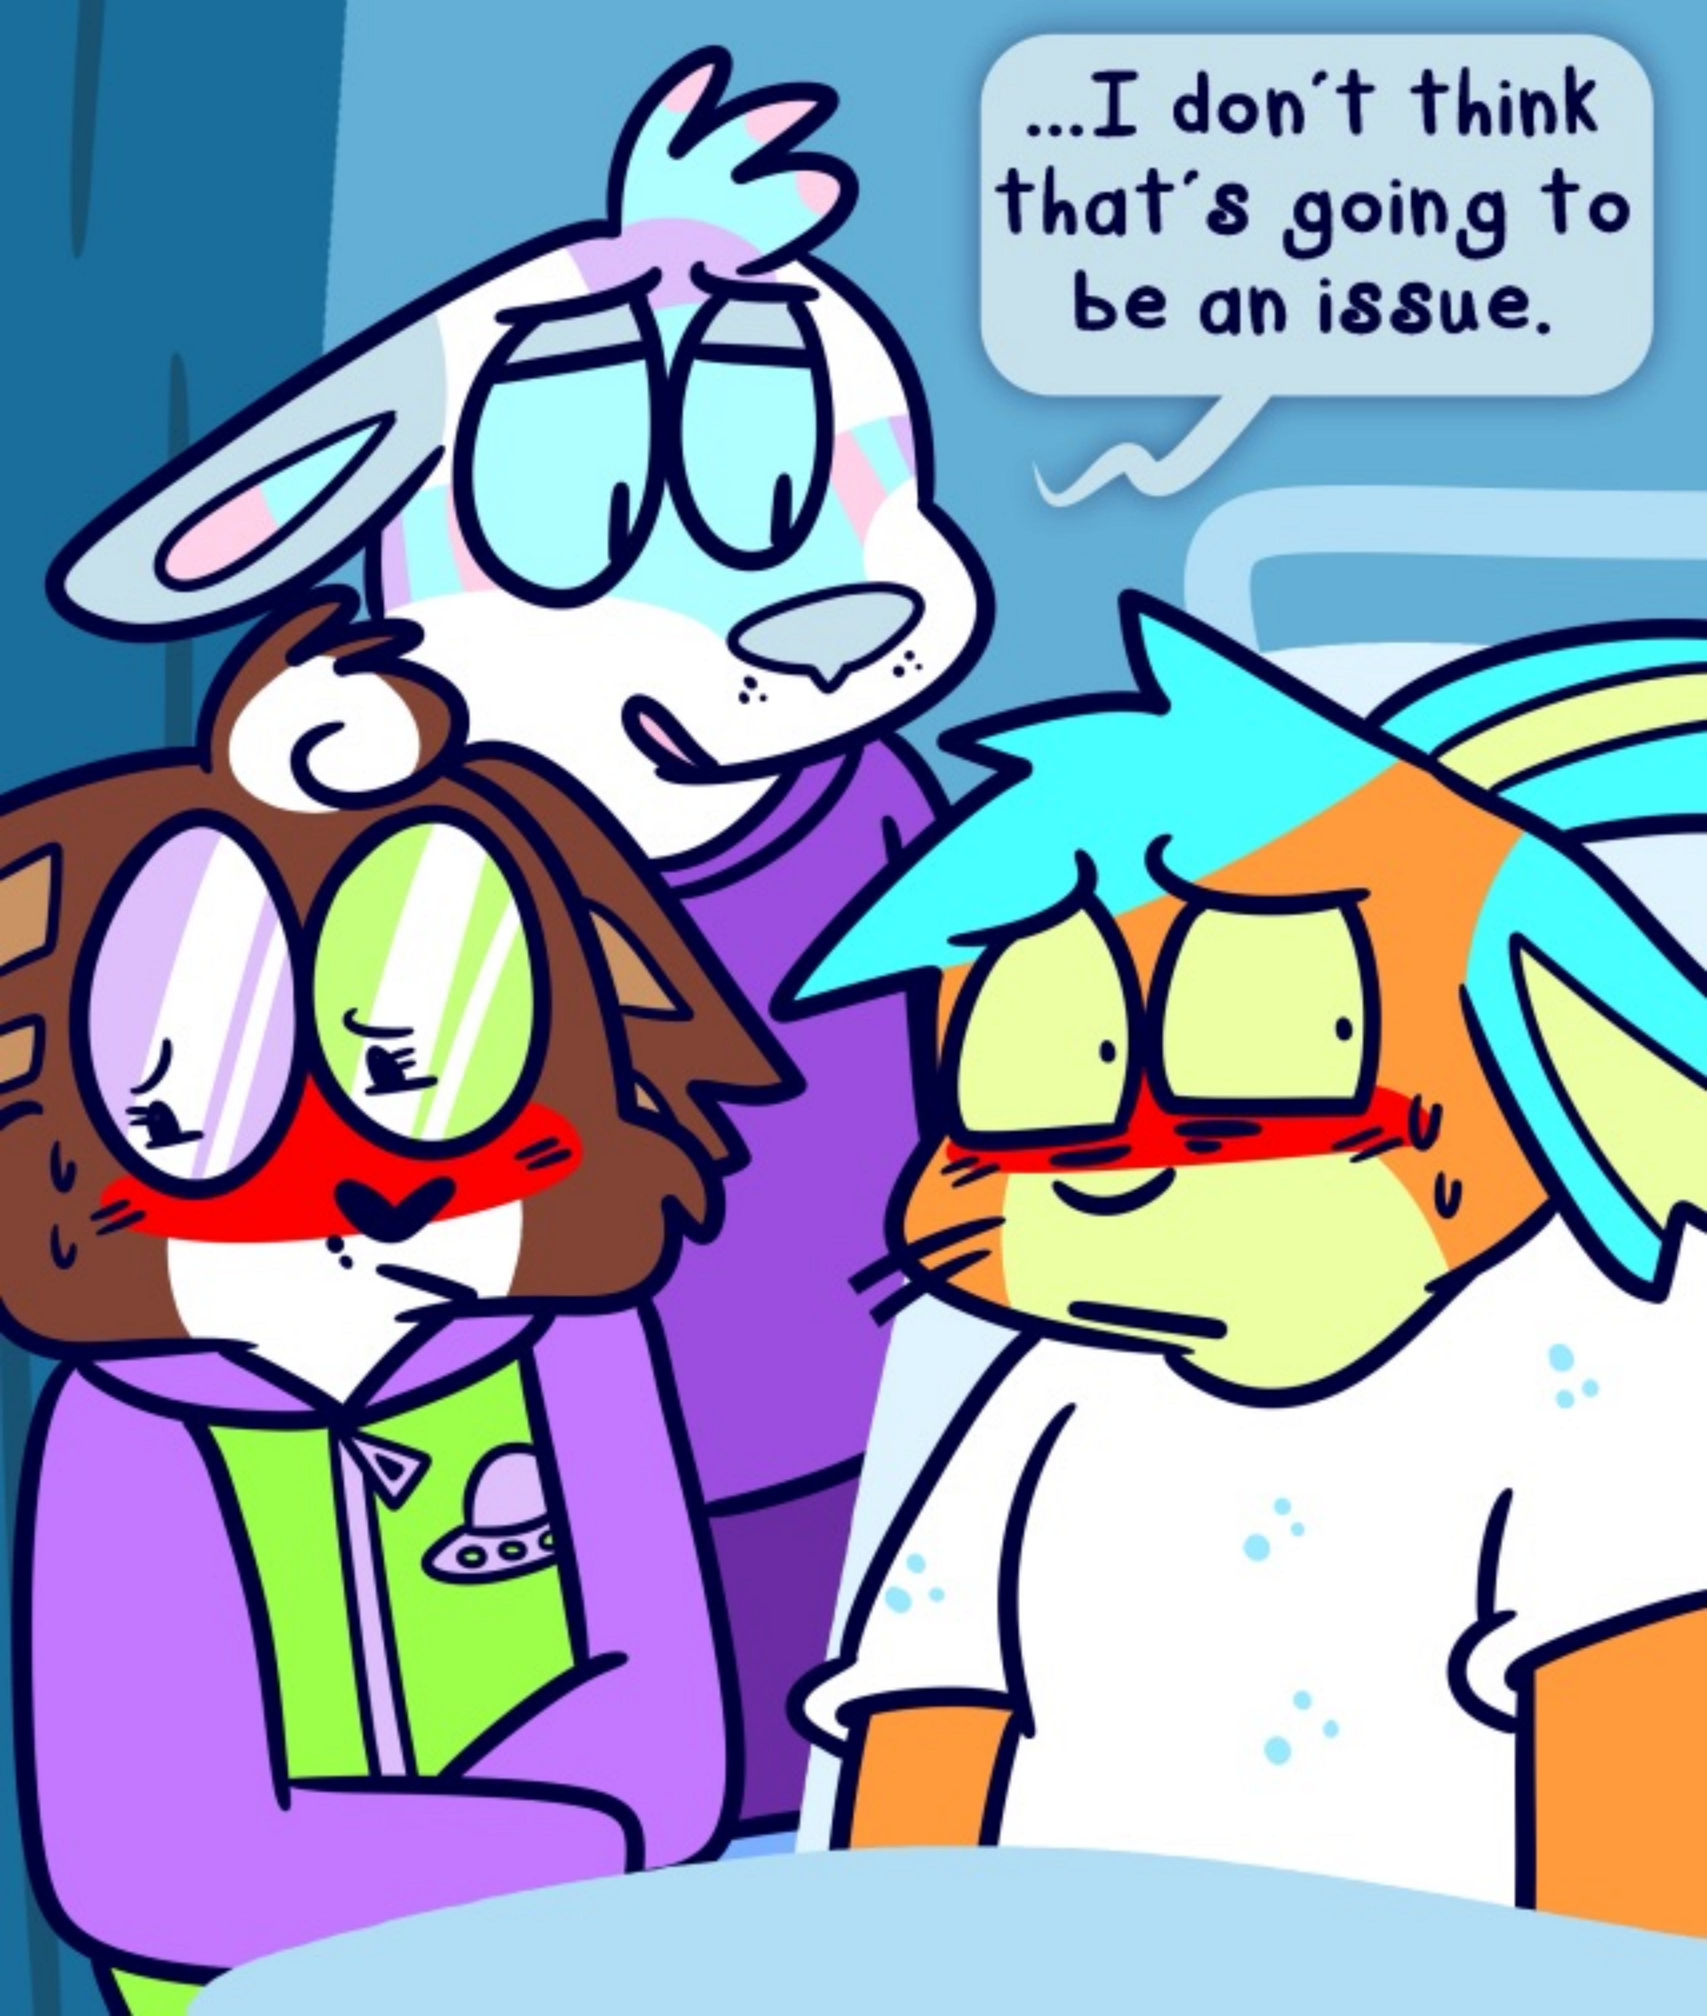
...t-then it can't be that. I'm dreamin' about weird shit that never happened to me.
Then they might just be regular fever dreams...?



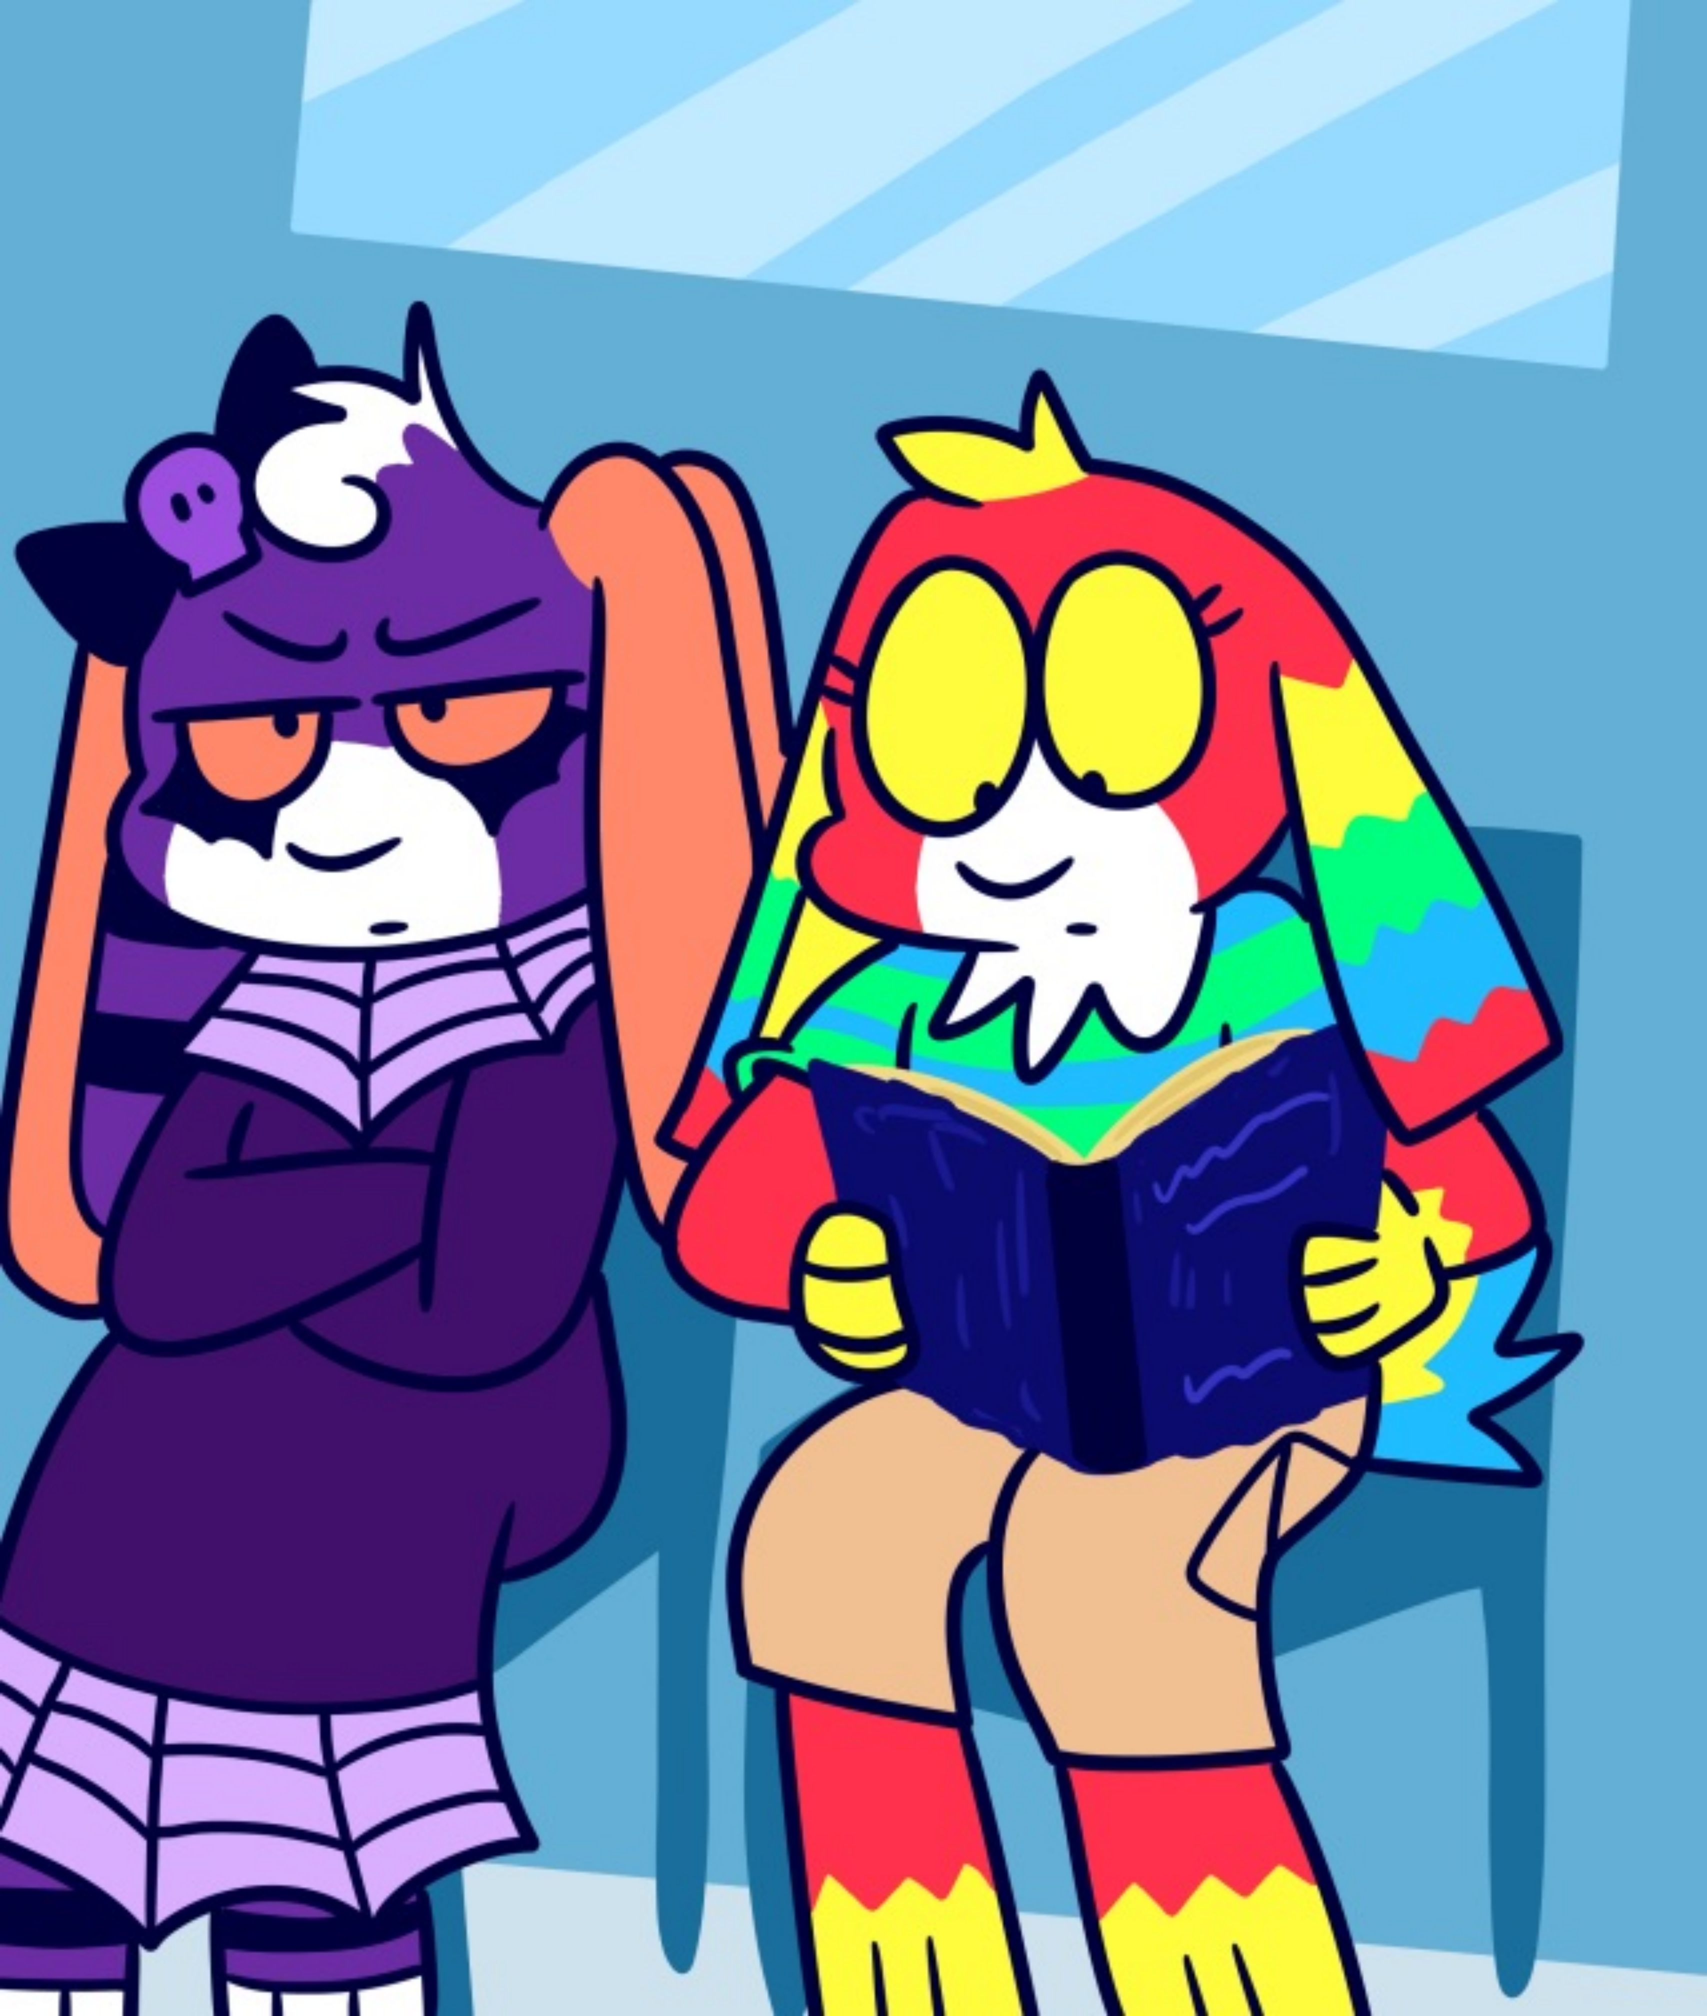
If it´s only been a few days, then it´s probably just a run of the mill fever and should clear up soon.
You just have to stay off your hooves for a little while.

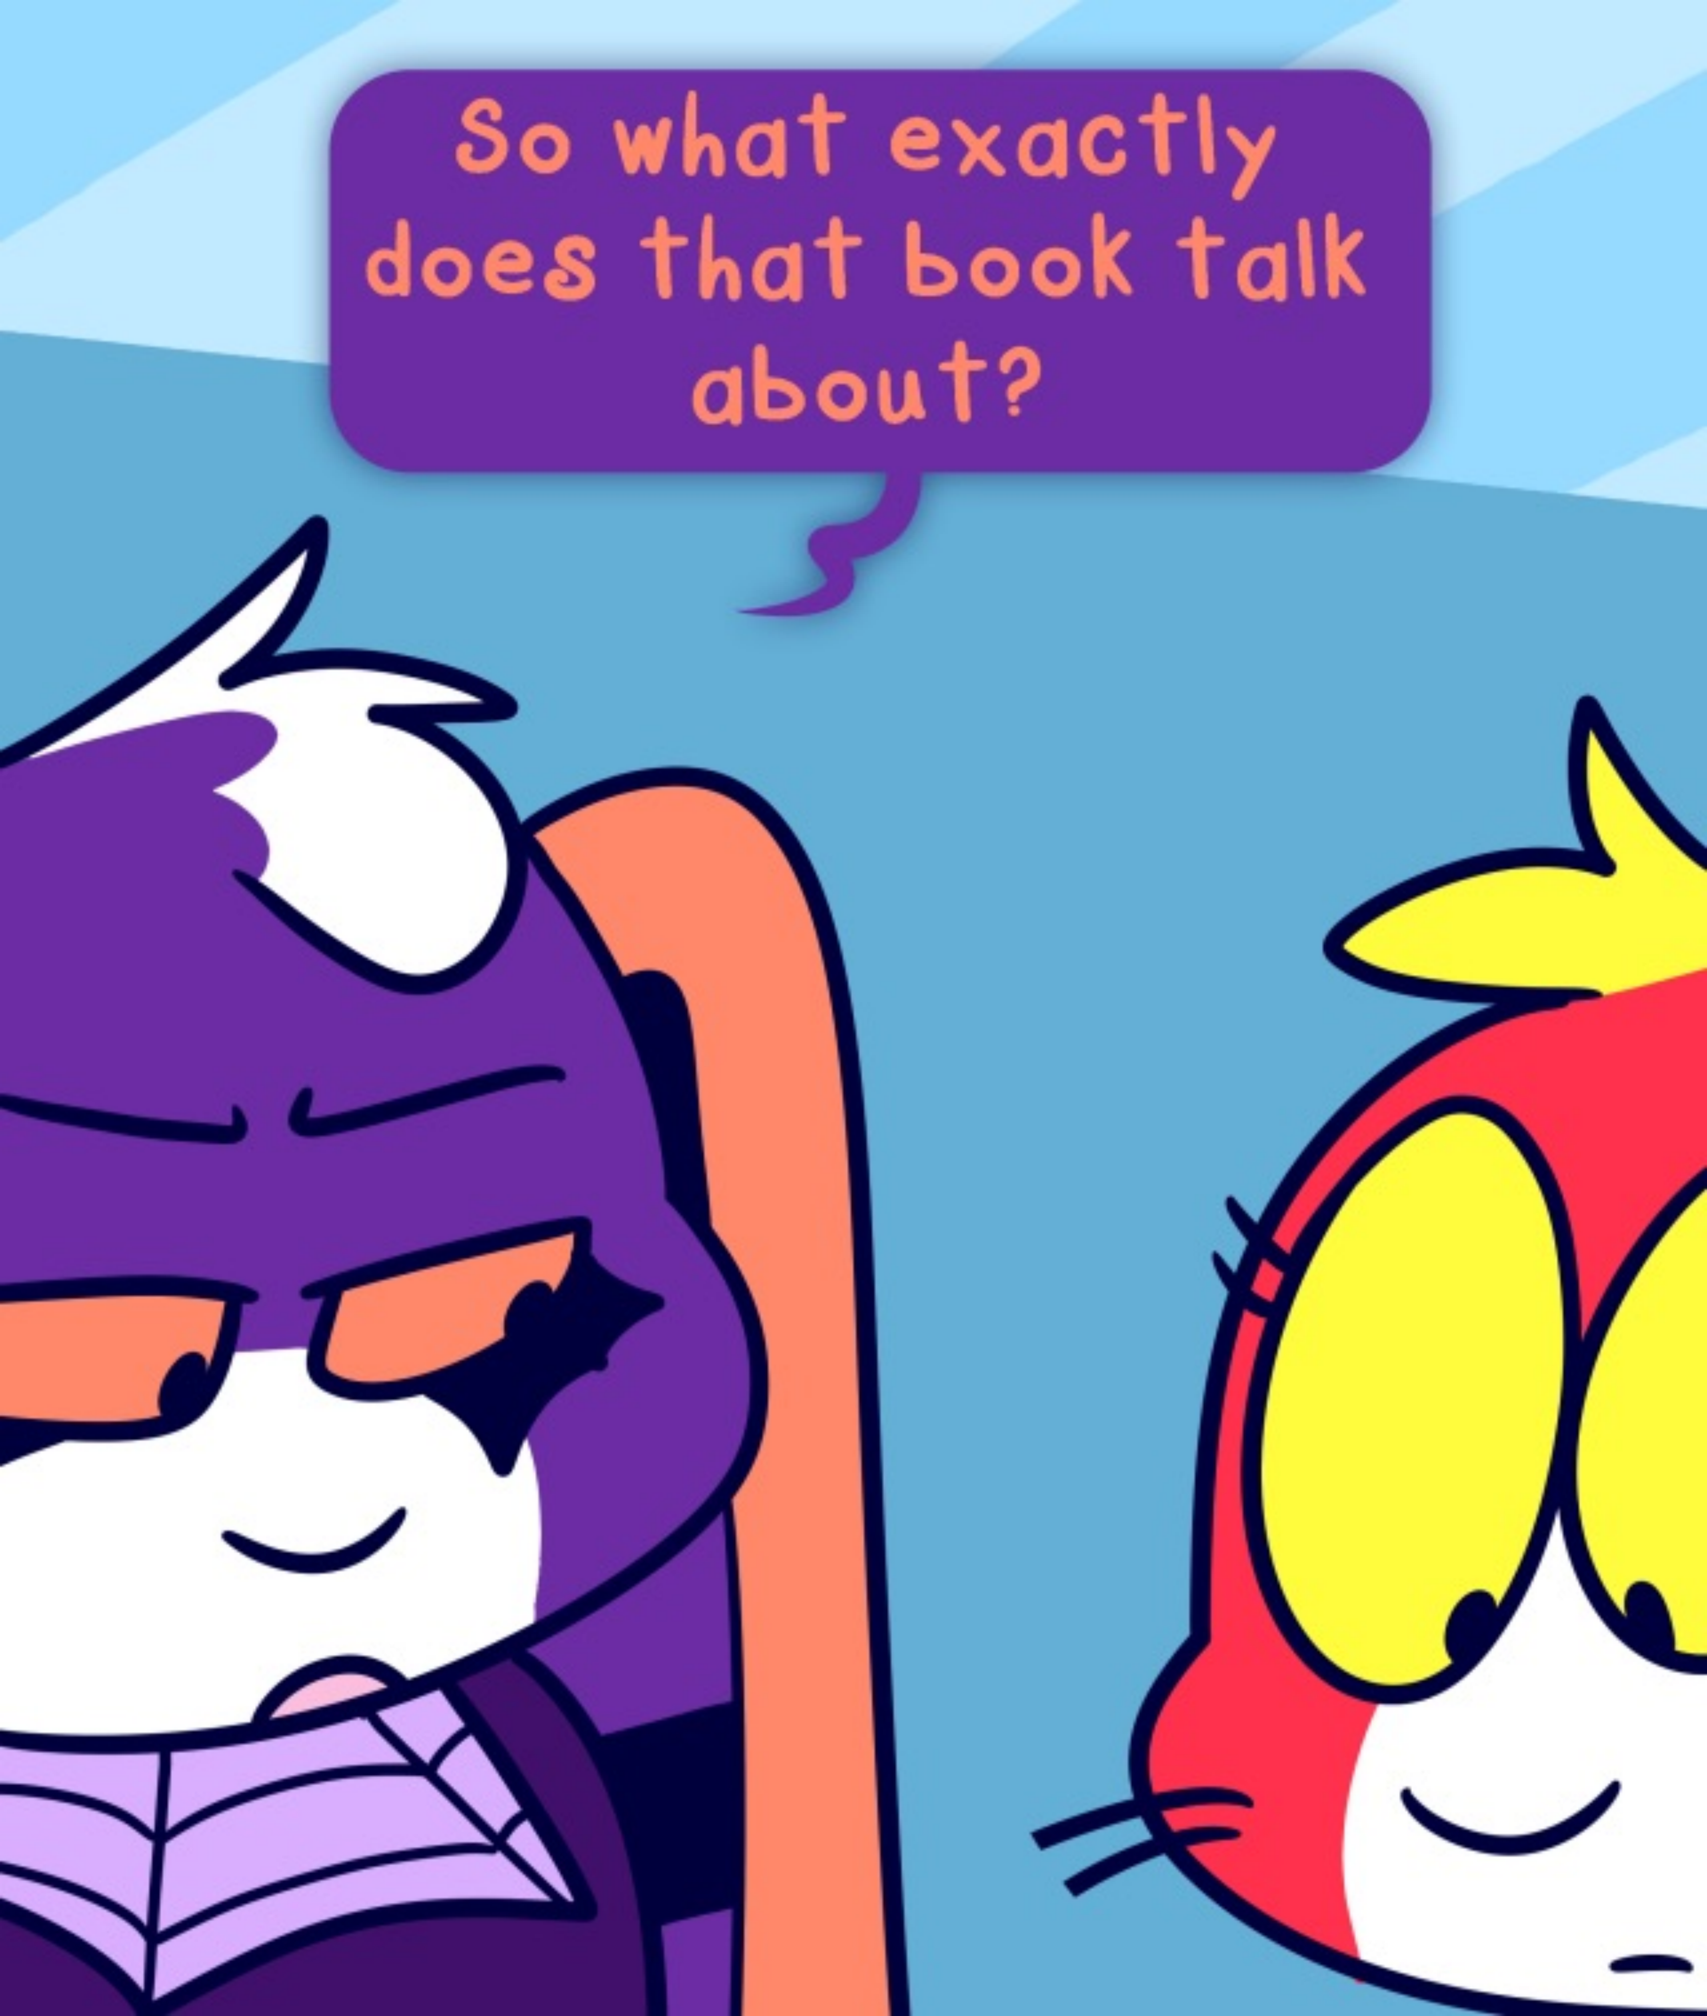


Stay hydrated, get lots of rest,
especially avoiding any strenuous activity like sex because it can make you feel worse and make your fever higher.

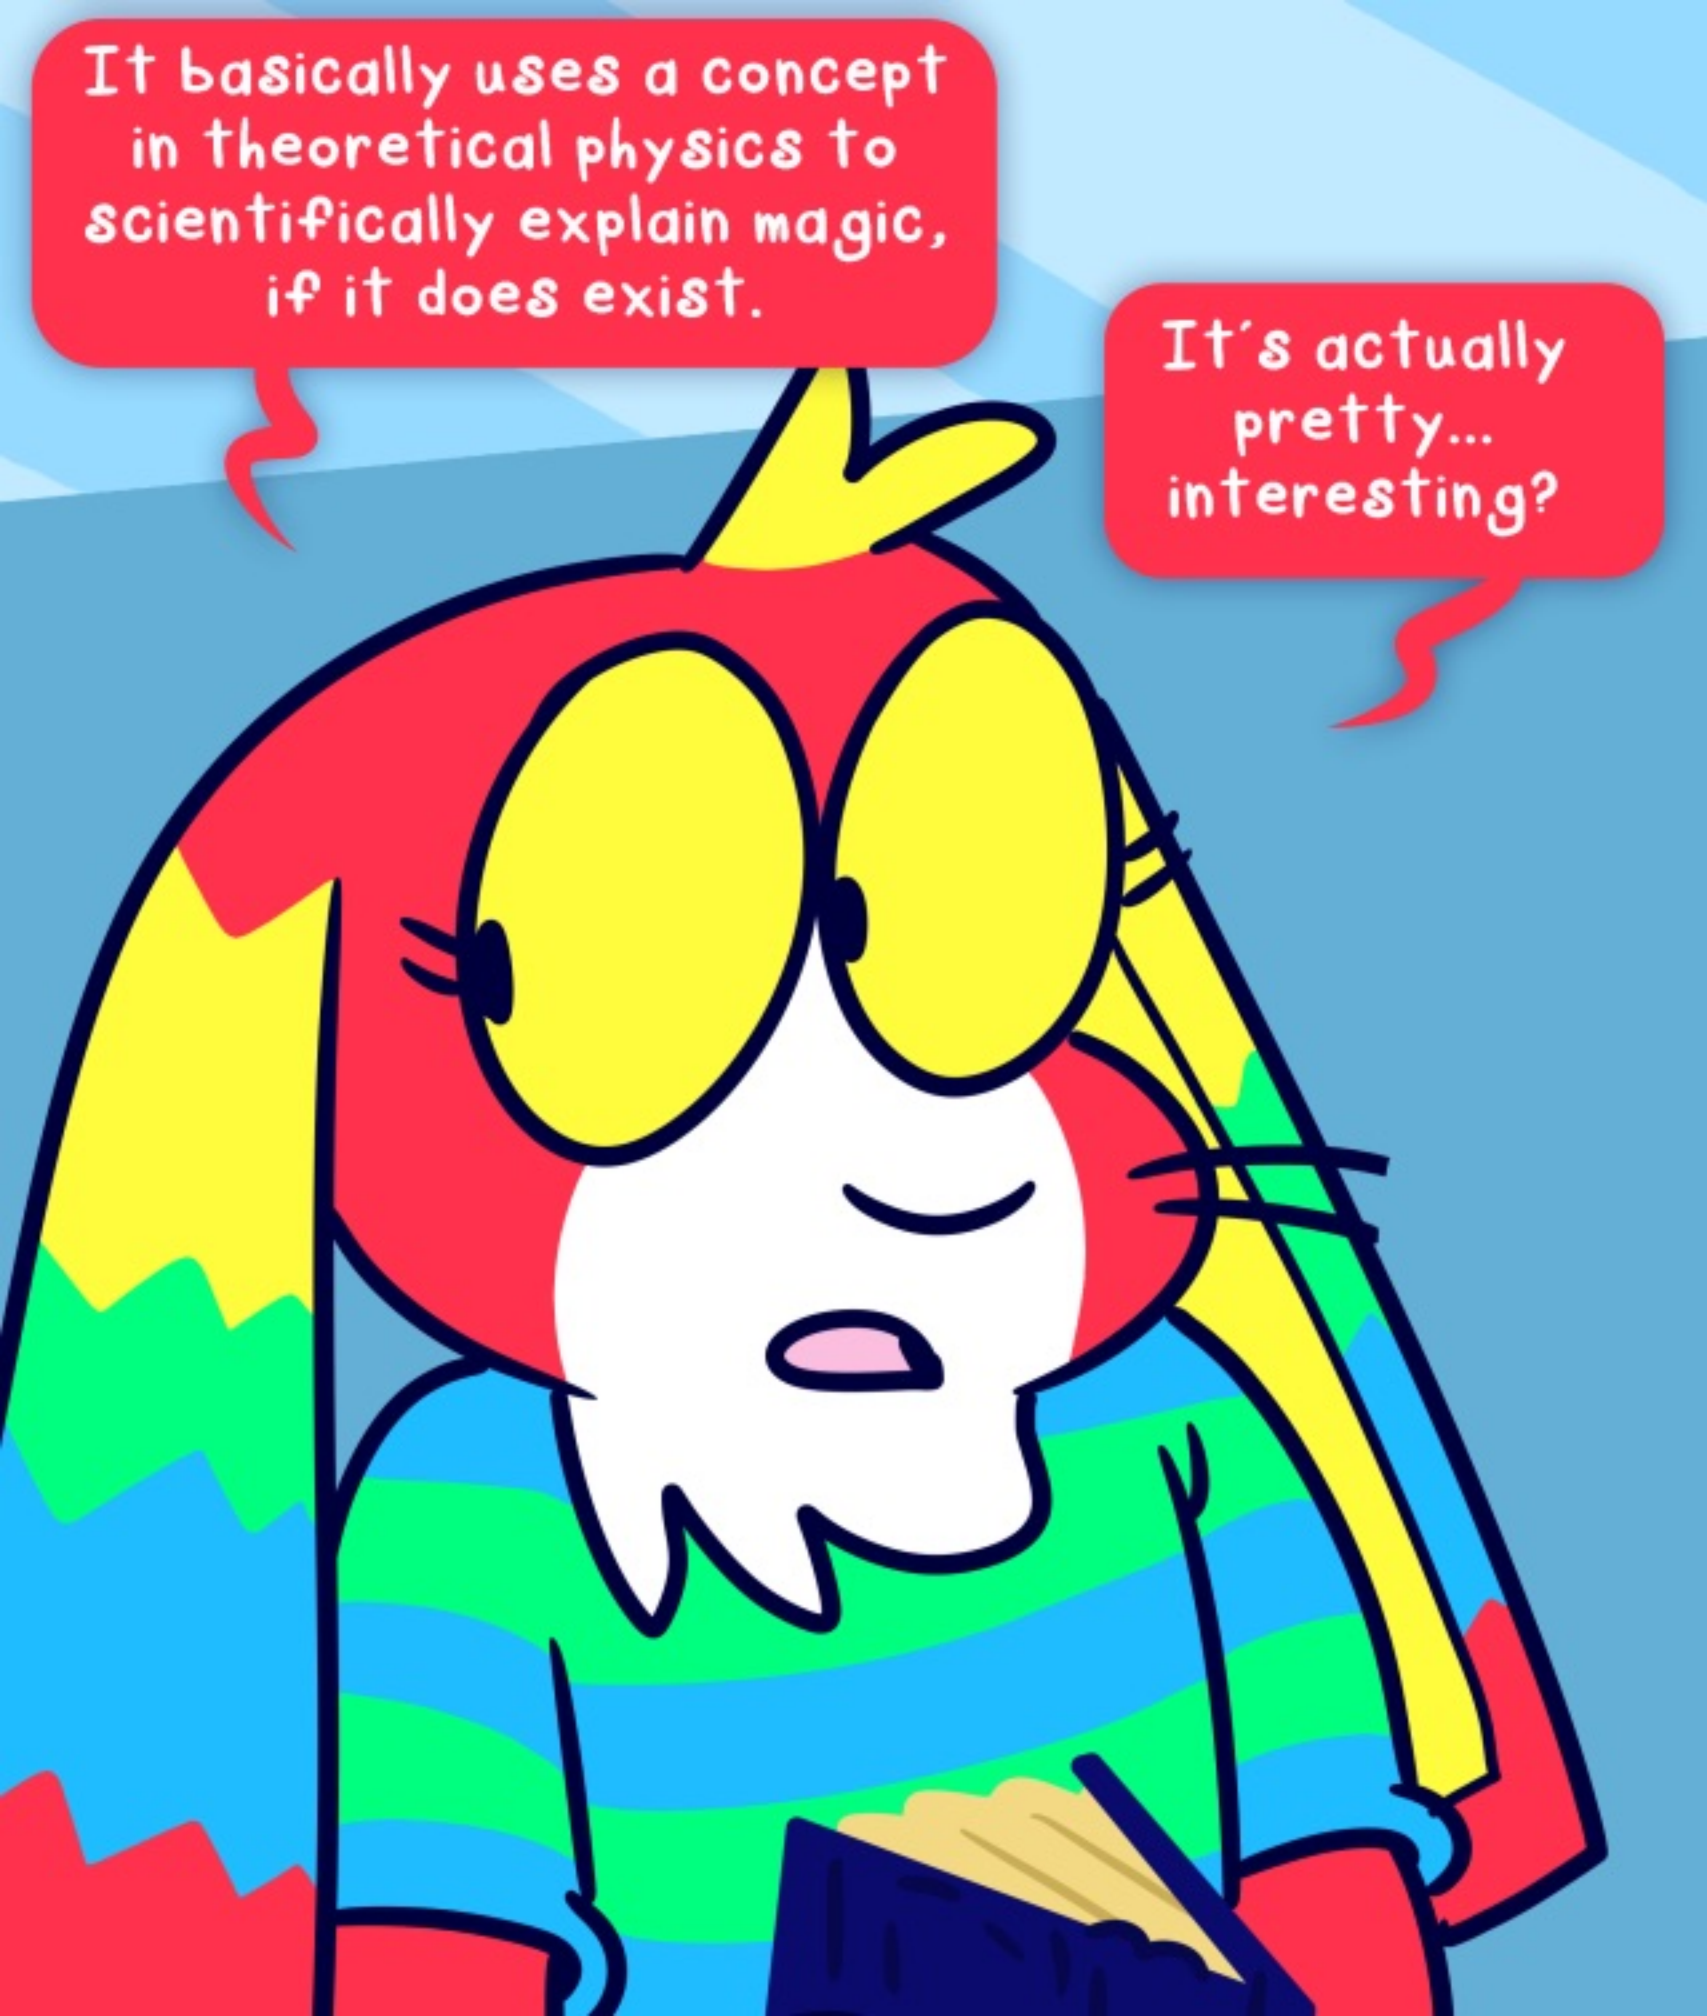


...I don't think that's going to be an issue.

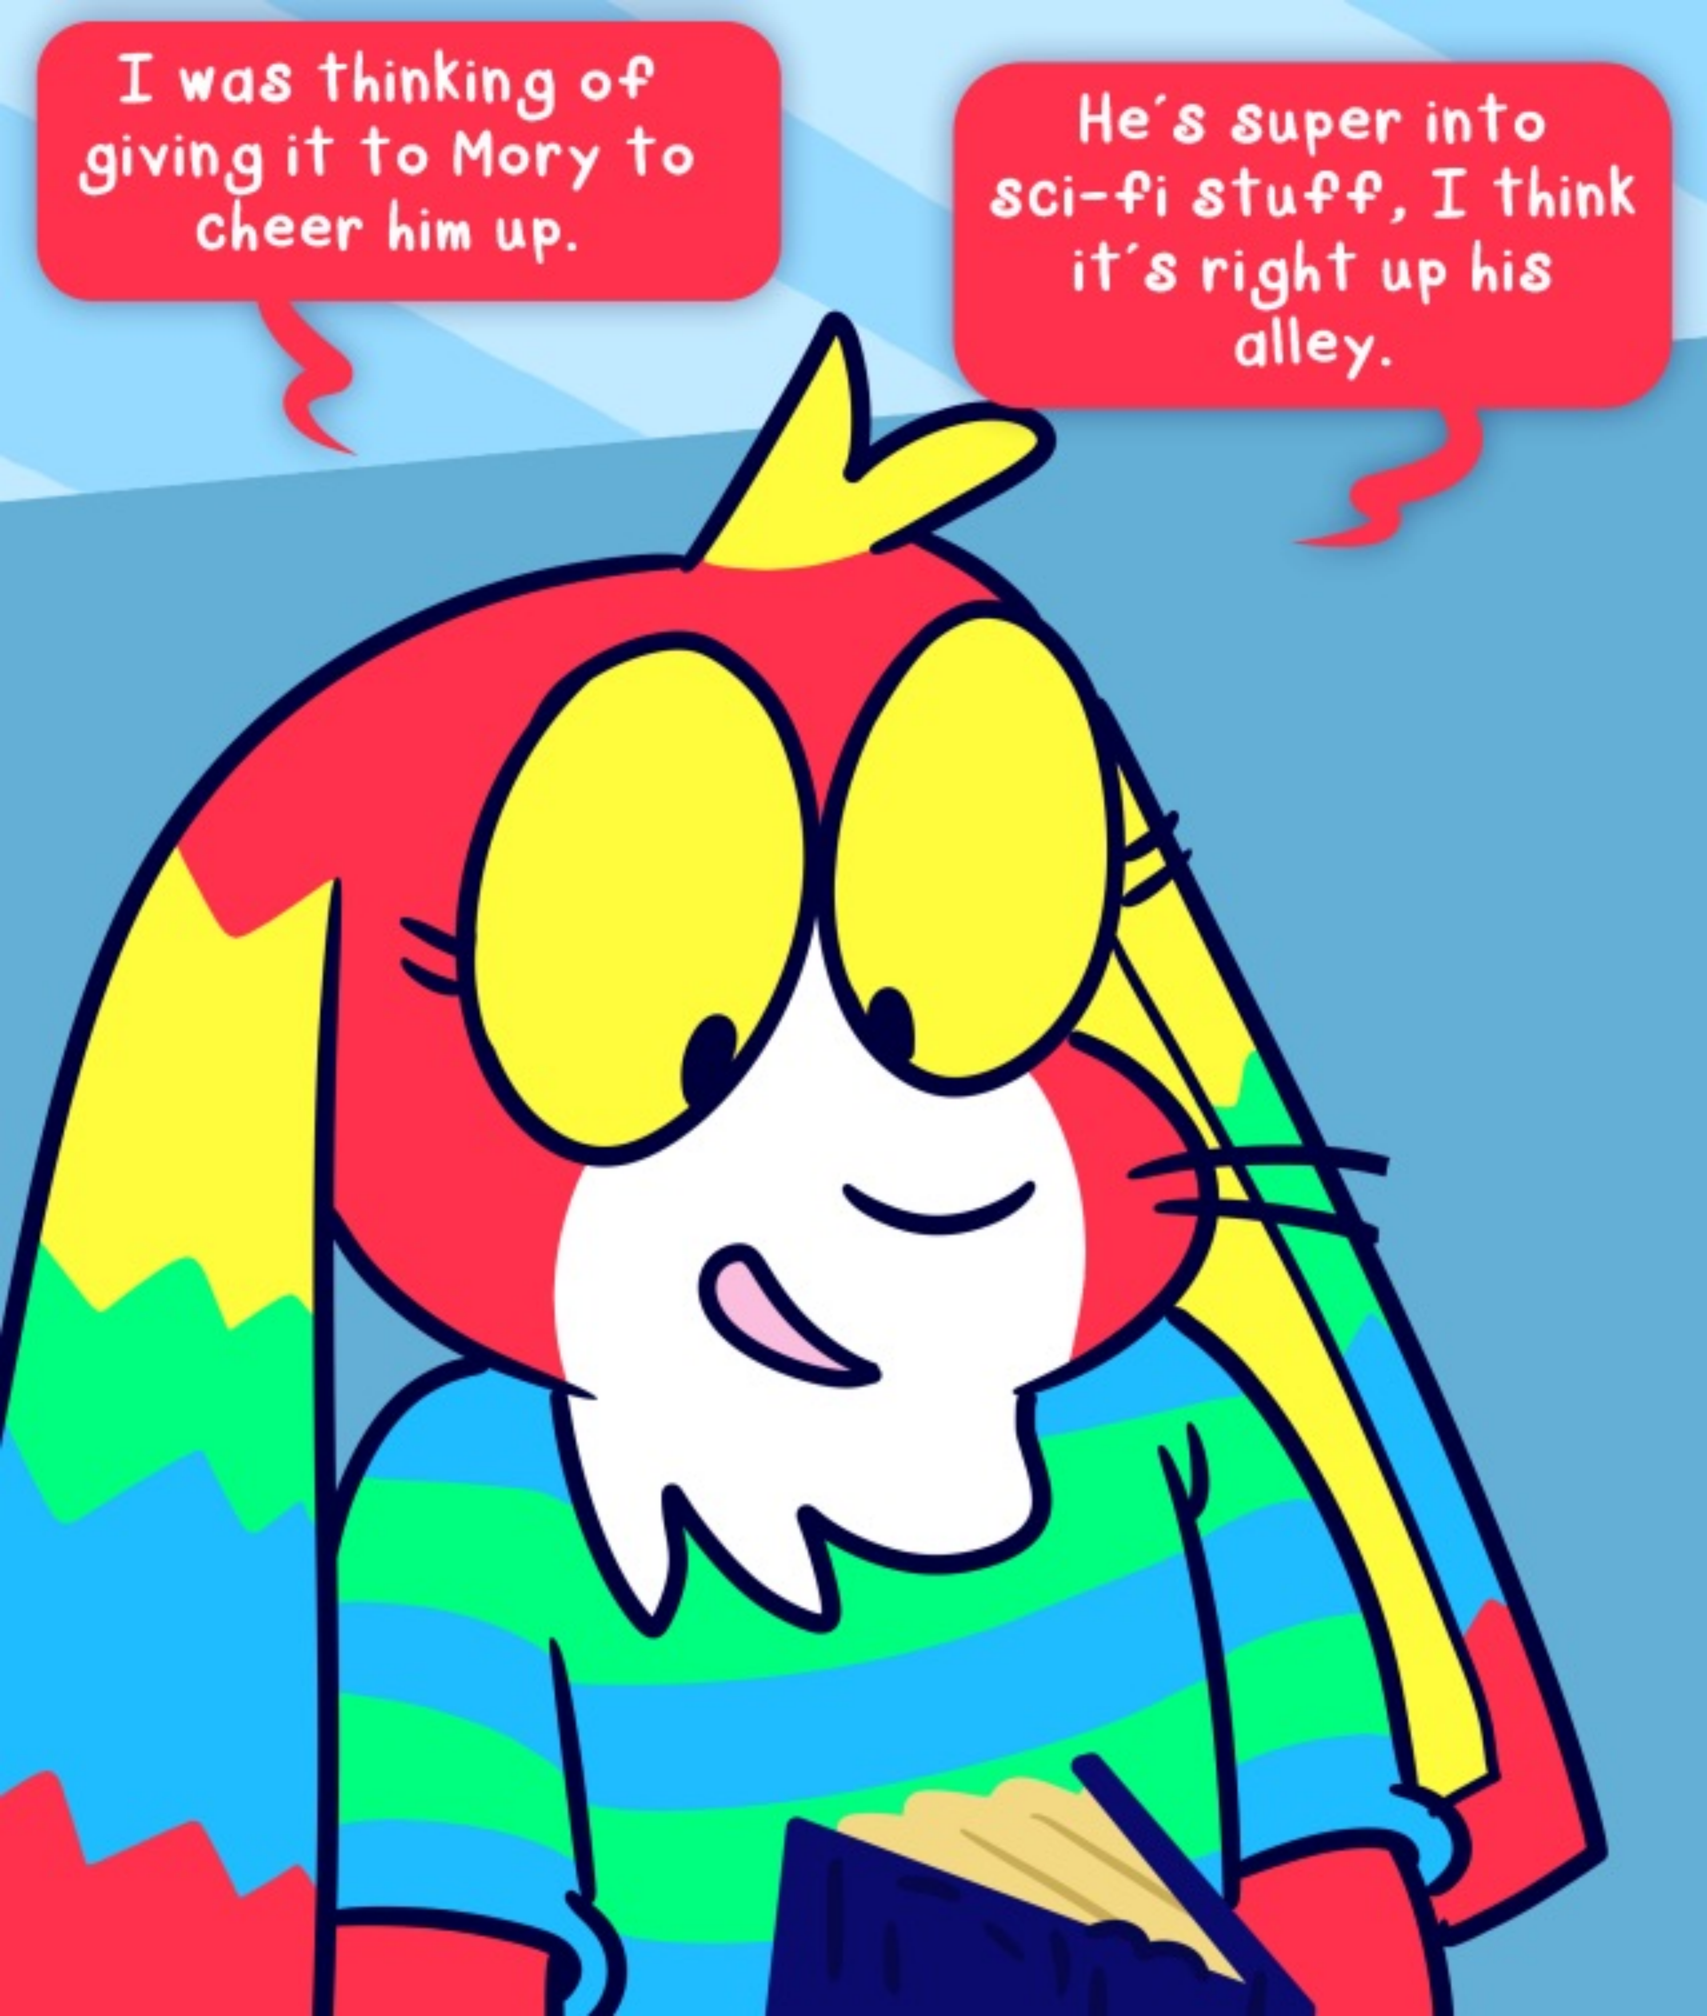




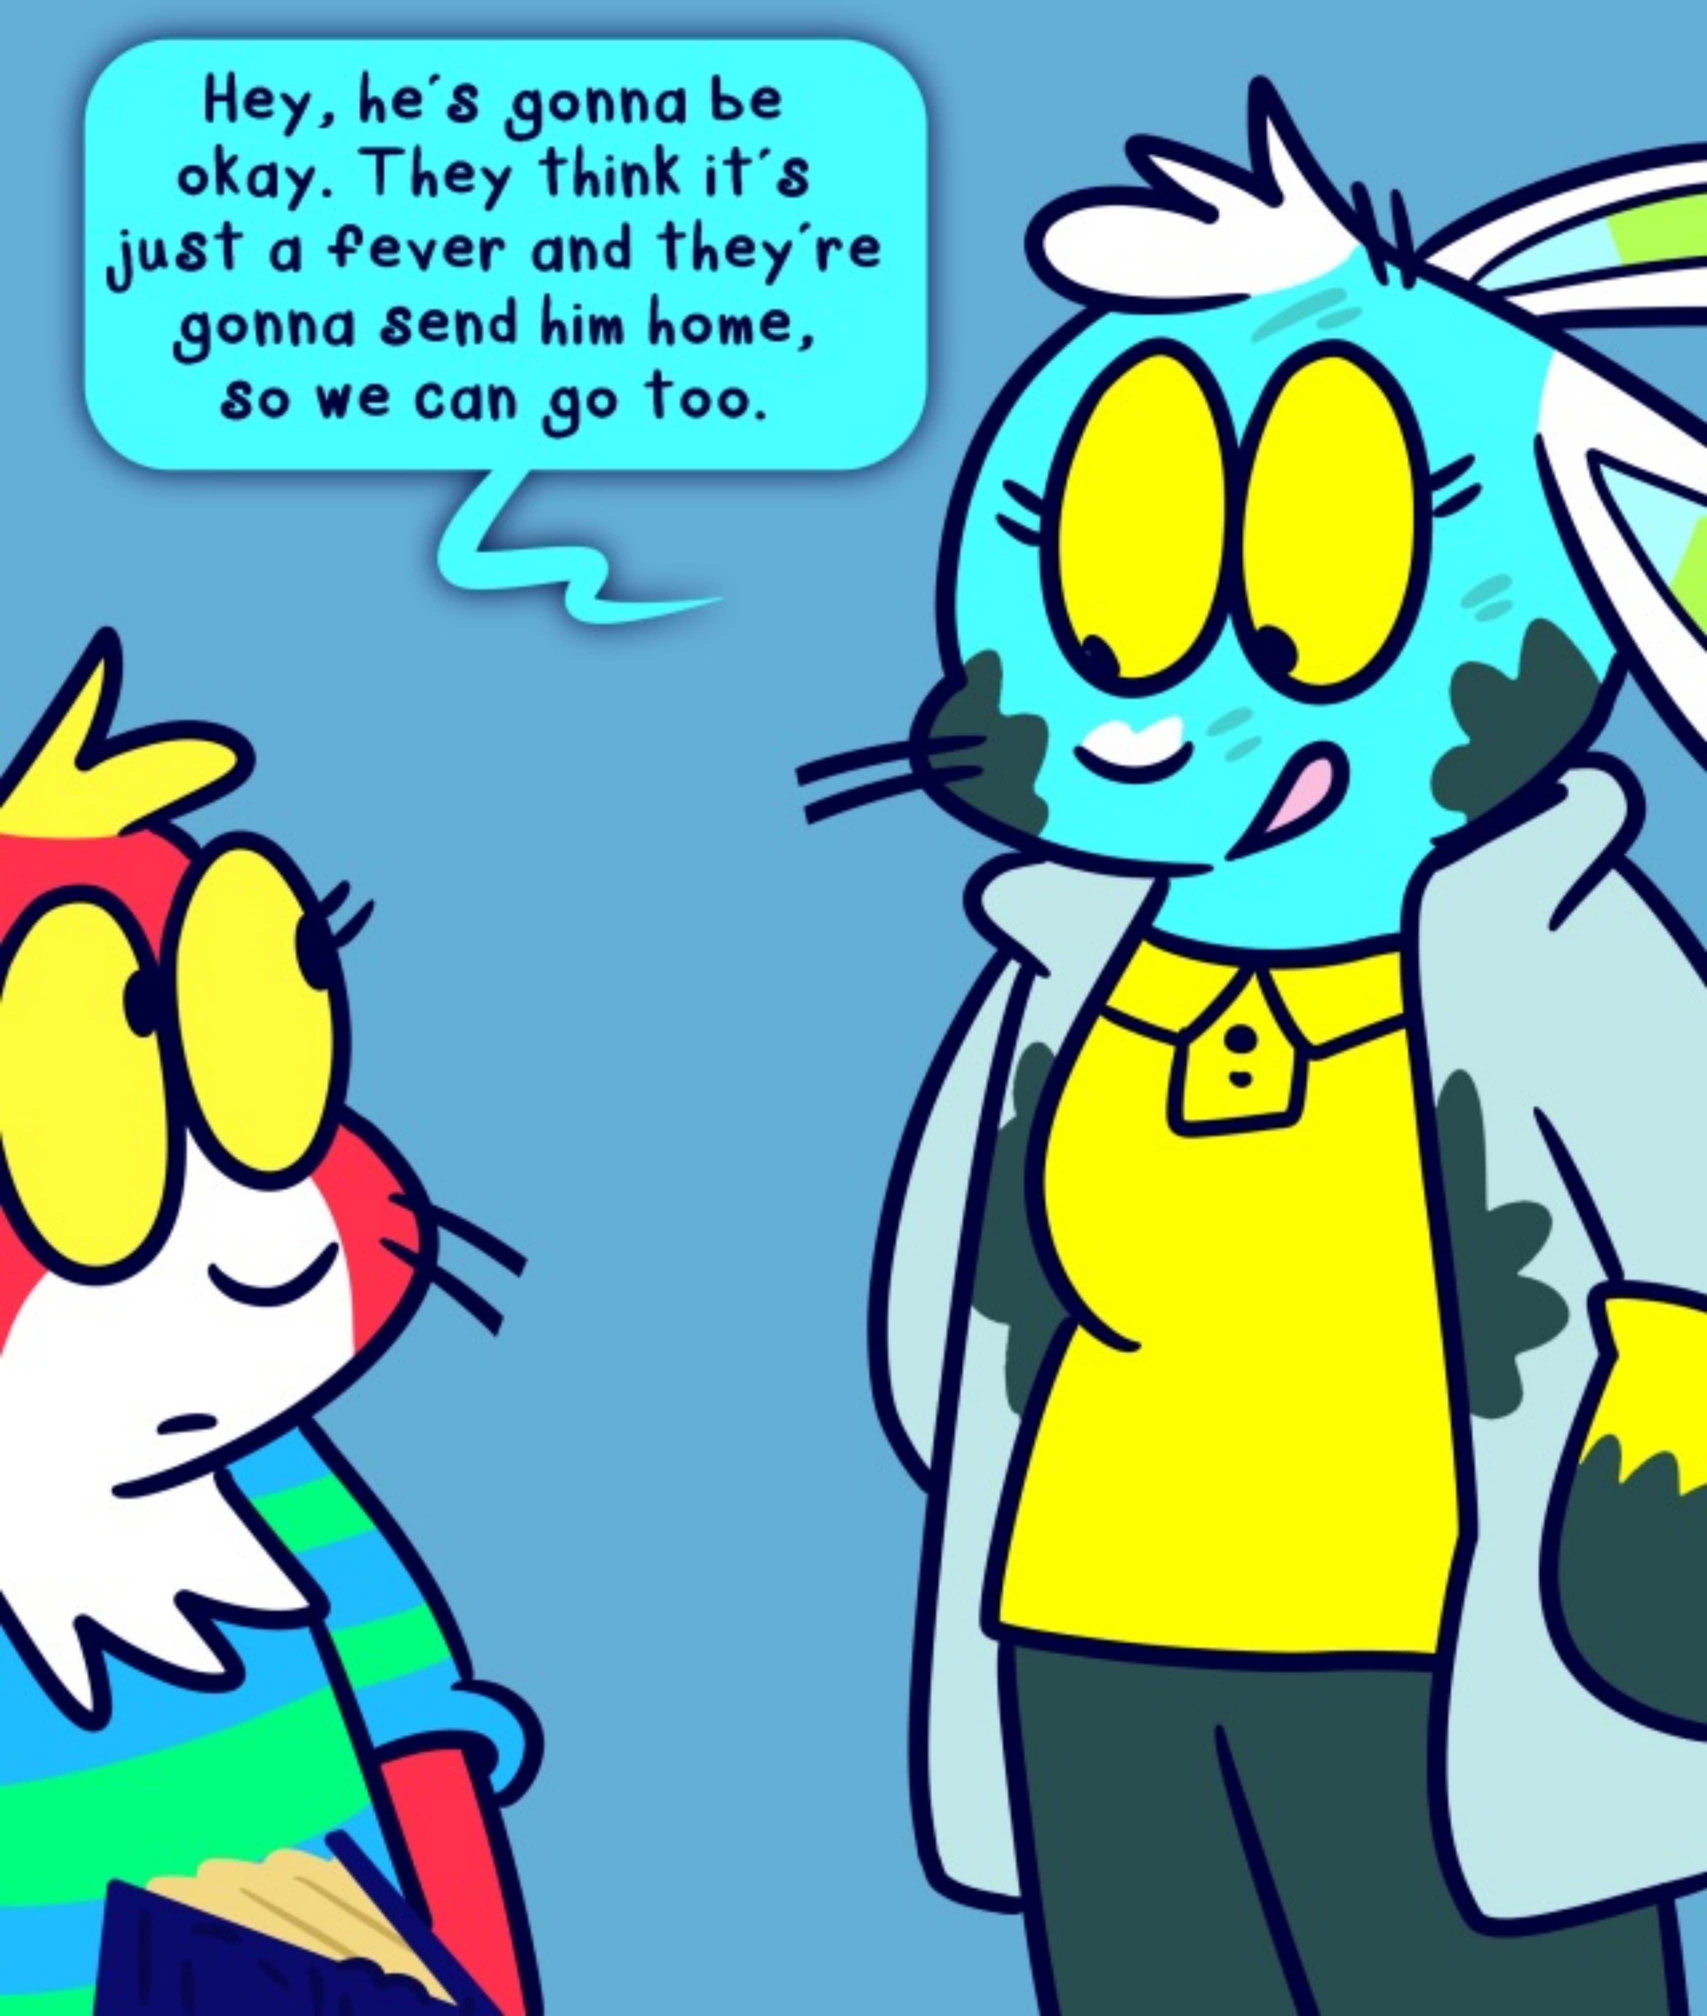
So what exactly does that book talk about?



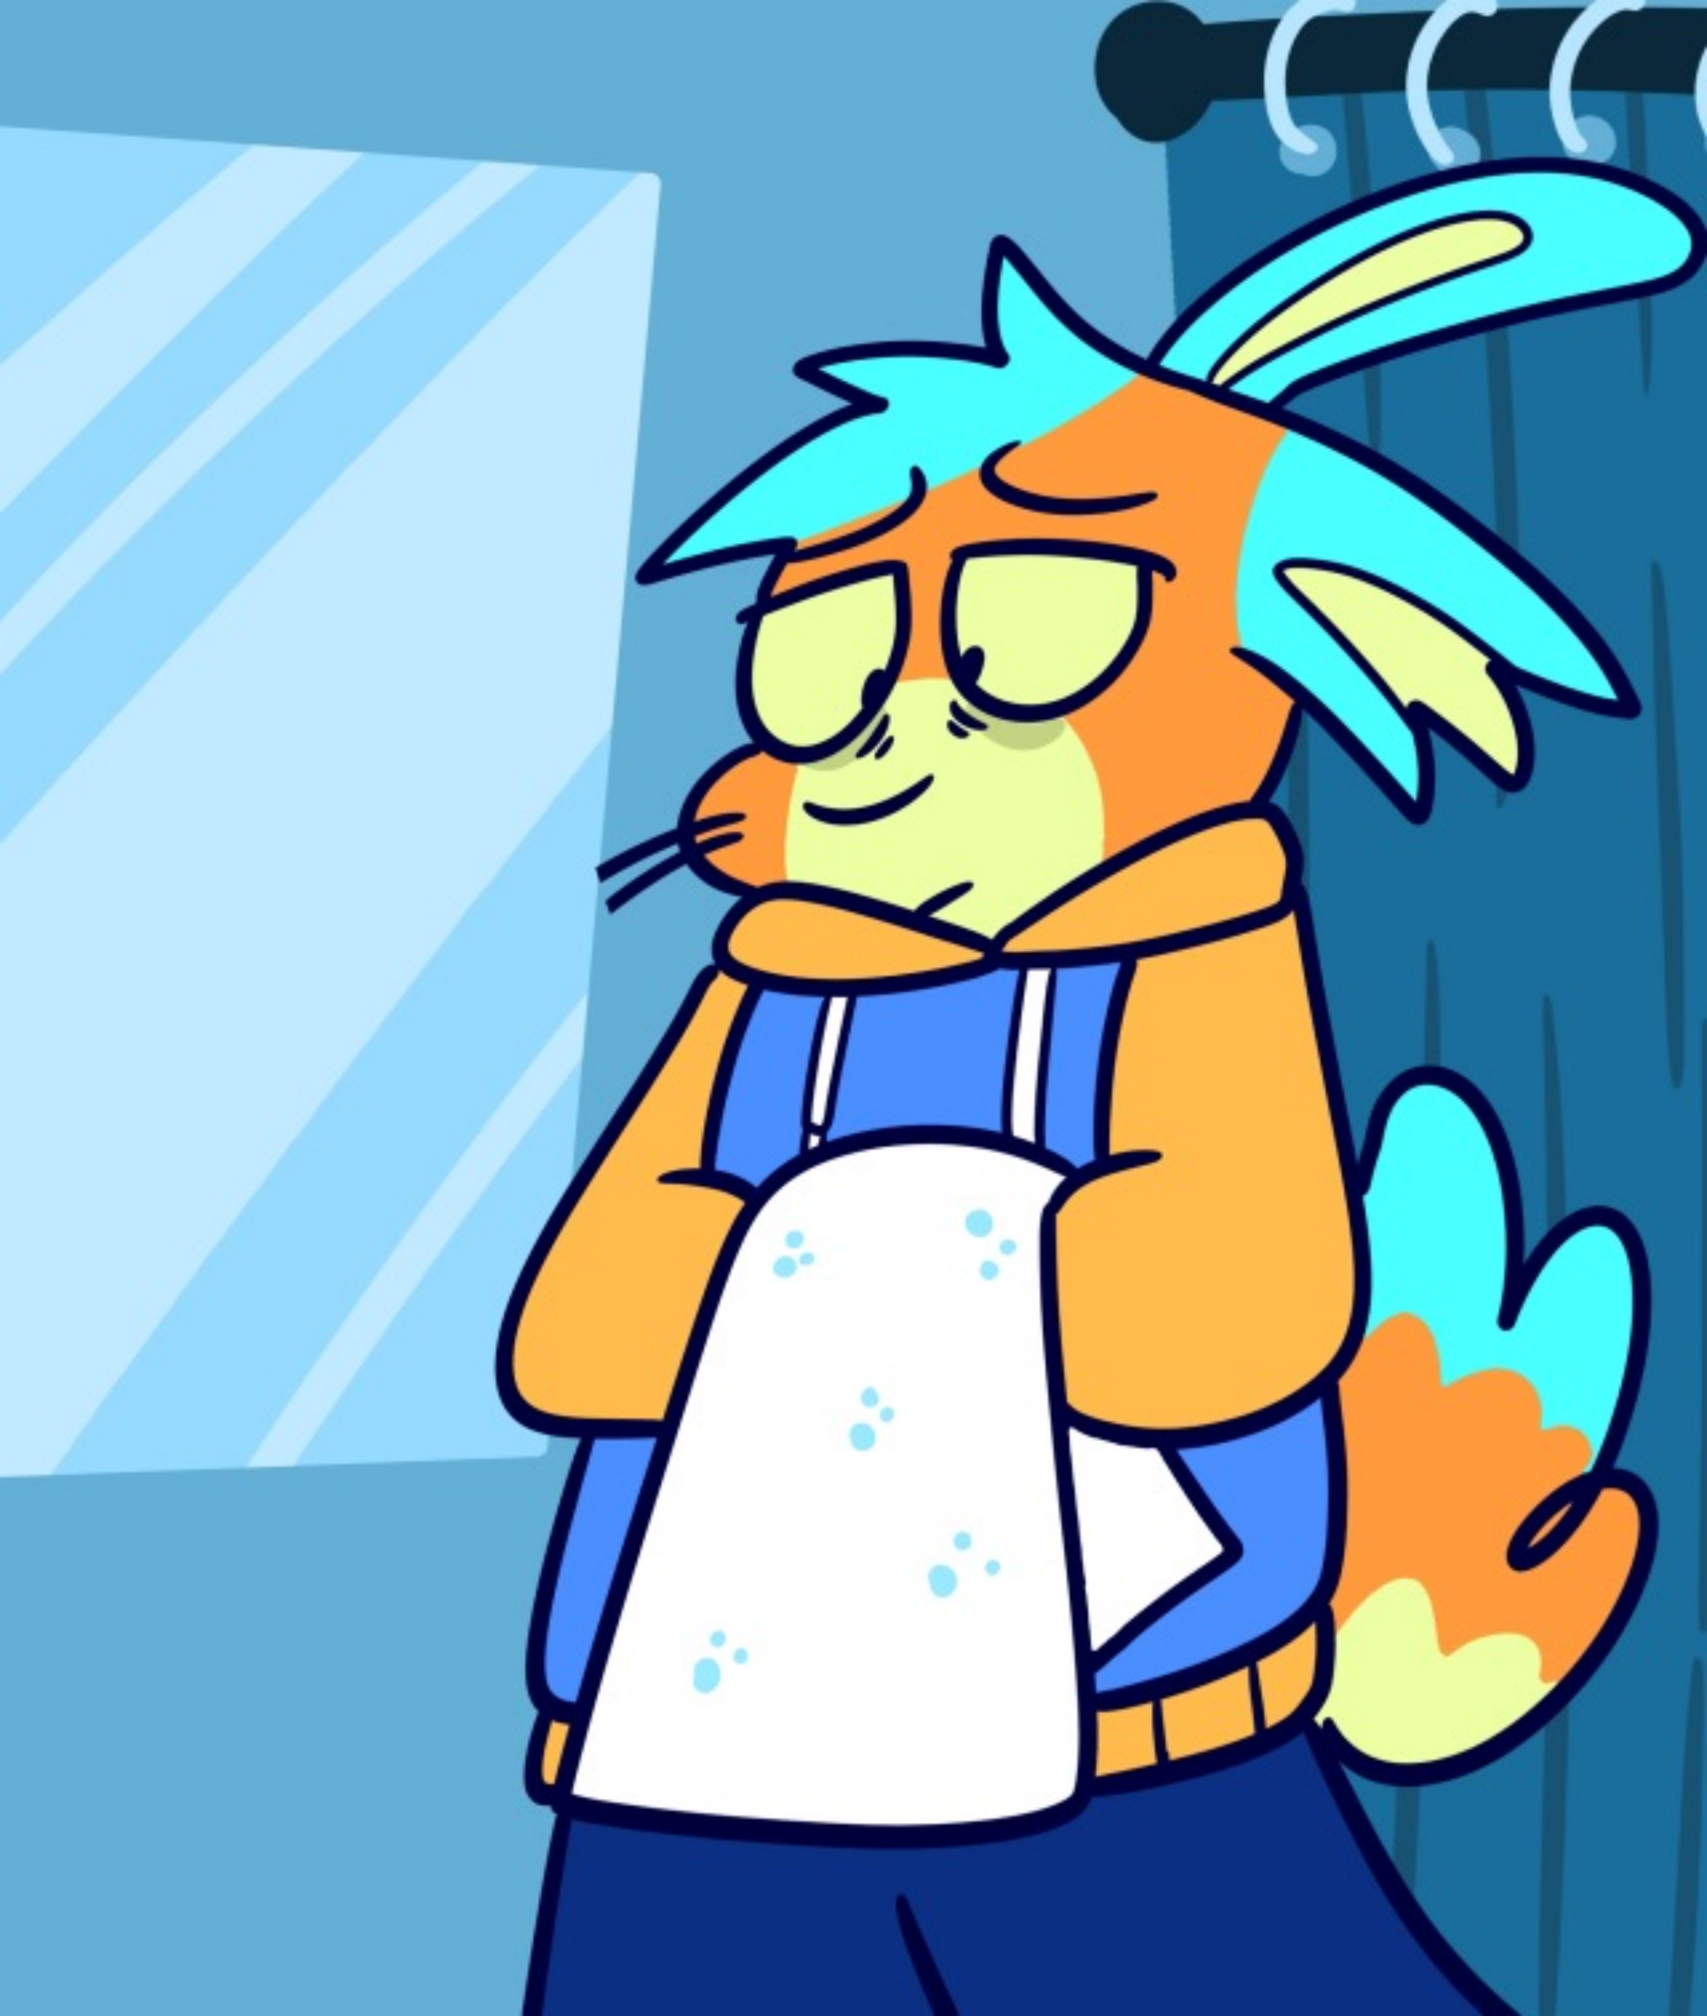
It basically uses a concept in theoretical physics to scientifically explain magic, if it does exist.
It´s actually pretty... interesting?

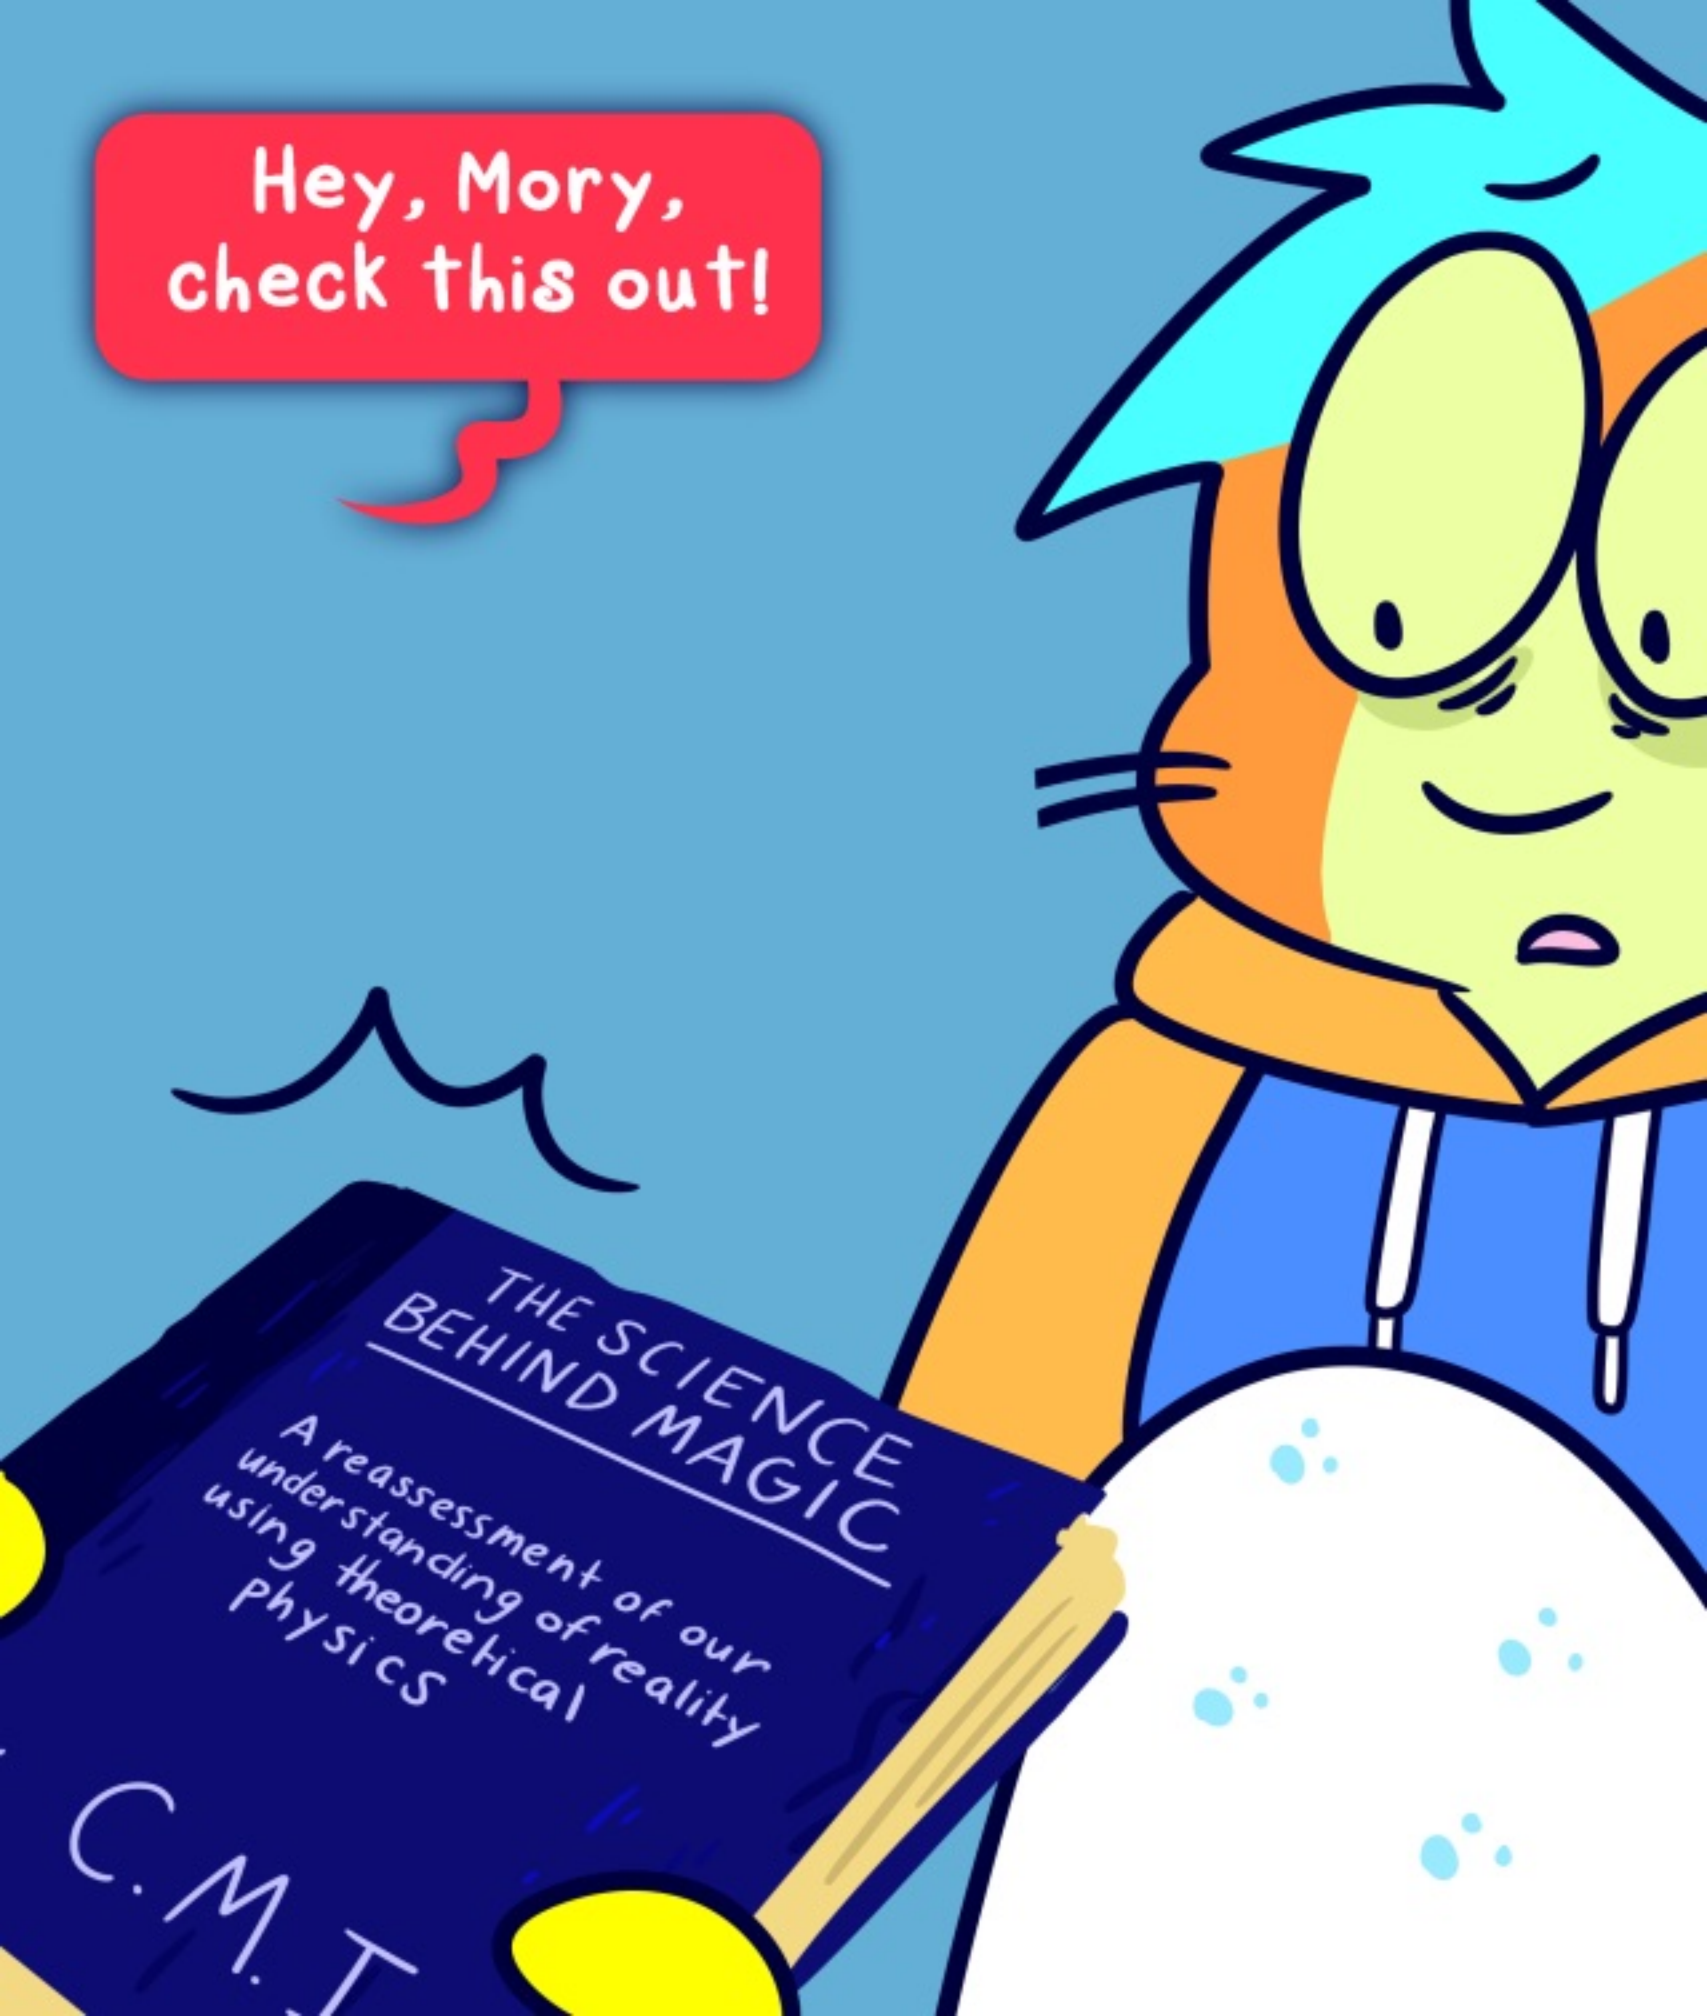


I was thinking of giving it to Mory to cheer him up.
He´s super into sci-fi stuff, I think it´s right up his alley.



Hey, he's gonna be okay. They think it's just a fever and they're gonna send him home, so we can go too.





Hey, Mory, check this out!

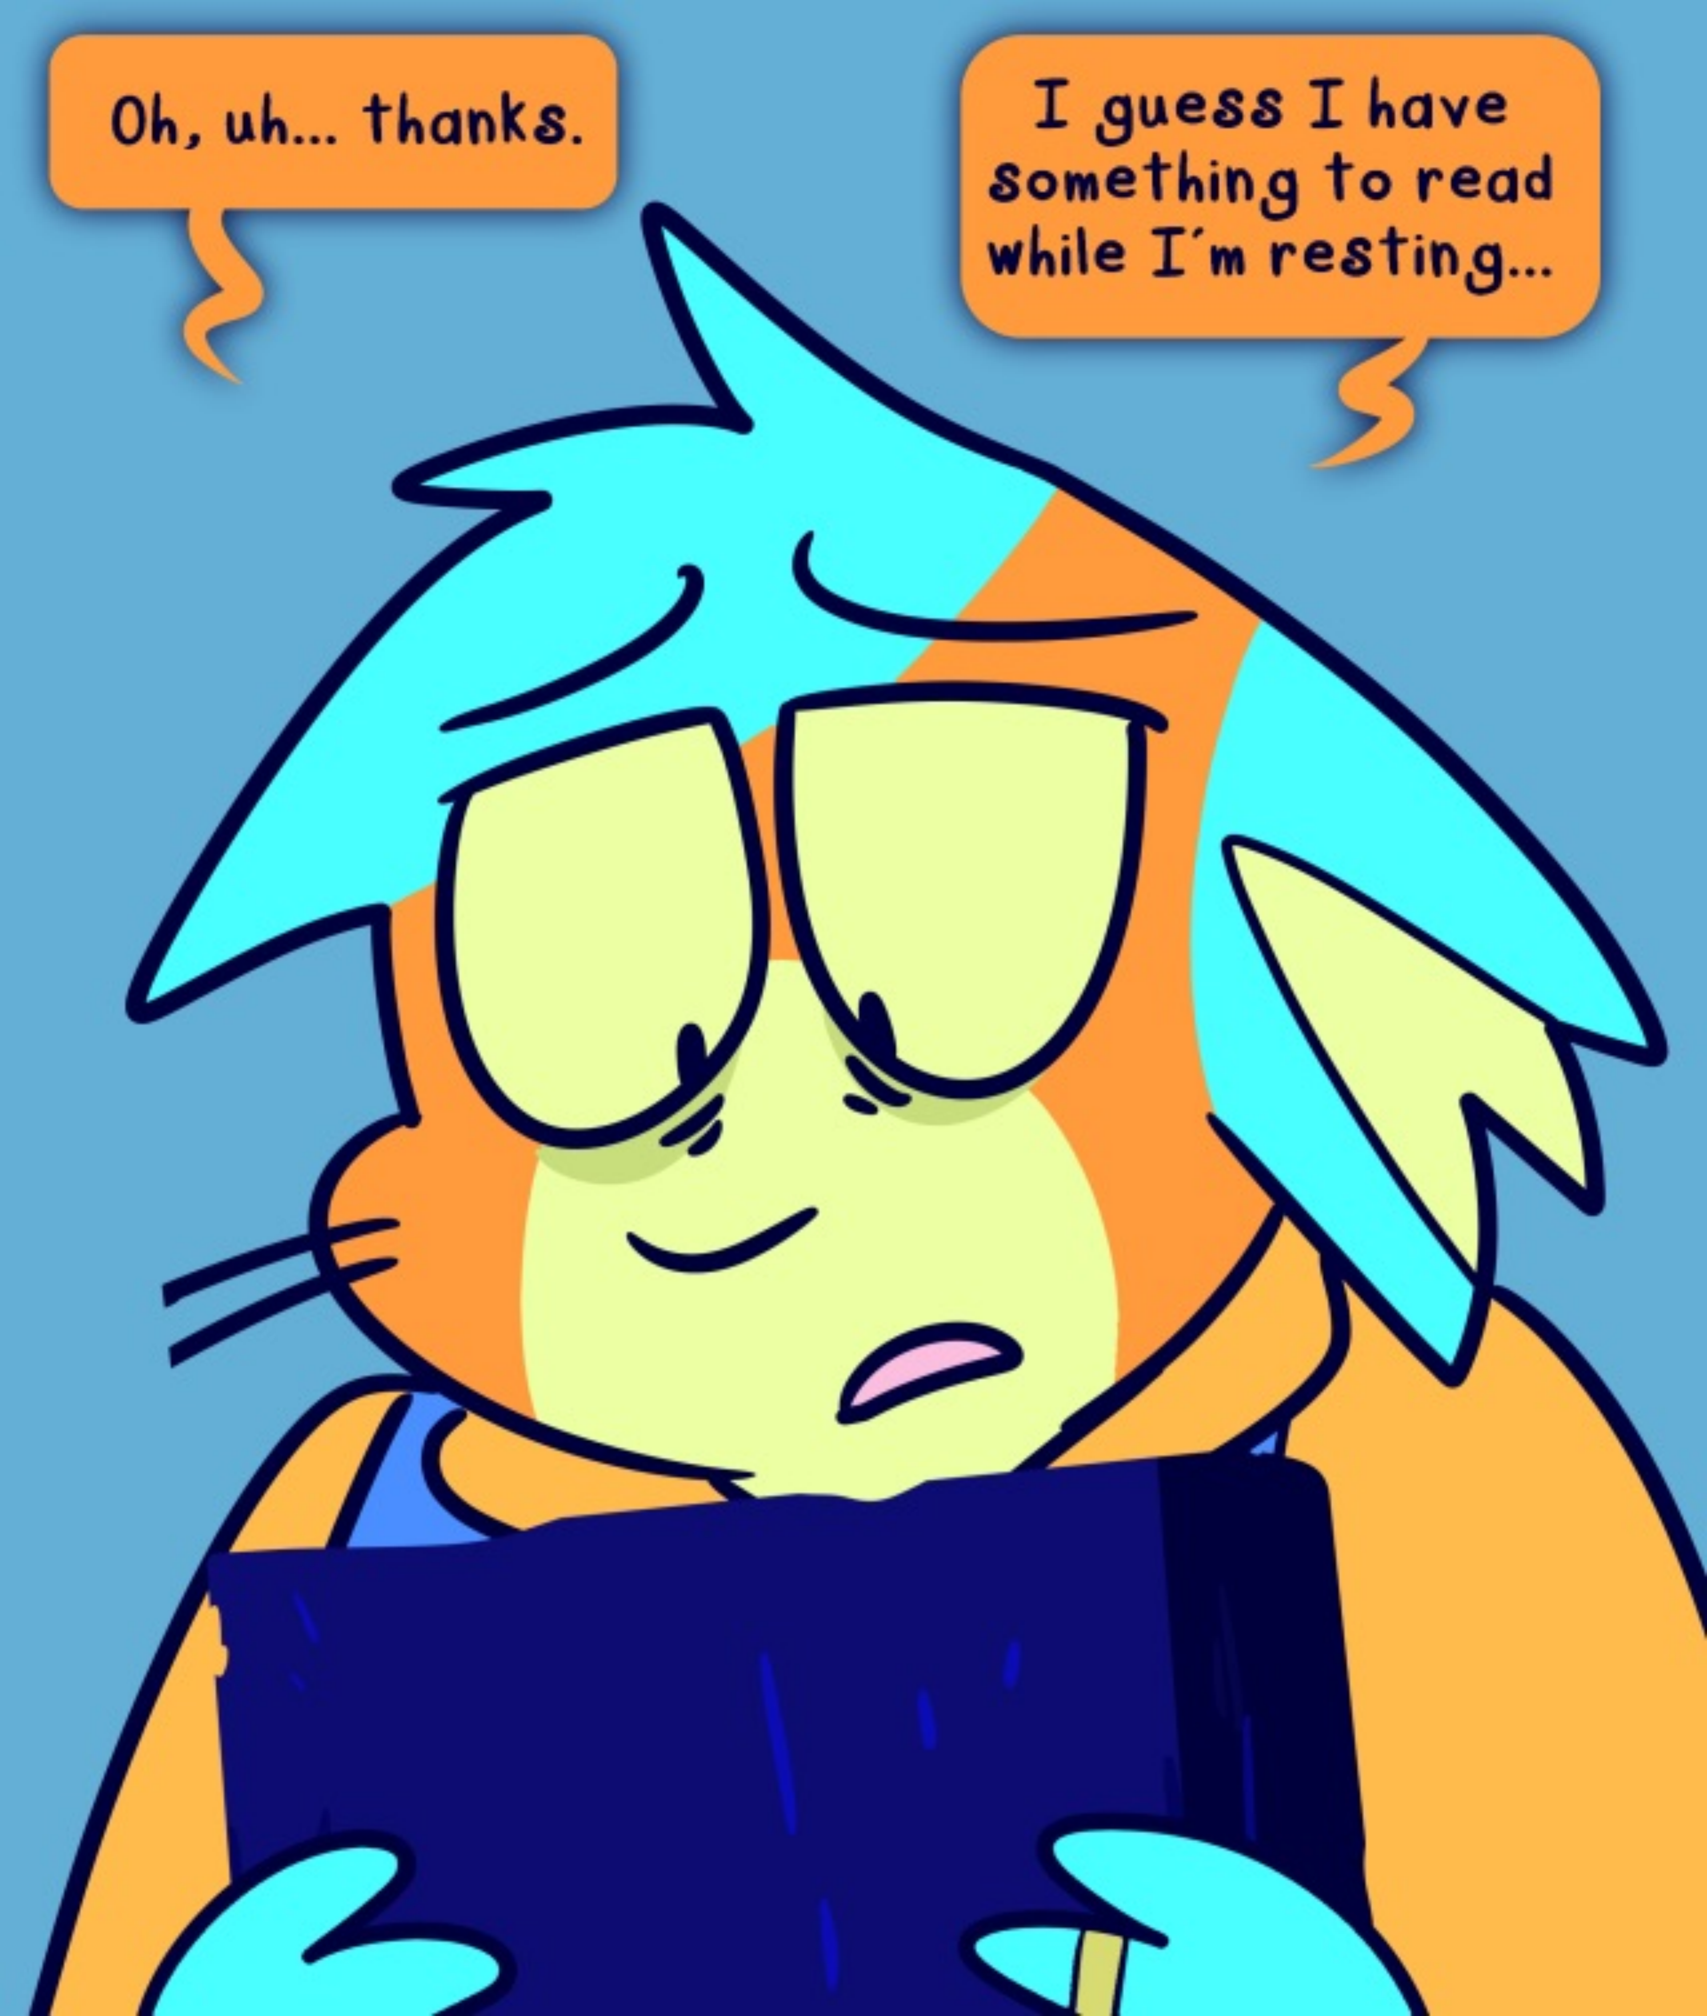
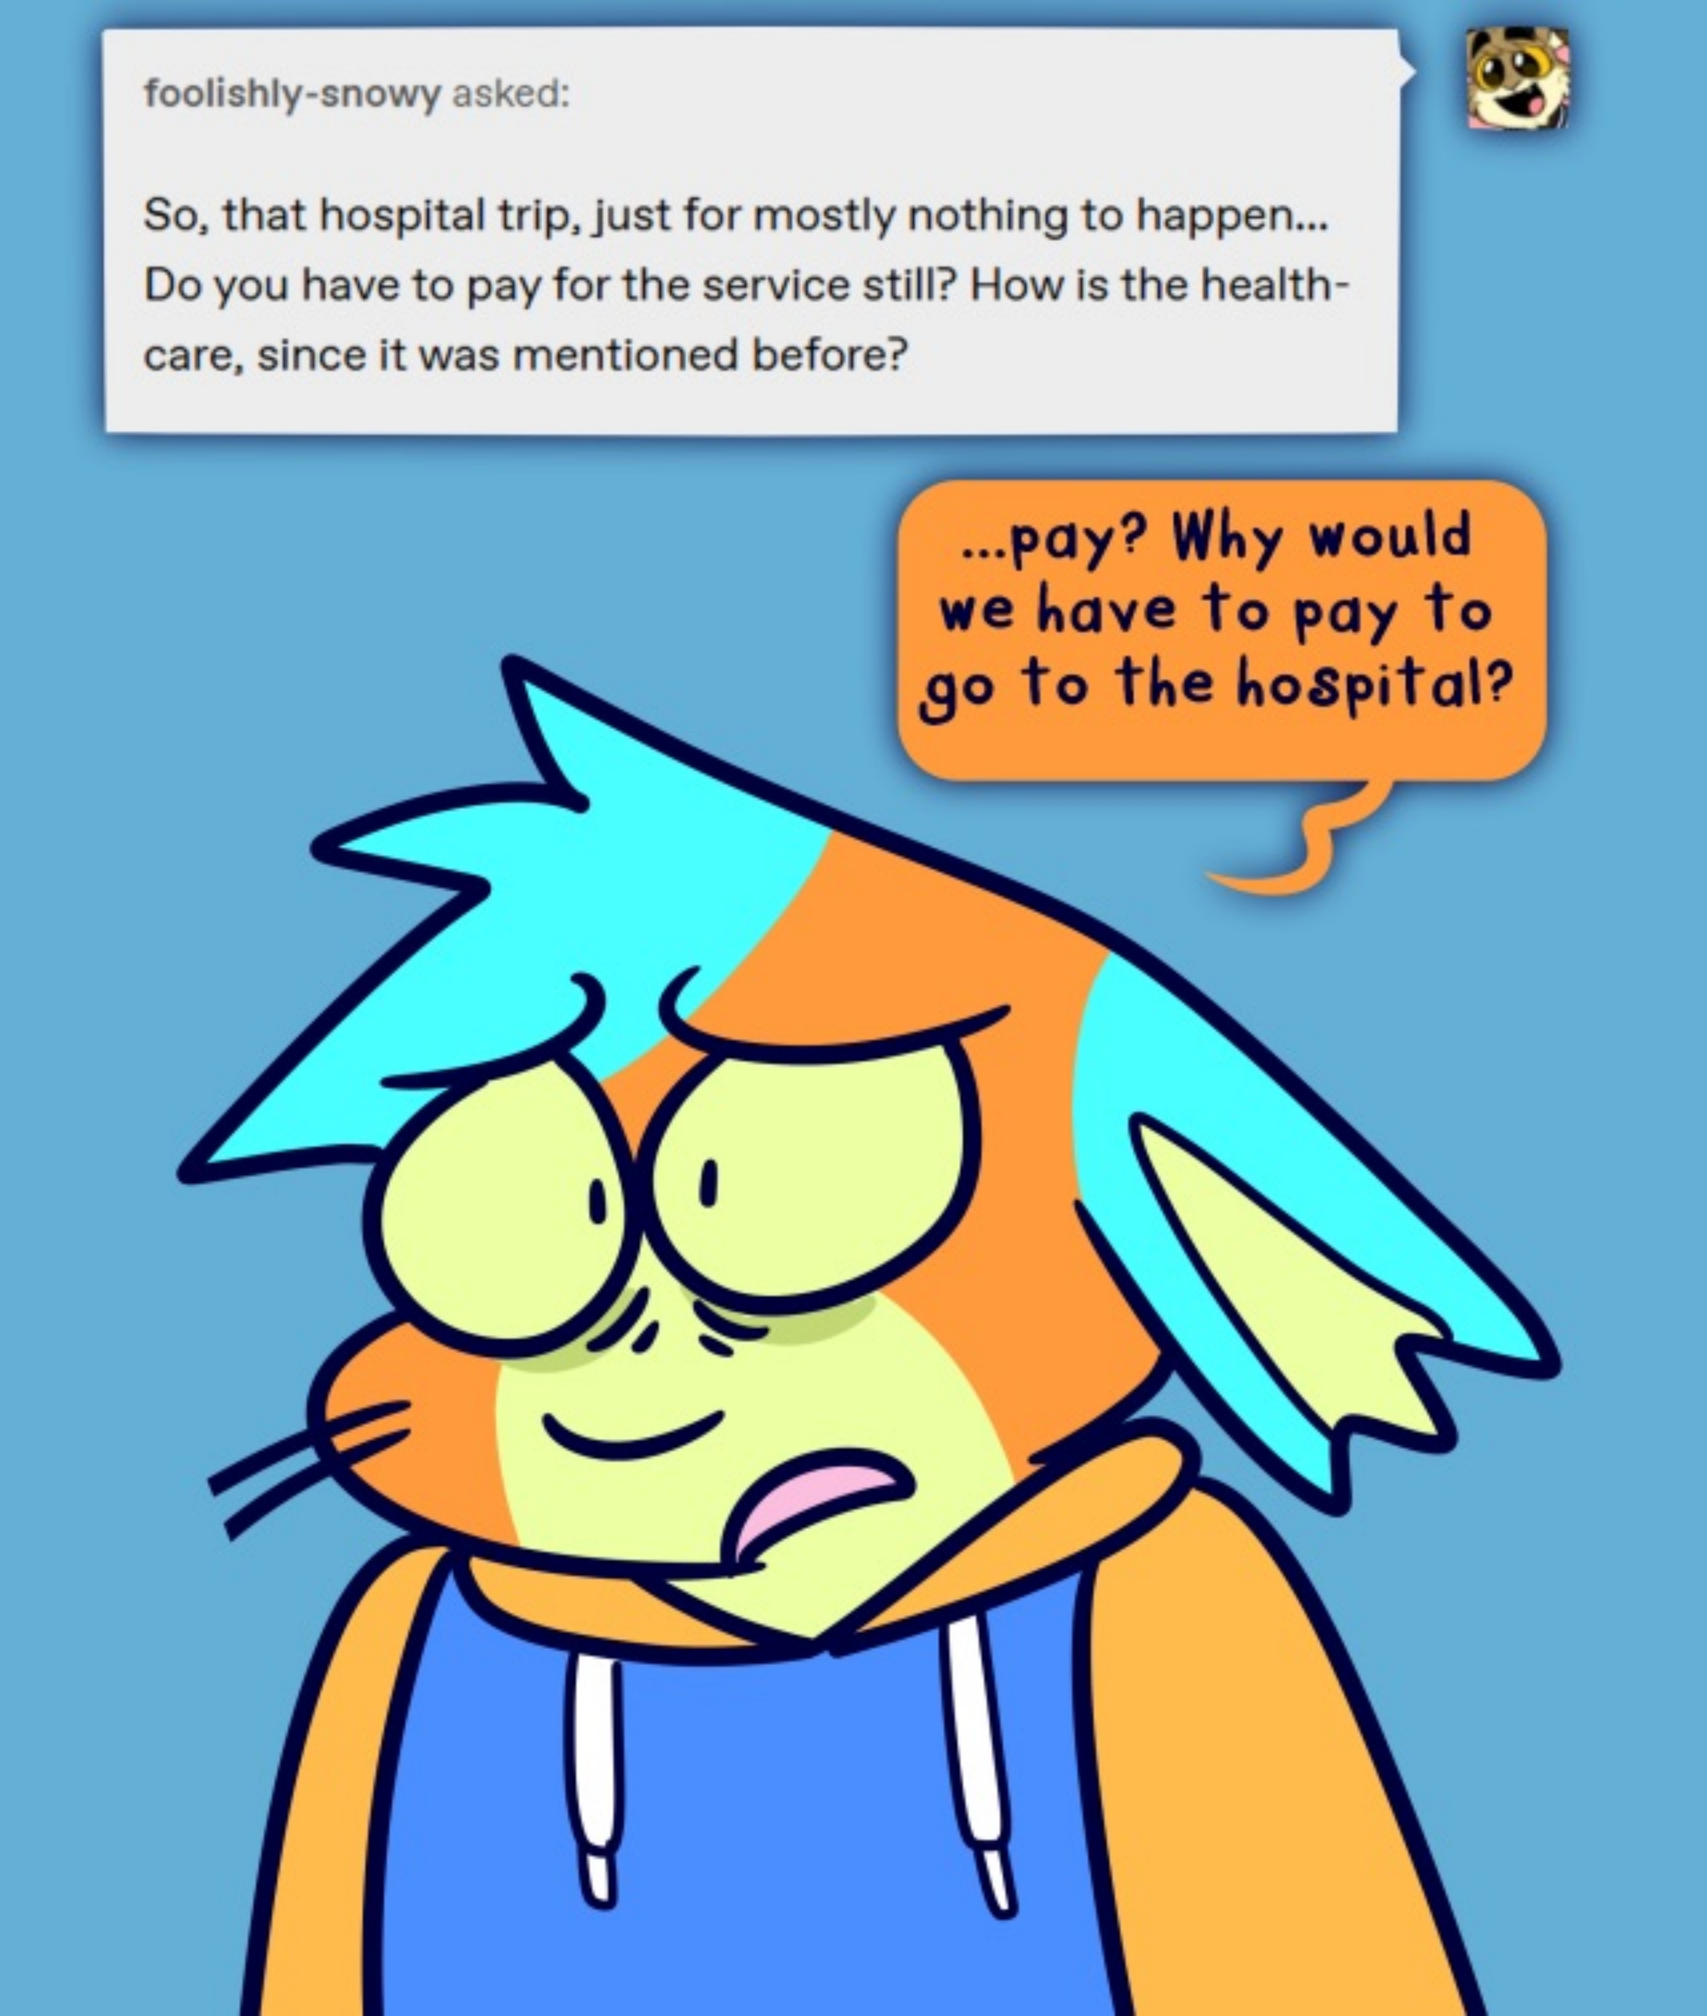
This is a neat sci-fi type book that I think you'd like.
I got it from the library, so you can just return it later.
by C.W.I.



Oh, uh... thanks.
I guess I have something to read while I'm resting...



foolishly-snowy asked:

So, that hospital trip, just for mostly nothing to happen... Do you have to pay for the service still? How is the health-care, since it was mentioned before?

...pay? Why would we have to pay to go to the hospital?

JURASSIC PARK
THE SCIENCE BEHIND MAGIC

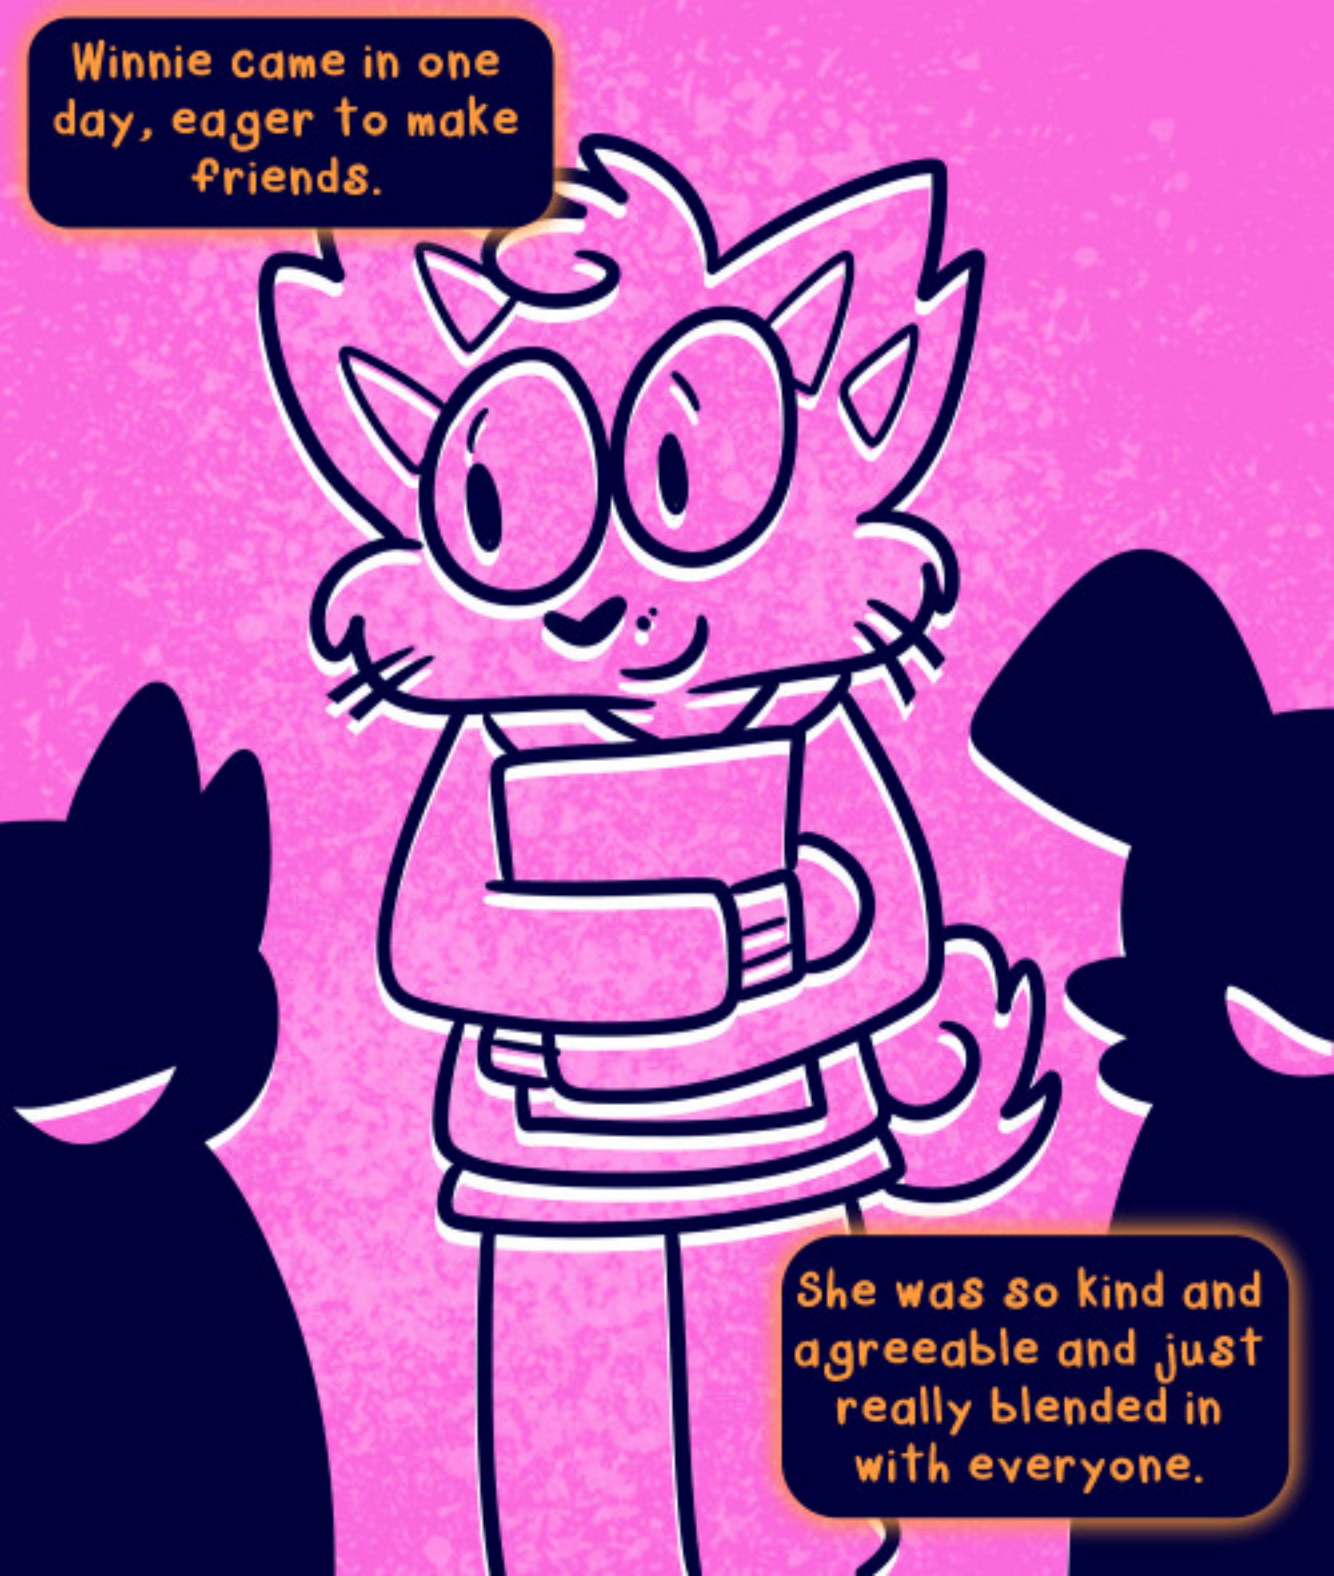
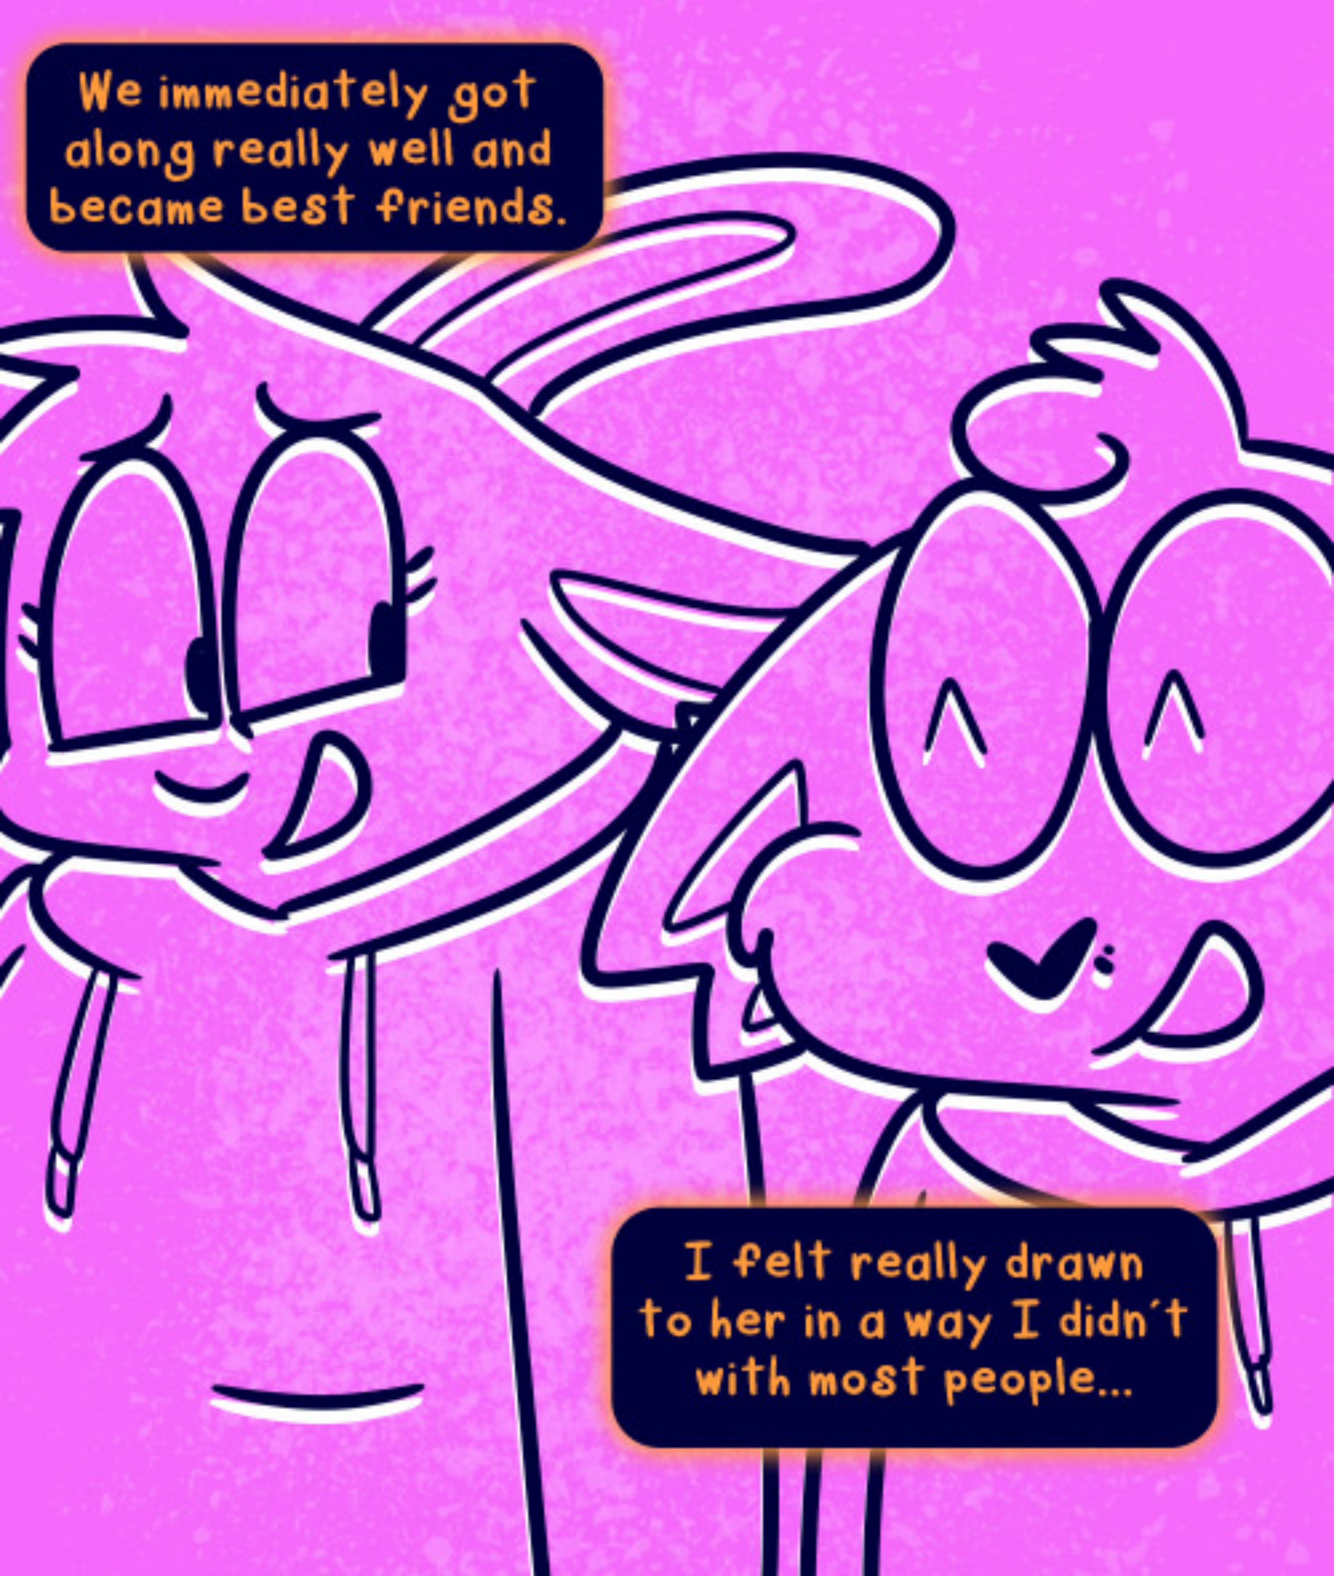
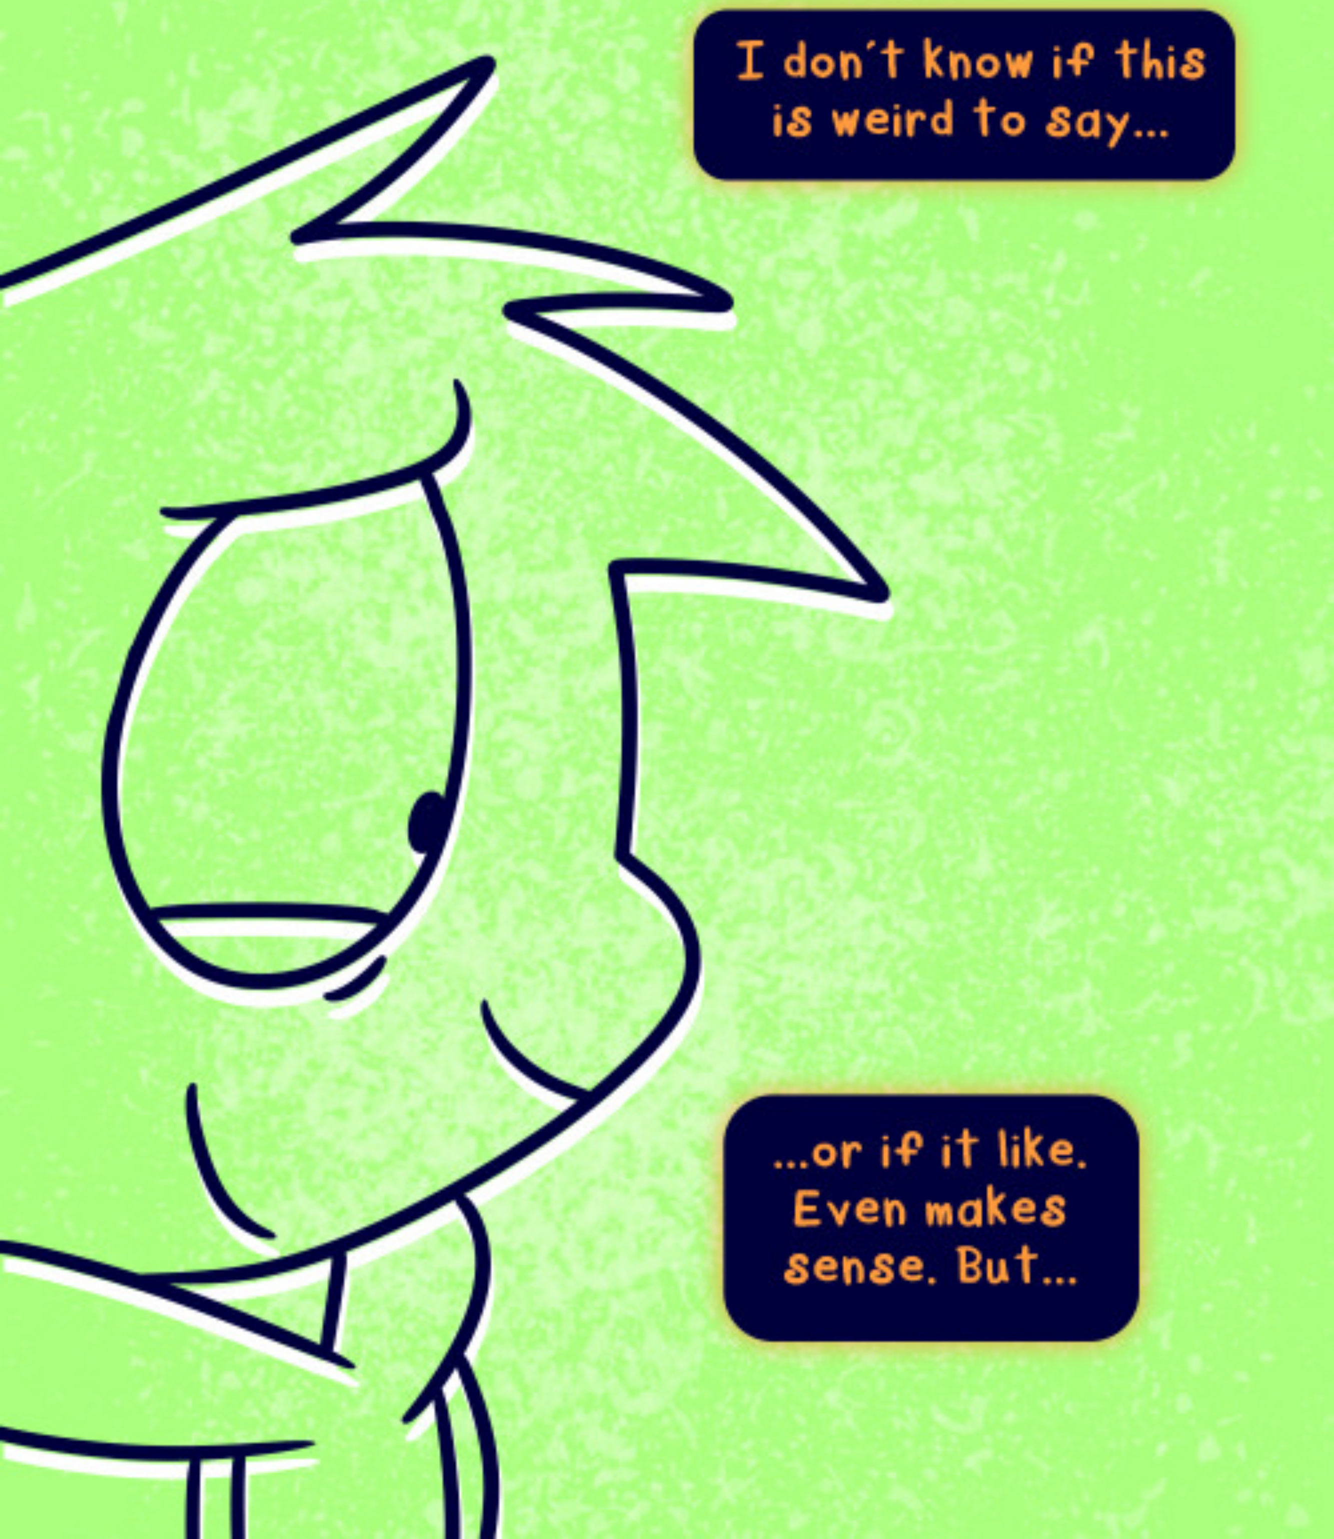
by C.M.I.



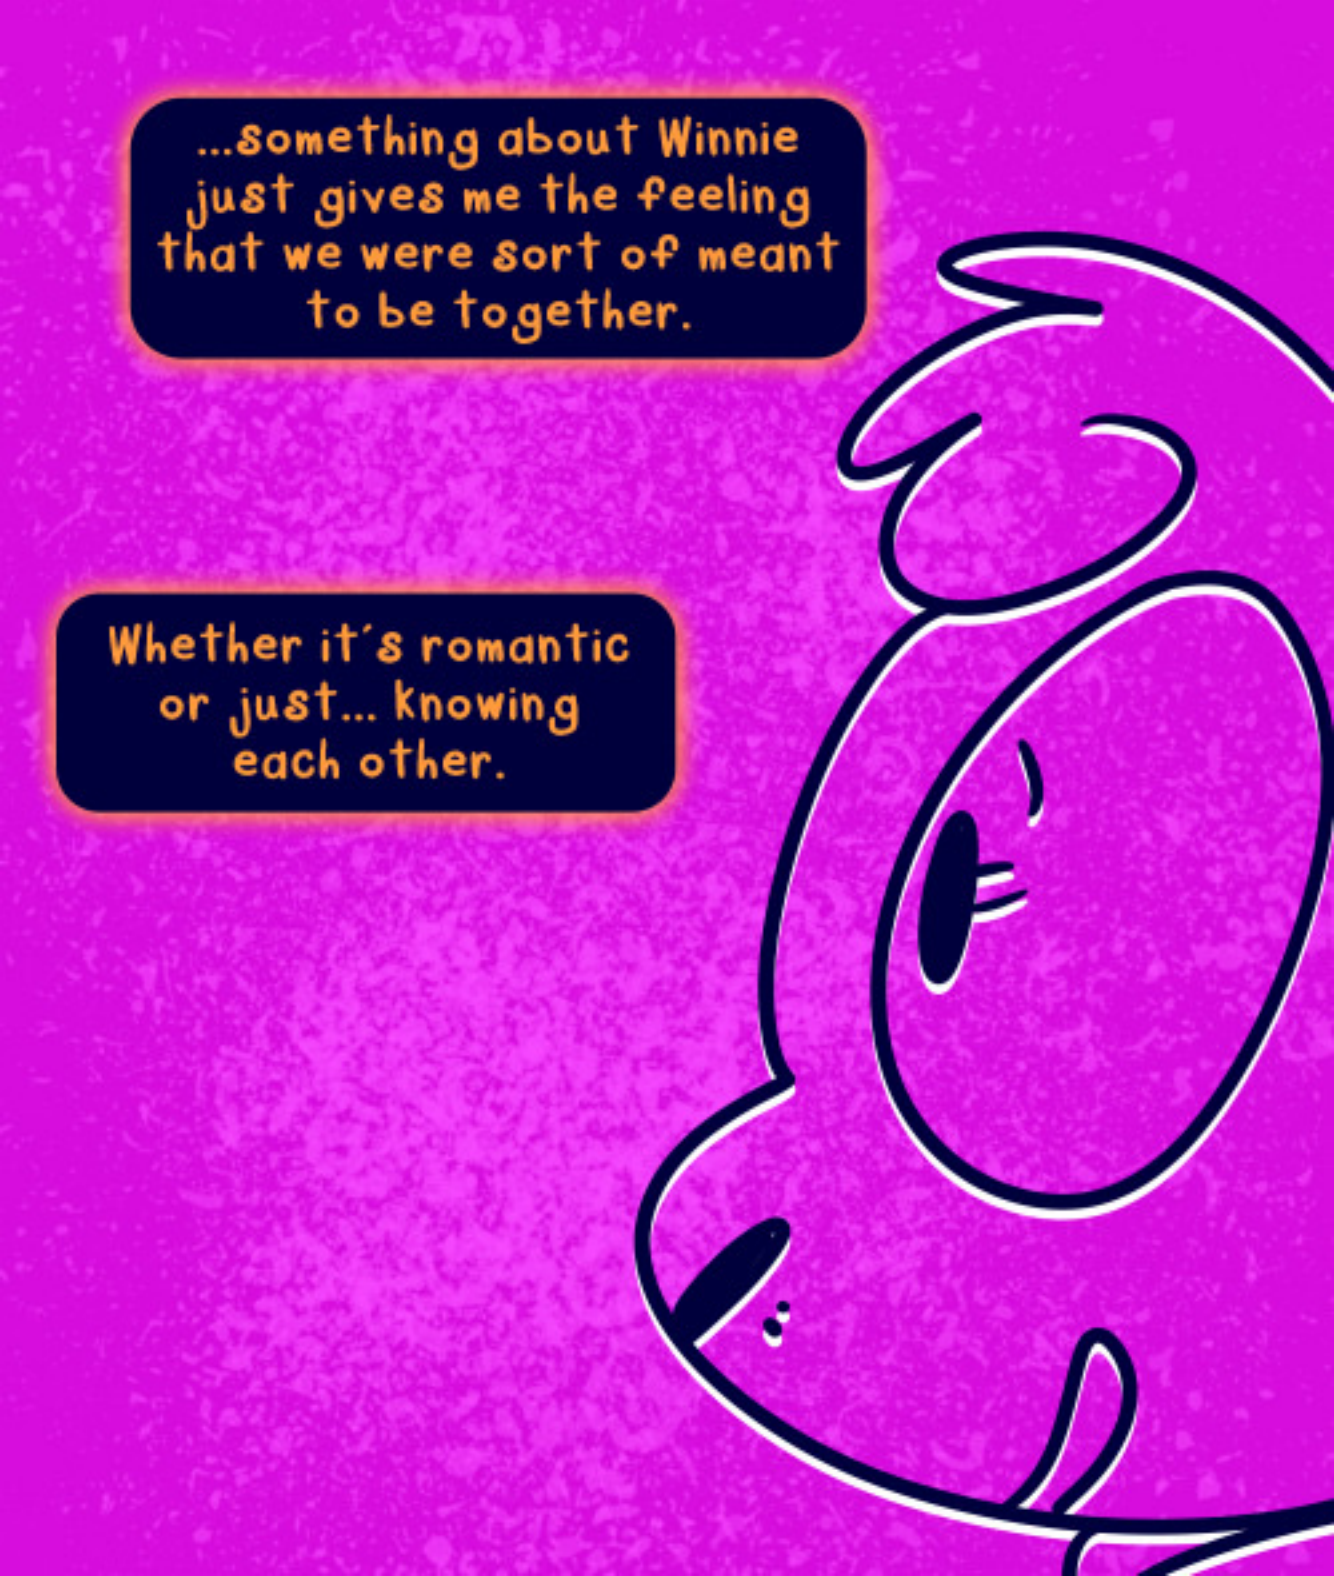
Winnie came in one day, eager to make friends.
She was so kind and agreeable and just really blended in with everyone.



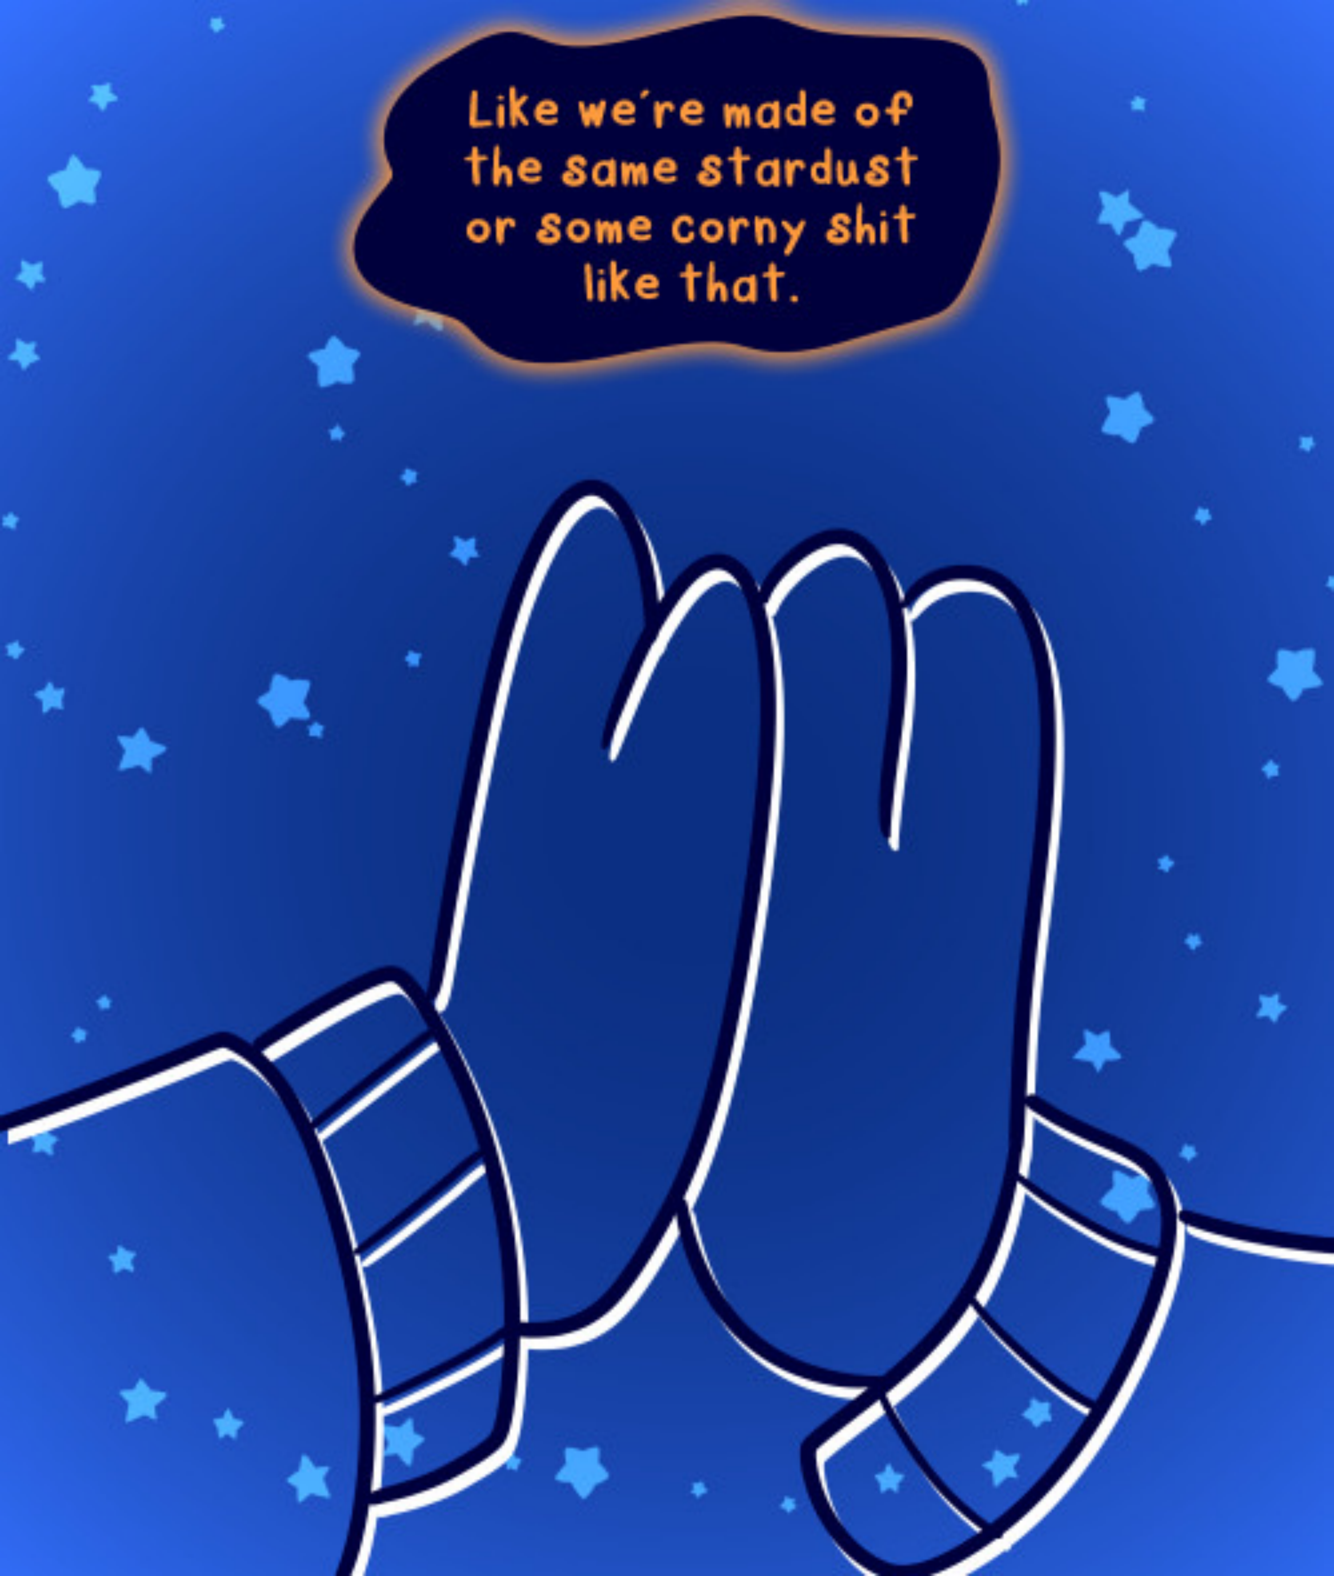
We immediately got along really well and became best friends.
I felt really drawn to her in a way I didn´t with most people...



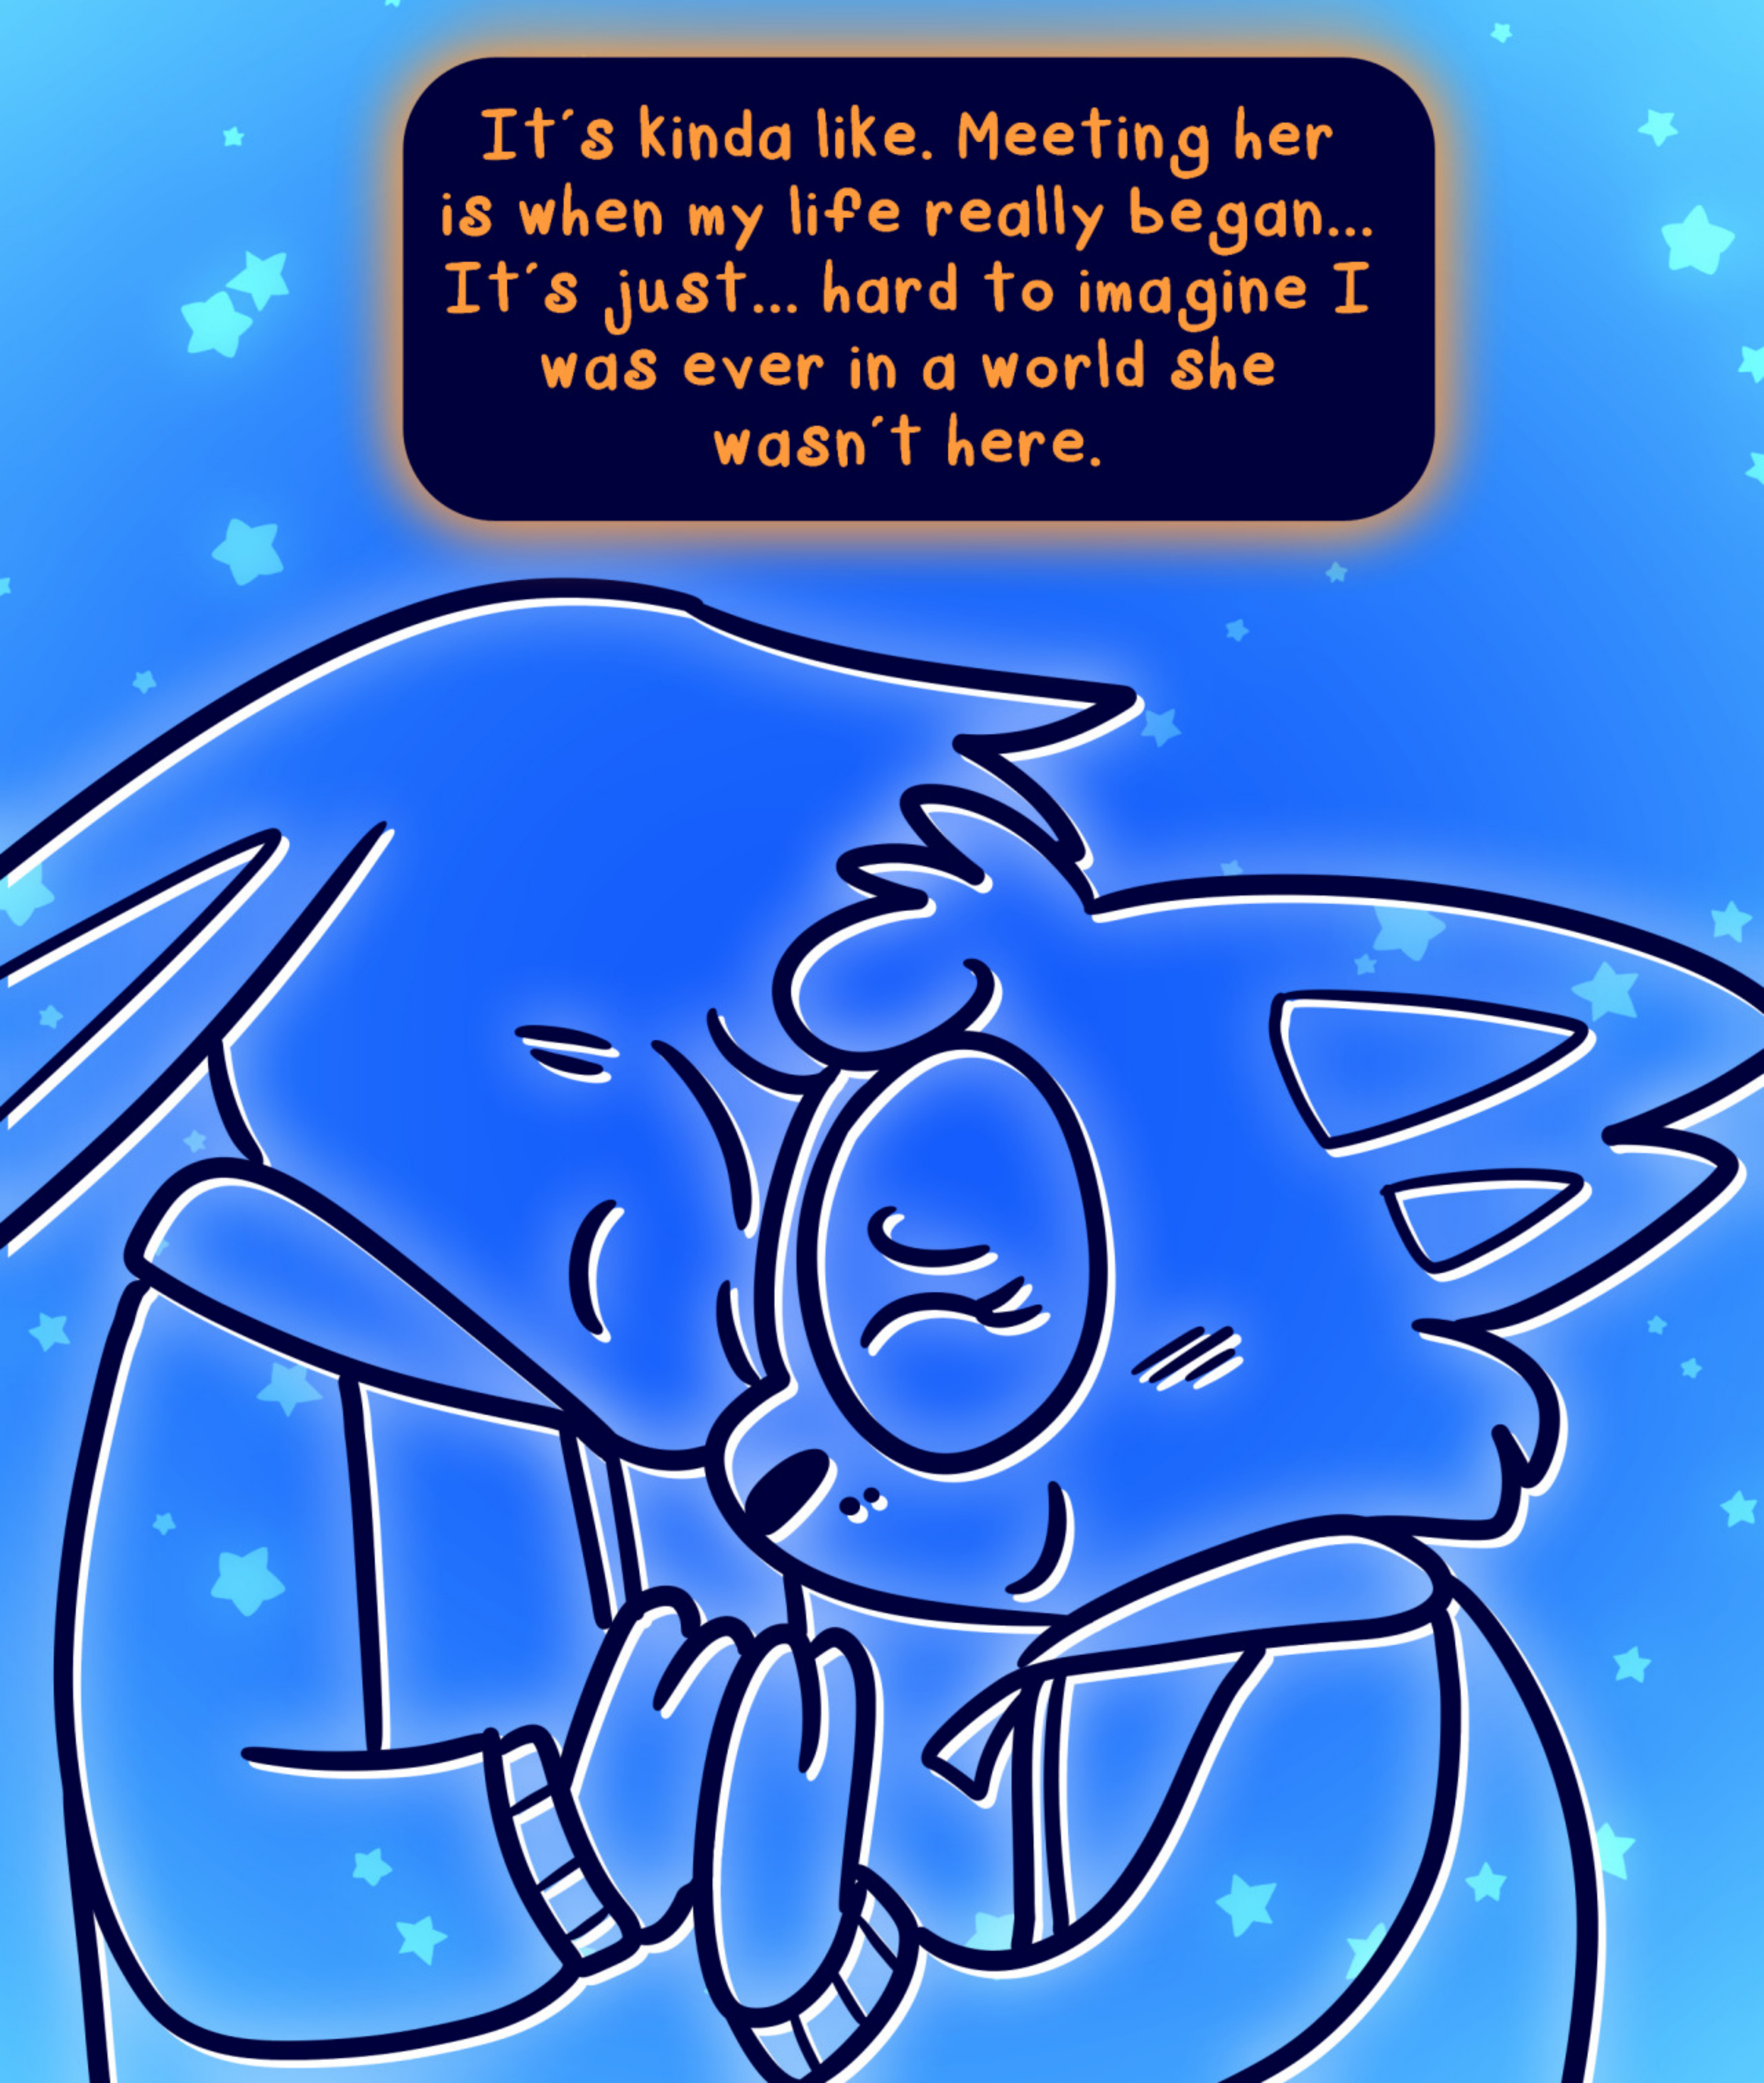
I don't know if this is weird to say...
...or if it like. Even makes sense. But...



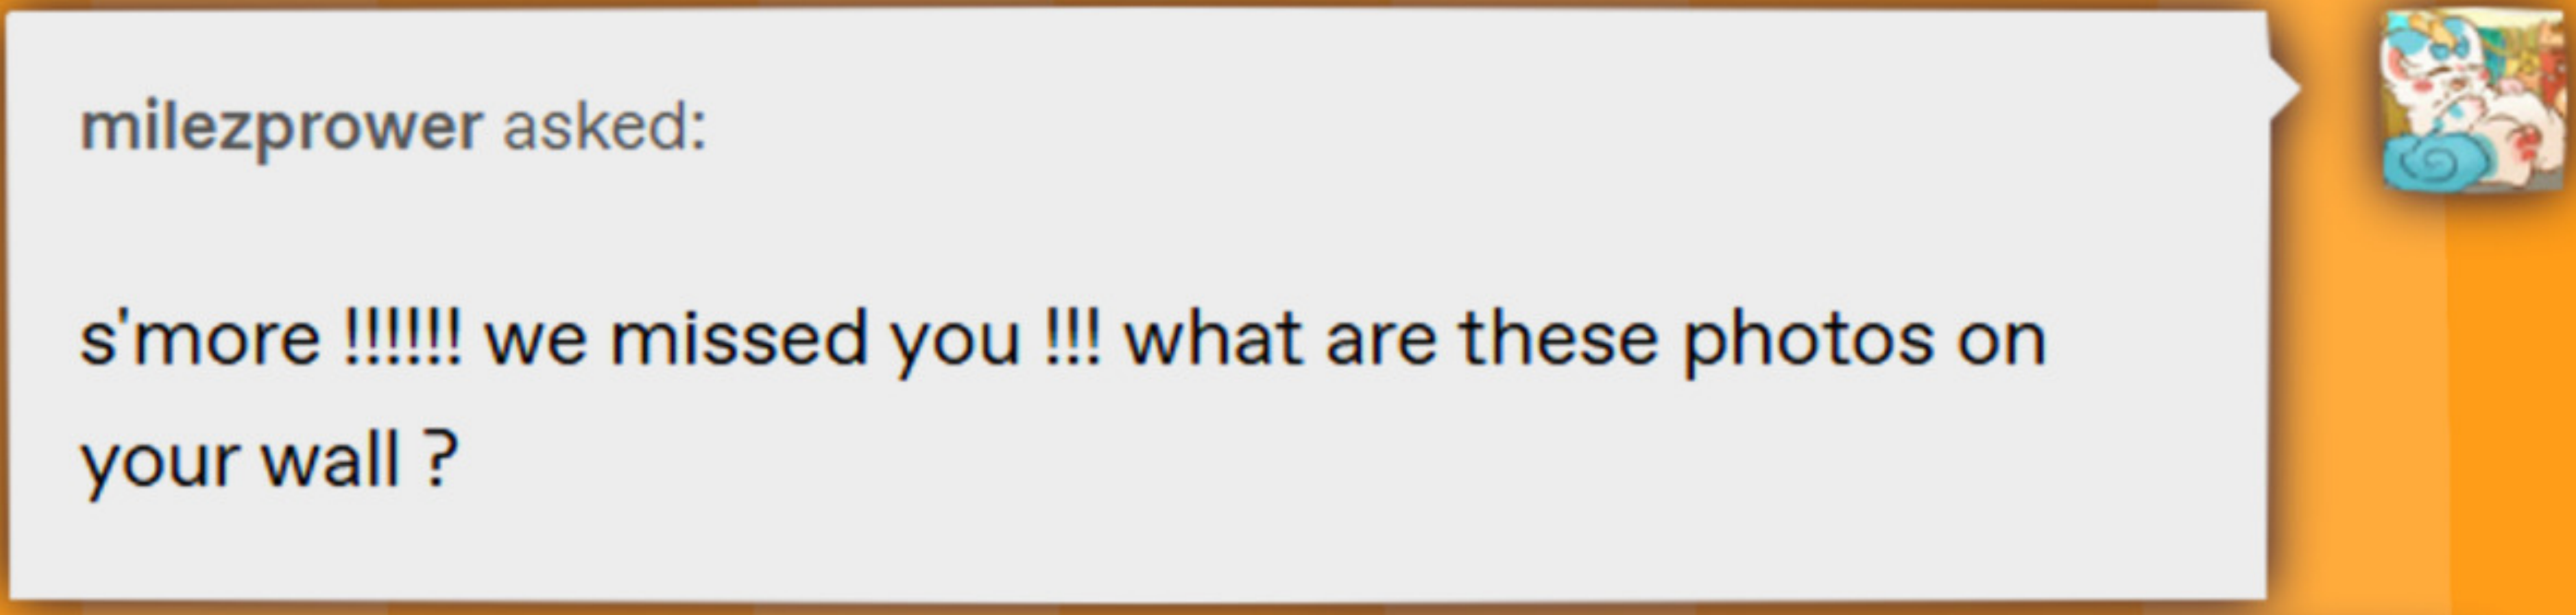
...something about Winnie just gives me the feeling that we were sort of meant to be together.
Whether it's romantic or just... knowing each other.



Like we're made of the same stardust or some corny shit like that.



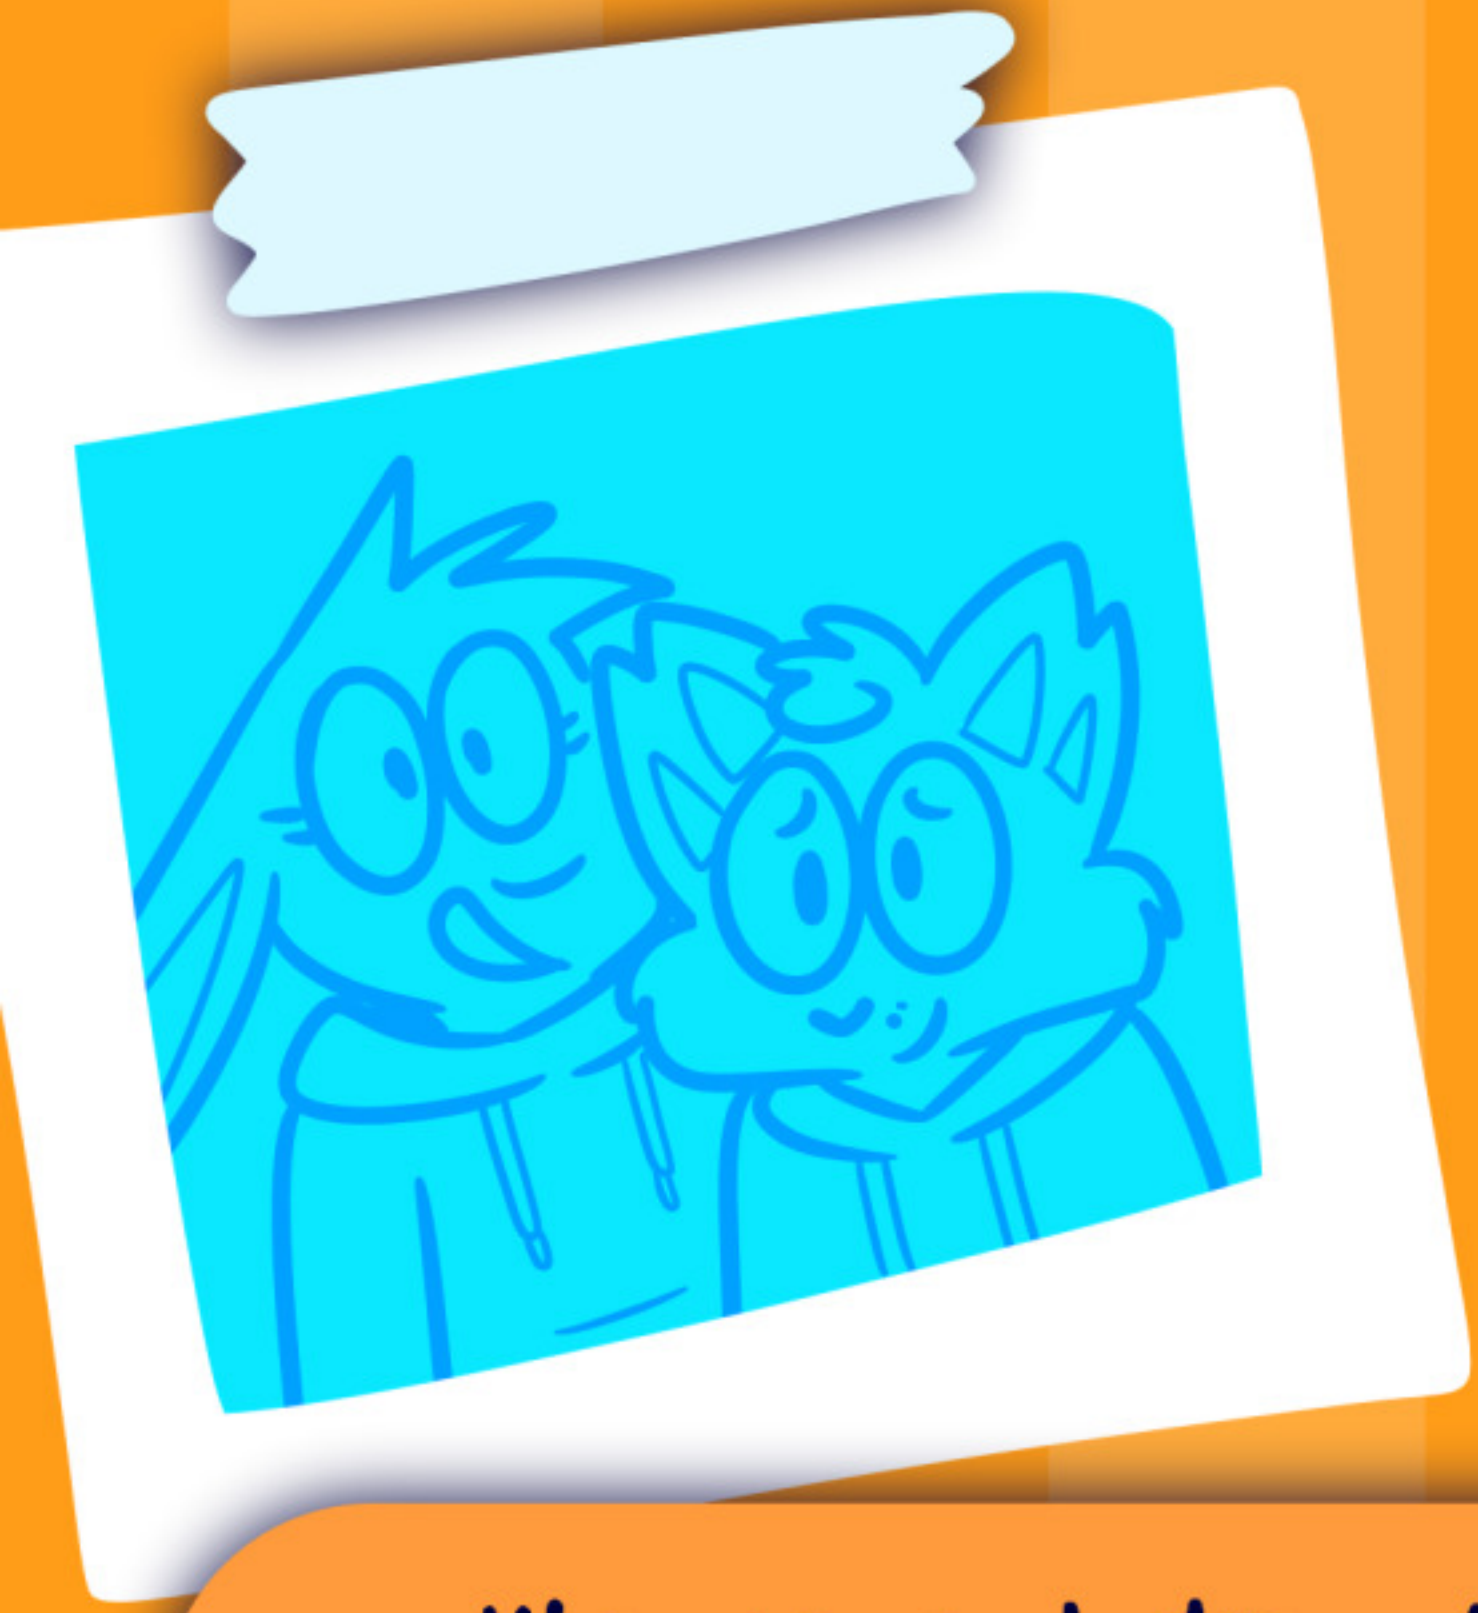
It´s kinda like. Meeting her is when my life really began... It´s just... hard to imagine I was ever in a world she wasn´t here.



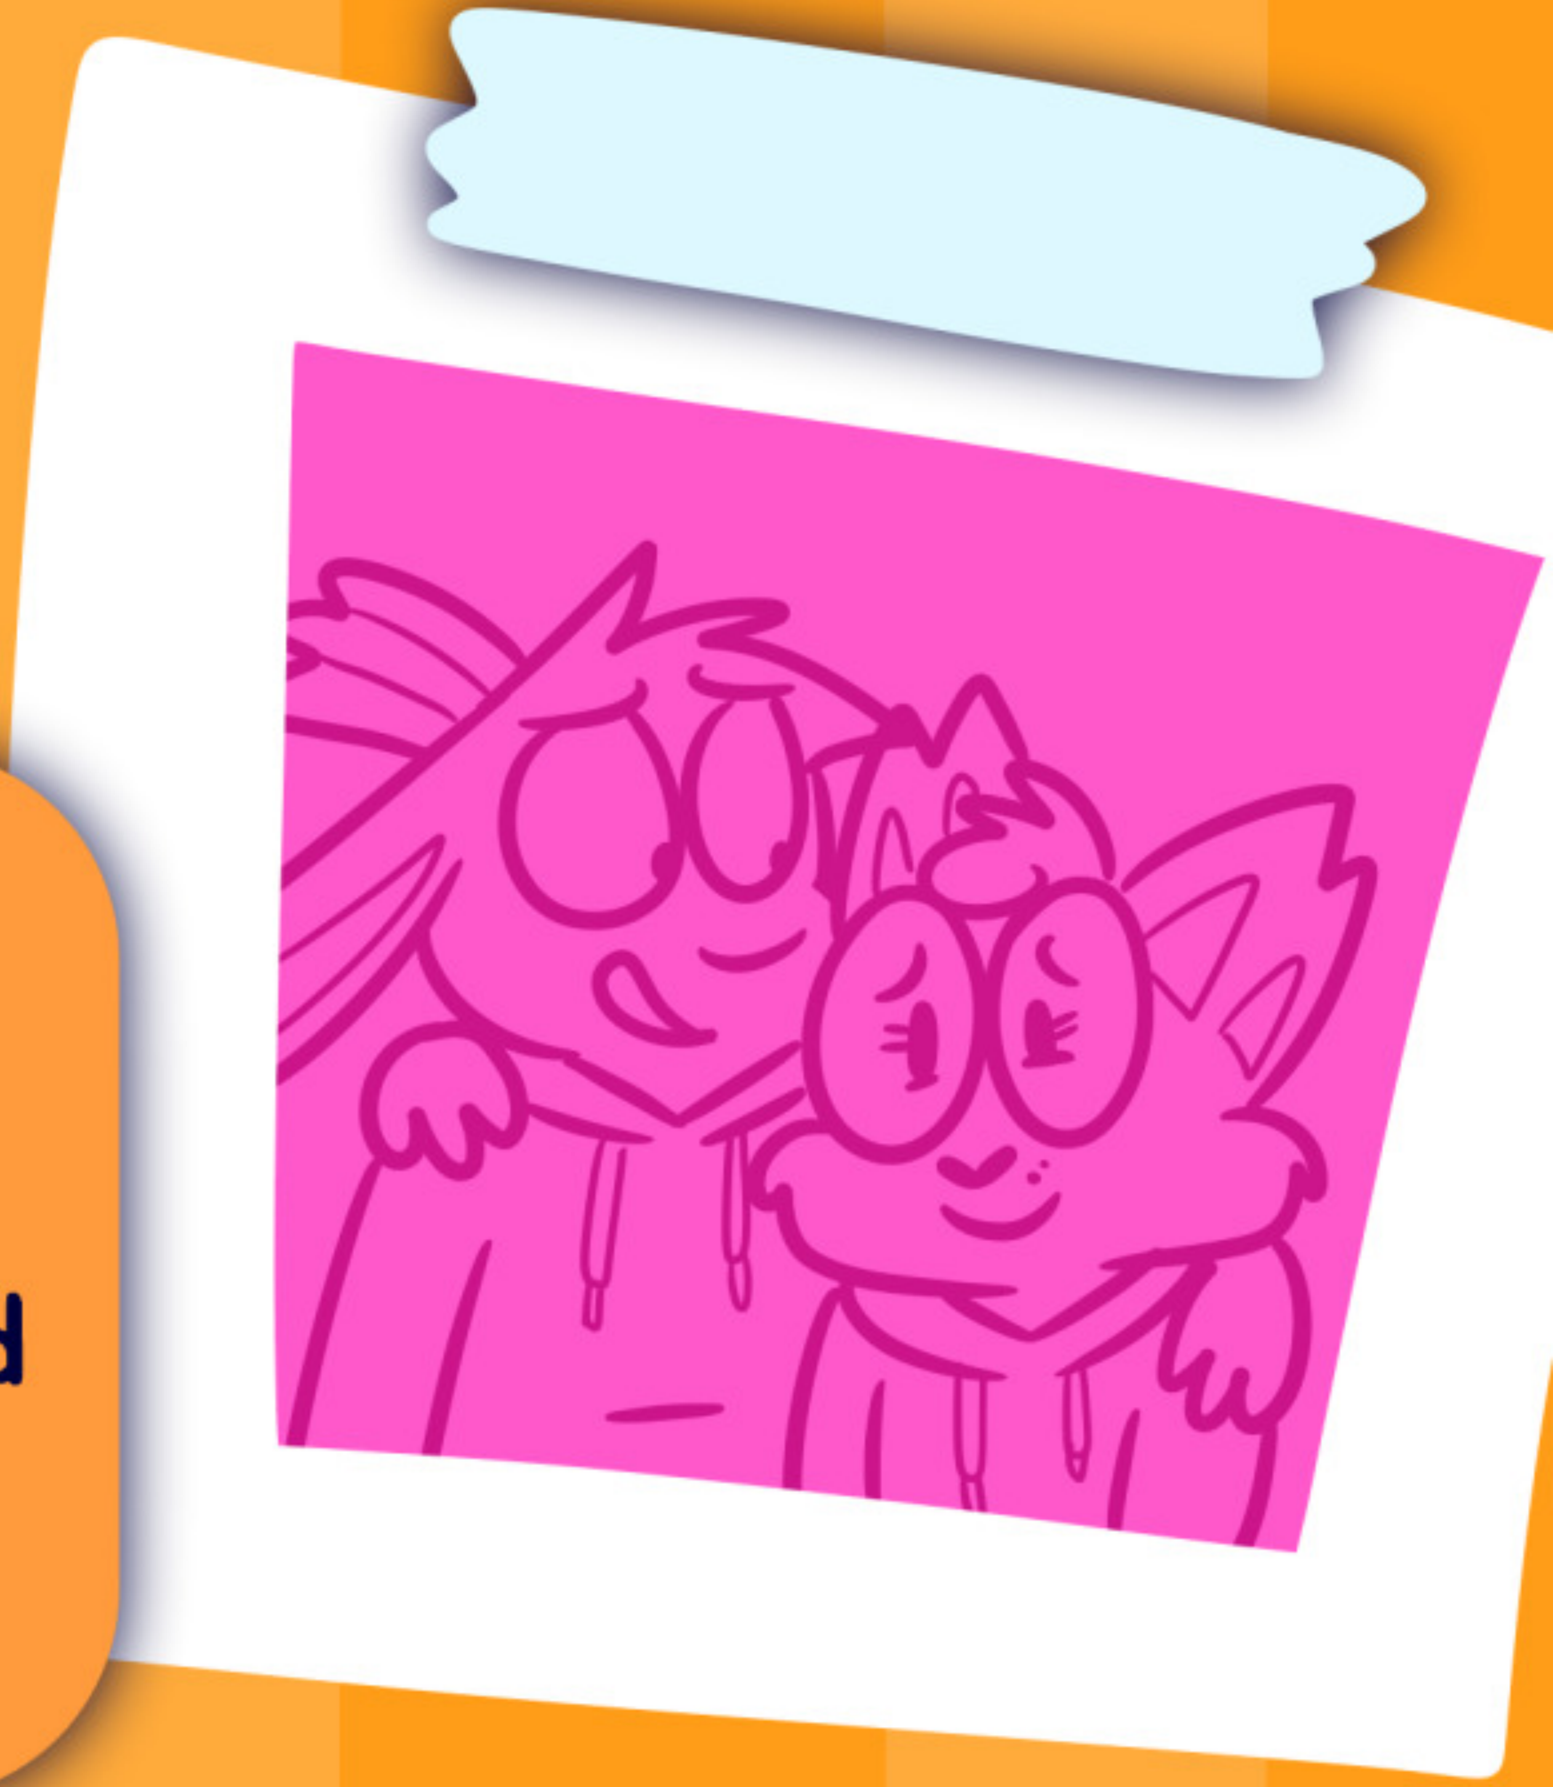
milezprower asked:

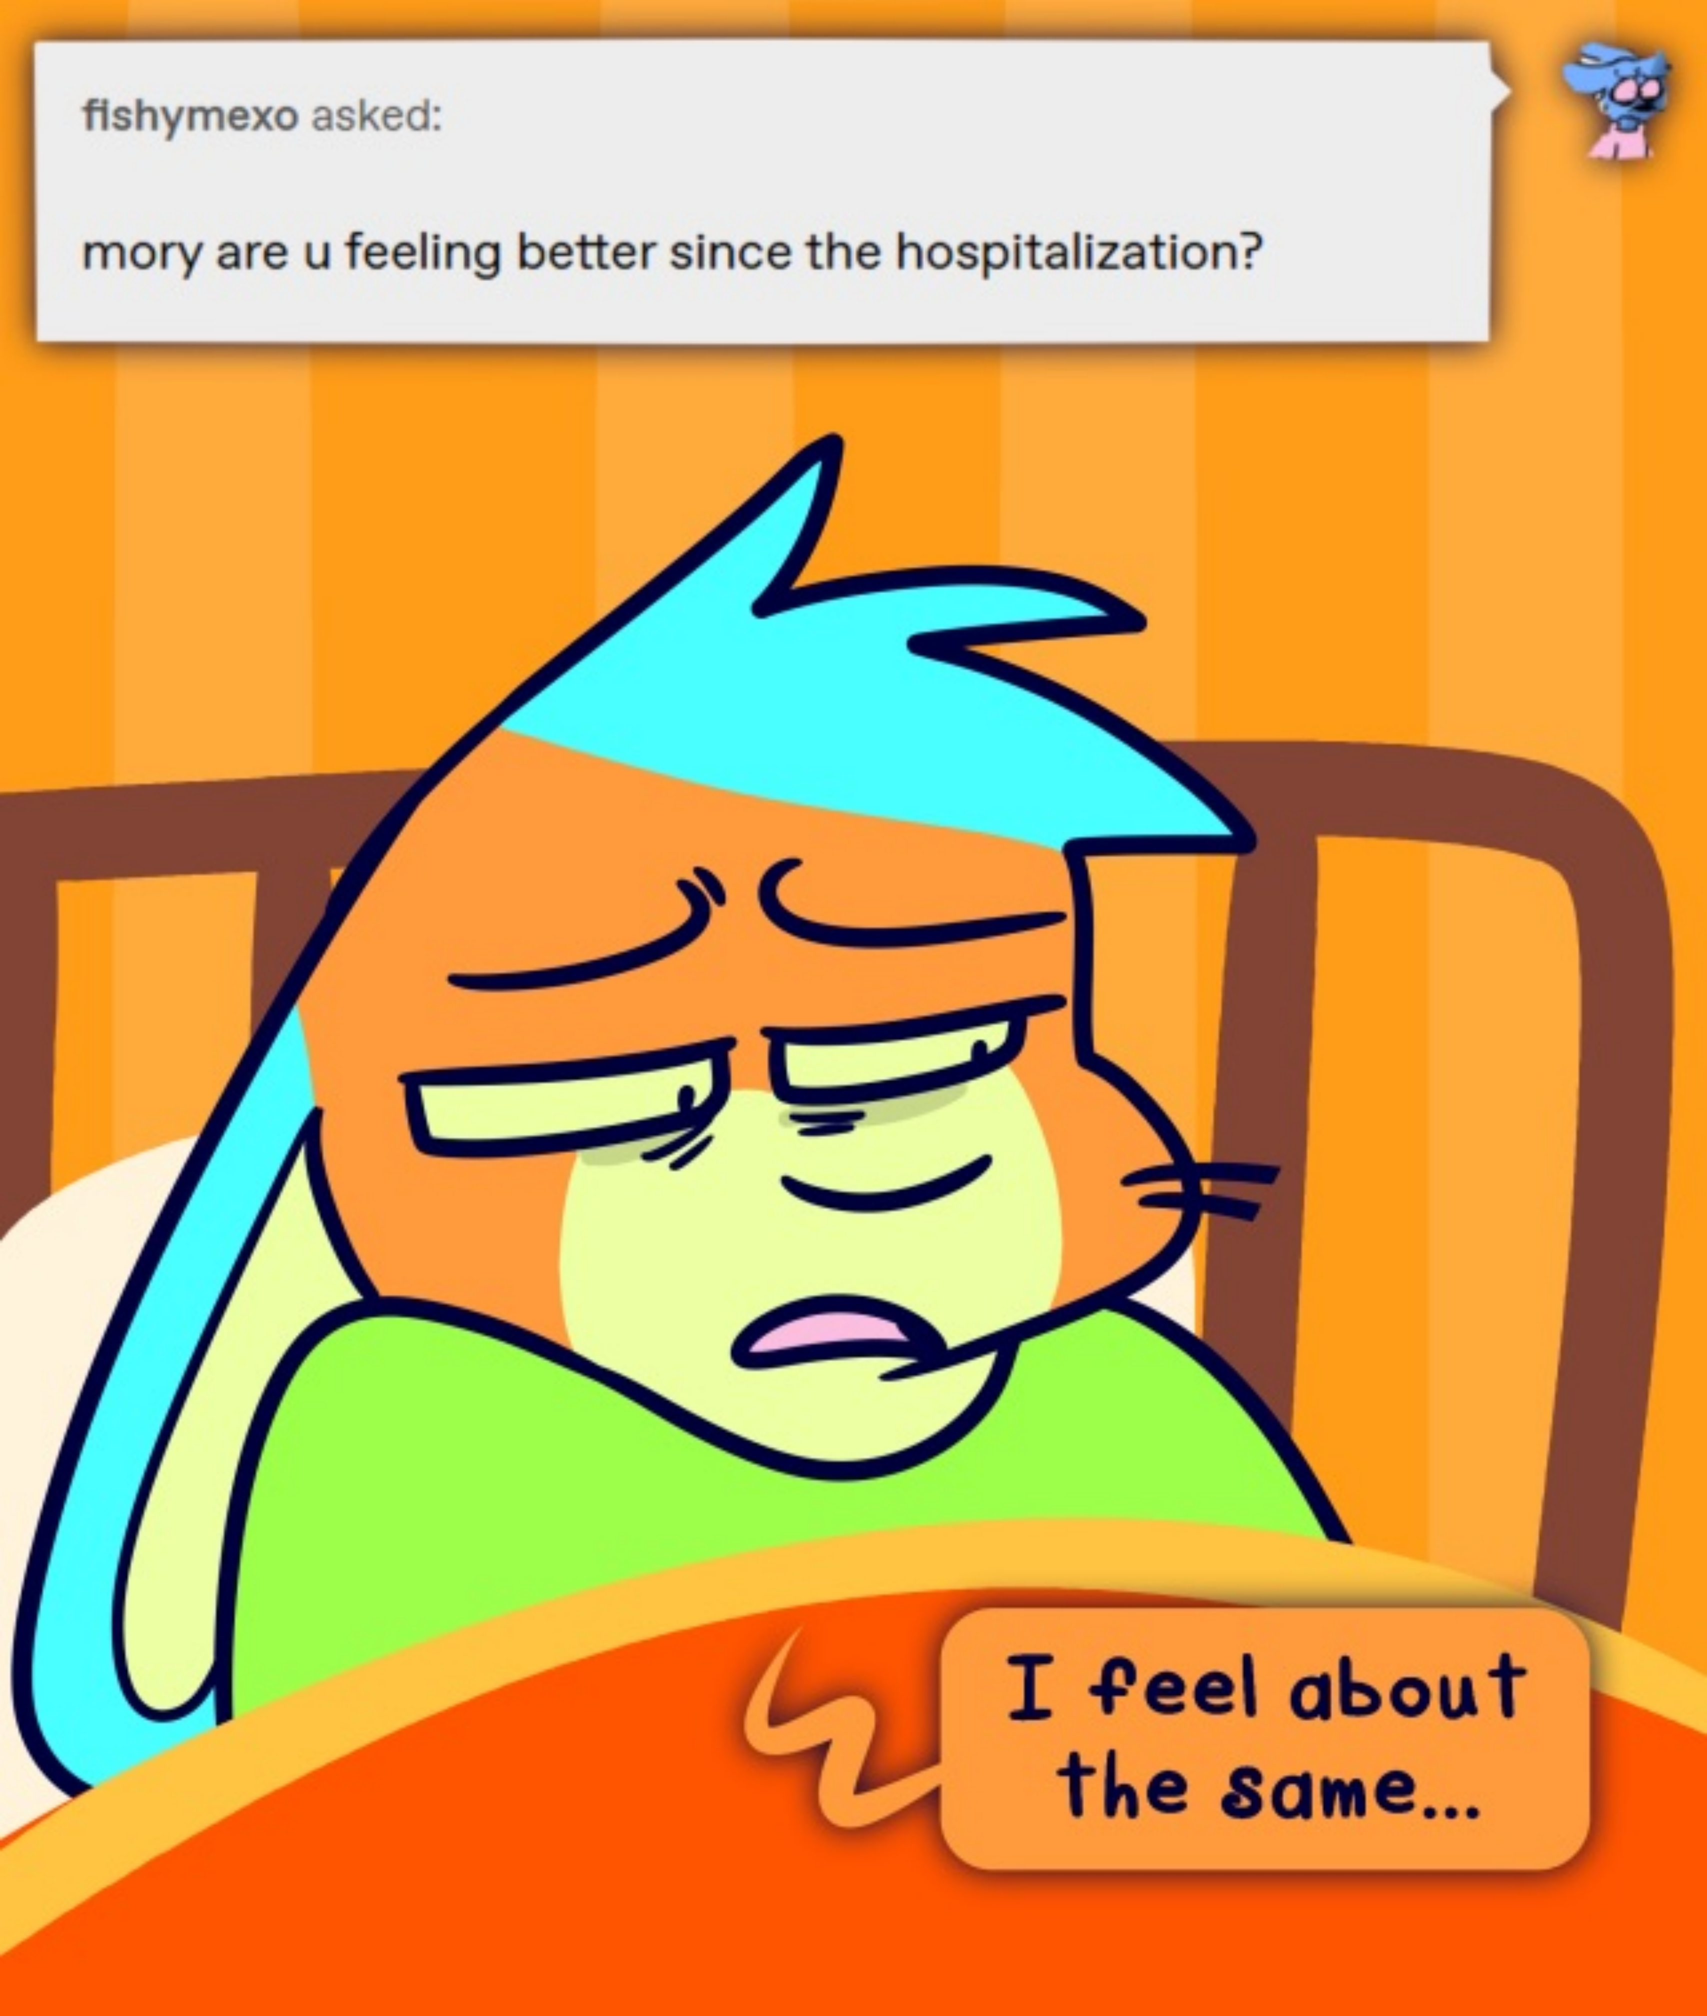
s'more !!!!!! we missed you !!! what are these photos on your wall ?

They're photos taken from when we first met, and then we retook the photo once we finished adolescent training.



We were dating by that point. We didn't tell anyone at first... but it turns out everyone around us already thought we were... oops.

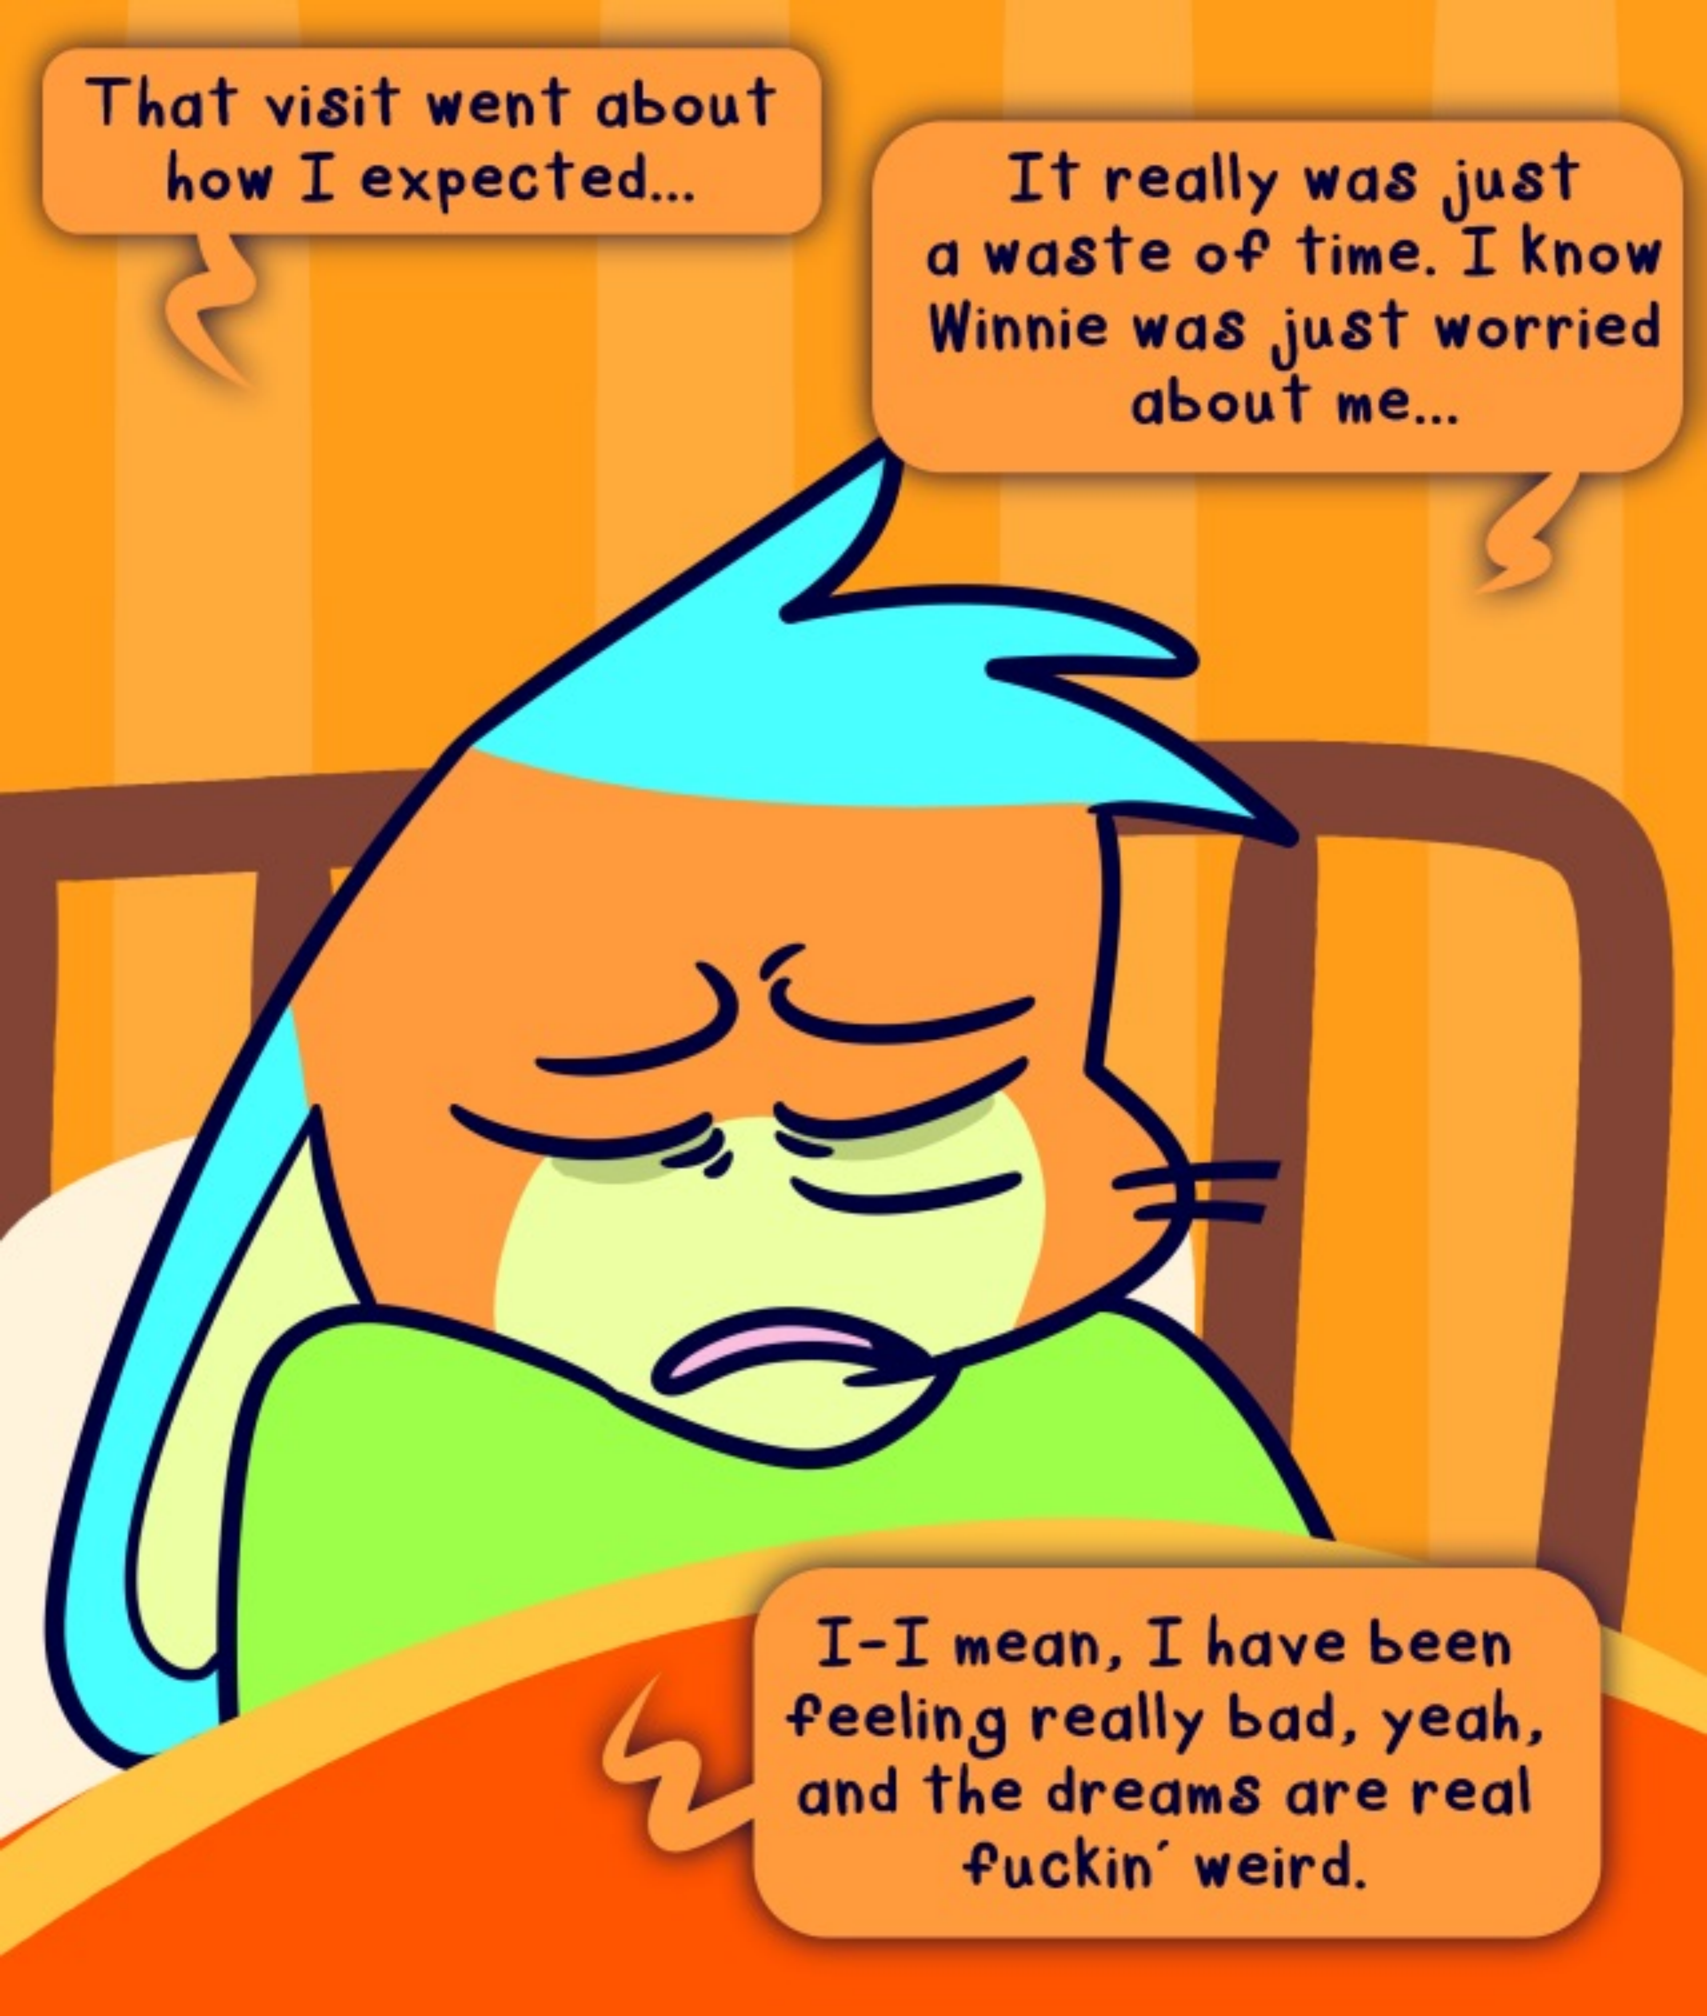




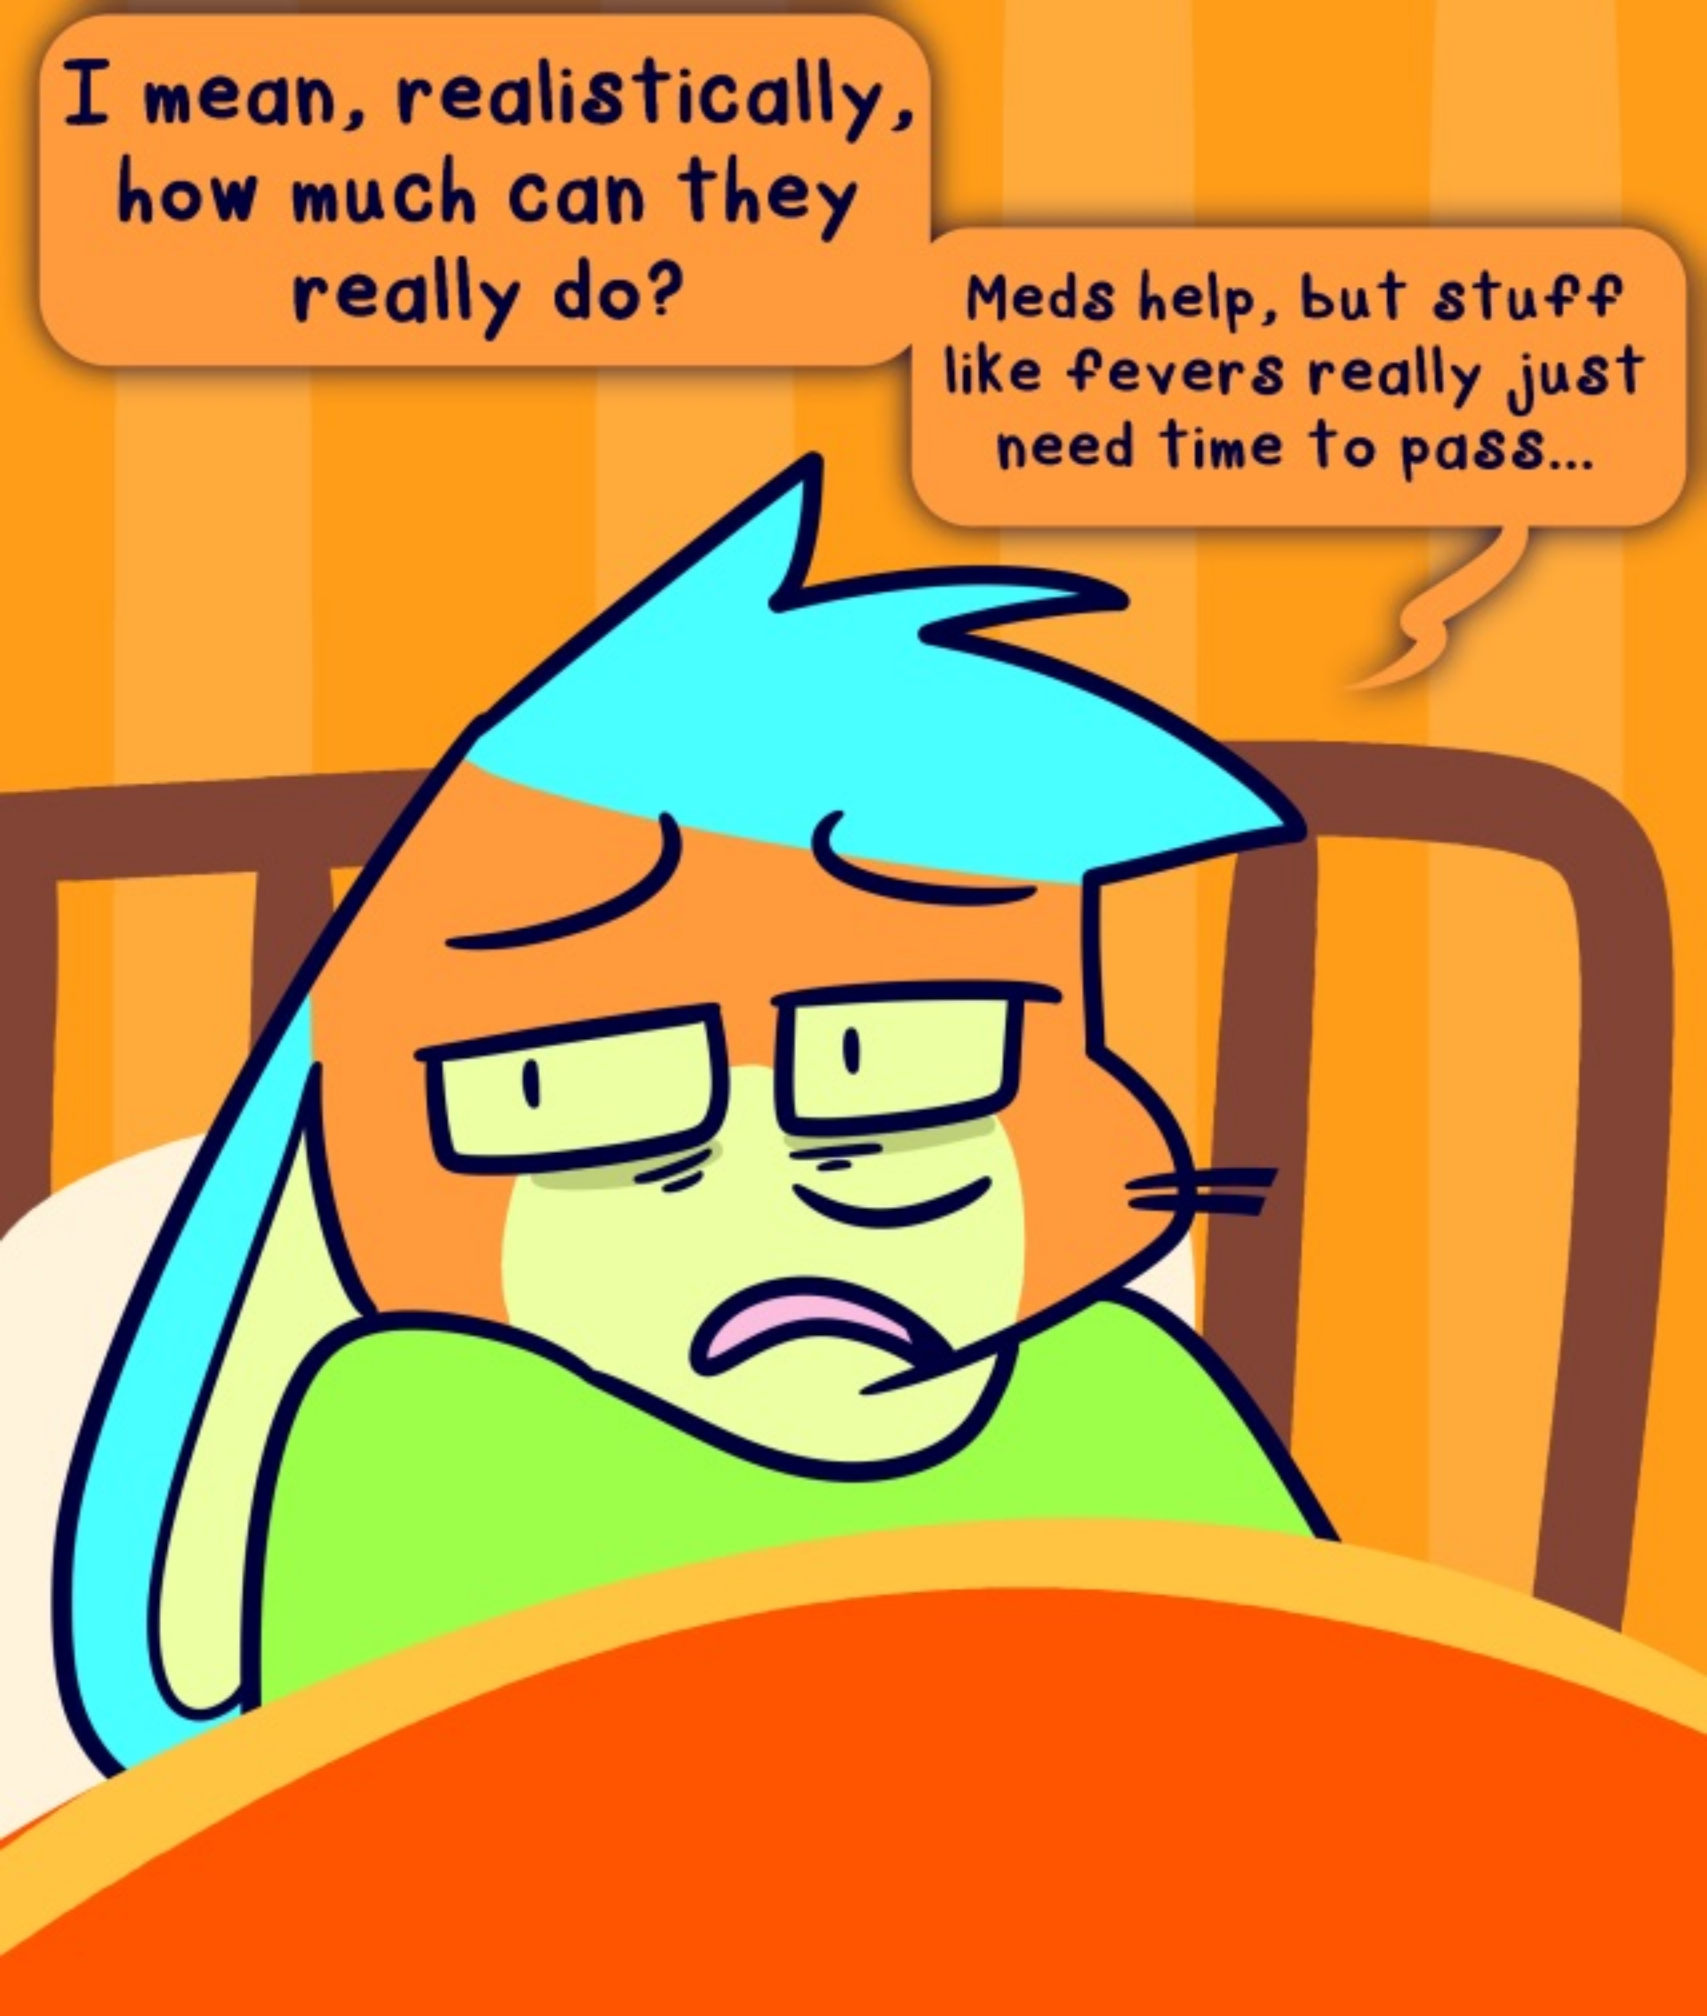
fishymexo asked:

mory are u feeling better since the hospitalization?

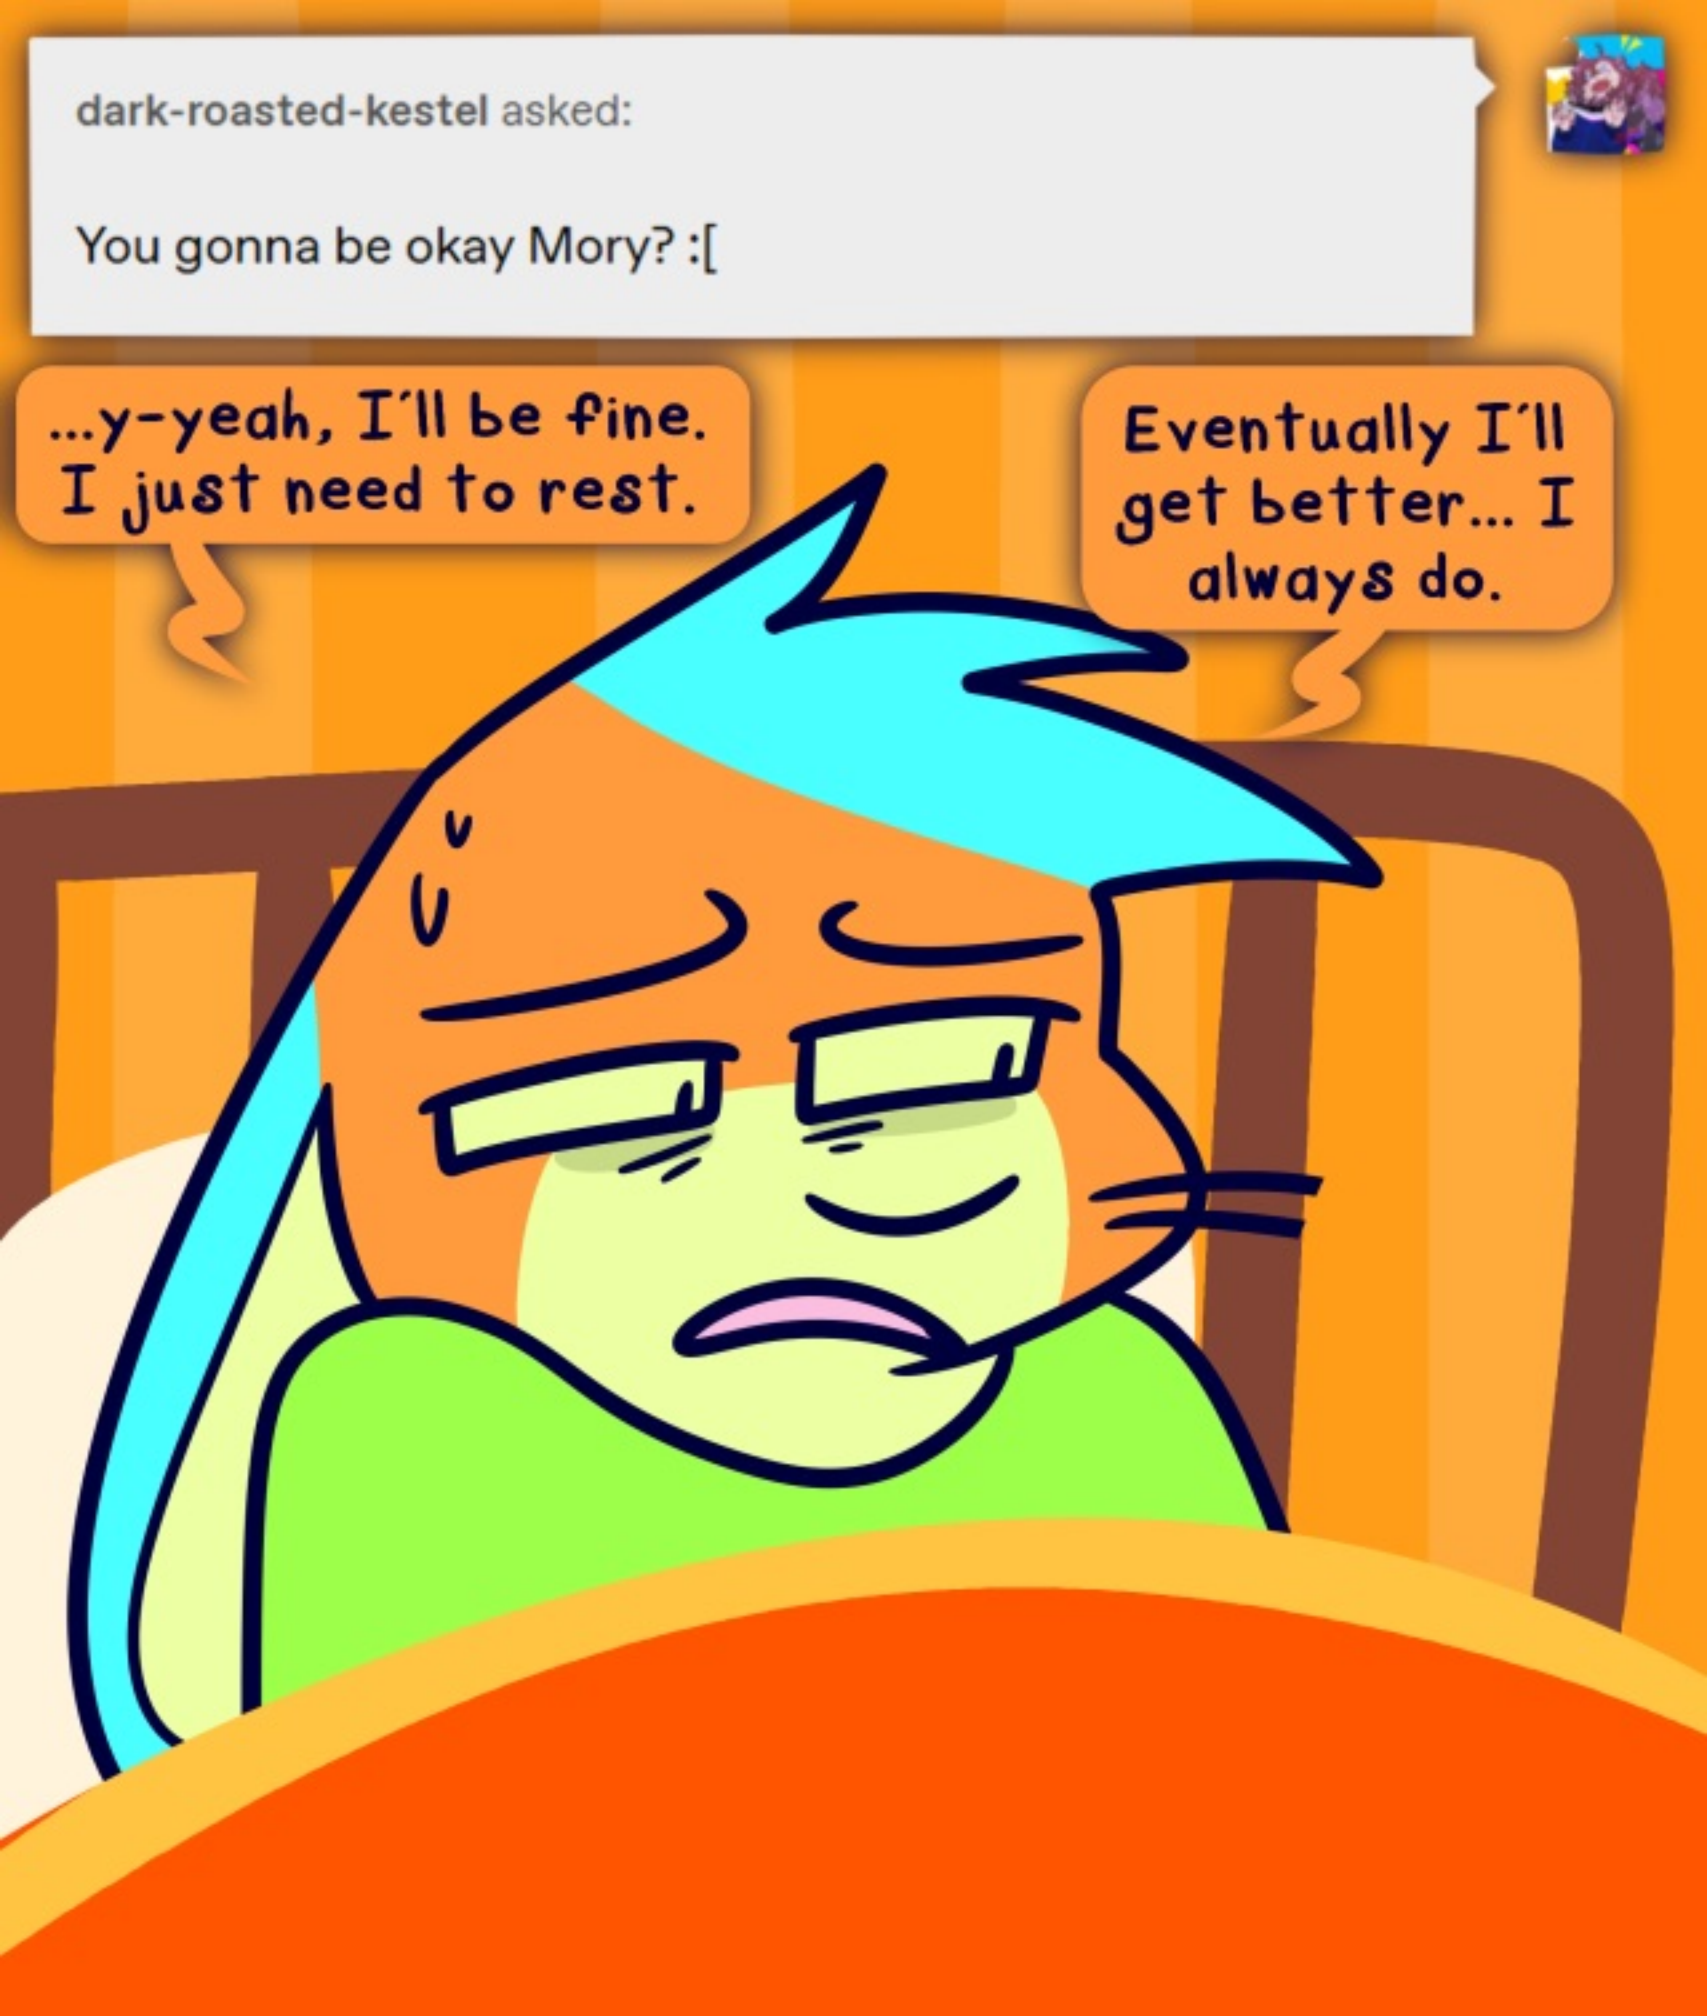
I feel about the same...



That visit went about how I expected...
It really was just a waste of time. I know Winnie was just worried about me...
I-I mean, I have been feeling really bad, yeah, and the dreams are real fuckin´ weird.



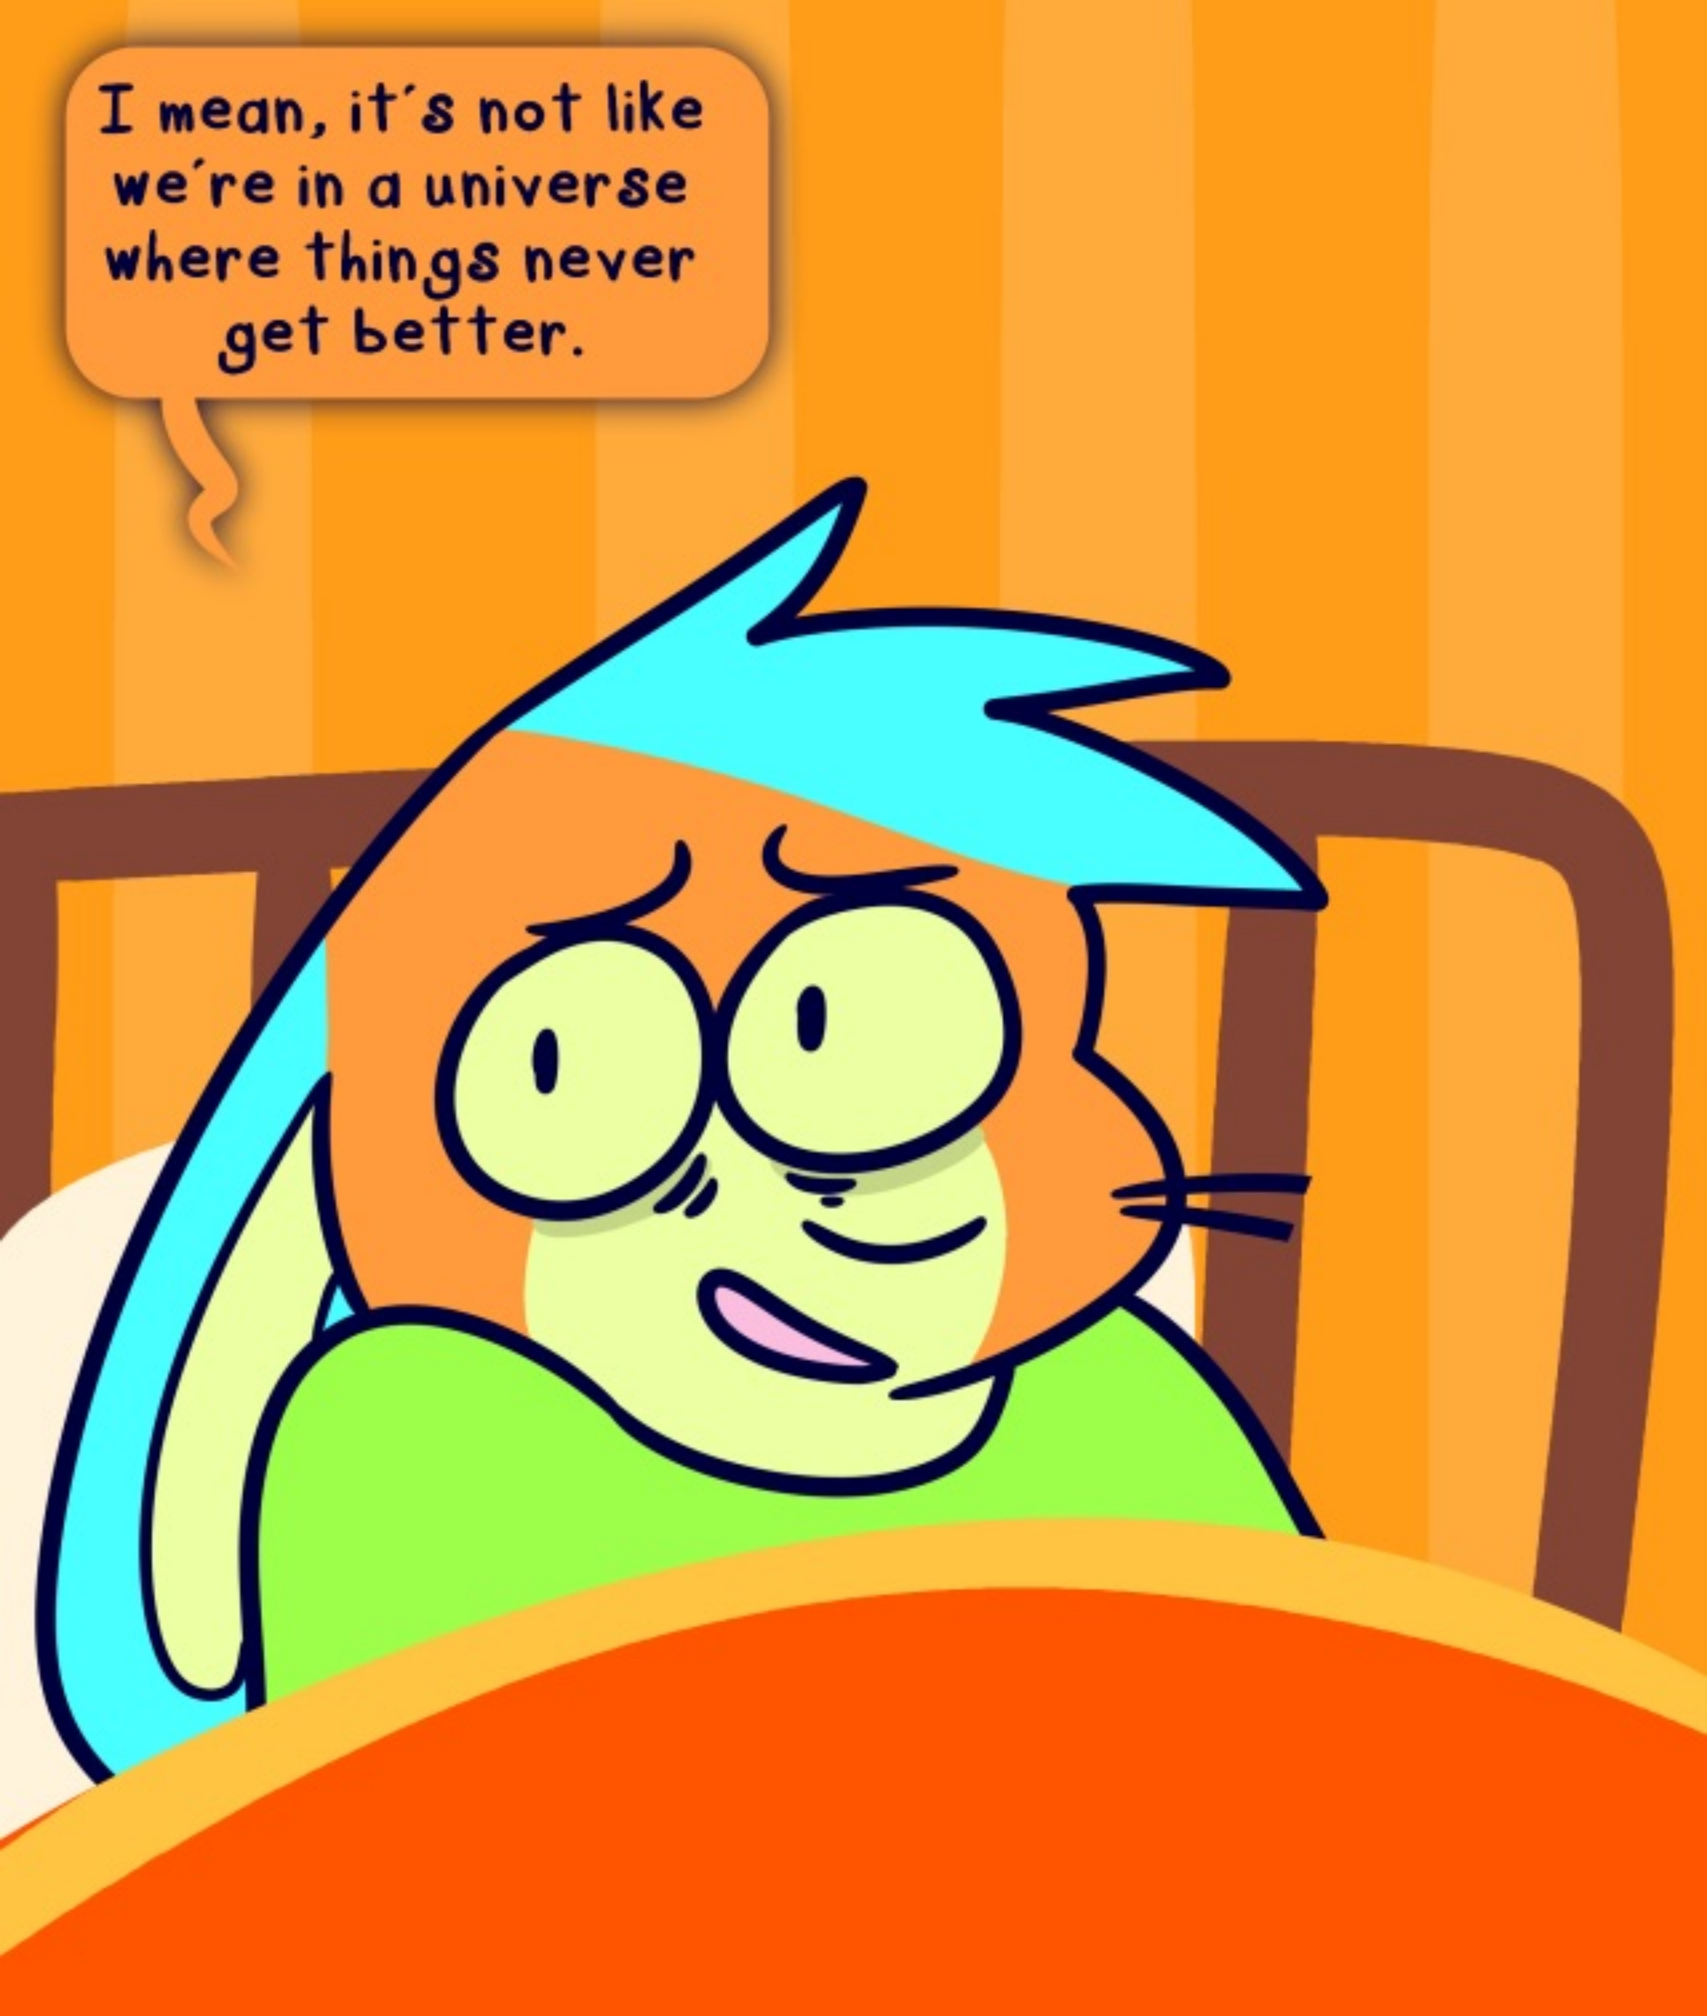
I mean, realistically, how much can they really do?
Meds help, but stuff like fevers really just need time to pass...



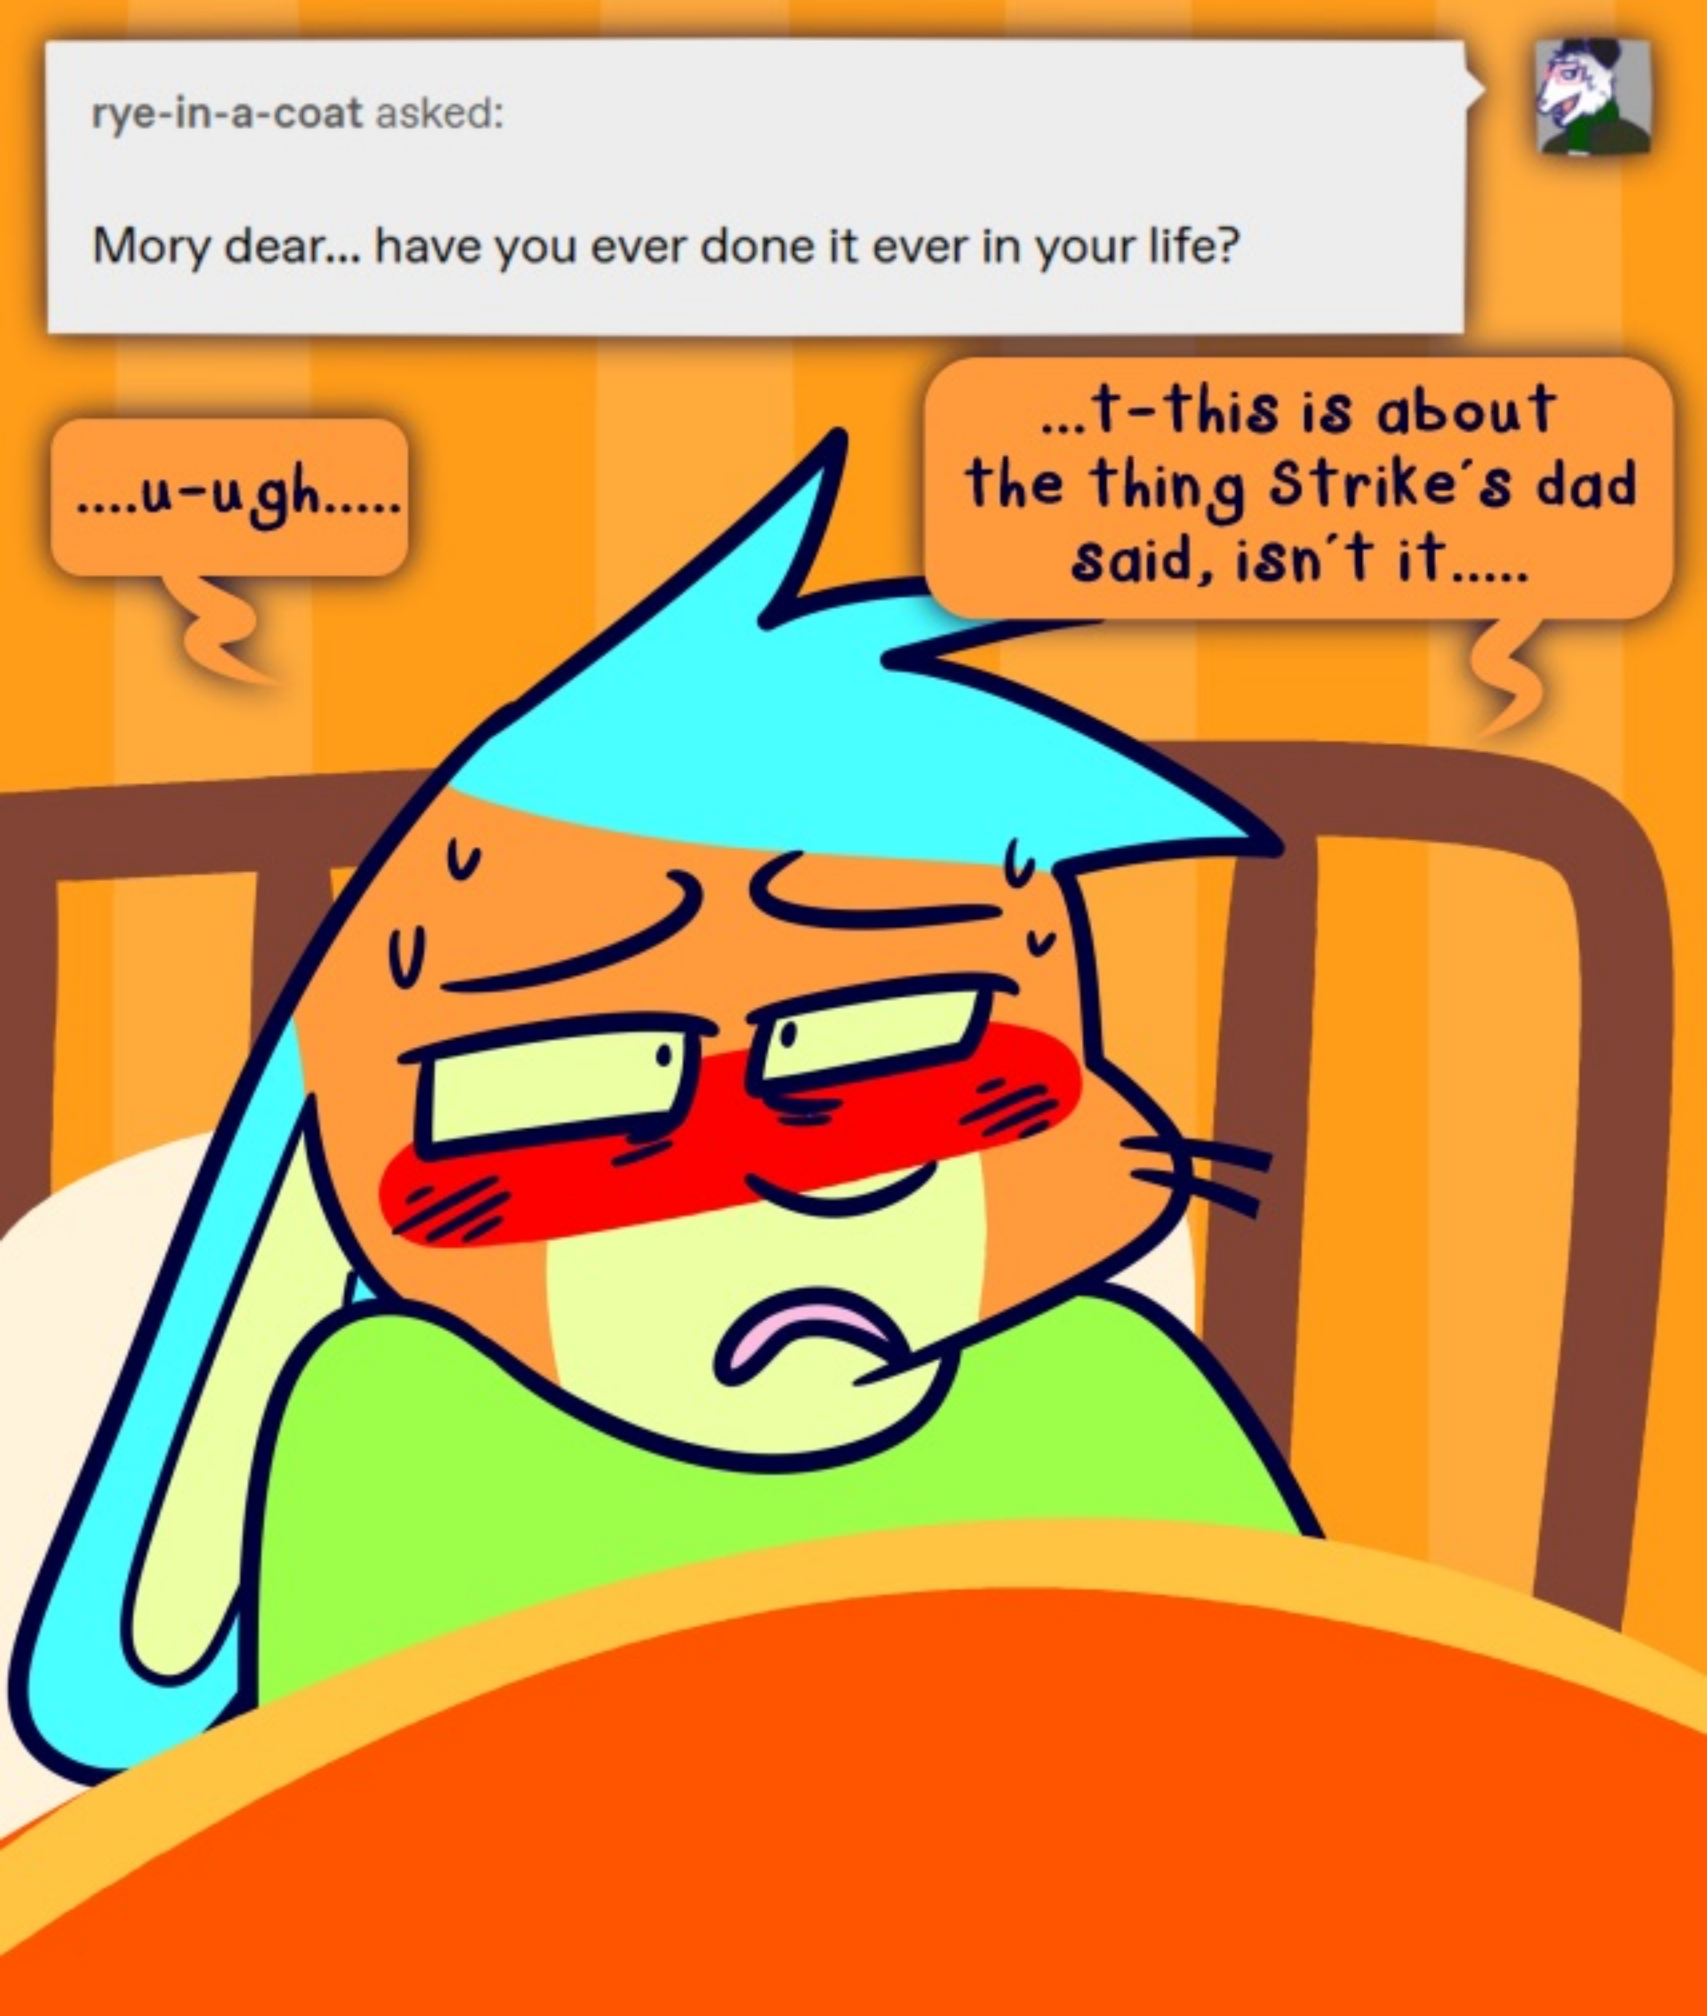
dark-roasted-kestel asked:

You gonna be okay Mory? :[

...y-yeah, I'll be fine. I just need to rest.
Eventually I'll get better... I always do.



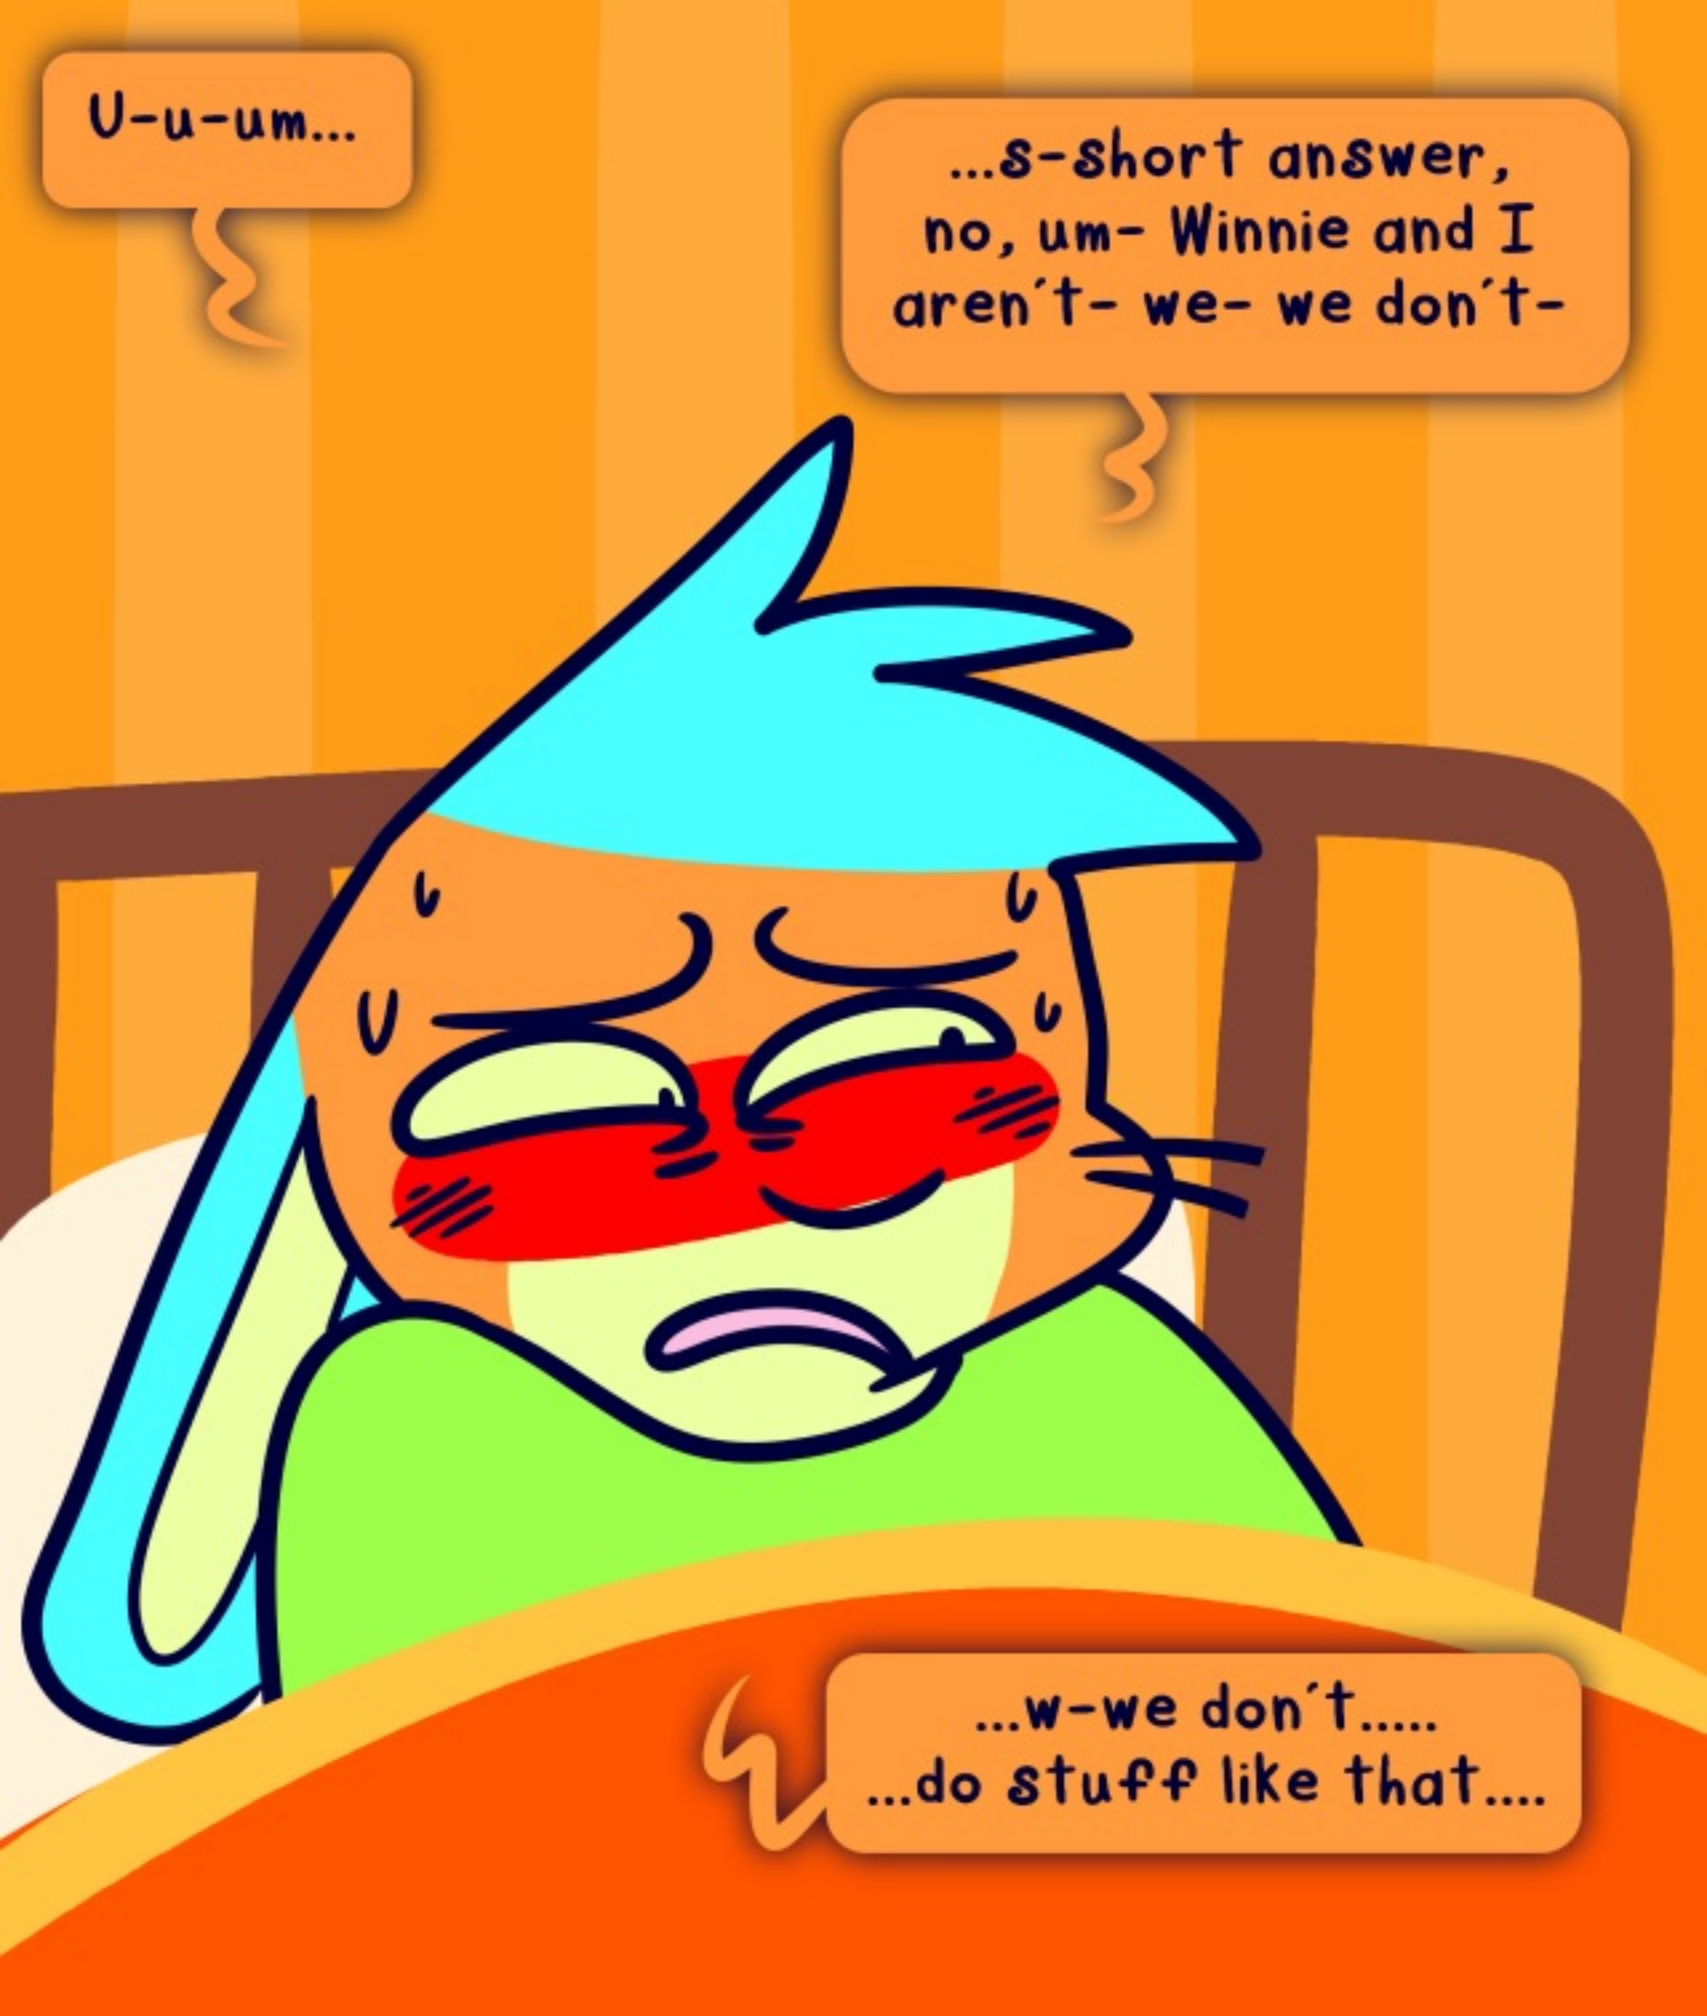
I mean, it's not like we're in a universe where things never get better.



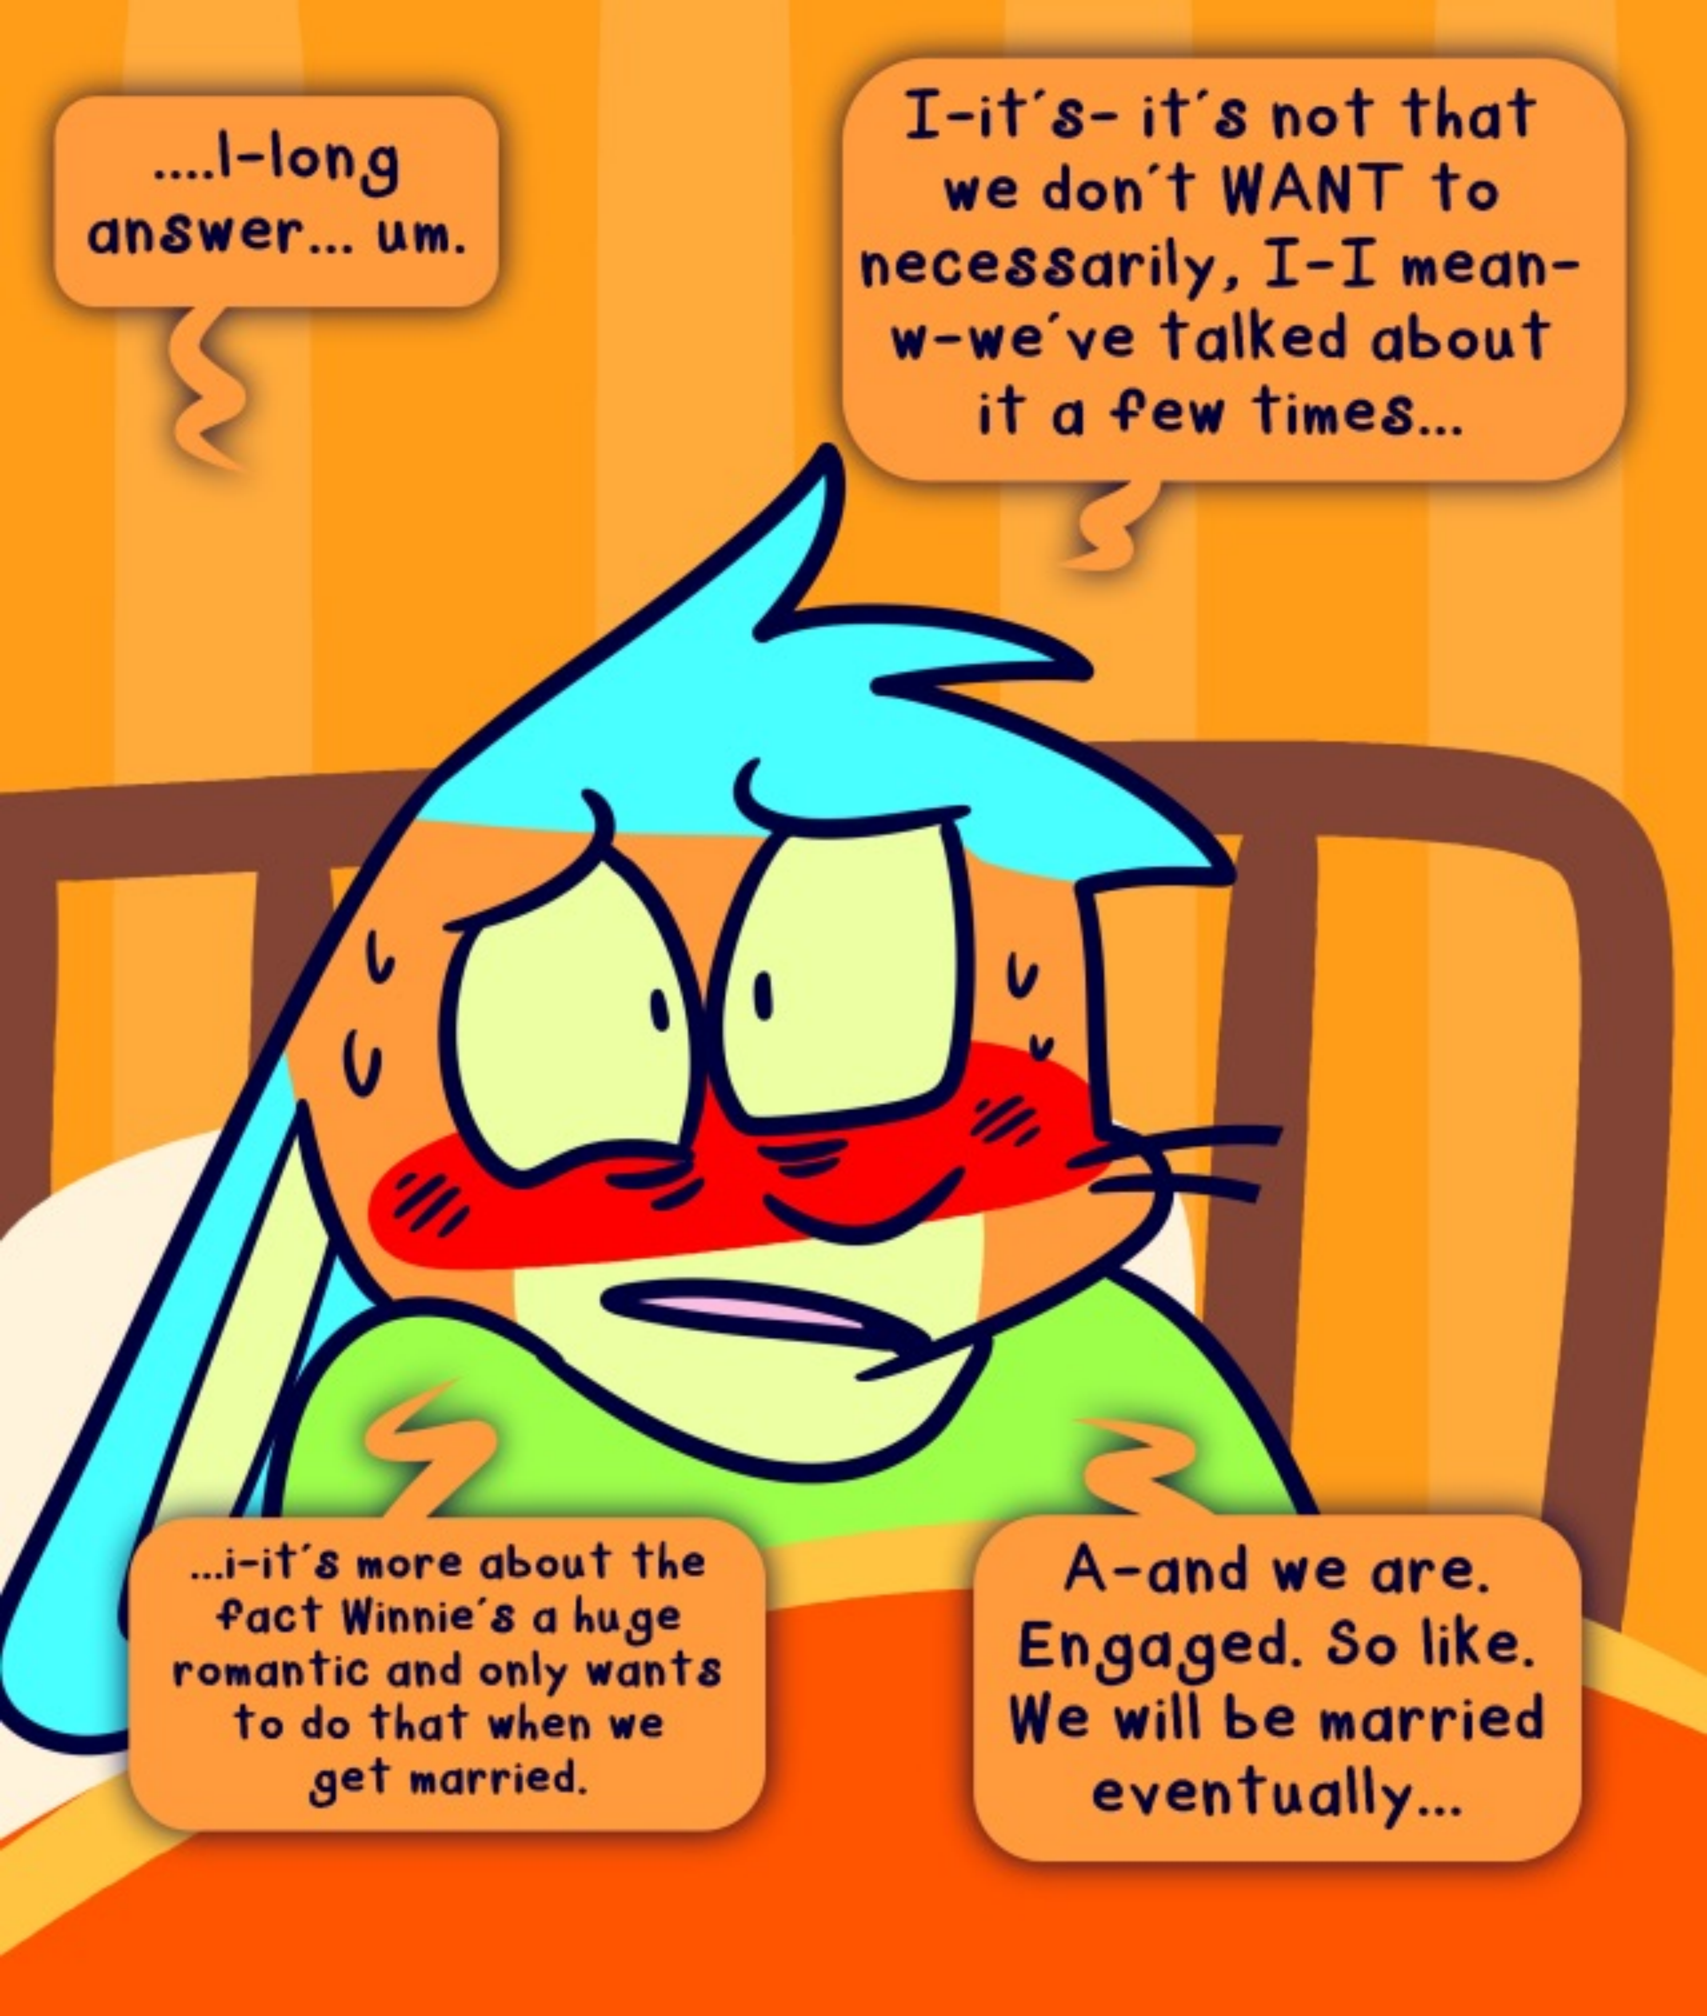
rye-in-a-coat asked:

Mory dear... have you ever done it ever in your life?

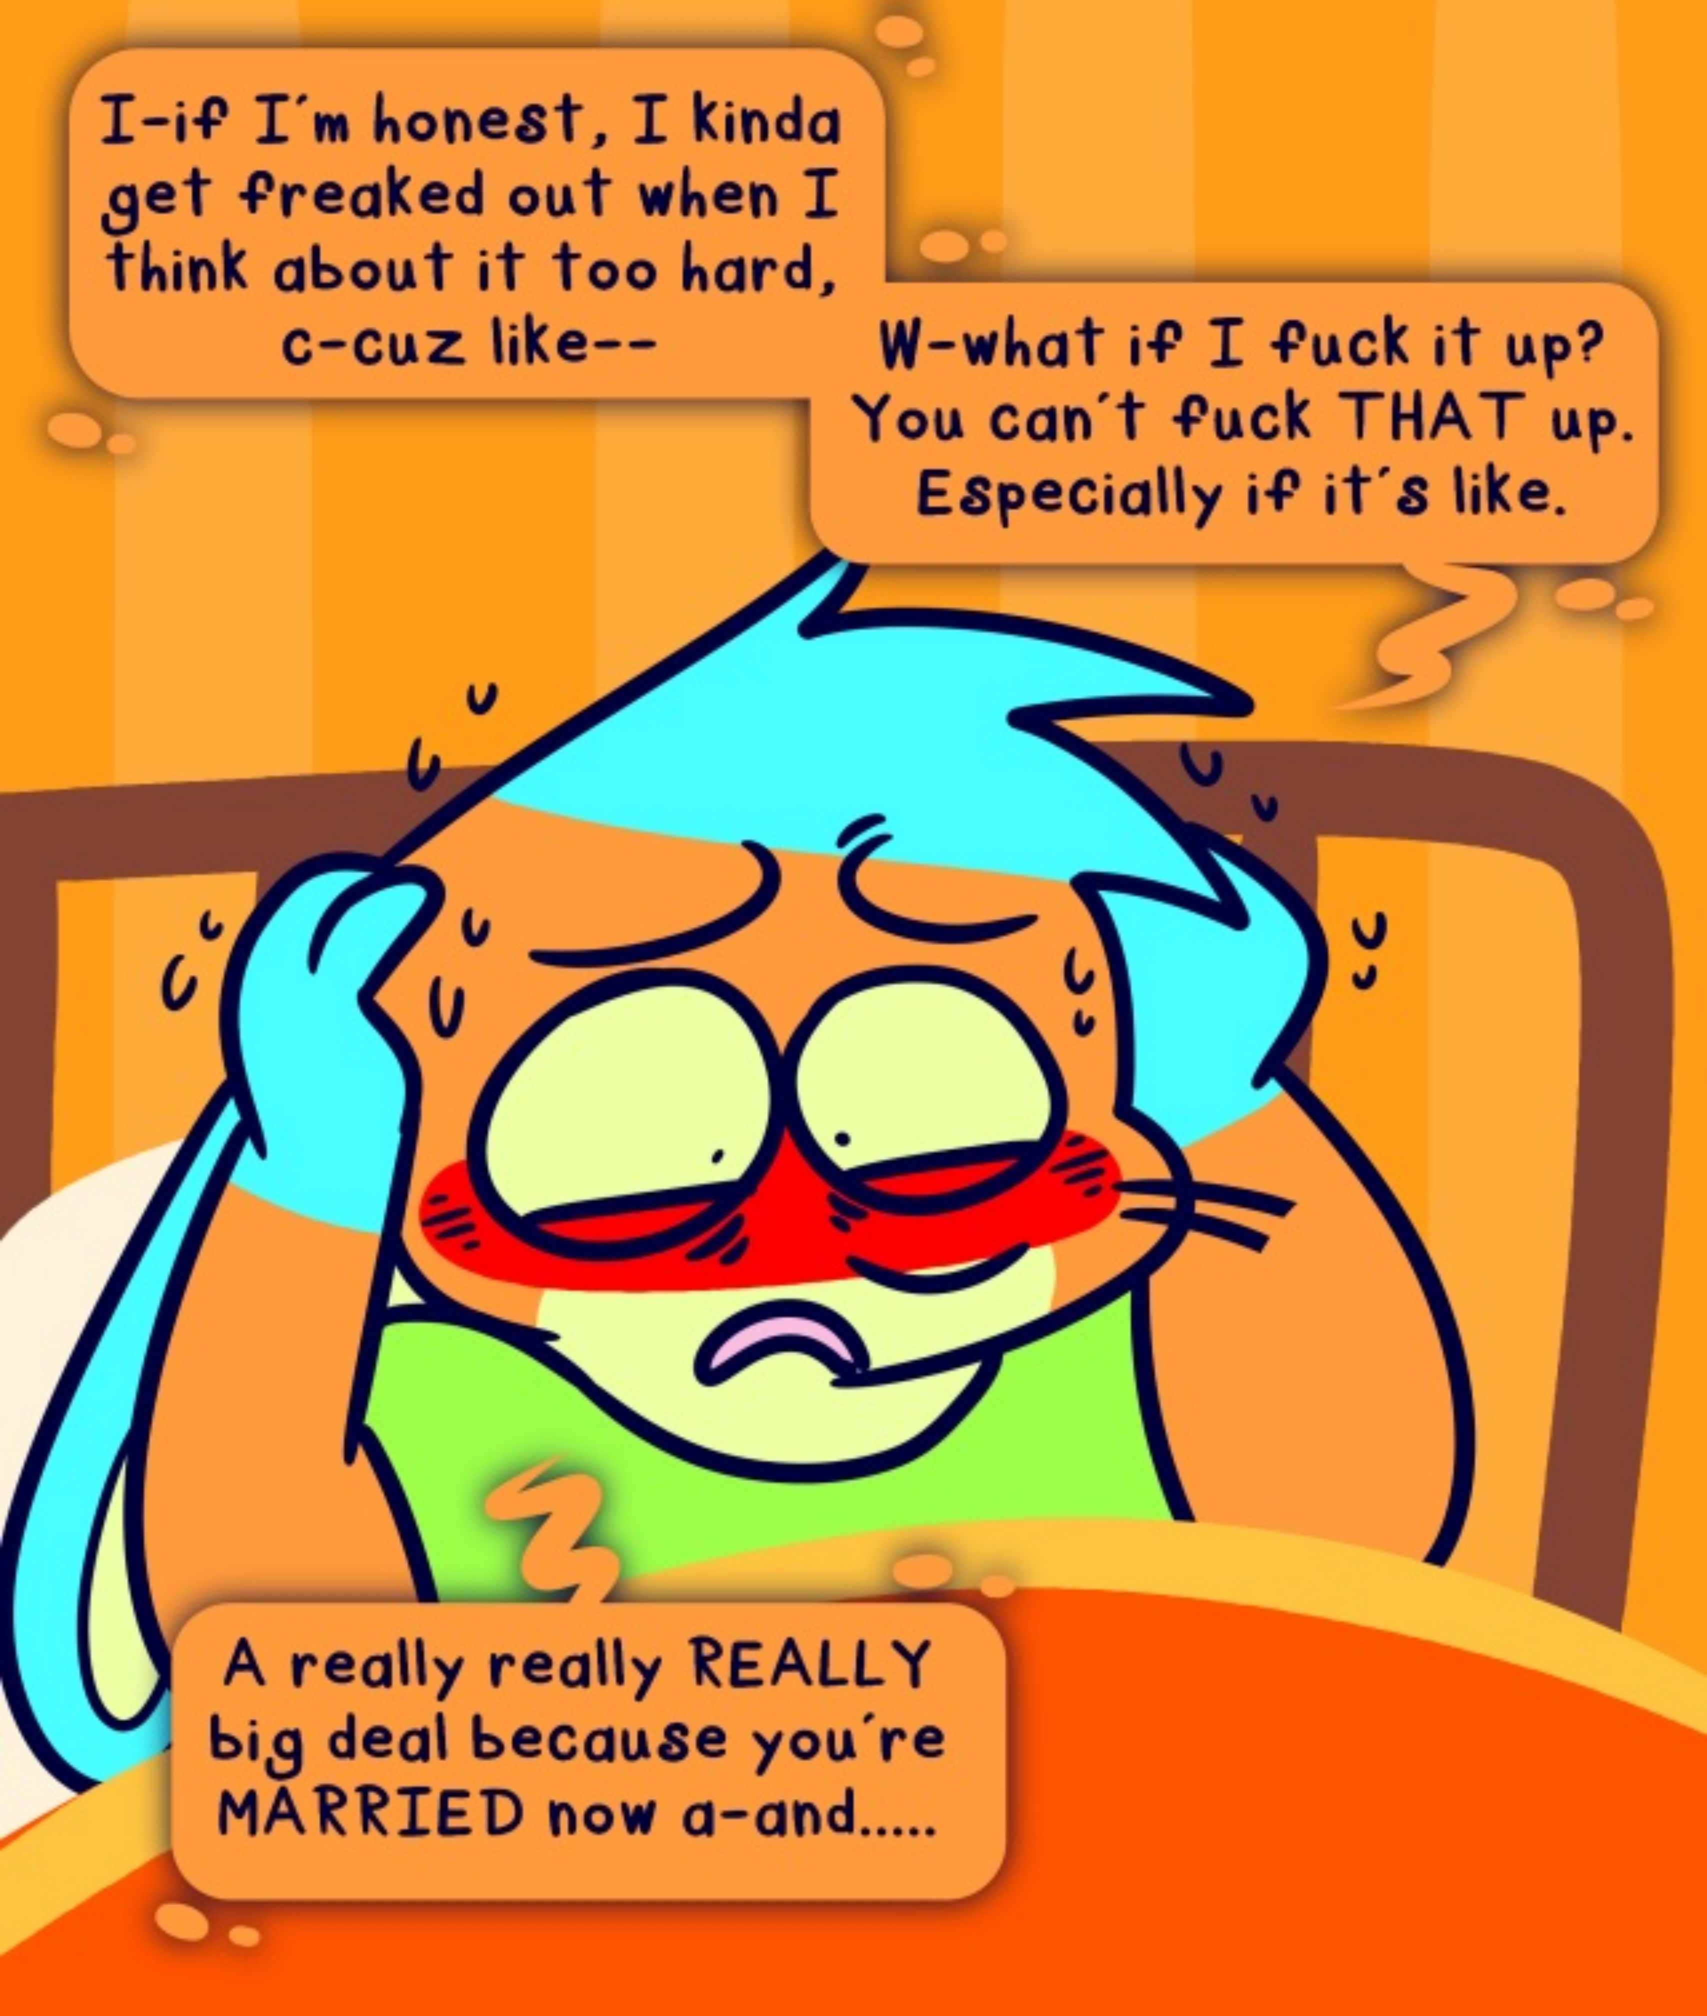
....u-ugh.....
...t-this is about the thing Strike's dad said, isn't it.....



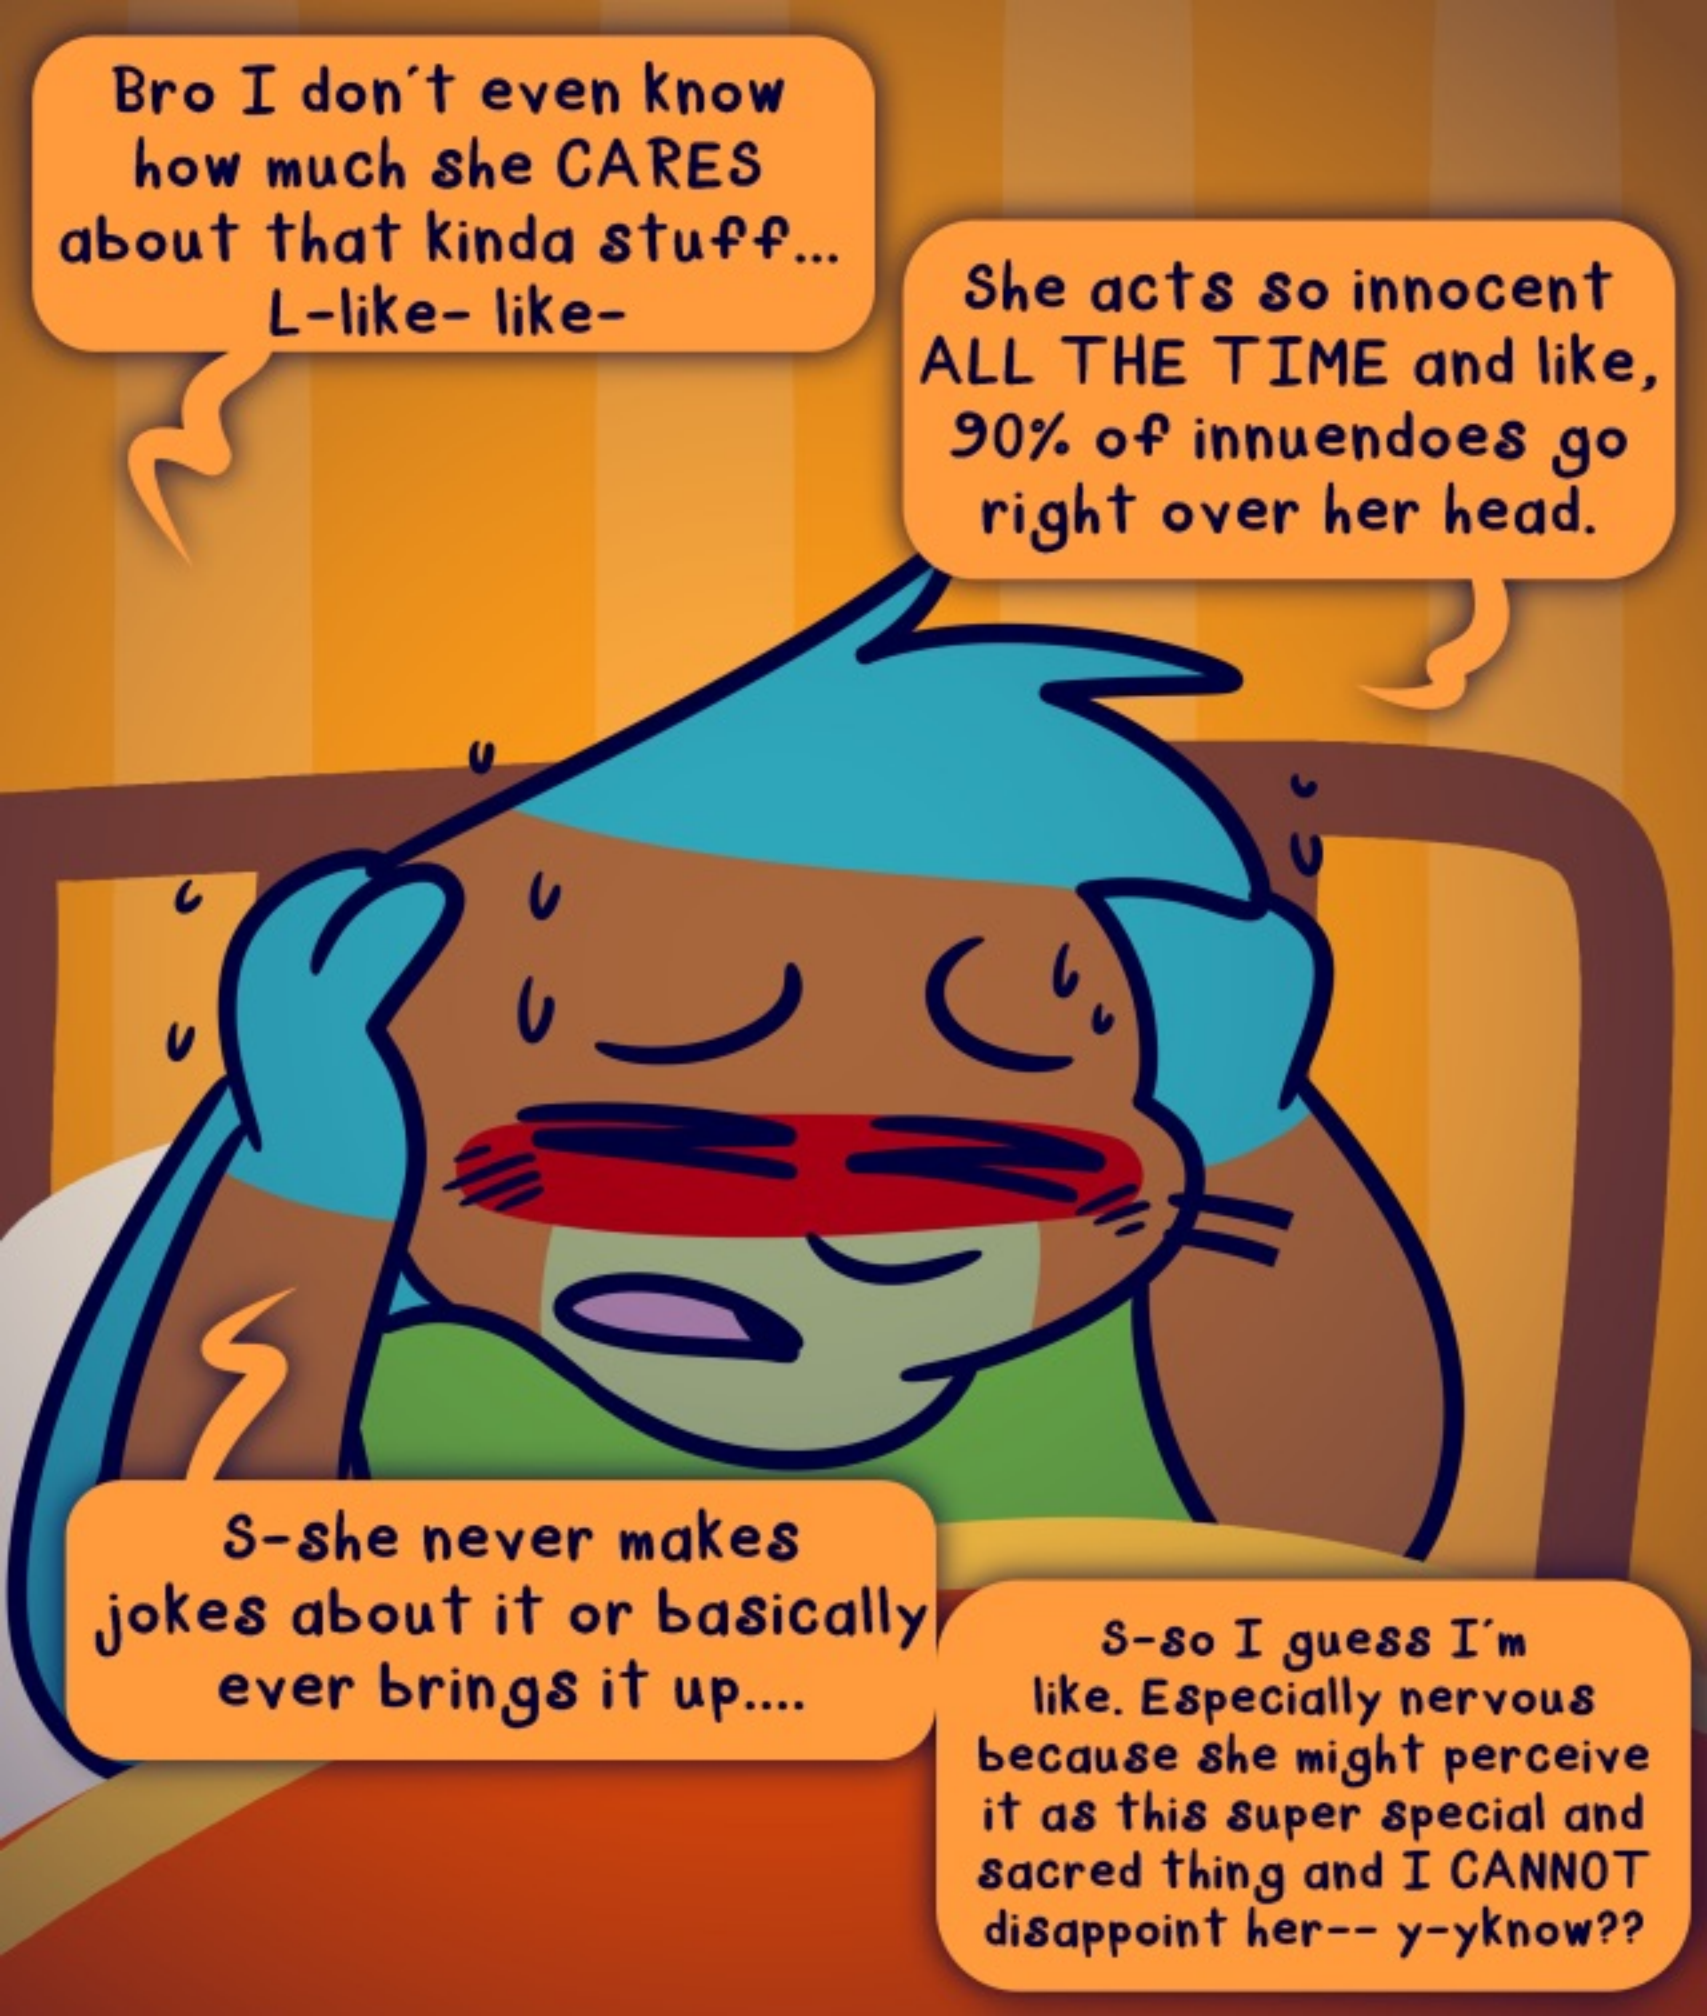
U-u-um...
...s-short answer, no, um- Winnie and I aren´t- we- we don´t-
...w-we don´t..... ...do stuff like that....



....l-long answer... um.
I-it's- it's not that we don't WANT to necessarily, I-I mean- w-we've talked about it a few times...
...i-it's more about the fact Winnie's a huge romantic and only wants to do that when we get married.
A-and we are. Engaged. So like. We will be married eventually...



I-if I'm honest, I kinda get freaked out when I think about it too hard, c-cuz like--
W-what if I fuck it up? You can't fuck THAT up. Especially if it's like.
A really really REALLY big deal because you're MARRIED now a-and.....



Bro I don't even know how much she CARES about that kinda stuff... L-like- like-
She acts so innocent ALL THE TIME and like, 90% of innuendoes go right over her head.
S-she never makes jokes about it or basically ever brings it up....
S-so I guess I'm like. Especially nervous because she might perceive it as this super special and sacred thing and I CANNOT disappoint her-- y-yknow??

THE SCIENCE BEHIND MAGIC

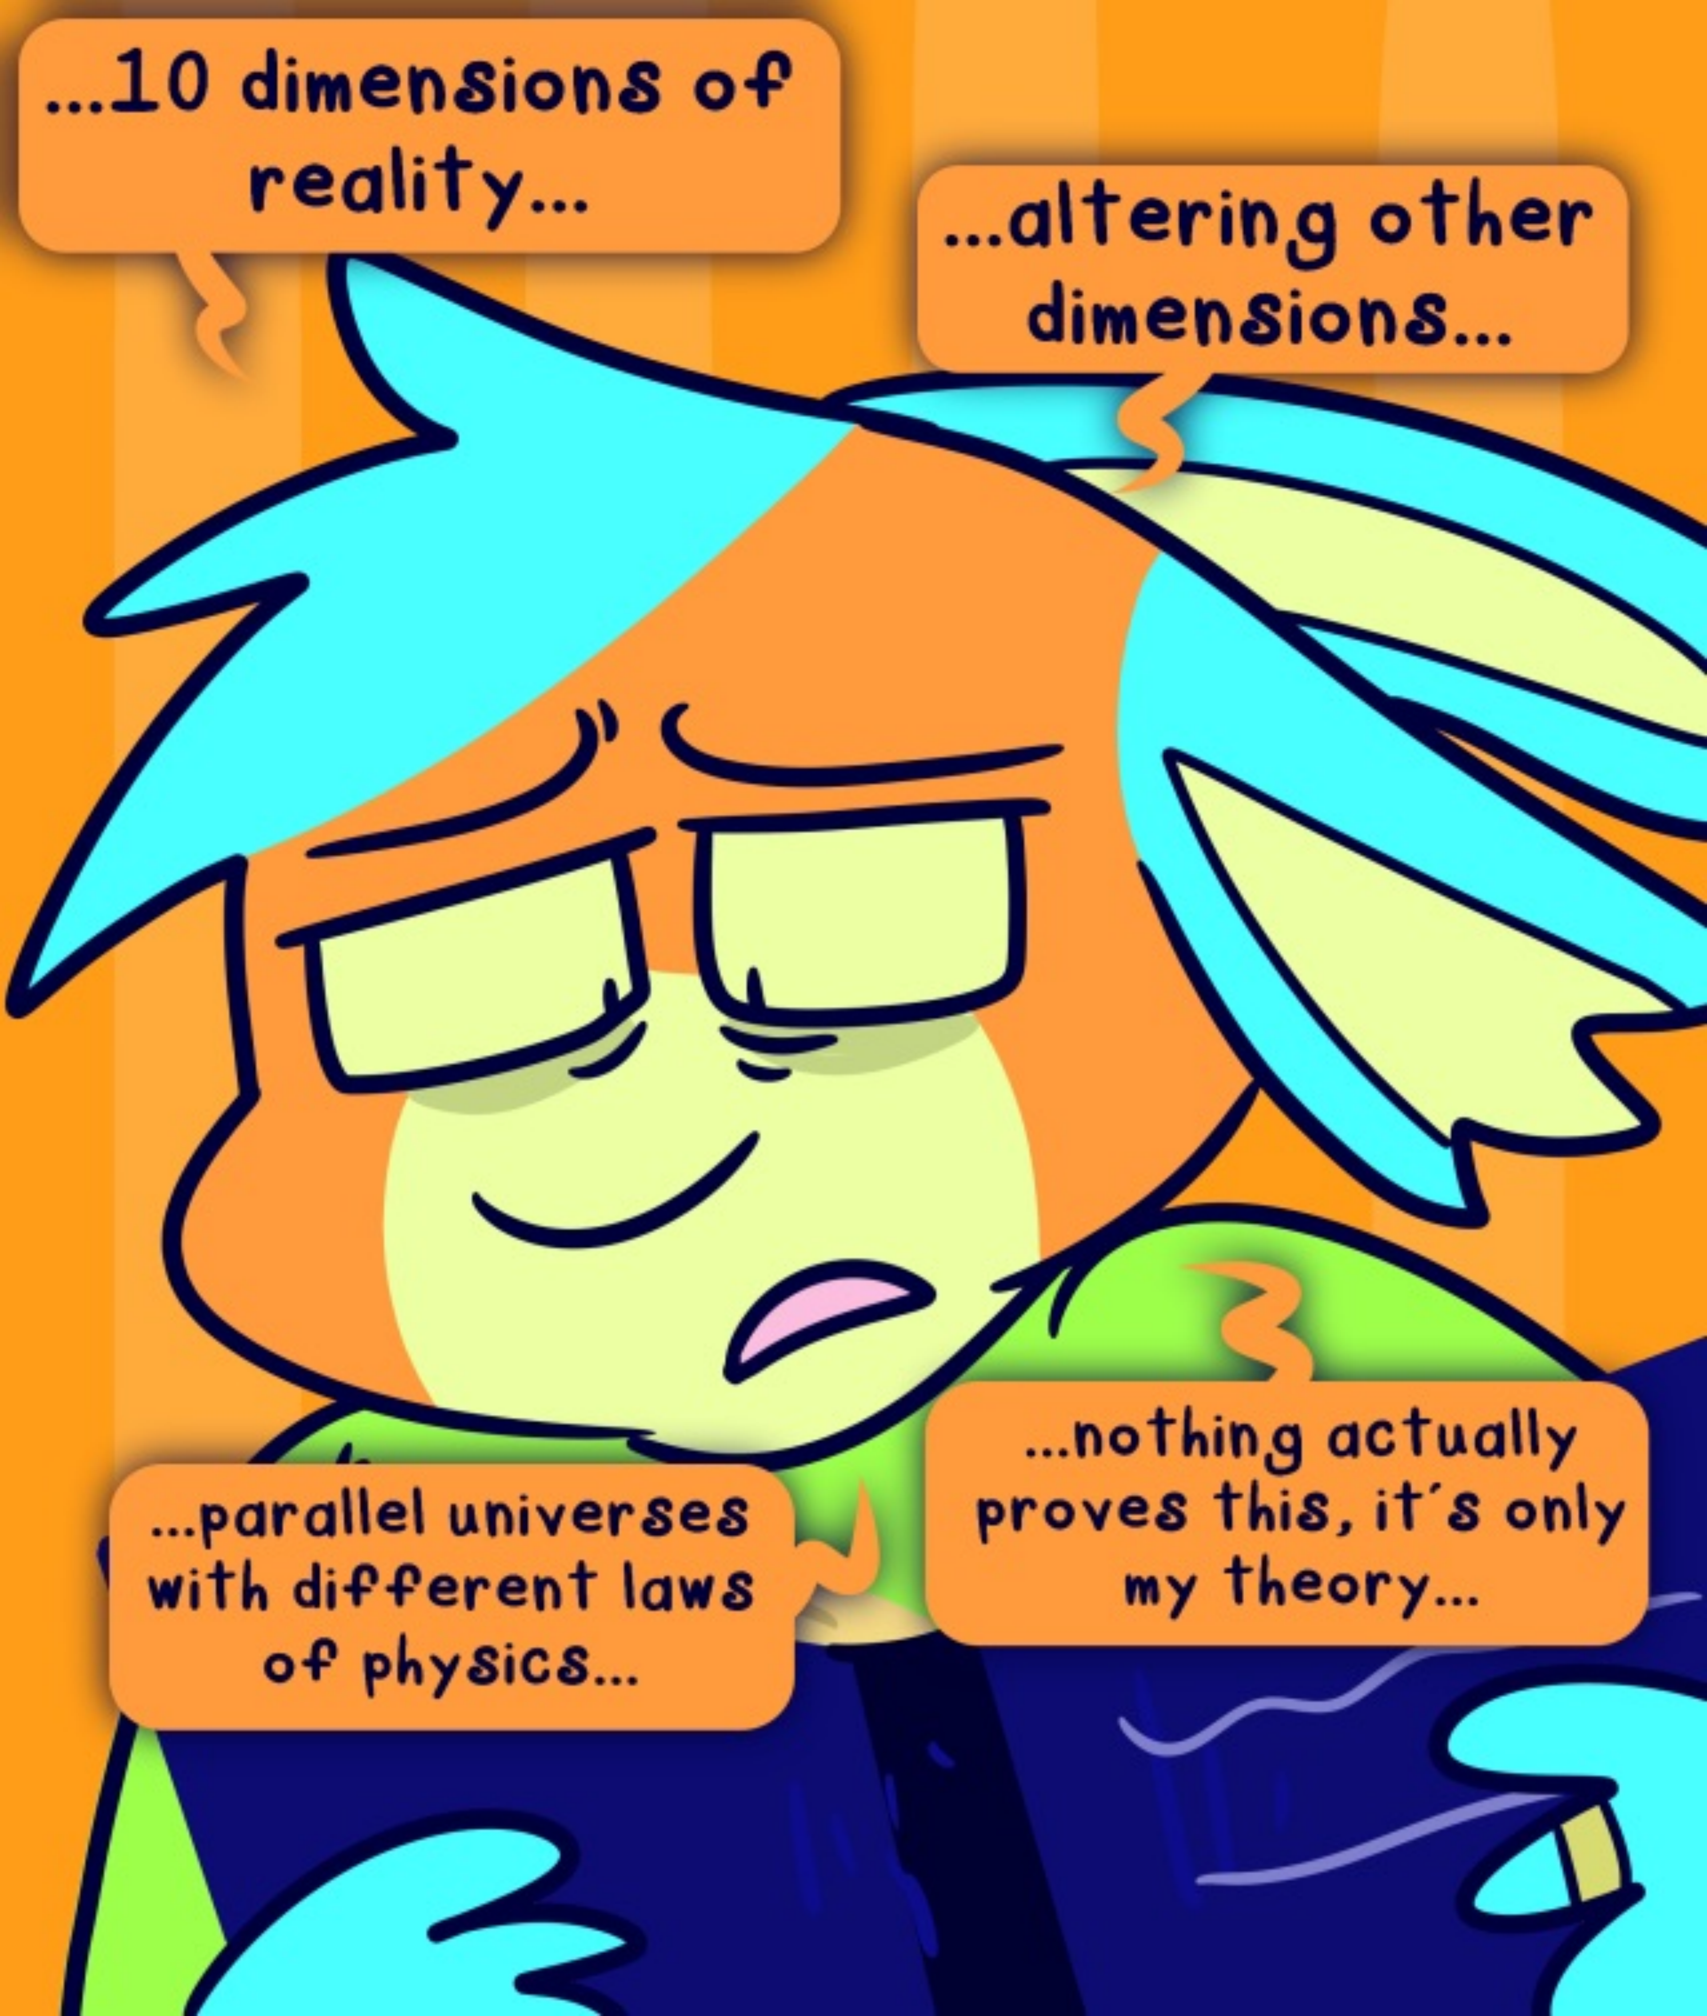
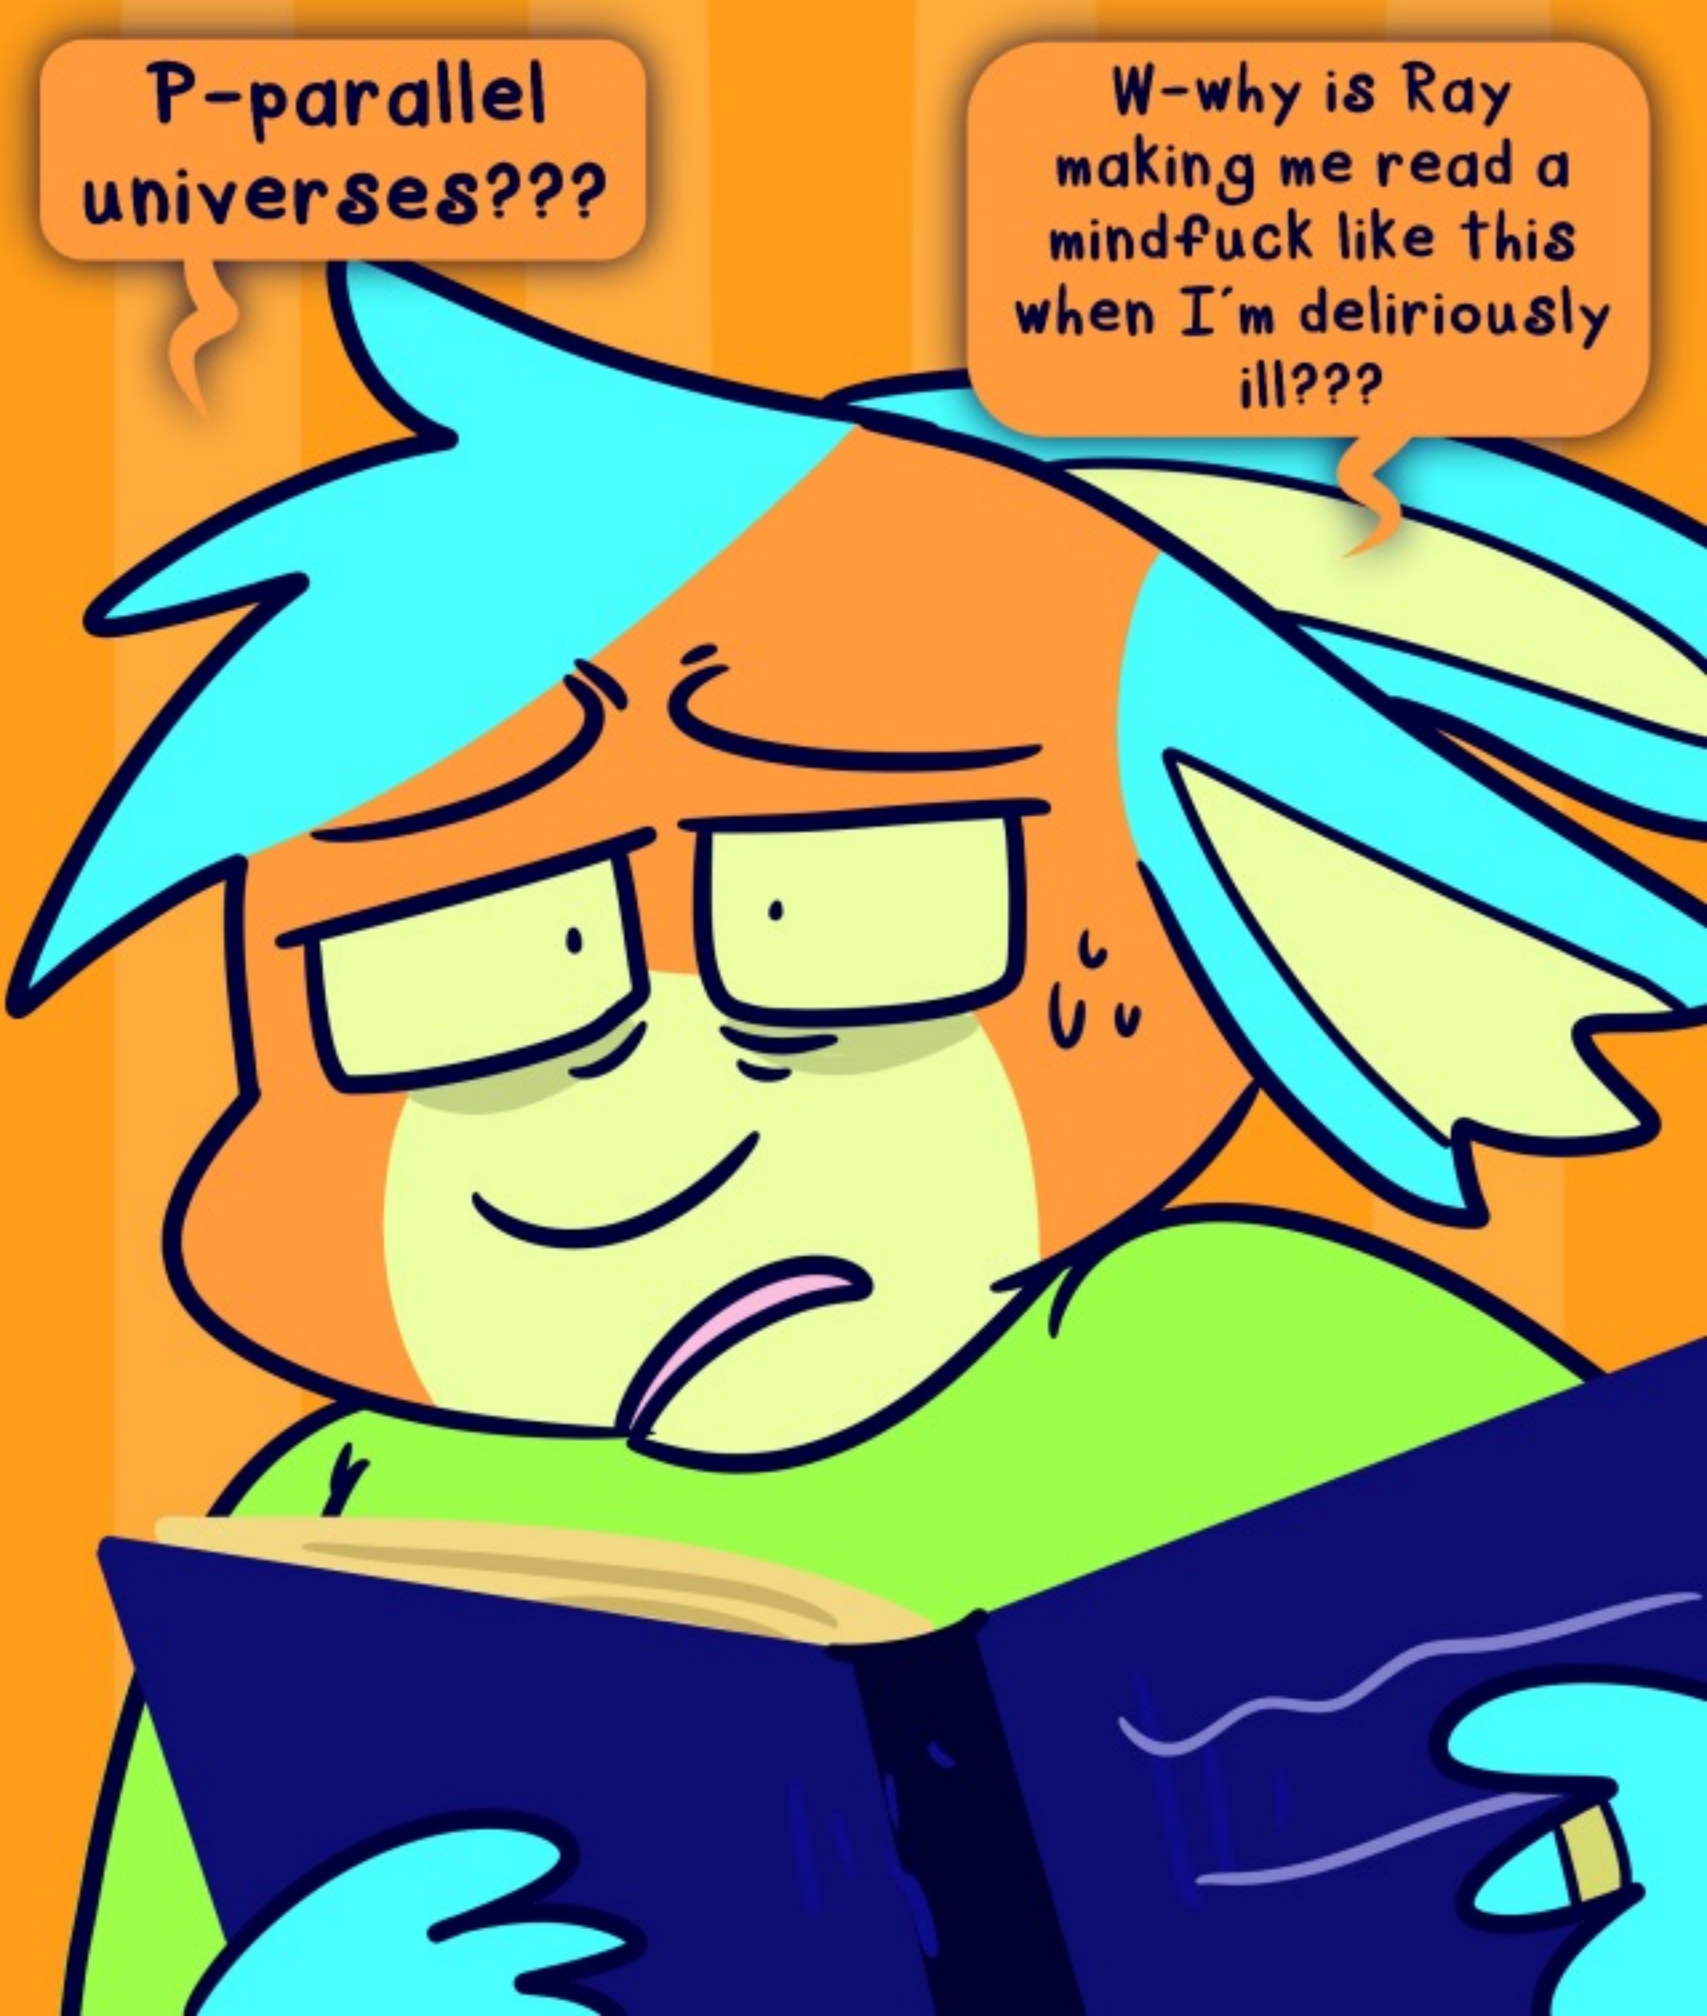
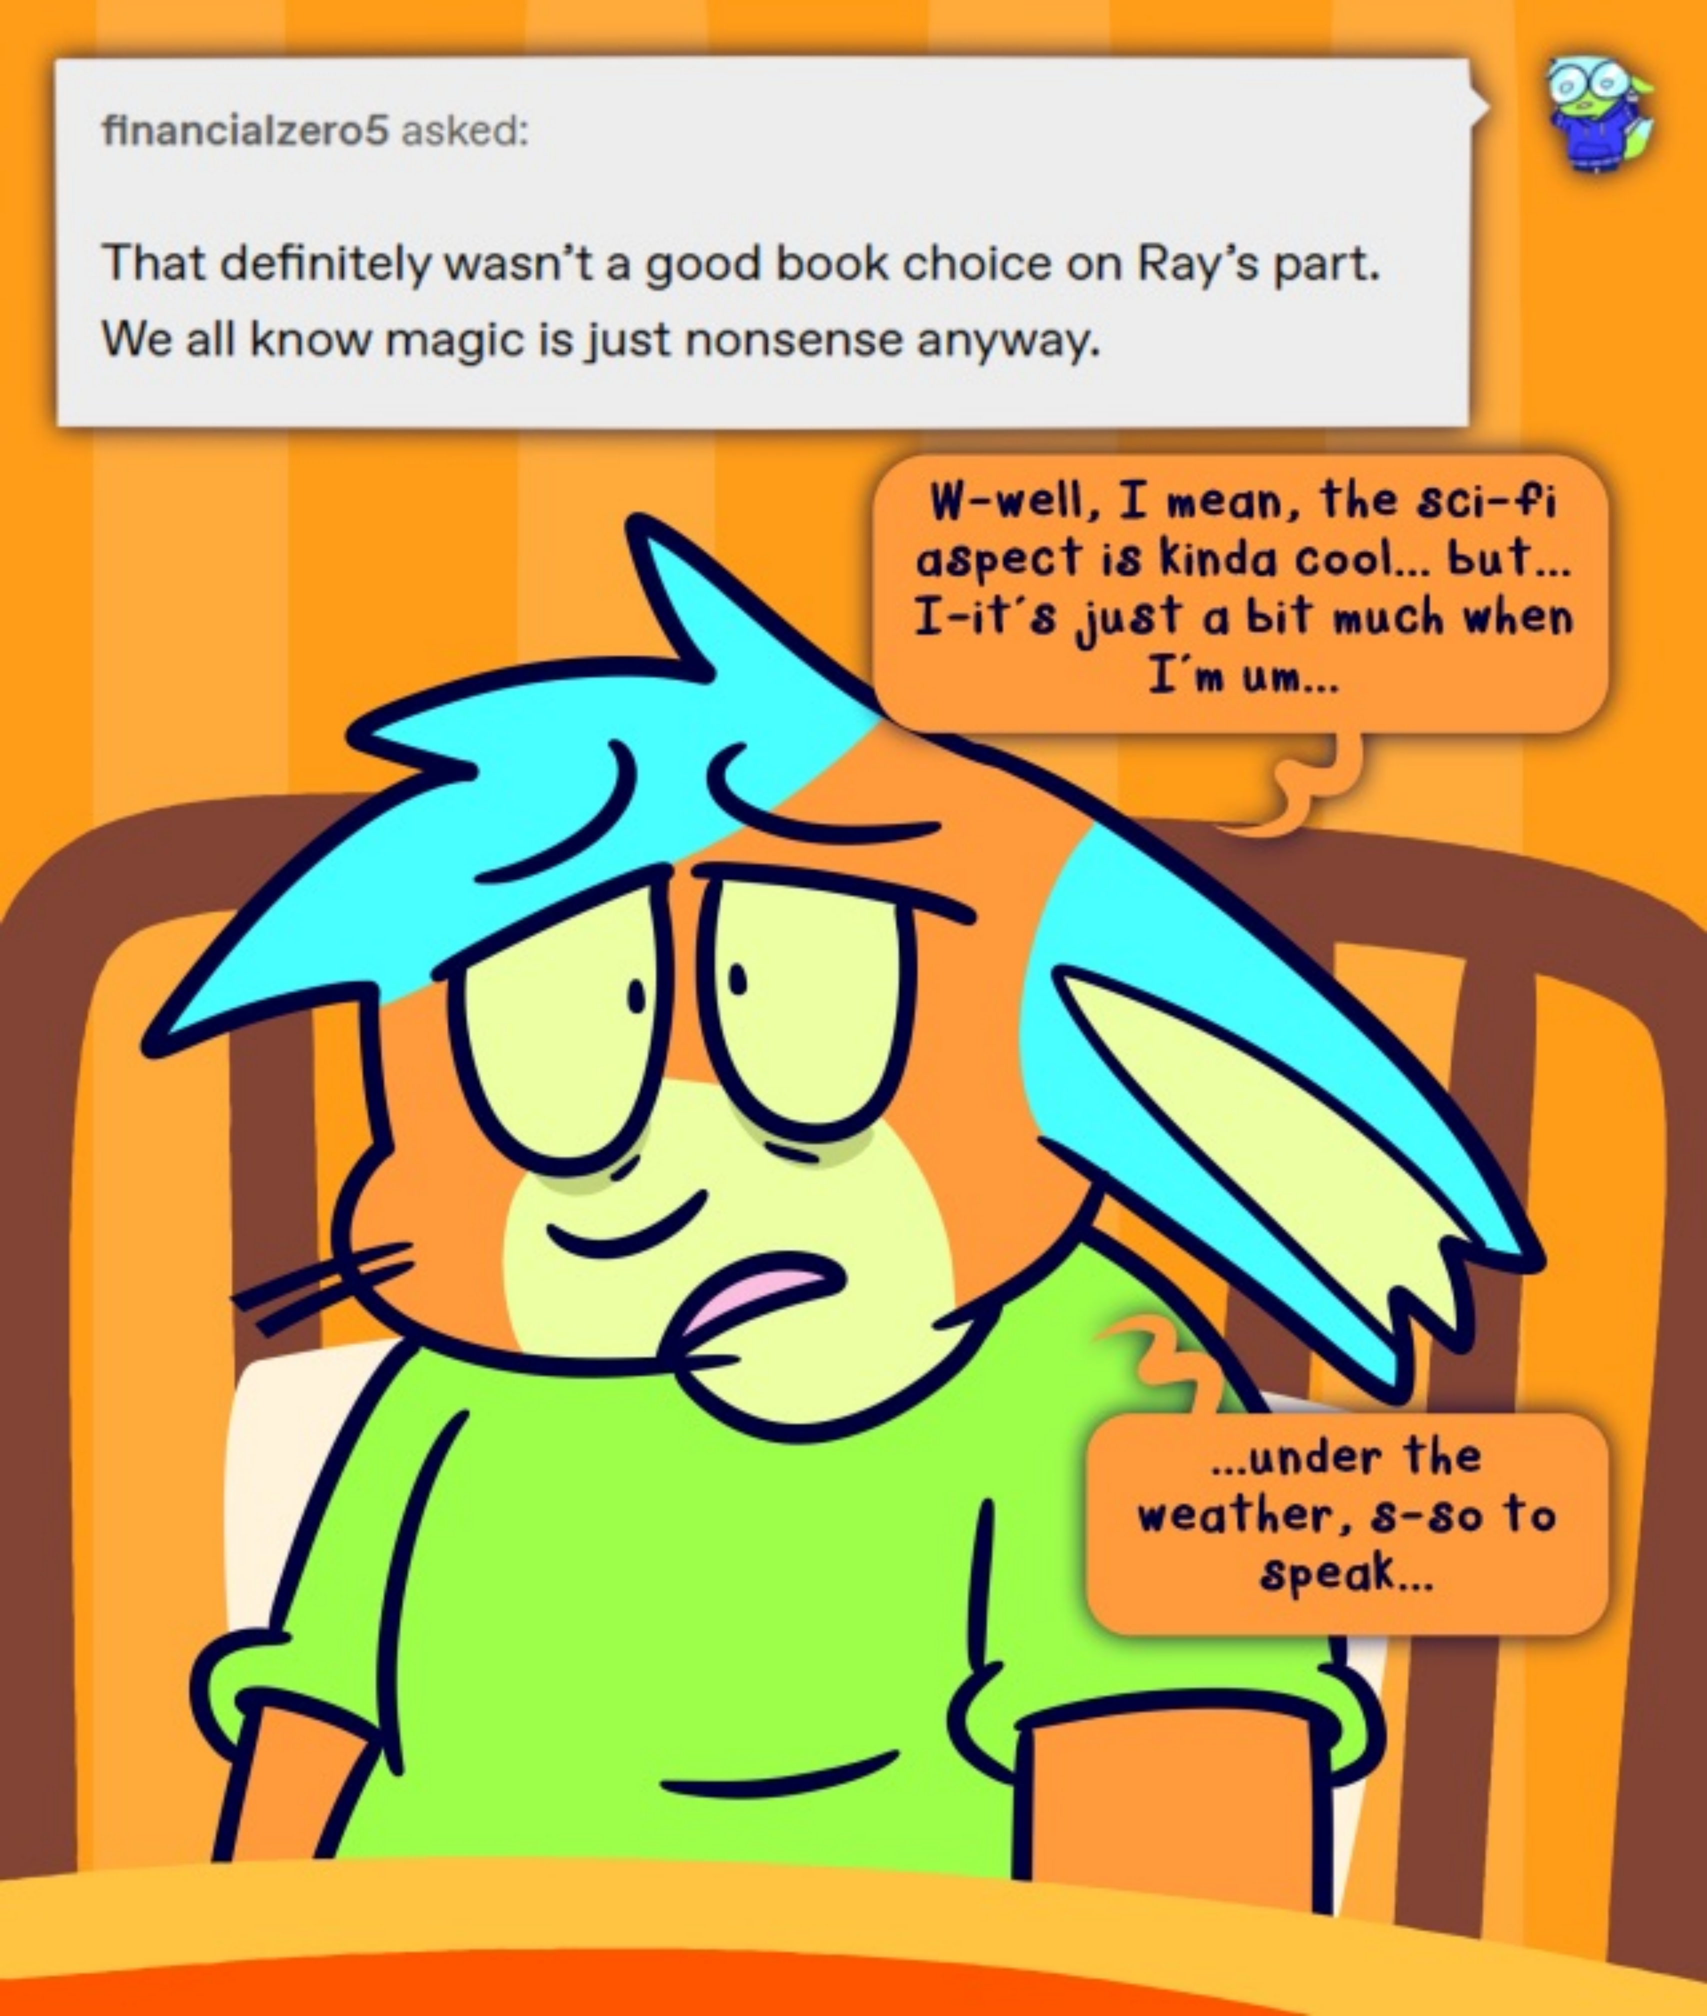
Explaining magic via
superstring theory



...10 dimensions of reality...
...altering other dimensions...
...parallel universes with different laws of physics...
...nothing actually proves this, it´s only my theory...



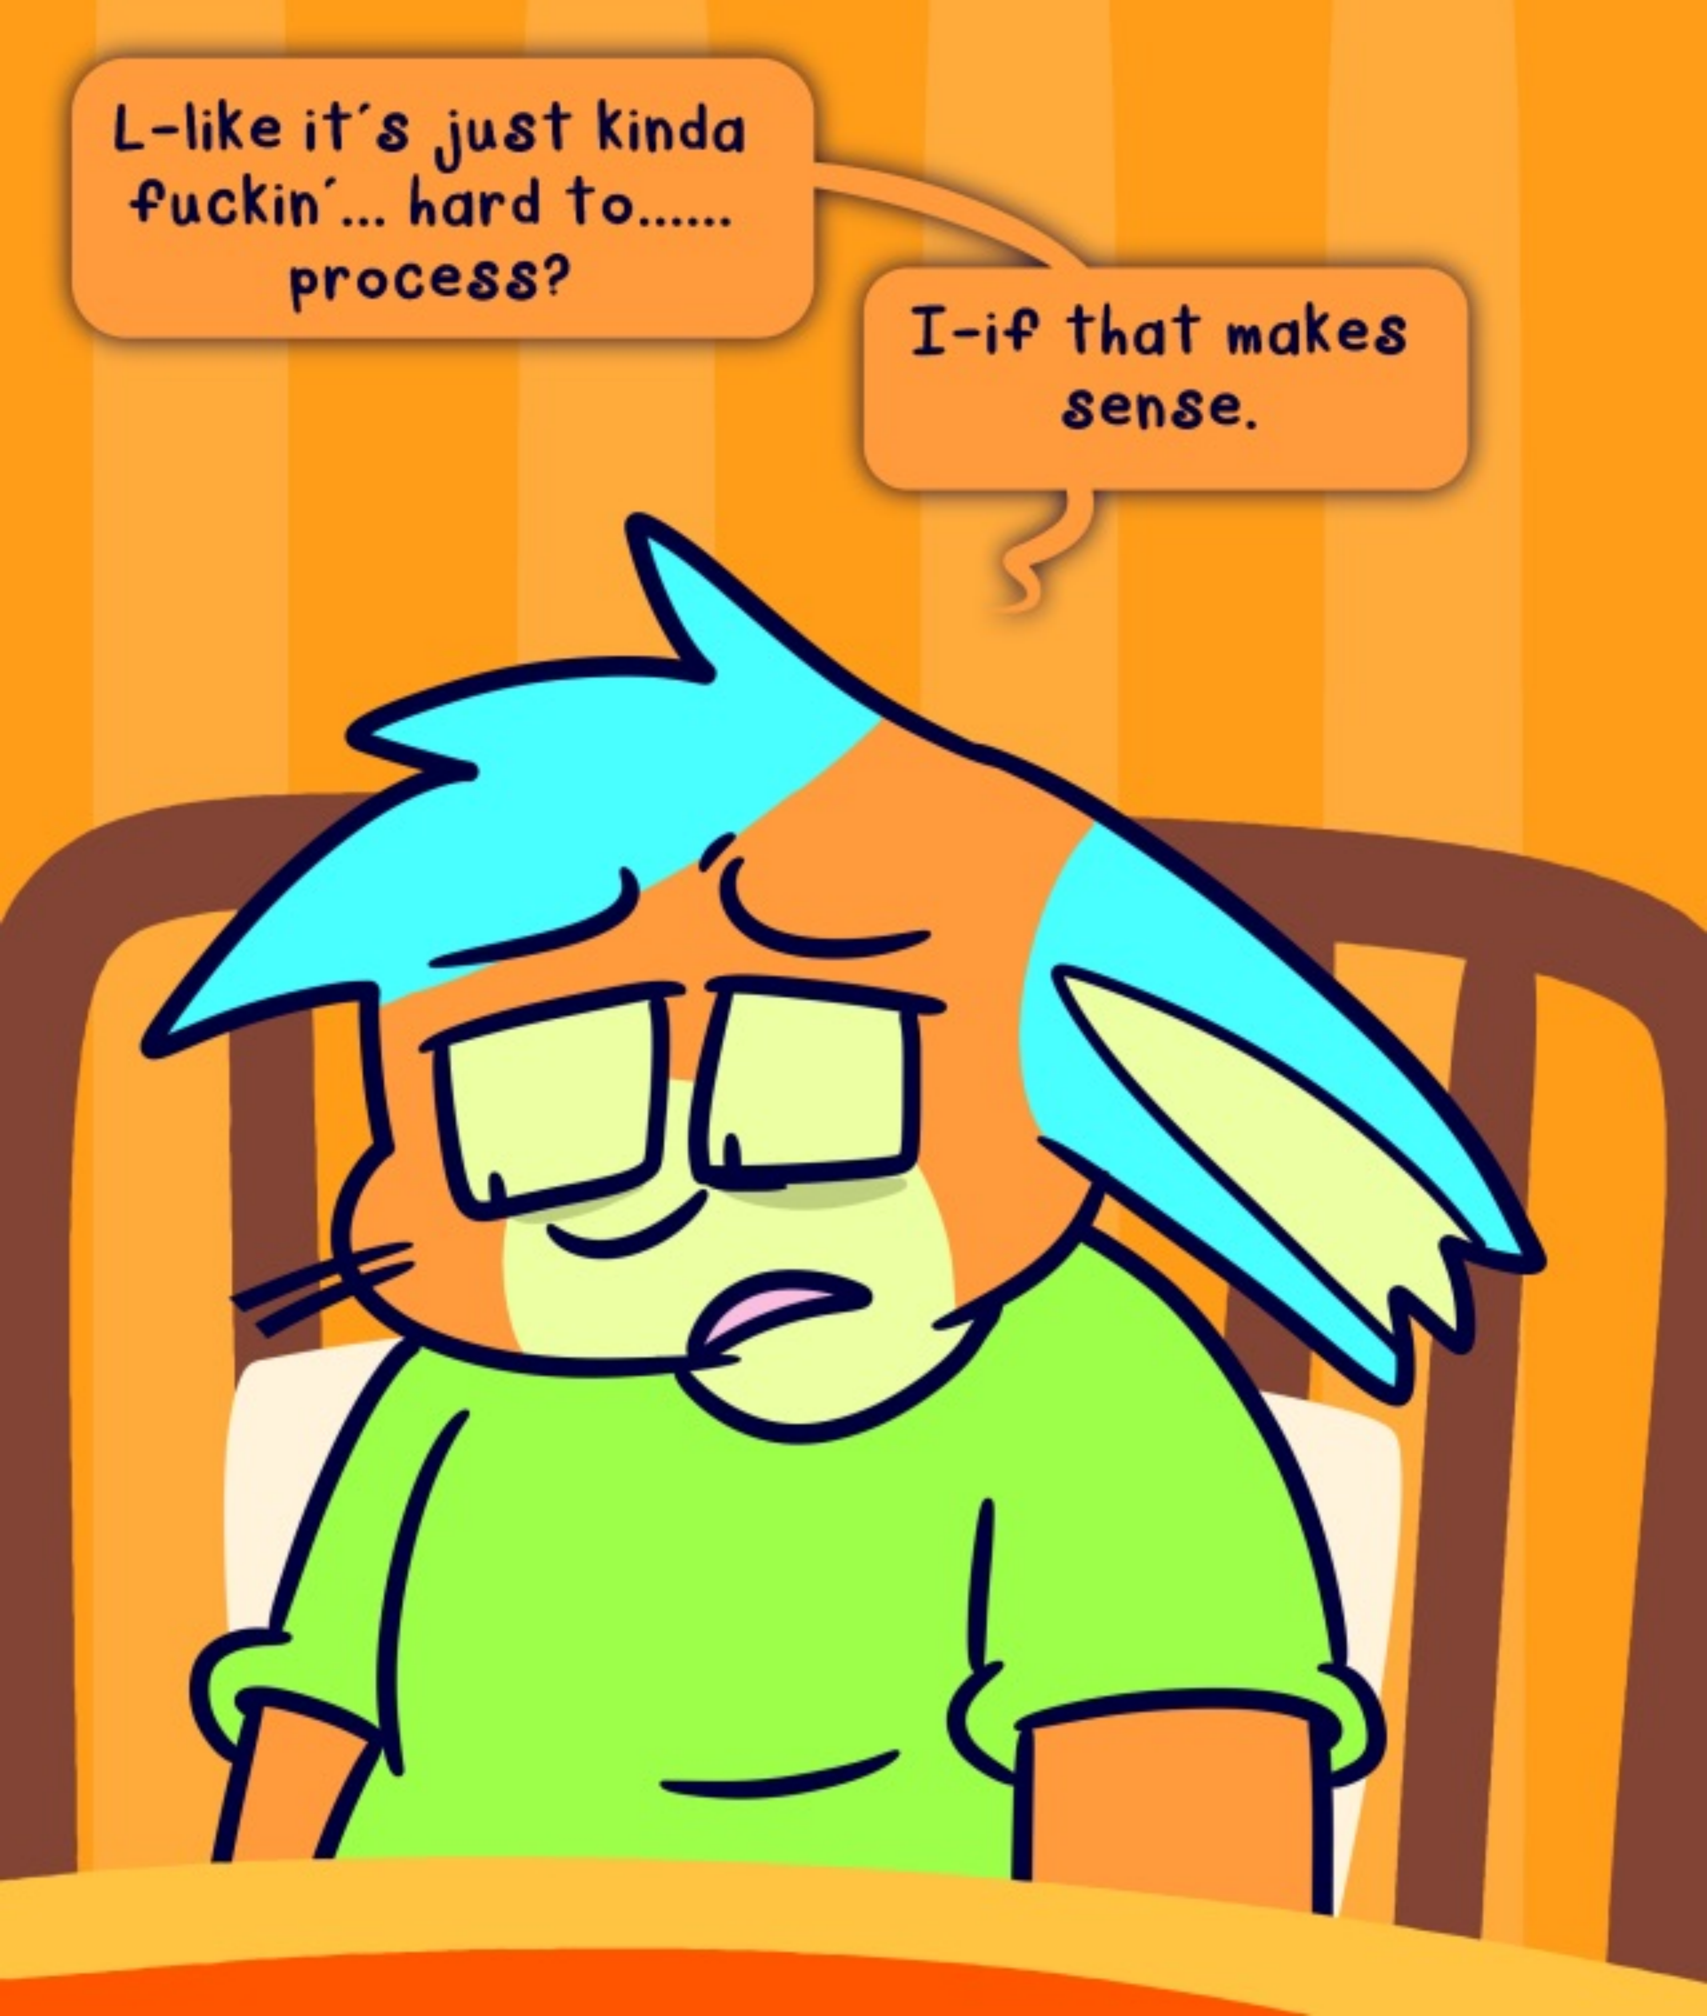
P-parallel universes???
W-why is Ray making me read a mindfuck like this when I´m deliriously ill???



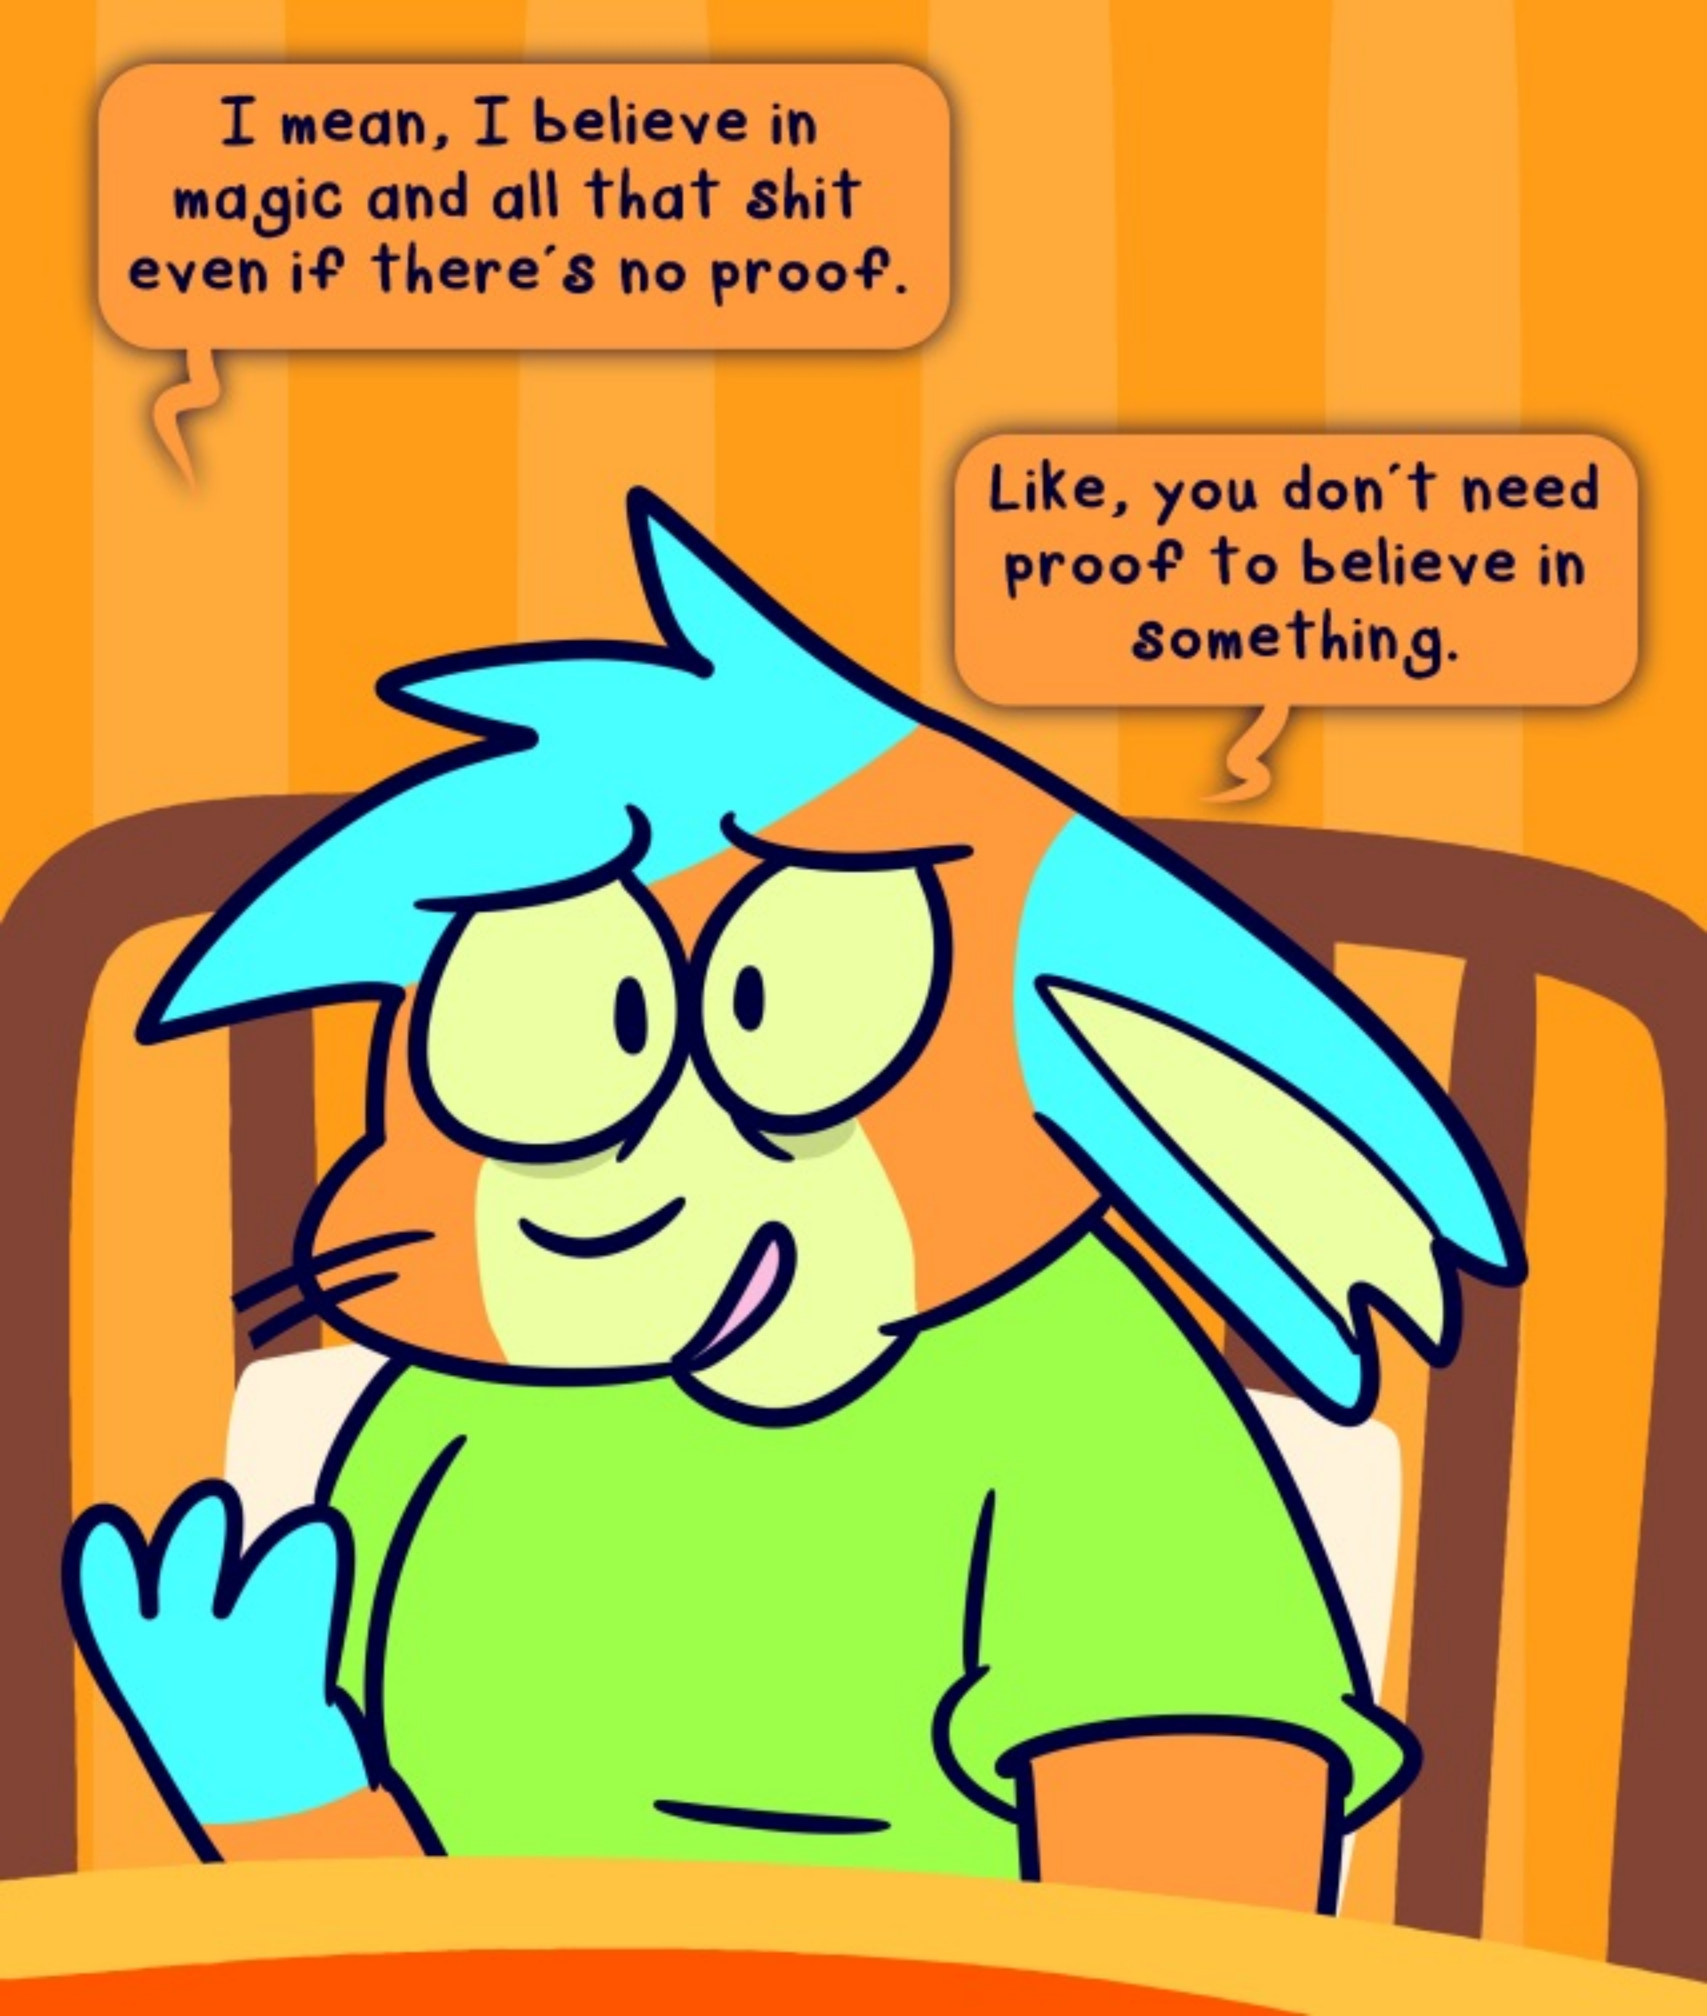
financialzero5 asked:

That definitely wasn’t a good book choice on Ray’s part. We all know magic is just nonsense anyway.

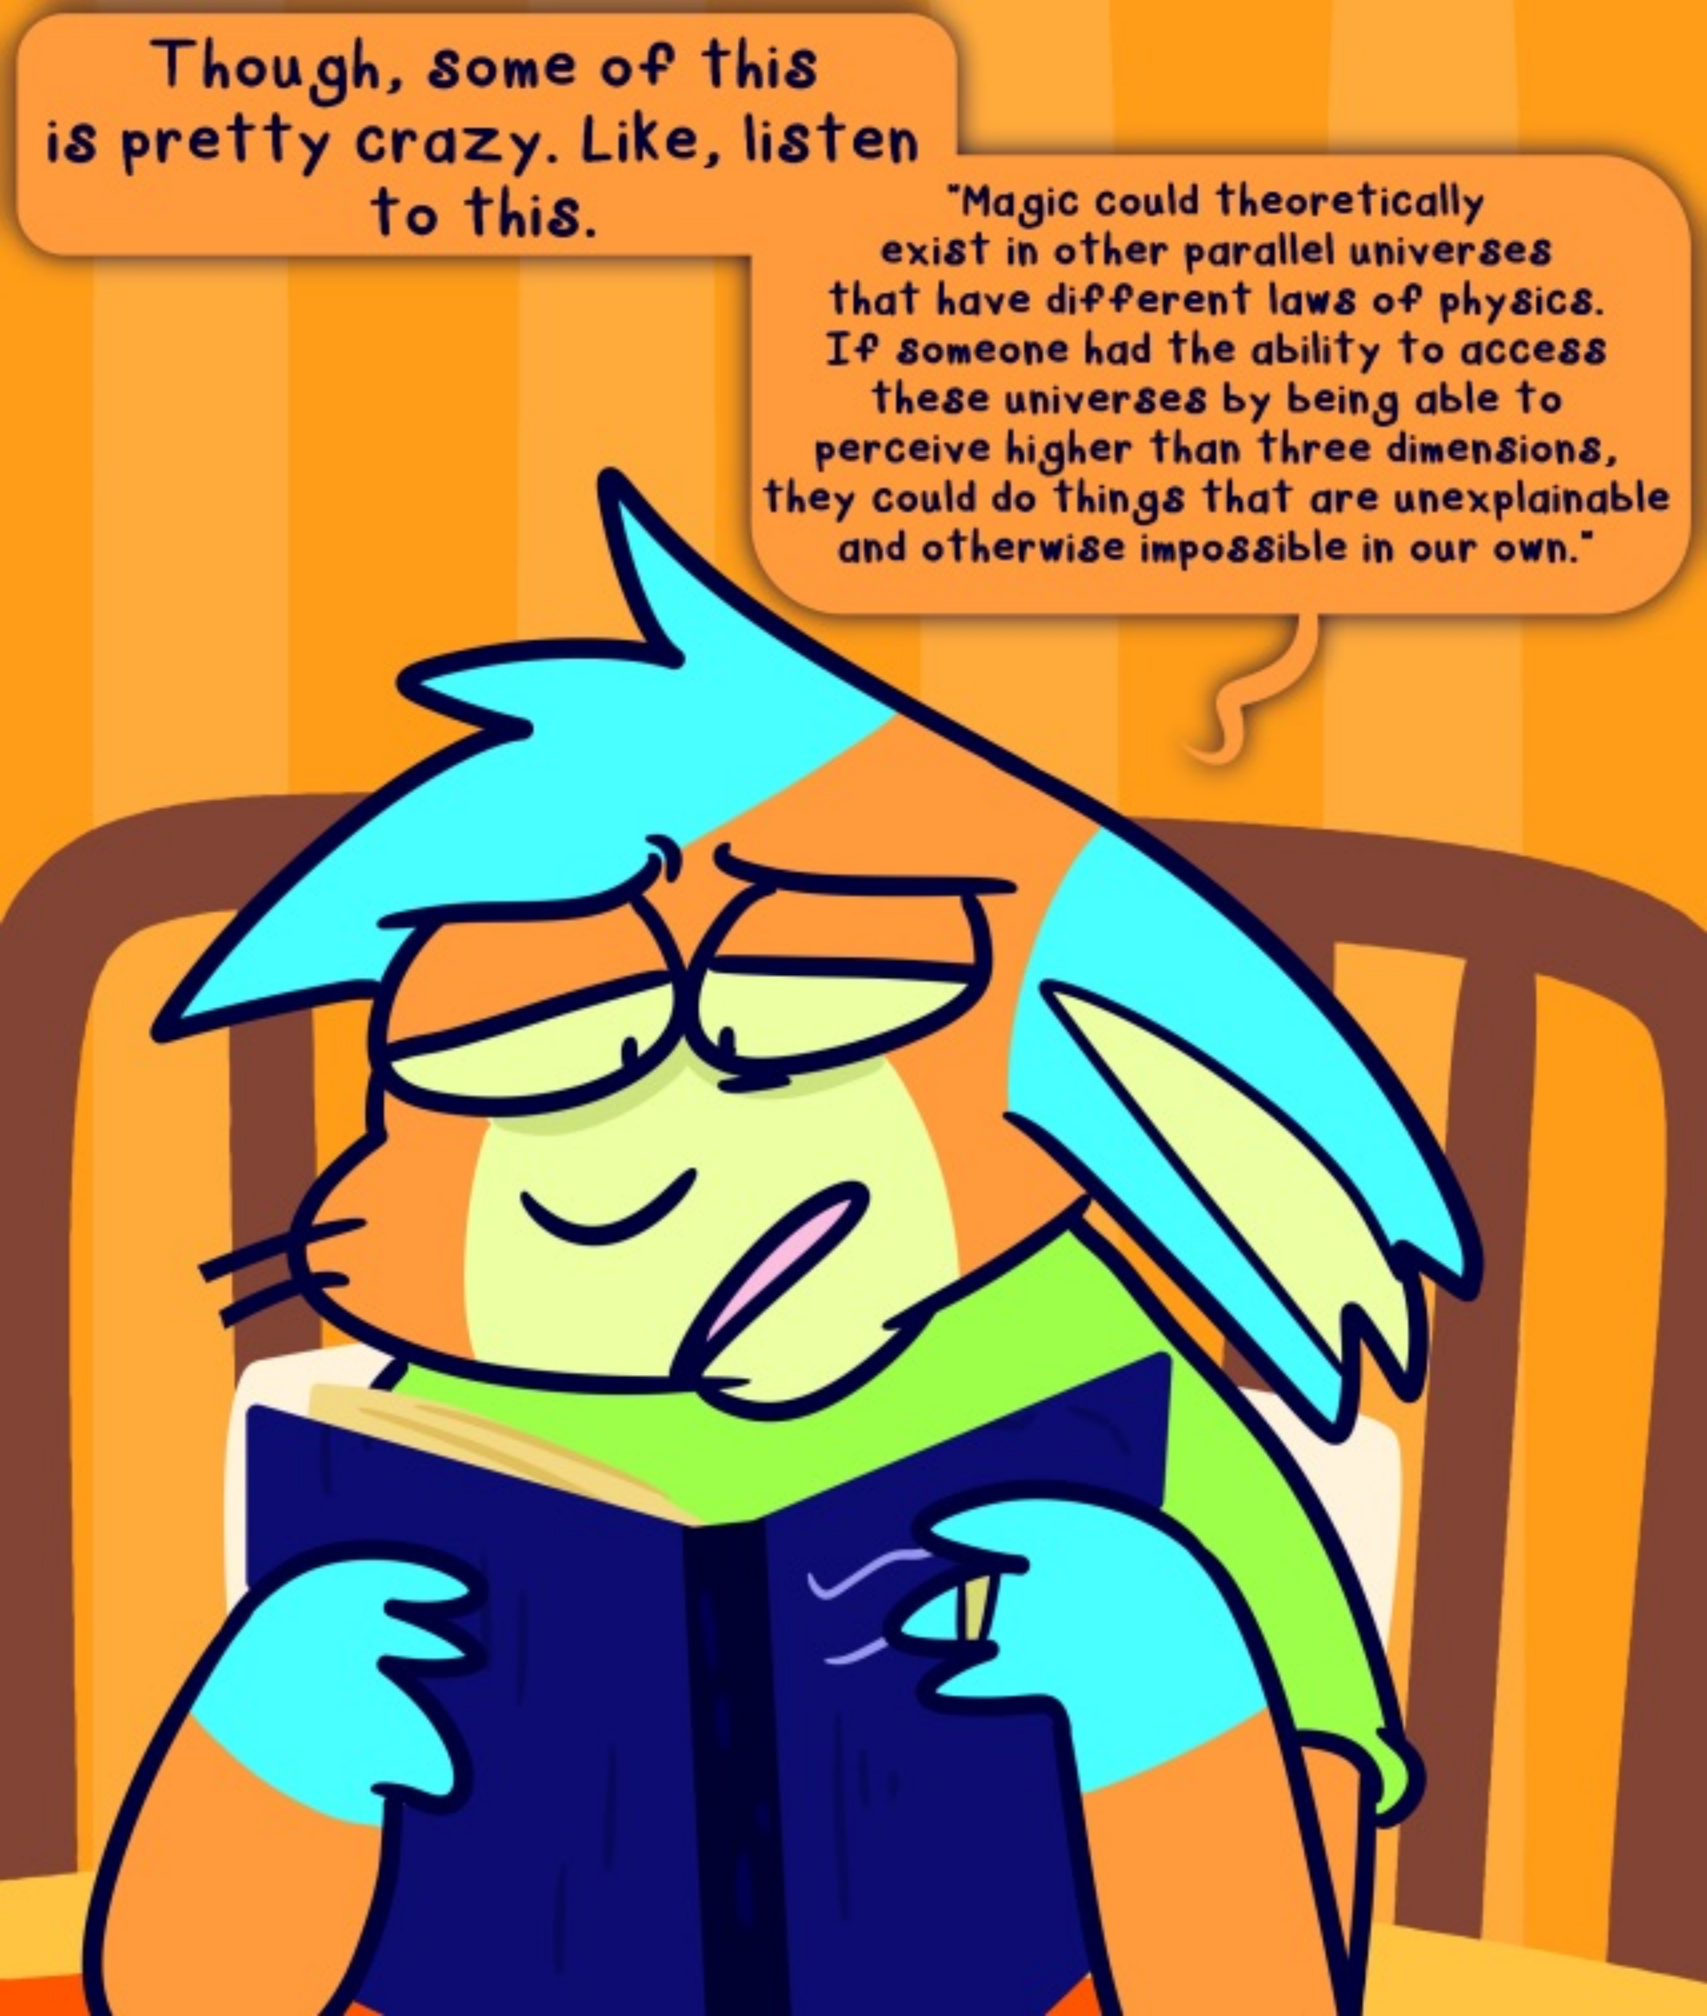
W-well, I mean, the sci-fi aspect is kinda cool... but... I-it's just a bit much when I'm um...
...under the weather, s-so to speak...



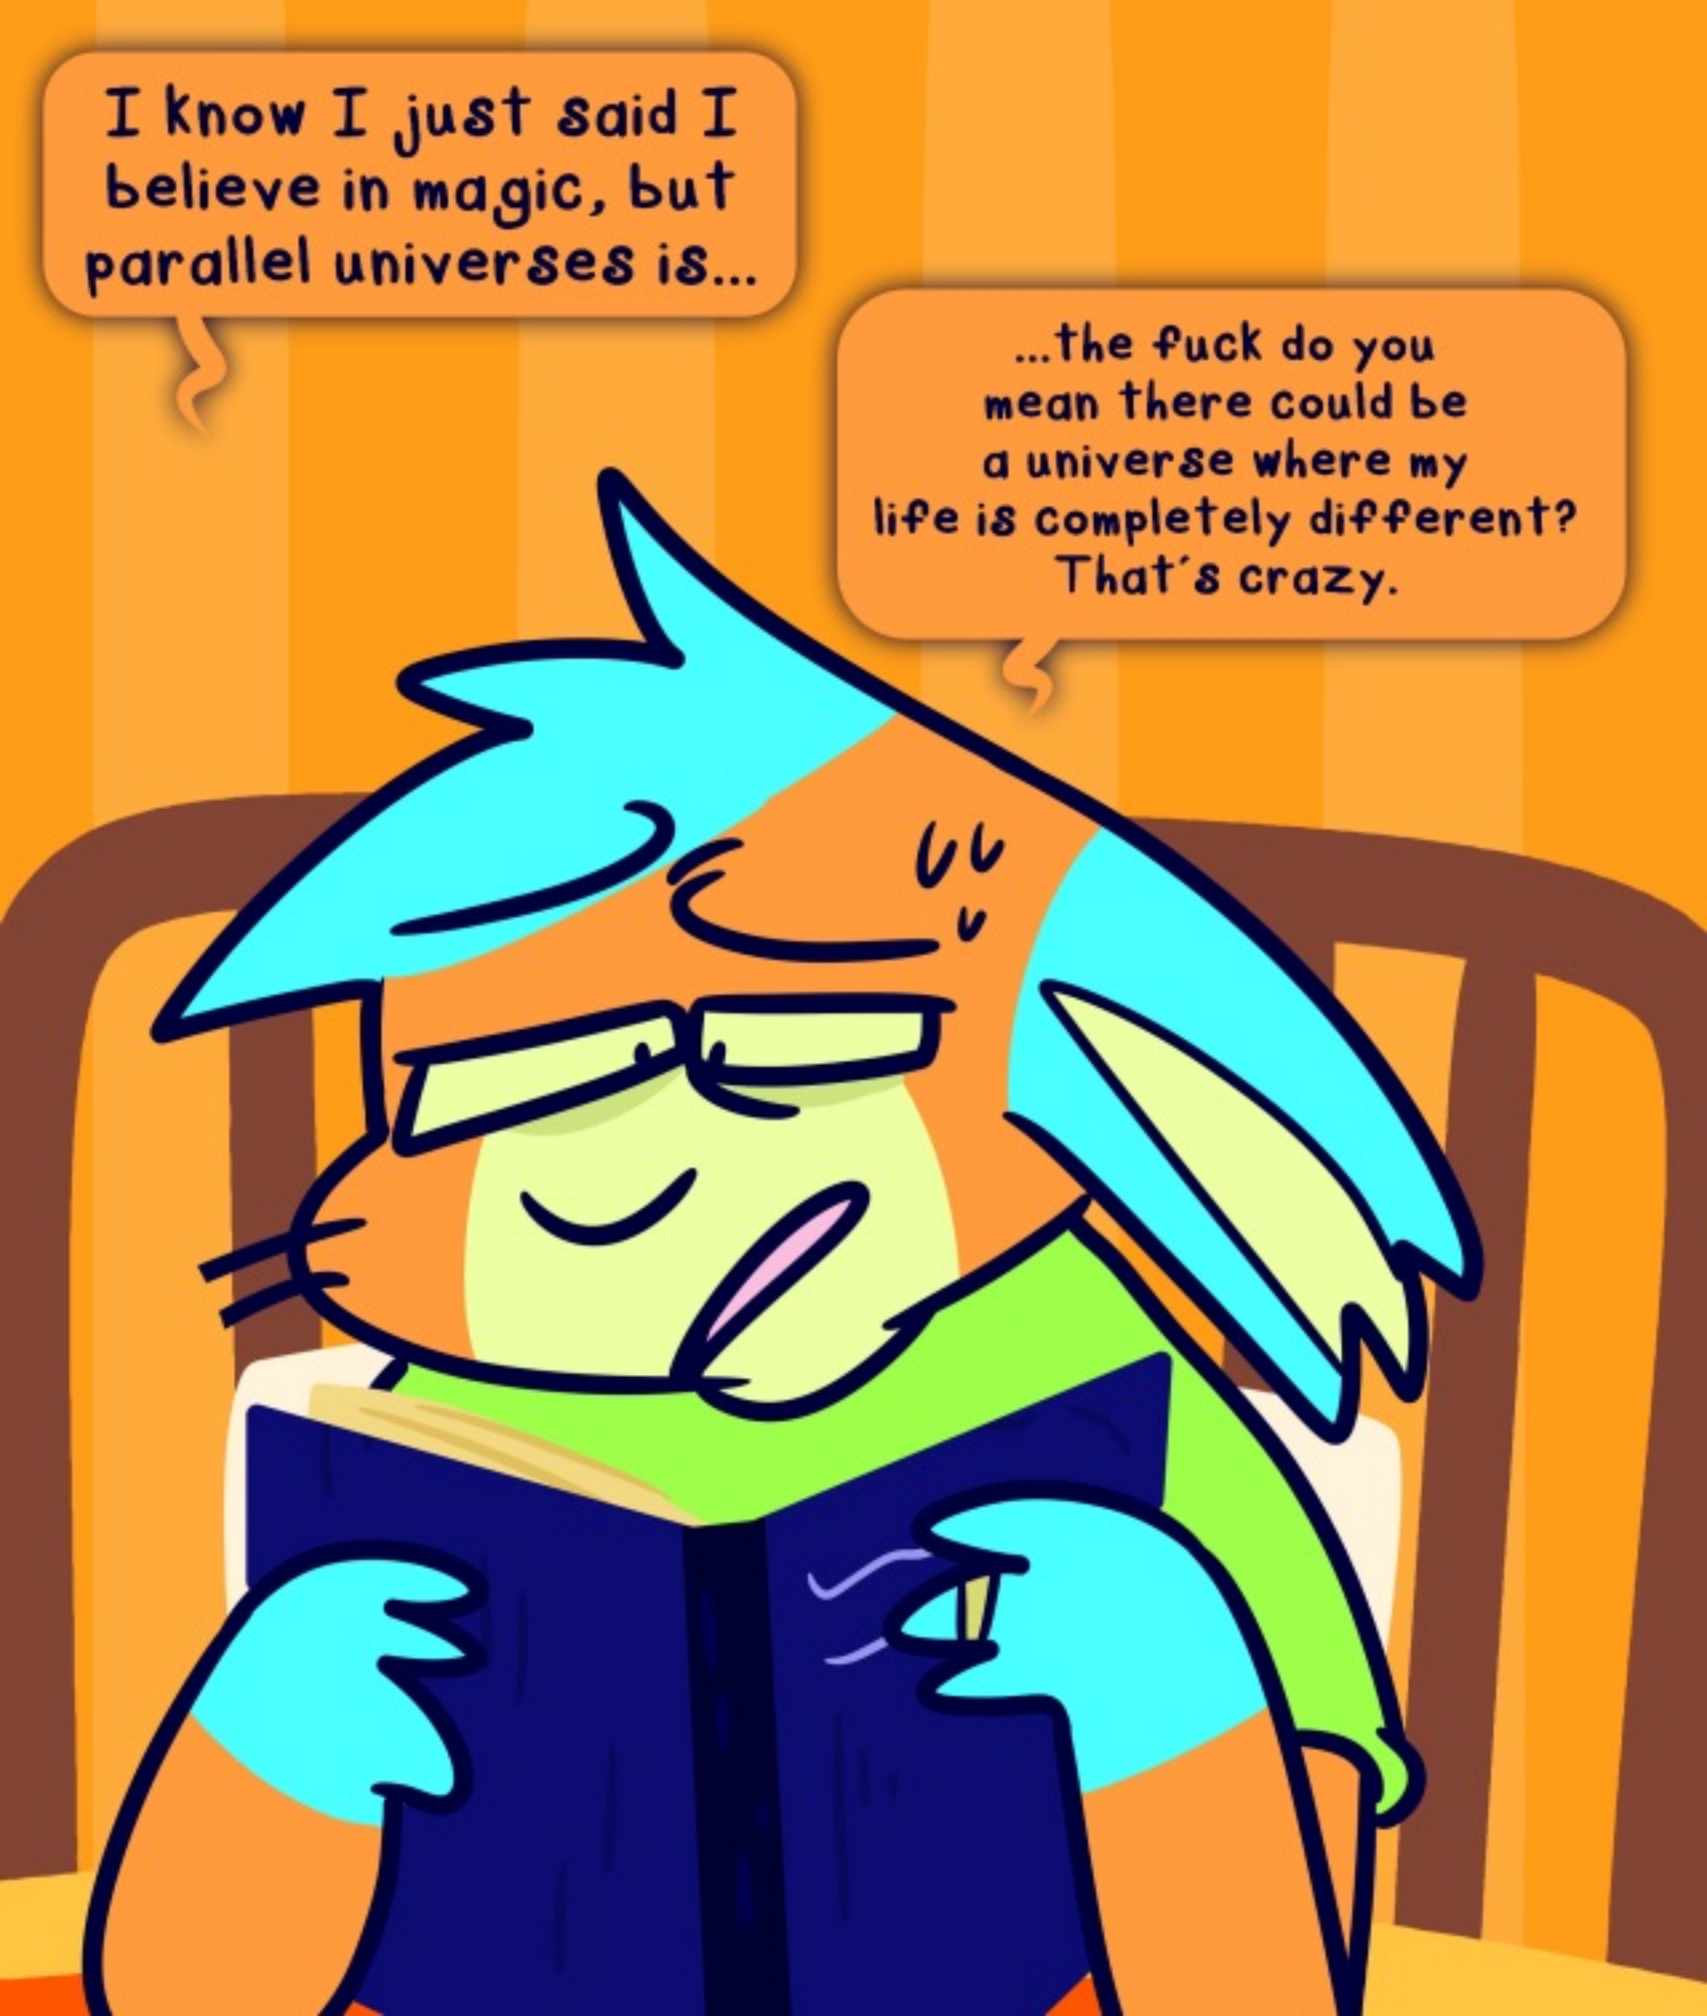
L-like it´s just kinda fuckin´... hard to...... process?
I-if that makes sense.



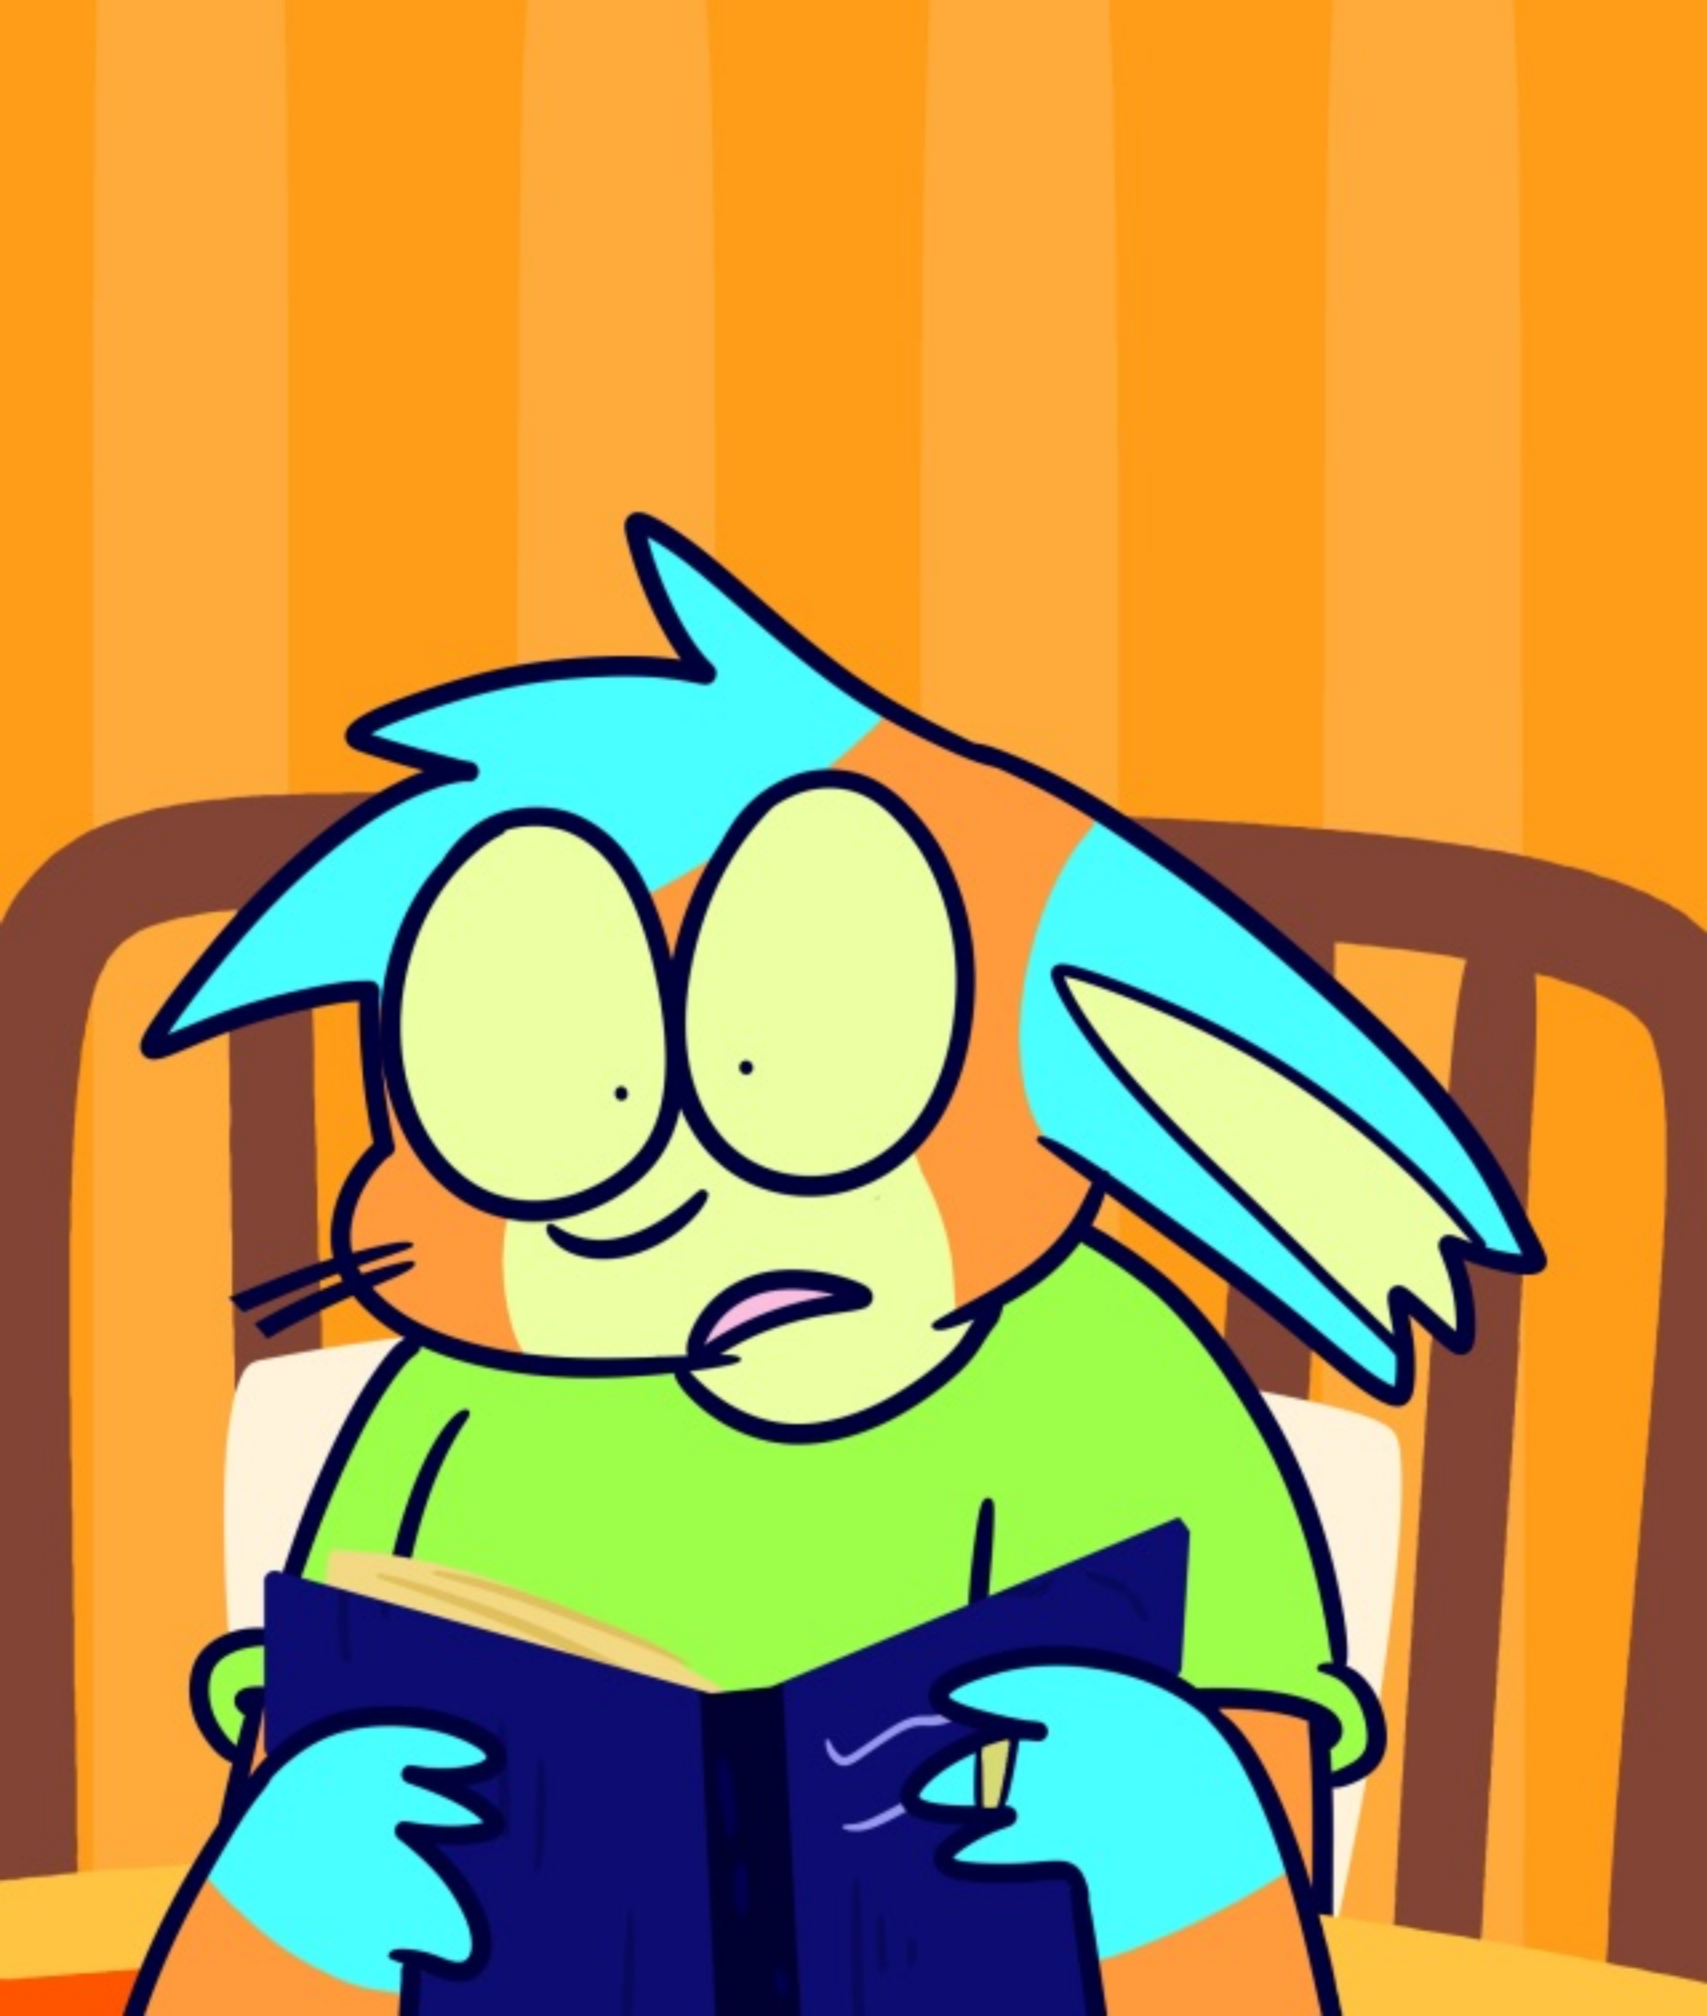
I mean, I believe in magic and all that shit even if there's no proof.
Like, you don't need proof to believe in something.

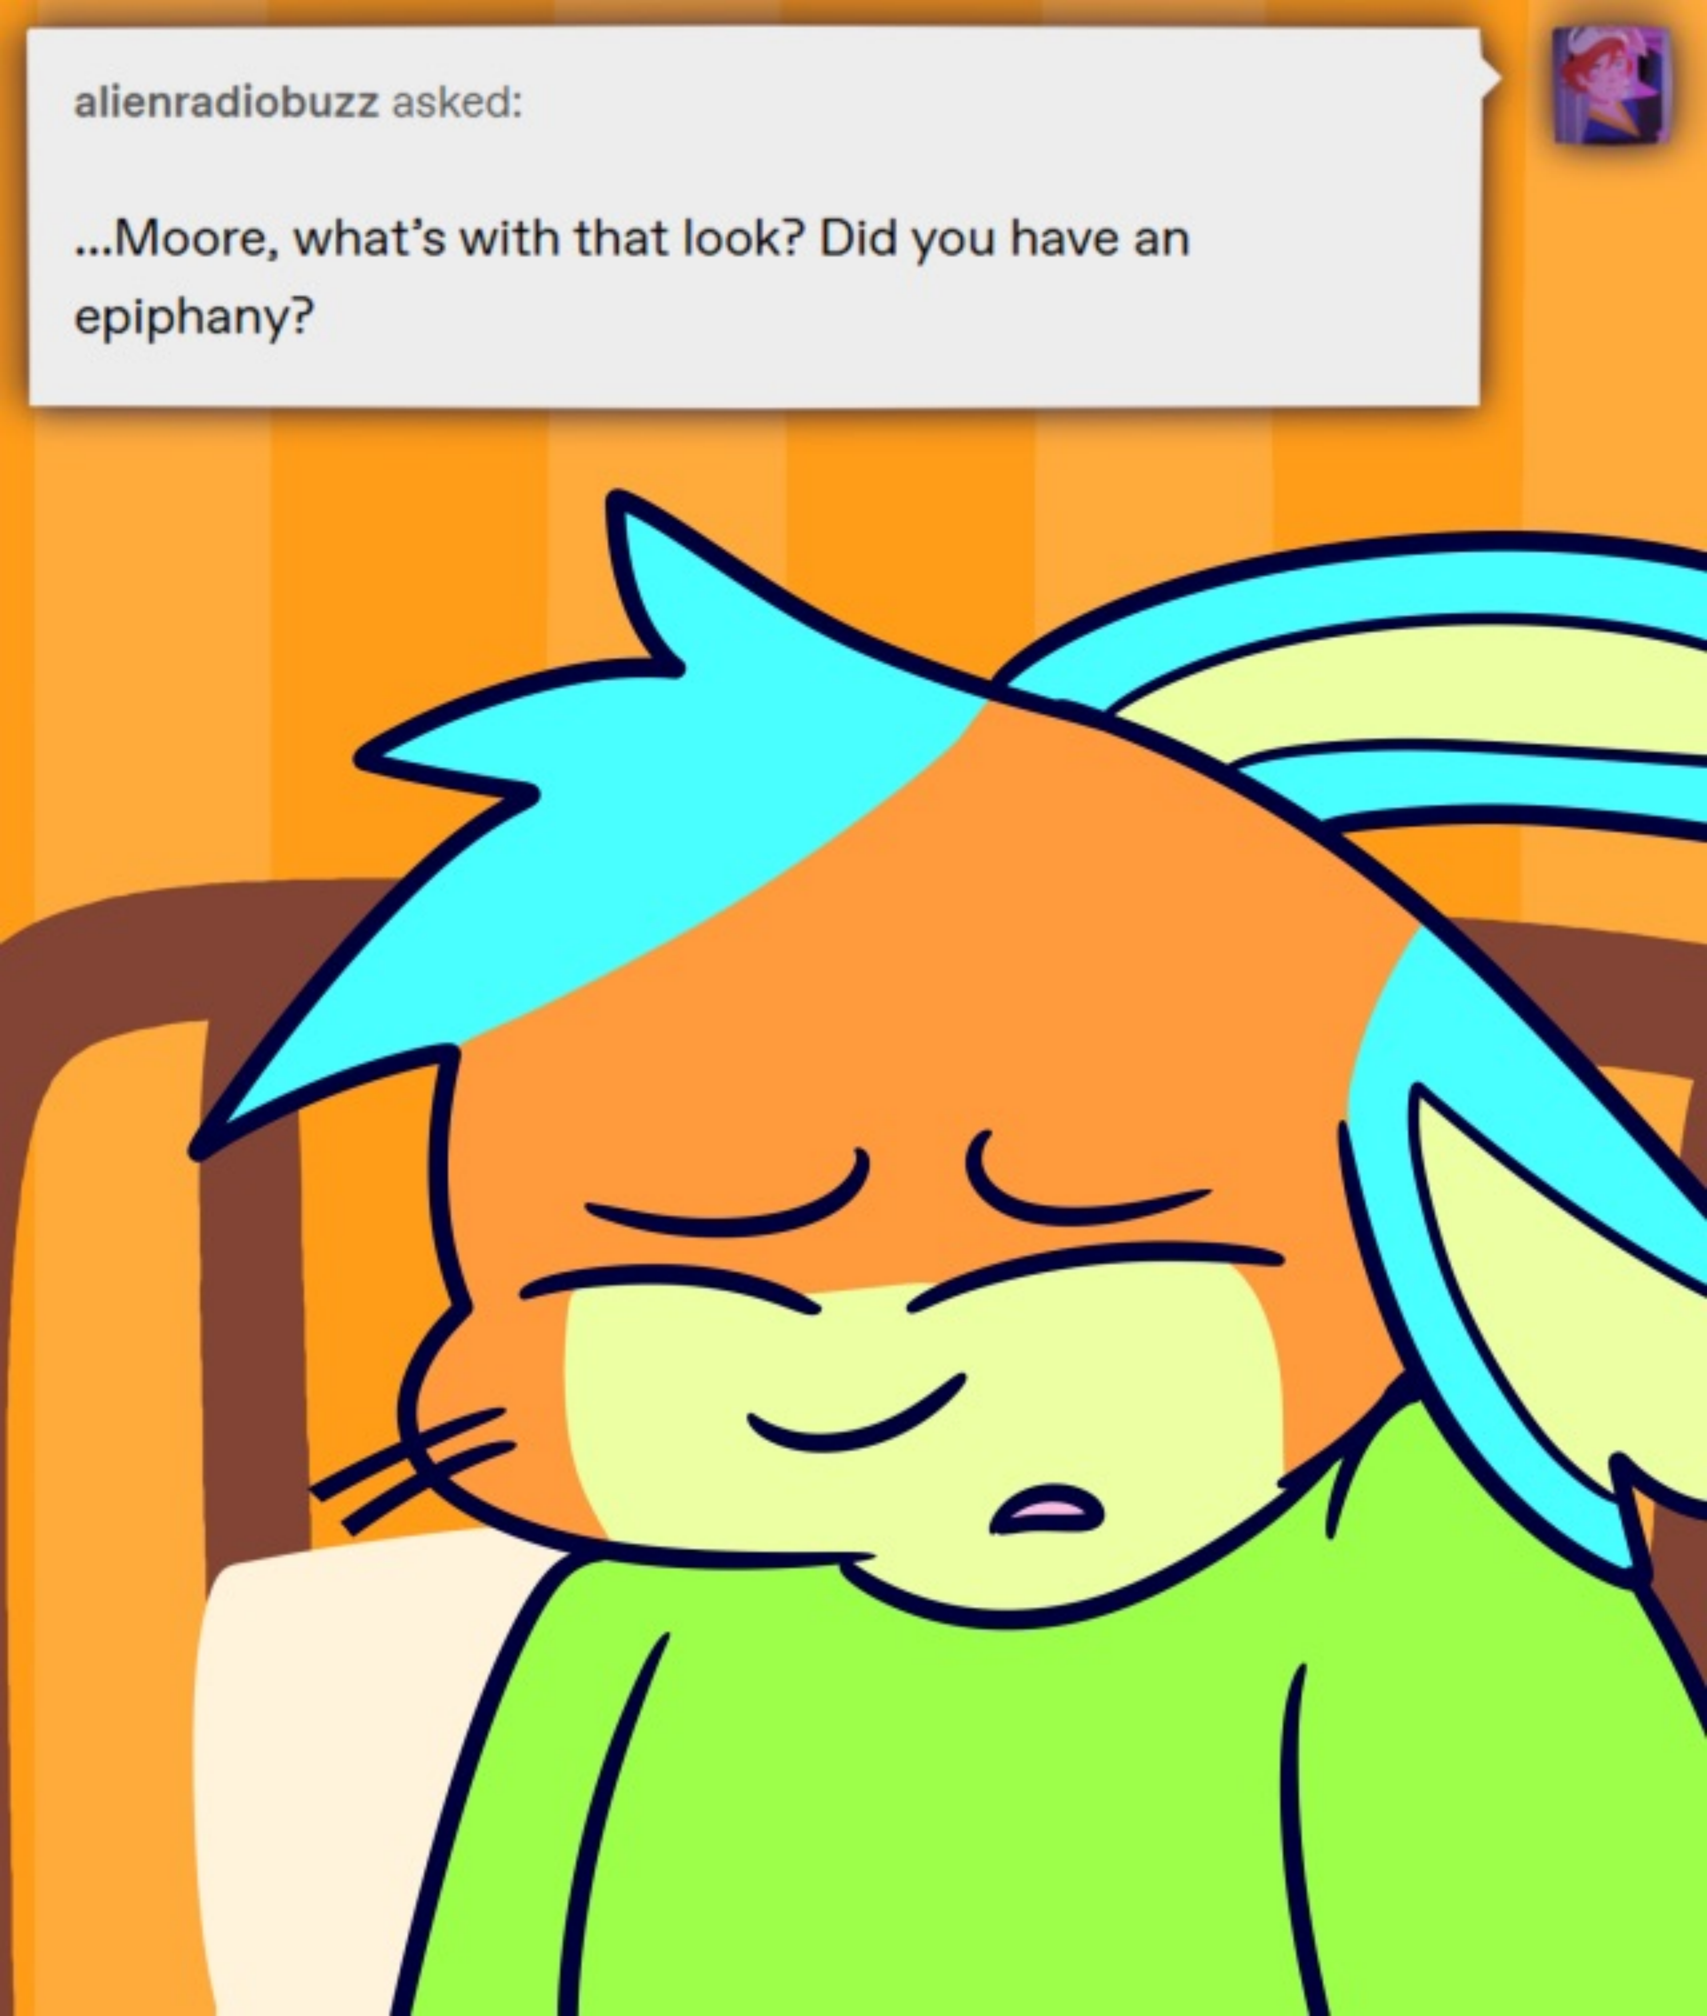


Though, some of this is pretty crazy. Like, listen to this.
"Magic could theoretically exist in other parallel universes that have different laws of physics. If someone had the ability to access these universes by being able to perceive higher than three dimensions, they could do things that are unexplainable and otherwise impossible in our own."



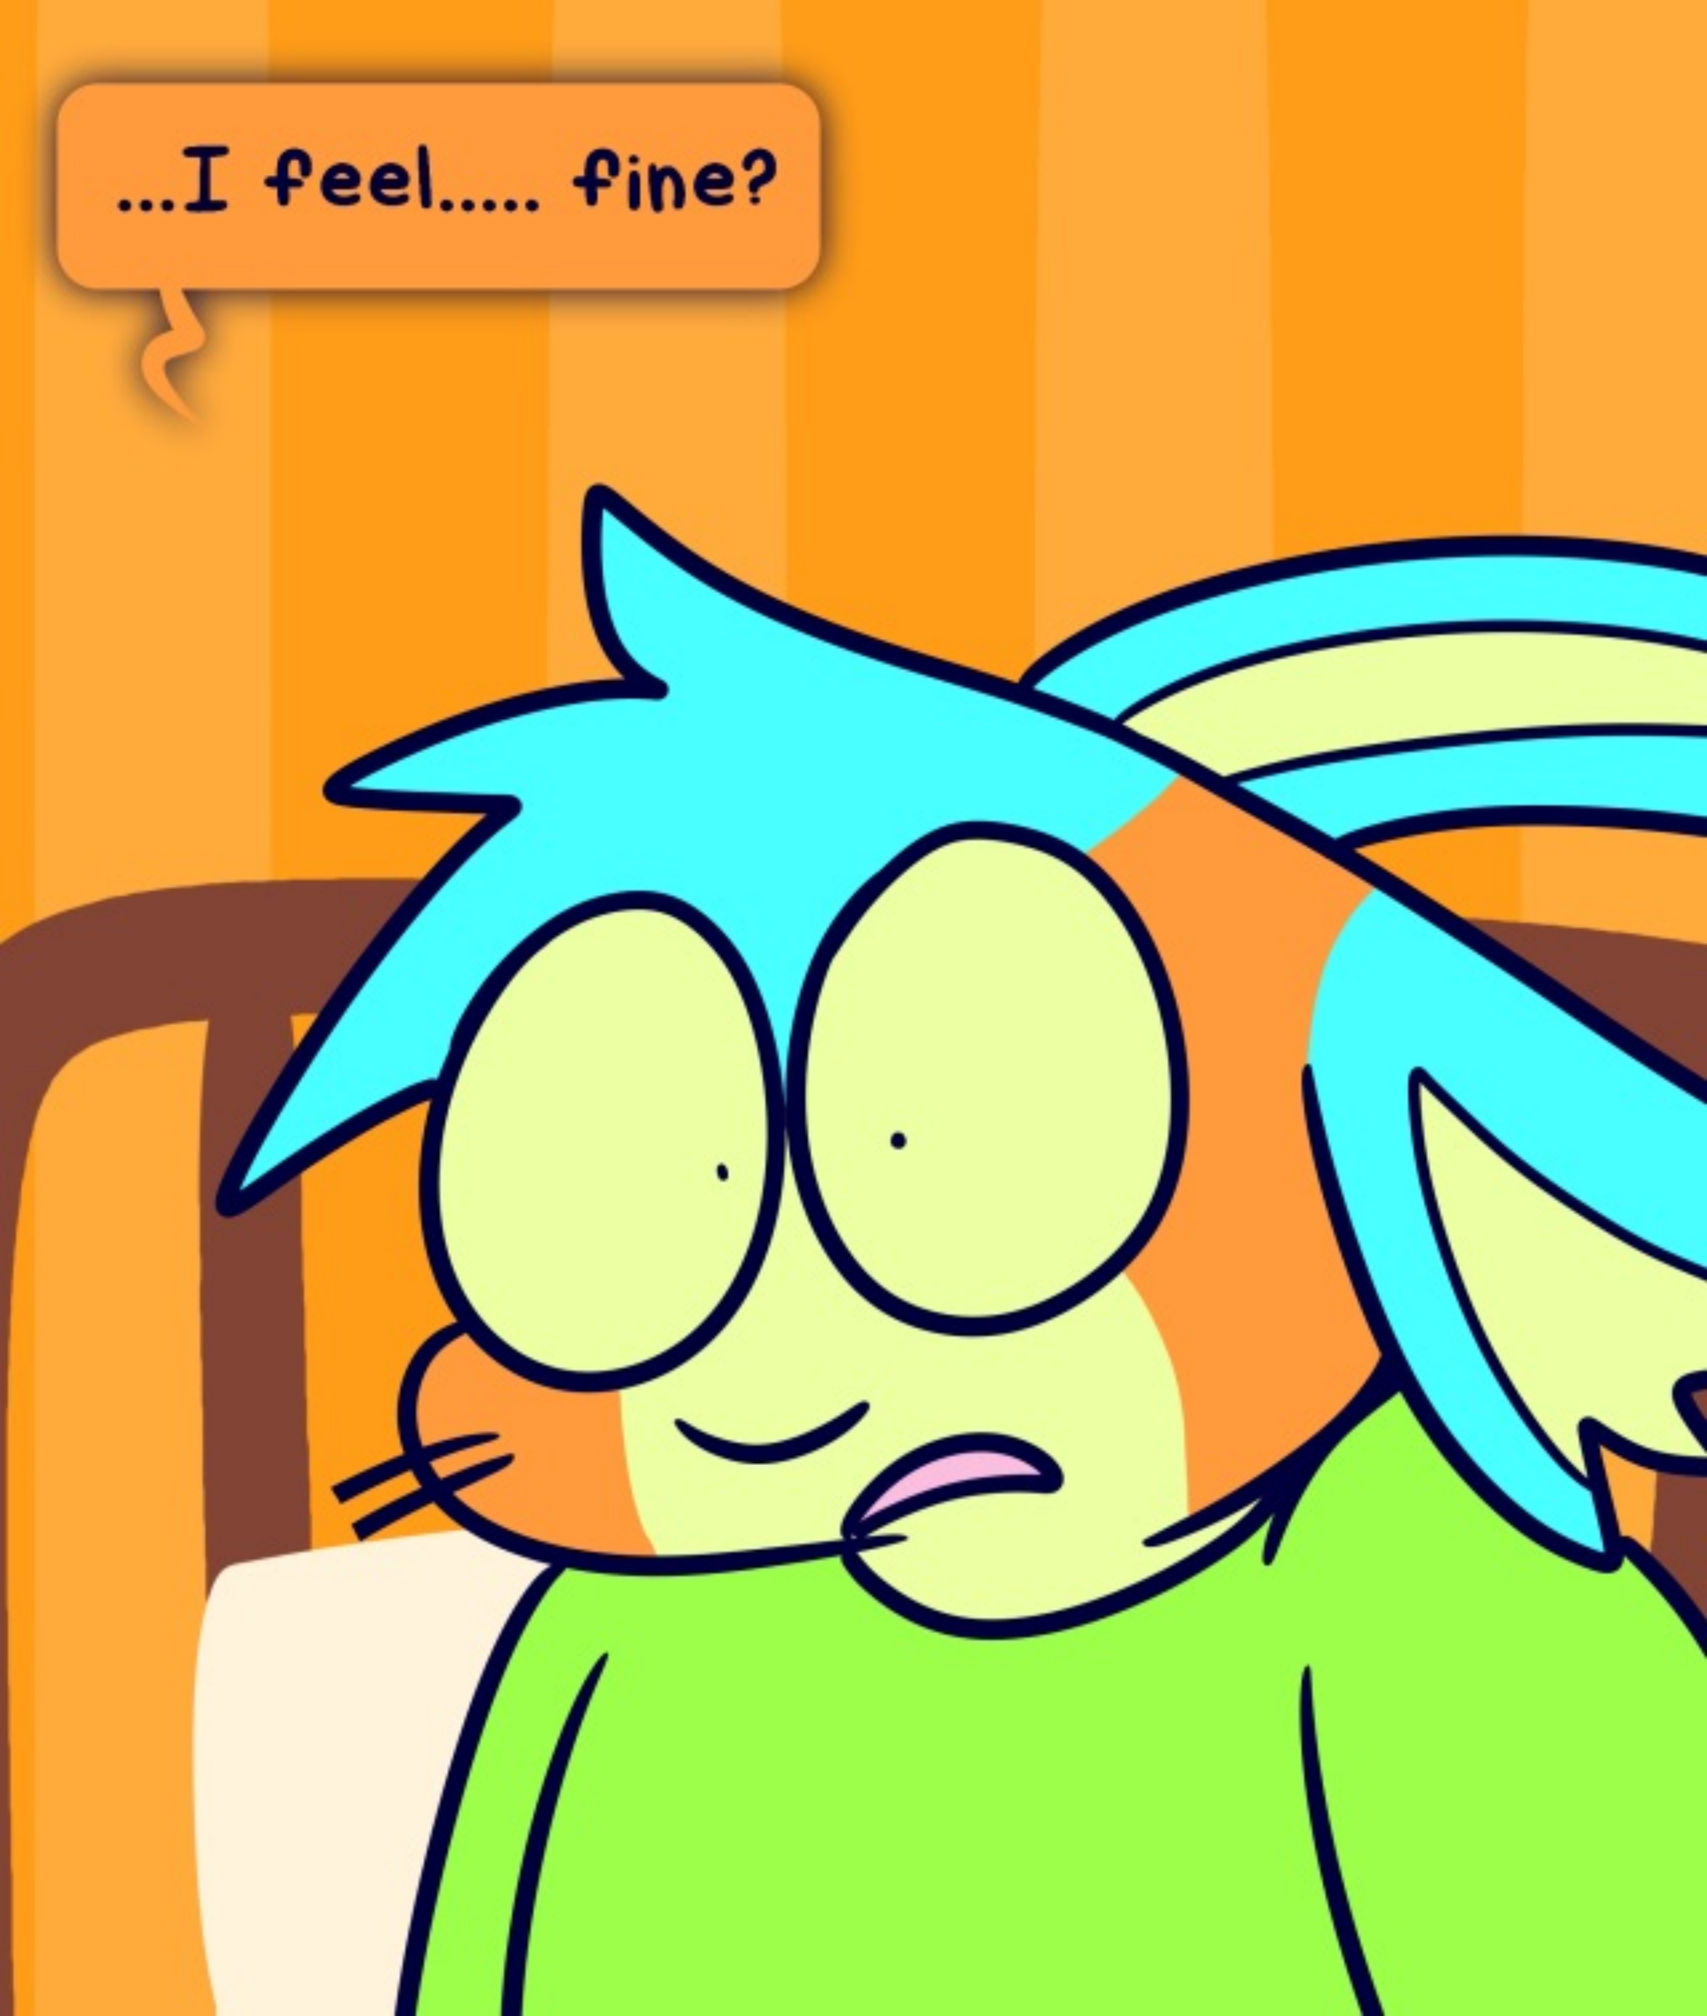
I know I just said I believe in magic, but parallel universes is...
...the fuck do you mean there could be a universe where my life is completely different? That´s crazy.



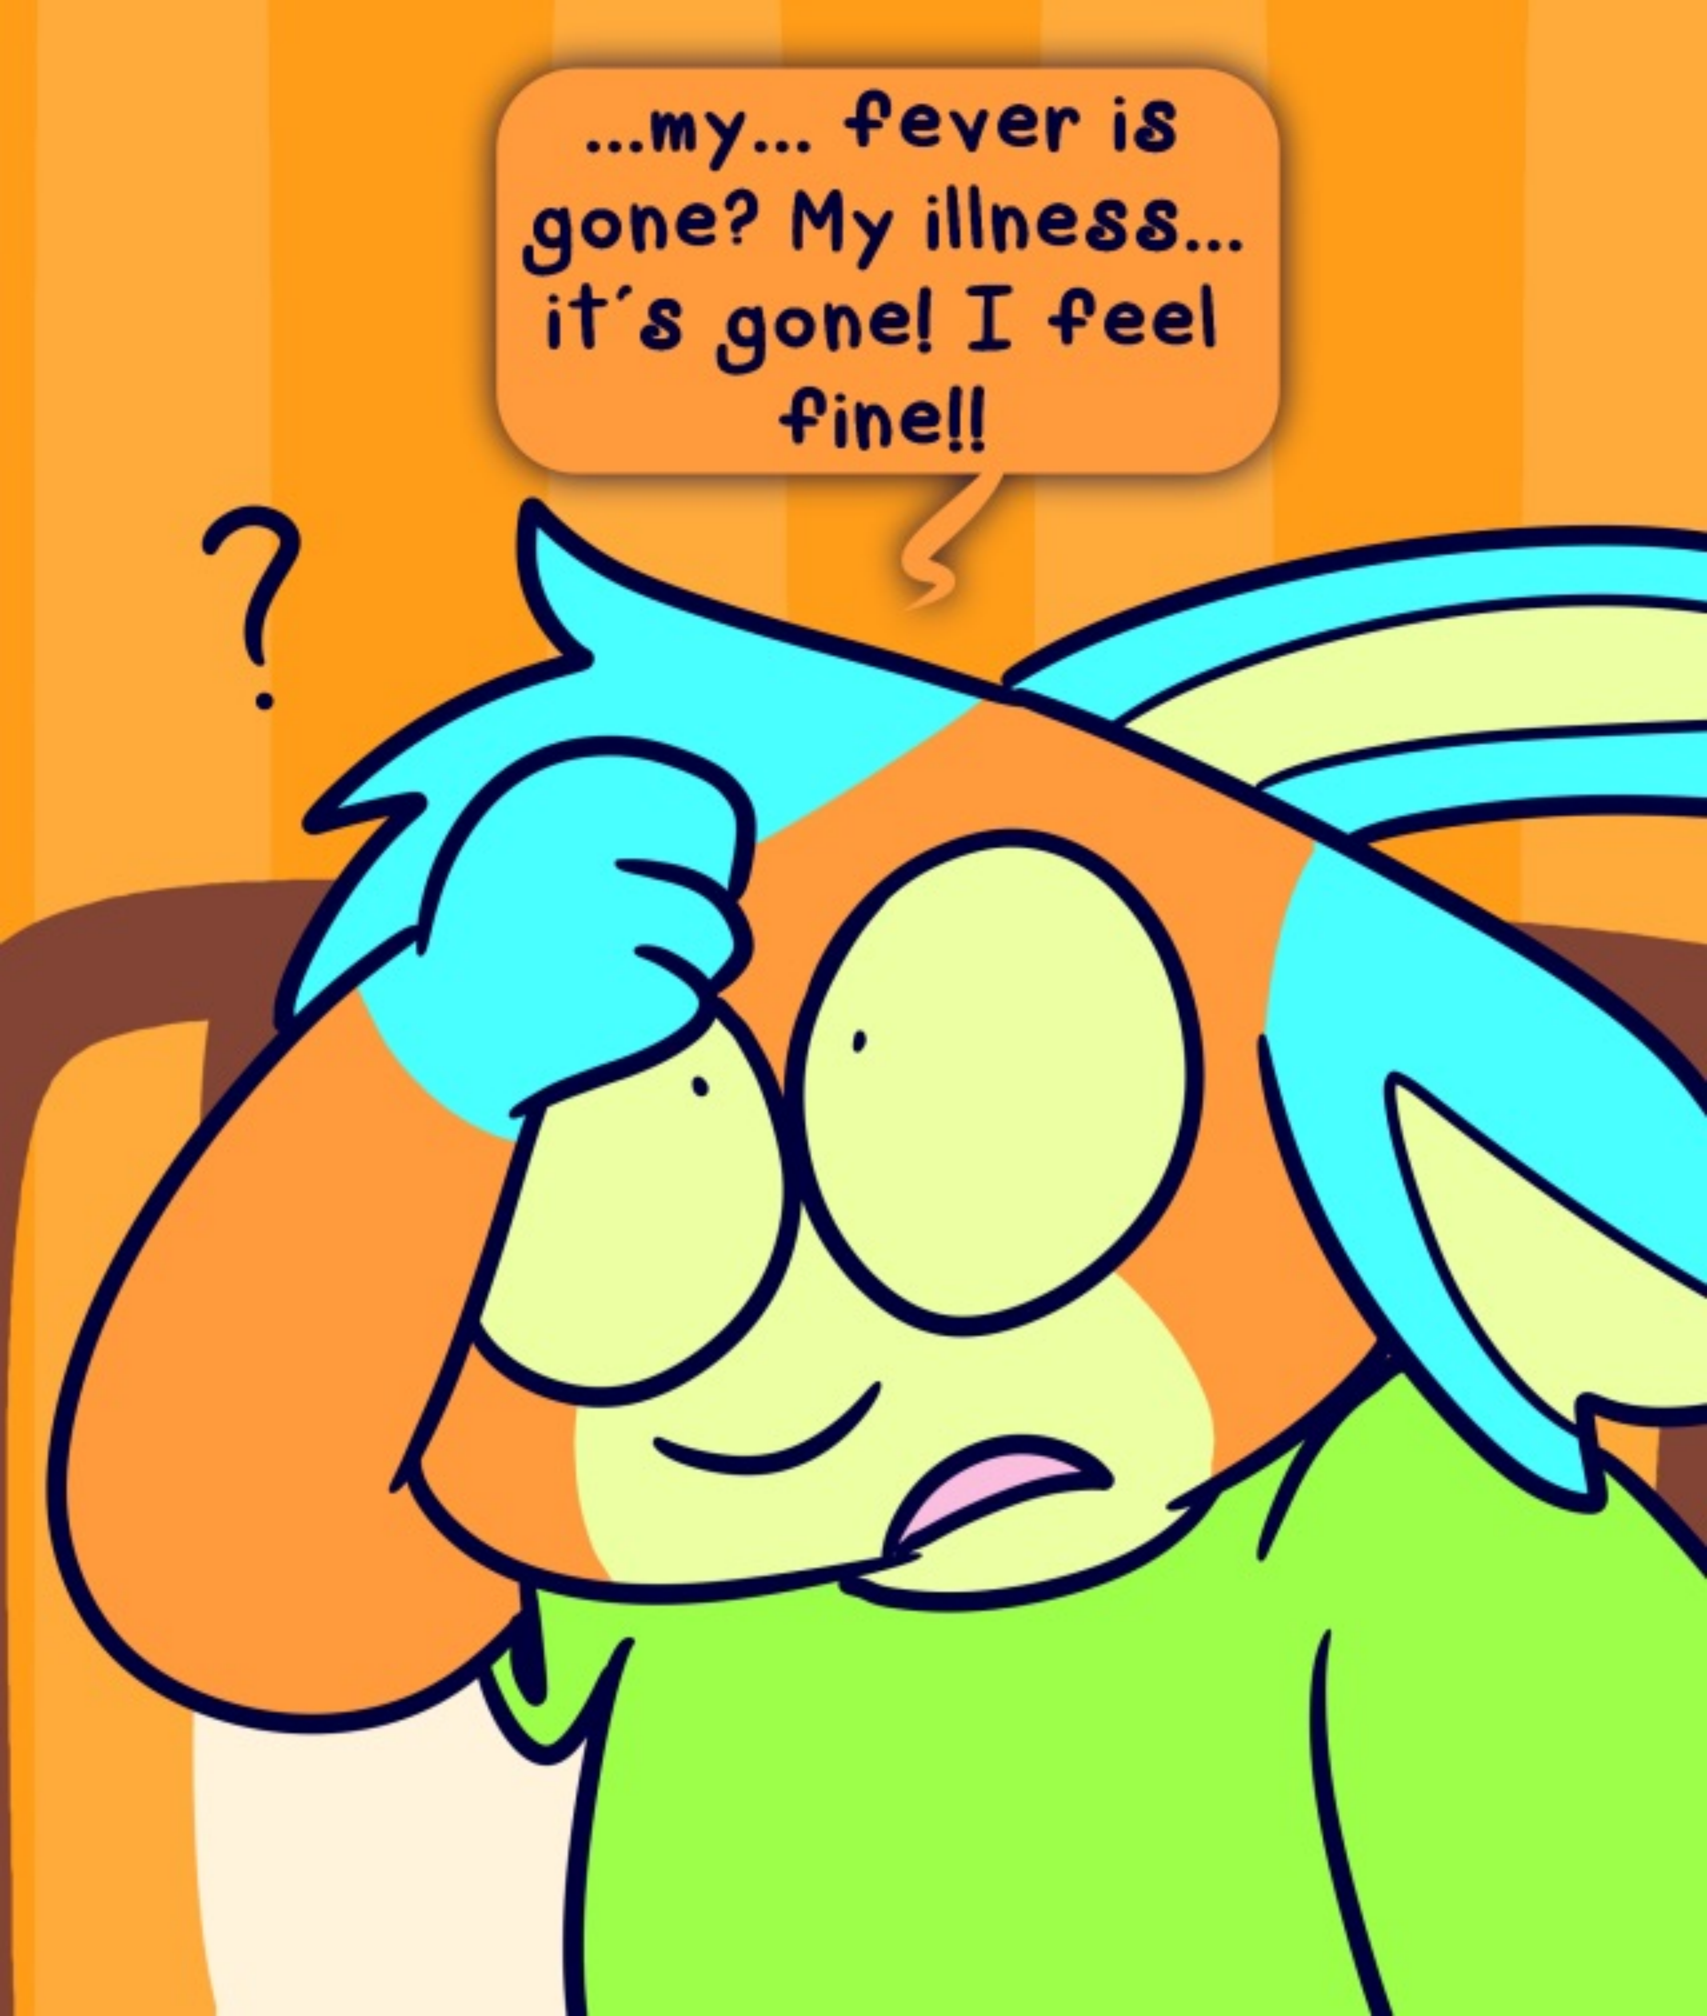


alienradiobuzz asked:

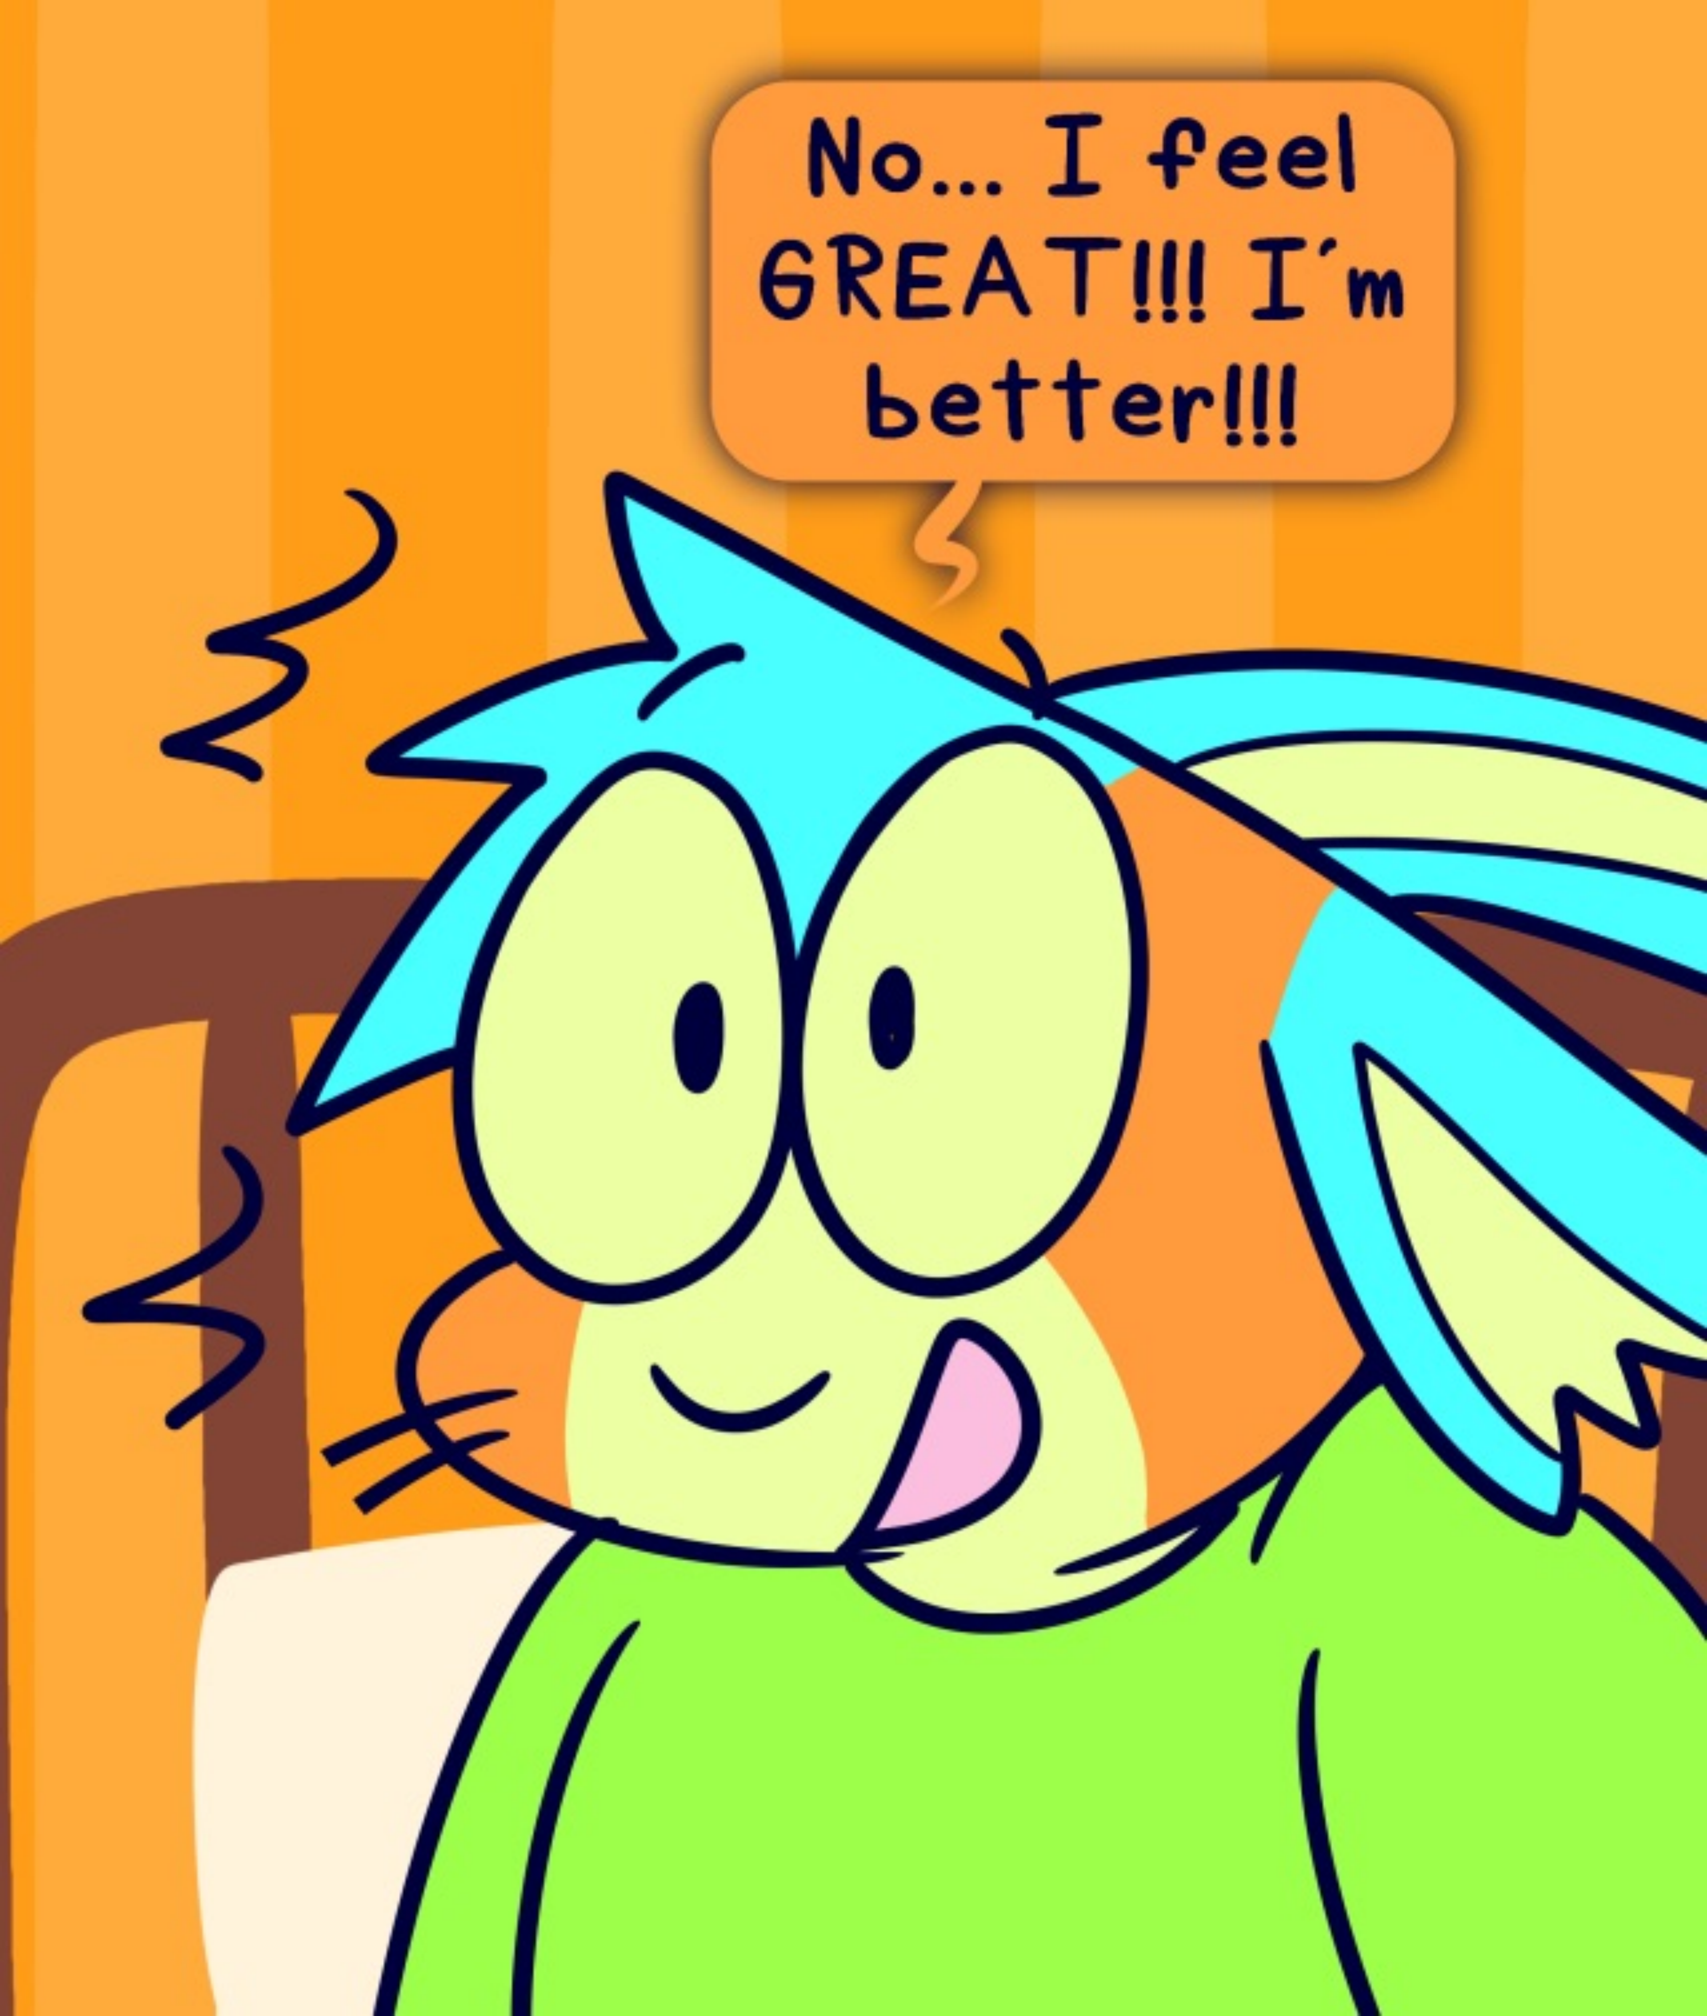
...Moore, what’s with that look? Did you have an epiphany?



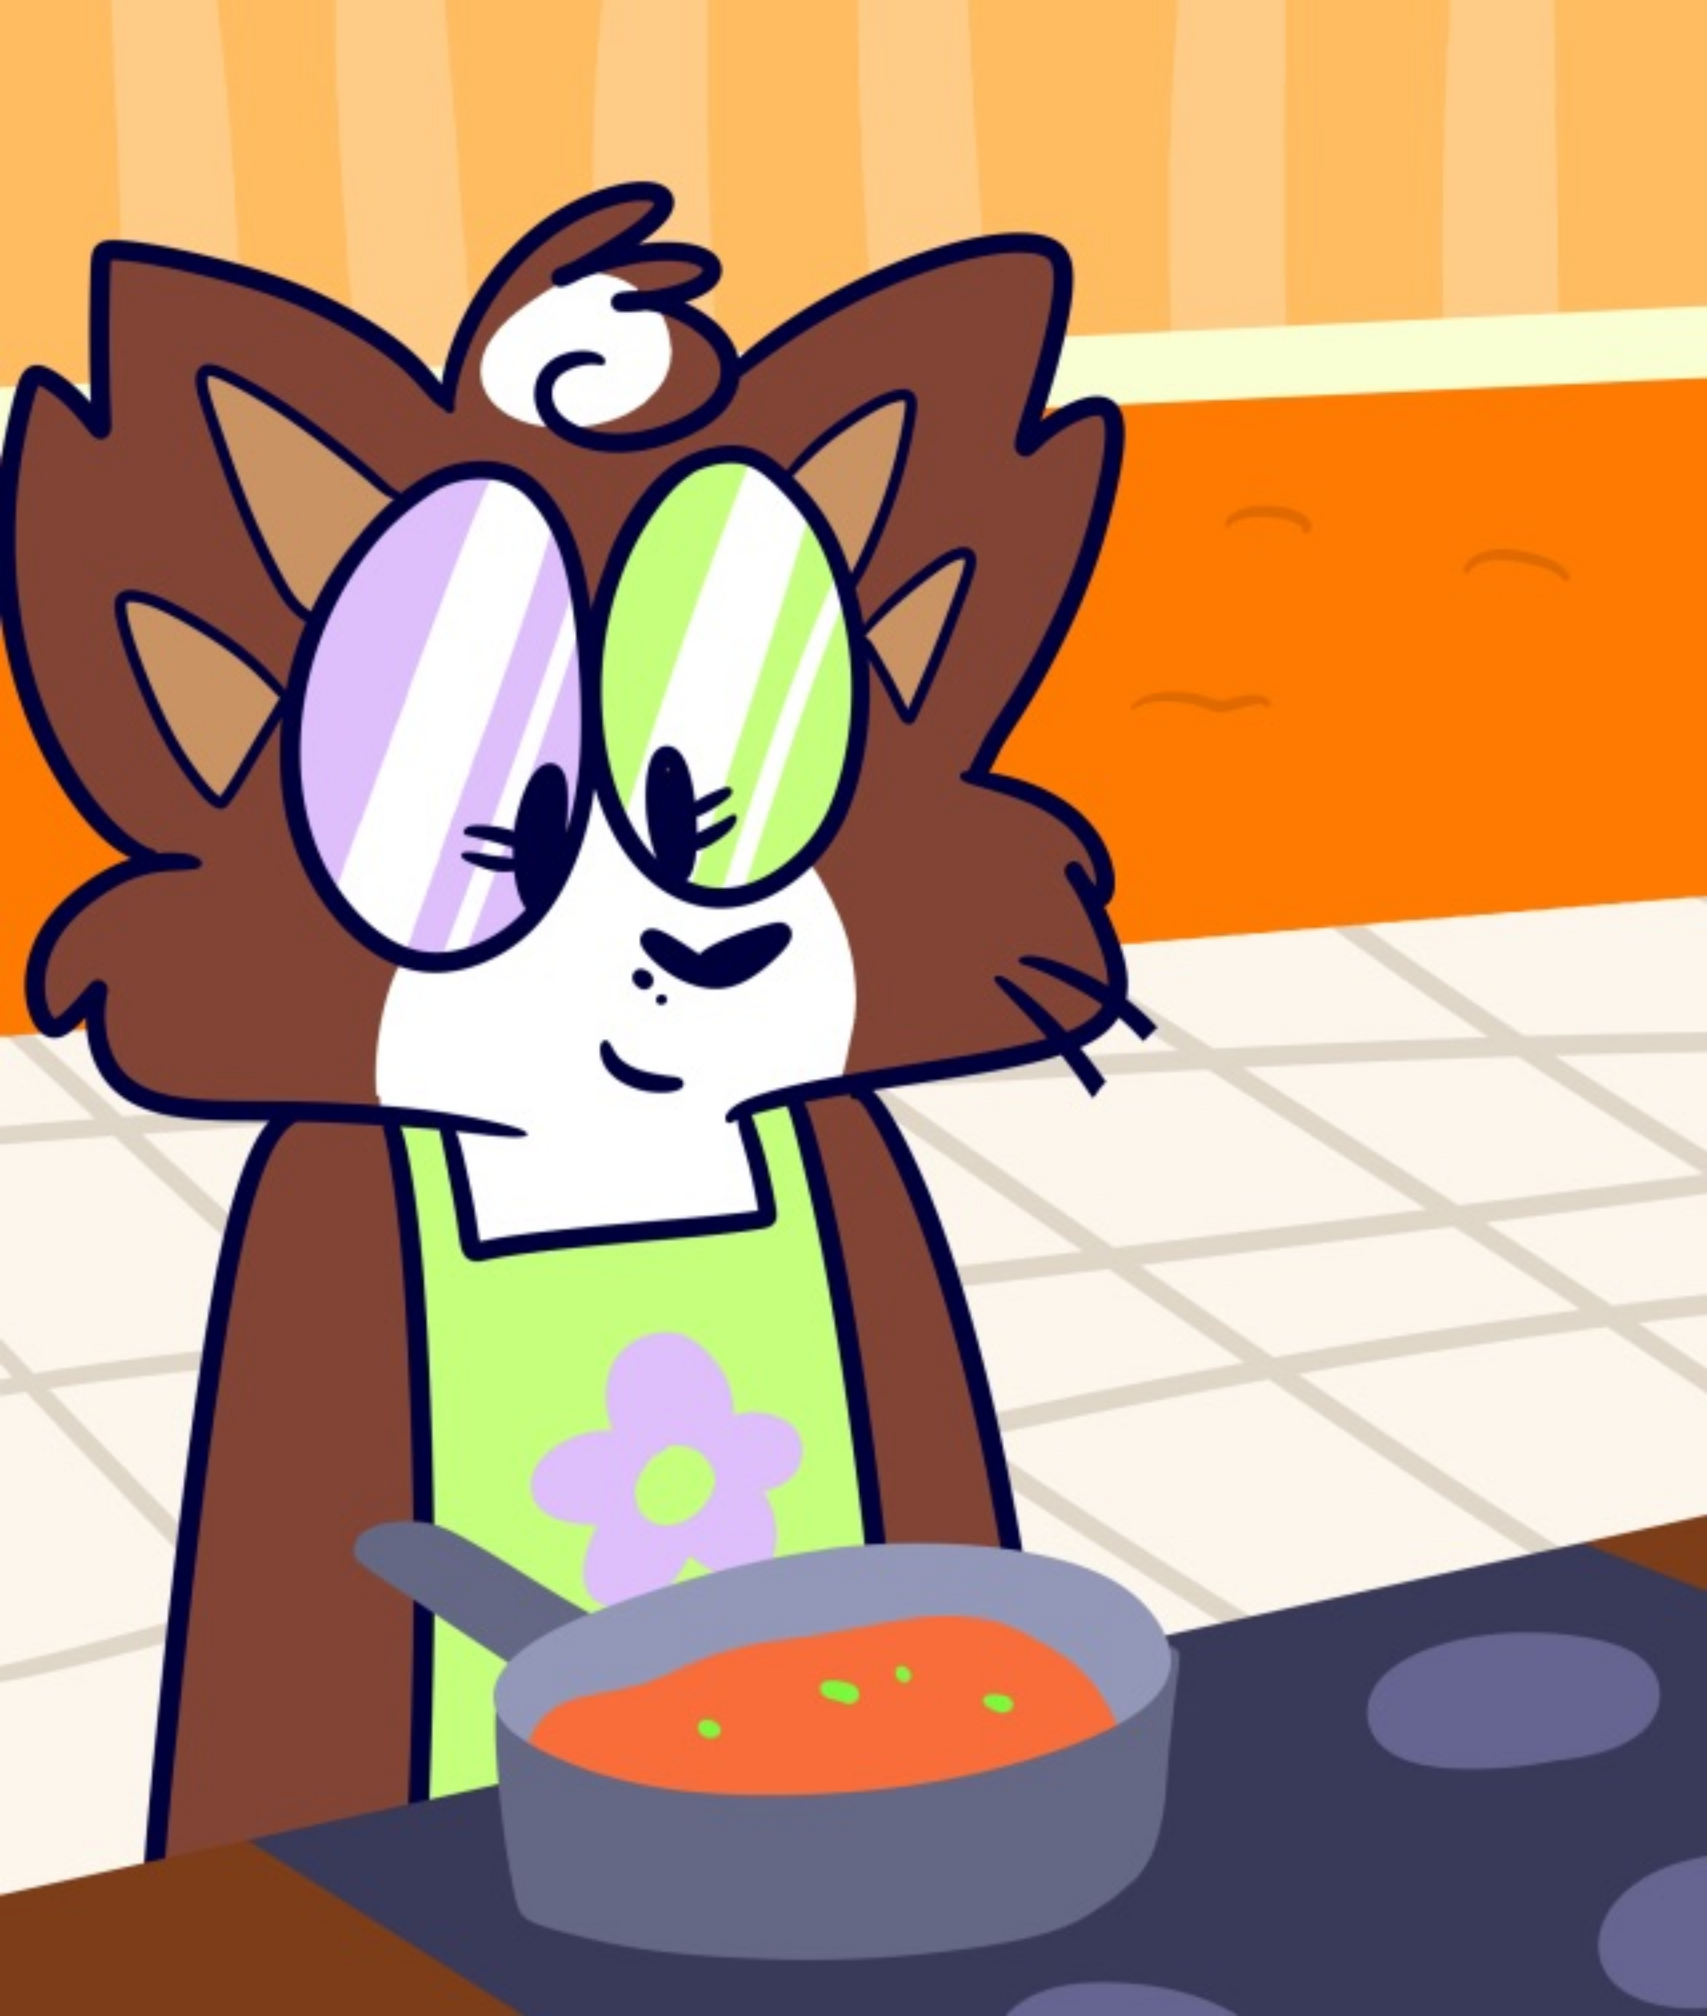
...I feel..... fine?

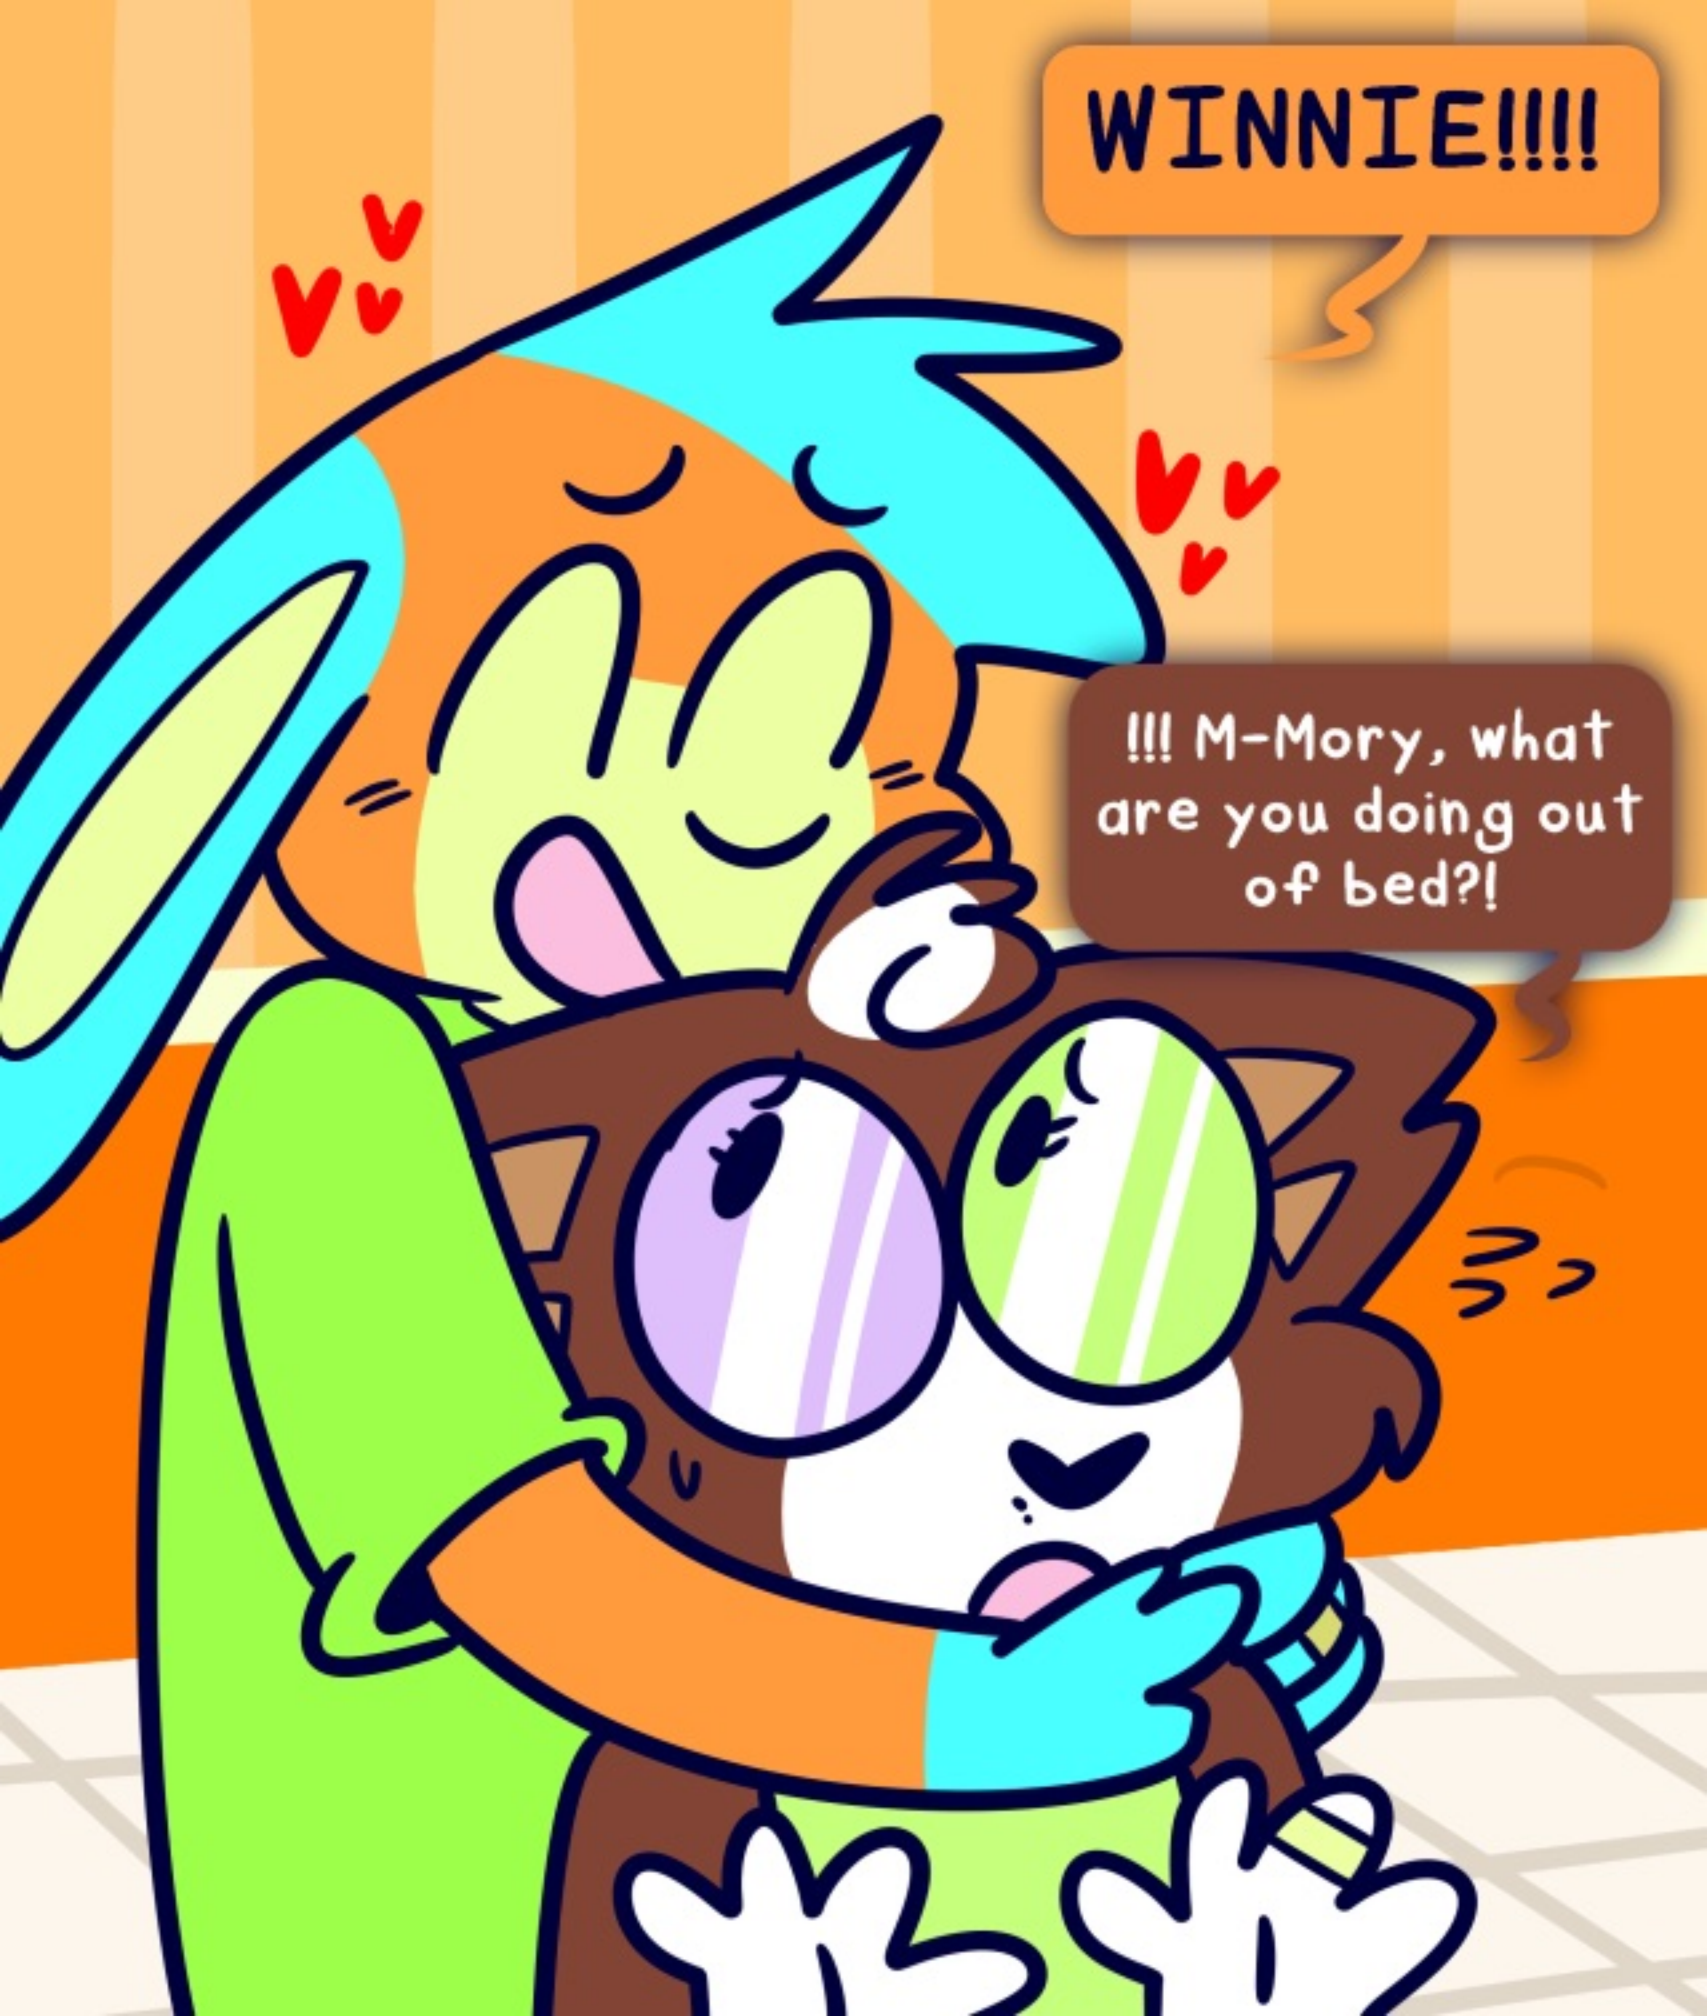


...my... fever is gone? My illness... it´s gone! I feel fine!!
?

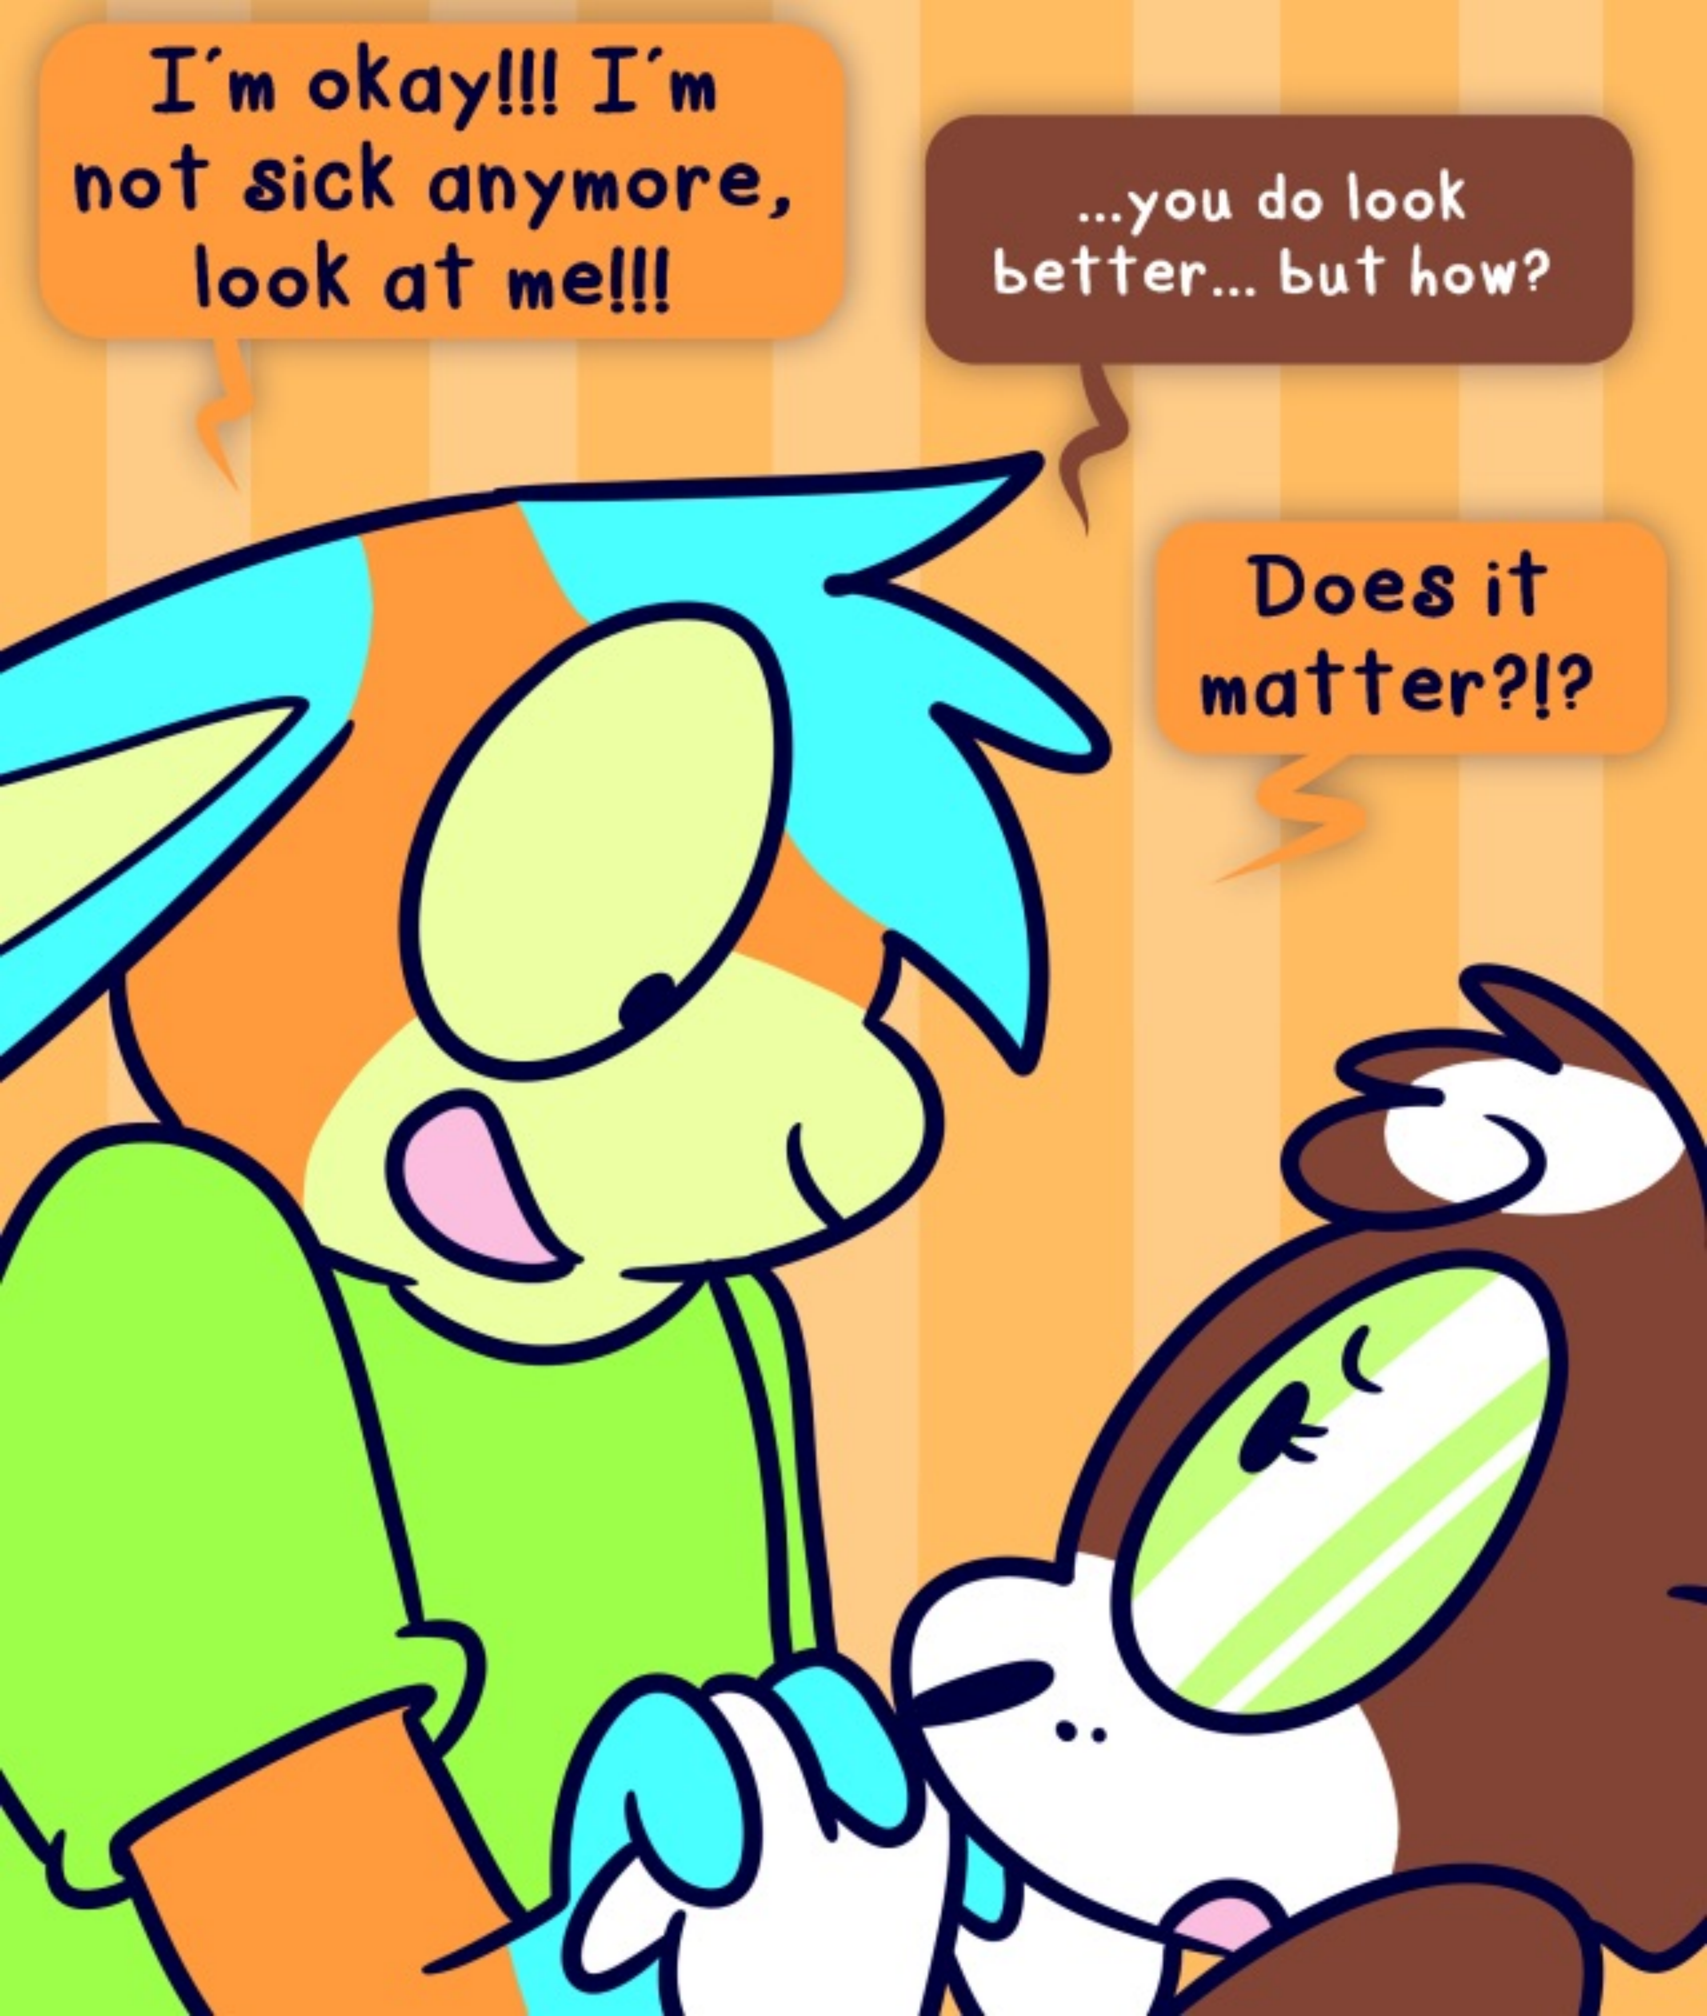


No... I feel GREAT!!! I´m better!!!

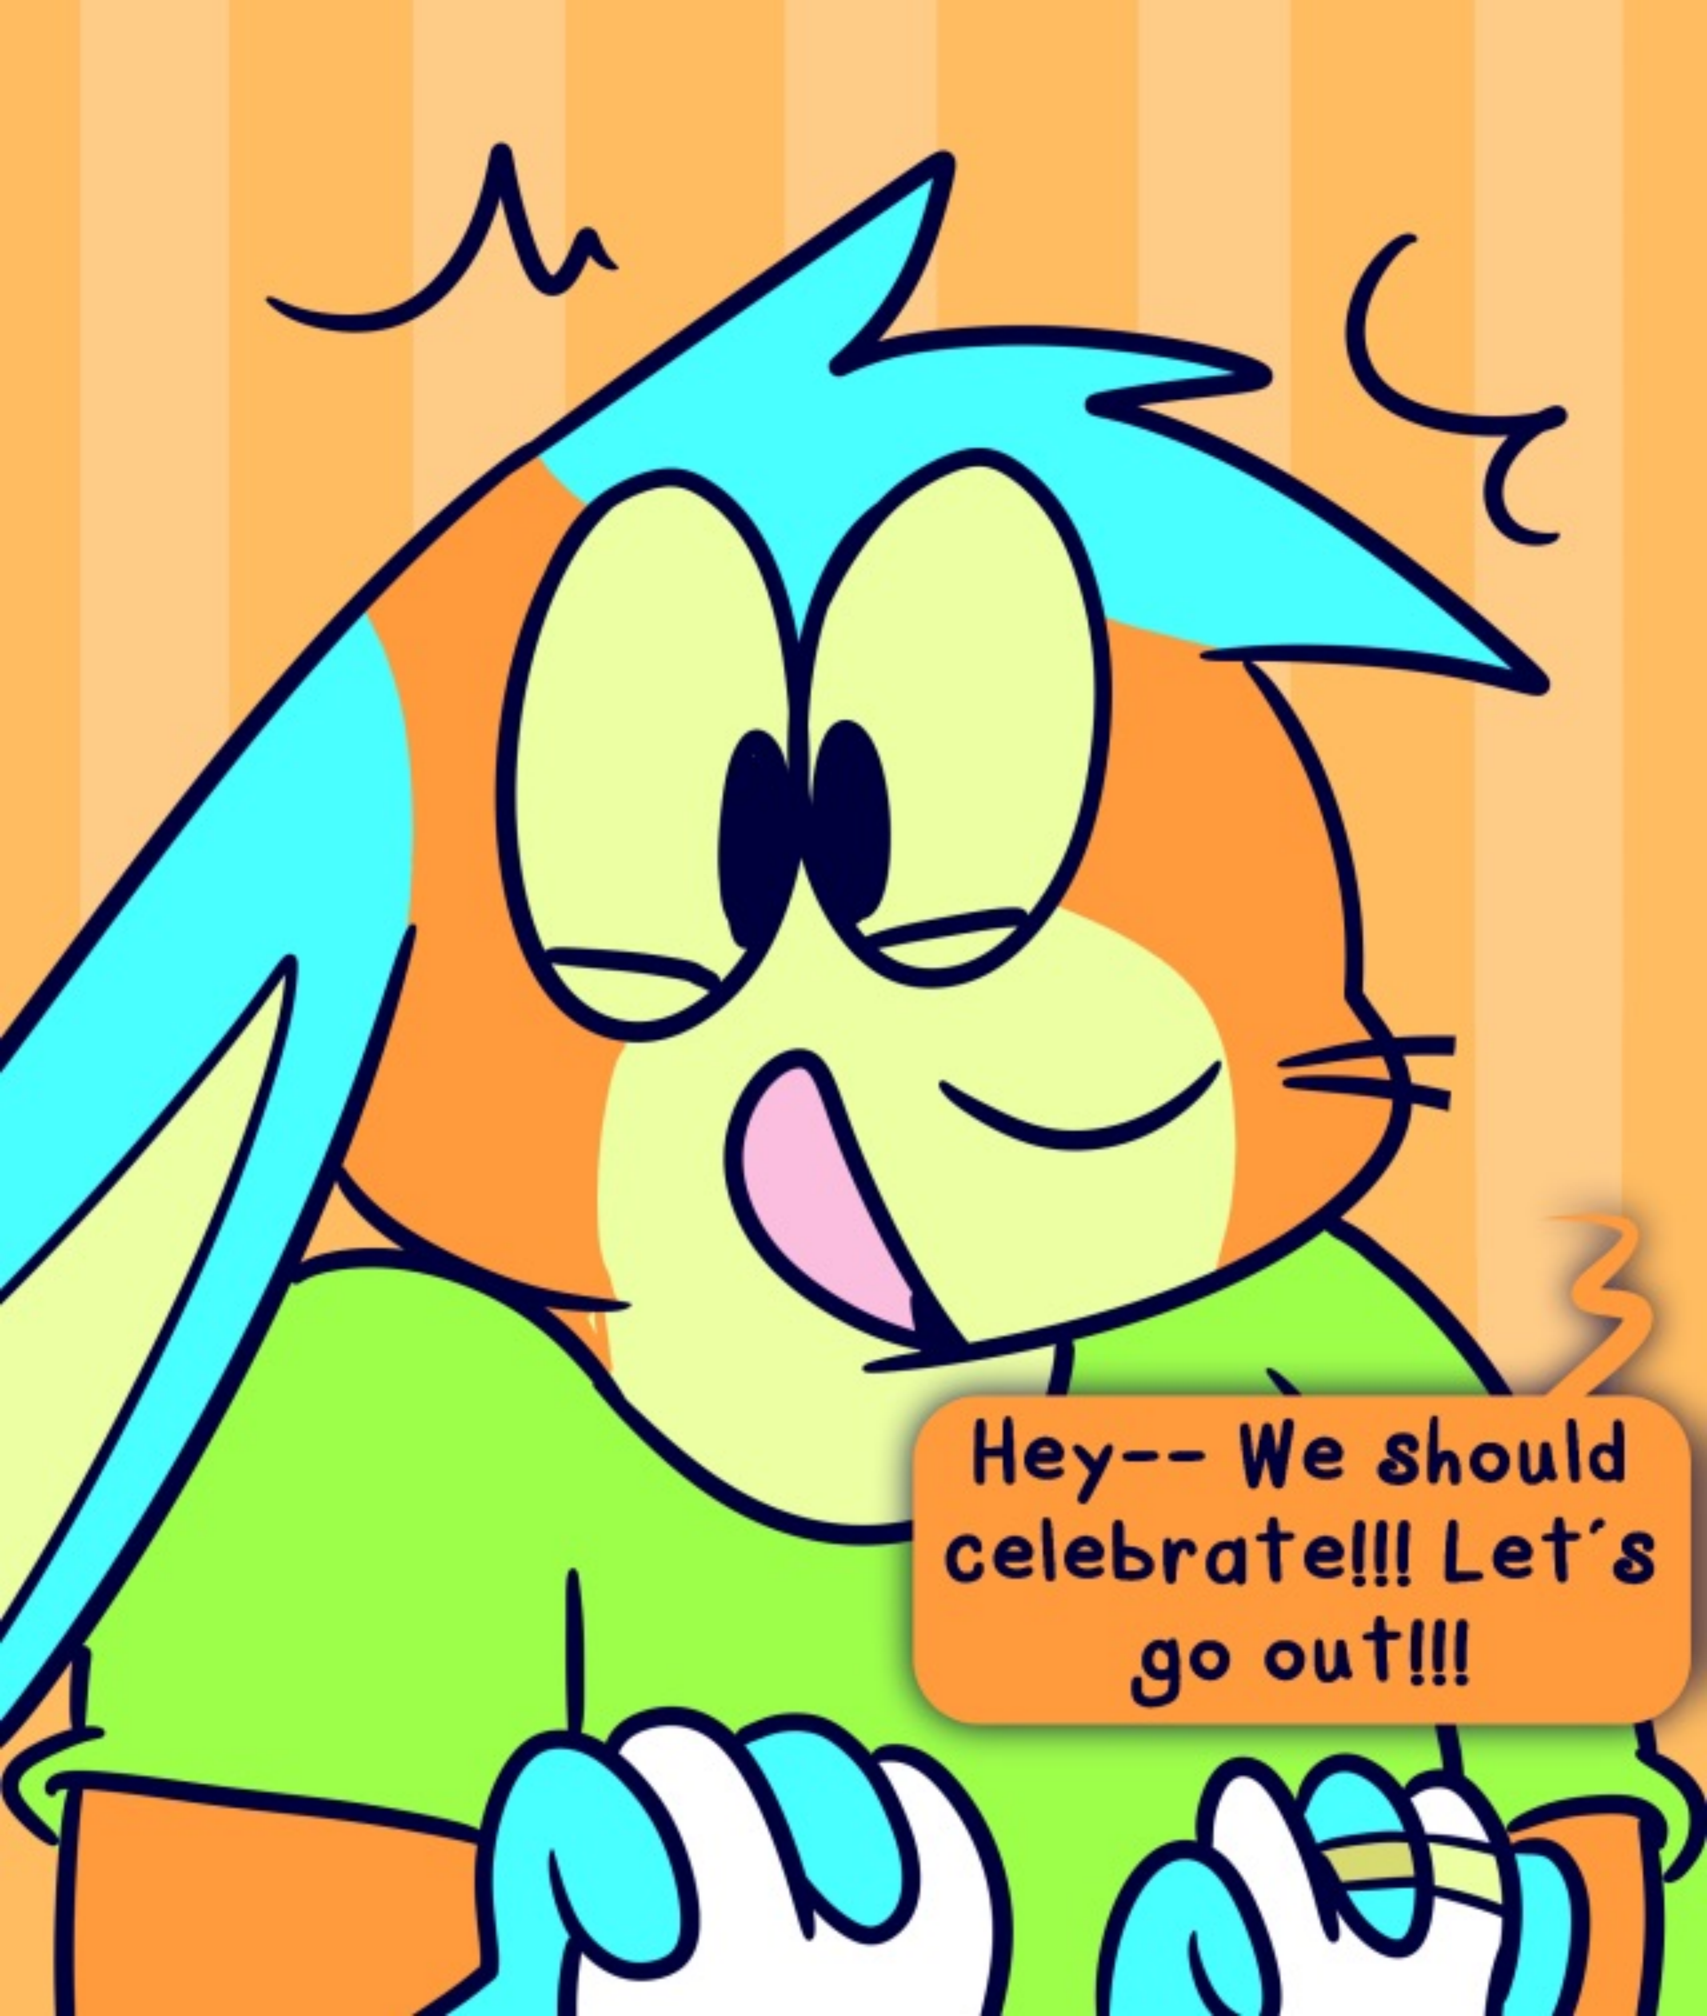




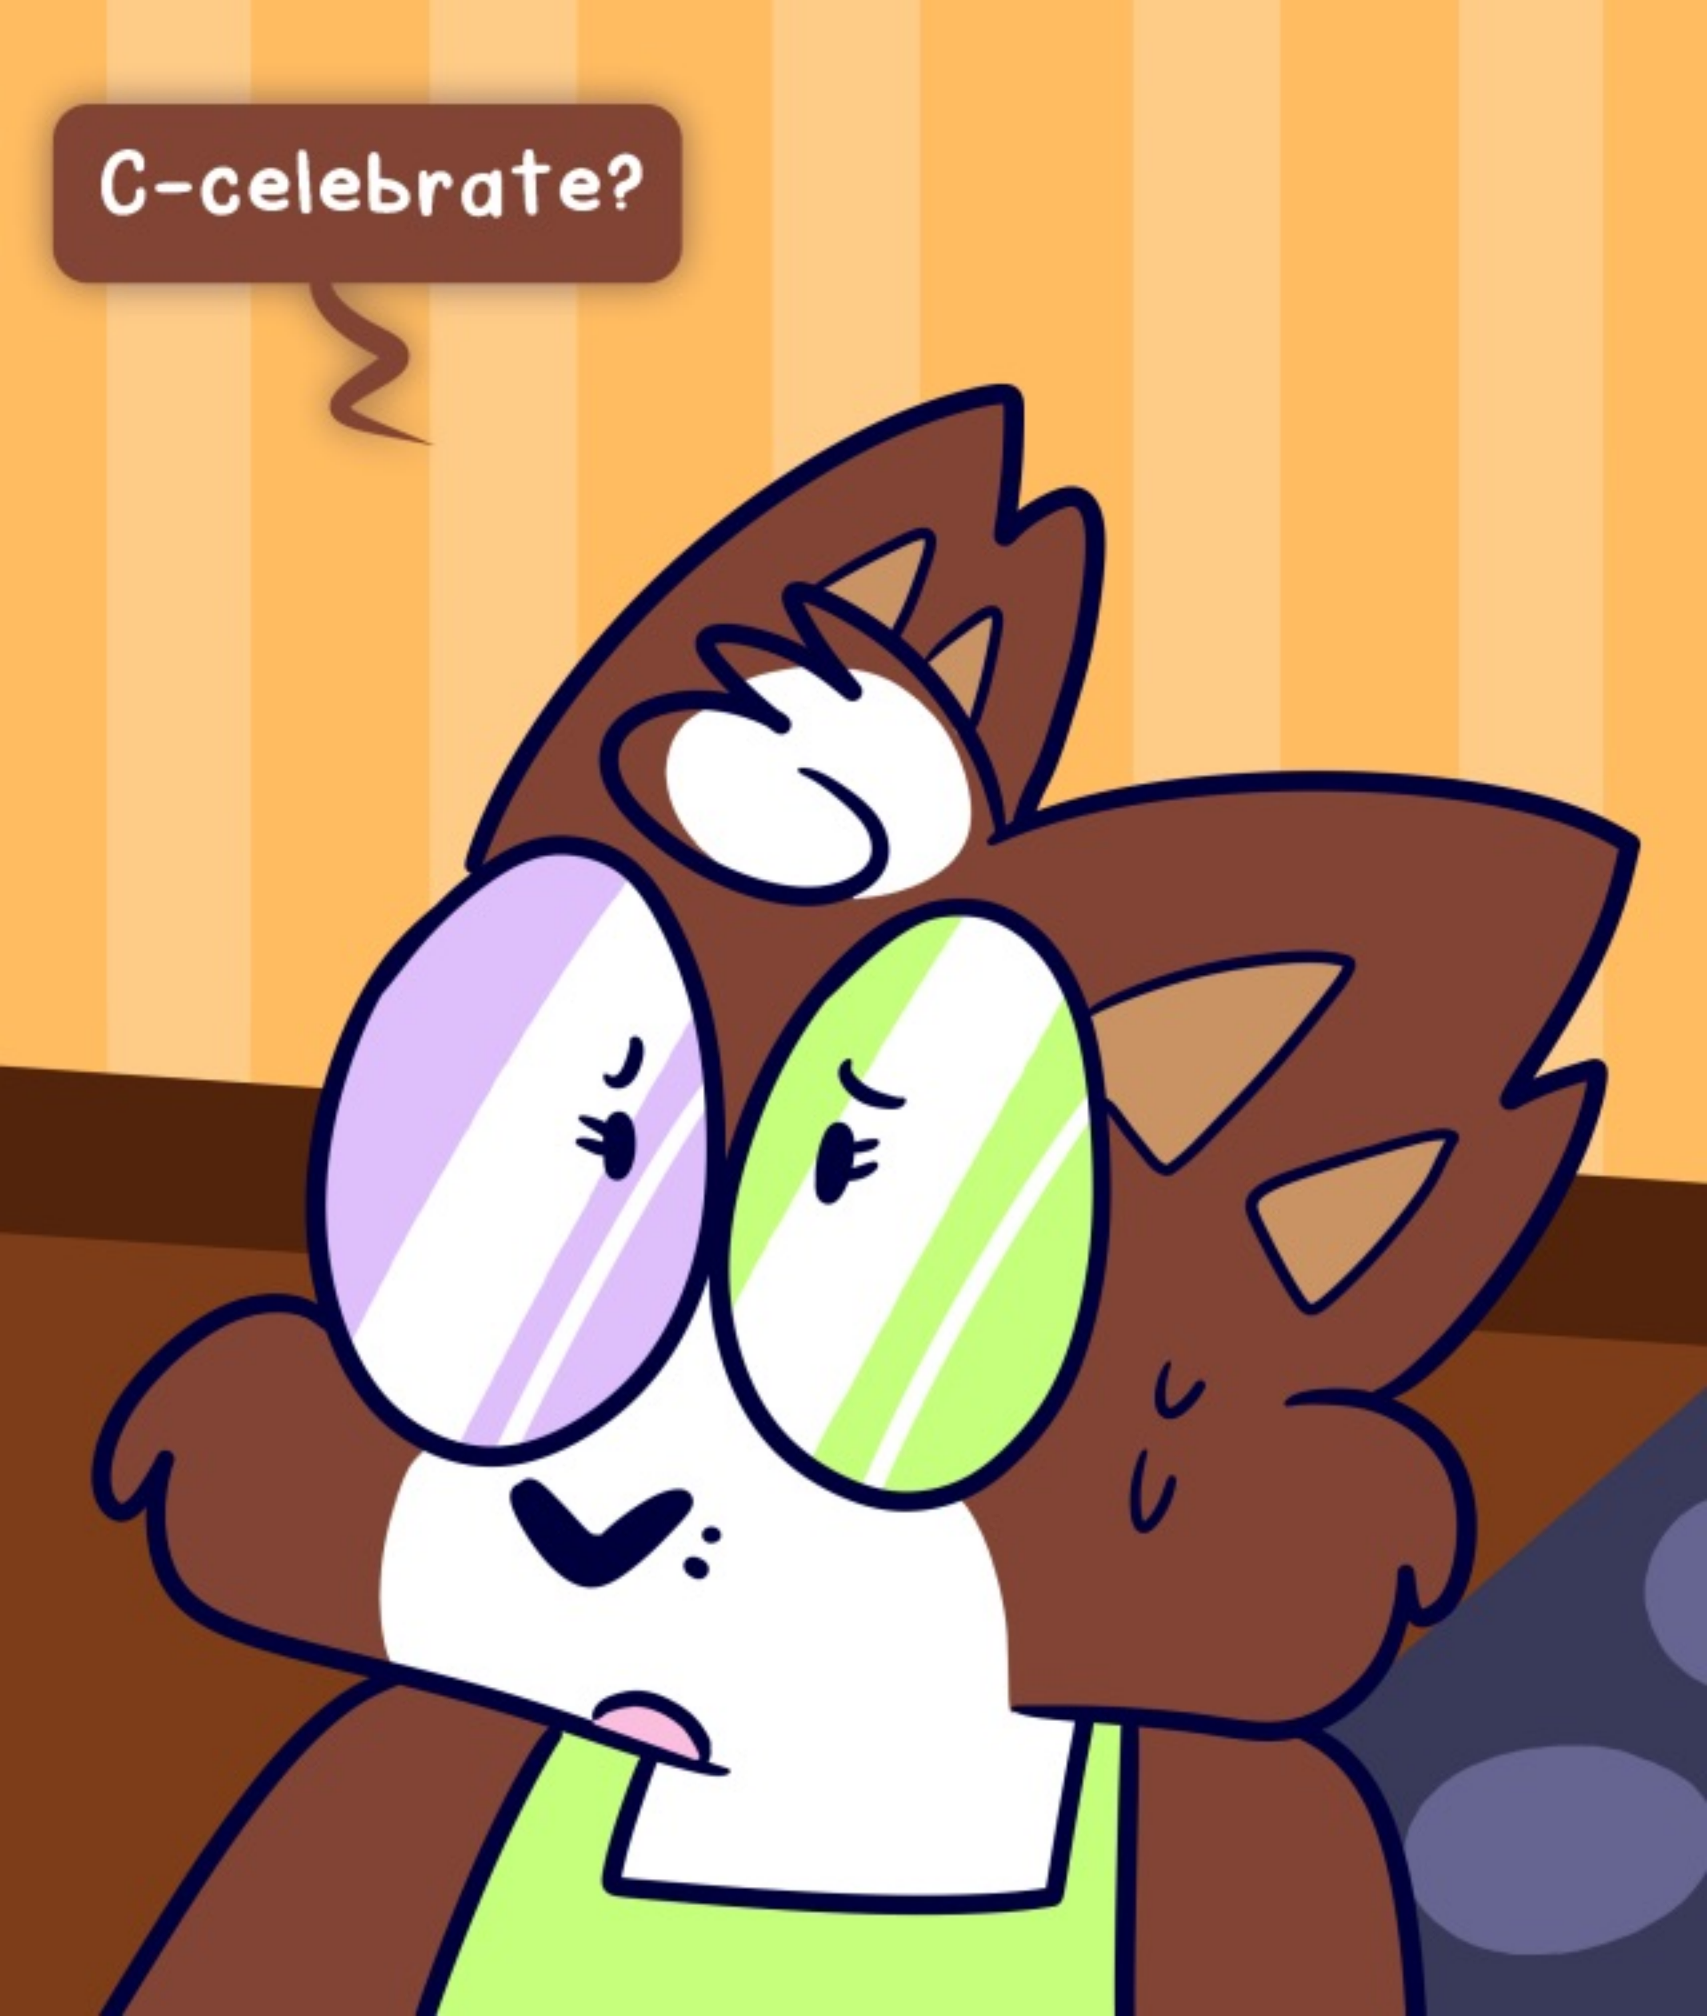
WINNIE!!!!
!!! M-Mory, what are you doing out of bed?!



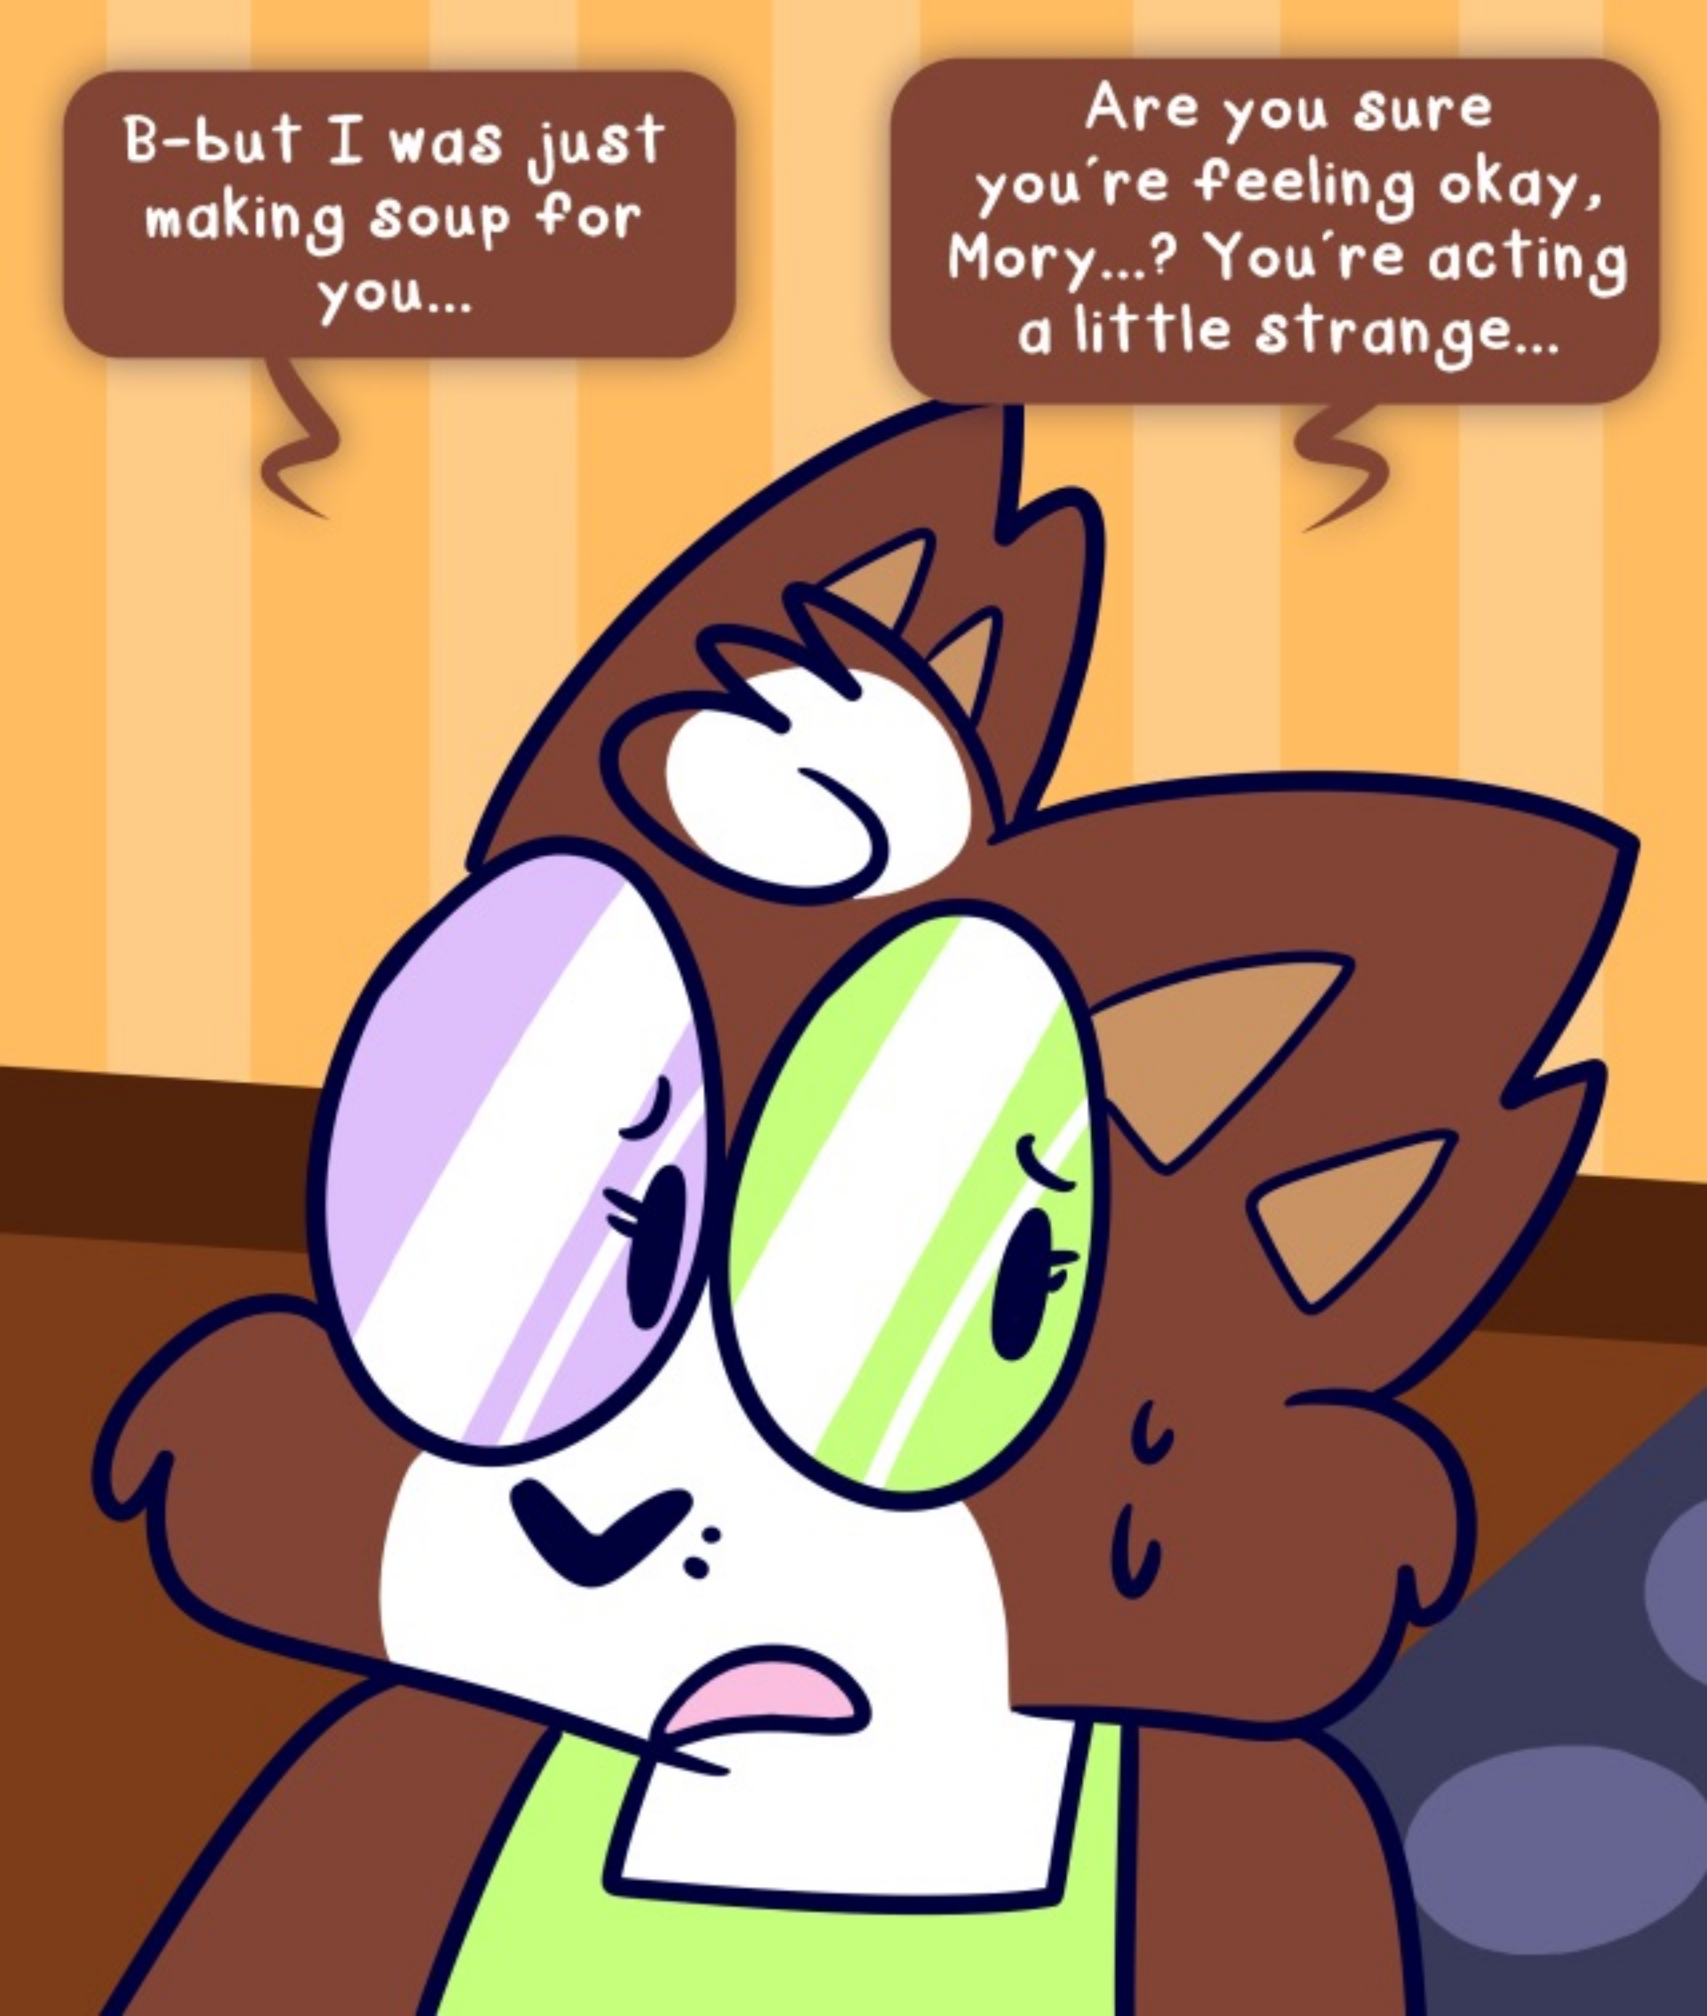
I´m okay!!! I´m not sick anymore, look at me!!!
...you do look better... but how?
Does it matter?!?



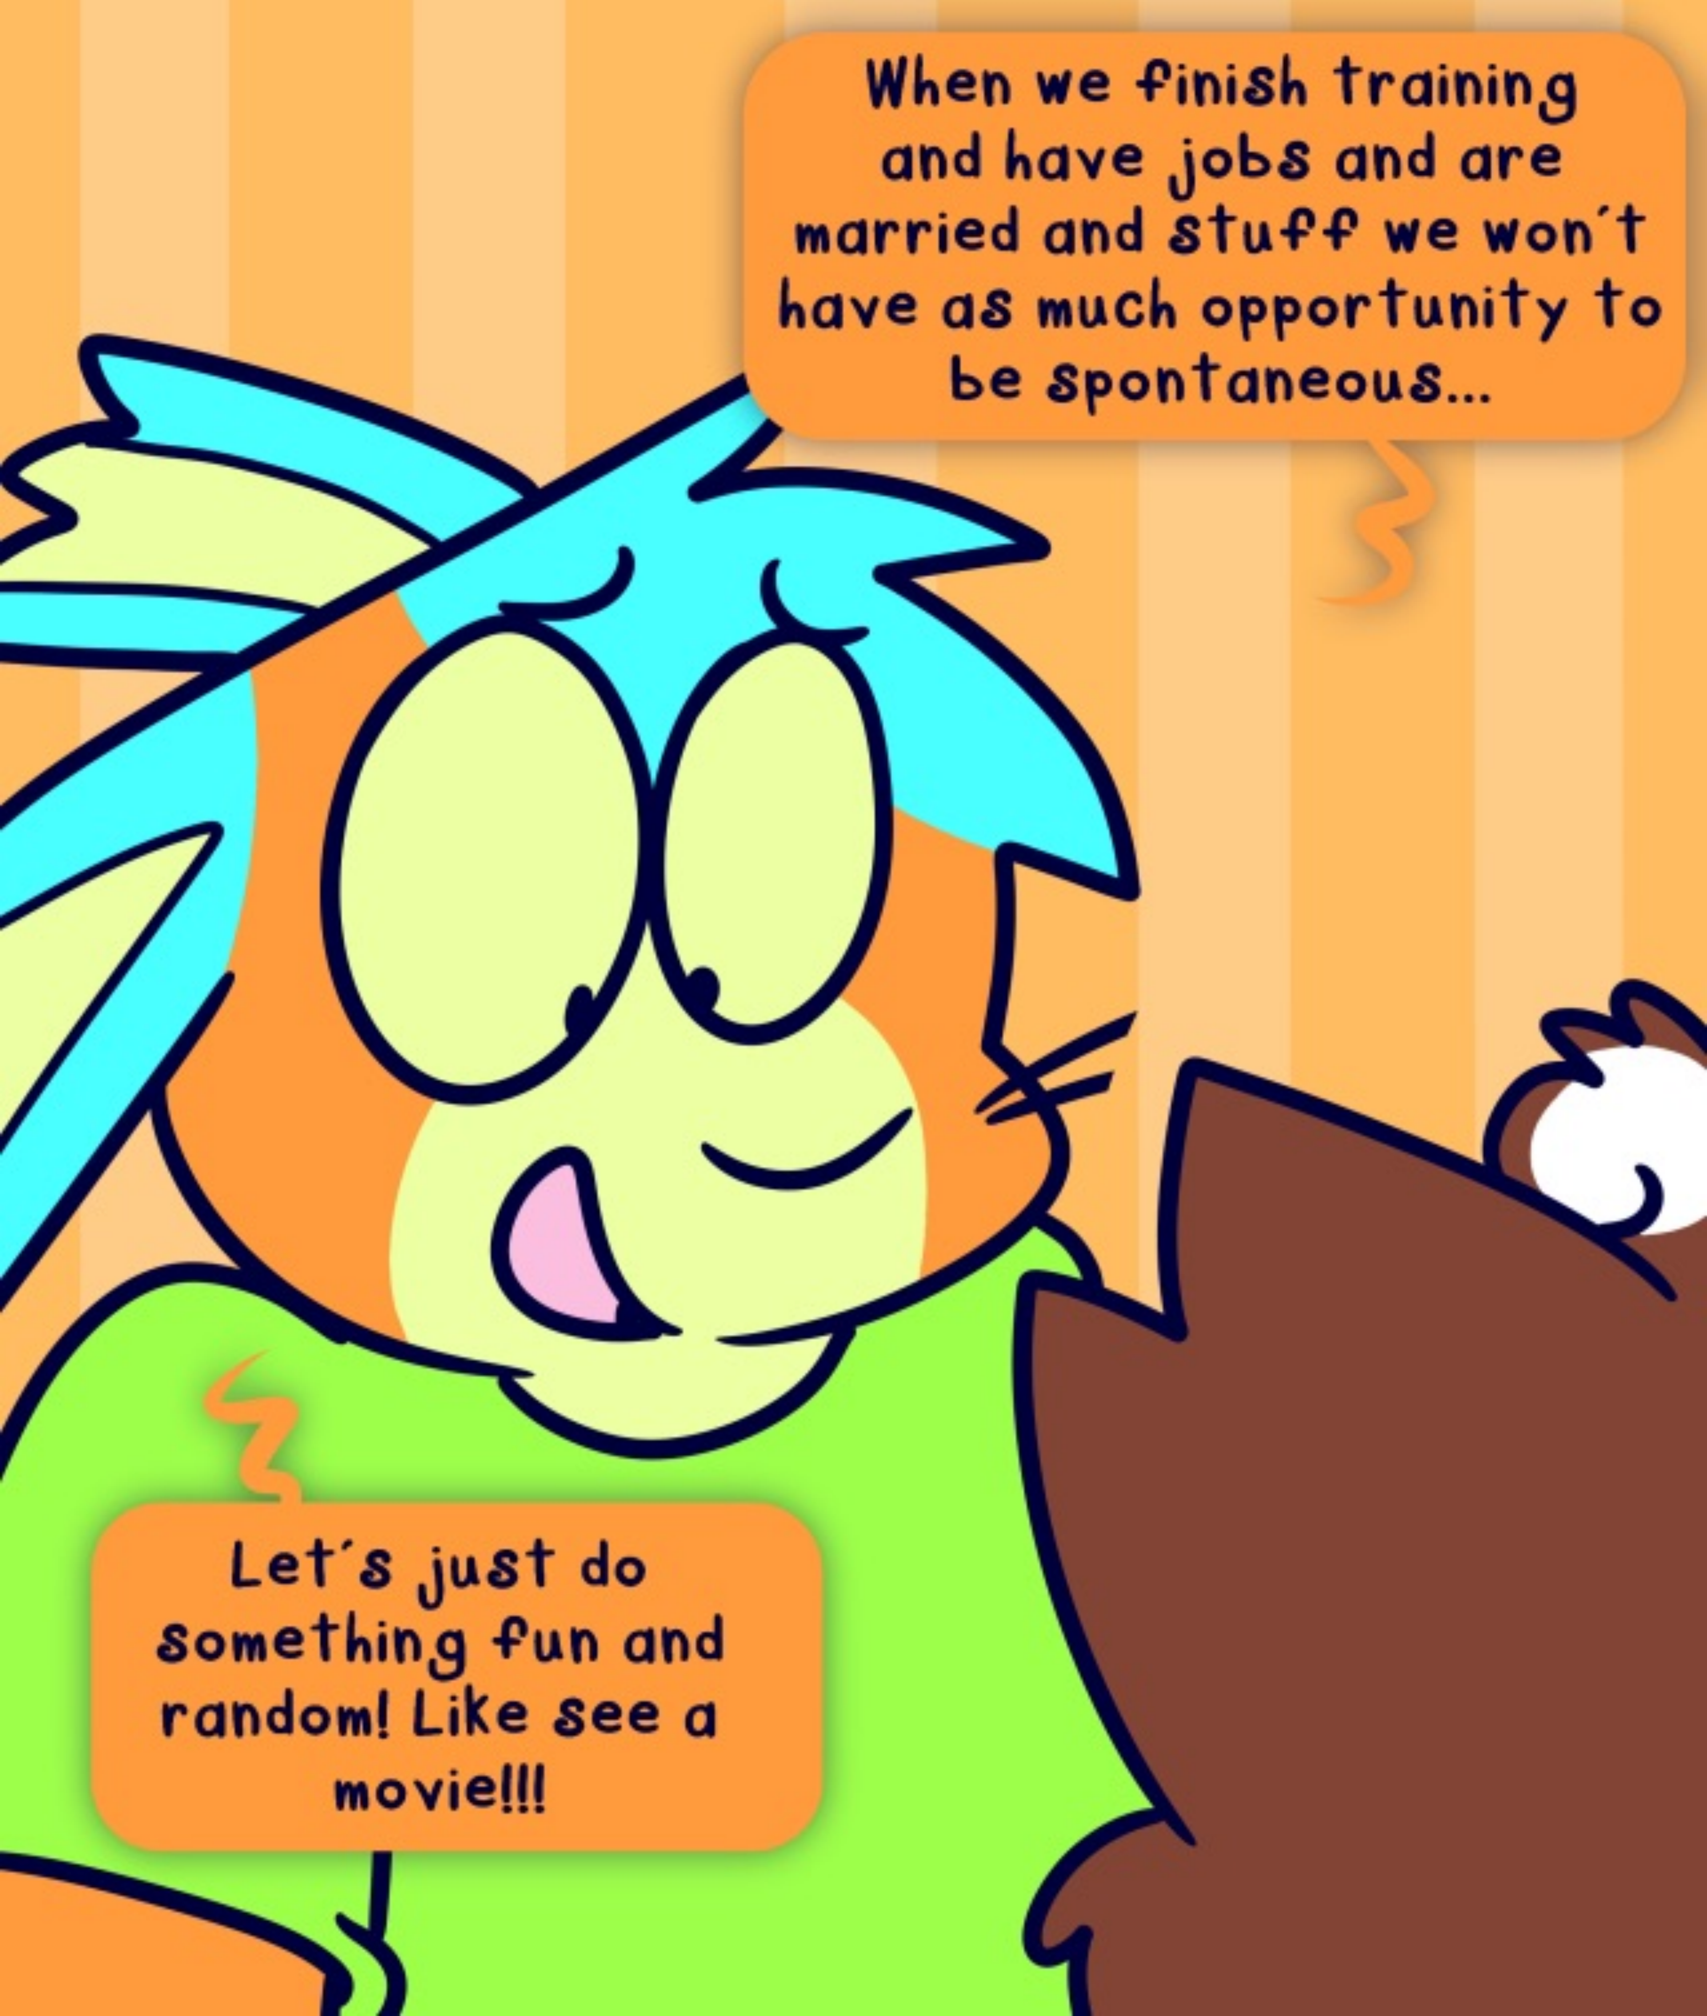
Hey-- We should celebrate!!! Let´s go out!!!



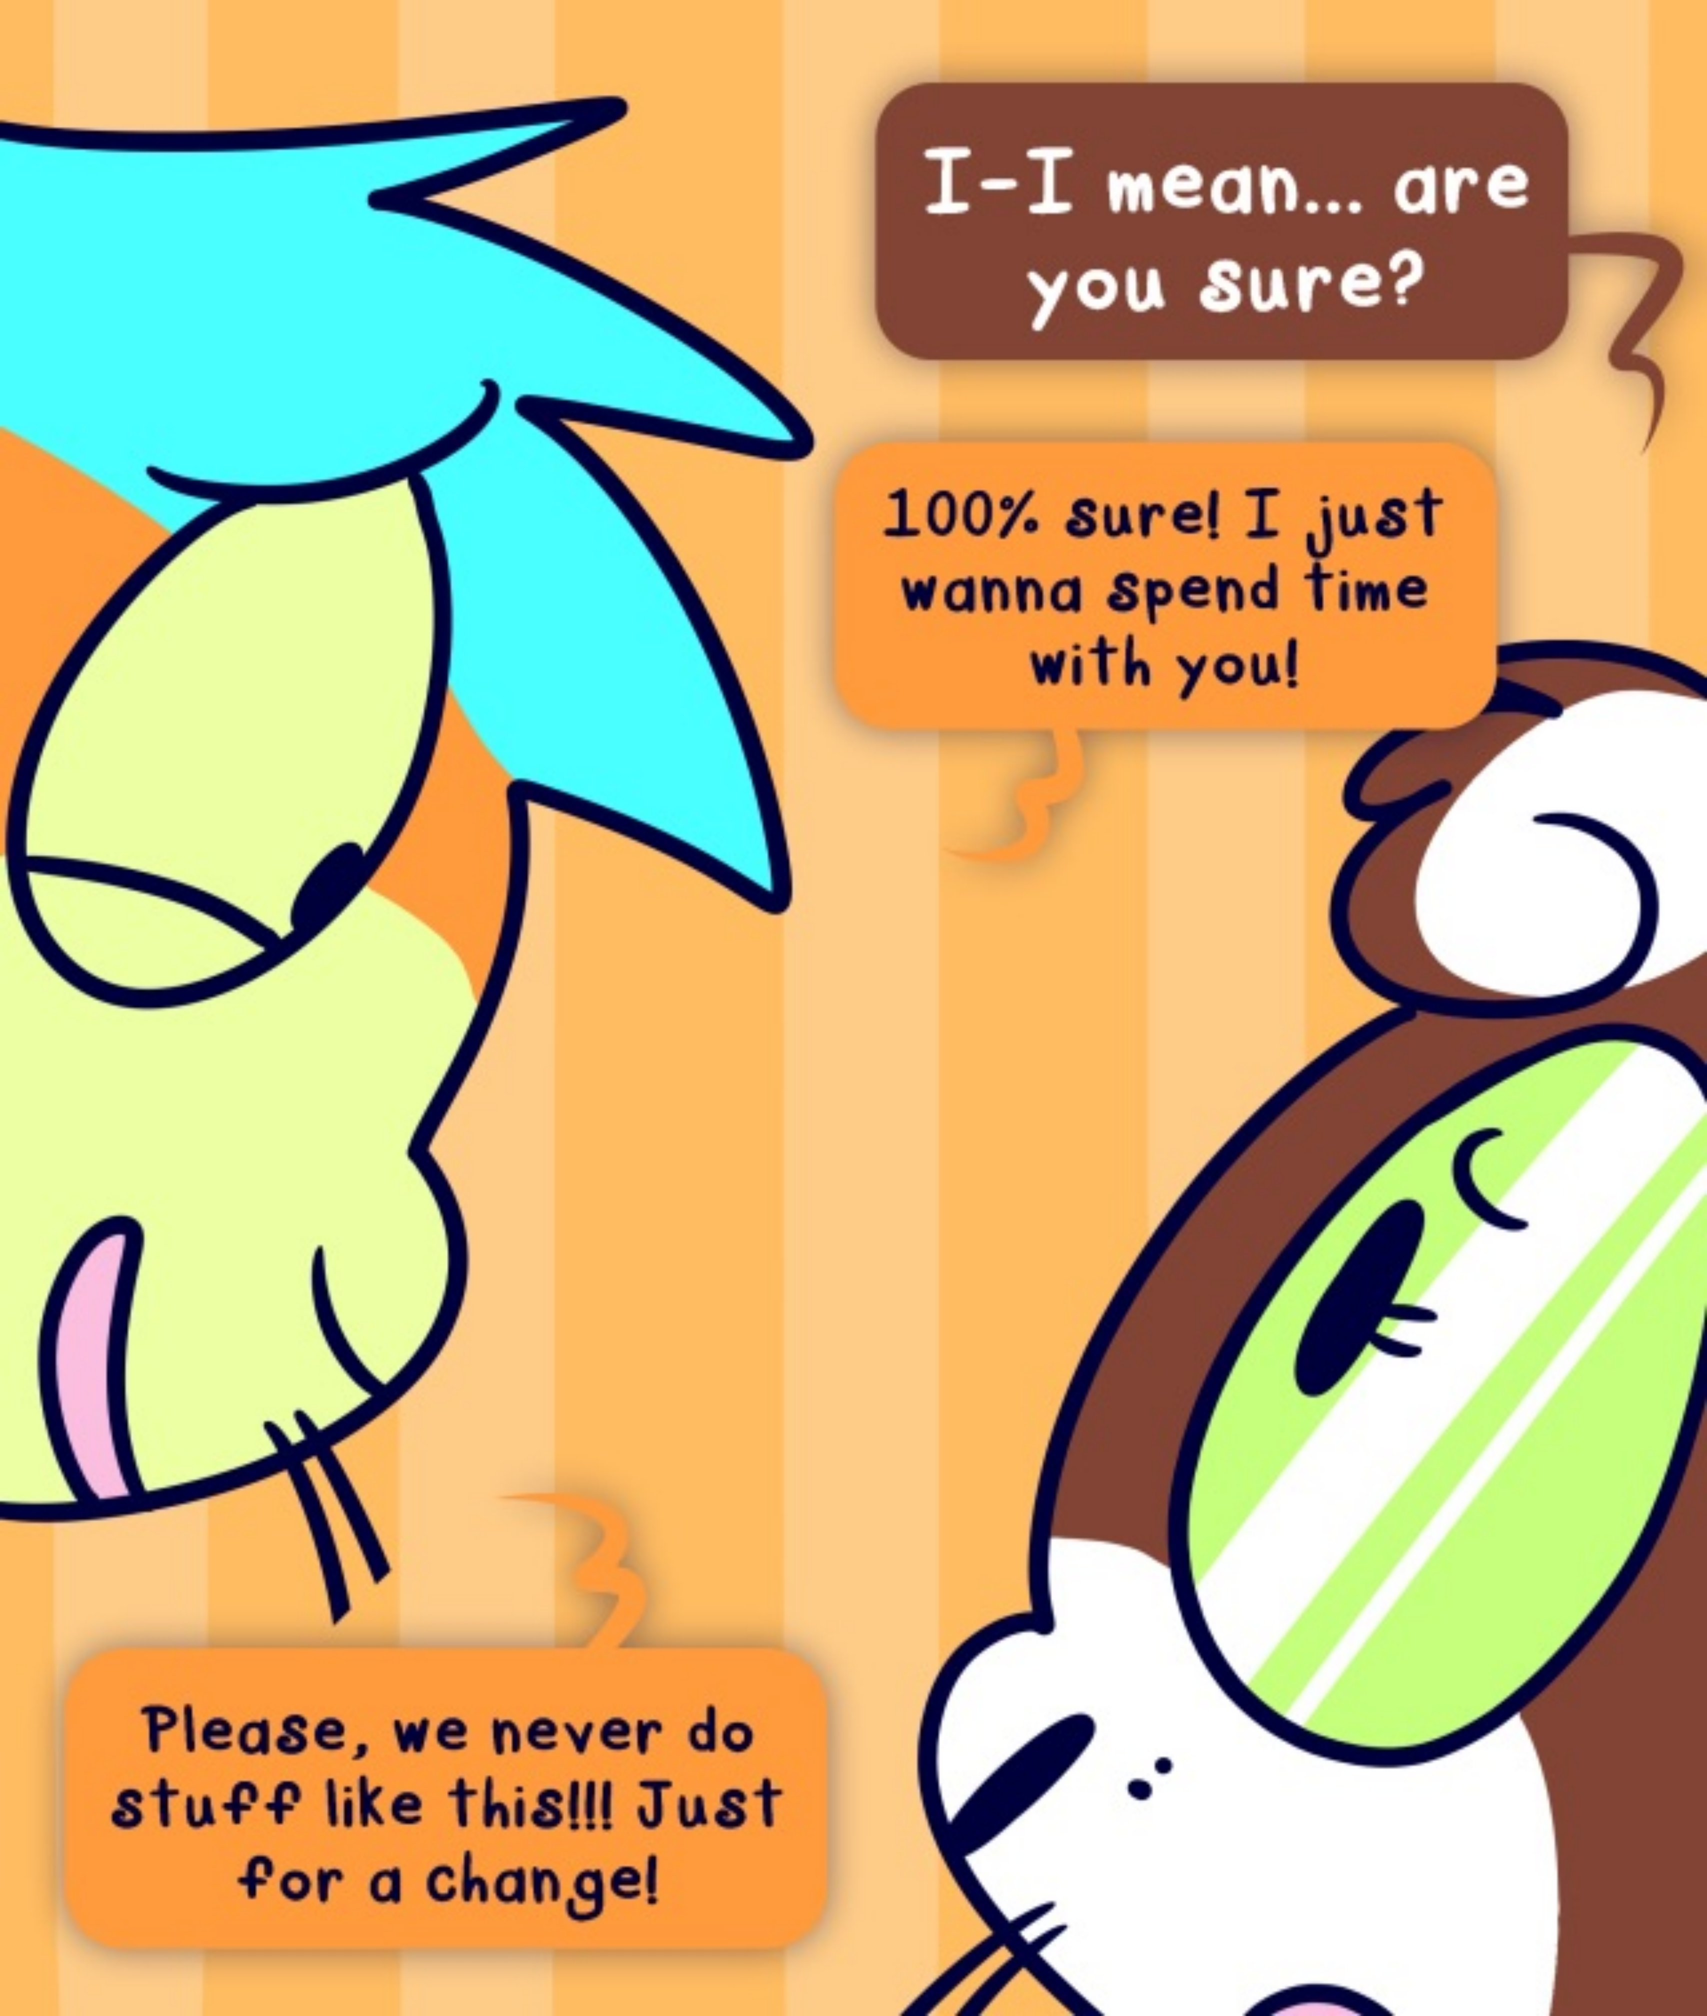
C-celebrate?



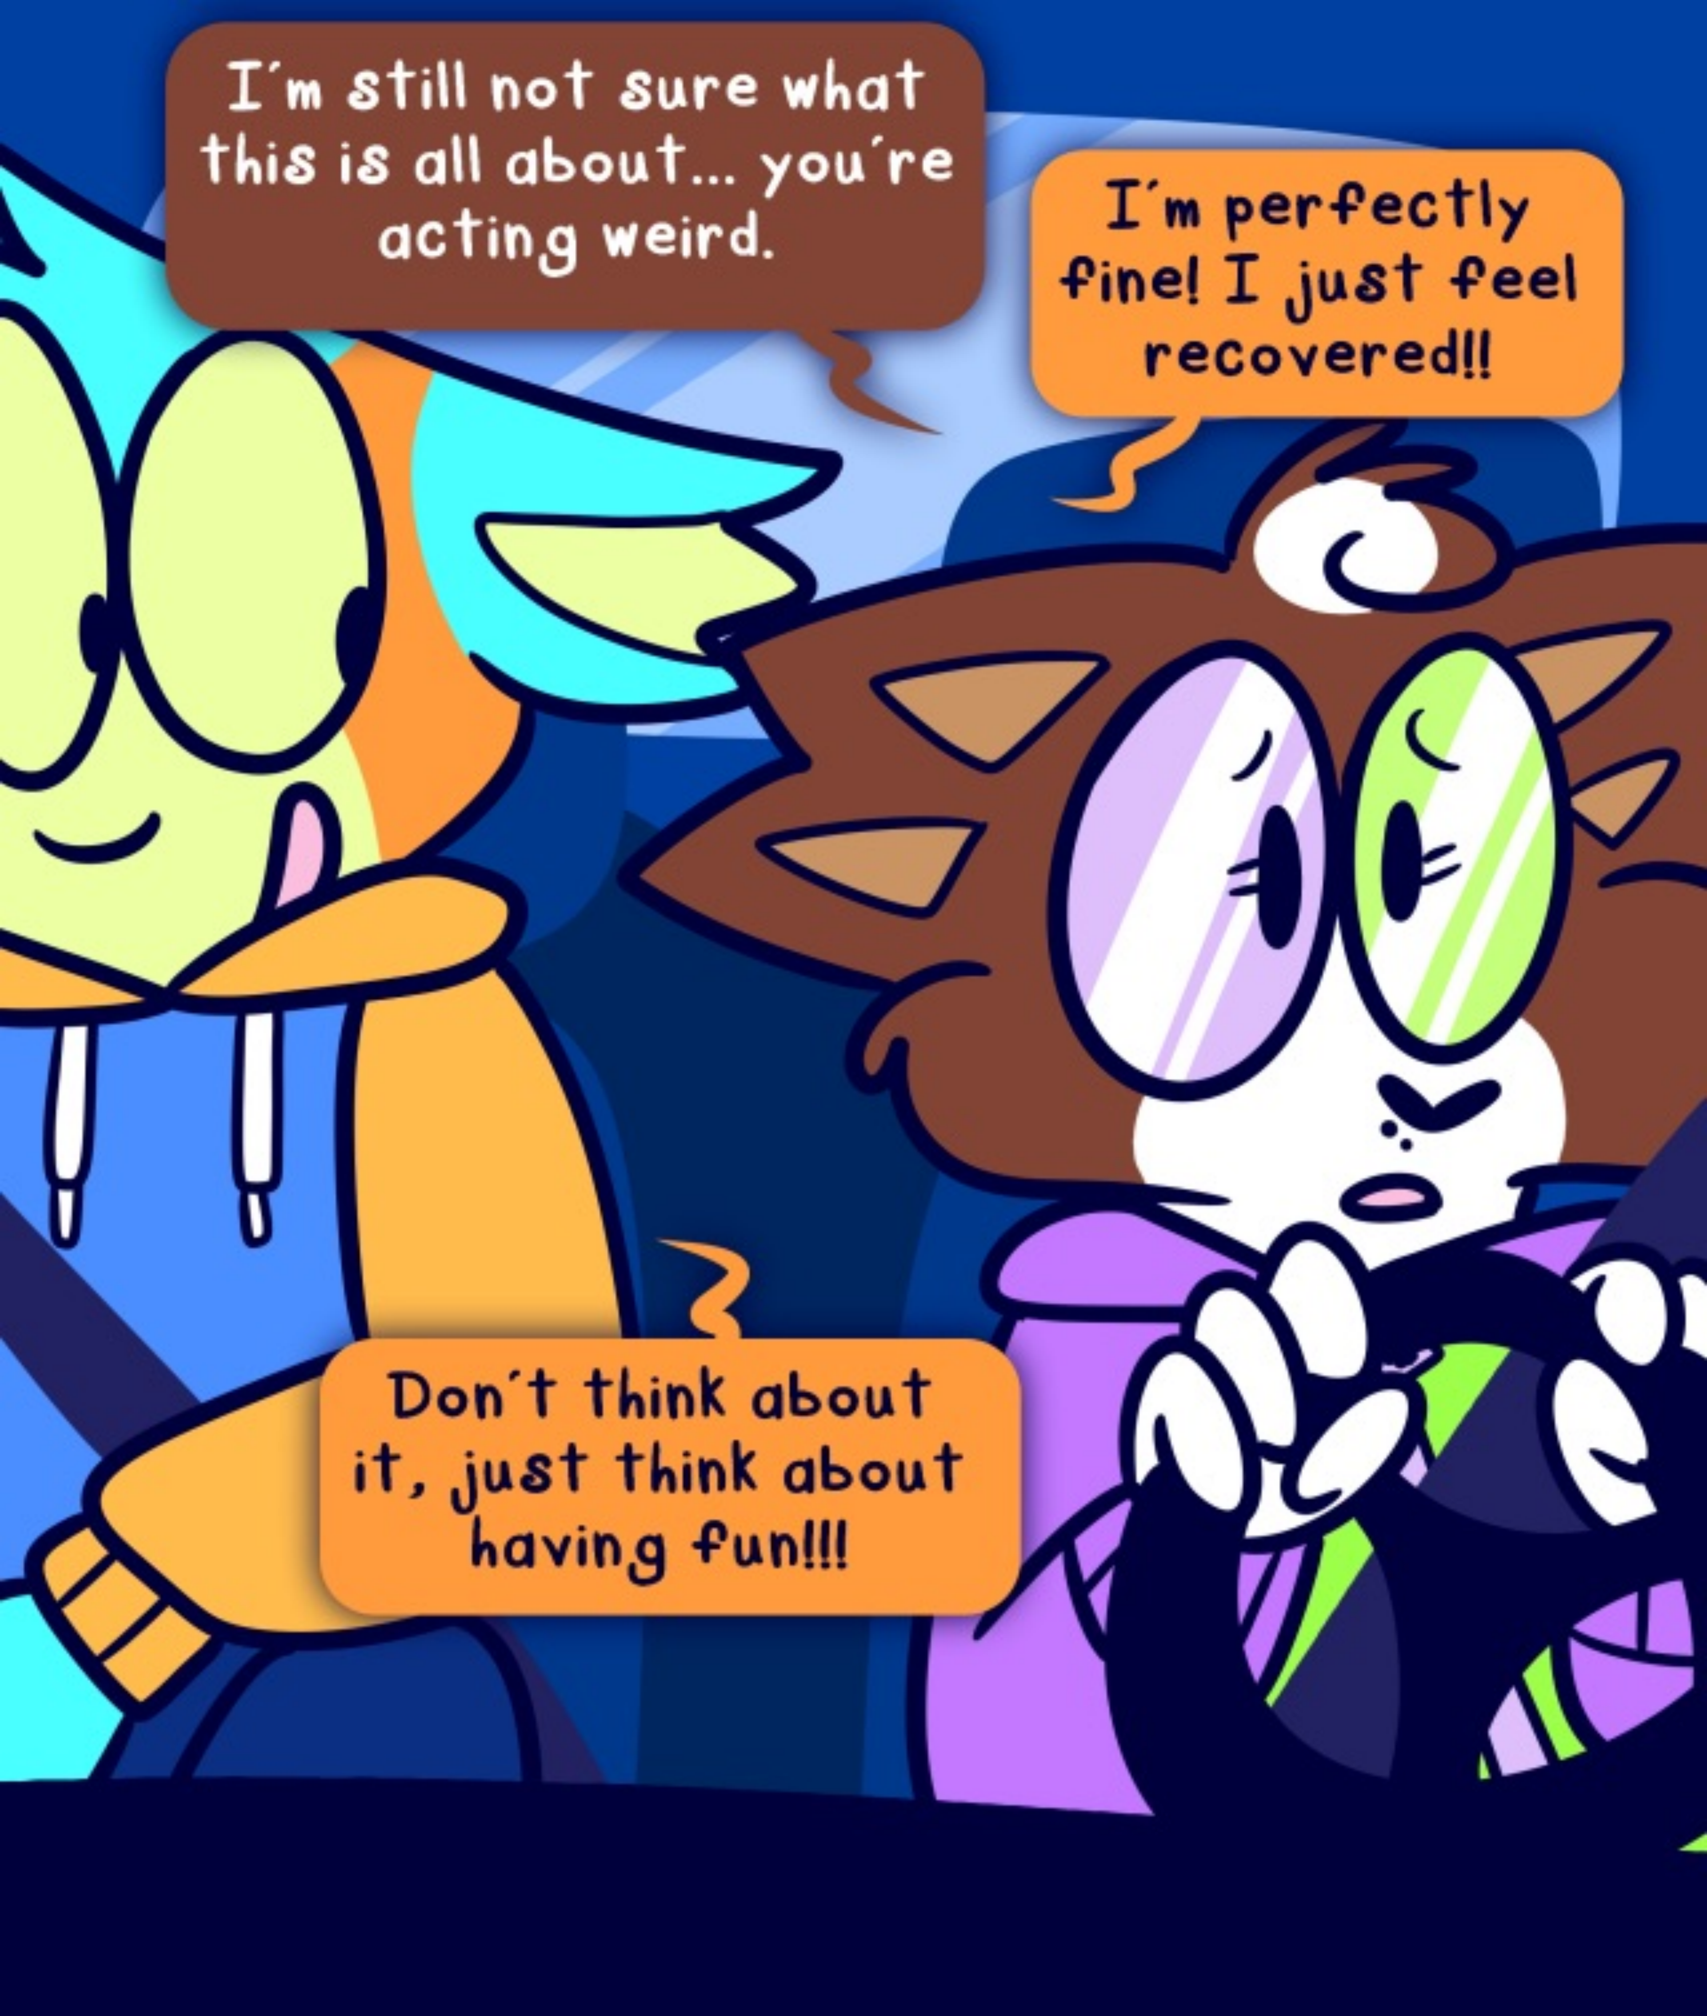
B-but I was just making soup for you...
Are you sure you´re feeling okay, Mory...? You´re acting a little strange...



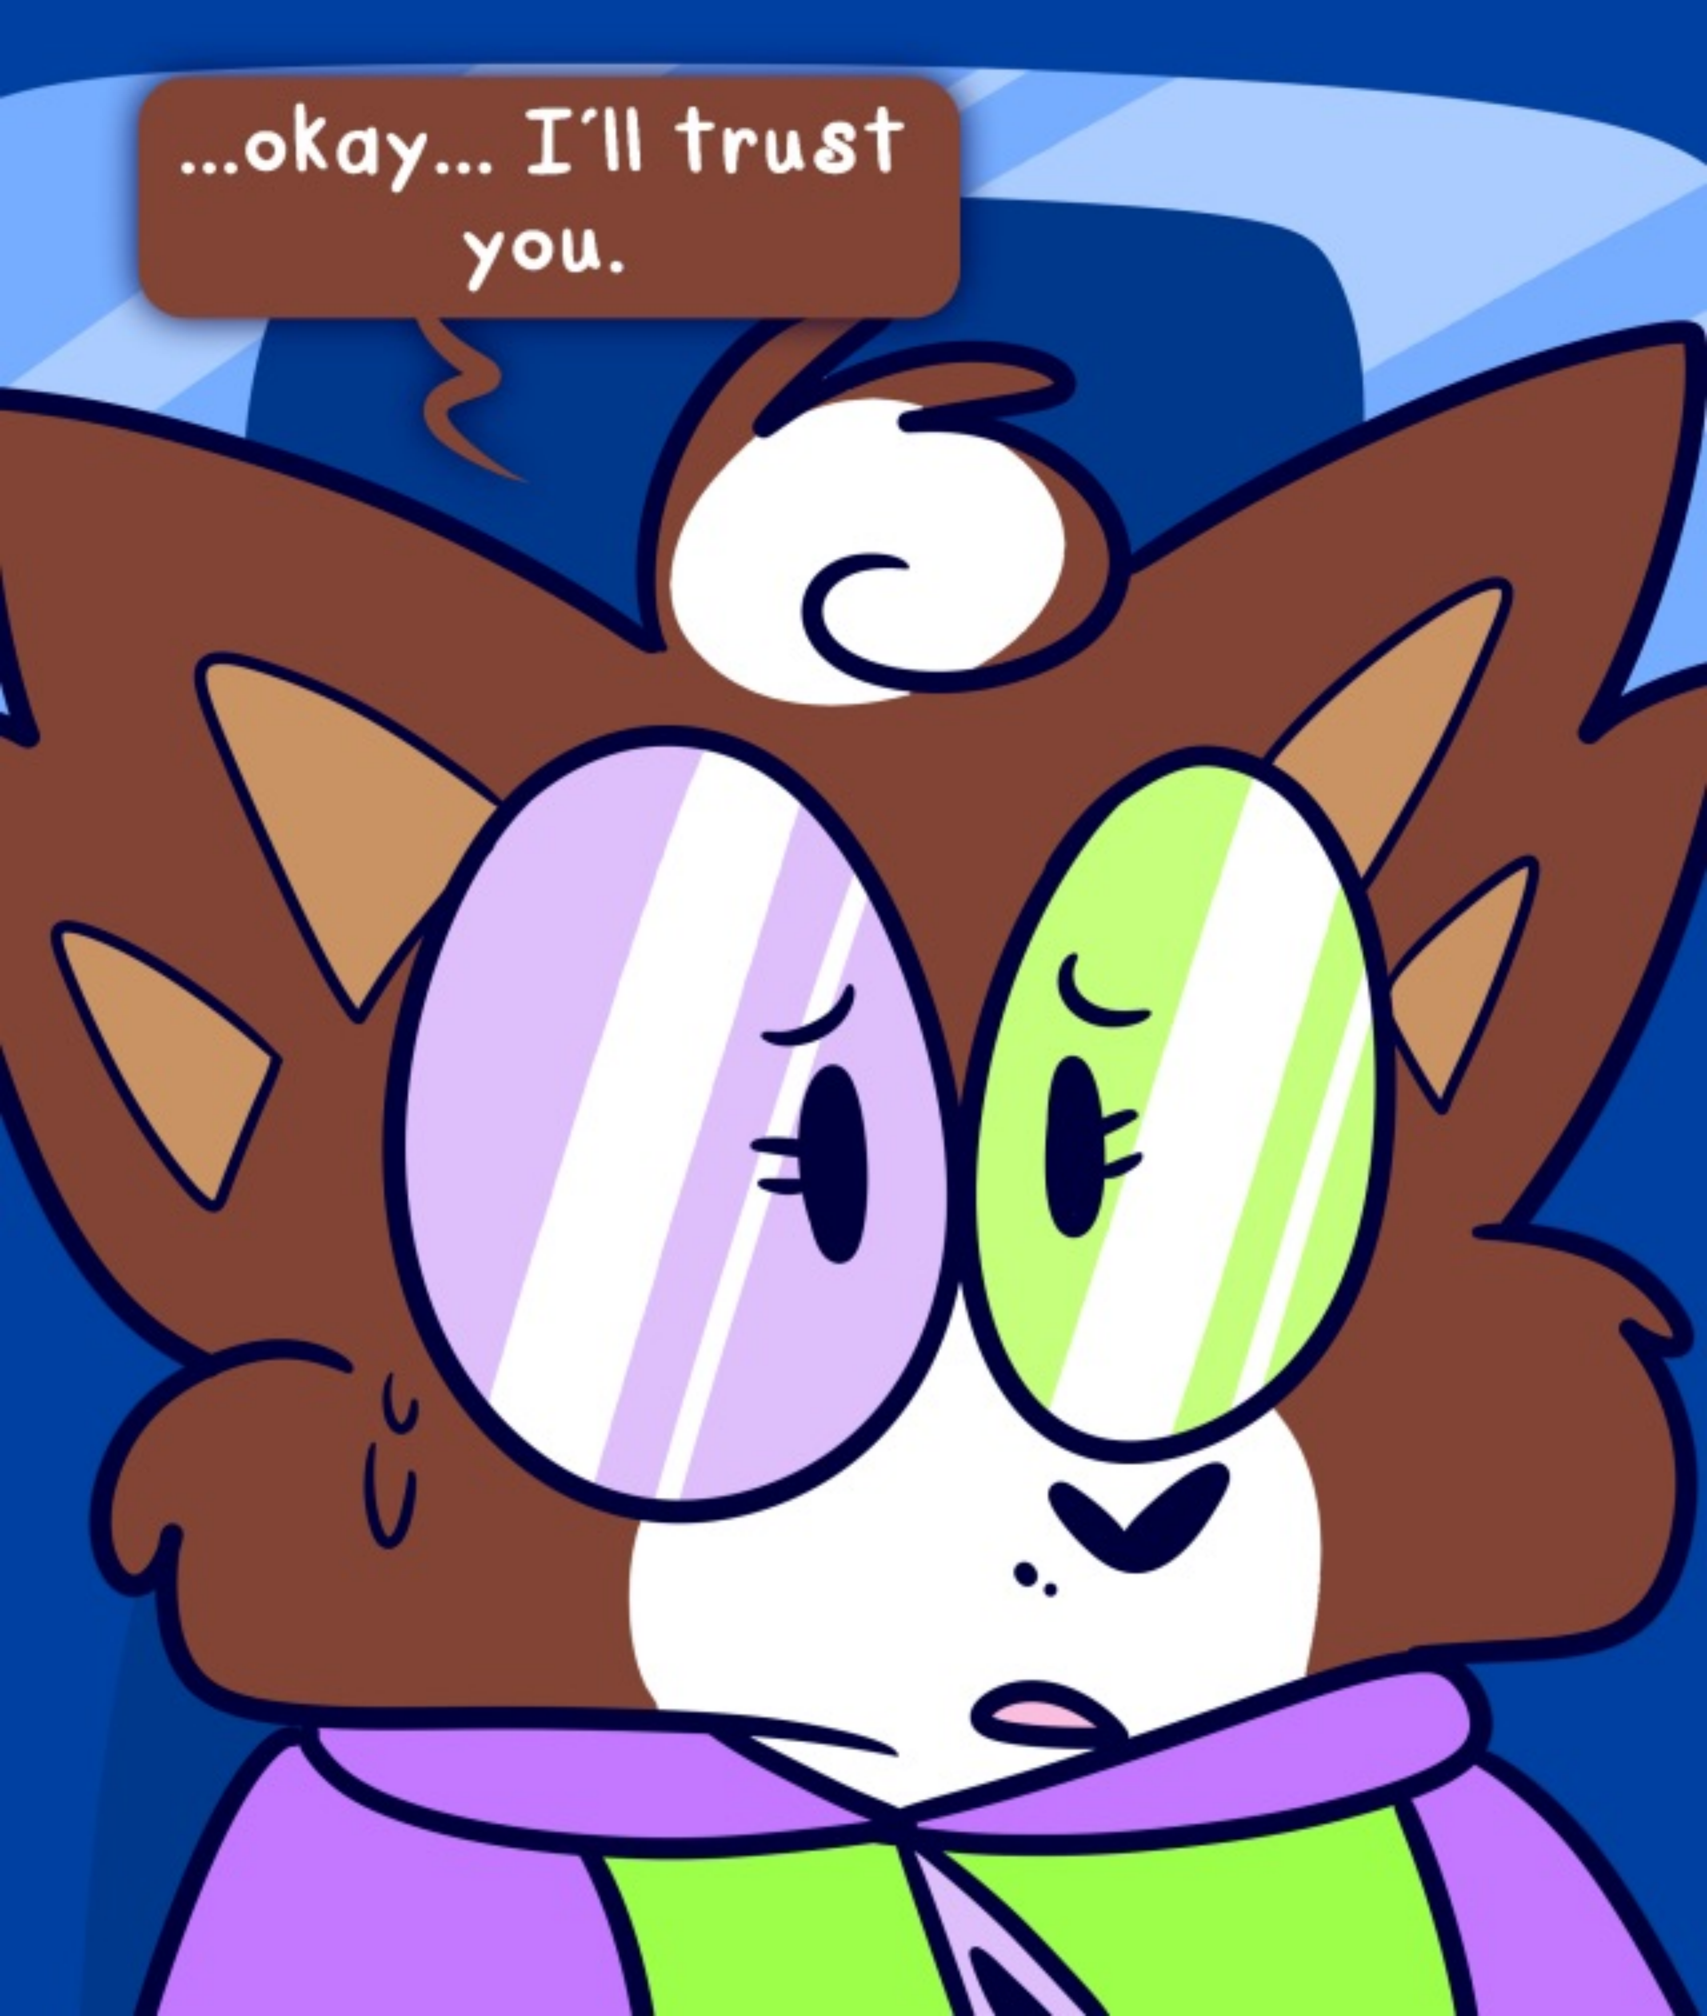
When we finish training and have jobs and are married and stuff we won't have as much opportunity to be spontaneous...
Let's just do something fun and random! Like see a movie!!!



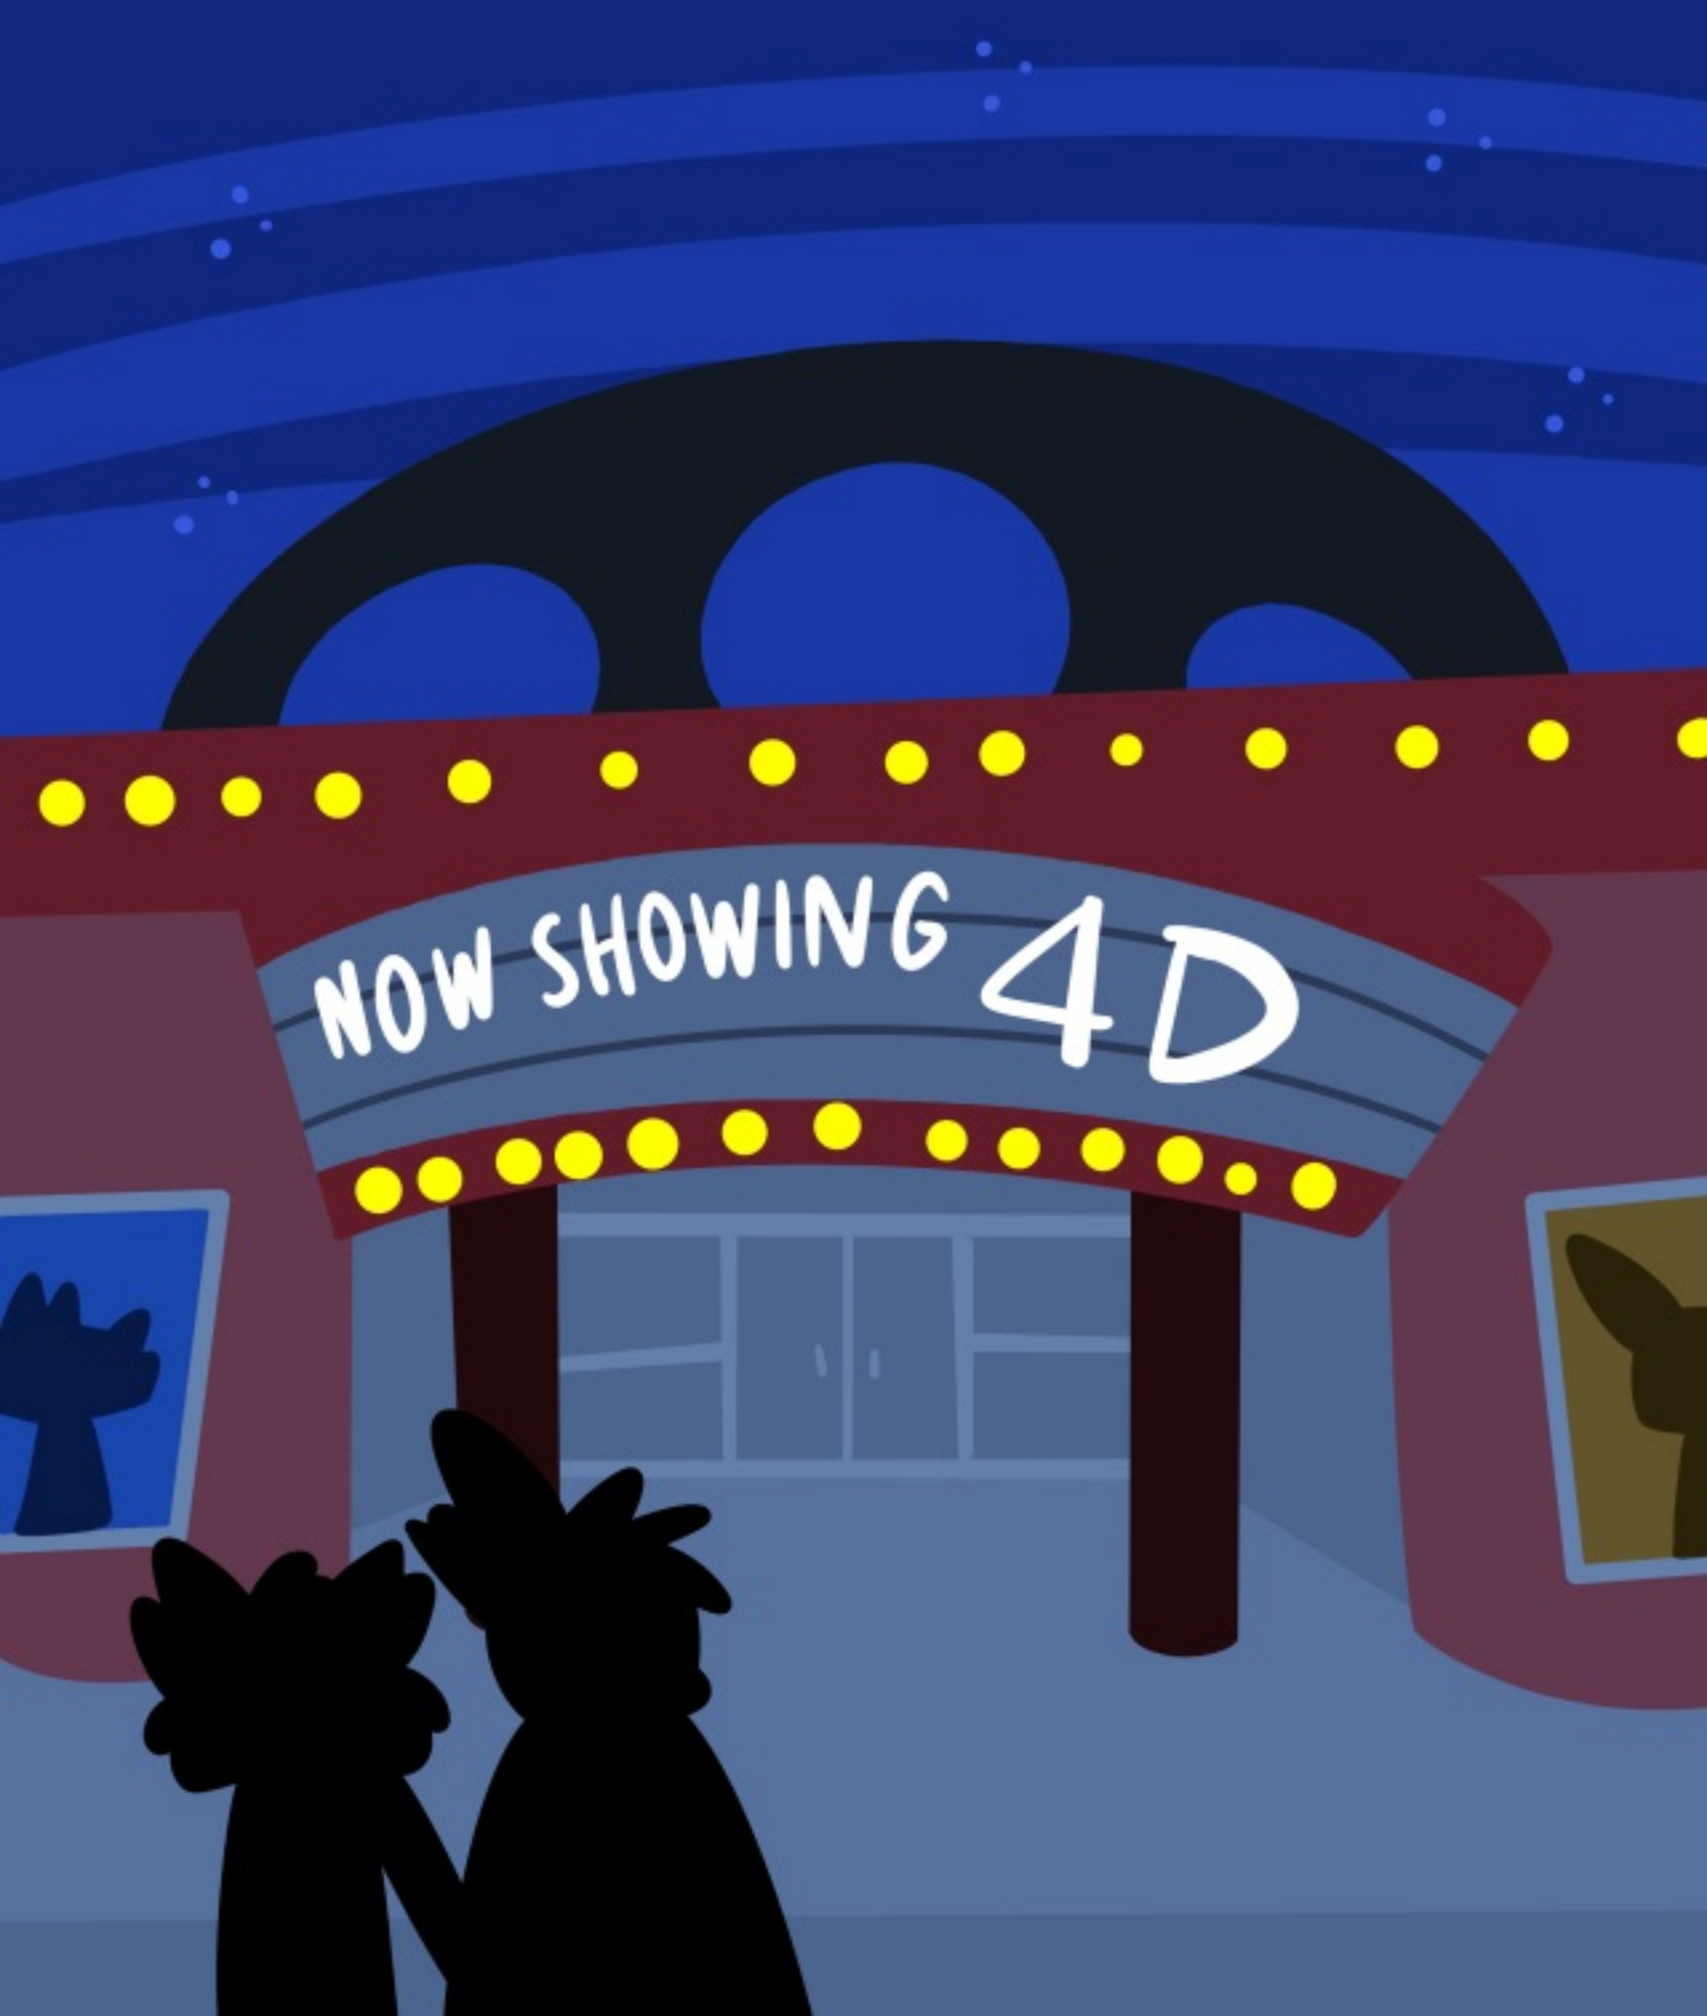
I-I mean... are you sure?
100% sure! I just wanna spend time with you!
Please, we never do stuff like this!!! Just for a change!



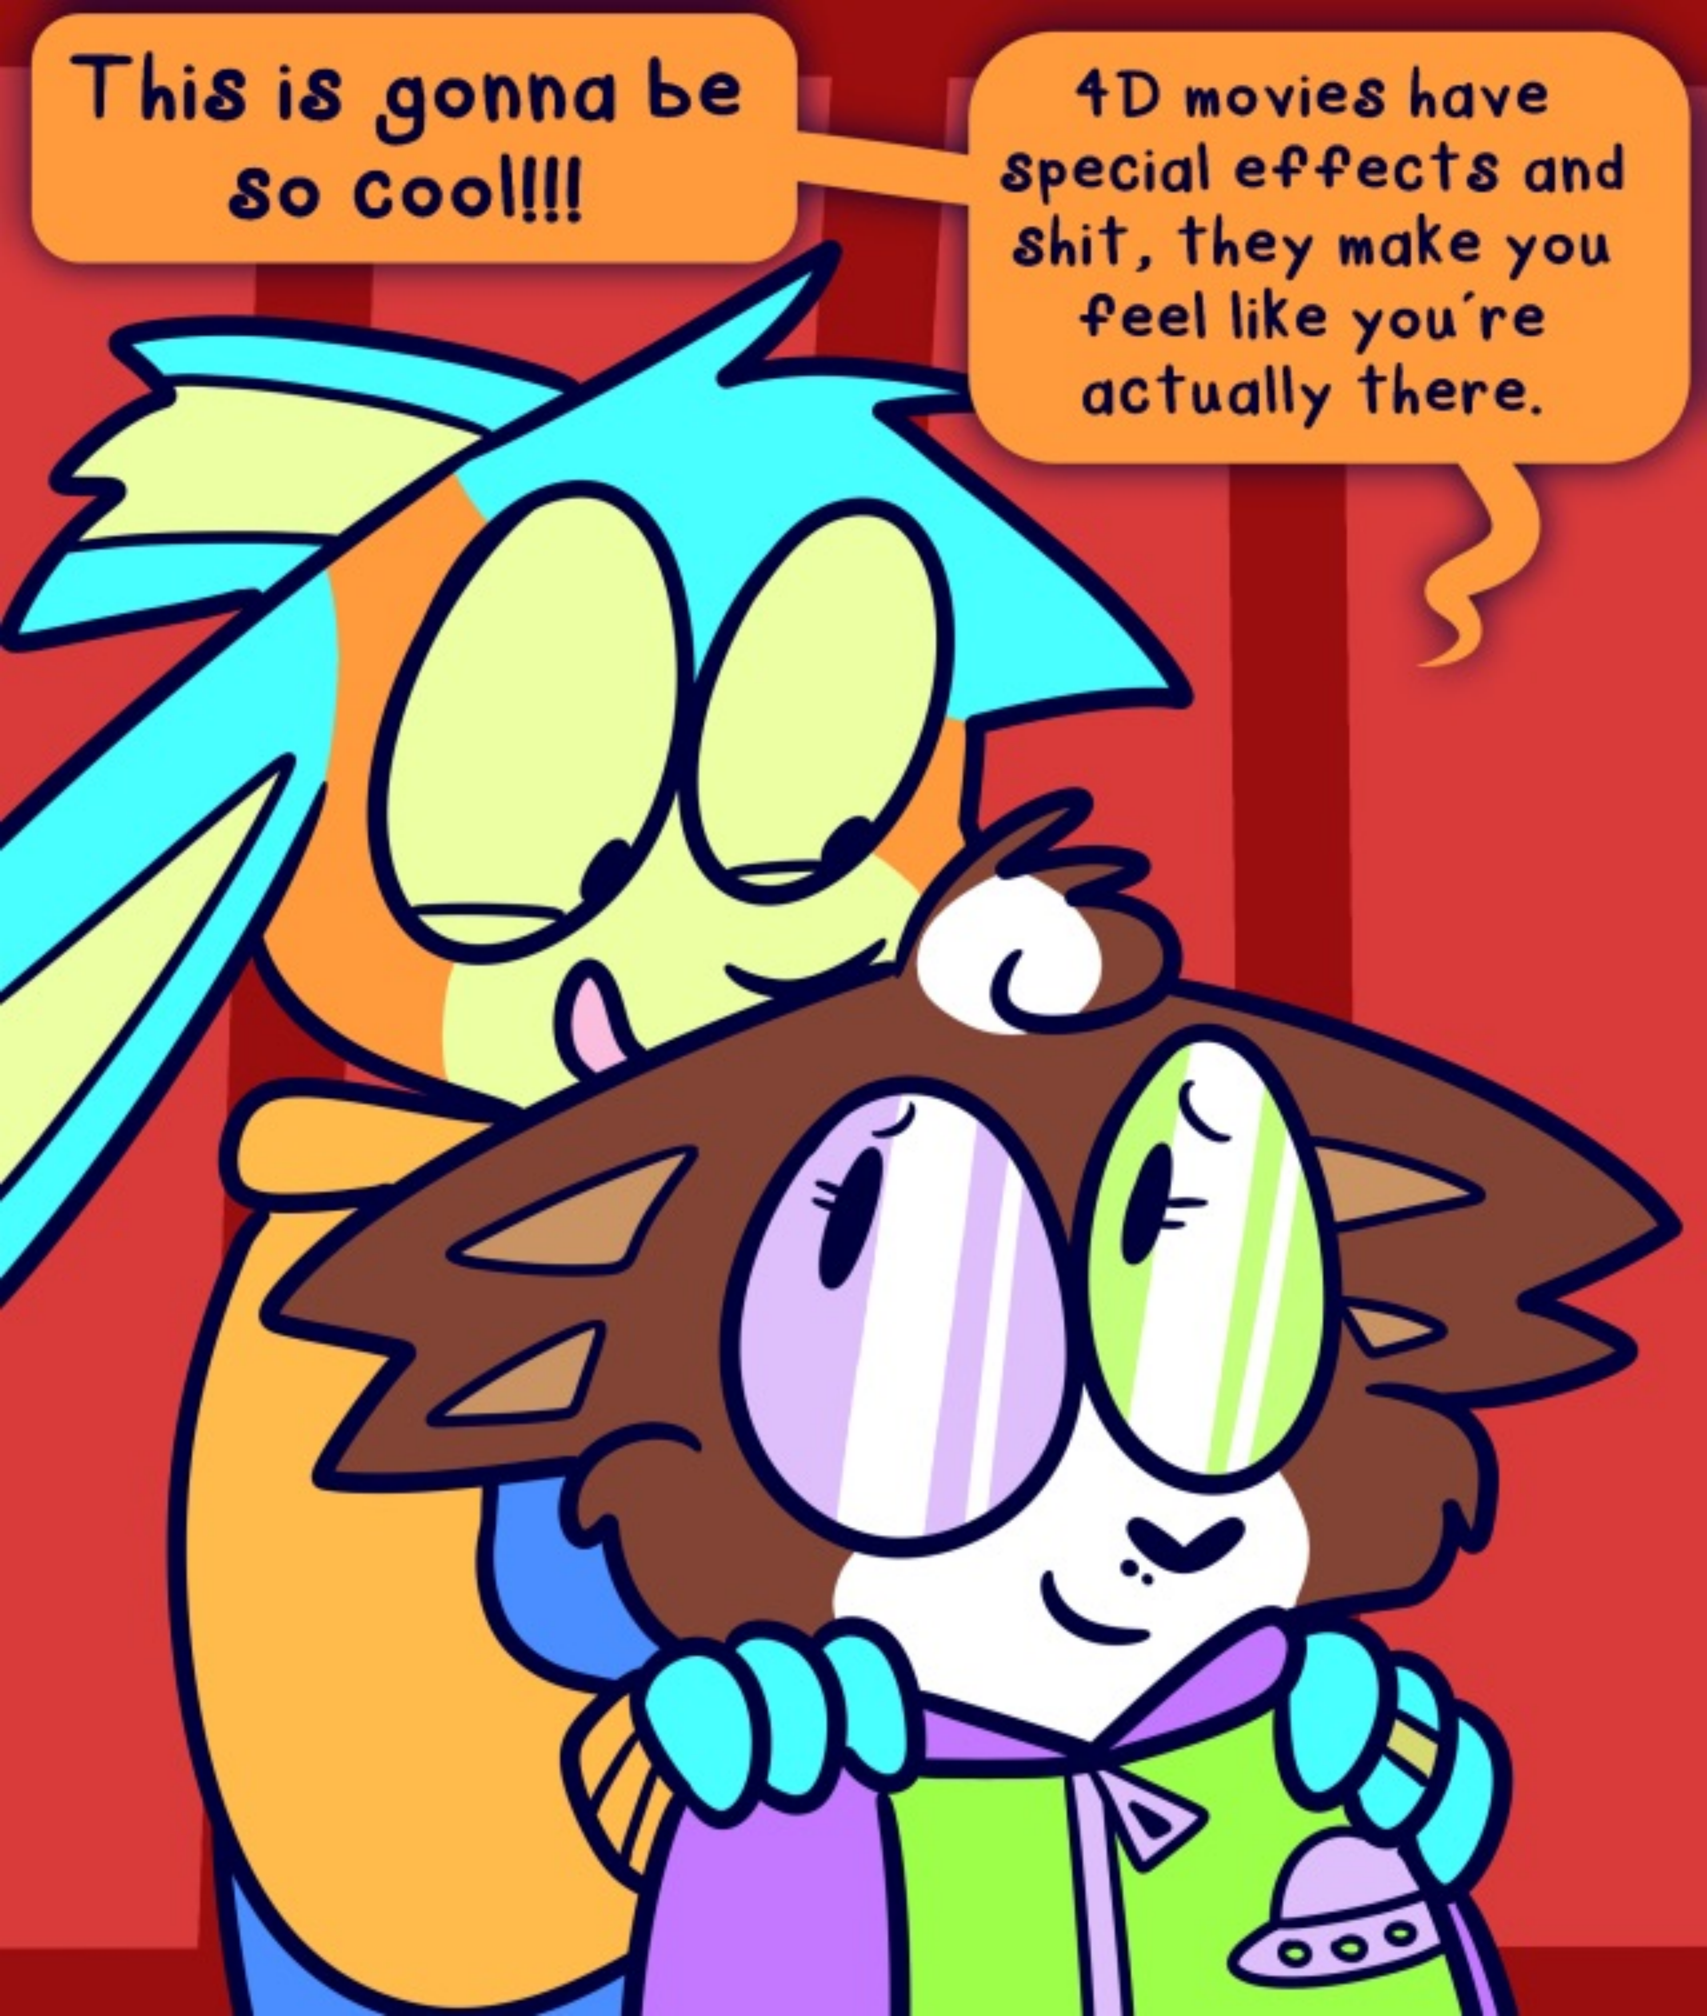
I´m still not sure what this is all about... you´re acting weird.
I´m perfectly fine! I just feel recovered!!
Don´t think about it, just think about having fun!!!



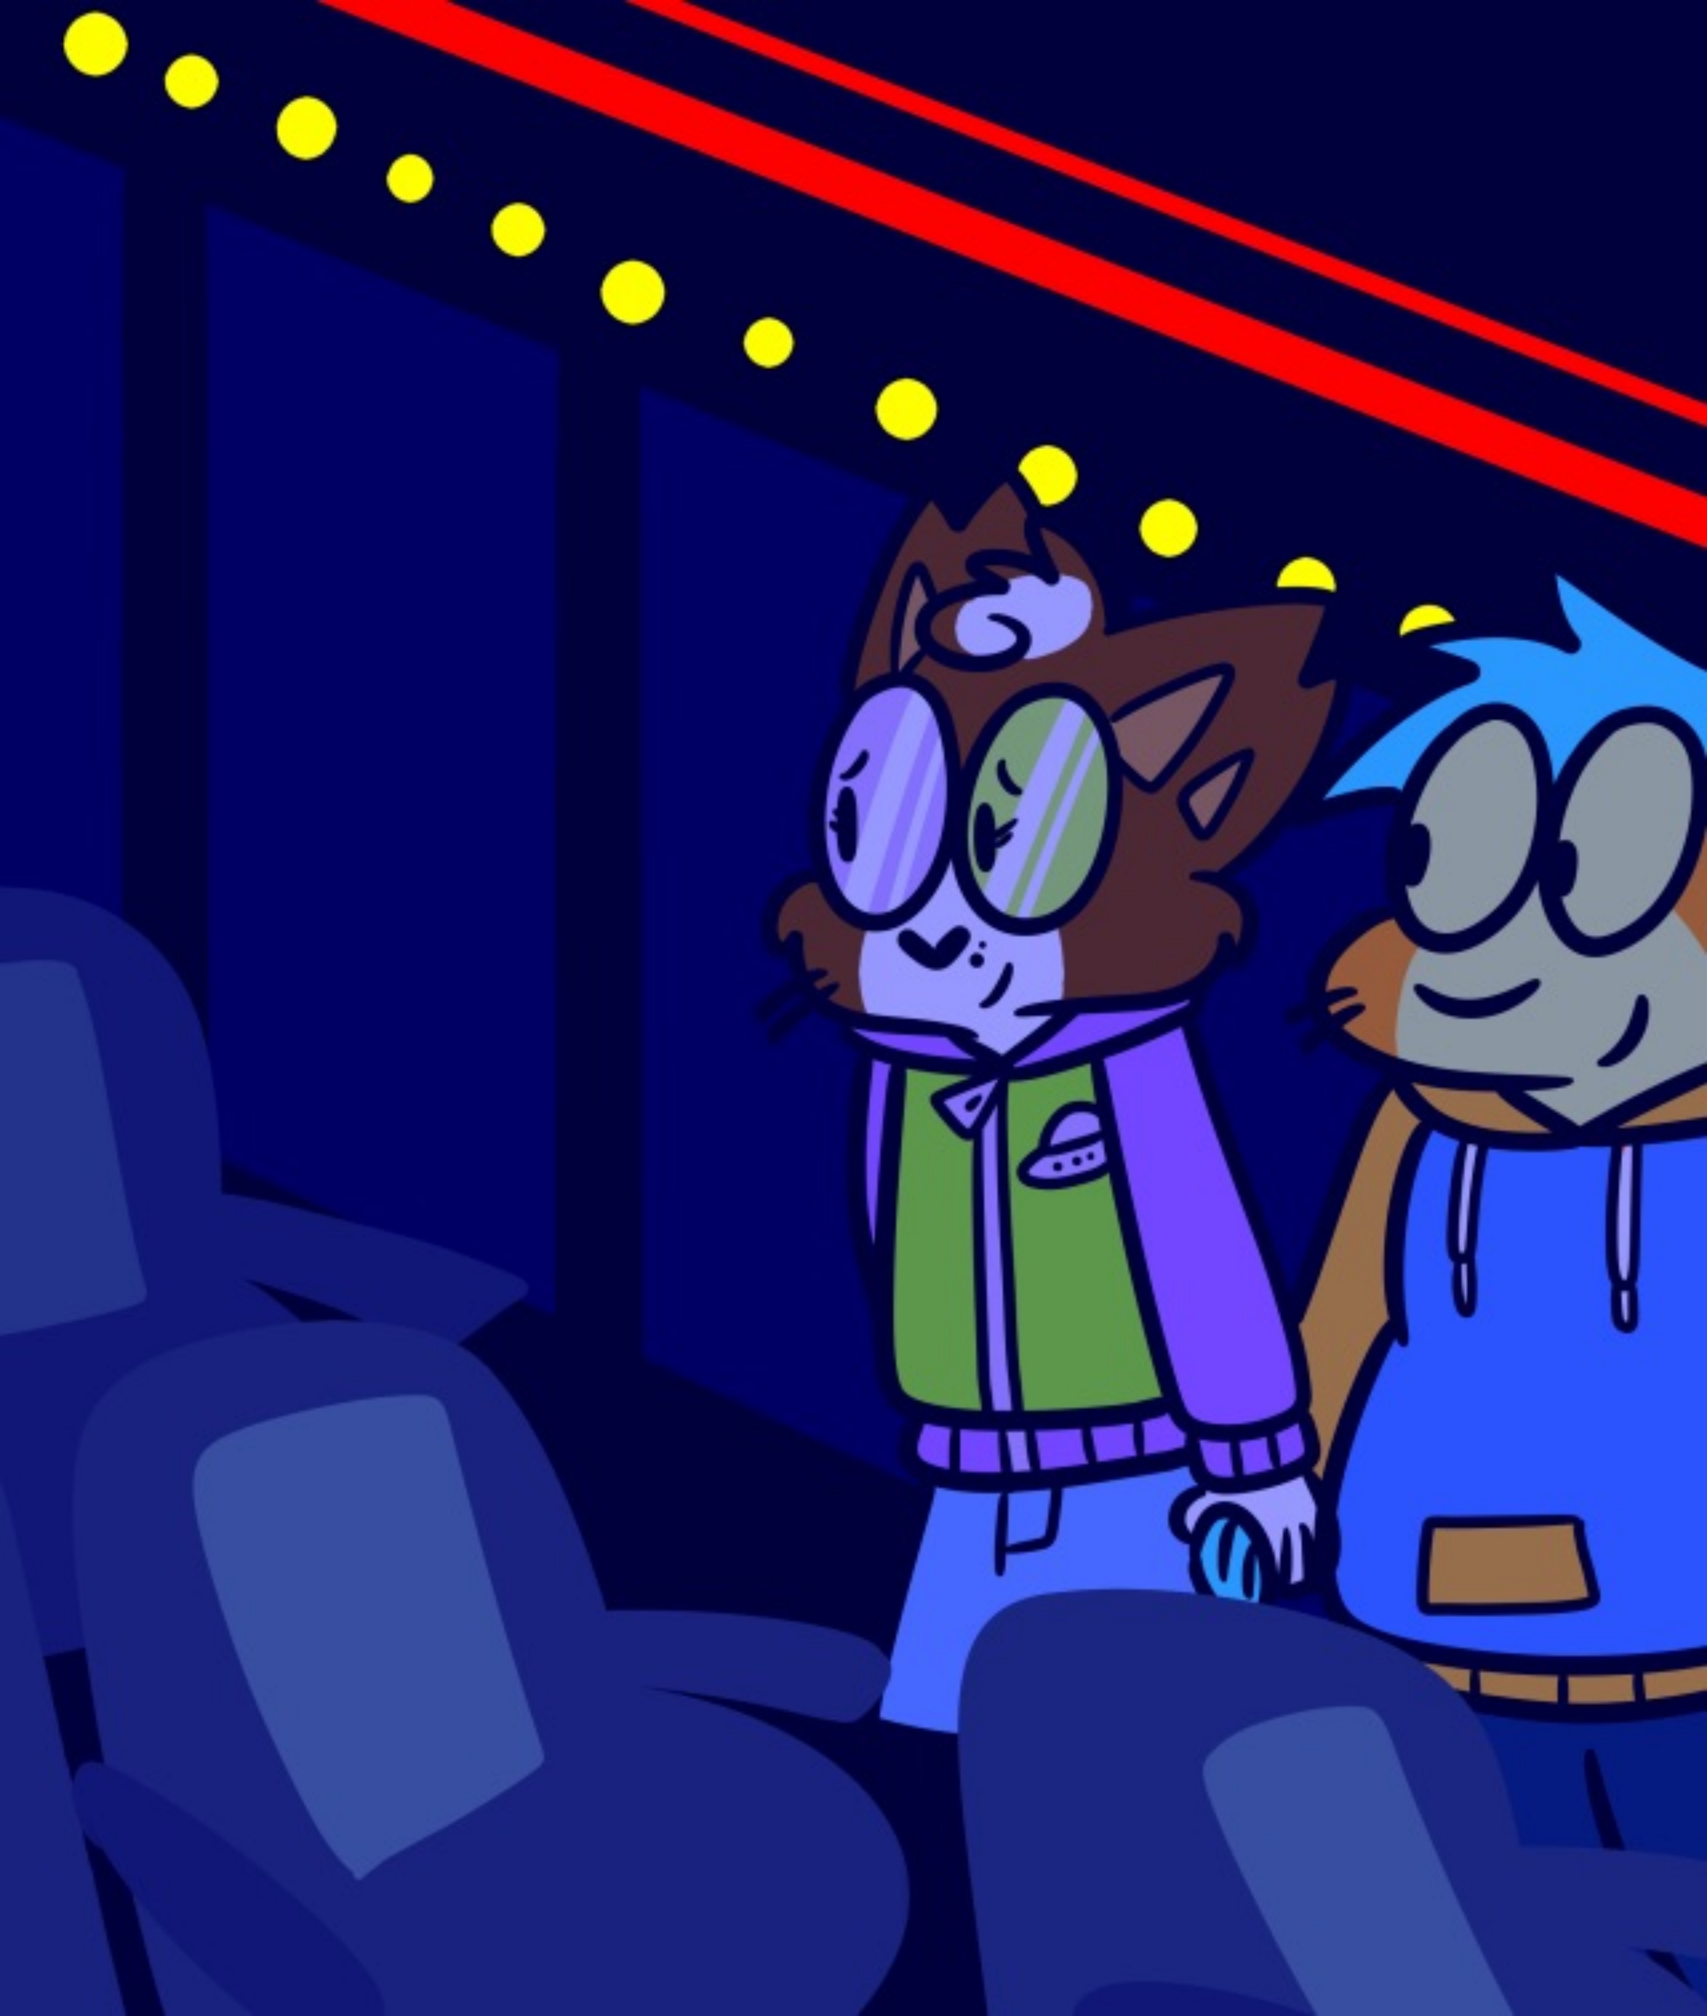
...okay... I'll trust you.

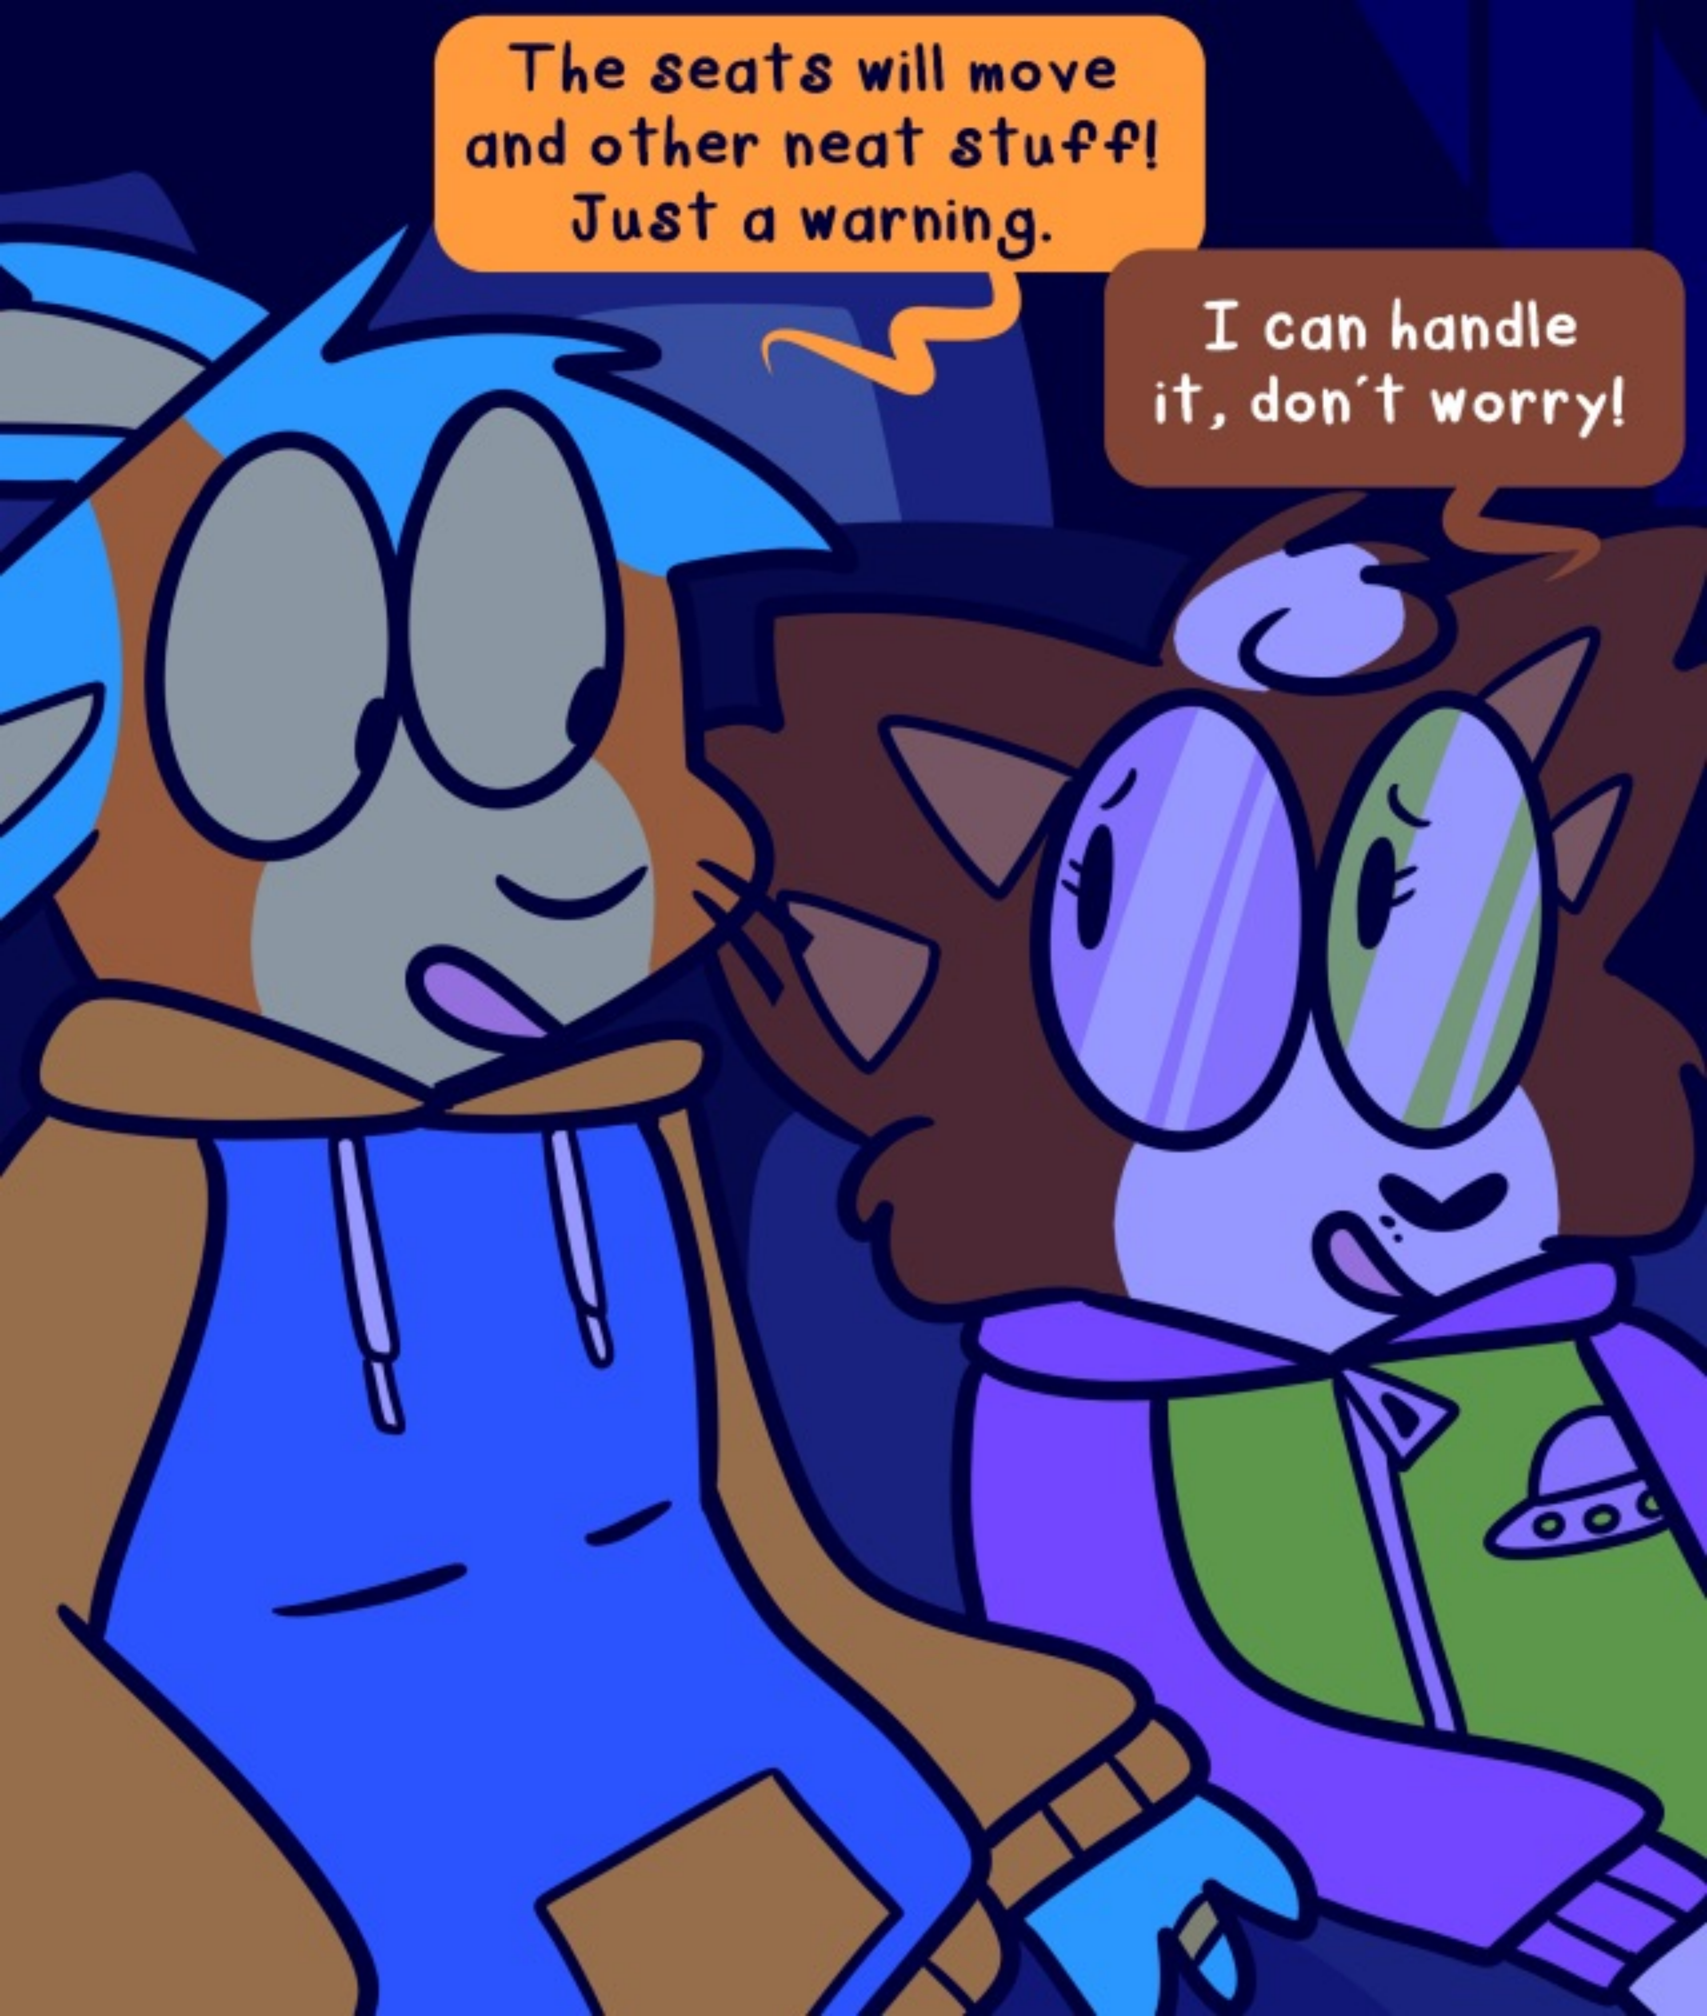


NOW SHOWING 4D

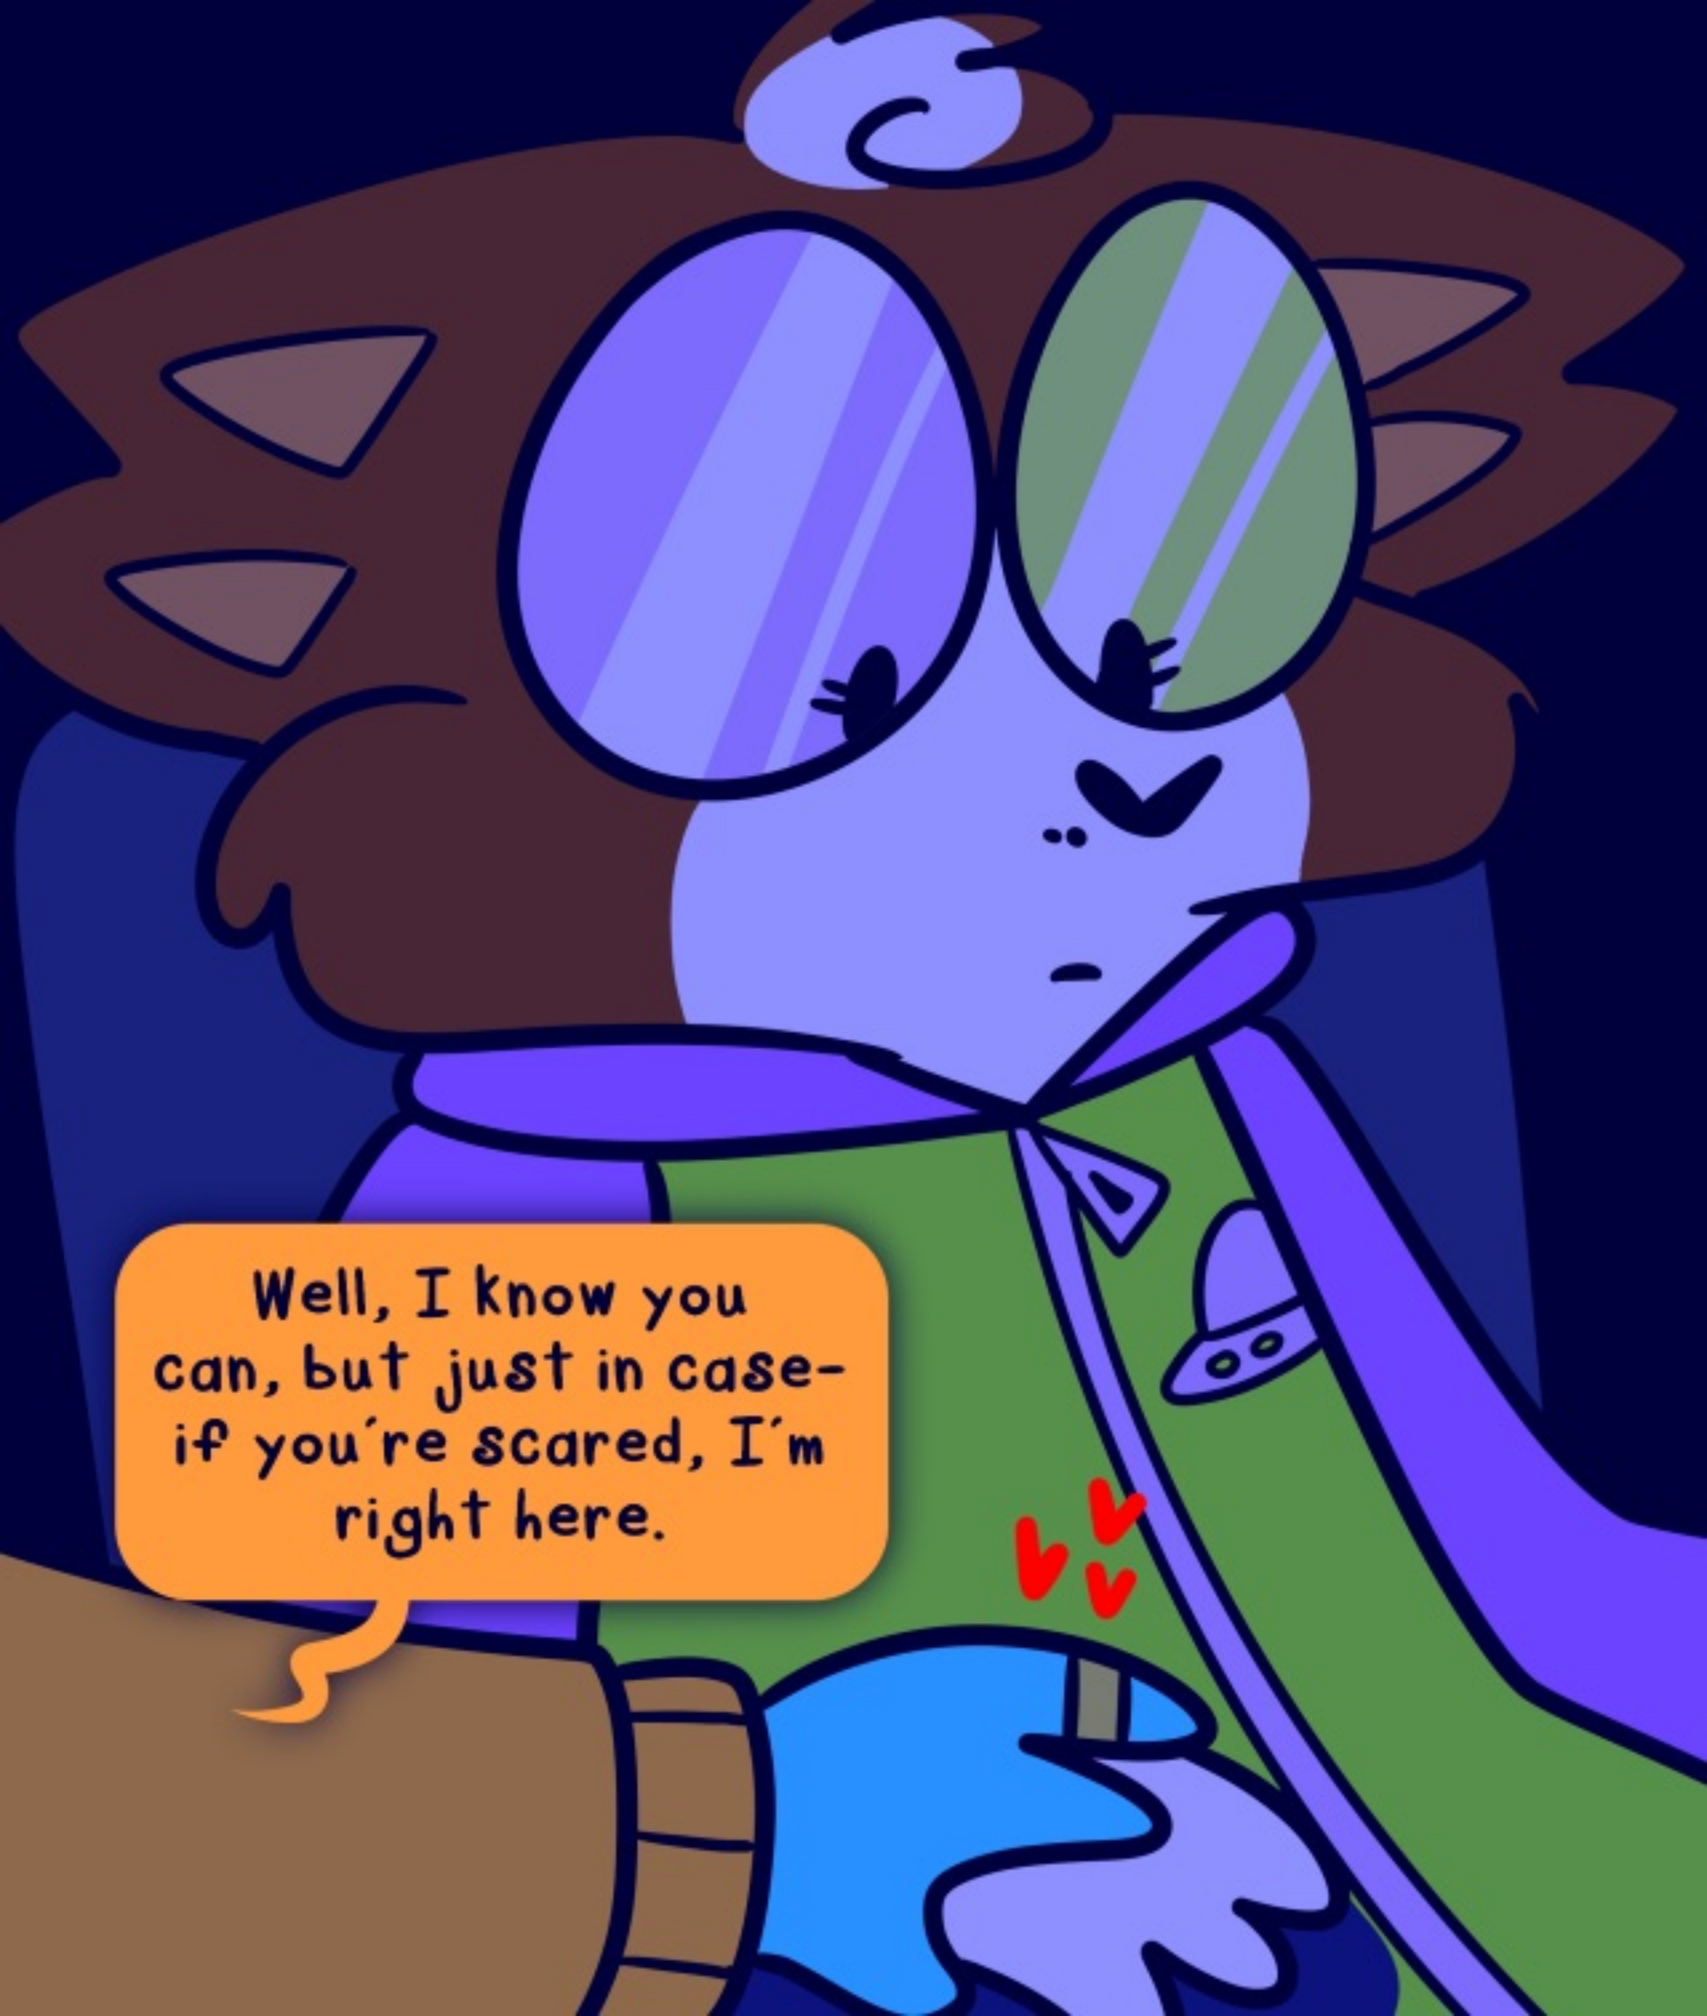


This is gonna be so cool!!!
4D movies have special effects and shit, they make you feel like you're actually there.

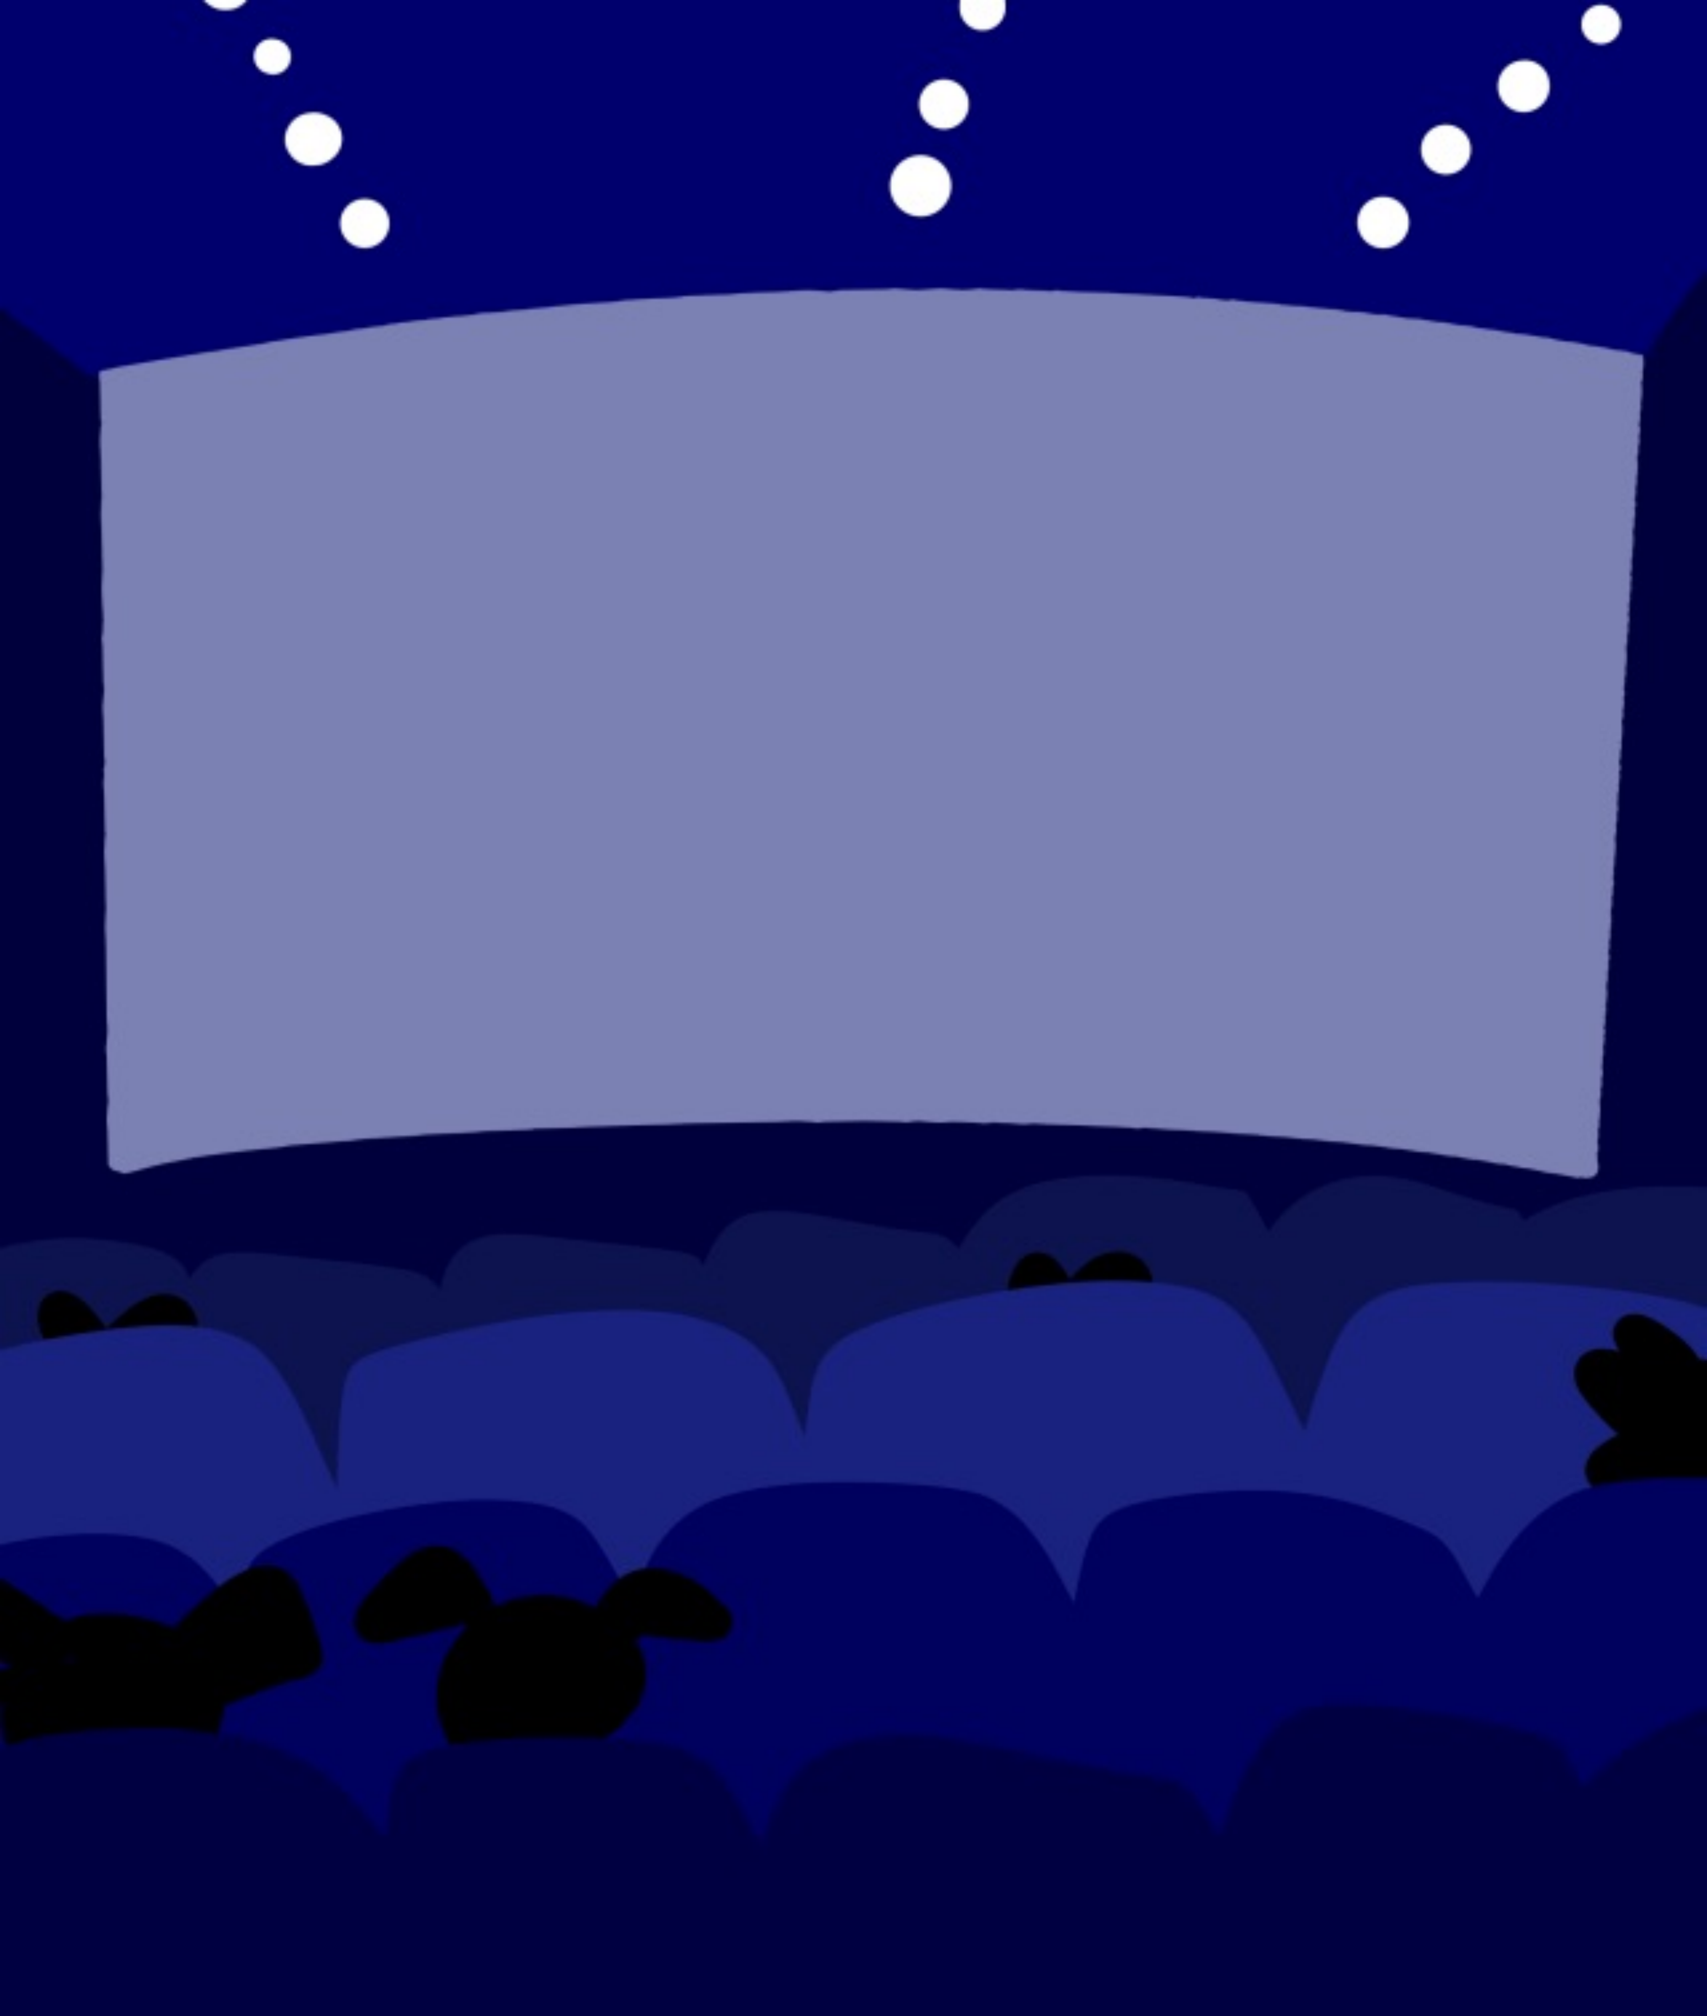


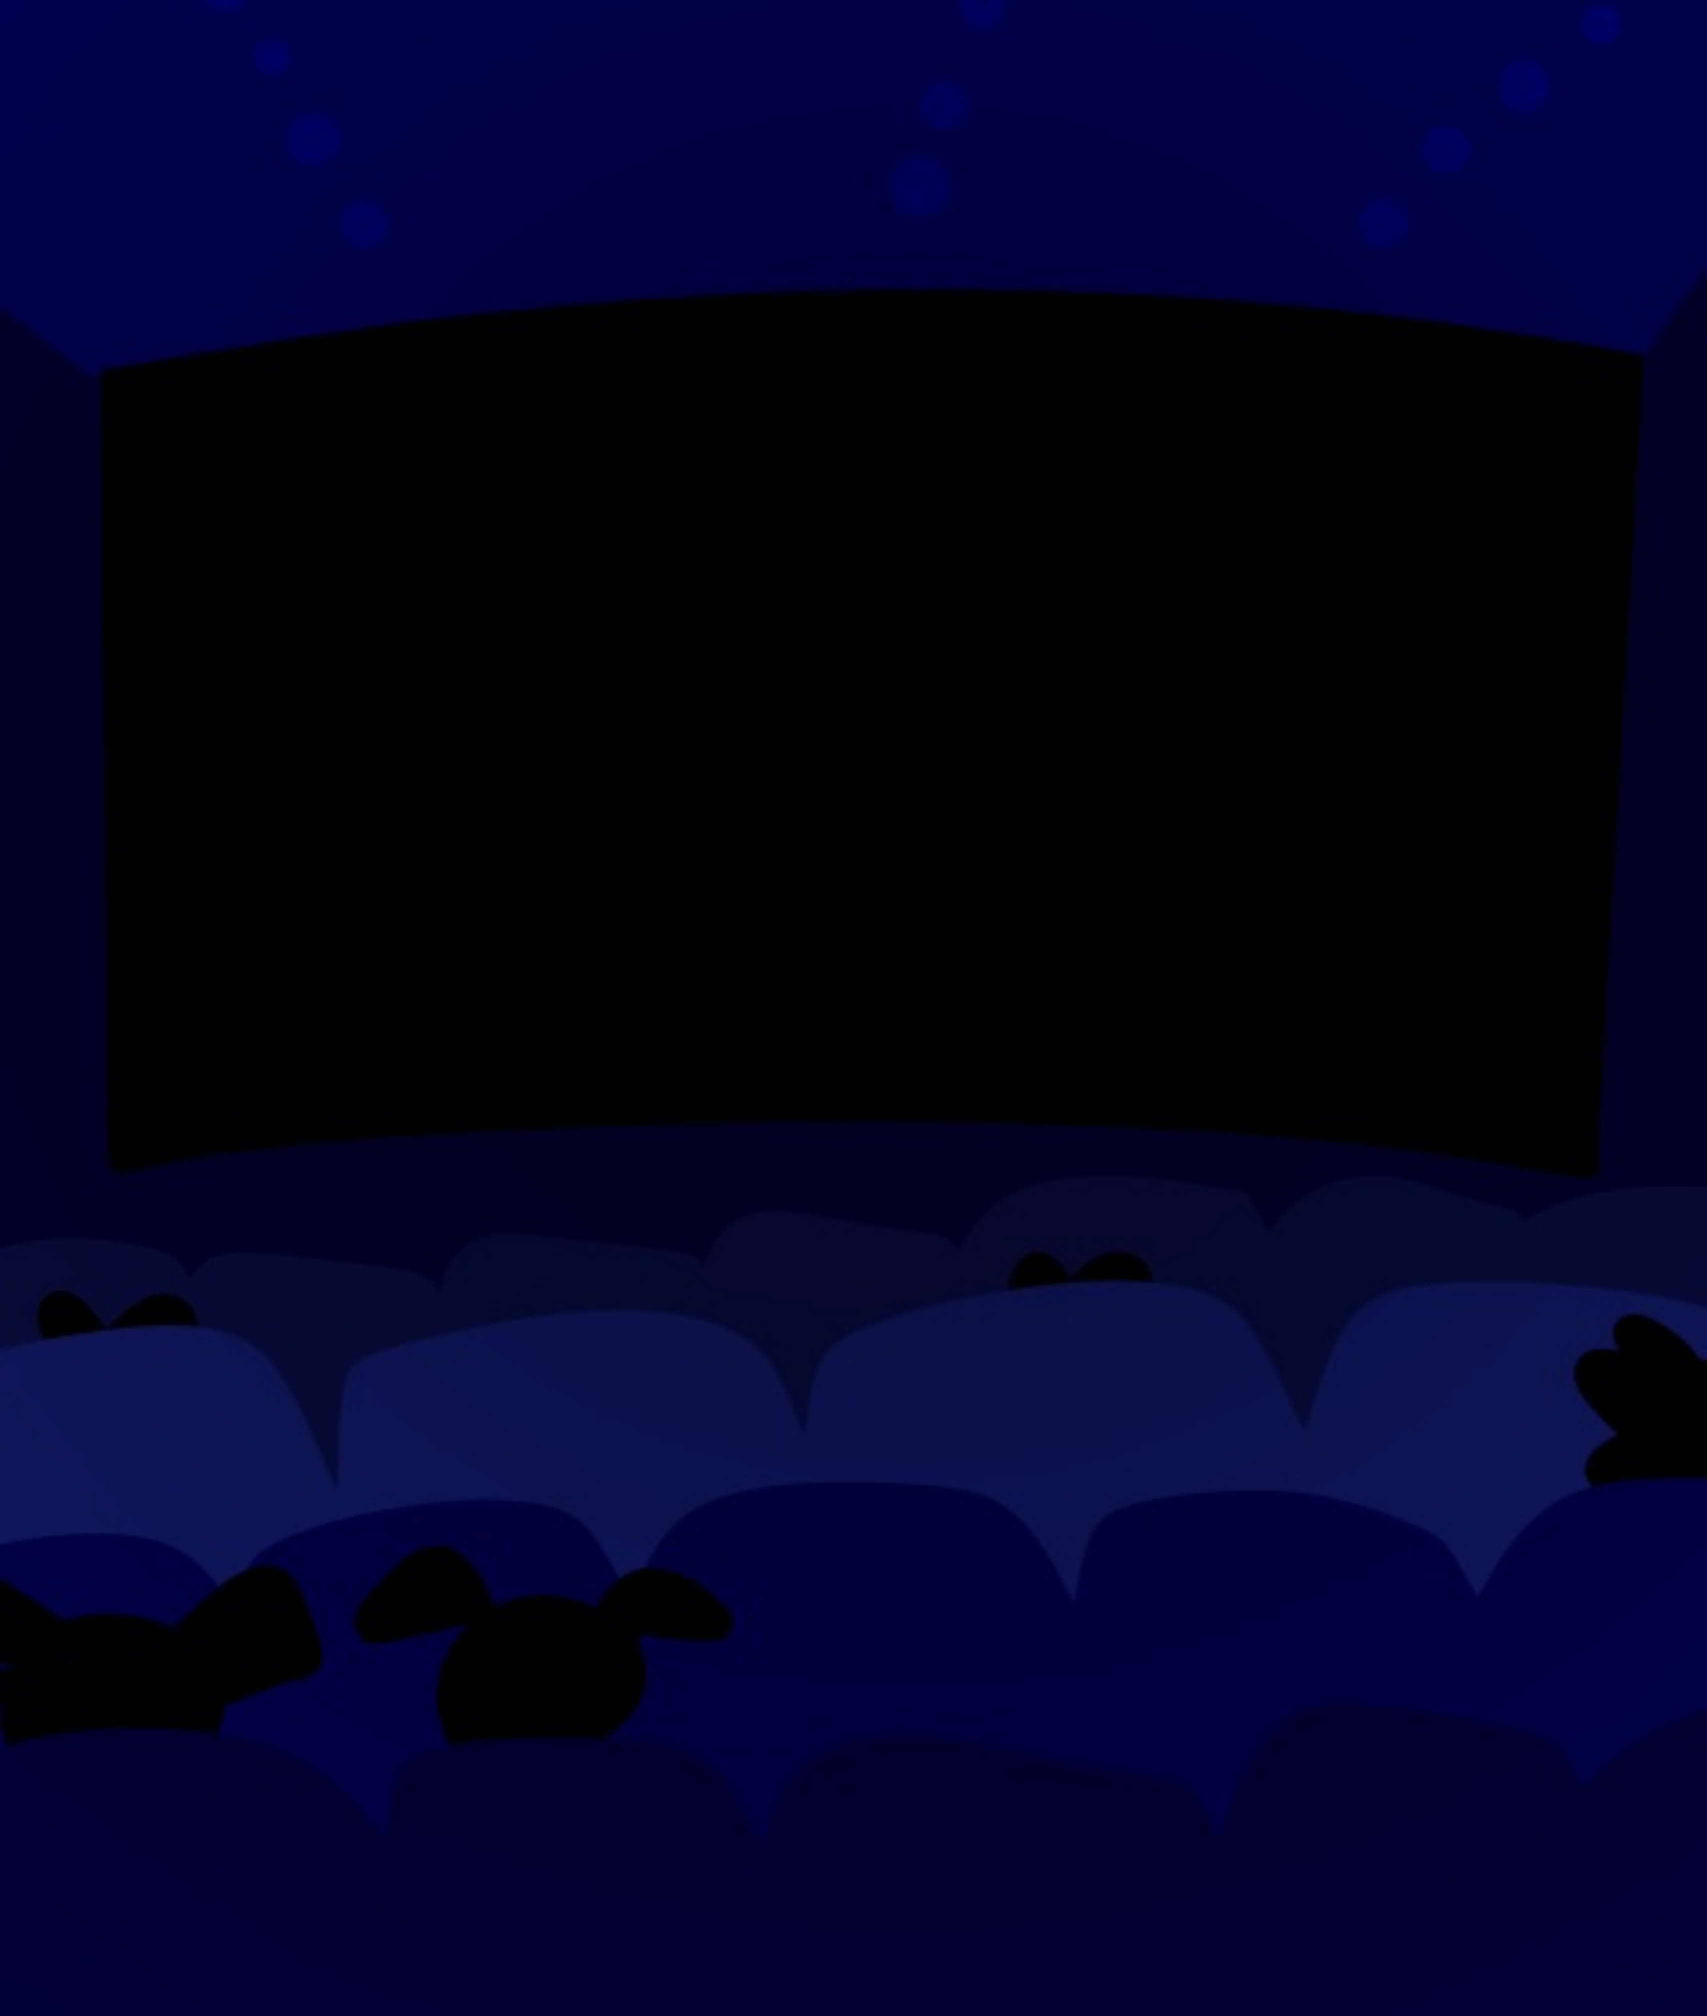


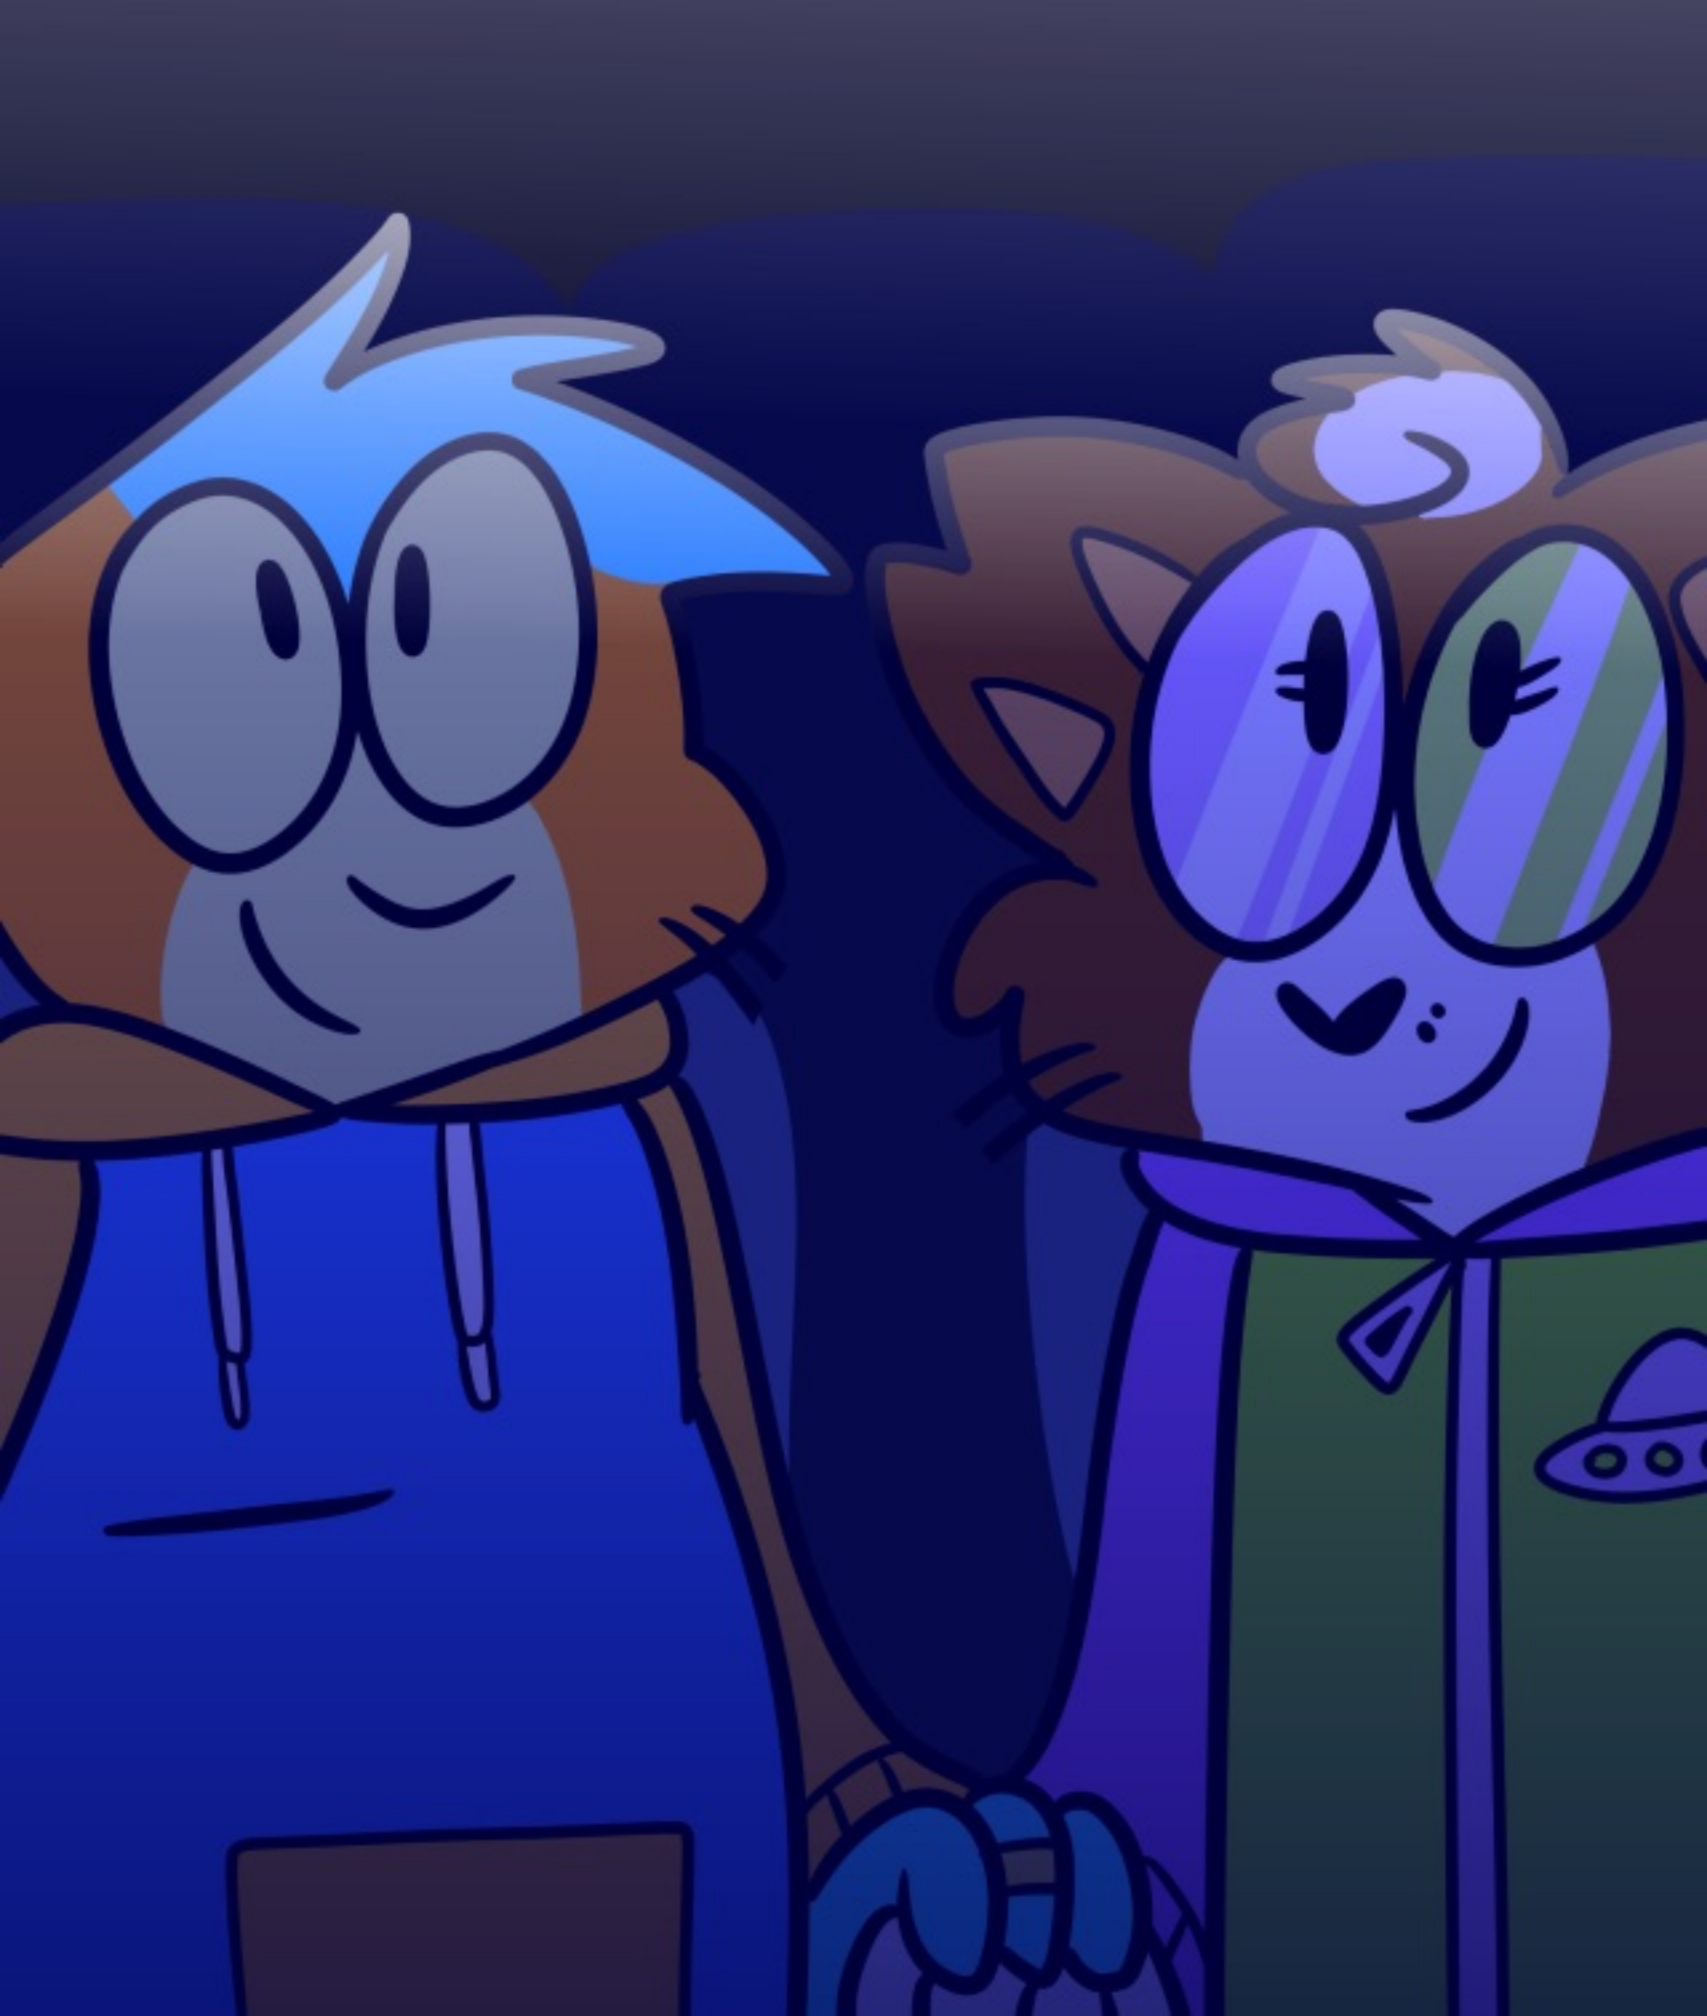
The seats will move and other neat stuff! Just a warning.
I can handle it, don't worry!

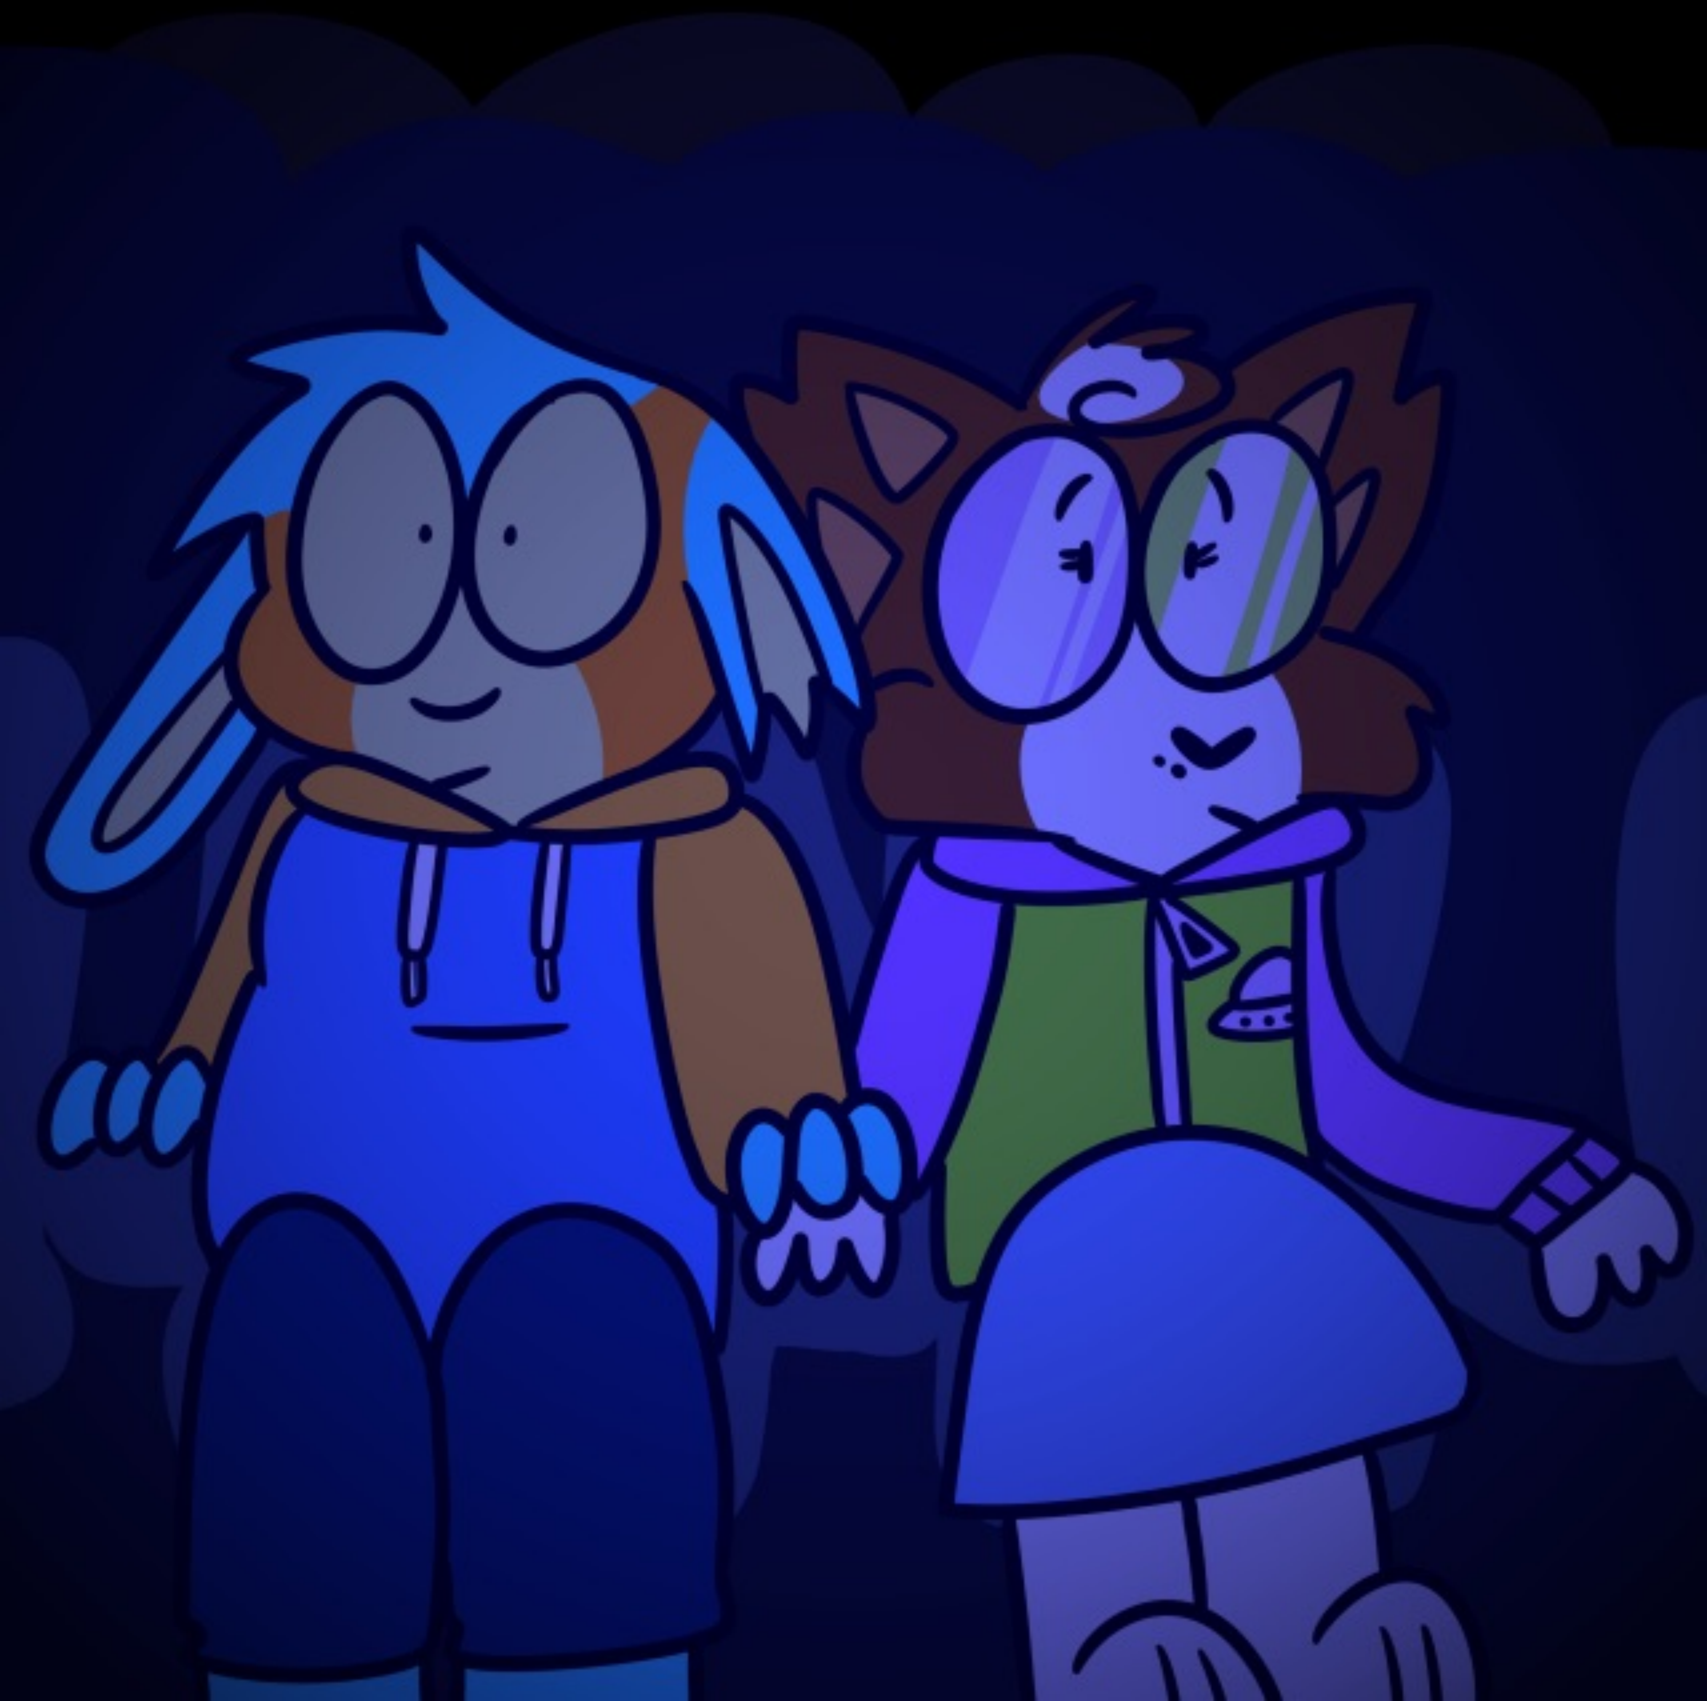


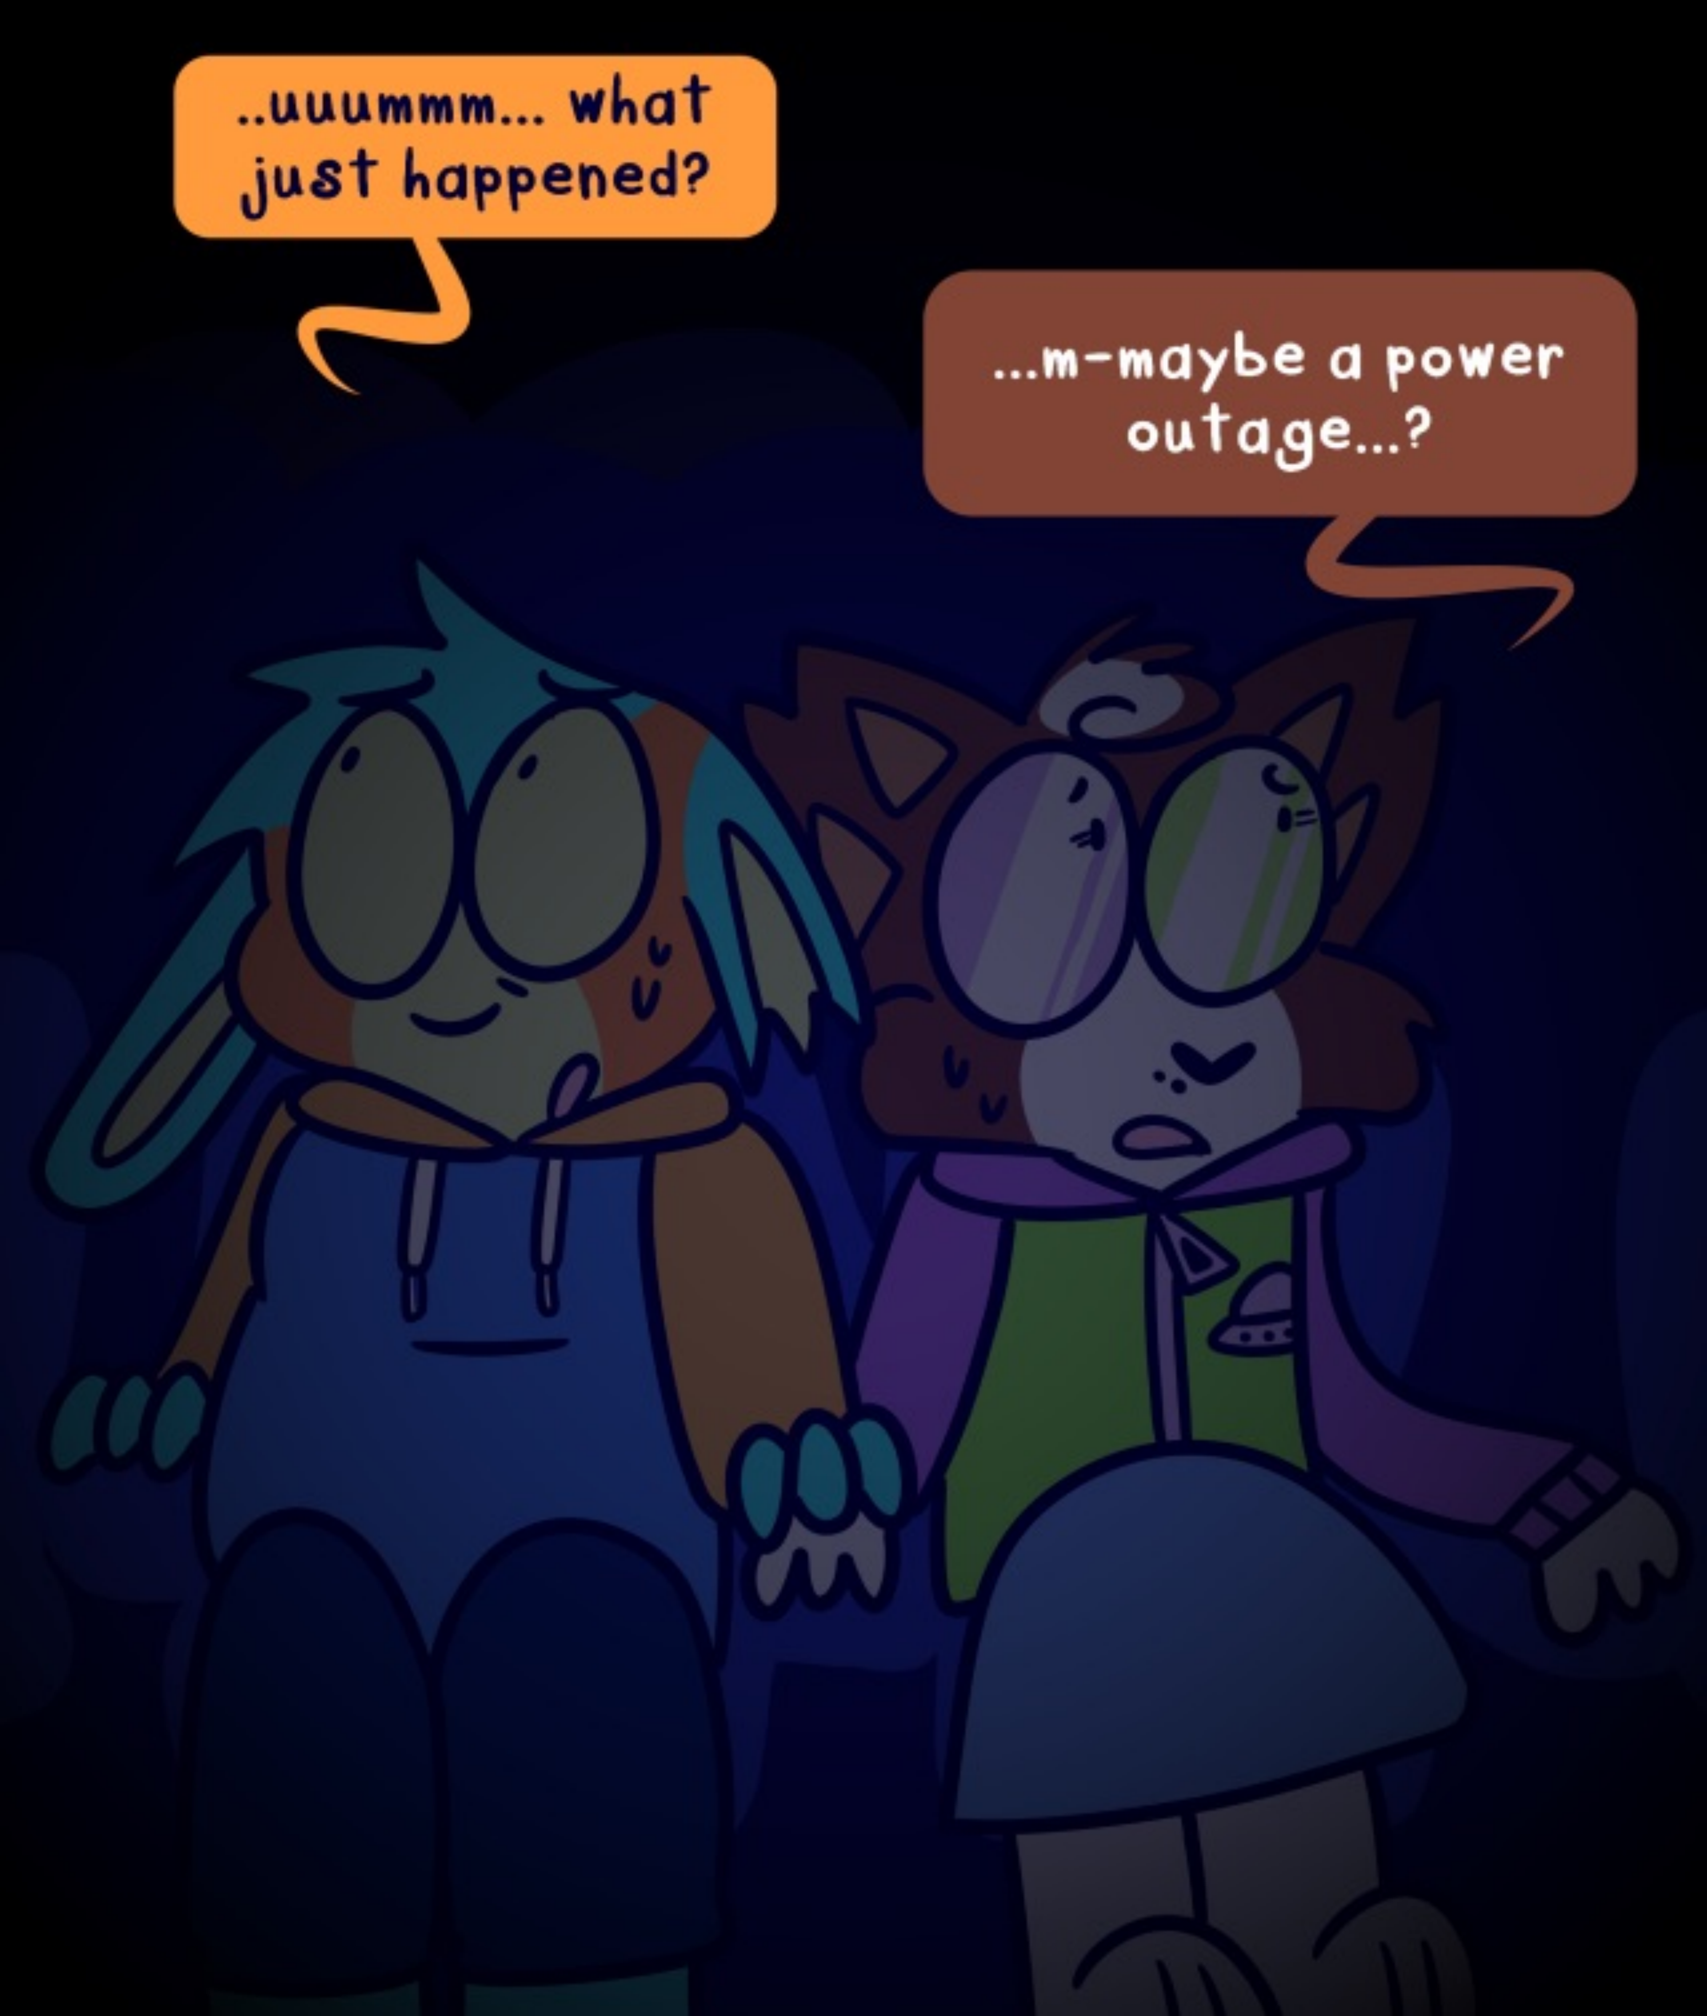
Well, I know you can, but just in case- if you´re scared, I´m right here.



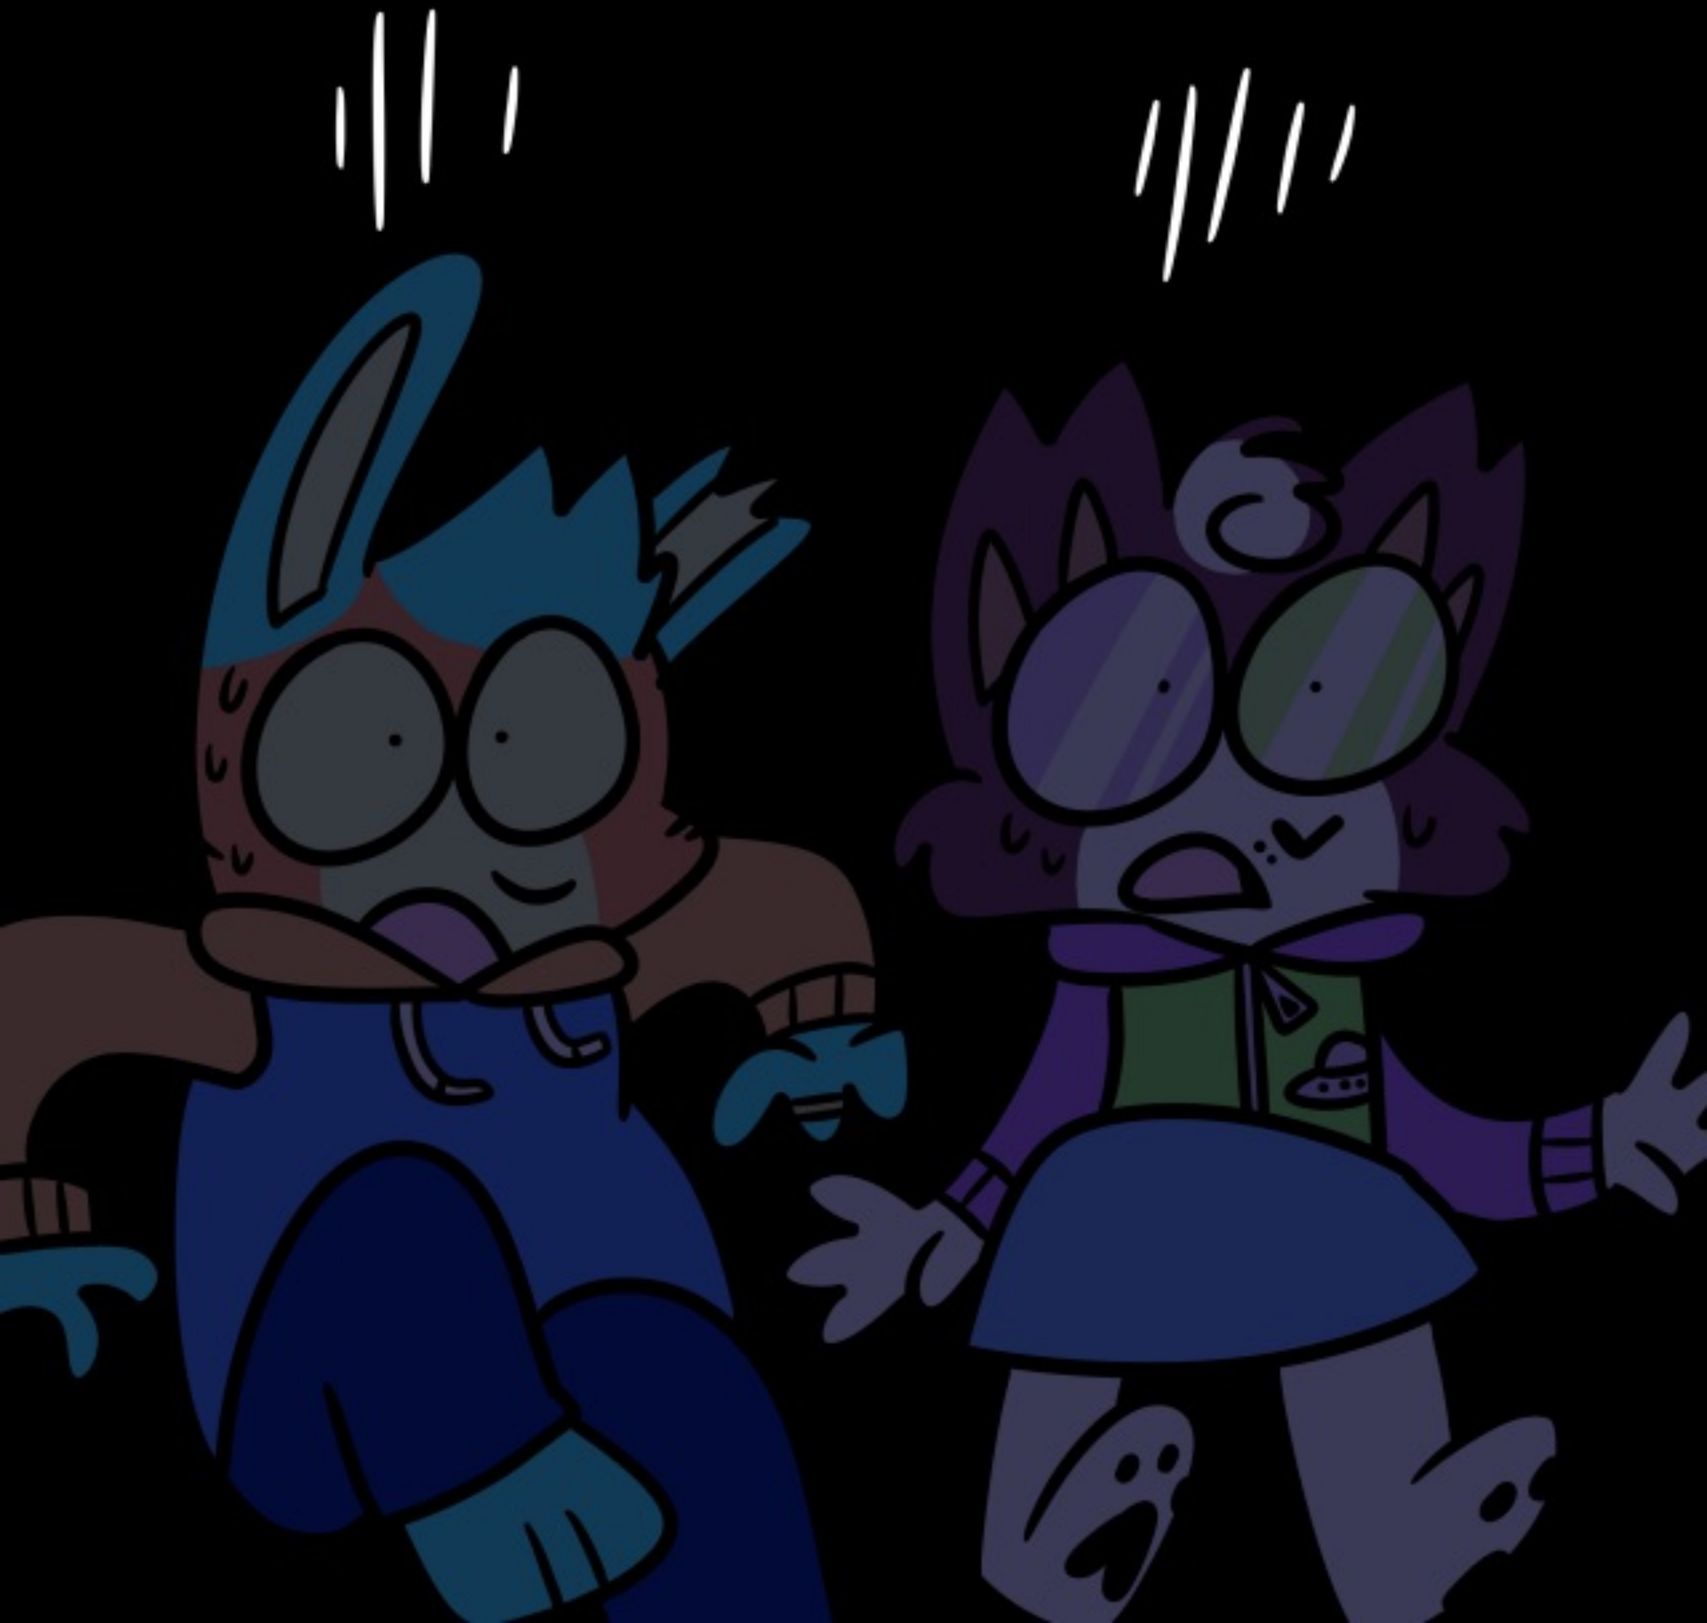


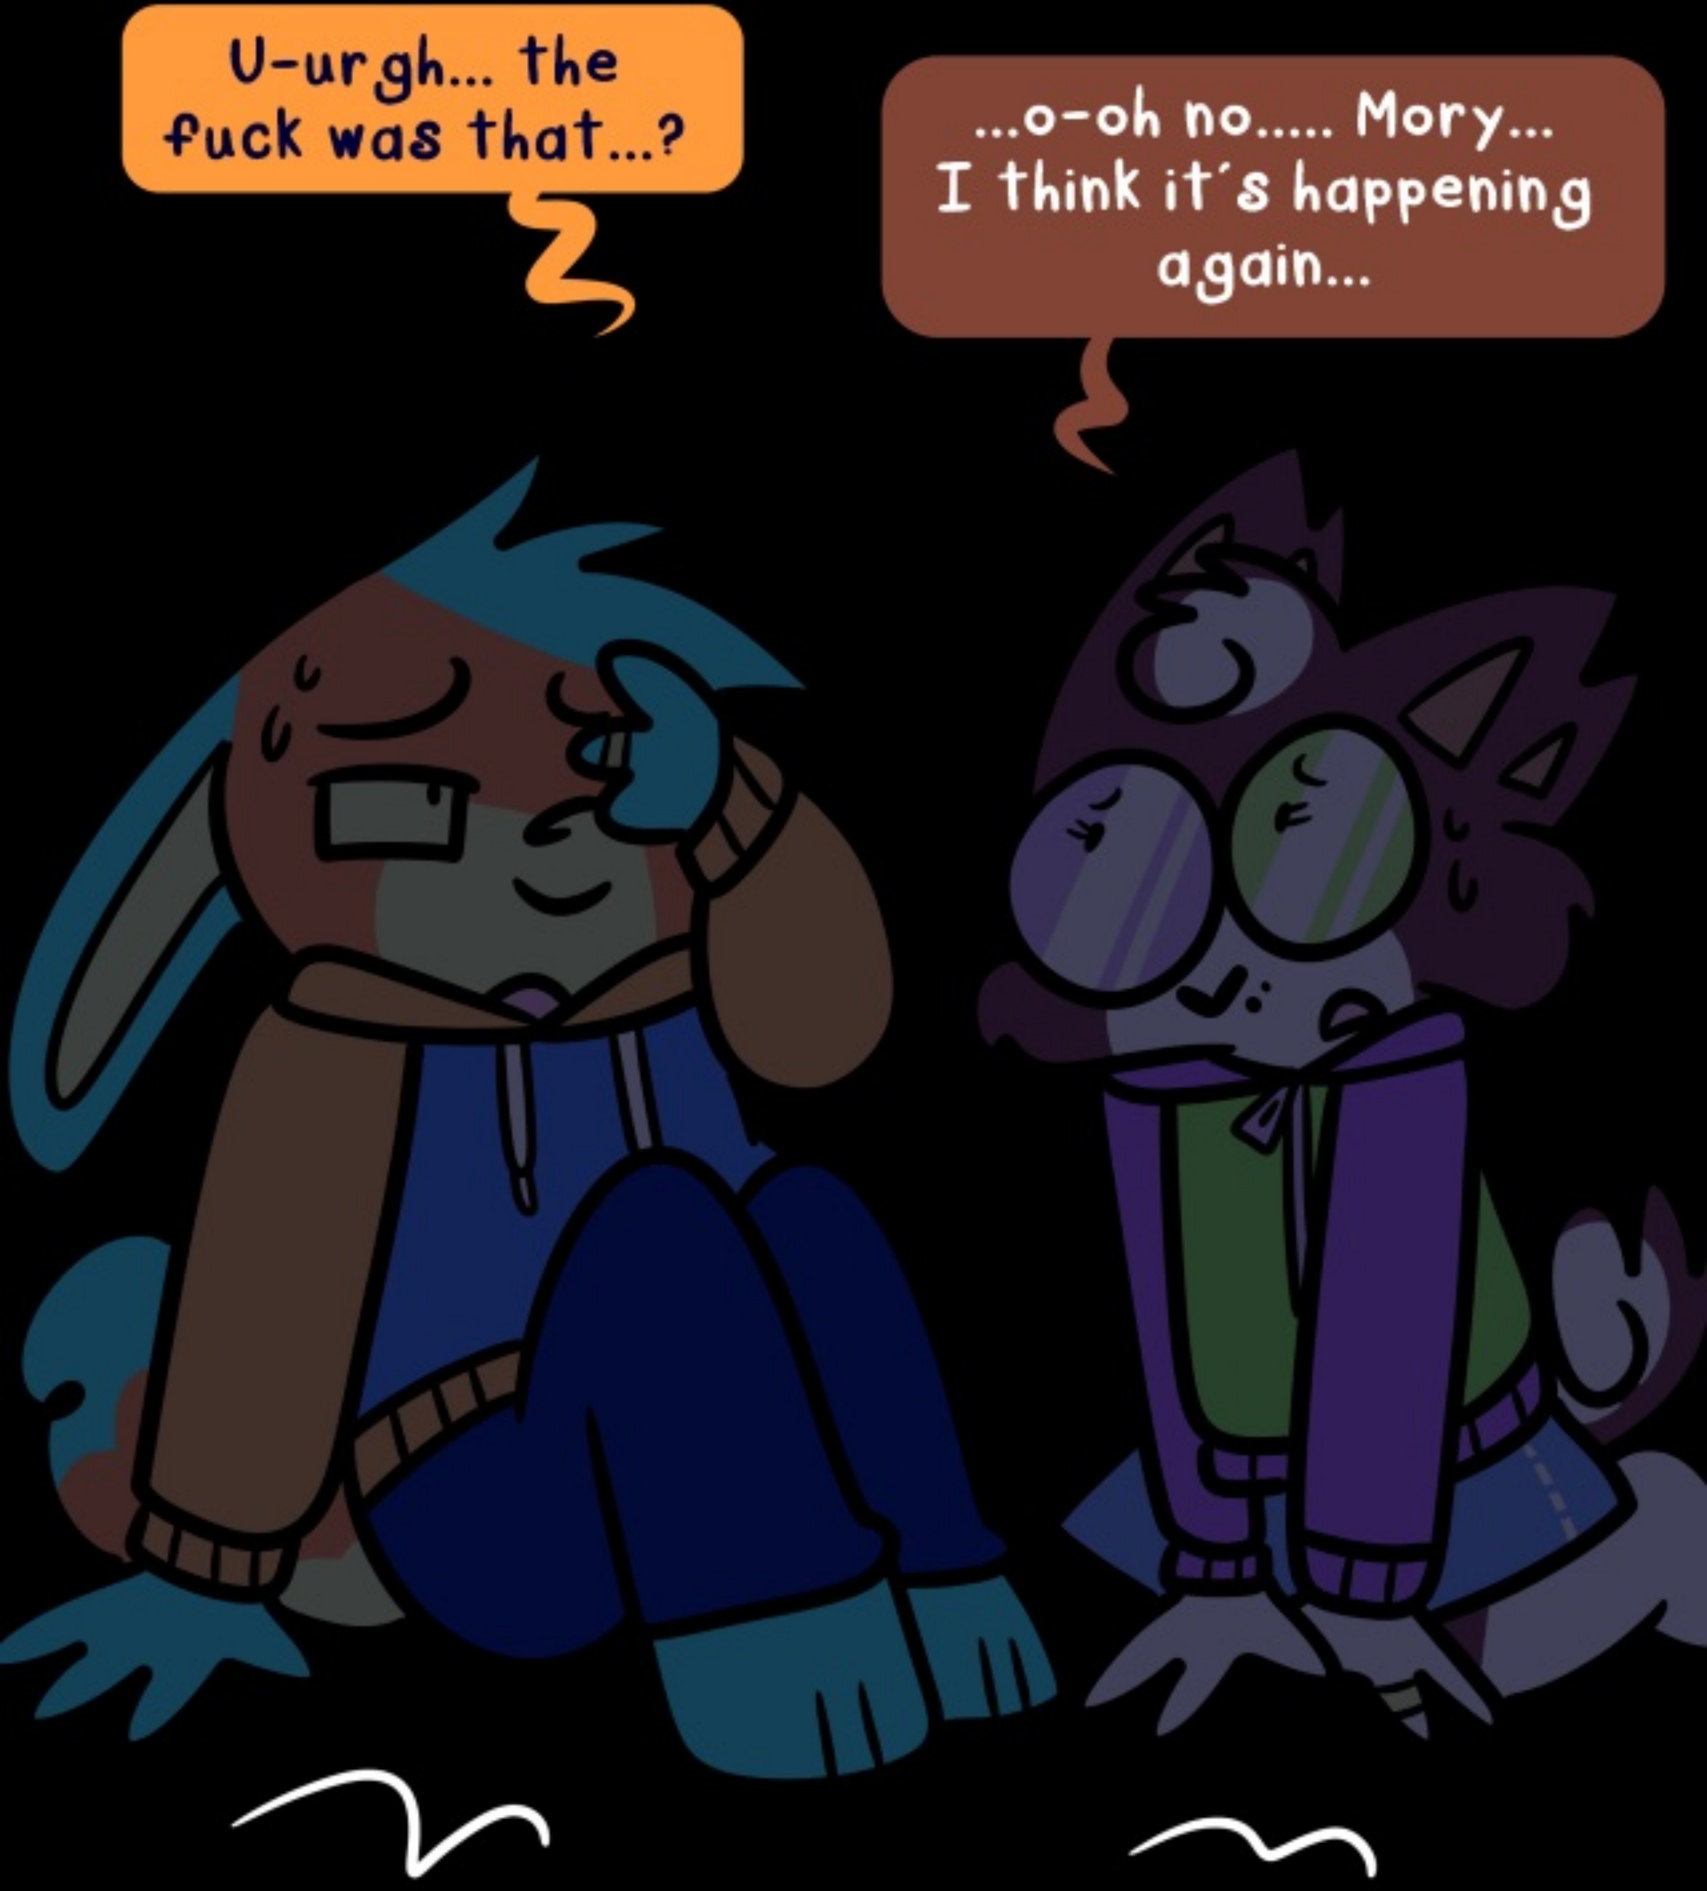




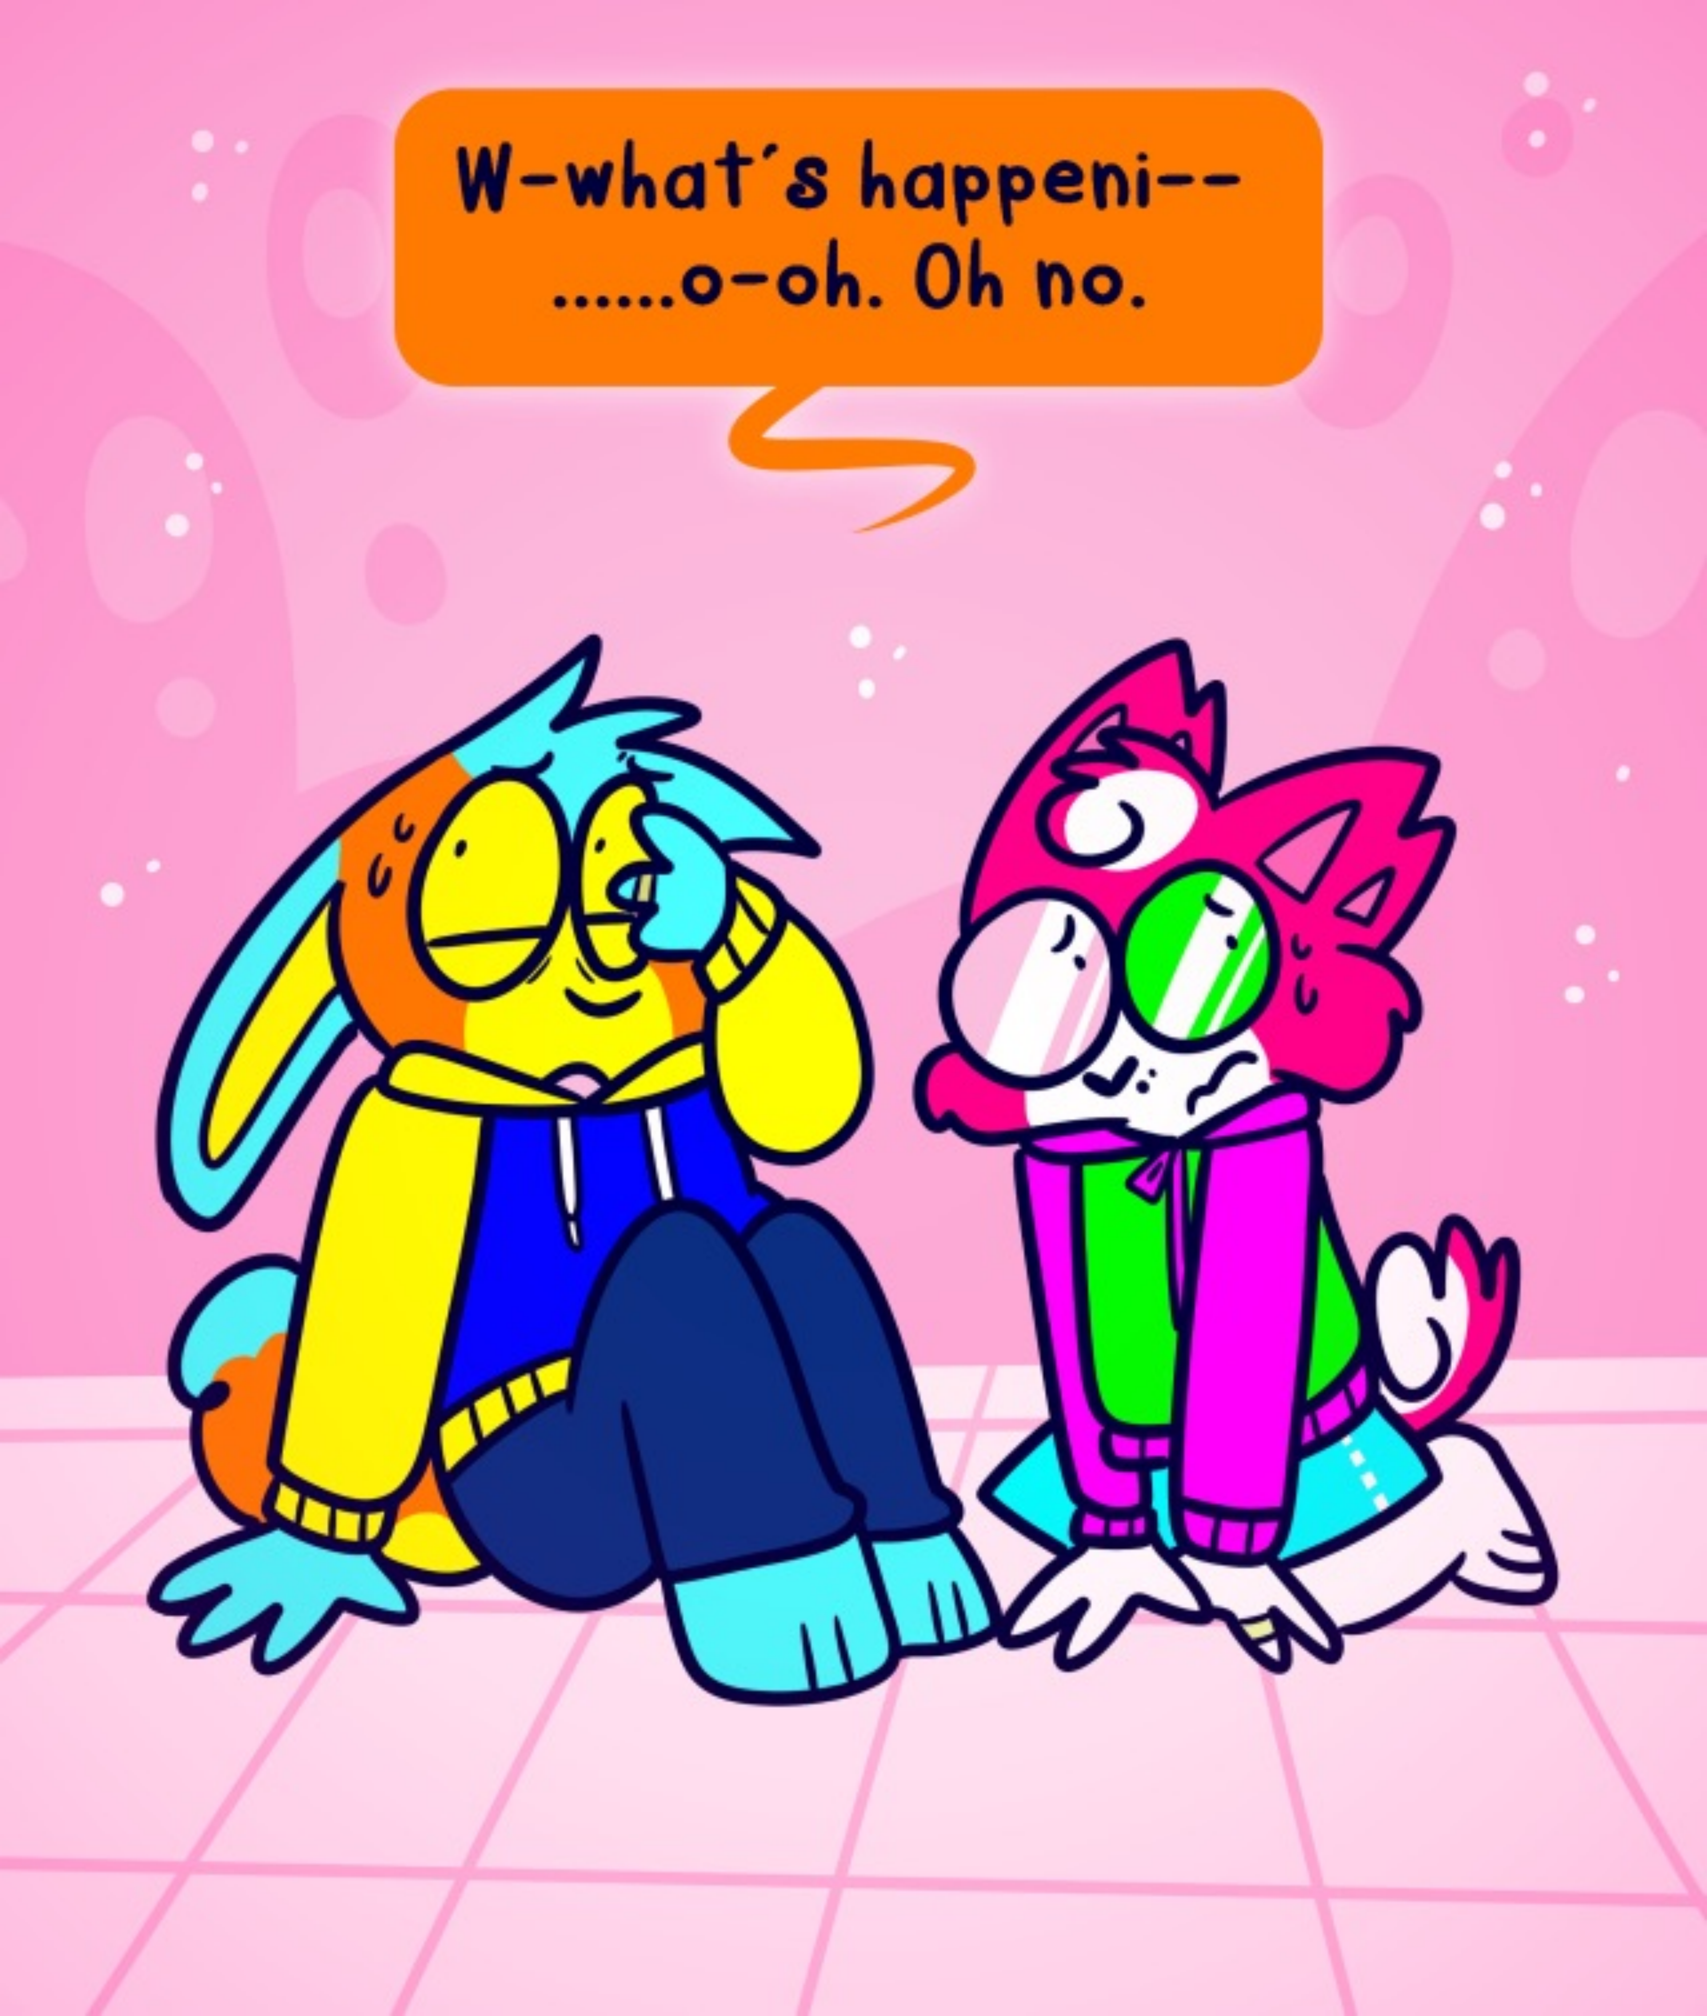


..uuummm... what just happened?
...m-maybe a power outage...?

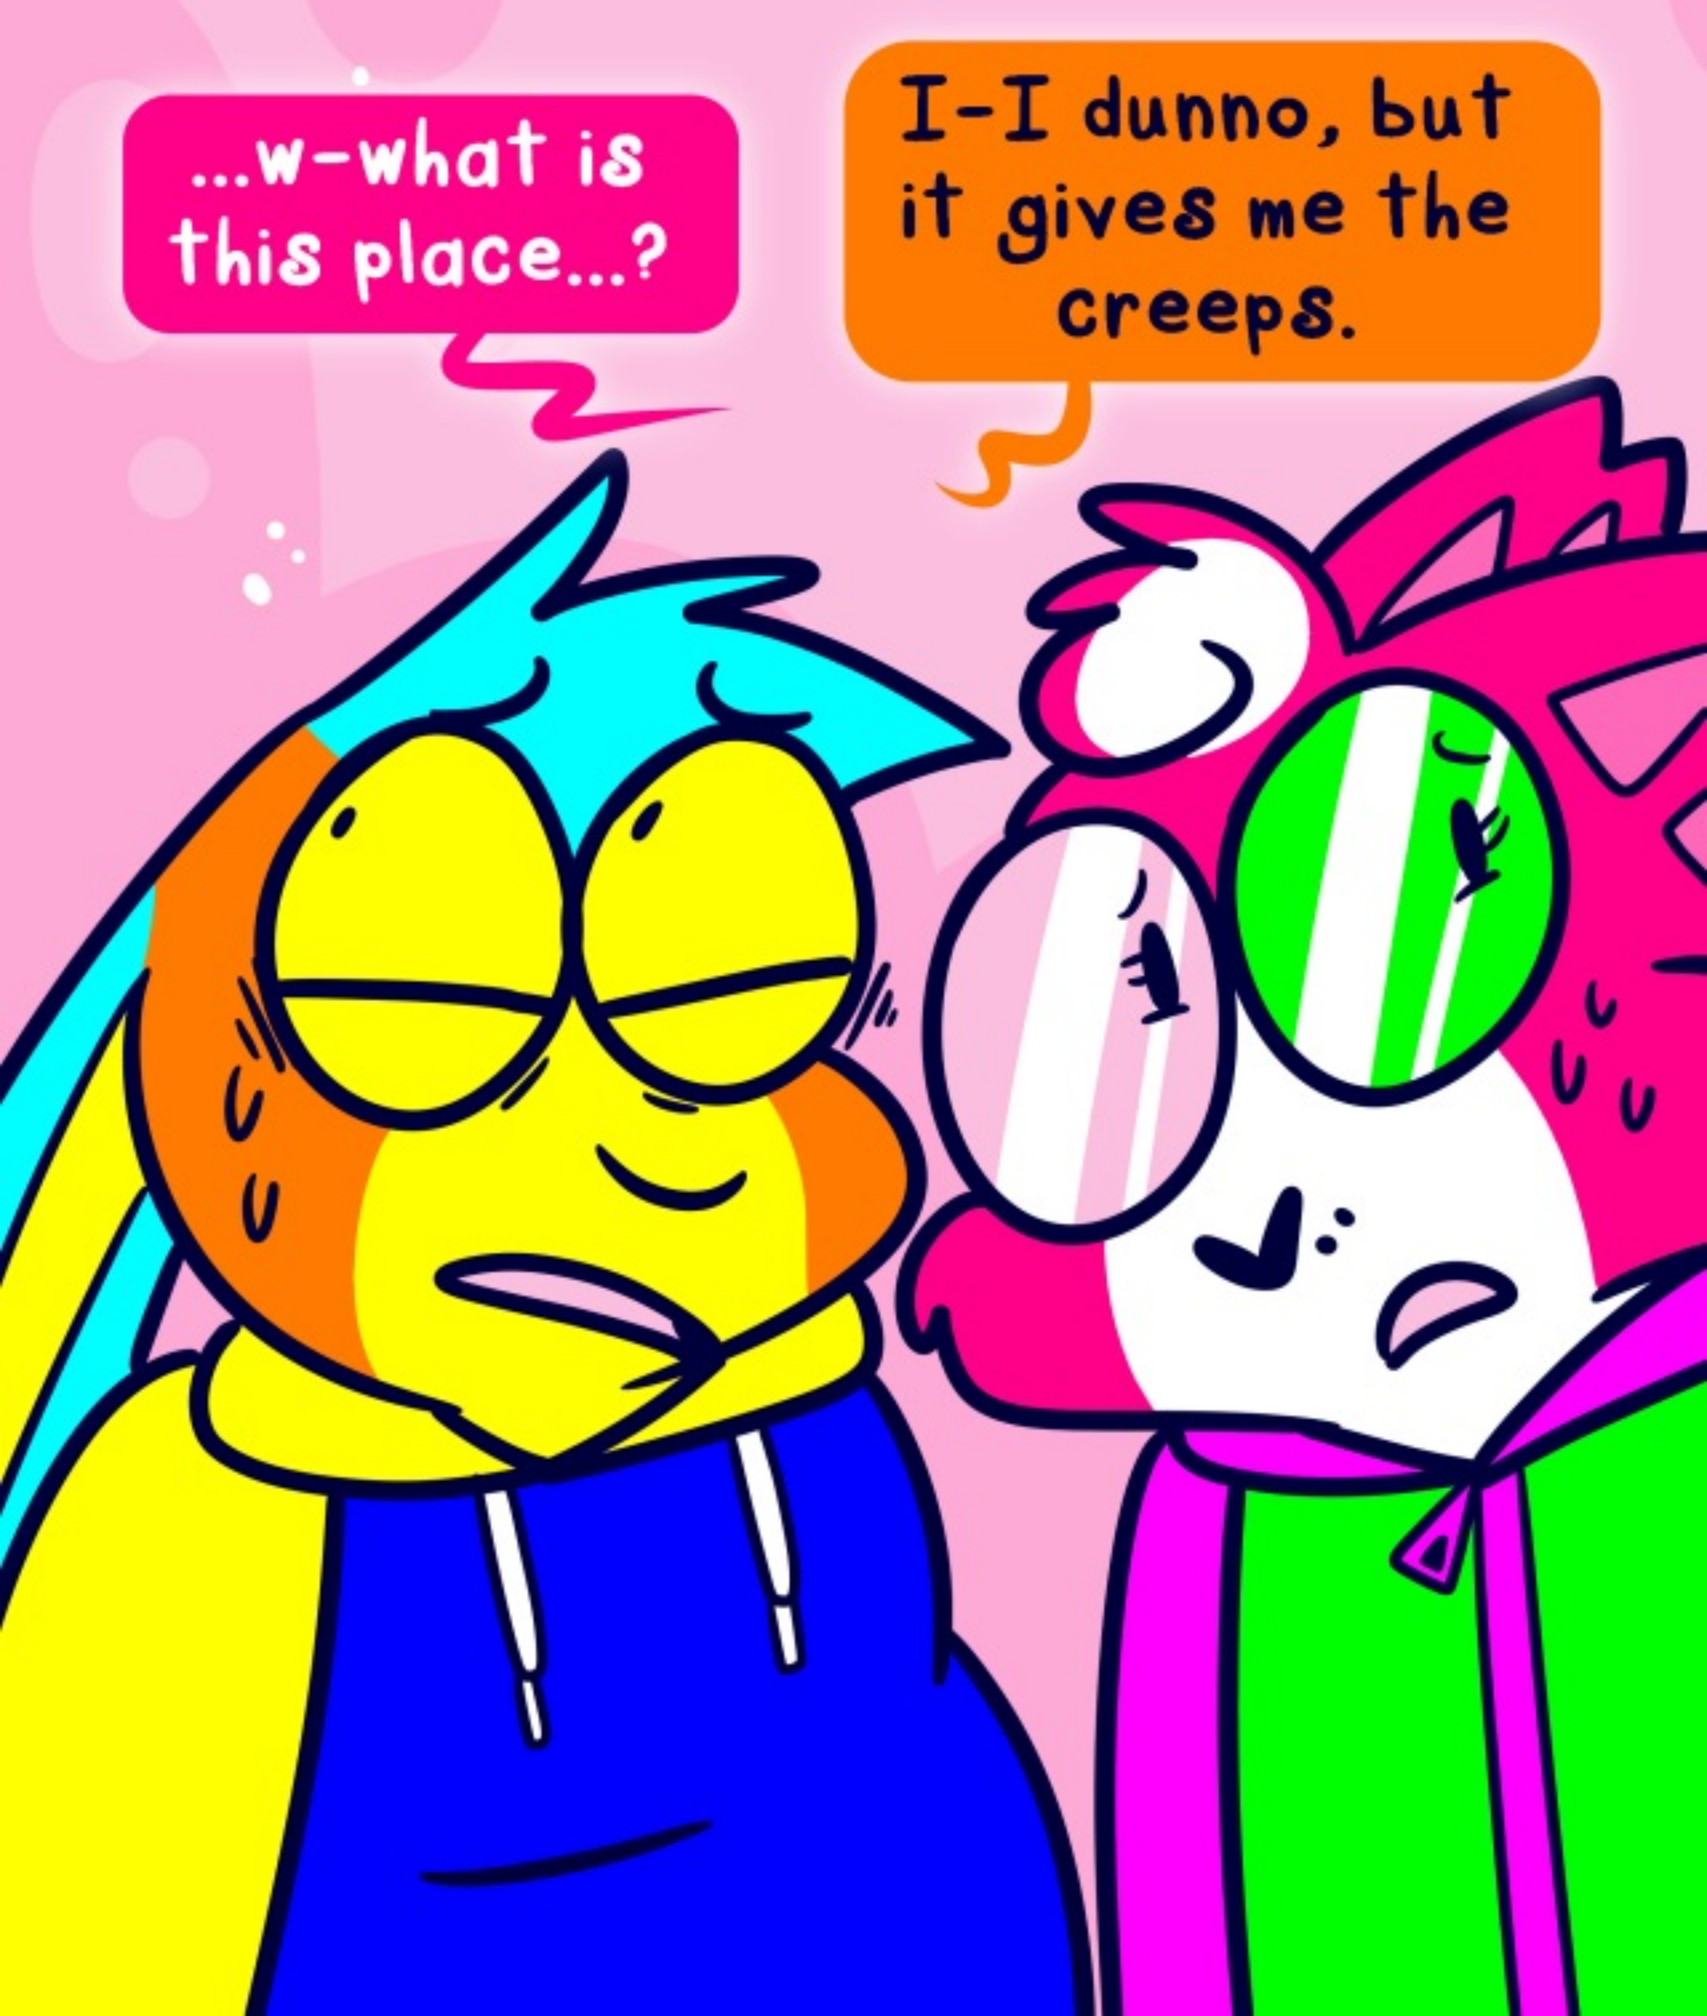




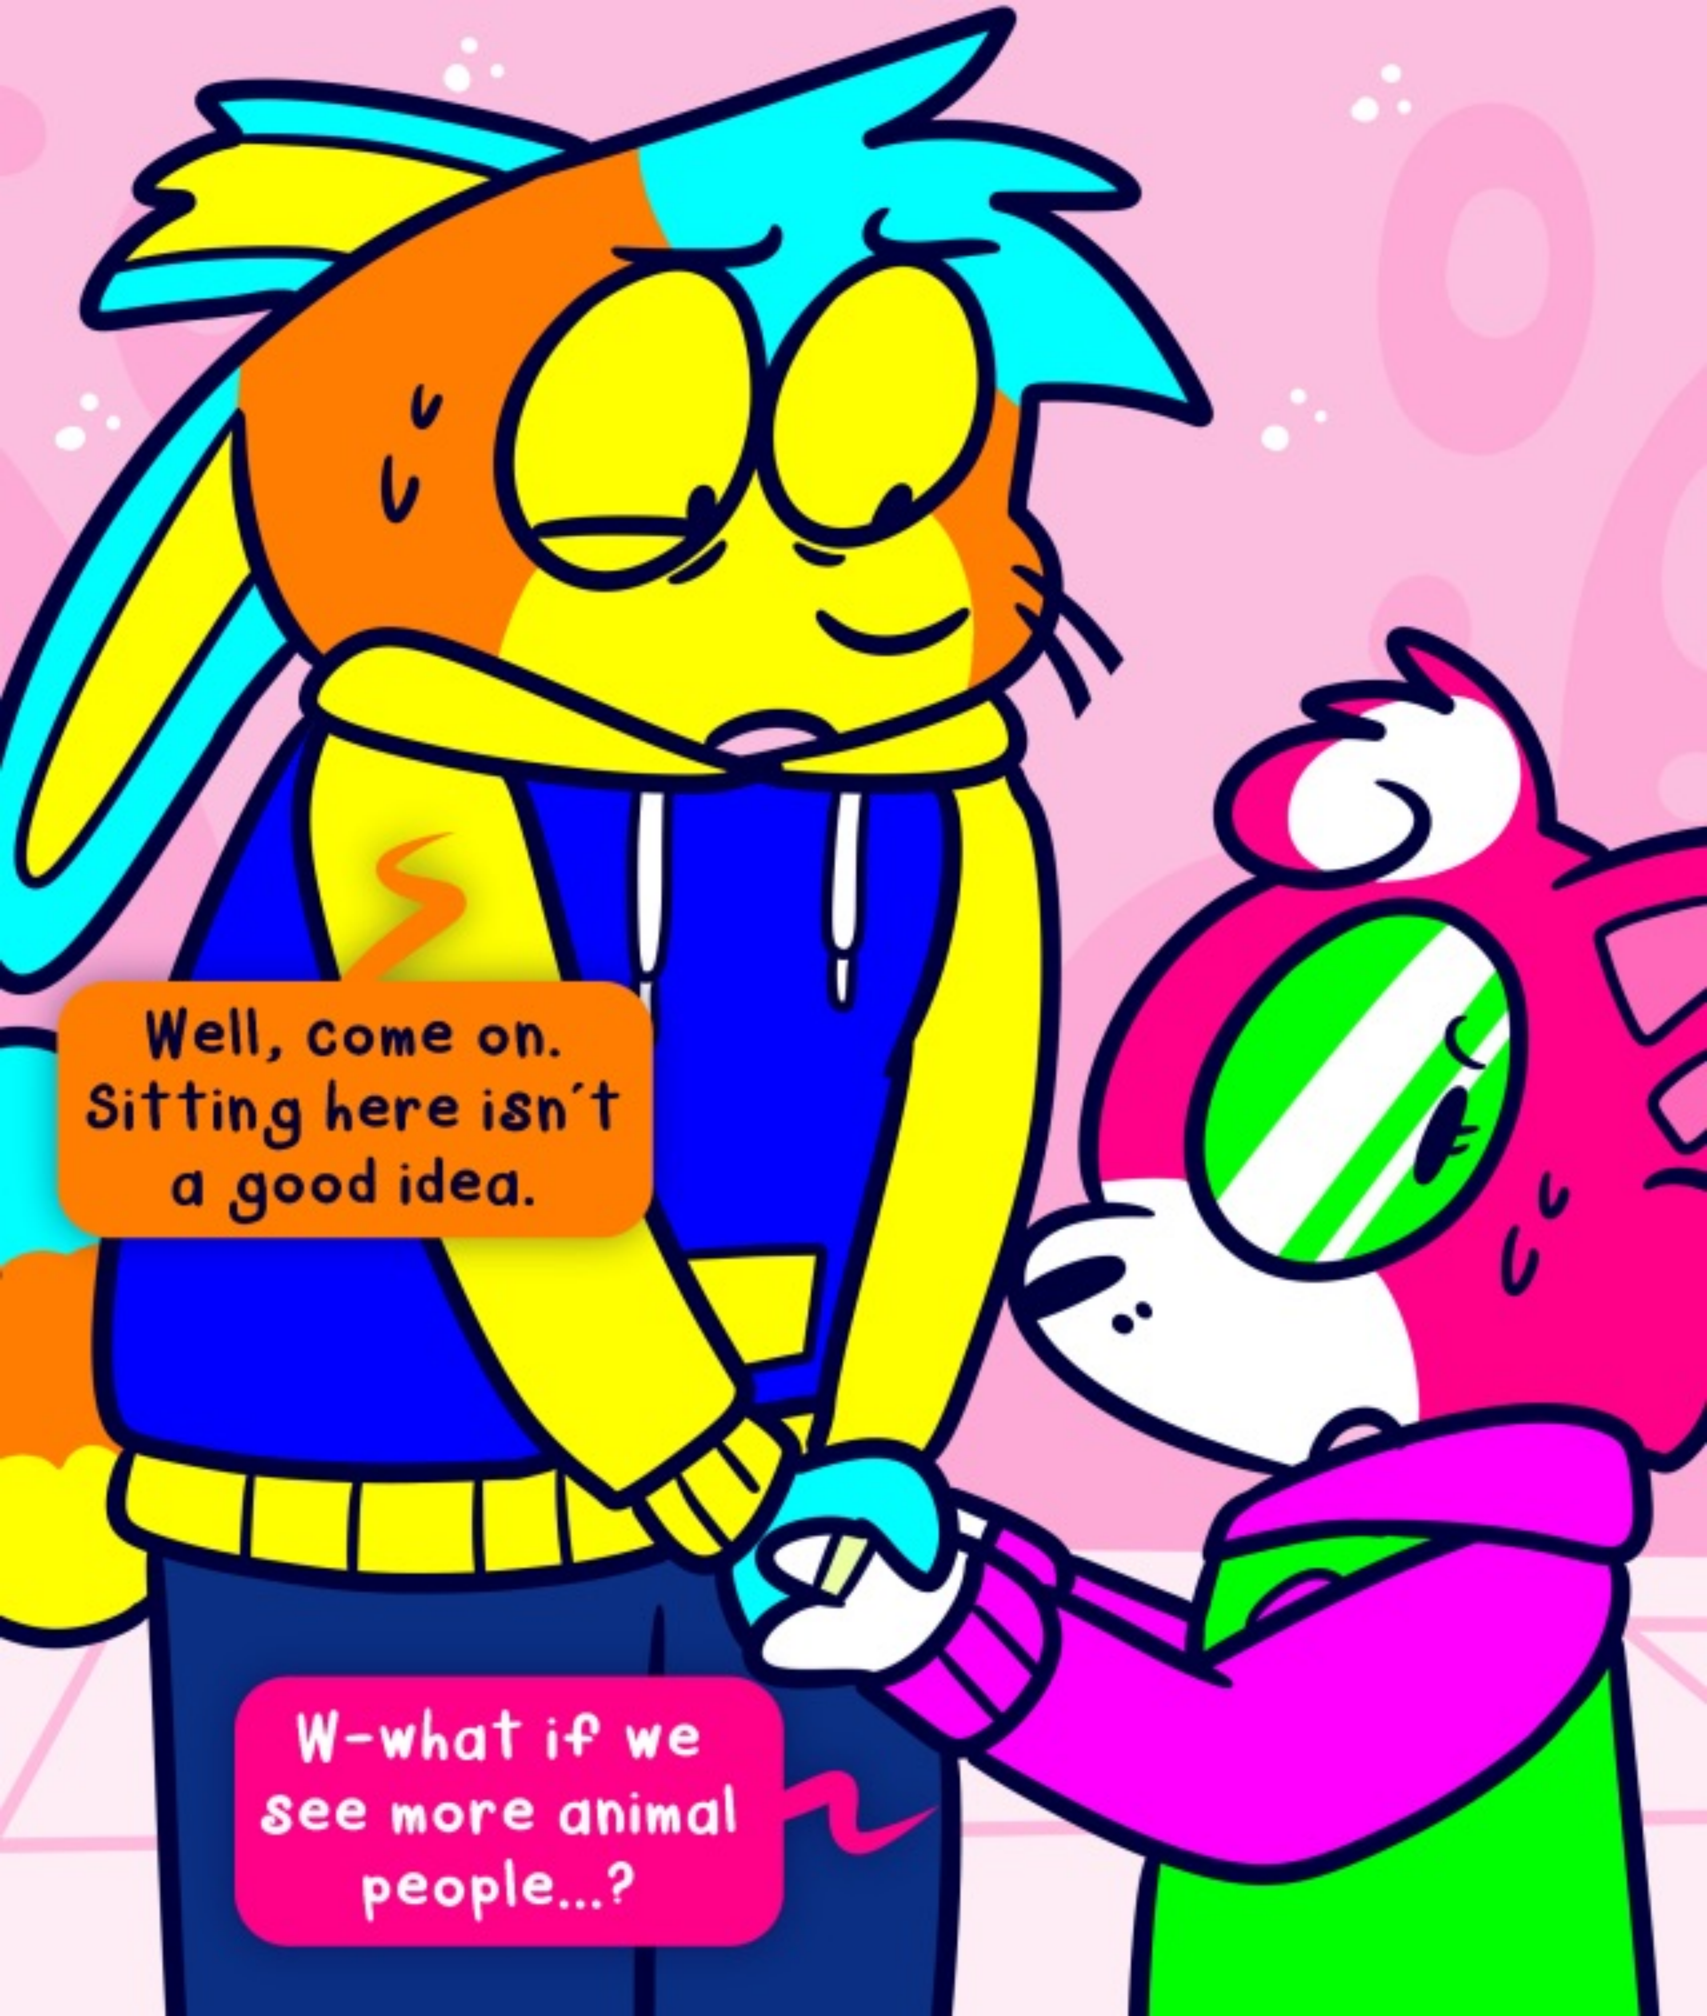
U-urgh... the fuck was that...?
...o-oh no..... Mory... I think it´s happening again...



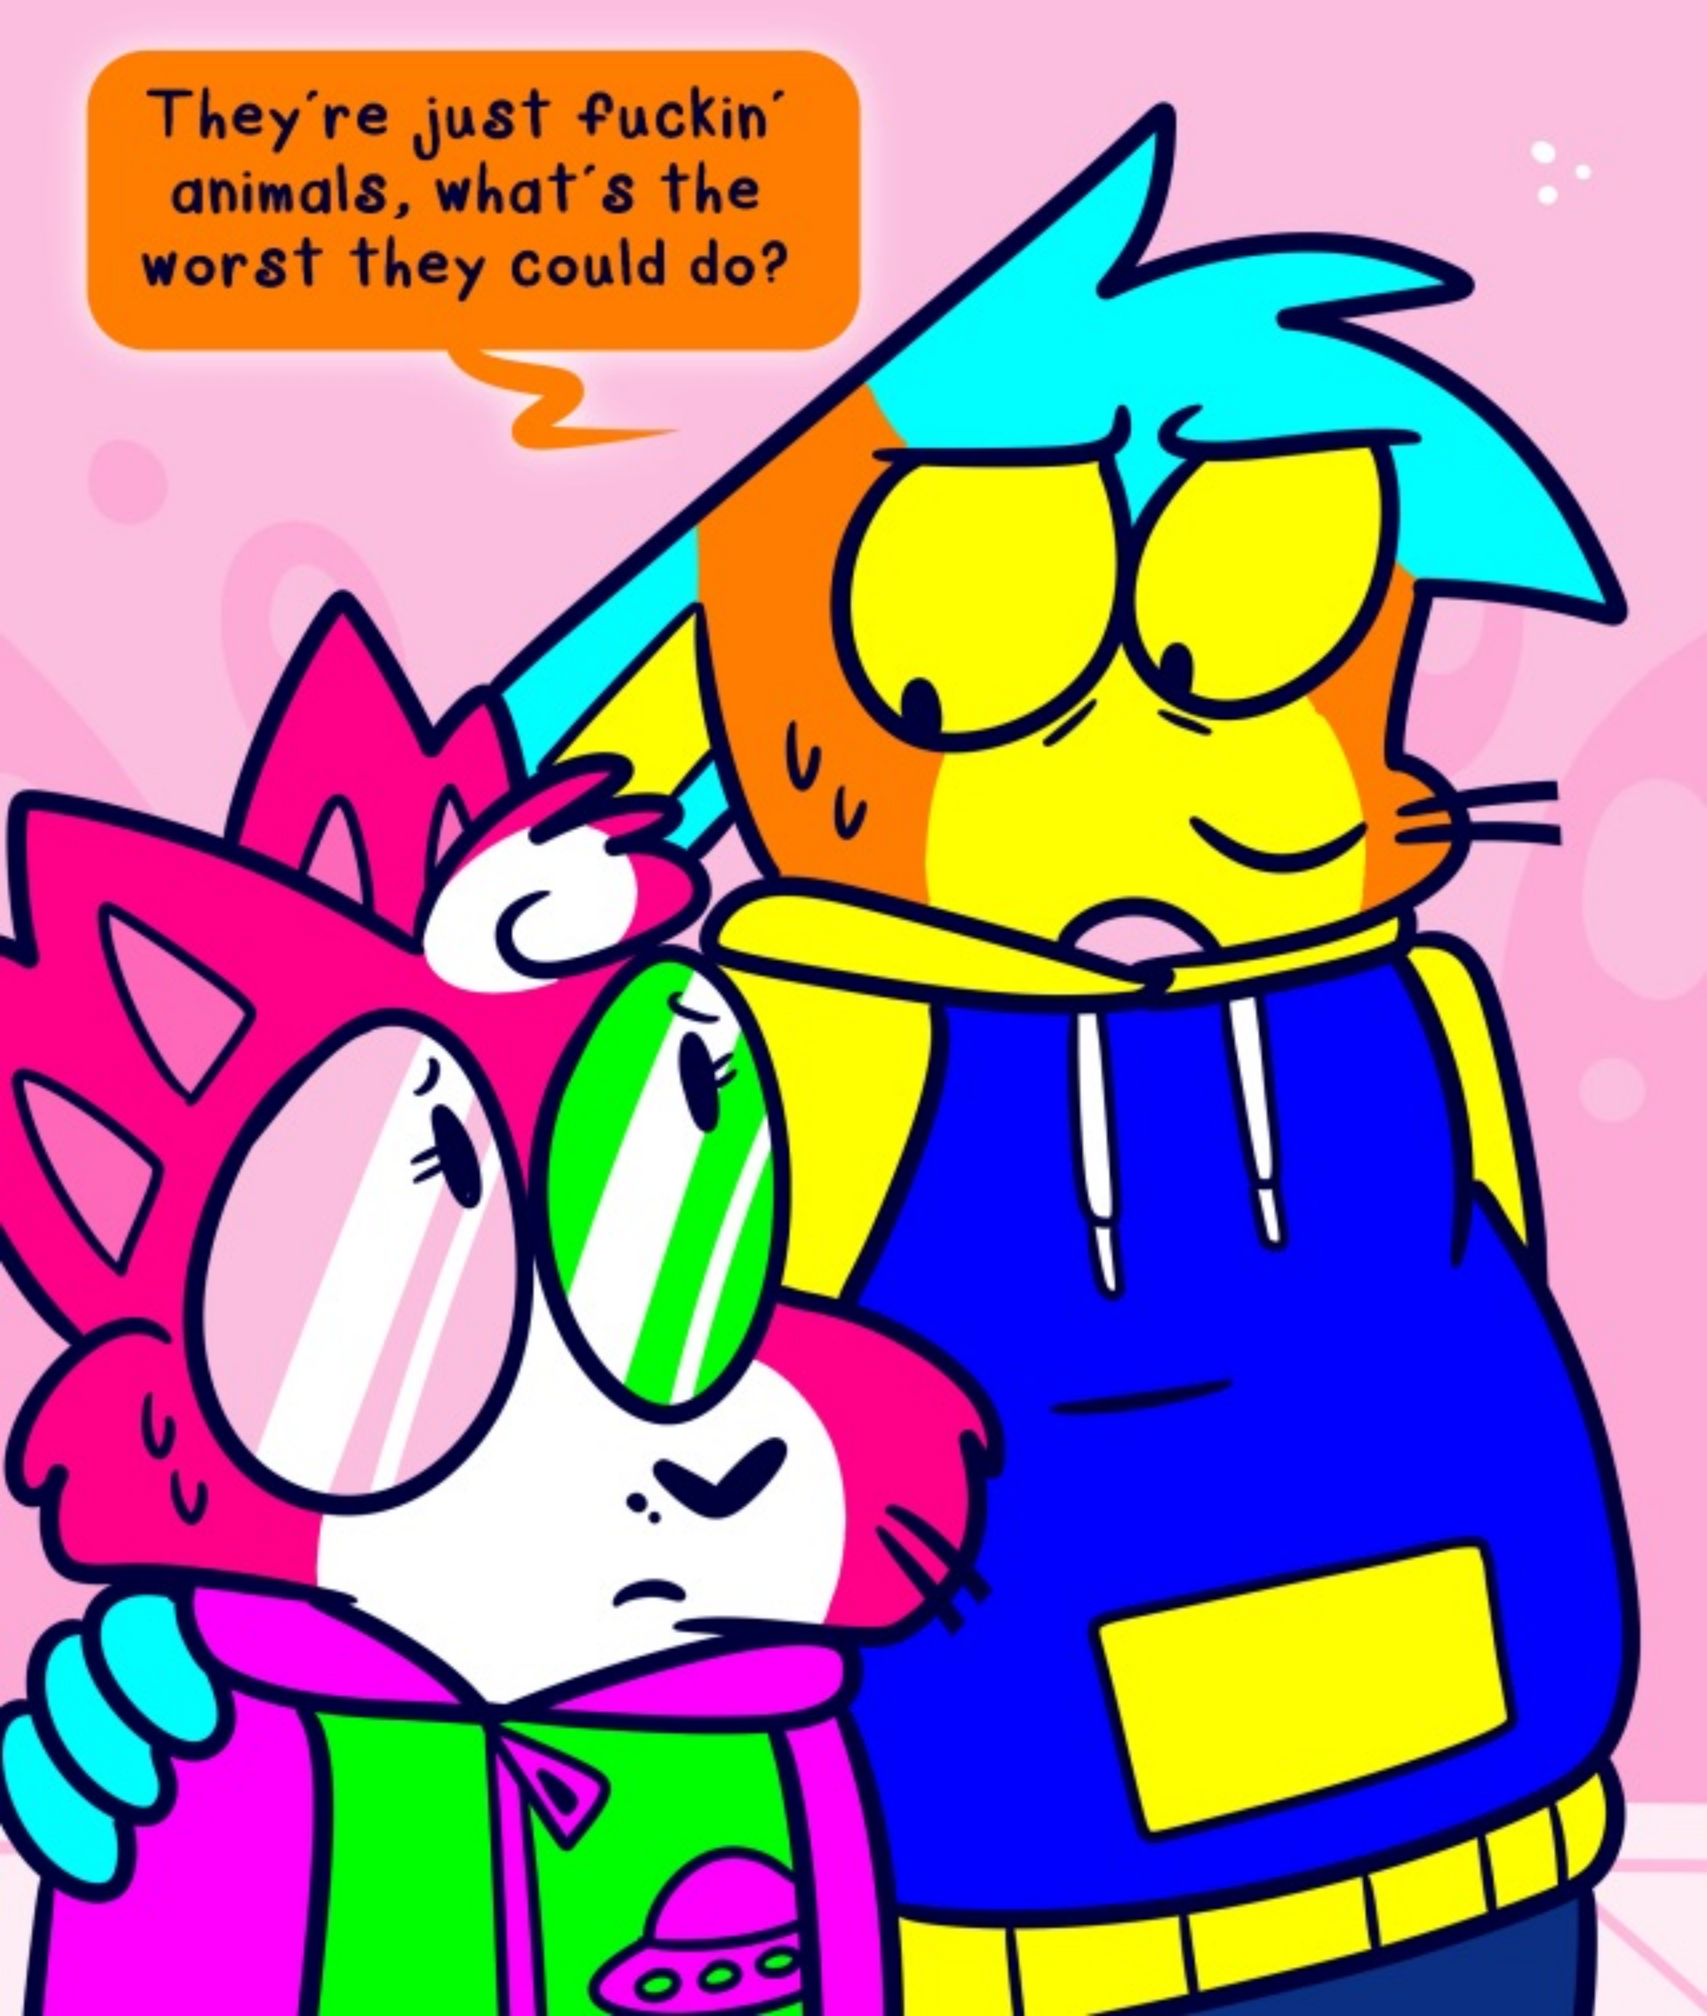
W-what´s happeni--
......o-oh. Oh no.



...w-what is this place...?
I-I dunno, but it gives me the creeps.



Well, come on. Sitting here isn´t a good idea.
W-what if we see more animal people...?



They're just fuckin' animals, what's the worst they could do?

smells like one.

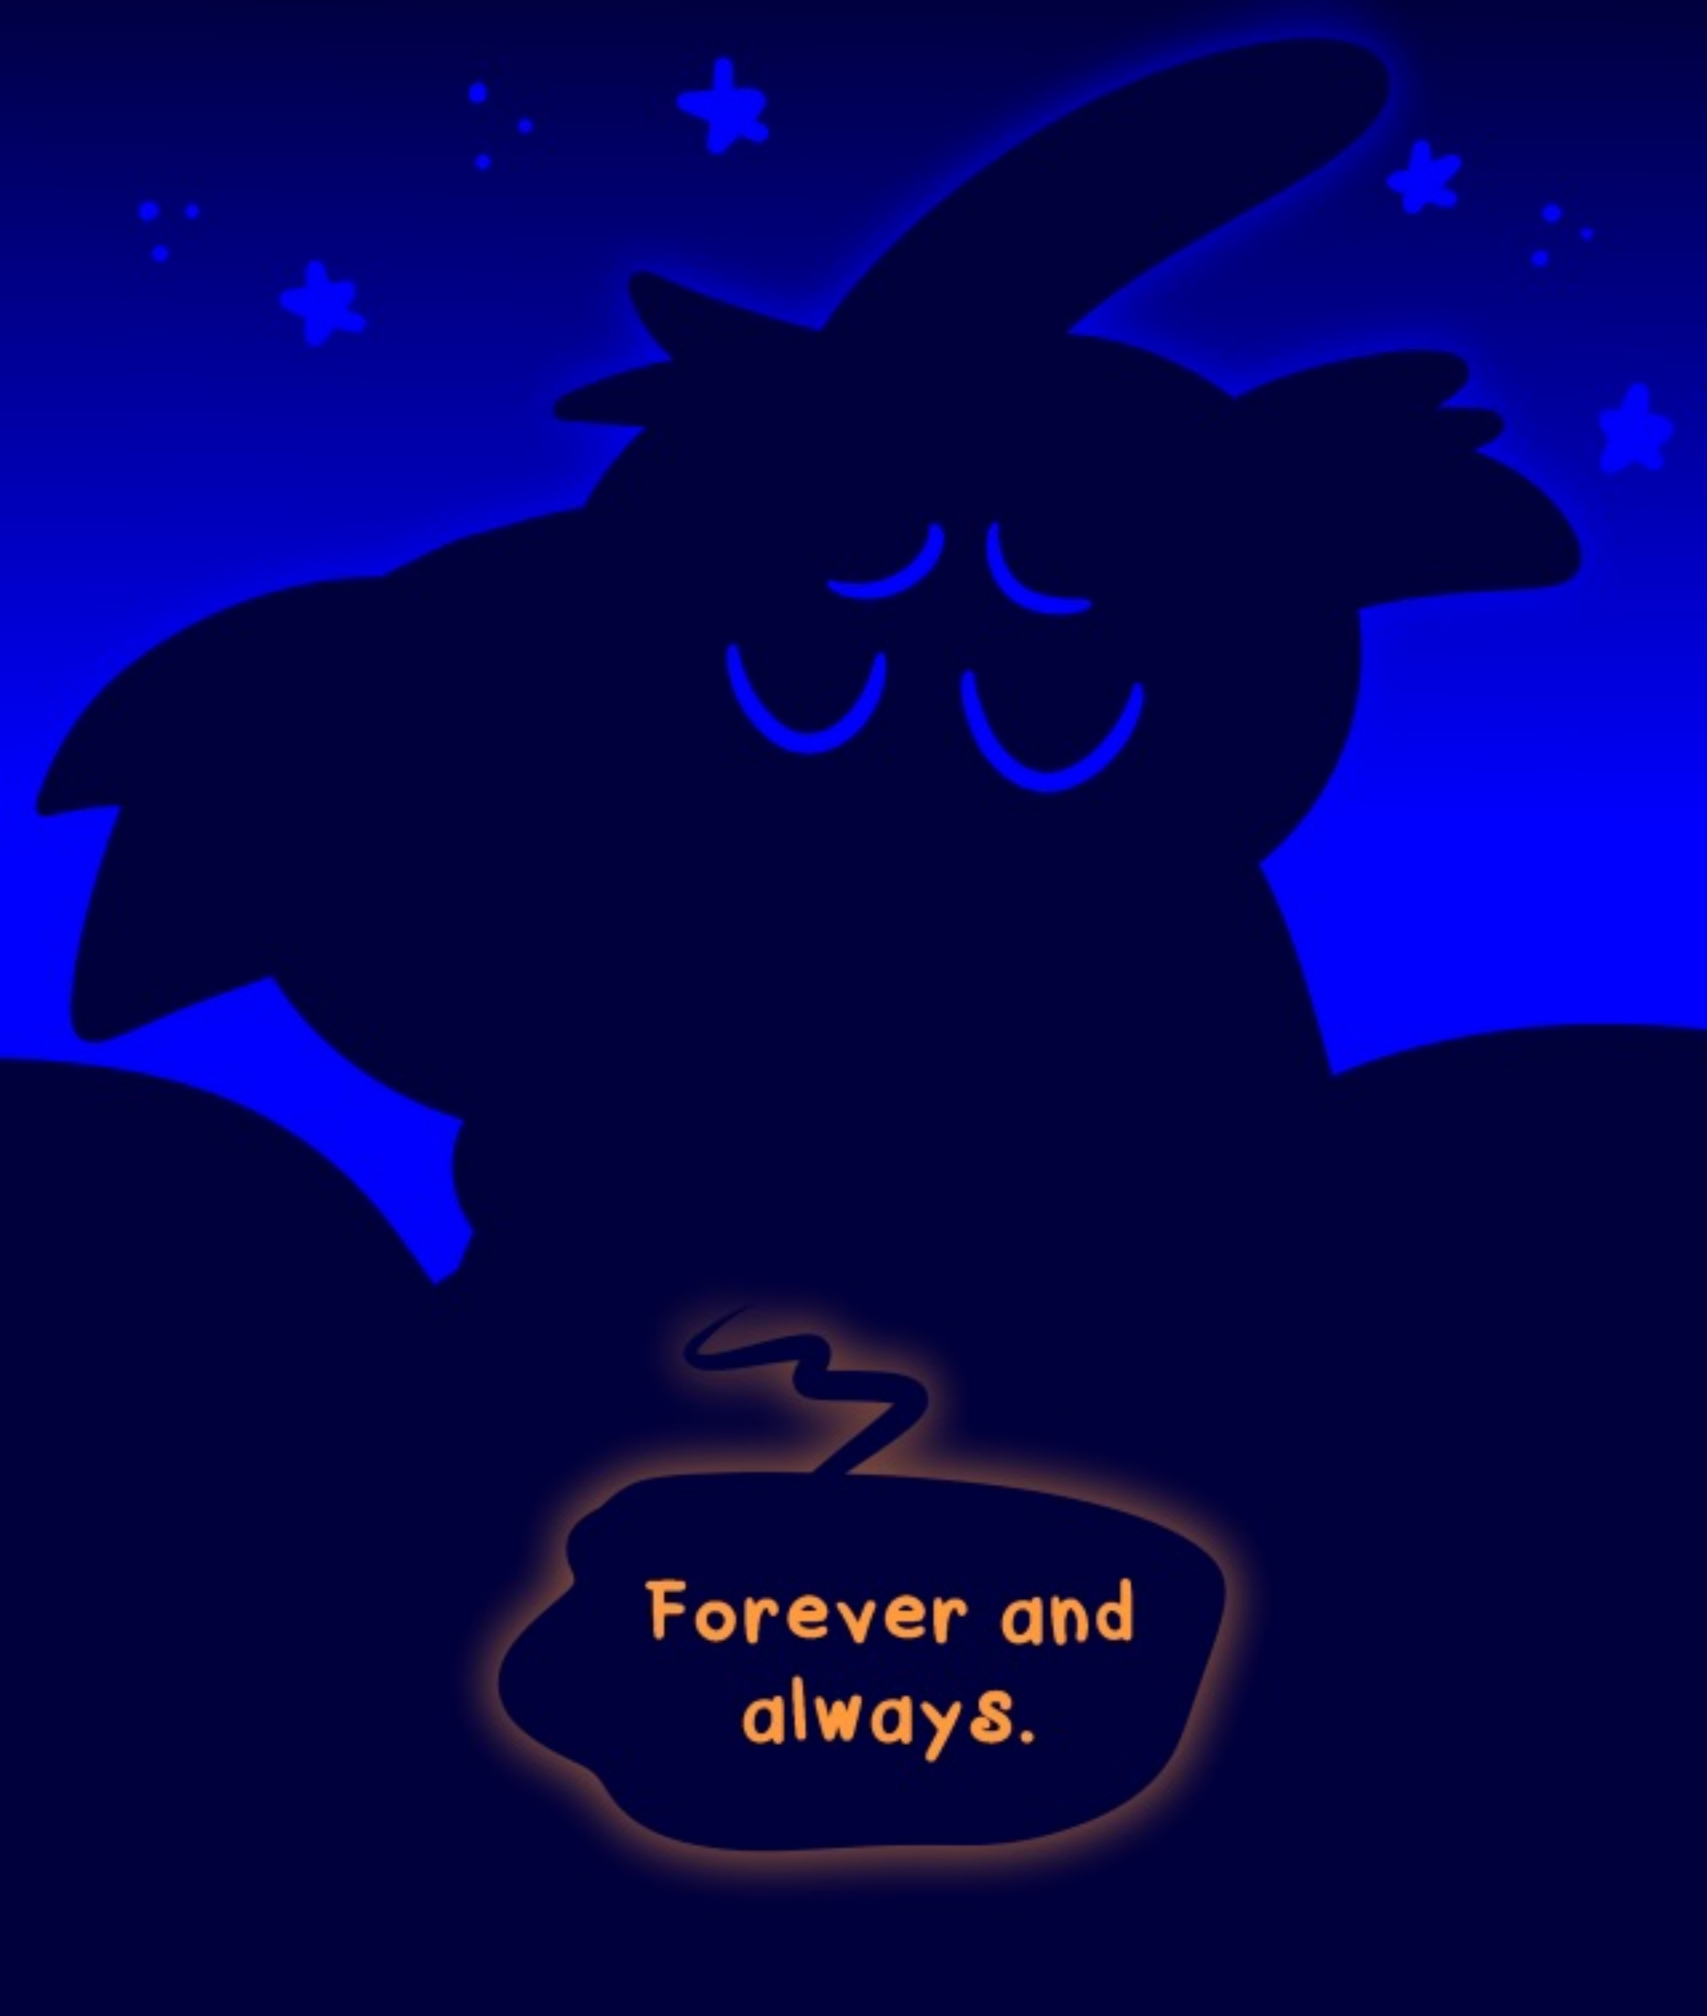
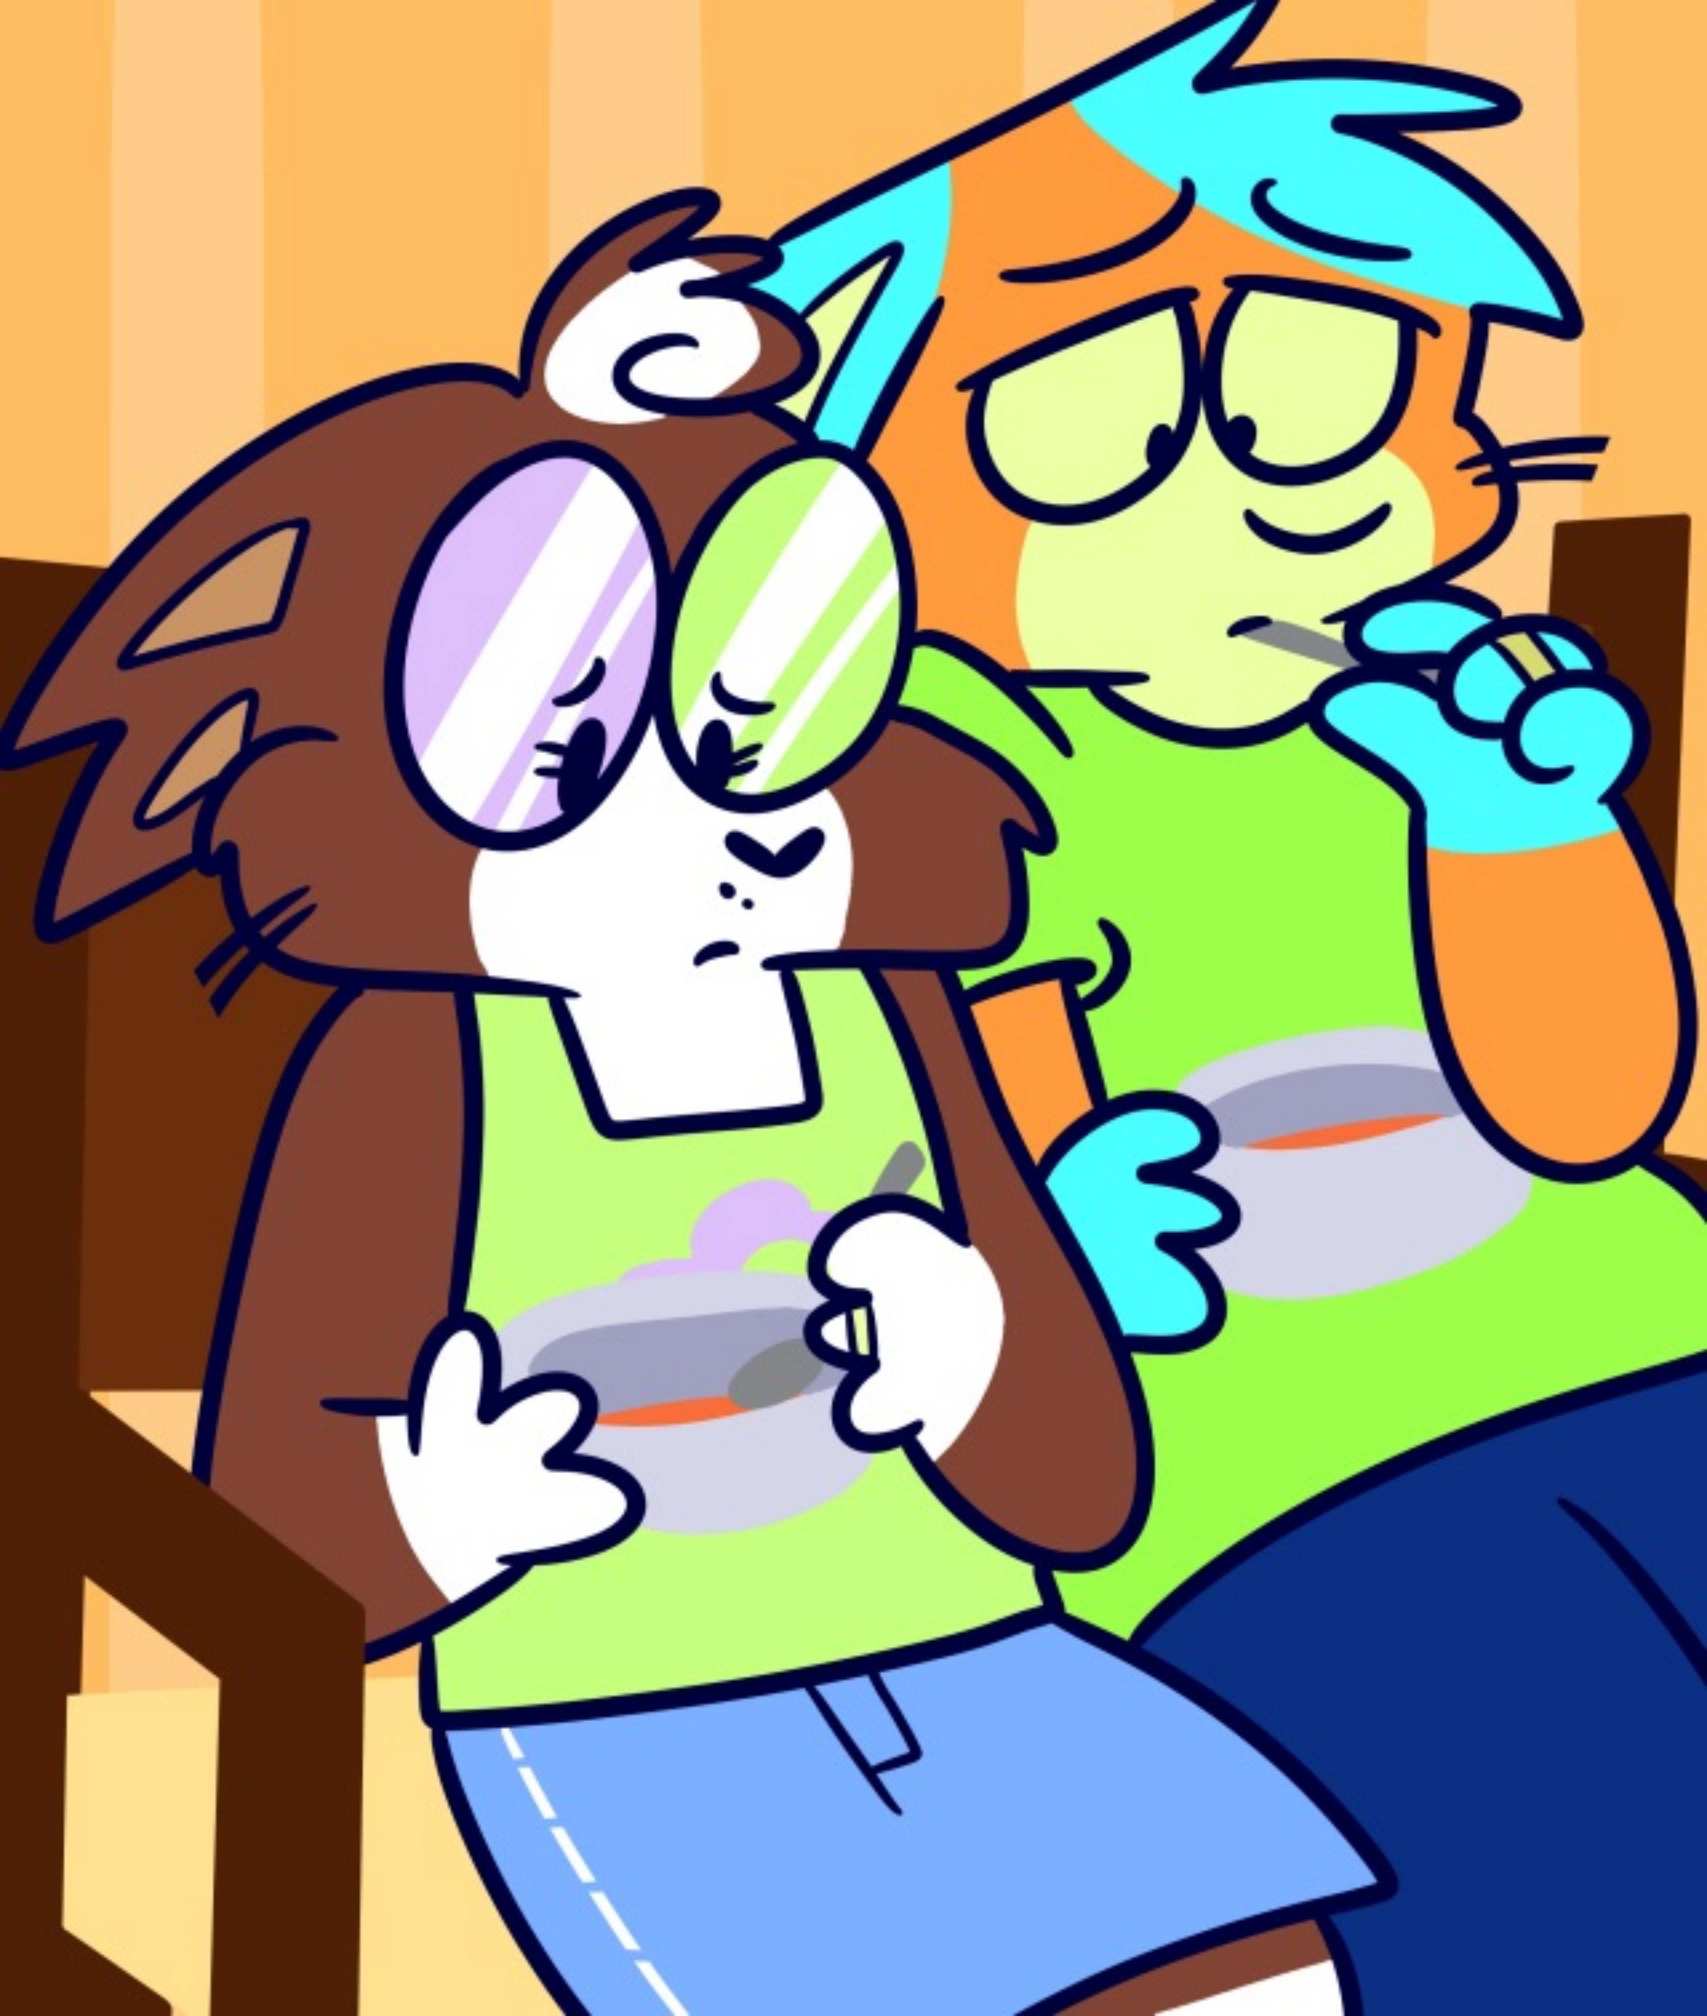
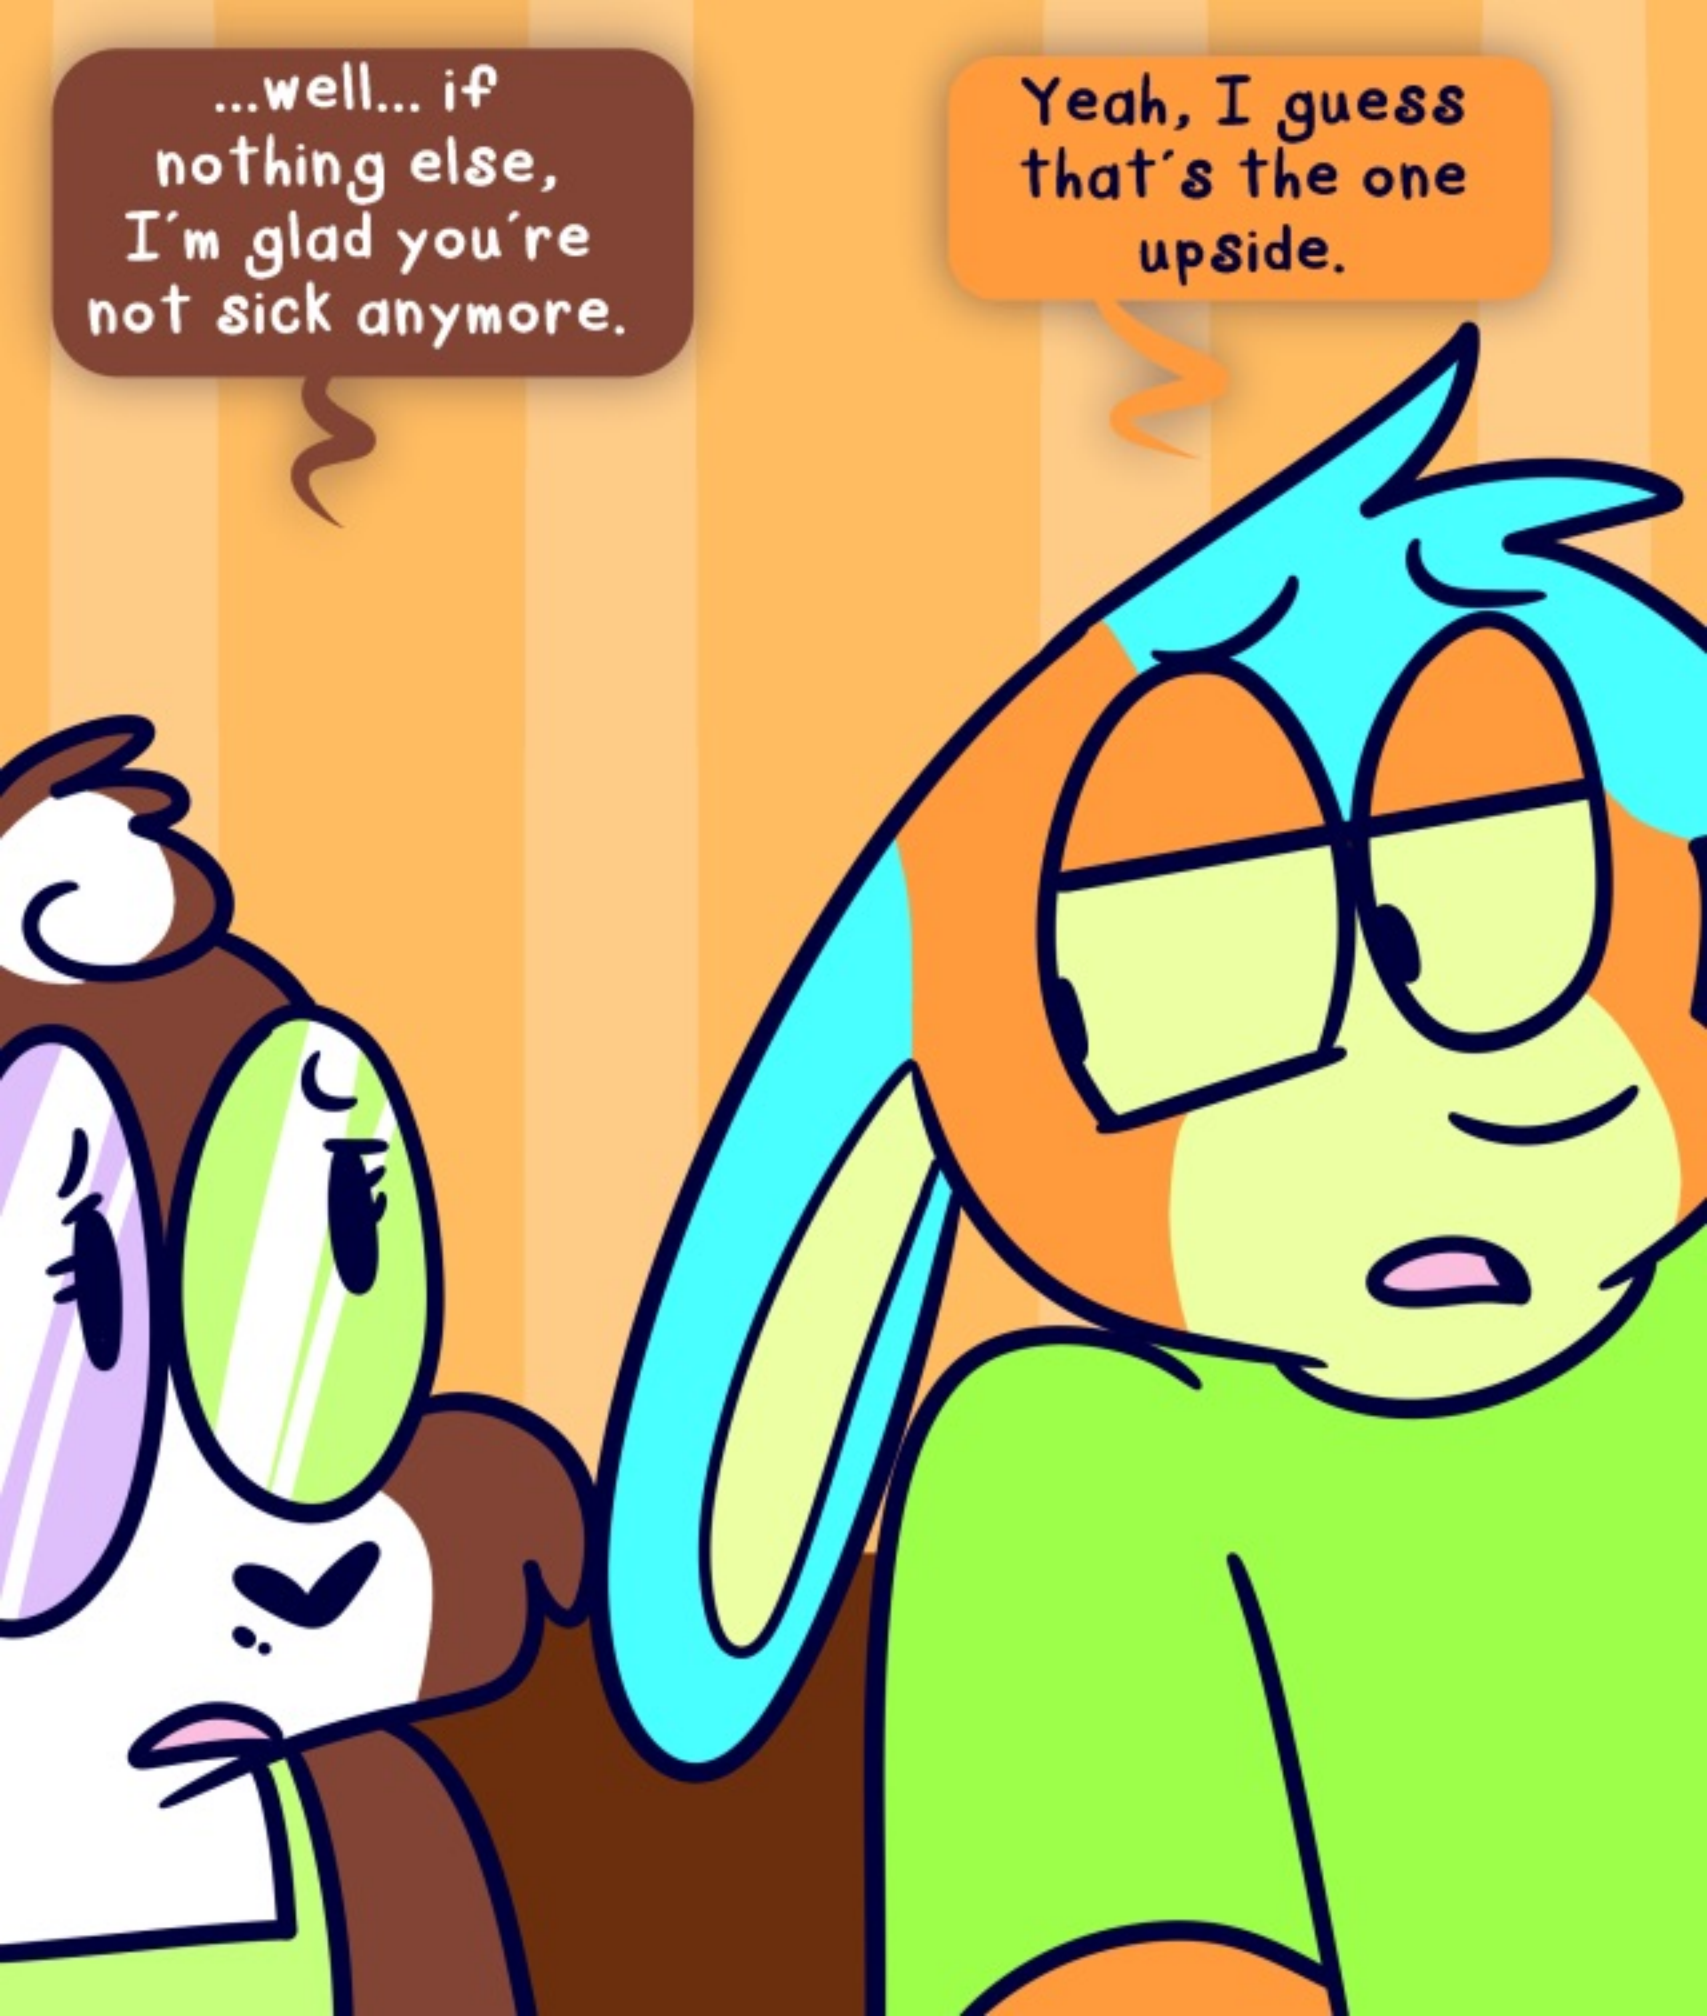
You'll always have me, Winnie... I'll stay here forever.

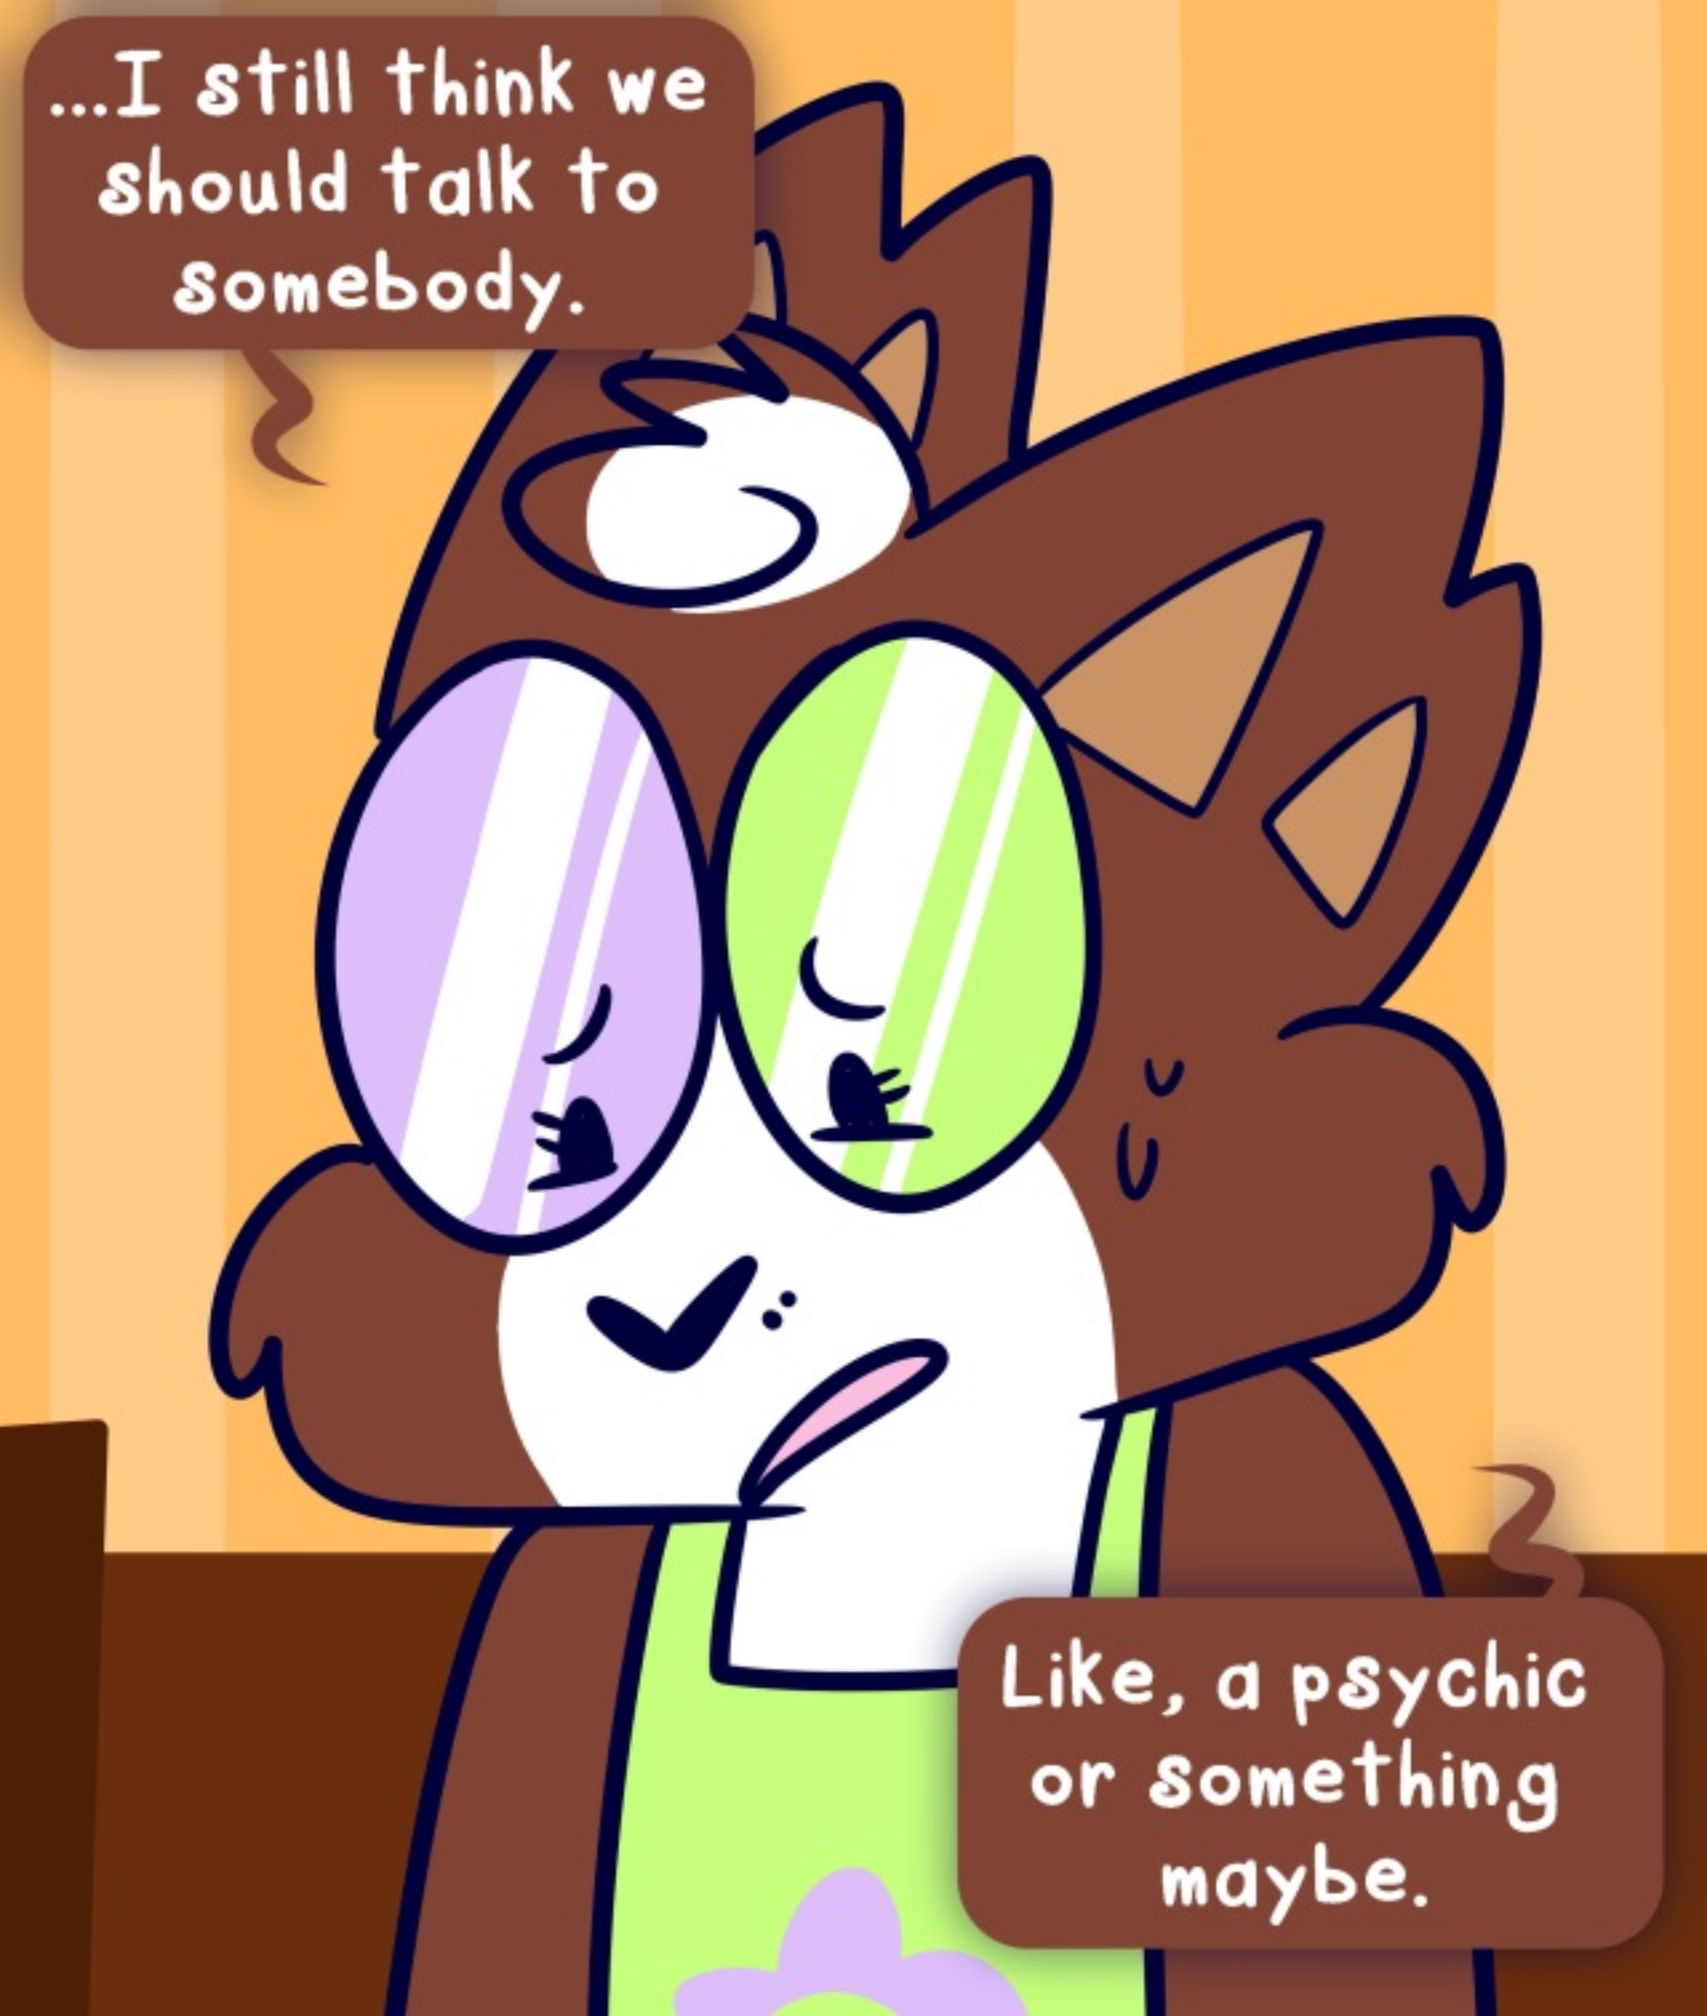


Forever and always.

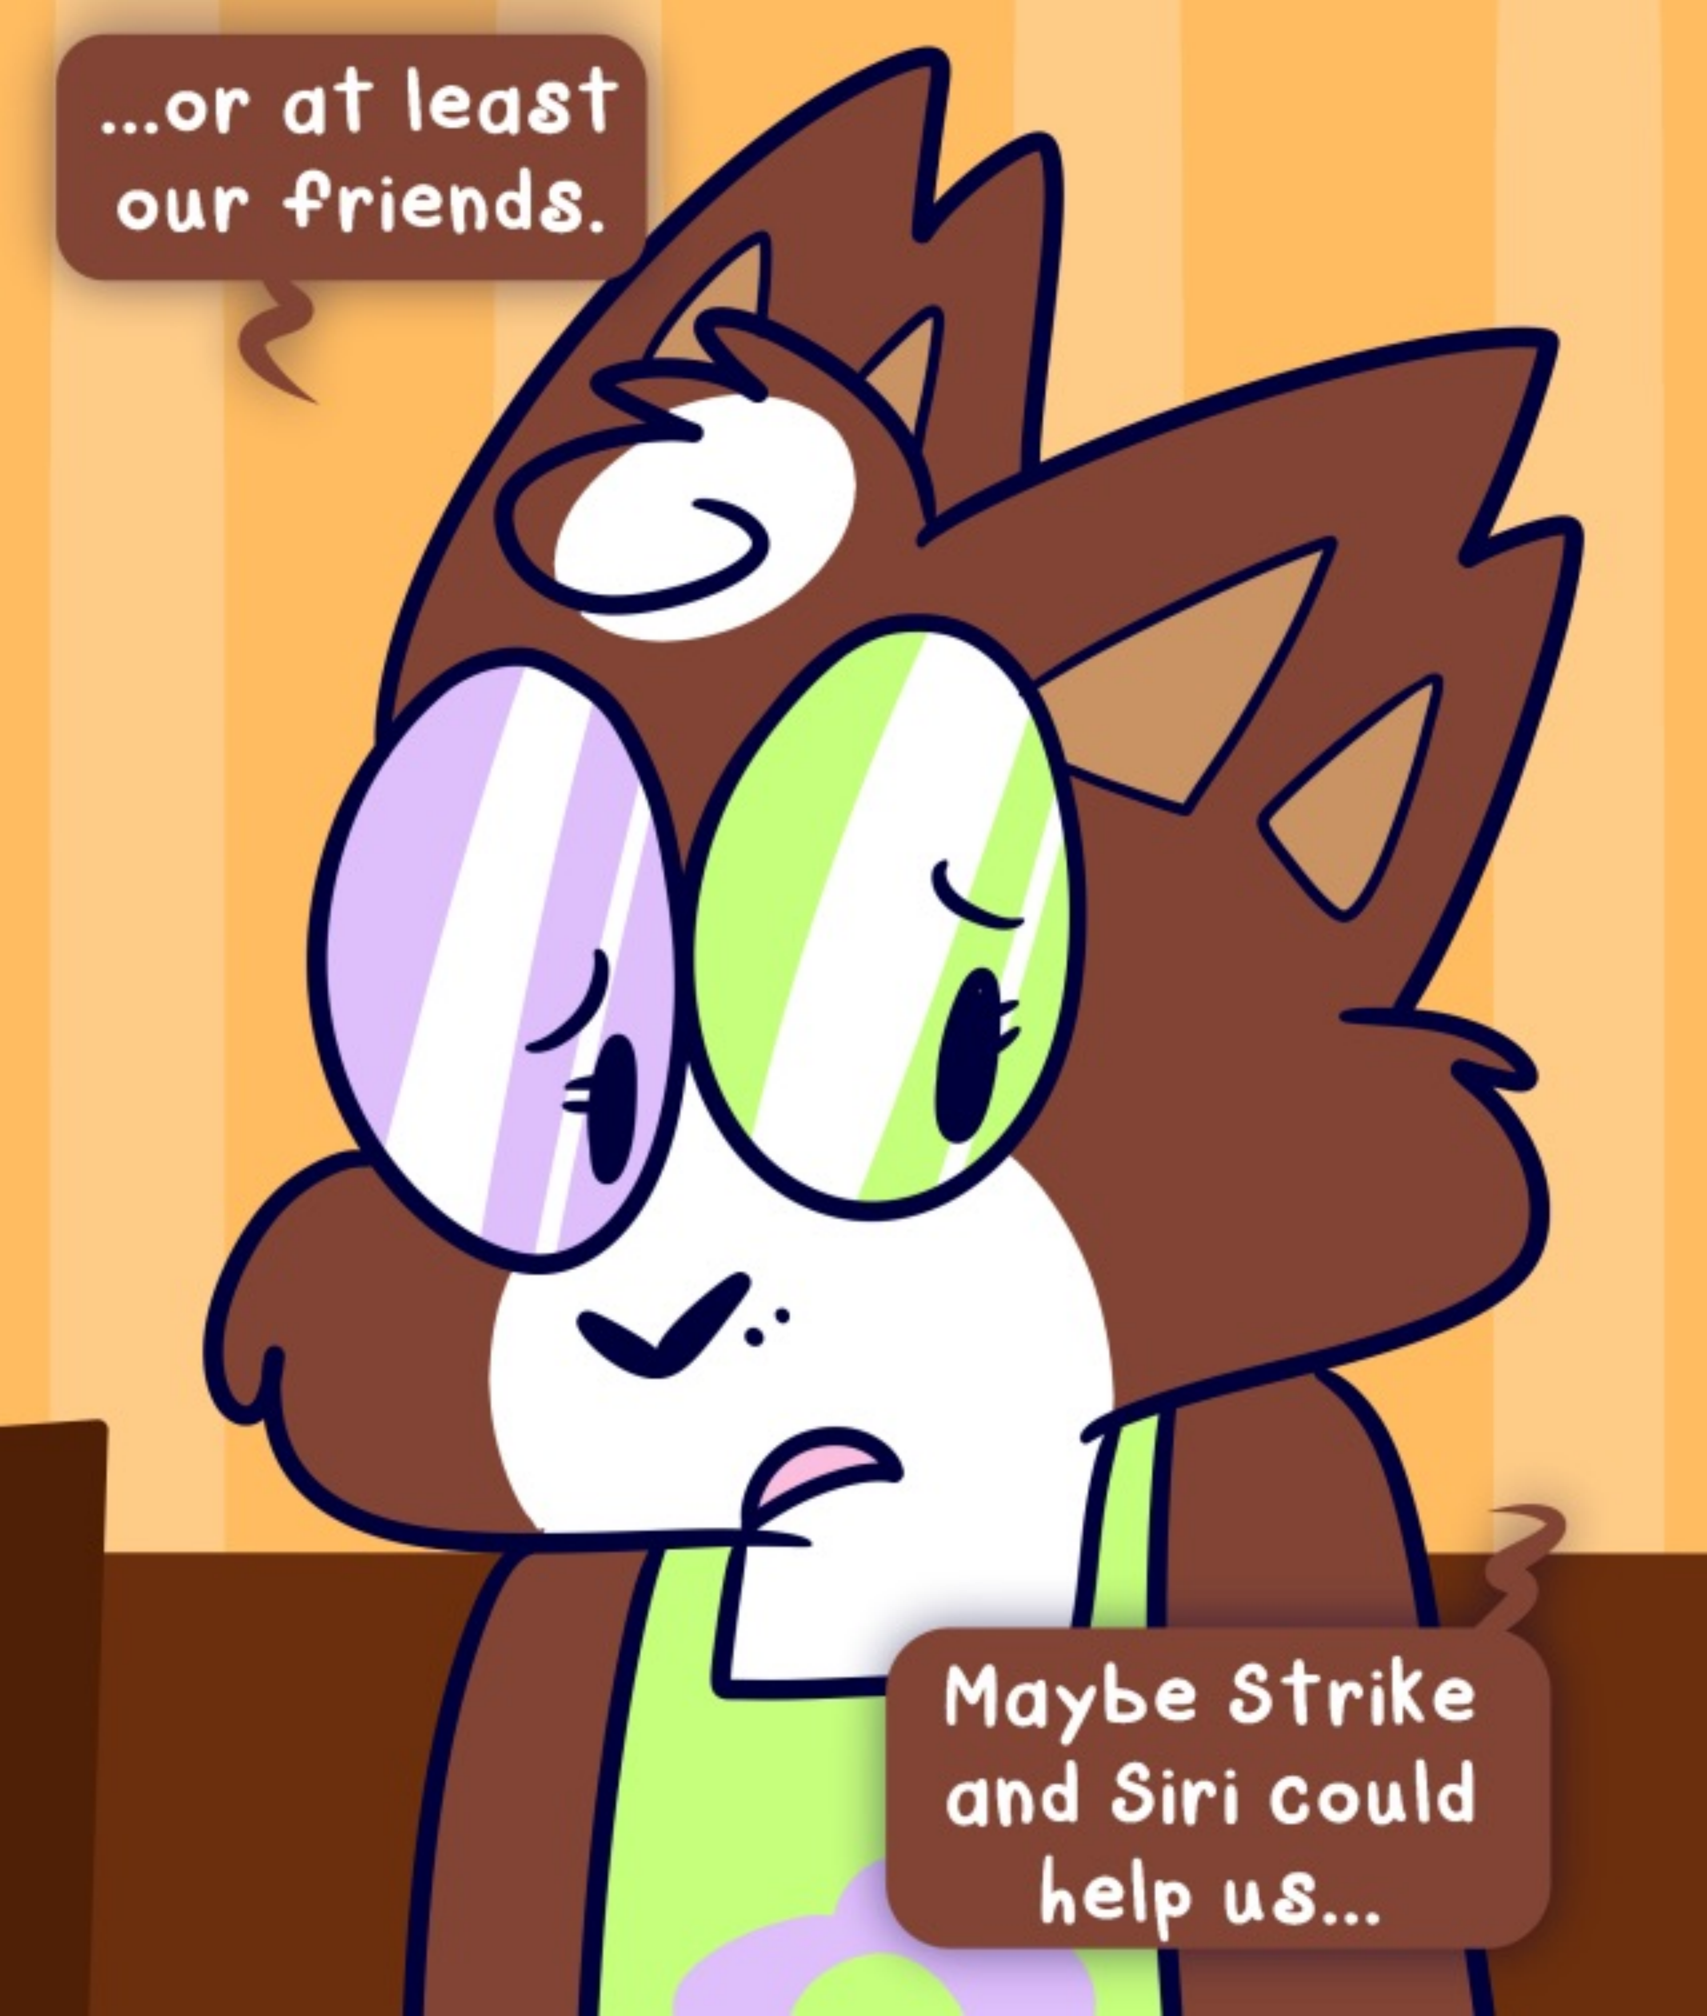




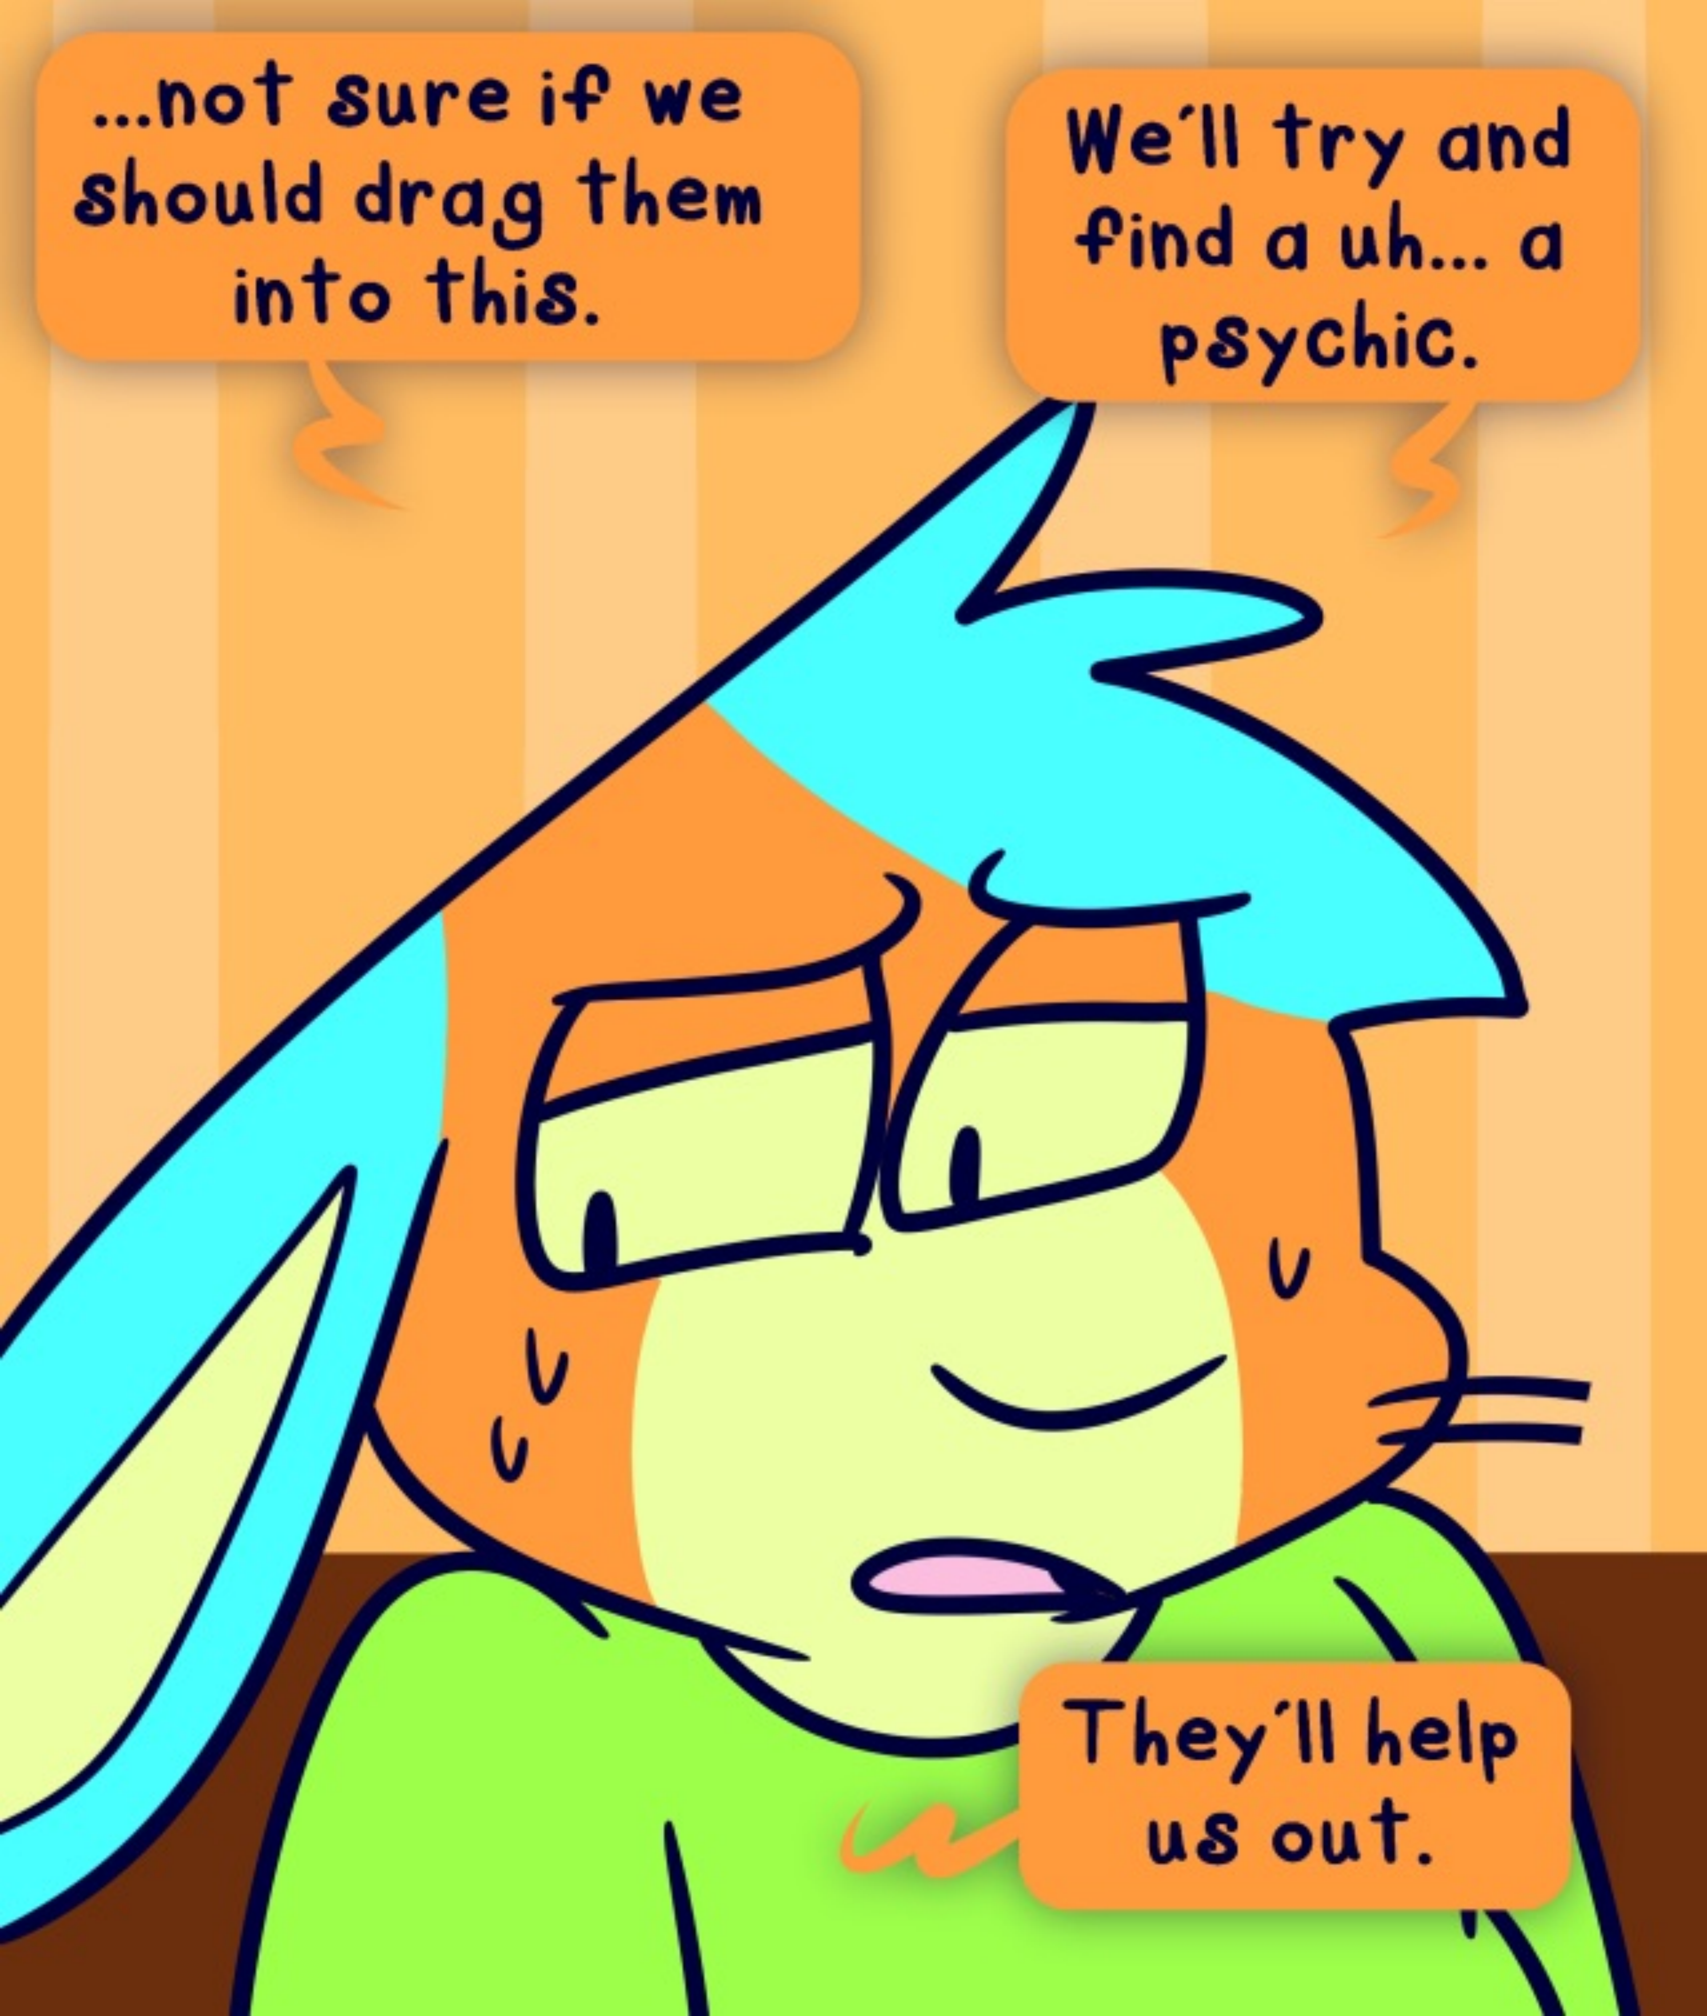
...well... if nothing else, I´m glad you´re not sick anymore.
Yeah, I guess that´s the one upside.



...I still think we should talk to somebody.
Like, a psychic or something maybe.



...or at least our friends.
Maybe Strike and Siri could help us...



...not sure if we should drag them into this.
We'll try and find a uh... a psychic.
